## AGREEMENT WITH MILL OWNERS IS TO BE VOTED ON BY RATEPAYERS

*Agreement with Sawmill to go Before the People for Their Endorsement Before Effective*

**Gives Concessions regard to Power and Water but in return City Gets Cheaper Lumber**

After a lengthy discussion which was not devoid of some occasional acrimonious remarks particularly between Ald. Gasey and Ald. Stephens, the city council last night decided to submit to the people an agreement, sponsored by Mayor Newton, whereby the Seal Cove sawmill will be given for the balance of this year concessions with respect to water and power supply in return for which the mill will agree to supply to the city and citizens lumber at a price not exceeding \$2 per thousand over Vancouver prices. The assessment on the mill, under the same agreement, will stand as at present.

Mayor Newton, in opening the subject, told of an informal meeting that had been held by the city council last week where it had been decided to recommend that the assessment should stand as at present and the old power rate of 3¢c per kilowatt should be granted together with a flat rate of \$40 for water. This would be for the present year only and not later than October 1, the council and company would get together again to negotiate a permanent agreement.

It had also been agreed that the mill owners should be asked to sell their products to the city and citizens at a price not exceeding \$2 over Vancouver prices. This stipulation had subsequently been agreed to by the mill owners in the following telegram that had just been received: "We will undertake to supply our lumber to the city and local contractors at Vancouver prices plus \$2 per thousand, providing the city grant power and water rates as discussed with Mr. Bell."

In reference to this, R. E. Moore, the local manager for P. Burns & Co., stated this afternoon that the plans for the abattoir were in the hands of the head office and he could not say definitely when building would proceed.

Definite decision has not yet been reached by the railway company with respect to the application of the Edison Coal Co. and the Consumers' Coal Co. for waterfront adjoining that which has been granted to P. Burns. It is expected that these applications will also be definitely settled within a short time.

**P. BURNS GETS ABATTOIR SITE**

Railway Company Announces Lease of Property Has Been Granted

The way is now open for P. Burns & Co. Ltd. to build the abattoir that they have proposed to erect at Cow Bay. Through the local superintendent's office, the company has been offered the lease of 150 feet of water frontage just west of the Imperial Oil Co.'s dock. This is practically identical with what it asked for. Whatever trackage the company requires will also be granted.

In reference to this, R. E. Moore, the local manager for P. Burns & Co., stated this afternoon that the plans for the abattoir were in the hands of the head office and he could not say definitely when building would proceed.

Definite decision has not yet been reached by the railway company with respect to the application of the Edison Coal Co. and the Consumers' Coal Co. for waterfront adjoining that which has been granted to P. Burns. It is expected that these applications will also be definitely settled within a short time.

**INQUIRY INTO HUGE SWINDLE**

Alleged Obtaining of False Certificates and Permits of Entry for Foreigners

OTTAWA, Feb. 17.—A searching inquiry into a huge swindle was allegedly unearthed by the Canadian Mounted Police in the illegal obtaining of certificates of naturalization passports and immigration permits for entry to Canada of relatives and friends of foreigners by conspiracy and fraud is being continued by the authorities.

It is believed there are many cases of large sums paid agents in Canada for illegally bringing foreigners to Canada.

Rev. Arthur Barber of Toronto, superintendent of Methodist Missions, after having spent the past month in this district, is sailing with Mrs. Barber this afternoon on the Cardena for Vancouver.

**MISS TOLMIE KILLED SELF**

Verdict of Suicide While of Unsound Mind Brought by Jury

VICTORIA, Feb. 17.—A verdict of suicide while of unsound mind was returned yesterday by the coroner's jury inquiring into the death of Miss Geraldine Tolmie who was found on a cement path below the second storey window of her home. She was a niece of former Lieutenant Governor Paterson and made her home with Mrs. Paterson at the Uptons.

**Stephens Disapproves**

"I can only register my disapproval of the whole agreement," declared Ald. Stephens. "It constitutes a complete and unconditional surrender to the company by the city. The citizens will get nothing while the mill will get all it has asked for." (continued on page two)

**CONSERVATIVES BALDWIN GETS MAKE SPEECHES GOOD MAJORITY**

Attack Government Policy But First Attack on Policy of British no Replies From Other Side of House Government by Opposition Falls

**BACK DOOR PROTECTION**

OTTAWA, Feb. 17.—The debate on the address finally ended in the House of Commons last night. The address was adopted on a division but without the actual recording of the vote and without the submission of an amendment.

Since the debate was revived on Friday, the speakers were entirely from the Conservative camp. Donald Sutherland of South Oxford attacked W. T. Preston, who investigated the North Atlantic combine. Horatio Hocken of West Toronto said Canada was being taxed to death. J. N. Stansell of East Elgin asked what was the use of spending money on immigration when for every raw immigrant who entered the country two native Canadians went out. Hon. J. B. Baxter declared the speech from the throne was nothing but an attempt at patchwork.

LONDON, Feb. 17.—The government was victorious in the House of Commons last night against the first opposition attack on its general policy when by a vote of 335 to 146, it defeated Ramsay MacDonald's resolution declaring that the method proposed by the government for reviving and safeguarding of industries by duties must lead to a system of general tariffs.

Premier Baldwin, defending the government, reiterated that Canada was being taxed to death. He intended to abide loyally by the country's decision at the general election a year ago against protection and had no idea of trying to introduce protection by the back door.

**HOCKEY SCORES**  
Vancouver 3, Calgary 1, Regina 6, Edmonton 8.

**Proposal to Place All City Lots on Market in near future under Comprehensive Plan says Casey**

A debate of some length as to the principle that should be applied by the city in disposing of lots that had reverted to it at tax sale was indulged in at the meeting of the council last night. The matter came up in connection with the opening of tenders for a number of lots for which application had been made and which had been subsequently advertised for sale. It was suggested by Mayor Newton that the bids be referred to the finance committee with power to act and Ald. Casey moved to that effect.

Ald. Stephens felt that the principle that might be involved

**PROTECTION IS BATTLECRY OF CONSERVATIVES**

Party Headed by Arthur Meighen Would go Limit in Higher Duties

OTTAWA, Feb. 17.—Protection to the bill is the proposed remedy for all the ills of state according to the Conservative party now putting up a vigorous opposition to the government. This is directly opposed to the policy of the Progressive Party, which is also part of the nominal opposition but which through its vote is keeping the government in power. The debate on the address shows clearly that the Progressives have nothing to hope for from the Meighen group.

During the debate on the address the policy of most of the Conservative speakers has been to paint a gloomy picture and of if the city could sell all then to place beside it another picture of what might be if protection were put into force.

It does not look as if the opposition would pierce very deeply the armor of the government and an election is scarcely a probability this year.

**WATSON COMES FACE CHARGE**

Left This Morning for B.C. After Waiving Extradition Proceedings

SEATTLE, Feb. 17.—Ross Watson, former Seattle detective, left on the 9 o'clock boat today in custody of the provincial police for British Columbia to face a charge of participating in the Nanaimo Bank robbery. Watson waived extradition after two months of futile fight against it. He declares he will prove an alibi. Application for bail will be made without delay.

**COLLINS DEAD WHEN REACHED**

Rescuers Came Too Late as Life Had Fled Several Days Before

CAVE CITY, Feb. 17.—After more than two weeks battle with nature the rescuers yesterday reached Floyd Collins in the gravel cave where he had been pinned by a rock which held his foot, only to find him dead.

Physicians who examined the body said that Collins had been dead several days.

### Power Situation In Prince Rupert.

The power problem for Prince Rupert presents many difficulties, the solution of which will require the best efforts of the brightest minds. At present all the power or practically all is contracted for and it is possible that power will have to be purchased from the drydock in order to enable everything to carry on.

The plant at Shawatlans is capable of extension but just to what extent only an expert can tell. At any rate it will be but a temporary palliative. It cannot be looked upon as the permanent source of supply for the city.

To go outside to the Eastall River would involve so great cost that the city would hesitate to embark on the project. Under present conditions it would overload the city with debt and would be too much of a speculative venture.

### Enlist Outside Capital Here.

Under these circumstances what is to be done? If it were possible to enlist some capital looking for investment conditions might arise within the next year or so that would make the proposition an attractive one. Should the owners of the mill decide that next year they were ready to erect a pulp mill and wanted five thousand horsepower for their purposes, the city could not supply it and even with any additions that might be made at Shawatlans it would still be inadequate as a source of supply.

With a considerable load offering as a nucleus for further extension, it is possible that a company might be induced to invest in a power scheme here which would enable them to meet any demands that might be made for commercial purposes. Only on such conditions are we likely to be able to interest anyone here. Such a condition has to be met sometime and in considering the remedy for the present situation it might be well to consider all the circumstances.

This paper will welcome any discussion of the power question from any possible angle. It is so big and so important that we cannot afford to overlook anything. The whole situation is worthy of the closest review. If anyone has any facts bearing on the situation, this is a good time to let the people know about it, for the people will be the final arbiters.

### How Much Work Can A Person Do?

How much work can a person do? It used to be common to work for twelve hours a day, but in those days they did not seem to work as fast as they do today or as intelligently. On the other hand there is complaint that today people lack stability. They are not as consistent workers as the past generation. They do not learn their trade and stick to it and do their work well but are more inclined to branch out. People today ask more variety than formerly.

With the further development of machinery and the use of electric power it is possible that people will work less than ever, as the years go by. To what this will lead is impossible even to guess. We shall either become fat and lazy or we shall take up various forms of recreation to take the place of labor. As the means of production increase in the world, it will be necessary for the hours of labor to decrease unless the time formerly devoted to producing necessities is devoted to the production of such articles as radio sets, autos, gramophones and similar luxuries.

## "Now Feeling Fine and Able to do my own work"

Mrs. Walter Grieves, Coe Hill, Ont., writes:

"I was in such a weakened, run-down condition that I could not take care of my household duties. I was unable to sleep at night, and the doctor told me I was anaemic. I commenced a treatment of Dr. Chase's Nerve Food and to-day I am feeling fine and able to do all my own work."

"My little girl had eczema, and different remedies took no effect whatever. We got a box of Dr. Chase's Ointment and that one box relieved her."

**Dr. Chase's Nerve Food**

60 cts. a box of 60 pills. Edmaston, Bates & Co., Ltd., Toronto

### AGREEMENT WITH SAWMILL TO GO BEFORE THE PEOPLE FOR THEIR ENDORSEMENT BEFORE EFFECTIVE.

(continued from page one)

The citizens will foot the losses. And, as far as the taxation agreement is concerned, the city is not in a position to enter into contract with the mill because the land is leased through the railway company. At present the mill only pays \$1800 in taxes whereas, if it was located just across Shawatlans Passage on government property, it would be subject to taxation on improvements which would probably come much heavier. Swanson Bay mill, which is not in nearly as advantageous a position, pays almost three times as much taxes. The proposed power and water rates, which are considerably below the regular rates, I would oppose alone on the grounds of discrimination. Other industries just as important as the mill would be just as entitled to advantageous rates. And, as far as the agreement with regard to lumber price is concerned, I cannot see that would be of much advantage to the city for the product here will be different to that of Vancouver. In any case, I do not think we should invite litigation and I would strongly advise that the agreement at least secure the approval of the people."

Mayor Newton said that was the very suggestion he was going to make to Ald. Casey.

### Attacks Stephens

"I certainly am not afraid of the people regarding their approval of the contract," said Ald. Casey, "but it does seem to me that it is a trivial matter as the time will be so short until we will have a lasting contract for submission to the people. Of course, there are always two sides to a question. Ald. Stephens is banking himself on there being an opposition to the agreement. He is assuming the part of a critic of this council. We want to understand that he is not taking his part seriously as regards administration but is merely embarking on an opposition."

Ald. Stephens expressed himself as being sorry that Ald. Casey should take the view that he was not taking his position seriously. He would say that any person who would make such irresponsible statements as Ald. Casey himself could not be taken seriously. He submitted that he was taking the business of the city as seriously as any member of the board. When Ald. Casey anticipated that he (Ald. Stephens) would oppose the agreement he would not be disappointed. He would oppose it just as energetically when it came before a vote as he had done at the council tonight.

### Iniquitous Thing

"I think it one of the most iniquitous things that has been before the council for a number of years," continued Ald. Stephens. "Several years ago, His Worship's paper took a leading part in the fight against the original agreement with the mill. Tonight, he is sponsoring an agreement of the very same nature. Let me tell you, I do not intend to be bamboozled into any such agreement as this."

Ald. McKechnie thought that Ald. Stephens was merely taking an opposition. Last week he had been in favor of the agreement for six months.

Ald. Stephens was not slow to correct Ald. McKechnie's illusion that he (Ald. Stephens) had at any time been in favor of this agreement. Last week he had taken the same stand as he took tonight.

Ald. McKechnie then charged Ald. Stephens with not having had the courage to come up to last Wednesday's meeting and fight the agreement. Ald. Stephens correctly advised Ald. McKechnie that he had told the council when a date was being sought for the meeting last week that he would be unable to attend Wednesday night.

### Defends Stephens

Ald. Larsen felt that, in fairness to Ald. Stephens, he might state that he (Ald. Stephens) had always been opposed to the proposed concessions.

Ald. Perry said he was in favor of voting for the agreement though he did sympathize to a great extent with the attitude of Ald. Stephens.

After stating that there was nothing personally to be gained for him other than what would be gained by all citizens with

## A Wonder Year for Mutualists

### Record Surplus of \$3,500,258 earned for Policyholders of Mutual Life of Canada

Previous High Mark Passed by Half a Million Dollars

A YEAR of most gratifying results was reported to the policyholders of The Mutual Life Assurance Company of Canada at their 55th Annual Meeting on February 5th. In every phase of its business, the growth of Canada's pioneer Mutual Life Company was eminently satisfactory during 1924.

The real test of a life insurance company operating on the participating plan is its surplus earnings from year to year. It is, therefore, of supreme interest to our policyholders—who alone constitute the company—that the 1924 surplus earnings reached the record total of \$3,500,258.

### Increased Distribution to Policyholders

During the past year an increased distribution was made to policyholders of \$579,962.33 more than was paid out in 1923, a total of \$2,999,007.99 having been paid out in dividends. This sum is most significant when it is realized that it meant a RETURN to the policyholders of approximately 25% of premiums received by the company during the year.

### Healthy Increase in Business

During the year a total of \$43,324,297 of new assurances was written, representing an increase of \$4,283,179 over that of 1923. This increase shows a healthy, progressive expansion of the company's business—expansion as rapid as compatible with the best interests of the policyholders.

The business in force now amounts to \$295,729,866 on 135,285 policies, compared with \$269,982,566 at the end of 1923—a net increase for 1924 of \$25,747,300, after allowing for policies revived and bonuses, as well as new business, and deducting the various terminations.

### The Company's Exceptional Strength

Three effective factors contributed to the exceptionally high surplus earned for policyholders. These factors were economy in administration, remarkably favorable mortality and high interest rate on invested assets.

Despite the fact that the new policies issued for the past year exceeded that of 1923 by over 4½ millions of dollars, the percentage of income required to cover general expenses of administration was reduced from 16.15% to 15.52%.

The mortality experienced during the year was extraordinarily low, the ratio existing between actual and expected death claims being only 36.01%, as against 39.26% in 1923, the previous low record in recent years.

Likewise, in the face of a downward trend in interest rates—especially on high-class bonds in which so large a part of the company's assets is invested—the average interest yield on our invested assets was 6.41%—reflecting the satisfactory earning power of the company's investments.

The company's happy situation is further revealed in accumulated assets of \$65,960,767, an increase over the previous year of \$6,233,378. The consistent prosperity enjoyed by the company invites the confidence of the insuring public.

**The Man in the Moon**  
SAYS—

AND the last word he spoke was "You're an ugly, fat woman."

THE three R's in Prince Rupert seem to be reading, writing and radio.

MODESTY is one of those things people used to talk about.

TO a good many people a microphone would be a good birthday present to enable them to hear the voice of conscience.

AN electric shop is the only one in town where they charge people for charging.

IT is wrong to say prisoner at the bar, now that bars are obsolete. Prisoner in the blind pig would be more appropriate.

**Ten Years Ago**  
in Prince Rupert

February 17, 1915.

The regular monthly meeting of the police commission was held yesterday afternoon, those present being Acting Mayor G. W. Kerr and Commissioners A. W. Edge and Hubert Ward. Fines for the month totalled only \$128.65.

"Down in Seattle they are putting up a hard fight to retain control of the fishing business," says Pete Borvik who arrived from the Puget Sound city this morning. They know Prince Rupert is making a very strong bid for the business but they are leaving nothing undone to keep what they have so long had."

George A. Gordon, a pioneer Prince Rupert business man, has disappeared in Vancouver and inquiries are being made here.

**SURPRISE PARTY FOR  
MR. AND MRS. BAILEY**

The home of Mr. and Mrs. A. H. Bailey, 929 Sixth Avenue East, was seized last night by a party of friends, the occasion being a surprise party on Mrs. Bailey. The evening was delightfully spent in games, music, dancing and listening-in on the radio. Delectable refreshments were served at midnight after which dancing continued until the early hours.

**Sport Chat**

The two tournaments this week in the second division billiard league will likely have an important bearing on the league standing and the chances of the St. Andrew's or Grotto teams of wresting first place from the Billiard Parlor. While neither of the two teams this week can overtake the first place team, either can materially improve its position and put itself very close behind again with the chance of coming out on top if good fortune keeps coming its way. However, the Billiard Parlor has a pretty good hold on the top position now and will only have to be careful to emerge in that same position when the schedule is completed. Tonight, the St. Andrew's and Cold Storage teams meet; Thursday night, Grotto and Great War Veterans.

Badminton is gradually becoming more popular as a winter sport. Yesterday for the first time the result of a Canadian championship match was sent out by the Canadian Press to all newspapers in Canada. Not only is the game being played in the large cities but in almost every village in the country there is now a hall devoted to the game. It is a faster game than tennis and develops all the muscles of the body without being unduly rough. It can be played in ordinary clothes and is suited to young and old.

Last year only one small club played badminton here. This year two played and a third talked seriously of starting. Next winter it is probable that three or four clubs may be in existence. The main difficulty is to find halls suitable for the purpose.

**BRINGING UP FATHER**

**TRAINING FOR FOOTBALL**

**Combination play necessary for steady defence  
---importance of centre-half skill**

(By "Andy" Duce, Manager of Fulham Club.)

(Reprinted from "Greenock Herald")

Many teams nowadays realise the value of definite forward tactics. The majority of amateur teams, however, still lack organised defence. Each defender must know exactly which man of the opposition he is marking; then combination tactics must be used to clear the ball.

Professional teams just now are almost unanimous that the full backs mark the two outside wing men while the halves concentrate on the inside three. Some of the finest amateur teams, however, retain the old system of having the backs mark the inside wingers.

My own plan for amateur teams is a combination of these two systems.

One serious fault attaches to having backs mark the outside wingers. Your backs are constantly being drawn out to extreme edges of the field in order to get at their man. Professional backs are generally fast enough to overcome this disadvantage.

Amateur teams, however, should keep their two main defenders more centred all the time.

This is less tiring, and well-centred men covering each other are not so liable to lose their heads in moments of emergency. When defending two halves should look after the extreme wingers. Backs keep centred and help the centre half tackle the inside forwards.

Importance of Centre Half

Your centre half is the pivot on which your whole team revolves—more so even than the centre forward. The centre half covers more ground than any man in the team, yet he must never be so far away from the middle that he cannot get back in time to bottle up the opposing centre forward.

If my plan of defence is carried out his two helpers will be lying wide to mark the extreme wingers while the other team is attacking. The centre half, therefore, will have a tremendous responsibility. You cannot do better than allot to your most active man the position of centre half.

The line-ups were:

Sons of Canada—Harry Menzies, Vic Menzies, R. B. Skinner, Alex Mitchell, Sidney Bazell-Jones and G. Shenton.

Elks—Arthur Phillips, D. Ballou, Eddie Smith, Mike Buden-chuk, Willie Lambie and Vincent Meagher.

Intermediate League

Staging a come-back after several reverses during recent weeks, the Colts had the best of things in the Intermediate league affair with the Grotto. The latter were not able to finish off successfully the era of victories that they have been having of late.

The line-ups were:

Colts—Ralph Smith, Arthur Phillips, W. Wrathall, G. Shenton and D. Frizzell.

Grotto—W. Gray, D. Gurvich, Vincent Mengher, W. Cavalier, J. McNulty and G. Hill.

George Mitchell and E. A. Mann jointly refereed both the senior and intermediate games.

**Skilful Team Work**

The reader spies a flaw in the plan! "Your other back," he points out, "is sometimes going to be left about twenty-five yards down the field, if the centre half and the advanced back are going to play so closely together. What about it? Do you call that combination between backs?"

Undoubtedly. Provided that the back who is down the field now combines with the advanced back you get the whole defence knitted together. That is team work.

If the back down the field stays over on his own wing, you certainly get a painful gap between the backs. What happens, therefore, is that the other back now moves across to the middle of the field. He covers his companion. If you drew a straight line from the goal keeper to the spot where the centre half and the advanced back were playing together, you would find the other back standing on that line. He covers them both, and he covers the goal keeper too.

This is combined defence. Since the opposing wings are well covered by the two halves standing wide, the backs and the centre half are able to keep in a central defensive position.

**BASKETBALL  
SEASON OVER**

Sons of Canada, Senior Champions; Colts, Intermediate Winners, and Tiny Tims Winners in Junior

Three interesting games decisive of championship in the Senior, Intermediate and Junior Leagues marked the closing of the basketball season last night so far as the regular schedule of games for the 1924-25 season is concerned. The Sons of Canada won the Gilhuly Cup, significant of Senior League championship, by defeating the Elks 38 to 20; the Colts earned possession of the Intermediate League Grotto cup when they won over the Grotto by 39 to 26, and the Tiny Tims redeemed themselves in the Junior League and walked off the floor as winners of the McMordie Cup after beating the Elks 20 to 16. The games were watched by good crowds of fans including enthusiastic supporters for all the contesting teams.

The hefty work of three old timers at the game, Vic and Harry Menzies and Brick Skinner, was largely contributory to the victory by almost two to one of the Canucks over the Elks. Dave Balfour and Eddie Smith were particularly effective for the lodges men but the weight and endurance of their opponents could not be overcome.

The line-ups were:

Sons of Canada—Harry Menzies, Vic Menzies, R. B. Skinner, Alex Mitchell, Sidney Bazell-Jones and G. Shenton.

Elks—Arthur Phillips, D. Ballou, Eddie Smith, Mike Buden-chuk, Willie Lambie and Vincent Meagher.

Intermediate League

Staging a come-back after several reverses during recent weeks, the Colts had the best of things in the Intermediate league affair with the Grotto. The latter were not able to finish off successfully the era of victories that they have been having of late.

The line-ups were:

Colts—Ralph Smith, Arthur Phillips, W. Wrathall, G. Shenton and D. Frizzell.

Grotto—W. Gray, D. Gurvich, Vincent Mengher, W. Cavalier, J. McNulty and G. Hill.

George Mitchell and E. A. Mann jointly refereed both the senior and intermediate games.

**Junior League**

The Tiny Tims started off the year with a bang but met with defeat in the three games immediately preceding the final. However, they were able to score the win last night necessary to ensure them the possession of the season's championship honors. It was a close game ending in a 20 to 16 score.

The teams lined up as follows:

Tiny Tims—E. Dingwall, Y. Katsuyama, P. Baisler, Eddie Walters, C. Thompson, H. Walker and I. Katsuyama.

Colts—Spiro Gurvich, M. Com-

LAND ACT.

Notice of Intention to Apply to Land

In Skeena Land District, Prince Rupert Recording District, and situated one mile south of Salvo Station, Skeena River.

TAKE Notice that David S. Clark, Esq., of Burnaby, B.C., occupation solicitor, intends to apply for permission to lease the following described lands:

Commencing at a post planted at the southwest corner of lot 4803, Salvo Island; thence southwards along the coast boundary of said island to the point where the coast boundary of lot 4803 meets the south boundary of lot 4804, Salvo Island; thence northwards along the coast boundary of lot 4804 to the point where the coast boundary of lot 4804 meets the south boundary of lot 4805, Salvo Island; thence westwards along the coast boundary of lot 4805 to the point where the coast boundary of lot 4805 meets the south boundary of lot 4806, Salvo Island; thence southwards along the coast boundary of lot 4806 to the point where the coast boundary of lot 4806 meets the south boundary of lot 4807, Salvo Island; thence westwards along the coast boundary of lot 4807 to the point where the coast boundary of lot 4807 meets the south boundary of lot 4808, Salvo Island; thence southwards along the coast boundary of lot 4808 to the point where the coast boundary of lot 4808 meets the south boundary of lot 4809, Salvo Island; thence westwards along the coast boundary of lot 4809 to the point where the coast boundary of lot 4809 meets the south boundary of lot 4810, Salvo Island; thence southwards along the coast boundary of lot 4810 to the point where the coast boundary of lot 4810 meets the south boundary of lot 4811, Salvo Island; thence westwards along the coast boundary of lot 4811 to the point where the coast boundary of lot 4811 meets the south boundary of lot 4812, Salvo Island; thence southwards along the coast boundary of lot 4812 to the point where the coast boundary of lot 4812 meets the south boundary of lot 4813, Salvo Island; thence westwards along the coast boundary of lot 4813 to the point where the coast boundary of lot 4813 meets the south boundary of lot 4814, Salvo Island; thence southwards along the coast boundary of lot 4814 to the point where the coast boundary of lot 4814 meets the south boundary of lot 4815, Salvo Island; thence westwards along the coast boundary of lot 4815 to the point where the coast boundary of lot 4815 meets the south boundary of lot 4816, Salvo Island; thence southwards along the coast boundary of lot 4816 to the point where the coast boundary of lot 4816 meets the south boundary of lot 4817, Salvo Island; thence westwards along the coast boundary of lot 4817 to the point where the coast boundary of lot 4817 meets the south boundary of lot 4818, Salvo Island; thence southwards along the coast boundary of lot 4818 to the point where the coast boundary of lot 4818 meets the south boundary of lot 4819, Salvo Island; thence westwards along the coast boundary of lot 4819 to the point where the coast boundary of lot 4819 meets the south boundary of lot 4820, Salvo Island; thence southwards along the coast boundary of lot 4820 to the point where the coast boundary of lot 4820 meets the south boundary of lot 4821, Salvo Island; thence westwards along the coast boundary of lot 4821 to the point where the coast boundary of lot 4821 meets the south boundary of lot 4822, Salvo Island; thence southwards along the coast boundary of lot 4822 to the point where the coast boundary of lot 4822 meets the south boundary of lot 4823, Salvo Island; thence westwards along the coast boundary of lot 4823 to the point where the coast boundary of lot 4823 meets the south boundary of lot 4824, Salvo Island; thence southwards along the coast boundary of lot 4824 to the point where the coast boundary of lot 4824 meets the south boundary of lot 4825, Salvo Island; thence westwards along the coast boundary of lot 4825 to the point where the coast boundary of lot 4825 meets the south boundary of lot 4826, Salvo Island; thence southwards along the coast boundary of lot 4826 to the point where the coast boundary of lot 4826 meets the south boundary of lot 4827, Salvo Island; thence westwards along the coast boundary of lot 4827 to the point where the coast boundary of lot 4827 meets the south boundary of lot 4828, Salvo Island; thence southwards along the coast boundary of lot 4828 to the point where the coast boundary of lot 4828 meets the south boundary of lot 4829, Salvo Island; thence westwards along the coast boundary of lot 4829 to the point where the coast boundary of lot 4829 meets the south boundary of lot 4830, Salvo Island; thence southwards along the coast boundary of lot 4844 to the point where the coast boundary of lot 4

## Hudson Bay Mountain Mining Properties Being Developed by Alfred C. Garde and others

(Second of Series of Articles on Mining in Bulkley Valley, based on Smithers Board of Trade Report)

Alfred C. Garde, the well known mining engineer of Smithers and formerly of Prince Rupert has been developing for the Eastern bondholders a group of claims in Hudson Bay Mountain known as the Rico-Aspen group on Silver Peak of Hudson Bay Mountain close to Evelyn Station. The property was owned by Joseph Fisher and Joseph Sheedy, two old time prospectors, now dead, and the bond is from their estate. Extensive development was carried on during 1924, the latest work being the completion of the tunnel to cross-cut the main vein at depth. This reached the vein in August, and was afterwards continued along the vein for 50 feet, a good shoot of ore being encountered. The principal showings exhibit high values in silver and lead.

### Canadian Citizen

At Seymour Lake, two miles south of Smithers, while engaged in construction work on the Dutchie Mines Road in 1923, John J. Costello discovered and located the Canadian Citizen claim, to which he has since added three others. Various other claims have been located in the vicinity on account of Costello's find. This is a mineralized zone of considerable width with values in gold, silver and copper. Work was carried on in both 1923 and 1924 to open up the lead, with encouraging results, and the owners intend to continue development in 1925. The situation of the discovery affords great advantages, the workings being only one hundred yards from an automobile road and a mile and a half from the shipping point on the railway.

### Silver Creek

The Silver Creek and Home-stake Groups, owned by Peter Schufer and partners, are located on the summit of the Silver Creek Pass, Hudson Bay Mountain, and reached by trail from Lake Kathryn Station, eight miles away. There are several fine showings, one a vein with high grade silver-lead ore, another being of zinc of which a very large body is in evidence. Some years ago a shipment of high grade ore was made from the silver-lead vein giving returns of \$175 per ton. Although little work has been done in recent years this is a prospect likely to turn out well.

### Carroll Property

During the past two seasons, Philip J. Job has consistently and successfully developed the Carroll Group, purchased by him. This is a silver-lead property and results have been such that development is likely to proceed on a larger scale in 1925.

### Lake-view

Near the Silver Creek property of Hanson and associates have a group known as the Lake-view.

### GOVERNMENT LIQUOR ACT.

**NOTICE OF APPLICATION FOR BEER LICENSE.**

NOTICE is hereby given that on the 7th day of March next the undersigned intends to apply to the Liquor Control Board for a license in respect to premises being part of the building known as the Old Empress Hotel, situated at 720 Third Avenue, West, in the City of Prince Rupert, Province of British Columbia, the land described as lots seventeen, fifteen, and eighteen (17, 15, and 18), in Block Twenty-three (23), Section One (1), City of Prince Rupert, according to a registered map or plan deposited in the Land Registry Office at the City of Prince Rupert and numbered 923, for the sale of beer by the glass or by the open bottle for consumption on the premises.

## VOLUNTEERS TO BE TRAINED BY PETTY OFFICER

G. H. Kinch Permanently Appointed Here for Position of Instructor

With the arrival of Chief Petty Officer G. H. Kinch from the Esquimalt naval training station the work of the local naval volunteers will be immediately got under way from a practical standpoint. Chief Petty Officer Kinch, who has been permanently appointed by the Ottawa government to give naval training to the 52 ratings to be voluntarily enlisted in Prince Rupert, has had twenty-nine years experience in the Royal Navy and Royal Canadian Navy and will be responsible for all future training of recruits prior to their leaving for more advanced instruction at the Esquimalt naval barracks. In addition to giving instruction this Chief Petty Officer will be in charge of recruiting.

Recruits will be signed on for a three year term under the existing naval volunteer scheme, and after course in preliminary training locally in seamanship, rope splicing and other branches of naval knowledge, they will undergo additional and more advanced training at the Royal Canadian naval barracks at Esquimalt. The training periods at Esquimalt have been set down for May 1 to 16; June 15 to 27; Sept. 21 to Oct. 3; and Oct. 5 to 17.

Upon enlistment, and at the conclusion of preliminary training, all recruits will be in receipt of pay from the time they leave the local company headquarters until they return first class transportation being furnished at government expense.

### Physical Training

A feature of the training will be that of physical culture. Upon the enrollment of 25 men in the volunteer reserve the government will furnish gymnastic equipment consisting of vaulting horse, parallel bars, horizontal bars, Indian clubs, etc. Chief Petty Officer Kinch is particularly well qualified in this branch of instruction, he being a former heavyweight champion of the Mediterranean fleet and an expert in the art of Jiu-Jitsu.

### Gunnery Training

A twelve pounder, 12 cwt. naval gun, mounted on a regular ship's mounting, is already at the local naval headquarters, and will be used for gunnery instruction. Rifles and the necessary leather accoutrements are already here.

The local headquarters of the Royal Canadian Volunteer Reserve detachment have been established in the Hays Building and Chief Petty Officer Kinch will attend daily to receive enlistments and to give full particulars of the many advantages of this branch of His Majesty's service.

## BEN SELF NEW FAIR PRESIDENT

First Meeting of 1925 Board  
Held Last Night—Exhibition  
Dates, September 8 to 12

### TO IMPROVE GROUNDS

Erection of Permanent Grand  
Stand and Removal of Rock  
on Tapis

The 1925 Fair Board is already in harness and is imbued with determination that nothing is to be left undone to make the Exhibition and all its attendant functions this year a more successful and attractive event than ever before. Last night the first meeting of the new board was held and it was decided that the Fair would open this year on September 8 and continue until September 12. There was a full attendance of directors at the meeting.

The election of officers for the year from the board resulted as follows:

President—B. F. Self.  
Vice-president—John Bulger.  
Honorary secretary—Frank Dibb.

Managing director—D. McD. Hunter.

Hon. T. D. Pattullo was re-elected honorary president and Fred Stork honorary vice-president.

The new president will later announce his standing committees for the year.

Perhaps the most important decision reached last night was

## MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days. Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use:

### MILBURN'S HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitestone, Ont., writes: "I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers.

## WESTHOLME THEATRE

Tonight Only, 7 and 9 p.m.

## "THE ARIZONA EXPRESS"

A mile-a-minute railroad thriller adapted from Lincoln J. Carter's famous melodrama of that name. An express that carries a large consignment of love, mystery and romance. A superb photo-play abounding in re-stirring incidents set amidst an unending variety of beautiful scenery. The romance of a young mail clerk and a beautiful girl and the exciting adventures that befall them whilst saving her brother from the death penalty for a crime he had never committed. None should miss the washed out trestle and the train wreck, and the hold-up by mail-car bandits. Strong cast.

David Butler, Pauline Starke, Harold Goodwin, Francis MacDonald, William Humphrey, Evelyn Brent, Anne Cornwall and others.
