# AIRPLANE SPRUCE CONTRACT FOR NORTH

## PRICE OF WHEAT TAKES SLUMP AND CAUSES EXCITEMENT OF EXCHANGE

### Buckley Makes Contract to Supply Large Quantity of Airplane Spruce to Vickers from Queen Charlottes

VANCOUVER, Jan. 30.—The largest contract for airplane spruce ever let on the continent has been made between Vickers Limited and Frank L. Buckley of Vancouver. The spruce is to be logged on Queen Charlotte Islands and milled on Graham Island and here. It will then be sent to Montreal for proper seasoning before being shipped to the London factory.

The contract calls for the delivery of 2,000,000 feet in 1925 and continuous shipments subsequently.

It is stated that there is more activity in airplane manufac-

turing than at any time before or during the war. British Columbia, it is believed, has the only supply of high grade Sitka spruce on the American continent.

### NEW CREAMERY PRINCE RUPERT IS SUGGESTED

Discussed at Smithers Board of Trade Meeting and will Come up Again

#### WRINCH GIVES ADDRESS

Says Expects Tenders for Government Buildings to be Called in March

### ANTI-TOXIN BY AIRPLANE WILL BEAT MUSHERS

Appeal Sent to Washington from Nome Gets Instant Response

#### GOOD PROGRESS MADE

WASHINGTON, Jan. 30.—Authorization for Ray Darling, agent of the department of justice, to make the airplane flight with diphtheria anti-toxin from Fairbanks to Nome has been forwarded.

FAIRBANKS, Jan. 30.—The dog team relays carrying diphtheria anti-toxin for Nome is due in July, 250 miles from Tanana tonight at midnight. Exceptional time is being made by relay teams carrying the famed serum. Famed mushers of the north predicted that a few dogs in the various teams would be driven to death in order to deliver the anti-toxin.

NOME, Jan. 30.—The diphtheria epidemic yesterday took a turn for the worse and citizens sent a vigorously worded appeal to Washington to allow the anti-toxin from Juneau due at Tanana on February 3, to be sent thence by airplane, thus beating the dog team now on the way by several days. New cases are reported and only one good dose of six year old serum is left.

### TUG VULCAN WAS BURNED

Beached at Denman Island Near Comox and Men Jumped for Lives

GOURTENAY, Jan. 30.—The whole strait between Vancouver Island and Denman Island was lit by a tremendous blaze last night when the tugboat Vulcan, whose tanks contained 160 barrels of oil, was burned to the water's edge. She was proceeding from Comox to Nanaimo Bay with tow logs. Seeing it was helpless to fight the blaze, Capt. Johnston told the men to beach the boat and jump for their lives. All were saved.

Denman Island is only a few miles from Comox and the Strait between it and Vancouver Island is not very wide.

### B.C. NEWSPRINT TO BE SHIPPED FAR AFIELD

MONTREAL, Jan. 30.—Newsprint manufacturers of British Columbia have recently developed new markets in Cuba, the West Indies and South America.

Miss Christabel Pankhurst of London, internationally known orator and Bible lecturer, is now in New York, which is her first stop in an American and Canadian tour.

### Sir Henry Thornton Tells U.S. People State Ownership of Lines Was an Economic Necessity Here

INDIANAPOLIS, Jan. 30.—"Canada has a state owned railway system of twenty-two thousand miles of line, but this was not brought into existence as the result of a studious examination of the merits of public as against private operation of railways. It was an economic necessity." This was the declaration made last night to six hundred railway and industrial traffic experts at the annual dinner of the Indianapolis Traffic Club, by Sir Henry W. Thornton, born at Logansport, Ind., and now president and chairman of the Canadian National Railways.

The reasons underlying the creation of the state-owned railroad system in Canada were imperfectly understood in the United States, said Sir Henry. The Dominion decided to bring the National Railways into being only when threatened with a cessation of transportation facilities on a great mileage built by railroad corporations, largely through undeveloped territory. He did not see how any other course could have been pursued by the Canadian government.

The situation facing the National Railways being substantially that which had to be met by every road west of the Mississippi River in the early days of the railroads. If the problem was tackled with the same energy and the same wisdom the history of Canada would be the same story of development that had been told in the United States.

When the Canadian National Railways would earn sufficient money to pay all its first charges would be decided by the rapidity with which Canada increased in population.

The dinner, one of the largest in the history of this city, was attended by men prominent in the business life of the East and the Middle West.

Among the speakers were Lieut. Governor Van Orman of Indiana and Judge Baggett of Ohio. Governor Jackson of Indiana welcomed Sir Henry to his native state at a luncheon at the Indianapolis Athletic Club.

WINNIPEG, Jan. 30.—The Goulding and Portage Avenue branch of the Bank of Montreal was held up yesterday. It is the same office that was looted of \$2,000 last May by Frank Martin, a drug fiend. The bandit was later killed by a pursuing detective. This time the gunmen got about \$1500.

### LONE BANDIT STOLE RINGS

Took Two Thousand Dollars Worth From Vancouver Jewellery Establishment

VANCOUVER, Jan. 30.—Entering the jewellery store of J. F. Higginbotham last night a lone bandit held up the proprietor at the point of a gun and escaped with diamond rings valued at \$2,000.

### Wheat Bubble Burst Suddenly at Winnipeg Yesterday When Drop Ten Cents a Bushel was Recorded

WINNIPEG, Jan. 30.—The speculative wheat bubble burst yesterday when an avalanche of selling orders sent prices tumbling downwards as fast as Wednesday's bullish movement sent them skyrocketing.

The wildest scenes ever experienced here occurred when a drop of ten cents was recorded.

The landslide came unexpectedly with little chance for anyone to get out from under.

The closing price for wheat yesterday was 214 1-8.

CHICAGO, Jan. 30.—Wheat was denied at Ottawa yesterday afternoon.

A woman, Mrs. Scott Durand, is estimated to have made a million and a half dollars in specula-

### Museum of Goods Found Chinaman's Room and Charge of Theft Laid

When City Police Sergeant A. H. Bailey shortly before o'clock this morning, following up information he had received during the night, entered the room on Third Avenue of Wong Ying, Chinese cook for H. St. G. Lee, he found a depot of alleged stolen goods amounting to several thousand dollars which the police expect will account for several systematic burglaries and petty thefts that have taken place in the city over a period covering possibly several years. The goods found in Wong Ying's room include all manner of articles among which were men's coats and pants, ladies' coats, dresses and petticoats, lingerie, coat hangers, fancy soaps, silverware, blankets, perfumes, henna dyes, fountain pens, fishing lines, Indian baskets, cigarettes, stamps, cigarette cases, jewelry, pen-knives, umbrellas, French Ivory toilet ware, pearl necklaces, earrings, caps, etc.

The goods are believed to have come from many different sources, among them Joe Bent's lingerie shop, Steve King's gent's furnishing store and Mrs. Goldblum's ladyware shop.

This morning Wong Ying was brought up before Magistrate McGlynn and charged with stealing a \$20 coat, the property of Mrs. Bent, and was remanded for eight days. Other charges will be preferred when the police have complete tabulation of the goods which they started this morning. After three o'clock this afternoon the articles will be on view for identification. Wong Ying, at the instance of City Solicitor E. F. Jones who is handling the prosecution, was denied bail.

Wong Ying's arrest was led up (continued on page four)

### THE ANNUAL MEETING

of the  
Prince Rupert Liberal Association will be held in the  
Metropole Hall

Friday Evening, January 30

at 8 p.m.

F. Stork, M.P., and other will address the meeting.  
All supporters cordially welcome.

### JACK DEMPSEY HAS FINISHED

Will be Married in May and has Given up his Ring Career

LOS ANGELES, Jan. 30.—Jack Dempsey announces that May twentieth marks the end of his ring career and the termination of the business partnership with Jack Kearns, his manager, and his second entrance into the state of matrimony. He will marry Estelle Taylor, the movie actress.

The heavyweight king has fought his last ring battle, he declares. His retirement is at the behest of Miss Taylor, who prefers a businessman to a pugilist as a husband.

The holdings of Dempsey and Kearns will be divided and they will go their separate ways.

Other reasons given for quitting is that there is no contender in sight who is able to give a real battle and Dempsey has a fortune, making him independent of the fat purses offered by promoters.

### CAPT. ORMISTON DIED YESTERDAY

Well Known C.P.R. Skipper Passed Away in Victoria — Survived by Family

The death occurred in Victoria yesterday morning of Capt. S. Herbert Ormiston, well known here as master for many seasons of the C.P.R. steamers Princess Alice and Princess Mary. Word to this effect was received yesterday by his brother, Capt. Harry Ormiston, skipper of the lighthouse tender Newington, who proceeded south on the Prince Rupert this morning.

The death of Capt. Ormiston will be mourned all along the coast for he was very popular with the travelling public and made many friends in all ports his boats entered. He was a veteran with the Canadian Pacific Coast Steamship Service and was one of the senior captains of the company despite the fact that he was a comparatively young man, about 45 years of age. He was a native of Cape Breton but had been on the B.C. coast for many years. A widow and family, residing in Victoria, are left to mourn his demise.

The big Red truck of the Rupert Table Supply Co., driven by James Weir, and the Canadian Laundry delivery car, driven by Sam Currie, collided at the Totem Pole corner on Second Avenue at noon today when there was a misunderstanding of right of way signals. Both cars were slightly damaged but the drivers escaped unharmed.

## THE DAILY NEWS

PRINCE RUPERT - BRITISH COLUMBIA

Published Every Afternoon, except Sunday, the Prince Rupert Daily News, Limited, Third Avenue, H. F. PULLEN, Managing Editor.

Member of Audit Bureau of Circulations.

DAILY EDITION

Friday, January 30, 1925.

## Forgets Rupert Is On The Map.

The British Columbia Financial Times of Vancouver has a leading editorial article on the Peace River transportation problem in which it seems to forget that Prince Rupert exists or at any rate it leaves that port out of its calculation. It mentions Stewart as a possibility and of course makes Vancouver the hub, which is excusable if it only gave Prince Rupert a just share of attention.

The Times urges that the line should be built through British Columbia, tapping what is known as the Peace River block of land which belongs to the Federal Government. That is the same thing that all British Columbians are asking. It would add to the strength of the argument in its favor if the Times had added that an elevator is being built at Prince Rupert by the government with a view to handling part of the Peace River crop and that the nationally owned line to Prince Rupert would be a factor in the transportation problem for that section of the country.

## Peace River Transportation A Difficult Problem.

Yesterday Henry Hill, now in this city and formerly a farmer of Clearmont, about 25 miles south of Spirit River in the Peace River country, called at the office and discussed the transportation problem. He thinks the intention is to build the Brule line as the nearest route and quickest to build. The line zigzags through a broken country and would be about 175 miles long, coming out at Obed, east of Brule. There would be little new country opened up but the district now cultivated would be tapped, which is what the Peace River people want. At present he says they pay fifteen cents a bushel to get their grain to Edmonton.

A line built through one of the passes, possibly the Peace River pass, to the coast would open up a new country with rich farm lands and could reach the main line at either Prince George, Vanderhoof or Hazelton. Many favor the Hazelton route and it is pointed out that only a few years ago that was the route Premier Oliver favored. The matter of route, however, would have to be finally settled by engineers.

Whether the P.G.E. is to be a factor in the solution of the problem of course depends upon the report of engineers. At any rate Prince Rupert people would rather have the line if possible come through British Columbia territory and if the P.G.E. can be disposed of in connection with the route, the province will be that much the better off. From information at present to hand the line will be of more value to the Peace River country and to the railway company if it comes out through B.C.

## Value Of Work Of Provincial Member.

The attention of the Daily News has been drawn by a local resident to the fact that Hon. T. D. Pattullo did a lot of useful work in connection with the securing of an elevator for this port. He used his influence as a member of the British Columbia government to have this port recognized. Also delegations went from here from time to time in connection with the proposal, all having an influence on the final result. We are well aware that Mr. Pattullo never misses an opportunity to work for the benefit of this district and his influence in a matter of this kind is worth a great deal. Much of his work is done without ostentation and we are glad to be able to acknowledge its value.

## Watching The Return Of The Longer Days.

We are all watching the return of the longer days. Every morning the change is particularly noticeable and the evenings are already shortening. This variation of the seasons is one of the chief charms of the north country and Prince Rupert is about the farthest north that it can be enjoyed in comfort. Much farther north the nights are so long in winter that it is difficult to carry on winter work.

In tropical and semi-tropical countries people who have lived in the north long for a little snow, for a touch of frost, for the keen bracing air, for the winter evenings with Christmas as the outstanding feature, and for the long summer days, all of which are denied them. Here we are apt to long for the warmth and sunshine of the south. Those who have experienced both are usually quite satisfied to live where the lengthening days are the harbingers of spring.

**These Cubes**  
are Real  
**Money Savers Because**

Though small in bulk, they are very high in food value—concentrated, pure, rich nourishment from the best prime beef, with no waste.

Oxo Cubes add variety to your cooking and enable you to use food which might otherwise be wasted. To new dishes they add the finishing touch—to old ones they give new life and tastiness, transforming "Left-overs" into appetizing delicacies.

Try Oxo Cubes in soups, sauces, gravies, stews, hash, meat-pies, paste for sandwiches, or for beef tea and other hot drinks.

**Oxo Cubes in tins of 4 - 15c. and in tins of 10 - 30c.**

## The Great Beef Economy

## RETAILER AND HIS CUSTOMER

## Fred Stork Gives Talk to Rotary Club Along Line of Business Ethics

About once a month during the present year it is proposed by the business ethics committee of the Rotary Club to have an address or a discussion on some phase of business ethics and the first of these took place yesterday when Fred Stork addressed the club at their weekly luncheon in the St. Regis Cafe. F. G. Dawson is chairman of the committee in charge of this course and he presided yesterday.

In his address yesterday, Mr. Stork said the present system had been largely one of evolution. It had been adopted as the result of experience. In Ontario he remembered the time when many manufacturers sold their goods by means of wagons sent through the various districts. Now all the business was done through legitimate stores and by up to date commercial travellers.

## Buying Goods

Speaking of his own business, Mr. Stork said they usually bought one line of goods from the same manufacturer all the time. They handled one line of paint, one line of tinware, one line of enamelware, one line of aluminum and so on right through. The relations with the firms from whom they dealt were most cordial and he seldom had occasion to write them.

Telling then of the relations with the customer, Mr. Stork said they had had circulars from sales agents wanting to handle their stocktaking sales for them on commission. These had been invariably turned down. In their line forced sales were of little benefit either to the merchant or the purchasers.

Mr. Stork said that more and more the tendency was toward the cash system of doing business. It had been adopted very largely in Canada and those firms who did not consider themselves strong enough to institute the cash system had usually been crowded to the wall.

No one asked to have a railway ticket charged and a good many other lines of business did not give credit. He thought it would be better if hardware men conducted their business along the same line. Retailers took too many chances.

Summing up Mr. Stork said the relations between retailer and customer, if successful, came back to the one idea for which the Rotary Club stood, that of service. The retailer was there to serve the public.

Mr. Dawson read an outline of the series which it was proposed to discuss as proposed by Rotary International headquarters.

The Man in the Moon  
SAYS:-

WHEN the shiek enters the room you notice the eclipse of the sun.

SOME people say they would like to give the police a jolt. How would it be to drive them around some of the streets in a Ford.

IT is rather annoying now at the last minute to have the Seventh Day Adventists come in and say that the world is not coming to an end on February 6. I was rather hoping it would.

THE reference to Mac being on the waterwagon in this column yesterday was to apply to no less than six Scotchmen and two Irishmen. The Scotsmen were on the water wagon and the Irishmen on the beer wagon. There was a lone Englishman (said his name was Mac but I didn't believe him).

WHAT I liked about the ball last night was not the gowns although they were pretty, or the powder although it was plentiful. What I liked was the supper.

Ten Years Ago

Joe Boyle of Dawson was a passenger on the Princess May yesterday afternoon bound south

BILIOUS AND  
SICK HEADACHES  
ARE CAUSED BY  
CONSTIPATION

Once you allow your bowels to become constipated you will become troubled with bilious and sick headaches, and for relief you must help your liver to remove the poisonous bile that is circulating in the blood and upsetting the entire biliary system. For this purpose there is no other remedy to equal

MILBURN'S  
LAXA-LIVER PILLS

Mrs. L. G. Nethercott, R. R. No. 1, Crinan, Ont., writes:—"I was awfully troubled with constipation, and sick and bilious headaches accompanied with severe vomiting spells which made me very miserable. I tried different remedies, without relief, but since taking Laxa-Liver Pills the headaches and constipation have disappeared, and I am very thankful for what they have done for me."

For sale at all drugists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

on business. It was Mr. Boyle who organized and assisted in outfitting the famous Yukon overseas contingent which passed through here in the fall.

Judge F. McB. Young, J. A. Kirkpatrick, George W. Morrow, Dr. W. B. Clayton and O. H. Nelson were last night unanimously elected directors of the Prince Rupert General Hospital Association. D. G. Stewart, who has been elected president of the Board of Trade, asked that he be allowed to retire as president of the hospital association.

Reports are received that shipments of fresh halibut recently made to Great Britain arrived in good condition. Prospects of increased trade with Prince Rupert in this commodity are good.

ONTARIOITES  
VISIT QUEBEC

Officials, Professional and Business Interests Represented in Party Now on Tour

OTTAWA, Jan. 30.—Bound for Quebec City with a view to further cement the cordial relations which exist between the sister provinces of Ontario and Quebec, almost 200 prominent professional, financial and business men left Toronto last night on two special Canadian National Trains for the ancient capitol of Quebec, where they are the guests today of His Honor the Lieut. Governor and the province.

The party which is making the trip in return to the one made

last year by the prominent residents of Quebec in connection with the Bon Entente celebration,

is one of the largest and most representative which has ever left Ontario, and constitutes the biggest single special operation in Toronto transportation, for a party of this nature. His Honor, Colonel H. Cockshutt, Lieut. Governor of Ontario, and Honorable G. Howard Ferguson, prime minister of the province, headed

Provincial Cabinet Ministers, His Grace Archbishop McNeil, Sir Joseph Flavelle, Sir Hugh Pointner, Major General Hon. C. S. Mewburn, Dr. R. Bruce Taylor, principal Queen's University, Dr. Hartley Smith, president of the

Academy of Medicine and other leaders of commerce, education and finance in the province. In railway circles G. G. Bow-

ker, general manager central region, Canadian National Railways, head of the national representation, accompanied by W. A. Kingsland, assistant general manager, J. B. McLaren, controller, Fred Buller, treasurer, R. H. Fish, general superintendent southwestern Ontario district, W. R. Devenish, general superintendent northern Ontario district, Lorne Macdonald, assistant freight traffic manager, H. C. Bourlier, general passenger agent, W. G. Riddell, advertising agent.

Proceeds to be devoted to the hospital.

MONUMENT TO DOG HAS BEEN ERECTED

DARIEN, Wis., Jan. 30.—A bronze reproduction of a pet Scotch collie dog, Lassie, tops the monument placed by Charles H. Langs at the grave of his wife, Mrs. Jennie H. Langs, in the little country cemetery here. Beneath the recumbent figure of the dog is this inscription: "Be Kind to Animals."

Lassie, a blooded collie, died several years before Mrs. Langs.

The Langs devoted much of their time and part of their income to the care of animals and humane work. Mr. Langs explained that in placing the reproduction of Lassie at Mrs. Langs' grave he not only regarded it as a tribute to his wife's memory, but believed it would be a lesson in the general subject of kindness to animals.

The improvement in sterling per cent of exchange is credited with the new market interest in B.C. fishing says the Financial Post.

Canada's export trade is bound to improve and it is believed that this concern should share materially in this improvement. B.C. Fishing looks to the British market to absorb its surplus product, although Australia is now becoming an important factor. The Baldwin Government is said to favor allowing only the British Columbia brand to be marketed in England as sockeye. This would give an important advantage over the Japanese product from the Siberian production as the bulk of the English demand is for sockeye.

The 1924 pack of the B.C. Co. was 272,627 cases compared with 240,643 a year ago. Sockeye increased from 99,175 to 111,903 cases and chum 18,125 to 34,318 cases. The 1923 pack did not go off very well with the result that 142,379 cases were carried over. The last report was that sales close to the end of December totalled more than the total of the 1924 pack, leaving

## WESTHOLME THEATRE

Friday and Saturday at 7 and 9, and Saturday Matinee at 3.

A Cecil B. De Mille Production.

## "FEET OF CLAY"

A photo-play, light, frothy, humorous, as modern as rolled stockings, so modern it might have been written an hour ago. Typically De Mille and you know what that means — luxury and gorgeousness linked with a logical, dramatic, pictorial story. Beach scenes full of color and girls; twenty performances of the "Follies" could not begin to compare with them. Yachting scenes, mah jong played on an air mattress in the water, jousting matches between beauties mounted on "sea-horses," surf board races and thrilling fight with a real shark, teeth n' everything, are amongst the many high lights of this spectacular, magnificent comedy-drama. Expensive! Exquisite!

Distinguished cast: Rod La Roque, Vera Reynolds, Victor Varconi, Theodore Kosloff, Robert Edeson, Julia Faye and many others.  
**TOPICS OF THE DAY**

Admission 50c and 25c.

## U.S. EMPLOYERS STOP LIQUOR

Prohibits its Use by Any of Their Employees

WASHINGTON, Jan. 30.—It is the observation of Prohibition Commissioner Haynes that public opinion, expressing itself through various channels ranging from great industrial corporations to the theatre, is making easier the enforcement of the prohibition law. The addition of the name of the Colorado Fuel & Iron Company to those of other concerns which have forbidden their employees the use of intoxicants, has just been recorded at enforcement headquarters. Scores of employers, Mr. Haynes says, have posted notices in their establishments that users of liquor will be automatically dismissed.

### Posts Notice

The Colorado Fuel and Iron Company gave to each of its workers this notice: "This company is going to get along in the future without the services of

## A BAD COLD DEVELOPED INTO BRONCHITIS

Mrs. Levi Ogden, Amherst Shore, N.S., writes:—"My baby girl had a very bad cold which turned to bronchitis, and she could not sleep at night for the coughing. I gave her everything I could think of to relieve her, but nothing seemed to do her any good, and she was not getting any better. I was advised, by a friend, to try

## DR. WOOD'S NORWAY PINE SYRUP

I did so, and after giving her a few doses I saw good effects so I kept on with it. I gave her two bottles, and her cough soon left her, and now she is as well as can be. I cannot praise Dr. Wood's enough; it is certainly a wonderful medicine."

This preparation has been on the market for the past 35 years; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

bootleggers and their customers. We class as bootleggers all those who manufacture, sell or distribute intoxicants either personally or through agents or members of their families. Such persons will be discharged on evidence satisfactory to the management without waiting for conviction in the courts."

The management held that a man under the influence of liquor was a dangerous element because of the many chances for disaster underground through carelessness.

An even more drastic rule was recently laid down by Henry Ford, and numbers of hotels and restaurants have acted to banish liquors from their premises. One hotel, Mr. Haynes says, forced its employees to sign a pledge to not sell liquor and as an added precaution employed detectives to search the waiters when they appeared for duty.

### No Prohibition Jokes

Some theories have banned jokes on prohibition from their stages, and one insurance company is asking applicants whether they drink bootleg liquor. Mr. Haynes declares. A western city advised its employees that use of liquor would result in dismissal, and caused each worker to give his signature as evidence that he had been warned.

Intemperance was never wise, economical or safe, in the opinion of Commissioner Haynes, but it is infinitely less so now than ever. "Amid the powerful inventions and hurried life of today sound bodies, steady nerves and sober judgment are indispensable to life. This fact is recognized everywhere."

## IS OPPOSED TO HIGH TARIFFS

President of Saskatchewan Grain Growers Talks of Separation From East

(By Canadian Press)

REGINA, Sask., Jan. 30.—Directing a thunderous broadside against the tariff policy of the Dominion government, George F. Edwards, in his presidential address before the annual convention of the Saskatchewan Grain Growers' Association here declared that continuance of such an un-national and short-sighted policy would inevitably lead to a definite break between Eastern and Western Canada.

He further castigated the federal government for not giving greater attention to the problems of the farmer. The unfavorable conditions of the basic industry of the country, he maintained, was well known to the government and all business interests in Canada, but a spirit of apathy and indifference seemed to be a more preferable course for these interests to follow.

"We in the West, believe that we have never been fairly treated by the governments of Canada, irrespective of party, with respect to the fiscal policy of the country during the past 10 years," Mr. Edwards said. The protective tariff he characterized as "one of those hampering disabilities," which had been raised particularly to foster manufacturing interests, without giving thought to the consequent hardships brought upon the agricultural industry.

### No Compensation

"There never has been and apparently never will be, any advantage that will accrue to the Western country to compensate for the increased price they have to pay for all their
