TERMS OF SHIP SUBSIDY BILL ANNOUNCED

PROPOSAL TO EXTEND CONSTITUTIONAL POWERS OF CANADA WITHDRAWN

Resolution to Extend Powers of Canada is Withdrawn in Commons

Premier Mackenzie King asks that no vote be taken but claims right already exists

OTTAWA, Feb. 20.—The resolution of W. F. Maclean, Conservative member for South York, asking that power to amend the British North America Act be granted to the Parliament of Canada was withdrawn last night by the mover. An amendment to the motion and an amendment to the amendment were also withdrawn following an exhaustive debate in the House last night.

Expressing the hope that the resolutions and amendments would not be pressed to a vote, Premier Mackenzie King said he felt it would be inadvisable for the House to pass the resolution. He took issue, however, with those who declared that Canada had no right to amend her constitution. "I contend that we have a right," the Premier said. The letter of the law required the passing of an act by the British Parliament but on the other hand Britain could make an amendment to the constitution without the consent of the Dominion. The question of whether or not amendments could be made within the narrow confines of the Dominion was open to discussion.

FIRE IN COURT AT LOS ANGELES

Everybody Rushed for Door but Blaze Extinguished: Aim of Chaplin Suit

LOS ANGELES, Feb. 20.—Panic swept the court and spectators, attorneys and attaches stampeded for the doors when the film exhibit in the Charles Chaplin suit against Charles Amador caught fire. Cameramen extinguished the blaze.

From Half Million to Million Dollars Worth Stolen at Hollywood

HOLLYWOOD, Feb. 20.—Oil paintings and antiques valued at from half a million to a million dollars were stolen from the home of Martin Weinschenk during the owner's absence from the city for a few days.

SENATOR DEFENDS OWN INSTITUTION

Declares Second Chamber is Bulwark of Nation

OTTAWA, Feb. 20.—That the Senate is a bulwark against popular passions and upheavals is the opinion of Senator Tessier of Quebec in an address in the upper chamber. He did not see any serious argument had been put forward favoring the changing of the constitution of the Senate.

STORK MOTION LITTLE BOMB

Causes Quite a Stir Among Federal Politicians Who See Trouble Ahead

MARITIMES CODDLED Politicians Look to Rupert Member as Second to Dr. King in Province

(Special to Daily News.)
OTTAWA, Feb. 20.—The motion of Fred Stork asking for full returns of amounts paid to British Columbia by the Dominion compared with those paid to other provinces, and amounts collected in other provinces with a view to adjustment if it is found that British Columbia is not justly treated, is another step toward equal treatment of the Pacific Province such as has been demanded for a number of years. It follows naturally on the proposal to equalize the freight rates.

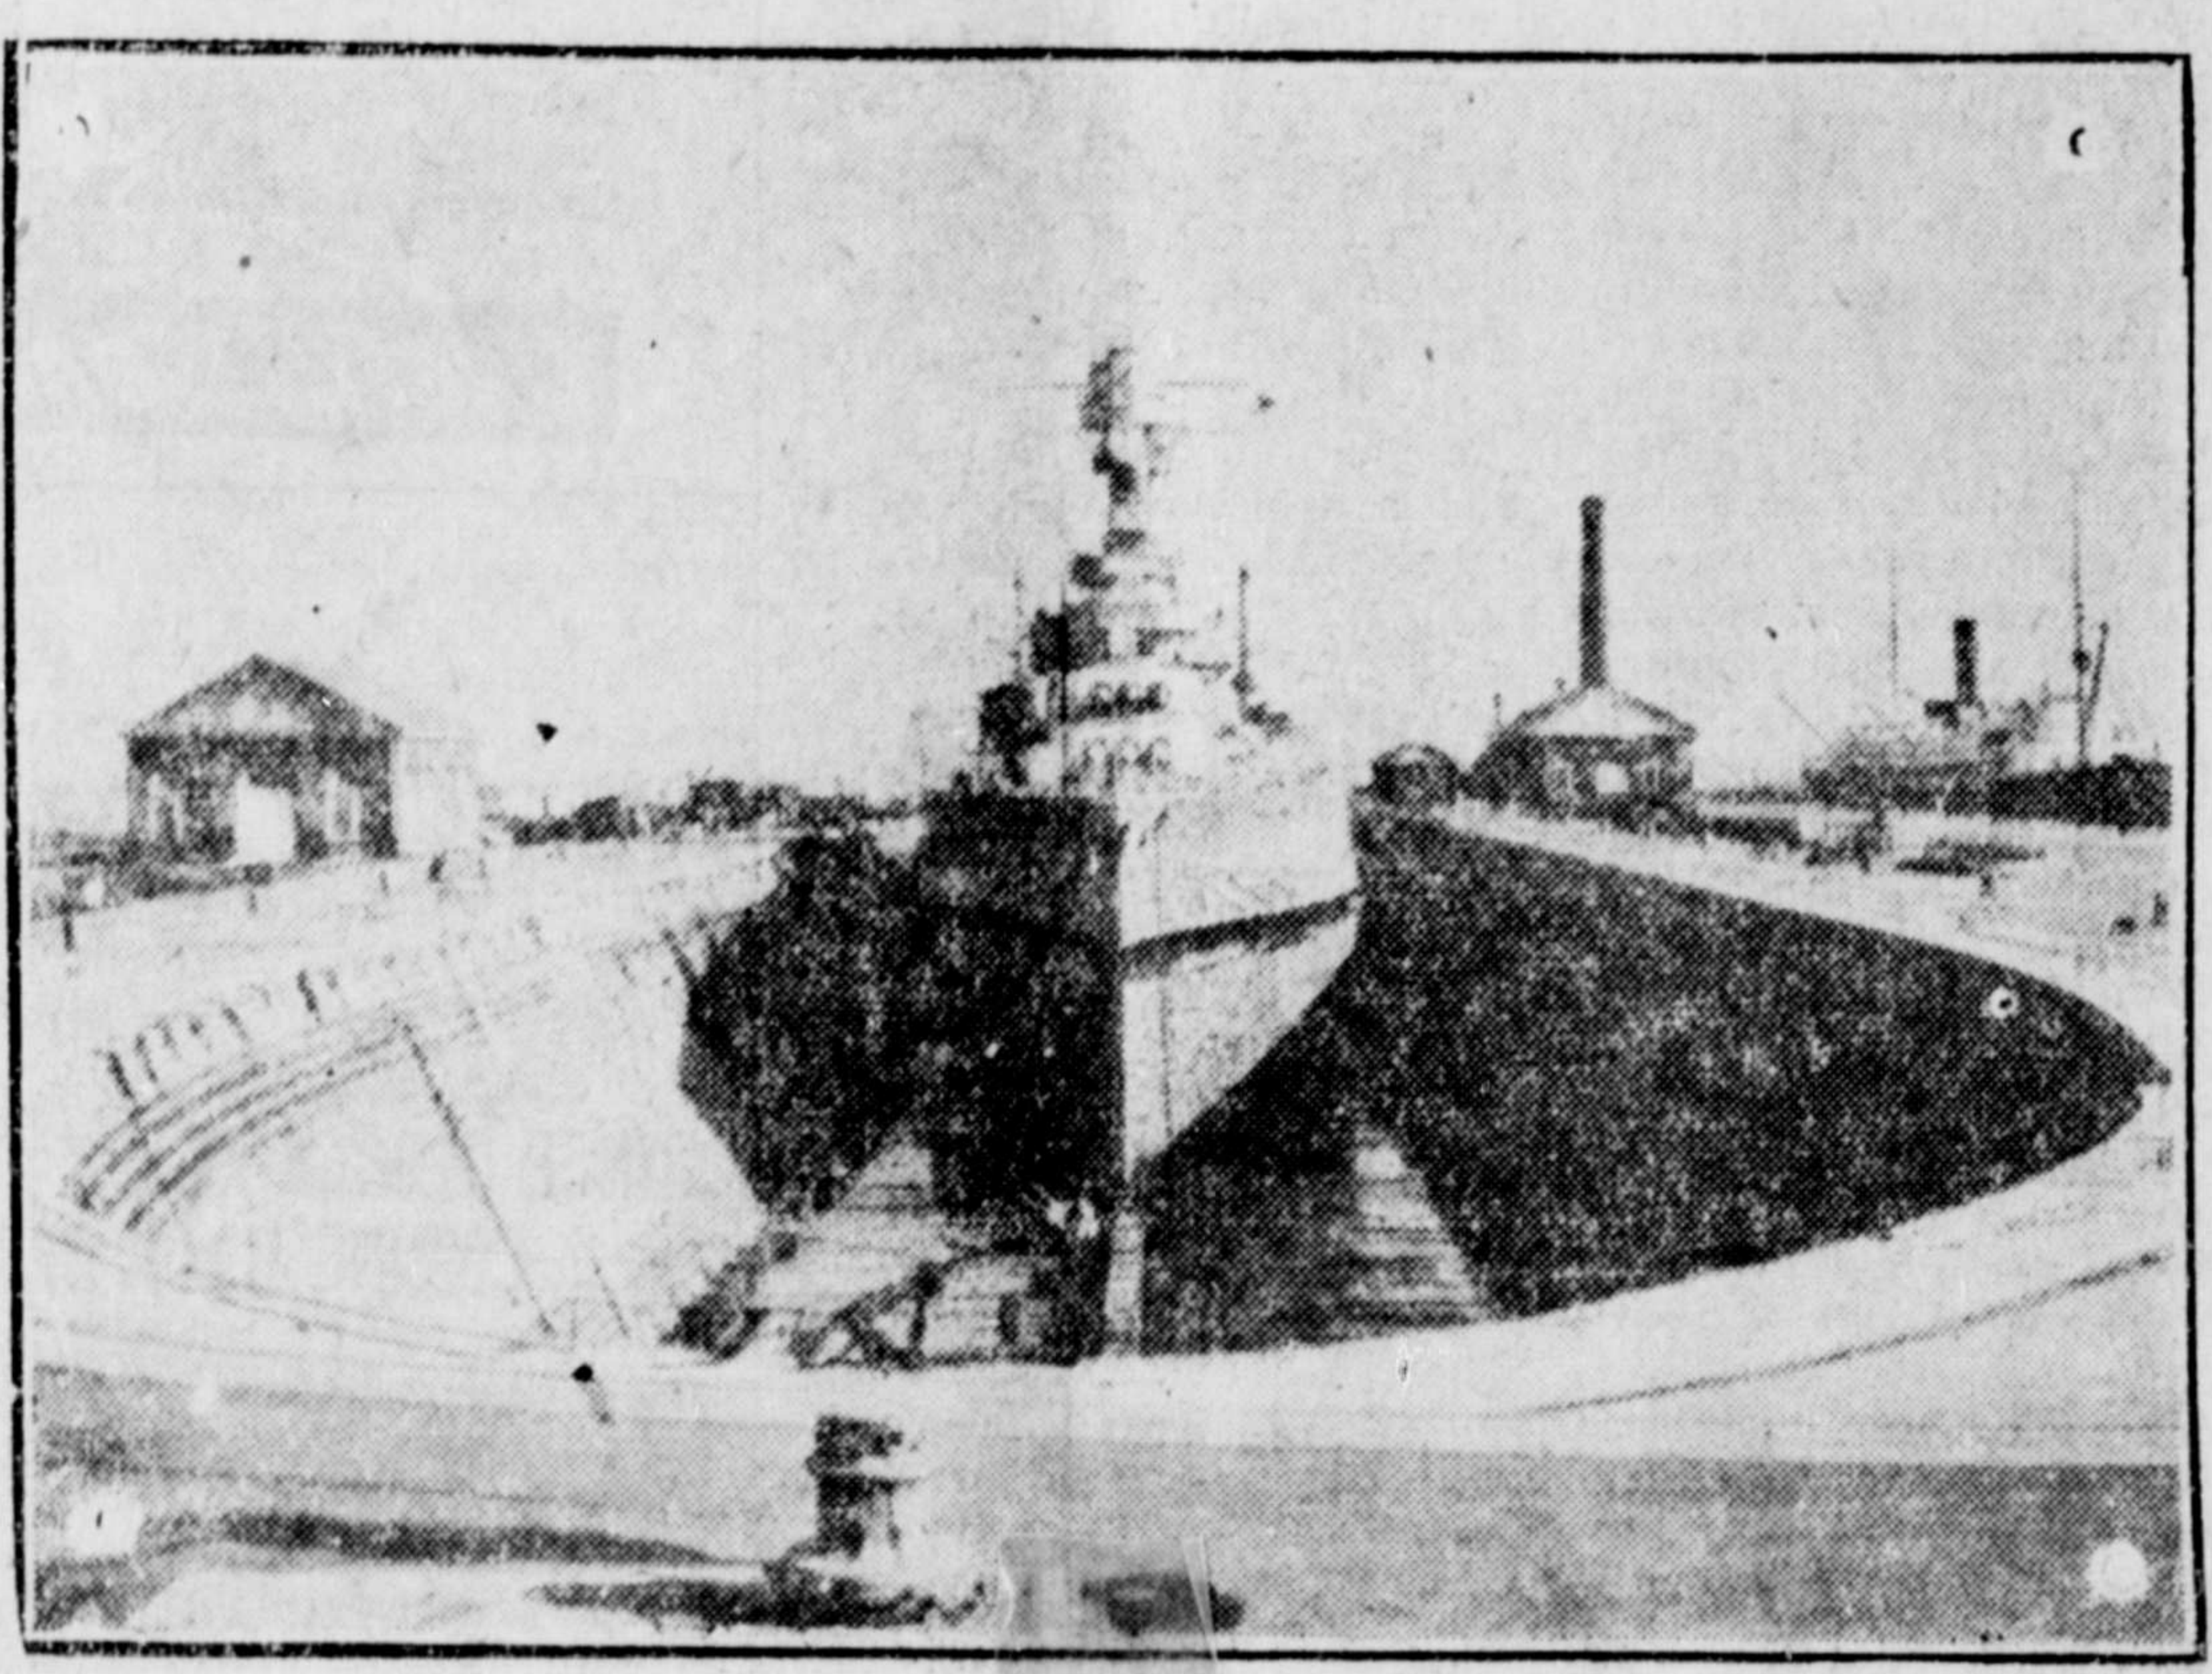

People here are discussing the possible outcome of the compilation of the returns with a great deal of interest. It is pointed out that care will have to be exercised to make sure that the returns are complete, else they will be misleading.

Stork's Position
Mr. Stork has drawn a good deal of attention to himself in regard to this matter. Next to Dr. King he is looked upon as the leading exponent of Liberalism on the Pacific coast in federal affairs. He is not perpetually in the limelight but he lets no opportunity pass of speaking for his constituency and his province. In this case he has an idea that British Columbia is not fairly treated, financially, and he looks to the government which he supports to rectify the wrong.

There have at various times been complaints that some of the provinces have received more than their share of federal cod-dling. The Dominion has to make up the loss of about five million dollars on the section of the National Railway running through those provinces, whereas on the Pacific the loss is only slightly over a million. This itself is a large payment for the Dominion to make.

Causing Uneasiness
The notice of motion of Mr. Stork was a little bomb in the federal mixup and is still causing uneasiness in some quarters.

Union steamer Venture, Capt. A. Johnstone, was in port from 5 o'clock to 6.30 this morning northbound from Vancouver to Anyox and the Naas River.

This is how a battleship looks in a bathtub. The U.S.S. Tennessee, one of the prides of the American navy, is shown in drydock at San Francisco, where it is receiving its annual clean-up.

MAKE LEVY ON CAPITAL

French Propose Drastic Measures as Solution of Financial Troubles

PARIS, Feb. 20.—Official circles here concede that a capital levy in some form is among the plans of the government for the solution of France's financial troubles. The announcement has caused a sensation.

The finance minister called it a "special contribution." The word "levy" is more brutal than "contribution" it is pointed out but both mean the same thing in the end.

STEAM PIPE BURST KILLING TWO MEN

Were Working on Pit in Western Shops when Accident Took Place

WINNIPEG, Feb. 20.—Robert McKenna and H. Summers were killed and three men were seriously injured when a steam pipe exploded in the C.P.R. power house at the company's Weston shop late yesterday. The men were working on a pipe pit making repairs to the high pressure steam line when the explosion occurred.

NAVIGATOR IS A TOTAL LOSS

Explosion at Barbadoes Followed by Fire Which Could Not be Extinguished

KINGSTON, West Indies, Feb. 20.—A fire on board the steamer Canadian Navigator, the cargo of which included 500 drums of gasoline, broke out Tuesday while the vessel was discharging cargo at Barbadoes. It was preceded by a terrific explosion which killed four laborers. It being impossible to save the ship, she was towed outside the harbor and cut adrift.

Bolshevist Newspaper Tells of the Success of Communists in Canada

LONDON, Feb. 20.—The success of communistic propaganda in Canada is the subject of an article in the Moscow Pravda telegraphed to the Morning Post. The article says special communist lecturers have been travelling through Canada that membership in the communistic organization has increased considerably, so much so that communist training schools are preparing a special weekly supplement to their central organ appearing fortnightly in Yiddish.

It is said the communists organized the recent miners' strike in Western Canada.

GOOD SUM FOR NORTHERN B.C.

This District Gets Large Share of Money Mentioned in Estimates

Of the grand total of \$3,051,629 voted British Columbia in the main estimates which were tabled in the House of Commons at Ottawa last week, Prince Rupert riding has received a fair share. It is expected that the supplementary estimates, which usually come up towards the end of the session, will include even further appropriations for the riding.

Besides the \$500,000 provided for the continuation of the elevator construction here, this district receives the following votes:

- Prince Rupert drydock, \$76,970.
 - Kincolth wharf improvements, \$1,200.
 - Port Clements wharf repairs, \$6,600.
 - Port Essington float improvements, \$1,200.
 - Queen Charlotte City float repairs, \$1,200.
 - Skidegate wharf repairs, \$2,400.
 - Prince Rupert-Queen Charlotte Islands mail service, \$24,000.
 - Vancouver and northern ports mail service, \$24,800.
- There are also other estimates of a general nature in which the district will share. The sum of \$76,970 appearing

QUEER LEGACY TO FOX FARMER

Saskatchewan Man Becomes Lord of Woolen Manor but has Duties First

MUST MARRY SOON To Make Visits to Historic Places and be Member of Sussex Fox Hunt

SASKATOON, Feb. 20.—A legacy has been left to Captain Alfred Blake, fox farmer of Wilkie, Saskatchewan, by his uncle, Colonel Arthur Smith of Sussex, England, which makes him Lord of Woolen Manor. He must carry out strange provisions before he claims the estate valued at nearly three quarters of a million dollars.

Capt. Blake must visit his mother's birthplace at Umballa, India, visit the spot in South Africa where his father was killed in the Boer War, remain in Canada until November 20, 1927, and thence make his home at Woolen Manor and marry before January 1, 1930, and also be a member of the Sussex fox-hunt.

Mr. and Mrs. W. R. Tooth of Stewart are visiting in Vancouver.

Ship Subsidy Bill Provides for Payment of 275,000 Pounds Yearly; Service Begins in June

OTTAWA, Feb. 20.—Under the scheme for the bonusing of steamship lines with a view to reducing the freight rates and breaking the Atlantic combine, the agreement between the Government of Canada and the Peterson line of freighters provides for a subsidy of 275,000 pounds, the service to start not later than June of this year and to continue for ten years or longer if mutually agreed upon.

The Petersons are to place ten modern freighters in the service and these vessels all must be approved by the British Board of Trade, which is the highest shipping authority, and have a high classification at Lloyds.

The subsidy is being considered by the House of Commons today.

British Columbia's Position

In an interview given by G. G. McGeer, K.C., provincial government rate counsel, that gentleman declared emphatically that British Columbia is solidly behind the King government's courageous attempt to fight the North Atlantic Shipping Conference and reduce Atlantic rates by subsidizing British lines—but it insists that similar rate reductions be made on the Pacific. All that British Columbia wants, Mr. McGeer said, is assurance that it will receive this protection.

"The Government's plan to reduce Atlantic rates is a splendid thing for Canadian Atlantic ports and Canadian shippers who are using the Atlantic route, but what will be the result to Pacific ports?" Mr. McGeer asked. "What will be the result to Western Canadian shippers whose only highway to the United Kingdom and European markets is through Western ports and the Panama canal?"

Western Route

"The Western route is but in its infancy. It needs every assistance that can be given it. It is competing with the Atlantic route, equipped with all trading facilities invention can devise and enjoying an established trade. The Western route, in addition to these handicaps, is forcing itself into being despite discrimination in rail rates; but these handicaps are sufficient to tax the West to the uttermost. If in addition to this the Atlantic ocean rates are reduced by a subsidy from the Federal Government, the ports of British Columbia will have another serious handicap to overcome. We must recognize that we would feel severely the result of lower rates from Atlantic ports unless we were protected as the Eastern ports are.

"In other words, a cut in Atlantic rates without a cut on the Pacific would simply add the amount of that cut to British Columbia's present heavy rate burden. We don't want more than any other province, but we want as much, and we are confident that we shall get it."

CAR JUMPED TRACK FIVE WERE KILLED

MANILLA, Feb. 20.—Colonel Herring, Major Hunter and three enlisted men of the coast artillery were killed and an officer and ten men injured when a trolley car jumped the track near here.

R. Boyd Young, after spending a couple of days in the city on business, returned to Port Simpson on the Venture this morning.

PEACE RIVER NEGOTIATIONS PROGRESSING

No Definite Plan Yet Evolved for Solving Problem of Transportation

OTTAWA, Feb. 20.—No definite plan solving the transportation problems of the Peace River country has been received by the department of railways. Hon. George P. Graham told D. M. Kennedy, Progressive, in the House of Commons yesterday. He said the negotiations between the executives of the Canadian National Railway and the C.P.R. were progressing.

NEGOTIATIONS WITH BRITAIN

Formation of Economic Committee Said to be Well Advanced

LONDON, Feb. 20.—Negotiations between the British Government and the Dominions for the formation of an Imperial Economic committee are well advanced, says the Daily Mail. The paper says probably a large part of the available funds will be spent in advertising and in various schemes for bringing the produce of the Dominions prominently before the people of this country.

Power To Amend Her Constitution.

The proposal was made in the Legislature that Parliament should ask for power to amend her own constitution instead of going to the British Parliament to secure changes whenever they are needed. That power, it seems, is contained in the constitutions of the South African and Australian commonwealths and the Irish Free State because they insisted it should be there. In Canada it was the leader of the French Canadians, Hon. Ernest Lapointe, who defended the present system. French Canadians have often been spoken of as half hearted in regard to the British connection but it was an Ontario Conservative who made the proposal to cut one of the links of the present binding chain.

No Objection To Amending Constitution.

We see no objection to amending the Canadian Constitution to give Canadians the right to make their own future amendments if they see fit, as long as it is not made too easy to amend it. We do not want a condition where a bare majority could at any time make change without mature consideration. The present method of securing the consent of the Dominion and of each of the provinces is difficult enough.

No Protection Yet For B.C. Ports.

So far as the despatches indicate there is no protection yet provided in the ship subsidy bill for British Columbia ports. If the rates on the Atlantic are reduced without a corresponding reduction of rates through the Panama Canal, we are then paying our competitors to undercut us. Possibly we are not fully informed yet in regard to this matter, but we must not allow any discrimination against ourselves without a vigorous protest.

Senate Vote Face Hard To Explain.

The Canadian Senate is changing its attitude toward the liquor regulations asked by the Canadian government. Twice before have those regulations been turned down by the Senate after they passed the House of Commons but now, it is announced in despatches, the Senate is shifting its ground and members will vote for the measure or refrain from voting and allow it to pass.

To Insurance Beneficiaries

Hundreds of thousands of dollars are lost annually through the unwise investment or careless spending of monies received for insurance death claims and matured endowments. A Union Bank Savings Account is the proper place for the deposit of such monies. The funds will then be in safe keeping and earning interest for the beneficiaries.

Dome Mountain Mines Located Twenty Miles East of Telkwa Were Recently Closed Down

Fifth of Series of Articles on Mining in Bulkley Valley, based on Smithers Board of Trade Report. Twenty to twenty-five miles east from Telkwa, and reached by road and trail from that point, lies another section of the Babine Range—that of Dome Mountain. Here, unlike other parts of the range, the mineral wealth so far discovered is not in silver, lead and copper, but chiefly in gold. The ore bodies are found in quartz-filled veins, of which a number have been found on the mountain. These vary from a few inches in width up to many feet and are remarkable in their great length. In places some very high grade ore has been found, but the most promising feature is probably the fact that there have now been proven several very large bodies of ore running between \$20 and \$30 per ton. Although some of the veins show good values in silver, in lead, in copper, in zinc, yet the greatest value in nearly all cases is in gold.

Though locations were made here many years ago, progress in development work was not very marked until 1922 when Thomas Jefferson took under option nearly all the claims then located on Dome Mountain. Backed by New York capital he carried on active work throughout that season, opening up various showings. Results proved most satisfactory and in consequence all of these properties were purchased at the beginning of 1923 by the Federal Mining & Smelting Company. By them a new company—the Dome Mountain Gold Mining Company, Limited—was incorporated to take over and develop the claims. A very active program was carried on during that year and the early part of 1924. Camps were constructed, power plant and compressor installed, shafts sunk, tunnels driven to prove up the ore bodies, and trial shipments of ore were sent out.

Many Staked There

The outcome of this activity was to arouse the interest of other parties and during 1923 scores of new stakings were made in all directions from the company's holdings. Harry Howson, the Chisholm brothers, the Carr brothers and others located claims on Dome Mountain at this time. With some of these the Dome Mountain Gold Mining Company Limited negotiated for the purchase of their interests, but apparently the demands of the owners were not acceptable to the company and no deals were made.

In June, 1924, simultaneously with the closing down of the other operations controlled by the Federal Mining Company in this part of British Columbia, all work was shut down. Announcement was made by the company that the showings had not opened up satisfactorily under the work done. Later in the year the company went to the expense of obtaining crown grants for all its holdings—thirty-four claims. This would suggest that perhaps there are reasons for the closure other than that announced publicly. Of the "staked" locations made in 1923 many have now been abandoned by the locators.

POWER LINE TO ELEVATOR SITE

City Has Started Work on Connection at Westview as Asked for by C. D. Howe & Co.

The city has started the installation of a temporary power line to the elevator site west of Morse Creek, work having commenced yesterday. Connection is being made from the city's regular line near the corner of Graham and Allen Avenues. This, being built in response to a request recently made by C. D. Howe & Co., will provide power needed during the construction of the elevator. The permanent line for the operation of the elevator will be put in later.

Ten Years Ago in Prince Rupert

THAT THREATEN THROAT & CHEST

The germs of colds, gripe, influenza, and throat troubles are a real peril to everybody. Carried in with the air we breathe they fasten on to the soft delicate membrane of the breathing passages, multiply rapidly and spread irritation and inflammation wherever they go.

The safest and best means of combating this germ peril, is to dissolve a Peps tablet in your mouth whenever the throat feels in the least sore or inflamed.

Peps are a soothing, invigorating and germ-destroying medicine. Their volatile fumes thoroughly disinfect the throat, bringing quick relief from pain and irritation. They put an end to mischievous germs before they are able to carry trouble along into chest and bronchials.

RESOLUTION AGAINST BETTING BEFORE THE HOUSE OF PARLIAMENT

OTTAWA, Feb. 20.—There is a notice of motion standing in the name of W. C. Good, M.P., designed to do away with the betting privileges at horse races. The resolution reads: "That the special privilege now given to racing associations and the criminal code of carrying on public gambling operations in connection with their race meets is detrimental to the best interests of Canada and should be abolished."

REWARD WORLD FLYERS WASHINGTON, Feb. 20.—After an hour's wrangle, the House passed a bill rewarding the world flyers along the lines recommended by the War Department.

MALASPINA SEARCHING FOR MISSING SCHOONER

No Success has yet Attended Effort Although There Still Seems to be Remote Hope

The government patrol steamer Malaspina, Capt. Laird, assisted by boats from Swanson Bay, is making a systematic search in the vicinity of Milbank Sound for trace of the missing schooner Haysport No. 2, and her crew of four men. So far as is known here, no success as yet attended the effort although there seems to still be a remote hope that the vessel may be crippled in some out of the way cove or her men safely ashore after a wreck.

HARRY KILLAS DIES IN CALIFORNIA WHEN VISITING HOTSPRINGS

Leaves Widow and One Child; Brother and Sister Here

Word has been received in the city of the death at Sonora, California, Wednesday, of Harry Killas, formerly of Prince Rupert. He had gone to the hot springs at Sonora for kidney trouble but failed to recover.

Mr. Killas was 35 years of age and had lived in Canada 19 years. He leaves a widow and one child in California. His brother is James Killas of this city and there is a sister, Mrs. Christopher.

CO-OPERATIVE INCREASE

MANCHESTER, Eng., Feb. 20.—The 1924 turnover of the Wholesale Co-operative Society for 1924 amounted to \$360,000,000, or \$32,500,000 more than in 1923. This concern, which started in a very small way, owns eight boot factories in the Midlands and several textile mills in the Yorkshire district.

"Cocoanut and Palm Oils give this famous laundry soap its extra cleaning power —" says Mrs. Experience

"Sunlight is so much more than ordinary laundry soap! It is a pure soap made from cocoanut and palm oils—two of the gentlest and most thorough cleansing materials ever discovered.

"These cocoanut and palm oils, I happen to know, are produced on the makers' own plantations. They are purified and blended to such a degree of perfection in Sunlight that it is really the most labour-saving, time-saving and economical soap I've ever used.

"Sunlight, of course, is purity itself—it contains no adulterating materials, which are useless to women as soap, but are often put in to make a bar look bigger. Every bit of Sunlight is pure, cleansing soap, so it just cleans and cleans and cleans—you can use it for every household purpose, for a little of it goes a long way. Sunlight keeps your hands soft and comfortable, too!" Made by Lever Brothers Limited, largest soap-makers in the world.

ANNUAL CHURCH MEETING HELD

Successful Year was Reviewed by Presbyterians Last Night—Usual Congregational Dinner

The year 1924 was a very successful and prosperous one as far as the local Presbyterian Church was concerned, the feature of the congregation's activities, of course, having been the successful conclusion of the project launched a year ago which has now resulted in the erection of the handsome new edifice on D. C. McRae to the choir and its final meeting of the congregation was held last night in the church basement and the flourishing condition of the church was reflected in the various reports covering the year. The meeting was preceded by the usual congregational supper, arrangements for which were carried out with the usual success by the Ladies' Aid of which Mrs. Joe Greer is president. The pastor, Rev. Dr. H. R. Grant, presided, and there was a large attendance.

The report for the Sunday School was read by the superintendent, Howard White. Mrs. Joe Greer, president, and Mrs. George Rorie, treasurer, reported for the Ladies' Aid. George Munro, chairman, submitted the report of the board of managers and George Rorie, treasurer, reported on the church's financial condition.

Votes of thanks were moved by Fourth Avenue East. The announcer, Mrs. S. Darton, and organist, Mrs. R. A. Harlow; by Joe Greer to the Sunday School superintendent and teachers, and by George Rorie to the Ladies' Aid. A vote of confidence in the pastor, Rev. Dr. H. R. Grant was moved by Thomas McClymont and carried with enthusiasm, the gathering rising and singing for "He's a Jolly Good Fellow."

Jarvis McLeod, John Currie and Sam Massey were elected to the board of managers and three members were added to the session in the persons of J. W. McKinley, J. L. Christie and W. L. Sandison.

FOUGHT WAY TO SEE WEDDING OF DWARFS

Mob of Uninvited Guests Invade Church of Holy Trinity, Weymouth

WEYMOUTH, Feb. 20.—There was such a mob of uninvited guests at the recent wedding here of Miss Eliza Victoria Walbridge and Alfred Goodwin, dwarfs, and such a buzz of whispers among the throng that the noise became extremely embarrassing to the clergyman performing the ceremony. He had to call for silence five times and threatened to order everyone from the church excepting those of the bridal party.

Miss Walbridge is but three feet two inches in height while the bridegroom stood but three feet seven inches in his wedding slippers. The heads of the couple did not come up to the altar rails in Holy Trinity Church and nearly everyone of the spectators stood on the seats with the hopes of getting a glimpse of the little man and his bride.

Hundreds fought their way toward the altar, while the crowd outside held up traffic for an hour or so and extra police had to be called to remedy the situation. The bride wore white satin and the bridegroom was dressed in a frock coat and carried a top hat. They were followed by a page and two bridesmaids, none of whom were dwarfs.

LEAGUE MAY TACKLE DIFFICULT TASK OF MUNITIONS CONTROL

GENEVA, Feb. 19.—Whether an international convention to control the private manufacture of arms is feasible and realizable at the present time is being discussed at Geneva by the League of Nations reconstructed disarmament commission, which is officially known as the committee on co-ordination.

The last assembly of the league requested the council to prepare a draft of an international convention for the private manu-

BRINGING UP FATHER

facture of arms, munitions and war material, which would serve as the basis of a later international conference. At its Rome session in December the council asked the co-ordination committee to take up this matter in February, and decide whether to invite the United States immediately to take part in the preliminaries. Article 23 of the covenant entrusts the league with the general control of the traffic in arms and munitions between countries where such control is essential in the common interest.

AMERICAN WORKMEN MORE EFFICIENT AS RESULT PROHIBITION

CARDIFF, Feb. 20.—Prohibition has increased the efficiency of American workmen by 20 per cent., says a report by Sir and Coventry, Ltd., tinplate manufacturers, on the state of the Welsh tinplate market in 1924. The report adds that this factor must be taken into consideration if it ever comes to clear-cut competition between the American and British tin plate workers.

"It is fashionable in some quarters to laugh at prohibition," the report continues, "but this calculation seems to suggest that, rather than a laughing matter, it is a factor of very real importance."

Sport Chat

While only three of the five games in the second division billiard tournament last night between the Grotto and Great War Veterans were played, it looks as if any lingering chances the tobaccoists may have had for championship honors have now gone glimmering. The Vets won all the three games, the individual scores being as follows:

J. Hillman (Grotto) 87; Dr. West (Vets) 150.

S. Suga, 114; C. L. Youngman, 150.

J. McDougall, 136; T. Black, 150.

The game between Joe Beesley and E. Feneon will be played today and that between W. J. Nelson and Bert Wearmouth tomorrow.

Wayne Munn looks like a comer as a heavyweight wrestler. He loomed prominently before the public eye a couple of weeks ago when he defeated Stanislaus Zyzsko, former world's champion. Now he has created a second sensation by easily disposing of Mike Romano who gave Strangler Lewis, the champion, so much trouble to defeat. A meeting between Munn and Lewis for the title is now on the cards and there are a good many fans of the mat game who are looking for its ownership to fall into the hands of the new man.

Jake Scheffer, jr., is considered the leader of the world's billiard players. At least, Willie Hoppe says so, and Willie Hoppe, for many years back-line champion, should know. Hoppe puts Scheffer at the head of his list of ten "Moderns." Welker Joehran, of California, he puts second, and Roger Conti, of France, third, the others are in rotation: 4, Edouard Foreman, Belgium; 5, Erich Hagenlacher, Germany; 6, Ora Morningstar, California; 7, Felix Graue, France; 8, Edmond Derhier, France; 9, George Sutton, Chicago; 10, George Slosson, Boston. He has a "Ten for all Time" also, and in this again he put young Jake Scheffer at the head, but he makes Frank Ives second, and old Jake Scheffer, the father to the present wonder, third. The other men on the list follow each in his place: 4, Maurice Vignaux, France; 5,

BUSINESS IS MENTIONED

Dybhavn Tells of Method in Addressing Rotary Luncheon

One of the business men coming under the Rotary banner is to be on hand this show regard to the address of John Dybhavn, who spoke to the luncheon yesterday on the fish business. Fred Dybhavn, chairman of the business committee, presiding. Dybhavn said that the buying of fish was pretty routine work of a cut and nature. There was rather a relationship between the wholesaler and his source of supply. Sometimes that relationship commences before the fish are out after the fish and at the time it comes.

Time Set for Sale

Salmon were sold at the exchange at a certain hour. The vessels arriving later were held until the day, unless word was sent to the name of the fish. Particulars regarding the sale were on the board at the time of the sale. A few extensions were made in regard to carrying late on a Saturday. There is no Sunday sale and would deteriorate by Monday.

fish, Mr. Dybhavn said, sold by public auction to highest bidder. They were purchased by the one who most reckless. The sale is cash and subject to the buy-out. While the cull was less arbitrary, the man it was experienced and was used to know the difference between good and bad fish. Usually the fishermen were satisfied.

Unique Case

On occasion in which the fish had been utilized to the disadvantage of the fisherman was quoted. It was in fact, on that occasion the fish was offered a higher price than second class fish than for first class, but when it came to grading the fish was graded first.

This business was one of the in which all transactions were strictly cash. Cold cash was the talking. The fish was for just as soon as delivered.

Mr. Dybhavn suggested that a new system so good that it did not sometimes creep into the things he mentioned was the desirability of all on time. To do otherwise contrary to the Rotary.

DRAWING MEANS OF RADIO

Experiments Conducted Over Months Show Good Results

Experiments carried on over a period of eight months at KGO have shown conclusively that radio-drawing is of real value in classroom instruction. This experiment was made today by Virgil E. Dickson, head of the department for "Research in Schools" in the Oakland schools, whose attempts at radio in school work has attracted international attention. What now remains, in the opinion of Dickson, but to work out the preparation of material and the instruction of radio teachers. A committee is now at work on these plans. From what has been said it is evident that an entire new technique of thinking, writing and drawing will have to be learned by the radio teacher. The subject found to be best for broadcasting, pen-drawing and drawing, have shown some startling results. Drawing, particularly radio, has shown results originally on the part of the teacher in person. The ideas, valuable to education, have been discovered in new fields of possibility. An opening up as a result of experiments, and a new educational method is the result. From the very beginning of the experiments at KGO it has been a constant aim to have

WHOOPING COUGH IS A VERY SERIOUS TROUBLE HER 5 CHILDREN HAD IT

Mrs. S. H. Craig, R.R. No. 1, Palmerton, Ont., writes: "Two years ago, last winter, our five children had very severe attacks of whooping cough. We were recommended, by our druggist, to use

DR. WOOD'S NORWAY PINE SYRUP

which we did with the greatest of success. It cleared out the throat and bronchial tubes, and loosened the phlegm so that they were able to cough it up, and in no time I had quenched the 'whooping'."

not more than ten classes, in as many different schools, listening in to a lesson, so that control might be kept on how the listening was done, the tabulation of results, and facts concerning mechanical problems of radio reception. The size of the average class receiving radio instruction at any one time was about five hundred pupils.

Dr. Dickson is widely known in educational circles. His experiments at KGO have been made under strictly scientific conditions, and the results are a matter of record.

ANDY LINDBORG DIES IN SOUTH

Well Known Stewart Mining Man and Locator of Big Missouri Passes at Age of 63

Andy Lindborg, well known mining man of the Portland Canal district and locator with his brother Dan, of the Big Missouri mine in 1906, died in the Vancouver General Hospital last Sunday morning. He had been in poor health for more than a year and suffered a stroke recently. He was born in Sweden 63 years ago and had resided in the province since 1895. The funeral took place in Vancouver on Tuesday, Rev. C. G. Owen officiating.

WESTMINSTER ABBEY MAY BE OVERHAULED SHOW ART TREASURES

LONDON, Feb. 20.—The proposal to overhaul Westminster Abbey so that more of its treasures and beauties may be revealed, has led C. W. R. Nevison, an English artist, to remark that the Abbey is more like a departmental store than a church. The opinion that some of the most beautiful things in the Abbey cannot be seen because of the overcrowded memorial statuary is shared by many lovers of the historic building, including Canon Westlake, the Abbey historian. "The proper course is to get rid of some of the ecclesiastical junk at present in the Abbey," Mr. Nevison told the Westminster Gazette. "I think it could be cleaned out without offending anybody's susceptibilities. Ultimately many beautiful things could be discovered which cannot now be seen."

DANES REFUSE TO ALLOW IMPRISONMENT WITHOUT BEING TRIED

COPENHAGEN, Feb. 20.—The recent action of the ministry of justice in ordering interned, without further trial, a prisoner who had served four months for immoral conduct, has roused a demand for more specific legislation dealing with this class of offenses. The Superior Court of Copenhagen ruled that the ministry of justice had no authority under the law to impose internment without a trial, and ordered the man released and compensated to the amount of 4,200 crowns. The case created a profound sensation throughout Denmark and numerous prominent persons have been out-spoken in their approval of drastic action with regard to offenders against public morality. The author, Olga Eggert, in an open letter declared that "the whole people ought to send the ministry a vote of thanks."

ANTI-BOLSHEVIST COUNTRIES FORM A DEFENSIVE ALLIANCE

Not Opposed to Soviet but to Third Internationale Activities in Their Borders

HELSINGFORS, Finland, Feb. 20.—While the recent conference of foreign ministers of Baltic states held in this city did not effect a Baltic entente, or Baltic union, and did not result in any formal alliance designed to protect border states from Bolshevist aggression, there were many evidences that the states which grew out of the dissolution of the Russian Empire are gradually coming

much closer together.

Care was taken by the foreign ministers to make it clear they were not creating an anti-Soviet bloc, and were not agitating against the Moscow government, but were deeply interested in means to prevent Communist agitation and disturbances within their own borders. Count Skrzynski, the Polish minister for foreign affairs, in defining Polish policy toward Russia said: "I make a distinction between the policy of the Russian Soviet government and the policy of the Third Internationale. We must battle against the helliose propaganda of the communism of the Third Internationale, but it is not necessary to create an anti-Bolshevist bloc. On the contrary we Poles wish to find a means of getting along with the Soviet

government, and of co-operation with it."

Denounced Meeting

But while the Baltic states conference was on in Helsingfors the Soviet authorities in Leningrad arranged an anti-Baltic demonstration which was directed against the Helsingfors meeting, and the Bolshevist press denounced the meeting on the theory that it was directed against the Soviet government. An arbitration agreement, following the lines of the League of Nations protocol, was actually agreed upon by the four states, Poland, Estonia, Latvia and Finland, represented in the conference, and there were a number of agreements concerning transportation facilities and the simplification of passport formalities. The question of dis-

armament was postponed until the next session of the League of Nations in March.

Closely Linked

Estonia and Latvia already have a defensive alliance and Latvian troops stood ready to lend Estonia aid at the time of the Communist coup in Reval Dec. 1. The fortunes of these two states are so closely linked together, and they have previously co-operated with such success in repelling Bolshevist aggression, that Moscow apparently has spared no pains in trying to break up their union.

BIRTHRATE DECLINES

BERLIN, Feb. 19.—The Berlin birthrate has been declining rapidly, according to statistics for the years 1921, 1922 and

1923. Children born in 1921 numbered 53,901; in 1922, 45,686, and in 1923, 38,925. No figures for 1924 are yet available.

Greater Berlin now counts a population of 4,013,000.

HE KNEW IT

Little George had a part in the Sunday school entertainment program. When the affair was over a friend of the family said to him, "Georgie, you sang splendidly." "I know it," replied the youngster. His mother, reproving him, said: "Why, Georgie, you should not have said that to the lady." Whereupon George answered: "Well, mother, I guess I could hear my own voice."

REVISION COURT MADE CHANGES
 Reduced Assessment on Piece of Waterfront and on Excavated Corner

The court of revision on the 1925 municipal assessment roll adjourned with its duties complete at noon today. The roll as submitted by the assessor was adopted with but two changes in response to appeals of which there were eleven.

The valuation of the double corner at Fifth Street and Second Avenue, owned by M. W. McLeod of Vancouver and the excavation of which under agreement has just about been completed by the city, was reduced from the assessor's figure of \$14,000 to \$12,000. A reduction to this extent was moved by Ald. Smith and seconded by Ald. Stephens. Ald. Casey and Mayor Newton had favored a reduction of only \$1,500. Last year, the same corner was assessed at \$7,000 but, with the very considerable improvements made to it, its value is now considered greater.

Waterfront Reduced
 The court met the appeal of the Canadian National Railways for the 204 feet of waterfrontage near Seal Cove occupied by the Millard Cannery by reducing the foot frontage valuation from \$40 to \$30. A reduction of \$25 was asked. Consistent with this, the court similarly reduced 1225 feet of provincial government land adjoining the cannery property to the west from \$40 to \$30.

The court, on motion of Ald. Stephens, seconded by Ald. McMorchie, declined to meet the appeal of Jessie G. Scott for reduction in assessment of several lots in Section 1. It was deemed

by the court that there were no inequalities although W. E. Williams, appearing for Miss Scott, claimed that it was all valued too high.

Ald. Stephens' motion calling for a general reduction of 10 per cent in assessment in Sections 1, 2, 5, 6 and 8 and a reduction of fifteen per cent in Section 7 failed to get a seconder and was declared lost by Mayor Newton.

Interesting Passes
 During the session of the court this morning there were several passages between Mayor Newton and Ald. Stephens on matters of procedure. Ald. Stephens suggested that the mayor was holding the court up by not putting questions promptly to the vote. The mayor said that he was going to have his say before putting any matters to the vote in spite of Ald. Stephens or anybody else.

"You seem to be very touchy this morning, Your Worship," observed Ald. Stephens at one juncture.

"And you are just as aggravating to me as ever," retorted his Worship.

DOUKHOBORS TOOK PART IN SERVICE METHODIST CHURCH
 NELSON, Feb. 20.—Doukhobors took part in the church service here last Sunday evening at Trinity Methodist Church. About twenty independents came in from Glade and occupied seats in the centre of the building. At the invitation of the pastor they sang together in their own language. The verses were led by two men who sustained the second note until the full harmony of men's, women's and children's voices joined in.

GIGANTIC FOSSIL FROM BAD LANDS OF ALBERTA AT OTTAWA
 Being Set up by Scientists at Capital City: Five Feet High Sixteen Feet Long

The restoration of the remains of the great horned dinosaur has been commenced at Ottawa. This specimen was collected some time ago by a museum field party in the Bad Lands of Alberta, that district of Canada which is so well stocked with fossil remains. In life the horned dinosaur walked upon rather four short legs. It measured about sixteen feet long and perhaps five feet high. There is not so much to be remarked in the size of the animal when compared with other dinosaurs as there is about its queer structure. The principal part of its body seems to have been the head, which possessed a great hood or crest extending well back to the shoulders. This hood and the great horn from which it gets its names must have afforded ample protection against most of its enemies.

When completed the skeleton now in the museum will adorn the hall of palaeontology, where it will be placed on exhibition as a free mount. That is, the bones will be set in the positions they occupied in life, so that the whole specimen will be standing on its legs.

NELSON REDUCES SALARY OF ITS CITY ENGINEER
 The meeting of the city council this week a resolution was passed reducing the salary of the city engineer from \$3,000 a year to \$2,500. This motion followed a general discussion of the situation during which a proposal was made to dispense with the engineer altogether and employ only a foreman, and then calling in an outside engineer when such might be necessary.

LOVES GAY CLOTHES
 VIENNA, Feb. 19. — Vienna cannot lose its reputation for gaiety. Someone in the garment trade has estimated that during 1924 the dancing Viennese, women and men, ordered 10,000 new dresses and 3,500 new dress suits in which to go to balls, and that together they called on the shoemakers for 100,000 pair of dancing slippers.

SYNOPSIS OF LAND ACT AMENDMENT'S
 PRE-EMPTIONS
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted coverage only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
 Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
 Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES
 For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
 Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

"THOSE WHO DANCE"
 An action classic with an entirely novel theme. A daring presentation of the most discussed subject in America today—the story of liquor told without polemical. A drama of some merry dancers who found the had to settle a heavy score with the piper. A dramatic spectacular photo-play of crook life with the startling jacker and bootlegger holding the limelight. The tale of a girl who faced dishonor to save her brother and of the romance she found in the depths of New York's underworld. Many thrilling scenes. Revenue cutters chasing a smuggling ship, a raid on a dance hall, hijackers loading runners, running revolver battle between police on motorcycles and bootleggers, a youth and a girl's leap in an over over a high cliff, an exciting trial, all these and many more stirring incidents. Superb cast!
