MARQUIS CURZON OF KEDLESTON IS DEAD

BRITISH GOVERNMENT TO INCREASE EXPENDITURES ON NAVY FIVE MILLIONS

Lord Curzon Died Today
was Statesman of type
seldom seen these days

and Distinguished Career Following Brilliant
Showing at Oxford University

LONDON, March 20. — Marquis Curzon of Kedleston is dead, aged 66, following an illness which those close to him have known for some time could end only one way. It is only within the past days, however, that the public have realized that of the prominent statesmen of the day was about to pass. Great Britain is mourning an illustrious son, an ardent imperialist, and a representative of the type of statesmen that is fast disappearing.

International Salmon Treaty Proposed by Conference and Wholesale Tagging of Halibut

VICTORIA, March 20. — Efforts to secure an international salmon treaty between Canada and the United States will be made immediately by government authorities on both sides, according to J. P. Babcock, chairman of the new international fisheries commission and assistant fisheries commissioner for British Columbia, on his return from the conference at Seattle. Arrangements have been made to have California, Oregon, Washington, British Columbia and Alaska tag salmon taken from their respective waters between April and May each year to show whether salmon migrate or—if various runs are native to particular districts. Similar experiments will be carried out north of Beate Straits with respect to halibut. The two governments will send a specially equipped halibut schooner to the banks to catch, tag and liberate the halibut. This will be the first attempt to mark halibut in this manner.

British Increase Navy Estimate by Millions yet keep within Treaty

LONDON, Mar. 20. — The Baldwin government has increased the navy estimates by five million pounds, explaining that the reductions made by the former Labor government were excessive.

In introducing the estimates into the House of Commons the First Lord of the Admiralty declared that all the obligations of the British government to the Washington disarmament treaty had been carried out. A number of ships had been scrapped and the building of new vessels brought down to a minimum.

KEEPS ON DIGGING IF TIMES ARE GOOD OR BAD REGARDLESS

That hard times mean nothing to a hen? She just keeps on digging worms and laying eggs, regardless of what the newspapers say about conditions. If the ground is hard, she scratches harder. If it's dry she digs deeper. If she strikes a rock she works around it. But always she digs up worms and turns them into hard shelled profits as well as tender broilers. Did you ever see a pessimistic hen? Did you ever know of one starving to death waiting for worms to dig themselves to the surface? Did you ever hear one cackle because times were hard? Not on your life. She saves her breath for digging and her cackle for eggs.

MEIGHEN GETS AFTER CONTRACT

Claims Arrangement With Petersen is Unsound; Would Use Canadian Ships

OTTAWA, Mar. 20. — Hon. Arthur Meighen in the Commons last night attacked the Petersen contract, stating it was unsound and claiming that there was nothing in the contract to bind Petersen to carry Canadian goods on the ships at all. He asked why not use the 57 government ships instead.

DAILY EDITION

Friday, March 20, 1925.

Concerted Action Only Effective Method.

Concerted action to bring the Peace River Railway through British Columbia is the only effective method of securing what we are after. Dozens of little units operating independent of each other can end in nothing but failure. Just now the right method is being adopted and none too soon. Possibly it is too late. At any rate it is the correct thing to do. Premier Oliver is taking the matter up with the Premier of Alberta with a view to collaboration between that province and this to secure the best results.

In Northern British Columbia there is a certain amount of unanimity. We may not agree on the outlet but we all agree that the railway should come this way. Prince Rupert has also done well in backing up the movement at the capital, which after all, is the only movement that can have any hope of success.

This Is Period Of Investigation.

This is a period of investigation. Everywhere, in every realm of life and phase of thought the world is looking for light. Just now we are trying to find out about our fish. An expert has been appointed to study the halibut and another expert it is announced has been appointed by the United States Government to study the herring. We want to know their life history for in that way only can we take effective measures to prevent extermination by intensive fishing.

"Give us information," is the cry of the people. Everywhere the cry goes up. It is the hopeful phase of modern life. With information many of the objectionable features of life will disappear.

A generation or two ago Dickens, the novelist, realized this groping for information. One of his characters telling of some other in one of his books says: "He was a damned radical. He wanted to know, don't you know." And today people are just as keen to know what is going on all around and why things are so and for what purpose.

Publicity Is Great Reforming Agency.

One of the greatest reforming agencies in the world is publicity. If the people are to rule, they must be supplied with information. That is why in a democracy a muzzled press is a grave danger. Let in the light and evil cannot flourish long. Away back in the earlier ages of development a famous writer said, "They love the darkness because their deeds are evil."

Knowledge is what the world wants today. It wants knowledge of what is going on in government, in trade, in finance, in science, in every activity of life. It is in the smothering atmosphere of secrecy that the fires of hate and vice smoulder and gather volume until they break out and become a menace.

Still A Nation Of Spectators.

We are still a nation of spectators. We like to watch games and read about them as being something altogether apart from ourselves. This benefits us little. What is of benefit is to take part ourselves. To play a game of checkers is of more benefit than to watch the great games of skill.

It is difficult to estimate what proportion of the people take part in games of any kind. Possibly not ten per cent. The chief recreations that have any value in helping to co-ordinate the brain and body are football, baseball, basketball, tennis, badminton, cricket, billiards, walking and running, gymnastic exercises, dancing, swimming, rowing, yachting, and making things with tools. Anyone taking part in any of these or related activities may be said to be taking recreation. They are within the reach of practically everyone.

FAIR DEALING AND SERVICE

These Are Two Main Features
of Doing Business Say
Speakers at Rotary
Luncheon

That all the ideal relations between a businessman and his customer may be summed up in fair dealing and service, was the opinion of two speakers at the Rotary Club luncheon yesterday. C. H. Orme and H. H. Little were the men who addressed the club in relation with their own experiences in business.

Mr. Orme said if a man accepted the goods and paid the bills, there never were any difficulties with the wholesalers. No questions would arise. In dealing with the customer he found it was a matter of fair prices, quality of goods and service were all required in a successful business. If the merchant bought cheap he should give his customer the advantage of it.

Quality, Mr. Orme said, was an important factor. He found it paid to buy the best. Customers were then satisfied, even if they had to pay more.

In the matter of service, the first thing was to meet the customer with a smile and never to grouch. Give the customer what he wants and do not bother him into buying things he does not need.

In Banking

Banking, according to Mr. Little, is much like any other business. Perhaps there was too much secrecy in the business. This resulted from the fact that young men taking up the profession were taught to keep any banking information to themselves, even the size of their own salary checks. The banker bought in the cheapest market and sold in the dearest, and the difference was his profit. There must be a profit or the banks would not exist.

In buying, the banker paid interest and service. Everyone understood the former but the latter was not quite as clear. It was easy to understand the cost of keeping up the bank premises and paying the taxes, what they did not realize was the cost of keeping on hand a reserve and cost of moving money in order to meet the demands.

Savings accounts were those in which the depositor came with his bankbook when he wanted to withdraw sums. A current account was used for checking. In the latter there should always be a free balance to pay for the service, or the bank was losing money on it.

In regard to the making of loans it was not usually understood that the banker was as anxious to make the loan as the borrower to get the money, provided the security was sound. The ability of the borrower to repay had always to be considered. Like all other businesses it resolved itself largely into a matter of fair dealing with prompt and courteous attention.

"TARNISH" SHOWS THE REAL NEW YORK LIFE

Play is to be Seen Here Tonight
and Tomorrow at West-
home

"If one had never visited New York," states Colman, "but relied solely upon the motion pic-

ture for his or her impression, it might be believed that there were nothing in New York but cabarets and the mansions of the rich. Or that all downtown offices were as spacious as palaces and had twenty-foot ceilings.

"Tarnish," however, is one of the few pictures I have acted in which shows New York as it really is. Perhaps it is because both Mr. Goldwyn, the producer, and Director George Fitzmaurice are thoroughly familiar with the metropolis. "Tarnish" deals with a typical New York family and it very accurately pictures the life of the wealthy, the middle classes, and the very poor. The cabaret it shows is not an over-gaudy, bizarre affair such as no New Yorker ever saw. It is, of course, lively, gay, exotic, and to anyone who has visited Broadway's white lights it will recall memories of the most famous night cafes.

"The whole story seems to catch the spirit of Manhattan—just as surely and as accurately as O. Henry caught it in his famous short stories."

New York itself, apparently, supports Colman in his belief, for "Tarnish" was one of the most successful stage plays that Broadway has seen for years. In addition to Colman, May McAvoy, Norman Kerry, Marie Prevost and Harry Myers have important roles in the screen version of the play.

REVISION WORK ON EXHIBITION PRIZE LIST IN PROGRESS

Good progress is being made by the Fair Board's sub-committees in their work of revising the 1925 prize list. The backbone of the job is now broken and copy will soon be in the hands of the printers for the book which it is desired to issue to prospective exhibitors at the earliest possible date.

Yesterday a strong committee consisting of Mrs. R. L. McIntosh, Mrs. M. M. Stephens, Mrs. S. K. Campbell, Mrs. J. C. McLennan, E. Van Gestel, William Millar and R. M. Winslow met to deal with the fruit, vegetable and flower classes.

Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.

When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat.

These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion. At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation.

Colds are usually relieved over night.

CHINESE INVASION OF POLAND LATEST

About a Thousand Peddlers Come to Country Thought May be Spies

WARSAW, Poland, Mar. 20.—Fearing a so-called Chinese invasion because of the visits to this country of nearly 1,000 Orientals during the last few months, the Polish government has decided that no more Chinese will be admitted until their applications have been passed upon by the Warsaw Foreign Office. The Chinese government, it is understood, is awaiting further details of the Polish government's action before taking up the question with the Warsaw officials.

The invasion began last fall when Chinese peddlers began arriving in Warsaw with Chinese wares and curios, most of them coming by way of Berlin, where visas had been granted by the Polish consulate. Some weeks later several hundred additional Chinese applied for permission to come to Warsaw and were granted visas, and early this year there were further applicants until it is estimated that approximately 1,000 peddlers had visited the country, all representing themselves to be tradesmen.

Espionage Suspected

Recalling the fact that several months prior to the outbreak of the war Poland, then under Russian rule, was visited by several thousand Chinese, all representing themselves to be tradesmen and speaking Russian and German fluently, the Polish authorities have become suspicious. They have received reports from their agents that some of the Orientals posing as tradesmen are in reality engaged in espionage, probably for the Bolshevik government. They speak Russian as well as German, and appear to be prosperous whether they do much business or not.

For all washing and cleaning you can't beat this soap —

says Mrs. Experience, who chooses soap for its economy and labour-saving value.

"Sunlight puts the sunshine of cleanliness into the home! For washing clothes, dishes, wood-work, linoleums, in fact, for anything that can be cleaned with soap and water—I call on Sunlight. And Sunlight does its work so well and leaves everything sweet and clean.

"Sunlight really is economical, too! You see, every bit of it is pure, cleansing soap, containing no filling or hardening materials, which are only waste as far as we women are concerned.

"You get greater cleaning value out of a pure laundry soap—and so I say, 'Always keep a good supply of Sunlight on hand'. It really improves with age. And because of its purity, Sunlight is kind to your hands and keeps them smooth and comfortable." Sunlight is made by Lever Brothers Limited, Toronto.

BRINGING UP FATHER

LORD CURZON DIED TODAY WAS STATESMAN OF TYPE SELDOM SEEN THESE DAYS

(continued from page one)

became secretary of state for foreign affairs in 1919 and continued in that office in the Bonar Law government after the Lloyd-George rule had been smashed by the Tories. Meanwhile he had risen two more steps in the peerage—to an earldom and then to a marquessate. There remained only a dukedom to be obtained and Lord Curzon generally was credited with a burning ambition to achieve this highest of titles for those outside of royal blood.

It was at that time that his accumulation of honors operated against Lord Curzon in his ambition to become the British prime minister. When Bonar Law retired in 1923 because of ill-health there was besides Lord Curzon only one other man regarded as likely for the post—Stanley Baldwin. In Curzon's favor there was his long and notable record in politics and the government service, while Baldwin virtually was a novice in politics, but had proved a strong chancellor of the exchequer who had settled the American debt question with honor and satisfaction. Weighing in opposition to Curzon was the new twentieth century tradition against appointing as premier a peer who could not meet attacks on the government in the House of Commons. Hence, Mr. Baldwin, being a commoner, received the place.

Treaty With Turks

Lord Curzon consented to remain in the foreign office in the Baldwin government. He went to Lausanne to lead the Allies in making their peace treaty with the Turks, who had re-entered Europe and avenged against the Greeks the expulsion of the crescent from Europe in the World War. The treaty let the Turks back into Europe and returned to them a large part of what they had lost in the war. For this Lord Curzon was severely criticized and in the grumbling that preceded the fall of the Tories and the rise of the Labor government in the winter of 1923-24 much of the dissatisfaction was directed against him.

With the fall of the Conservative government Lord Curzon was obliged to relinquish his post as foreign secretary. Some persons thought that in the prime minister's parting page of honors the name of Curzon would head the list, with a dukedom at last. But there was no dukedom in the list.

Lord Curzon was born at Kedleston, January 11, 1859, the eldest son of the Rev. Alfred Nathaniel Holden Curzon, the fourth Baron Scarsdale. He married twice, taking an American as his wife on both occasions.

Sport Chat

Billy Gibson, manager, announces that Gene Tunney has despaired of getting a match

with Mike McTigue for the world's light heavyweight title and henceforth will disport himself in the heavyweight ranks. Billy says Tunney's best weight now is 185 pounds and that he is ready to embark upon a campaign that will lead to a match with Dempsey.

With Tommy Gibbons and Harry Wills as the outstanding contenders, they are still talking down East of having Jack Dempsey fight this year in defence of his title. There is nothing definite about anything. Something is being accomplished however. Press agents are being well paid for efforts that will no doubt result in Dempsey's next battle being a record breaker as far as proceeds for Jack, Tex Rickard et al are concerned.

The state of Nebraska is known as the home of wrestlers. Several stellar mat artists, some of them champions, have come from there. The latest of course is "Big" Wayne Munn, the present world's champion. There have also been Joe Stecher and his brother, Anton, Charley Peters, Charley Hansen, Joffe, Jesse, Farmer Burns and so on Joe Stecher was one of the best of the lot. He and his brother are now running a big farm in the state. They bought it with their earnings in the mat game.

McMORDIE ELIMINATED BROWN FROM BILLIARD SERIES LAST EVENING

Col. S. P. McMordie eliminated Don Brown from the city individual billiard championship series last night by a score of 300 to 302. McMordie got away to a good start in the first hundred but Brown picked up in the second and was slightly ahead a couple of times, the score being even at 182. From this on, however, Brown started to fall back until the close of the game. McMordie's high break was 46 and Brown's 43. There were 74 innings. McMordie's average being 6.75 and Brown's 4.08. It took one hour and fifty-six minutes to play the game.

Tonight Sergeant Jobson and Frank Zieman will meet in the second game of the series. Jack

FOUR TRAINS FINE LUMBER

Virgin White Pine Being Shipped for British Admiralty

MONTREAL, Mar. 20. — The largest shipment of timber for export made since the war passed through Ottawa yesterday en route over the Canadian National railways for England. It required four trains of one hundred and twenty cars to handle the cargo which aggregated 120,000 cubic feet. Every piece of lumber in the shipment was virgin white pine, each piece of such dimensions as to resemble timber from British Columbia. Only in the memory of the oldest lumbermen has such a shipment come out of Ontario.

The timber was all Ontario grown and it came from the Egan estate limits in Preston and Chaney townships in the Algonquin Park district. It was owned and cut by hand by the J. R. Booth Lumber Company of Ottawa from whom it has been purchased by J. Bursall and Co. of Quebec for the British Admiralty. It was loaded on flat cars at Madawaska, Ontario, and is being delivered to Quebec for shipment to England as soon as navigation opens.

Met by Timber King

When the first train reached Ottawa it was met by the executive officers of J. R. Booth Company including the president G. R. Booth, Canada's venerable timber king. In spite of his advanced age of ninety-eight years Mr. Booth walked the length of the train and took a great interest in inspecting many of the pieces of lumber. The logs had been cut carload length and in some cases they had a diameter of three feet. None of the timber was less than two feet in diameter. Mr. Booth was accompanied by his sons J. Fred Booth, managing director and C. Jackson Booth, vice president.

Freight traffic officers of the Canadian National Railways were also present.

Saved from Fire

The area from which this magnificent timber was cut is the location of some of the largest of the J. R. Booth Company's limits and the stands of timber are rated among the finest in the Dominion. An interesting feature of the work of this company in these limits is that they have succeeded in salvaging much excellent timber in por-

CHARACTER SKETCH GIVEN AT TERRACE

Amusing Entertainment Under Auspices of Ladies' Guild of Presbyterian Church

TERRACE, Mar. 20. — The ladies' guild of the Presbyterian Church gave an amusing character sketch entitled "The Minister's Bride," which proved as their first "Mohawk Cross Roads." The audience was carried back more than 50 years and the atmosphere of bygone days was well illustrated both in the scenes and costumes.

The parts of the minister and minister's wife were well taken by Mr. and Mrs. Charlie Tompkins. Critical members of the congregation were Mesdames Brooks, Morrison, W. Smith, Mills and Miss Onalee Grieg. Misses Glover and Andrews appeared charmingly in the roles of young girls. E. T. Kenny was the young swain; Miss Florence Vanderlip the bride; E. Brooks the groom; Sammy Kircaldy, a henpecked husband; Orval Kenny a bashful young man.

Part of the final scene included a good concert.

GYRO CLUB PLANS WESTVIEW PARK PLAYGROUND NOW

The playground committee of the Gyro Club has been advised that Violet Park, in Section 7, on which it was proposed to place a playground this year, has passed out of the city's hands. Accordingly it is now being planned by the club to develop a city park site in Westview near the school. The club will ask the city to clear a space 150 feet square for the playground.

The policy of the club is to place playgrounds only on city property thus assisting to develop the public park sites.

WELL KNOWN REMO MAN IS MARRIED

Miss Rosie Burri Became Bride of Charles F. Swanson at Quiet Ceremony in Manso Last Night

Charles F. Swanson, rancher of Remo and resident of the interior district for eighteen years having been a mail carrier during railway construction days, was quietly married at the Manso last night at 8.30 by Rev. Dr. H. R. Grant to Miss Rosie Burri, a recent arrival from Switzerland. Mr. and Mrs. Swanson will remain in the city for a while before proceeding to Remo to make their home.

WHOOPIING COUGH IS A VERY SERIOUS TROUBLE HER 5 CHILDREN HAD IT

Mrs. S. H. Craig, R.R. No. 1, Palmerton, Ont., writes: "Two years ago, last winter, our five children had very severe attacks of whooping cough. We were recommended, by our druggist, to use

DR. WOOD'S NORWAY PINE SYRUP

which we did with the greatest of success. It cleared out the throat and bronchial tubes, and loosened the phlegm so that they were able to cough it up, and in no time I had quenched the 'whooping'."

"Dr. Wood's" is put up only by The T. Milburn Co., Limited, and has been on the market for the past 35 years. Be sure and get the genuine.

SMOKED MEATS ARE ADVANCING

Potatoes are Cheaper; New Zealand Onions Again on Market; Eggs Down

Smoked meats have advanced sharply and indications are for an even higher market. Best grade bacon is now retailing locally at 50c and 55c per pound. The potato market is slightly lower this week with indications of further declines now that the pits are being opened.

New Zealand onions are again on the B.C. market, the first shipment being due in a few days. The opening price will be 10c per pound—possibly three pounds for 25c.

Something new in the dried fruit line is the unpitted evaporated apricot similar to the prune. The price is 20c per pound.

A further seasonal weakening in the egg market is to be noted this week.

BRITISH MEMBERS MAY HAVE OFFENDED

Signed Contract With Government When They Installed State Owned Telephones

LONDON, Mar. 20.—Members of the British parliament who have telephones in their homes were somewhat startled recently when they ascertained that, because of the instruments, they might be deprived of their seat in the House. They are asking whether they have committed a breach of the famous act of George the Third's parliament, which says that any person undertaking a contract with a government department shall not be entitled to sit in the House. The telephones here are owned and operated by the government. The question was brought to light by Captain T. J. O'Connor, himself a member of parliament and having a telephone in his office, who announced that he would ask the attorney general if he proposed to introduce legislation to safeguard members who have contracts with the postmaster general for the installation of telephone services.

HAD HEARTBURN AND HEADACHES FOR MANY YEARS

Miss Beta Burris, R.R. No. 1, Waterford, Ont., writes:—I have been troubled with heartburn and headaches for many years. There were very few things I could eat without suffering from either the heartburn or severe headaches.

A friend recommended me to try

MILBURN'S LAXA-LIVER PILLS

This I did and found relief at once and have never been troubled since. I will always recommend your pills to any of my friends who are troubled with heartburn, headaches or any other liver trouble.

Milburn's Laxa-Liver Pills are for sale at all druggists and dealers; put up only for the past 30 years, by The T. Milburn Co., Limited, Toronto, Ont.

this city through the installation of an ingenious arrangement called the "waiting line." It will apply the "first come first served" rule to places much in demand such as hospitals, drug stores, doctors' offices, ticket agencies, information bureaus and newspapers. This is done by the creation of a special central and whenever a number is reported "busy" by the operator or the automatic switching machine, the "waiting line" is called and the desired number duly recorded in the sequence of its receipt. Then, as soon as the line is clear, the connection is made.

FIVE CENT FARE ON VANCOUVER CARS ASKED

VANCOUVER, Mar. 19.—Possibility of a return to the five-cent street railway fare loomed today when aldermen, discussing the matter, indicated that the reduction of fares would come up for consideration when the present three-year period of the franchise expires November 8.

Under an agreement with the city, the franchise is revised in three-year periods, at which times matters that have arisen in the past are adjusted or arbitrated. The present rates are elastic, an agreement having been reached when the six-cent rate was allowed that this was not to be considered permanent and that when conditions were stabilized the city could ask for a return to "the old five-cent rate."

Many of the aldermen consider that the B.C.E.R. is now in better condition to revert to the five-cent rate than it was three years ago, and it is possible that this will be one of the matters up for revision some time in the next few months.

MICE AS SMALL AS BEES ARE IN ZOO

LONDON, Mar. 20.—The smallest animals at the London Zoo are a family of pigmy mice, which arrived recently from Gambia, in western Africa. They are smaller than bumble bees, and a pair could easily set up housekeeping in an ordinary safety match box. While the pigmies were being shipped to London 15 of them escaped through a hole smaller than might be made by a slate pencil, and none of them was ever seen again.

RADIO EARPHONES IN LONDON HOTEL ROOMS

LONDON, Mar. 20.—One of the few London hotels which still retains an old world atmosphere has recently been modernized in so far as radio is concerned as head sets for listening-in have been installed in every room in the house.

In the summer 80 to 90 per cent of the patronage of this hotel is made up of American travellers. Until a few years ago, when the hotel was sold, it had belonged to members of one family for nearly 80 years.

TRAINS OF SPAGHETTI

SEATTLE, March 19.—Freddie Welsh trained on vegetables; Paavo Nurmi seldom eats heavier foods than fish, but Jimmy Sacco, Boston welterweight who appeared in several bouts in the Pacific northwest in February, started an innovation among boxers by training on spaghetti.

GETS NEW WATCH

WARRINGTON, Eng., Mar. 19.—Thomas Goreoran, an employe in a soap works here, believes in punctuality and devotion to duty. During his 50 years' employment at the works he had not lost a single minute of time. The reason he gave for never being late was that he always went to bed early, and had a good night's rest.

In recognition for his unique record Goreoran was presented with a gold watch by his employers.

LIVERPOOL GROWS SOBER

LIVERPOOL, Mar. 19.—The inhabitants of this city are no consuming as much liquor as in 1920 or else they are taking it more wisely. At the recent annual session of the licensing committee Chairman Joseph Hunter said convictions for drunkenness in 1924 were 4,334 as against 8,506 in 1920. The healthier condition of things was due in a great measure to the action of the bench and the supervision of the police.

SITS FOR PICTURE

LONDON, Mar. 20.—Airlanes flying high above the city will shortly take 1,000 photographs for the purpose of making a big air map of Greater London. The pictures will be fitted together to form a vast mosaic, giving a birdseye view of an area of 100 square miles.

"TARNISH"

An adaptation of the play that held New York bound for one year. The entrancing story of a boy and a girl's present. A drama of youth's glorious love—stirring, startling, surprising, revealing the secret every man's heart that women learn sooner or later—mirror of the gay life of today that means the heart's tomorrow and the reckoning that comes to it. Tarnish their souls with "wild oats." The fascinating story of a girl, heartbroken because of the tarnish on the soul of the man she loved and trusted and of the way in which she solved her problem. Strong comedy relief. A drama of tears, laughs, sweethearts, love, pathos, power for love, sweethearts and the newlyweds.
