ANOTHER EARTHQUAKE SHOCK CALIFORNIA

SANTA BARBARA TERRIBLY WRECKED AS RESULT OF YESTERDAY'S SHAKING

EDITORIAL

DOMINION DAY

Tomorrow is Dominion Day. It is the fifty-eighth anniversary of the birthday of Canada. It is the one day of the year when all unite to do honor to our own country, the country in which we live and which we claim as home.

To be a Canadian does not mean to have been born in the country. A Canadian is one who is a citizen either by birth or adoption and who is ready and willing to adopt Canadian ideals and to obey Canadian laws.

Canada is an immense country, one that is capable of providing happy homes for many more millions than are here today. Thousands of square miles of fertile lands remain unbroken and all these will in time be cultivated. When that time comes the cities will be much larger, the seaports busier and the railways will be double tracked.

Agriculture must be the first consideration in the country and part of the science of agriculture is the provision of markets. Prince Rupert is one of the necessary factors in the development of Canada and it is wise sometimes to consider this aspect of the case instead of the more petty and selfish aspect of securing personal advantage from the progress of the city.

We must learn to think of Prince Rupert as one of the big entrepôts of Canada. She will prosper only as she is able to serve the rest of the Dominion. If we have elevators here it will be because they will be of advantage to the interior country and not because they benefit us. This is a Canadian city and we must do our part to help develop Canada.

GRAIN CROP IS LOOKING WELL

Wheat in Manitoba and Saskatchewan in Short Blade and 24 Inches High

WINNIPEG, June 30.—A crop report issued here today is most optimistic in its tone. It says that the crops of western Canada continue to show most promising prospects, more promising than for many years past. The growing conditions are good throughout the prairie region.

In Manitoba and Saskatchewan crops are well advanced. Wheat in those provinces is generally in the short blade and is about 24 inches high.

OPENED FIRE ON BRIGANDS

British Gunboat Takes Prompt Action in West River, Near Hong Kong.

HONG KONG, June 30.—An armed British patrol boat protecting shipping in the West River, near here, today met a large body of brigands cruising toward Kowloon. The British opened fire, killing many and dispersing the remainder.

Another Violent Quake at Santa Barbara Today Tales of Ghastly Ruin

Buildings Shook as if at Sea in a Storm; Mrs. Charles Perkins among those Killed

SANTA BARBARA, June 30.—A violent earthquake shock struck the city early this morning, the heaviest since the tremor of Monday morning.

Last evening several shocks were felt but no additional damage resulted.

The death list as a result of yesterday morning's quake, so far as known, remains at nine, one of the dead being Mrs. Charles E. Perkins, widow of the late millionaire railroad magnate. She was killed in the wreck of the Arlington Hotel.

The property damage is estimated by City Manager Walker to be three million dollars and by the city engineer at thirty millions. State Street, the main thoroughfare of the city, is a ghastly avenue of ruin, portions of the most stately buildings being tumbled down and cornices of the walls and the fronts of practically all the principal structures being shattered.

Terror stricken the 30,000 inhabitants of the place have settled down to an emergency existence, many of them living on the lawns in the open.

"I have been through fifty earthquakes but never one like this before," said Manager Richmond of the Arlington Hotel. "It just took the hotel that we thought to be a fortress and shook it back and forth as if it was rag. It was precisely as if one were at sea in a storm. I could not believe it possible for the building to move with such force in so many directions and apparently so limply as did the Arlington. The hotel is a total loss."

Other stories were that the motion of the quake was similar to the twisting of the earth or that it was like a violent storm at sea. The air at the time was very sultry.

Spring salmon has been good throughout the district for gill nets but the trollers have not done so well. The best trolling has been at Queen Charlotte Islands, but even there it is below the average. Spring salmon fishing on the Nass this year is better than last.

VANCOUVER LIBEL CASE IS DROPPED JANET SMITH CASE.

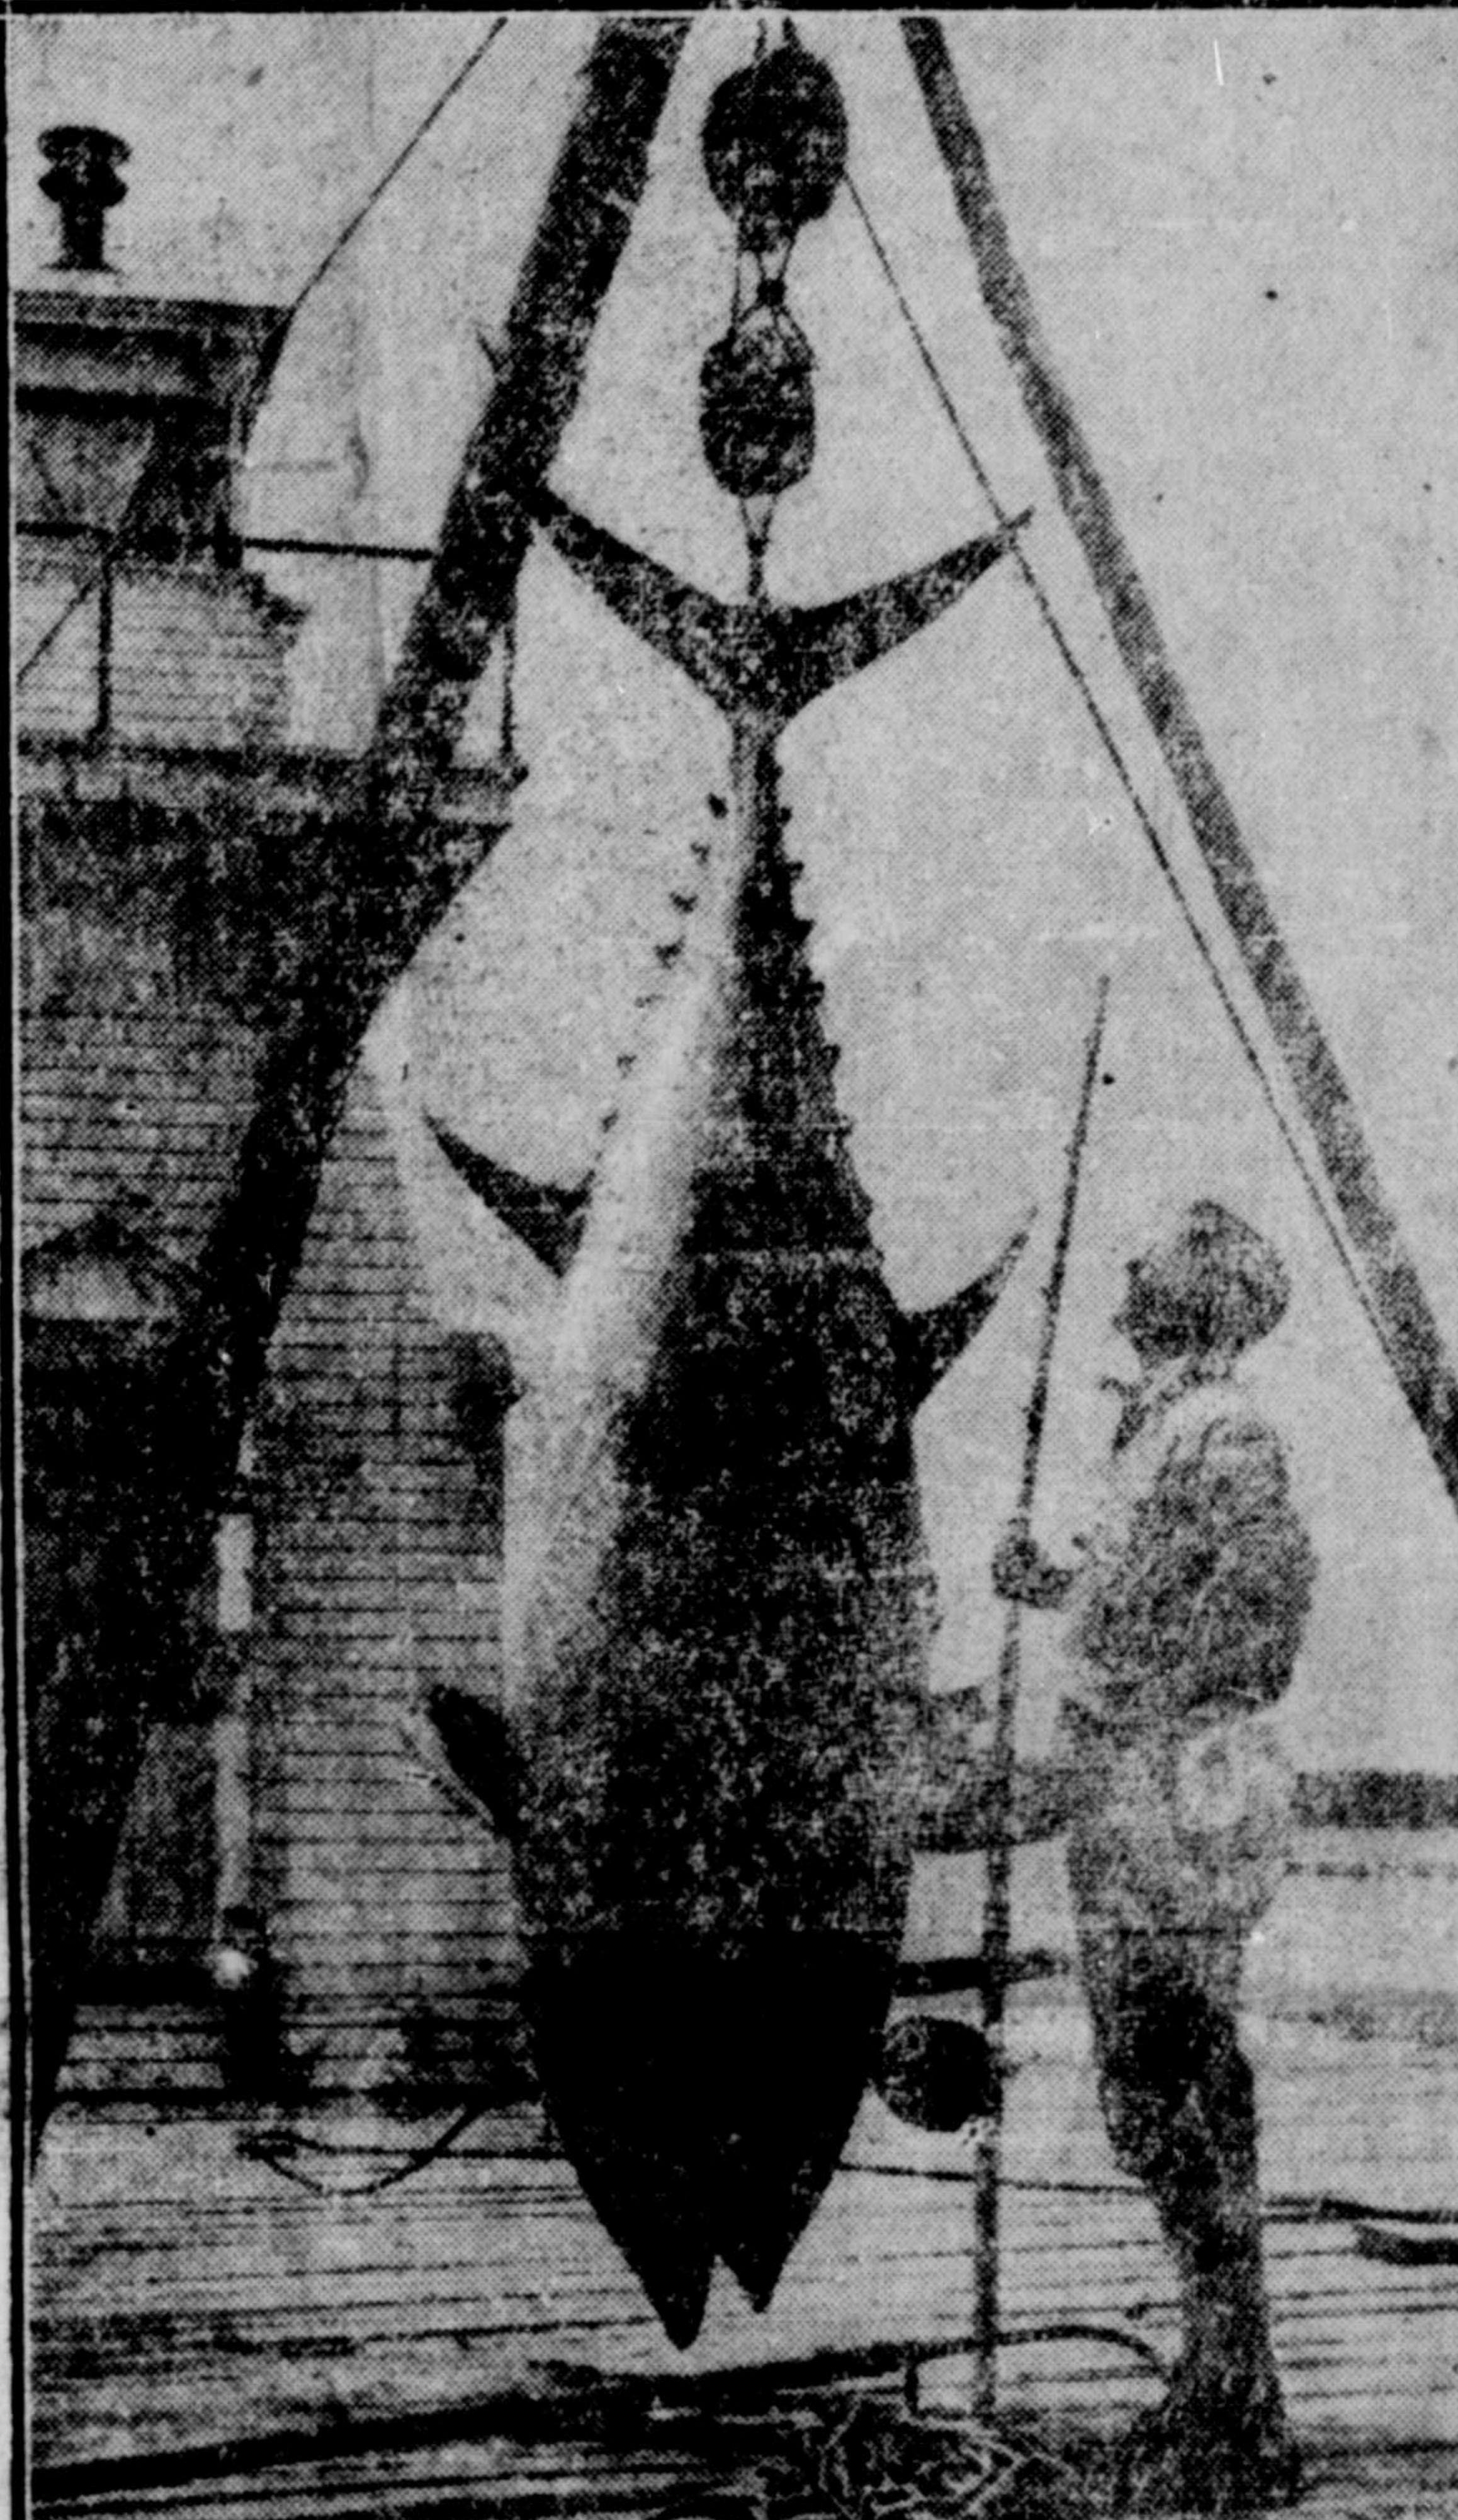

VANCOUVER, June 30.—F. L. Baker announced last night that the slander action against Miss Indian Monica Mason Cooke had been dropped.

According to Baker, Miss Cooke assured him that she had no knowledge of an alleged party in his house the night previous to that on which Janet Smith met her death.

Train Load of Taxicabs Going to Australia by National Way

WINNIPEG, June 30.—A special train of 34 cars loaded with yellow car taxicabs consigned from Chicago to Australia passed through Winnipeg today on Canadian National Railways on the first lap of the journey to Vancouver and thence over seas. This is the second shipment of yellow cabs to be handled by the Canadian National Railway for the company which is placing these vehicles in service in Australia. The initial movement has taken place on the ss. Canadian Importer from Vancouver during last summer.

The train which passed through Winnipeg today carried 100 taxicabs which will be loaded on the steamer Aorangi at Vancouver.

Monster Tuna taken in Nova Scotia waters by Zane Grey, novelist, the largest ever caught, weighing 758 pounds.

Former Dawson Saloon Keeper Buried in Coffin Made at Nome from Mahogany Bar of his Place

NOME, June 30.—Because of a coffin shortage here due to the diphtheria epidemic deaths last winter, Barney Gibney, 69 years of age, a sourdough of Dawson of the Yukon River, Nome and Teller gold rush fame, will be buried in a hand made coffin fashioned from the mahogany bar of the saloon in Dawson of which he was once proprietor.

Gibney died here Saturday from an illness which has lasted three years. He preserved the bar of the saloon when prohibition put the establishment out of business and expressed the wish that it be made into a coffin in which to bury him.

ANDREW PEPALL LABOR CENSURE IN VANCOUVER BRITAIN FAILS

Is To Be Tried At Toronto Under Secret Commissions Act.

VANCOUVER, June 30.—Andrew H. Pepall, under arrest at Los Angeles since January 23 on charges under the secret commissions act, preferred by the Ontario Government in connection with the sale of treasury bonds, arrived here last night and leaves for Toronto tonight.

DOMINION DAY PROGRAM

Morning Admission—Free.
Baseball—Ketchikan vs. Rupert, **1:30 p.m.**
Football—Gaines vs. G.W.V.A., **3:30 p.m.**
Baseball—Ketchikan vs. Rupert, **6:30 p.m.**

Admission—Afternoon and Evening, Adults 50c;
Children Free. Big Dance at Auditorium, 9:30 p.m.

Three Ordered Extradited for Nanaimo Bank Robbery but allAppealed so Case may be Delayed

SEATTLE, June 30.—Ernie Gambertoli, Antone Moresco and Eddie Gorman were ordered extradited to answer to a charge of complicity in the big bank robbery at Nanaimo, when the Royal Bank of that city was looted to the extent of \$40,000, the robbers making a clean getaway in an automobile.

The man have lodged an appeal and it may be months yet before the extradition case is finally determined.

FISH TRAPS ON PIERCE CANAL

Licenses Being Issued by the Department of Marine and Fisheries for That Location

Fish trap licenses are being issued this year by the Department of Fisheries to be constructed on Pierce Canal, the only place where traps will be allowed in this district. These will be located on the shores of Wales and Pierce Islands.

Pierce Canal is said to be too narrow for gill netting and not suitable for seining. On the American side the Alaskan fishing interests have traps in operation and hitherto Canadians have not been allowed to construct them. Now a change in policy has taken place and traps will be operated this year at that location only.

The Canadian Fishing Company already has three floating traps ready for operation and it is possible others may be ready before the season is over. This company has enlarged its cannery capacity in order to take care of the additional supply expected.

BLEW THISTLE DOWN ON BYNG

Governor Honored by Indians at Hazelton by Dance of Welcome and Honor

The Indians of Hazelton gave Governor Byng a novel welcome. Instead of using the modern method they reverted for the time to the old time custom of their savage days and put on the dance that is given only when some unusually great personage comes among them. The feature of the dance was the blowing of thistle-down on the prominent visitor.

When Lord Byng left the dance he was covered with thistle-down, the mark of respect and honor.

ATTEMPTED MURDER AT STEWART CHARGED

Constable Markland, of the Provincial police, brought S. Macdonald, leader of the labor party in Great Britain, against the Government for failure to solve the unemployment problems, was voted on in the House of Commons last night, and was defeated by 373 to 143.

LORD AND LADY BYNG VISITING VICTORIA

VICTORIA, June 30.—Lord and Lady Byng and party arrived here yesterday afternoon for a stay of three days at Government House. In the evening he visited the Army and Navy Veterans' club, speaking briefly.

A new telephone directory is about to be issued. Applications for moves, changes or new listings for this issue must be made in writing to Telephone Department, City Hall, not later than July 4.

Tuesday, June 30, 1925.

Oriental Percentage Gradually Falling.

The report of the minister of labor made through his deputy, J. D. McNiven, tells of a steady falling off in the proportion of Oriental labor in the province including Chinese, Japanese and Hindu. According to that report there were last year only 11,97 per cent of the industrial workers of Asiatic origin. In the year 1918 the proportion was 20.37, in 1920 it was 16.64 and in 1922 it had dropped to 13.85.

The report does not attempt to account for the change but undoubtedly it means that the influx of Orientals has been stopped and the influx of Europeans and the natural increase of Canadians is steadily reducing the Oriental menace and making the Oriental less a factor in Canadian industrial life.

New B.C. Public Service Bulletin.

The Provincial Government has issued from Victoria the first number of a monthly journal "The British Columbia Public Service Bulletin," which deals with the most important matters from a governmental viewpoint taking place in the province during the month. In the first number it deals with the by-election in Grand Forks-Greenwood, mines production, Donkinhorns and education, university land sale, Wembly fair exhibits, Oliver settlement, Lieutenant-Governor's scholarships, vaccination precautions, public accounts, music in schools, industrial development, beer sale regulations, policing of municipalities, Dease Lake mining and women's institutes.

The bulletin is written from a non-political point of view and of necessity deals with questions which have already been discussed in the daily press. One article might be criticized as being out of date and that is the one dealing with the Dease Lake situation. It mentions "a rush which is looked for" whereas everyone knows that the rush, such as it was, is over long ago and the people who went in are now in many cases returning. It is desirable that such a journal should be up to date in its news.

Good To Kill Seals If Good To Kill Sea Lions.

Seals and sea lions eat the same kind of food. They all live on fish, the kind that Prince Rupert people catch. The Dominion government has seen it worth while to send out a vessel and at considerable expense and without any hope of direct return to kill off thousands of sea lions. At the same time they refuse the people of Prince Rupert the right to kill the seals that eat our fish and yet all that is necessary is to annul the treaty with the United States and let the halibut fishermen get a chance at them.

Commissioner Babcock is anxious to protect those seals, but just what benefit the protection is to Canada we have yet to see. If the sealing were thrown open, Canadians would have an opportunity to earn an honest dollar by hunting them and local fur dealers would have a chance to earn a dollar by buying them. As it is everything goes away and we get nothing.

Much Sympathy With Santa Barbara.

We have much sympathy with the people of Santa Barbara. Fire insurance does not cover the loss on buildings shaken down and it will be very difficult to rebuild.

Old Mother Earth shook herself and the ants on the surface were disturbed. A few were killed and others injured and their habitations destroyed. What does it matter? says Mother Earth. There are lots more like them.

Yet to us, who live not far from the scene and who also are in the belt that is likely to be shaken at any time, the condition of the Californians appeals. There is a feeling of kinship which makes us sympathize when ruthless Nature crushes out the lives of a fellow.

SALARY VOTE FOR ENGINEER IS DEFEATED

Mayor Assumes Right To Vote
Even Though There Is No
Tie At Council
Meeting.

CHALLENGED BY SOLICITOR

The discussion on the matter of paying former city engineer Pearson for the month of June was resumed in the council last night. Those participating in the discussion being Aldermen Perry, Casey, Larson and Brown.

Alderman Larson contended that the city would be establishing a precedent in paying this amount which seemed to be in opposition to the stand taken some time back when Rolf Walker left the employ of the city and asked for two weeks' holidays.

At that time the matter was very strongly contended by certain members of the council and it would be a very bad business to attempt something at this time which was not supported then.

Alderman Brown was of the opinion that the money was for June salary to which the Engineer was really entitled.

Alderman Perry felt that the Engineer had really done good work for the city and he knew to his own personal knowledge that he had worked every Saturday afternoon and overtime without any remuneration and felt that he was entitled to salary for June.

Mayor Newton said that he wished to further emphasize that the Engineer had received his salary for holidays which were taken last fall for the year 1925. Further, he said, the Engineer was on several occasions ill and incapacitated for work, and no deduction had been made in the salary, and he could not see that the city was justified in voting money for this purpose.

Alderman Casey referred to the case of Rolf Walker and also to his own experience in the employ of the city as fireman for three years and could not see any justification for the vote. He doubted whether the matter had been properly brought up, as the proper notice was not given and he considered the whole thing out of order.

Upon the vote being taken Aldermen Smith, McDermie, Brown and Perry voted favorable and Aldermen Casey, Larson and McKechnie opposed. The Mayor then said that he would vote with the opponents, which action was challenged by the City Solicitor. The City Solicitor then proceeded to read from the Municipal Act to support his contention, and the Mayor said that he would take such sections to mean that he had the power to vote and he would consequently declare the motion lost, since a tie vote could not carry. Alderman Stephens was not present at the meeting.

Commissioner Babcock is anxious to protect those seals, but just what benefit the protection is to Canada we have yet to see. If the sealing were thrown open, Canadians would have an opportunity to earn an honest dollar by hunting them and local fur dealers would have a chance to earn a dollar by buying them. As it is everything goes away and we get nothing.

CLIMBED MOUNT EDITH
CAVELL IN ONE DAY

Guides at Jasper Made Quick Work on Well Known Jasper Park Peak.

JASPER, June 30.—Setting a new record for the climbing of Mt. Edith Cavell which is over 11,000 feet in height, Heinrich Fuhrer and Hans Kohler, Swiss guides stationed at Jasper Park Lodge, on Sunday, climbed to the peak of Mt. Edith Cavell and returned to their quarters at the lodge before dark the same evening. The climb of Mt. Cavell has previously taken most of two days to accomplish.

Leaving Jasper Park Lodge at 3 o'clock Sunday morning the guides motored to the end of the Cavell highway and then crossed the glacier to begin their ascent from the south side. The peak was reached at 8.05 in the morning and the descent commenced at 9 o'clock. The climbers descending by the back pass, packing their equipment back to the lodge the guides made the return journey and checked in at their quarters at 7 o'clock on Sunday evening, establishing a new record for the scaling of this difficult peak.

Burdock Blood Bitters puts the stomach into perfect shape by promoting proper digestion; and during the past 46 years it has been on the market has made a reputation, second to none, for relieving all stomach troubles.

The Man in the Moon SAYS-

A HICK town is one where even a bum can get unlimited credit.

I DO not mind a person being good as long as he does not air his goodness too much as a comparison with my badness.

WHAT I like about animals is that the moment they have enough they stop grabbing.

WHEN you see suspenderless summer pants clinging close to a round tummy you wonder if there really is such a thing as gravitation.

EDISON says that noise is necessary in a busy world. That accounts for some of the noisy people one hears around Prince Rupert.

A FAMOUS music teacher advises her pupils to smile when singing. It's easy enough for the singer to smile but too often the audience feels like swearing.

IN this part of the country most of the bachelors have piloted safely through June. If they can only pass July there is hope they may escape the wiles of the tempress.

Business in the country will be picking up soon. The potato digging season is coming.

THE latest fish story is of an angler who is also a progressive businessman. He went to Ktada Lake and while there went out with a fish hook in his pants pocket. First thing he knew the fish were jumping out of the water nipping at the pants trying to get at that hook.

They met in the park at the first of spring.

When the lambs gambol and the birds sing.

They loved each other like everything.

Even as thee and thine, they courted at eve in a parlor dim;

They walked an aisle to a wed-

ding hymn,

And their cup of joy was full to the brim—

Even as yours and mine.

The story's as old as "The Prodigal Son."

That two can live as cheaply as one;

But soon they found it couldn't be done—

Even as us and we.

An apartment house with a fancy name,

Was their abode till the heiress came,

And they said, "We'll beat the landlord's game"—

Even as thou and thee.

So they journeyed out from the city's smoke,

And bought a lot where the bullfrogs croak;

They built a house and went quite broke,

Even as me and my.

Each eve they watch the flyers go by,

The mosquitoes sing and the hoot owls cry,

And sometimes wonder and often sigh—

Even as you and I.

Ten Years Ago in Prince Rupert

June 30, 1915.

Dr. Weymouth of Stamford Un-

DOES EVERY MEAL CAUSE YOU DISTRESS?

IF IT DOES
YOU SHOULD TAKE

BURDOCK BLOOD BITTERS

Mr. M. P. Eldridge, Beaver Harbor, N.B., writes:—"I was troubled with my stomach for some time, and everything I ate seemed to distress me. I tried many different medicines, but without any results. Finally I was advised to try B.B.B., and after having taken several bottles I was completely relieved of my trouble. I can now eat anything I wish, thanks to B.B.B."

Burdock Blood Bitters puts the stomach into perfect shape by promoting proper digestion; and during the past 46 years it has been on the market has made a reputation, second to none, for relieving all stomach troubles.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER, 1924.

Has produced Minerals as follows:—Placer Gold, \$77,382,953; Lode Gold, \$118,473,190; Silver, \$68,824,579; Lead, \$70,548,578; Copper, \$187,489,378; Zinc, \$32,1497; Miscellaneous Minerals, \$1,431,349; Coal and Coke, \$260,880,048; Building Stone, Brick, Cement, etc., \$42,225,814; making its Mineral Production to the end of 1924 show an

Aggregate Value of \$859,427,386

Production for Year Ending Dec. 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

N.B.— Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

CHARLES HERE ON FIRST TRIP

Work Still Proceeding on Canadian National Steamer Which Arrived Yesterday.

The steamer Prince Charles reached port yesterday at four o'clock on the first trip after her recent overhaul. She carried a large passenger list in addition to various members of the C. G. M. M. staff and later sailed for Stewart and Anyox.

The casual observer would note considerable change in her appearance since she last visited this port, although at the present time the alterations cannot in any way be said to be complete for she is carrying nineteen mechanics at the present time who are busily engaged in completing the renovation.

Several new staterooms are being installed, which will give more than forty for the accommodation of first class passengers. In addition a new pilot house and chart room, together with many alterations to the observation room and other parts of the ship have been made.

The Prince Charles is captained by Neil McLean, formerly skipper of the Prince John. Among those who are making the round trip are Reginald Beaumont, marine superintendent of the G.G.M.M., accompanied by Mrs. Beaumont; Captain Hilton, assistant superintendent; R. Knox, port engineer.

The Charles sails south tomorrow afternoon.

Vancouver, Lake Louise and Banff enroute for Toronto.

"Andy" Anderson, of the Bank of Montreal, has been transferred to Prince Rupert. R. Bartlett is acting teller until his successor arrives.

Mr. and Mrs. Sessions spent the interval between trains in town.

Mrs. Spencer, of Wanatche, Wash., is visiting her daughter Mrs. A. C. Fowler.

Mrs. R. L. McIntosh was up on Saturday and is at her home at The Crossways.

H. C. Fraser, school inspector, was in town last weekend in connection with the examinations being held this week.

Mr. Hearne of the Lakeside Hatchery, returned Wednesday from his trip East.

Miss Betty Weller, of the Prince Rupert Hospital is spending her holidays at Hill Farm.

Dr. Ewart made a trip to Rupert this week.

Miss Ella Frank returned to Prince Rupert on Monday.

The Terrace Baseball team went up to Hazelton to play the team there. Hazelton won with the score of 20 to 12. Terrace was handicapped by the loss of one of their players, Ted Johnson, who had the misfortune to have his nose broken before the match began.

The Charles sails south tomorrow afternoon.

CAPTAIN McCROSIE KNOCKED DOWN BY CAR

Badly Shaken up But Not Seriously Injured When Struck Near Prince Rupert Hotel

What might have been a more serious accident occurred at the corner of 2nd Ave. and 6th St. last night shortly after five o'clock when Capt. McCroskie was knocked down by a car driven by Fred Lowe. The captain was crossing Second Avenue when the car, which came down 6th St. and was rounding the silent policeman collided with the pedestrian.

The captain, who was knocked down was assisted to his feet by passers by and helped to the Prince Rupert Hotel where he remained for a while to recover from the shock. He was later driven to his home where he is resting as well as could be expected under the circumstances.

Miss Fairbairn and Miss Boyle who have been visiting Mrs. F. Ross for the past two months left on Saturday for the south where they will visit Victoria.

Sport Chat

Jack Dempsey does not like the way the Dawes plan works out. He was under contract to appear in Germany for \$15,000 per week and at the end of his engagement was paid \$28,000. The internal revenue immediately relieved Jack of \$6,000 as his little share towards help paying for the war. Jack says it is all the fault of the Dawes plan.

Miss Gertrude Ederle, United States champion woman swimmer, is in Plymouth, England, and announces that she will immediately start training for the attempt to swim the English channel in July or August.

Considerable interest is being manifested locally in the Canadian Championship Tennis Tournament, which is taking place in Vancouver the week of July 6. From the entries to date it will doubtless prove of interest to many followers of the game locally as many of the entrants are old competitors for honors and there are also many new contestants from various parts of the country.

The world's greatest amateur golfer, without question is "Bobby" Jones. In 1924 he won the American amateur championship; a year after the Open title became his proud possession; after a tie with Cruickshank, one time an Edinburgh amateur. Jones has this time lost his title—another Scot, in Willie Macfarlane, being his conqueror, after one of the longestights in golfing history. After two ties he lost by one stroke.

Tunney, who first started boxing while with the American Army in France, was 27 last month, weighed just under 13 stone at the ringside, and is a remarkable skillful boxer as well as a hard hitter. He gave Carpenter the severest beating of the Frenchman's career, and, like Gibbons, is Irish-American.

W. J. Bailey, the famous English cyclist, and one of the handsomest men in sport, is to be timed in action by John Betts. His muscular activity, as revealed by slow-motion camera, will be a great education to young pathracers.

EDMONTON BASKETBALL PLAYERS ARE ON TOUR

WINNIPEG, June 30.—Members of the Commercial Graduates' Basketball Club of Edmonton, holders of the world's championship, reached Winnipeg yesterday by Canadian National Railways on the first lap of their tour through central and western states. After spending the day here the club left for Minneapolis and later will visit St. Paul, Kansas City, Gutrie, Fort Worth, San Diego, Los Angeles, San Francisco, Portland, Seattle, Victoria, and Vancouver, B.C., thence returning to Edmonton.
