## PEACE RIVER OUTLET BY PRINCE RUPERT

### AIR ROUTE FROM LONDON TO TOKIO IS PROPOSED BY WAY OF ALASKA

#### Prince Rupert as Outlet for Peace River District

##### Several Routes Through Mountains Advocated; Objections to Hansard and Peace Pass

Prince Rupert is the natural outlet to the world markets for grain raised in the Peace River district or in the northern part of the provinces of Alberta and Saskatchewan. A revision of the freight rates promised by the government should make it profitable to ship grain from the whole of Saskatchewan and even from the western part of Manitoba westerly through Prince Rupert.

Until quite recently the Peace River grain has gone to the head of the Great Lakes, a distance of over 1600 miles, when there was tidewater here only 600 to 700 miles away. The cost of carrying grain from Prince Rupert to Liverpool would be about the same as from Fort William as one handling would be saved.

The difficulty today is that there is no direct route from the Peace River to the Pacific Seaboard but the Dominion Government has promised that the matter will be dealt with at the present session of Parliament.

#### ASK FOR SALE WHALEN ASSETS

Bondholders Appeal to Courts for Permission to Dispose of Concern

VANCOUVER, Mar. 7.—Notice of motion has been filed here on behalf of the Montreal Trust Co. as trustees for the bondholders for judgment and for an order that all undertakings, properties and assets of the Whalen Pulp & Paper Co. be put up for judicial sale. The motion is returnable Wednesday.

#### 150 FISHERMEN LOST ON ICE

Went Out With 60 Horses to Bring in Catch and Were Carried Away

SKATERING, Mar. 7.—One hundred and fifty fishermen and sixty horses were drowned or frozen to death when caught in the ice floes on the Sea of Azov. The fishermen with their horses went out to haul in the catch but when in the middle of the sea the ice broke and they were carried away before assistance arrived.

#### COAL STRIKE IS ON NOVA SCOTIA

Inability to Negotiate New Contracts Results in Work Being Stopped

SYDNEY, Mar. 7.—Following the failure of the negotiation of a new contract between the British Empire Steel Corporation and the miners in Nova Scotia, cessation of work in practically all the coal mines of the province commenced at eleven o'clock last night involving 4400 men.

#### FATHER OF LOCAL MAN DIES IN SOUTH

John A. McMillan, Who Passed Away Yesterday, Was Postmaster for Many Years in North Vancouver

John A. McMillan, postmaster of North Vancouver for many years and father of Glen A. McMillan, draftsman at the local dock, died yesterday. Mr. McMillan sailed this morning for the Venture for North Vancouver to attend the funeral.

#### COLEMAN WINNER AMATEUR HOCKEY AGAINST ROSSLAND

VANCOUVER, Mar. 7.—Coleman amateur hockey champions of Alberta defeated Rossland, B.C., the senior champions, by five goals to one in the first game of the western elimination series for the Allan cup.

#### VICTORIA WON FIRST GAME IN PLAYOFF OF HOCKEY ELIMINATION

VICTORIA, Mar. 7.—Victoria won the first game in the hockey playoff to decide the right to meet Calgary for the western championship. The second game is to be played at Saskatoon Tuesday. The score last night stood: Victoria 3, Saskatoon 1.

#### INVESTIGATION IS CALLED OFF

Only Four Turned up at Joint Meeting on Price of Fish

With a view to taking action on a complaint that was made to the city council this week by the Deep Sea Fishermen's Union regarding the low prices being paid locally for halibut, a meeting of the joint fisheries committees of the city council, board of trade, Fishermen's Union and Boat Owners' Association was called for last night. The only persons who turned up were Mayor Newton, Ald. Smith, Ald. Larsen and H. M. Dagggett, so the meeting was called off.

J. H. Meagher, secretary of the Deep Sea Fishermen's Union, stated this morning that the manner in which the matter was taken up by the city council through the joint committee was suitable neither to his union or the Boat Owners' Association. Therefore, they were not represented at the meeting. These two organizations are already taking the matter up with Ottawa, asking for an investigation.

#### SWANSON AND GAMMON GET \$4,000 SALVAGE

Case Over Rescue of Barge Grifff Near Here Over a Year Ago Settled Except Costs

Settlement of the lawsuit in the Admiralty Court between Capt. A. Swanson and Richard Gammon of this city against the Coastwise Steamship & Barge Co. arising out of the salvage of the defendant's coal laden barge Grifff near here over a year ago has been reached. The owners of the barge have increased their tender from \$2,000 to \$4,000 and this has been accepted by the plaintiffs. The matter of costs in the action remains to be settled.

#### FINE NEW HALL IS BUILT AT GREENVILLE

Concert and Basketball Games Held There Last Week; Painting Yet to be Done

The fine new hall which has been under construction for some time at Greenville is now completed except for the painting of the building which has been delayed until the weather improves. The building is 96 feet long and 40 feet wide with 16 foot walls and total cost so far has been \$5,300.

Last week the Greenville concert band gave a concert in the hall which was attended by a large number of people. After the concert there was a basketball match.

The secretary of the Board of Trade reported last night at the monthly meeting of that organization that he had received a query from the Dominion Government fair wage officer asking what was the current wage here for carpenters. He was informed that for first class men the wage paid was seven dollars for eight hours.

C.P.R. steamer Princess Beatrice, Capt. T. Cliffe, arrived from Vancouver and wayports at 8 o'clock this morning returning south at 11.

It has just become known that Nina Ramono, above, has been the wife of Lou Tellegen, movie actor and former husband of Geraldine Farrar, since December 17, 1923.

#### Proposed Air Route London to Tokio by Way of Alaska; Test Flights coming Summer

SAN FRANCISCO, Mar. 7.—Haacken Hammer of Seattle, Amundsen's chief aide in the 1923 attempted trans-polar flights, announced plans he is making for a test flight from London to Tokio by way of Alaska this year with the object of establishing an air route.

Hammer said the 5,000 miles across the Pacific would be flown in 50 hours with two stops for refuelling. He has just returned from Japan where he secured the promise of assistance from the Japanese government. He said the atmospheric conditions were ideal for flying along the proposed route between May and September and such a route, thoroughly established, would be of value strategically as well as commercially.

#### PRISON FOR COMMUNISTS IS PROVIDED

New Law Passed by Japanese Parliament to Curtail Propaganda

TOKIO, Mar. 7.—The Peace Preservation Act, also known as the Anti-Bolshevik law, providing punishment by imprisonment for nearly every form of Communist activity, was passed by Parliament yesterday while a heavy police guard surrounded the building. The law is designed to check Bolshevik propaganda and is said to be the direct result of the Russo-Japanese agreement.

#### POLICE AGENTS BURN PRIEST

KIEV, Mar. 7.—Father Andre Edoukovich, a Polish Catholic priest, was burned alive in a town of Jioir near here. The authorities allege that the assailants were agents of the Polish police.

BIRTH At the Prince Rupert General Hospital to Mr. and Mrs. William Grimsson of Osland there was born a son on March 7.

#### Amelius Jarvis Pays into Court Fourteen Thousand out of Sixty Thousand Fine imposed upon him

TORONTO, Mar. 7.—Amelius Jarvis, it was announced by the attorney general this morning, has paid \$14,000 of the \$60,000 fine imposed on him following his conviction on a charge of conspiracy to defraud the Ontario government.

Jarvis claims that the amount paid represents his actual profit on the bond sale involved plus five per cent interest. He claims that the balance of the profit went to Andrew Peppall, now under arrest in Los Angeles.

The attorney general made no comment on the probable effect of the Jarvis payment.

#### FISH PRICES SHOW GRADUAL RECOVERY

Four Canadian Boats Sold 22,500 Pounds of Halibut at Exchange This Morning

The halibut price on the local Fish Exchange seems to be gradually recovering from the recent slump although bids are as yet far from being satisfactory to the fishermen.

This morning four Canadian boats offered 22,500 pounds and the catches were disposed of as follows:

- Scrub, 6,000 lbs., at 8.5c and 4c, and Fisher, 10,000 lbs., at 9c and 4c, to the Canadian Fish & Cold Storage Co.
- Hanaco, 4,000 lbs., at 8.5c and 4c, to the Booth Fisheries Canadian Co.
- Cape Spear, 2,500 lbs., at 8.6c and 4c, to the Royal Fish Co.

### FREIGHT RATES ARE DISCUSSED

Cost From Norway to Vancouver the Same as From Vancouver to Rupert

**COMMITTEE WORKING**

Monopoly Claimed Worse Than That Planned to be Broken on Atlantic

The question of freight rates between Vancouver and this city was discussed in a dissolutive fashion at the meeting of the board of trade last night, President G. W. Nickerson in the chair.

Mr. Nickerson told of purchasing some goods in Bergen. The shippers had planned paying the freight, not only to Vancouver but on to Prince Rupert. On inquiry, however, they found, so they stated, that the rate from Vancouver to Prince Rupert was higher than the rate from Bergen to Vancouver.

Mr. Nickerson said that the government was proposing to break the monopoly in ocean-going freights but allowed a monopoly here much worse than that on the ocean.

John Dybhavn told of getting copper paint from Norway and the freight from Vancouver here being just equal to that from Norway to Vancouver.

T. McMeekin said the whole question of freight rates was being taken up by a joint committee of the Board of Trade and the Retail Merchants' Association. He mentioned that today eggs cost about four times as much to carry as they did in the early days here.

It was mentioned by one of the members that it could not be expected men could work for low wages here as long as the freight rates kept the cost of living higher than at other places.

Sir Frederick Treves, surgeon to the King, giving a wonderful glimpse into the base and field hospitals behind Britain's battle line. It extols the work being carried out by the Red Cross Society.

The work of raising the dam at Woodworth Lake an additional thirteen feet is now proceeding. The hydro-electric plant is in splendid shape and working well. The pipe line is being anchored with cement and steel bands at various points. After this work is done, the line will be given another thorough test.

### BOOKS OF TRAVEL ON SHELVES OF LIBRARY ARE RECENTLY ADDED

Several books of travel were recently added to the public library as follows:

"Through the Borders to the Heart of Scotland," by Gordon Home.

"The Path to Rome," by Hilaira Belleo.

"Andalusia," by W. S. Mangham.

"Tramping Through Mexico, Guatemala and Honduras," by H. A. Franck.

"Two Thousand Miles Through Chile, the Land of More or Less," by E. C. May.

"With Stefansson in the Arctic," by Harold Noice.

"The Great White South," by H. G. Ponting.

### LOCAL BOARD ENDORSES PLAN

Urges Upon Department of Agriculture at Ottawa Need of Experimental Farm

At the Board of Trade monthly meeting last night a resolution sent on by the Smithers Board was read and adopted, in which the attention of the government was again drawn to the need of an experimental farm and a request made that one be established in the interior. The resolution read:

#### The Resolution

"That this board of trade draw to the attention of the Dominion Department of Agriculture the pressing need of immediate action by the experimental farms branch of that department to assist the farmers of Central British Columbia;

"It is pointed out that at the present time it is impossible for farmers in Central British Columbia to take advantage of the benefits of experimental farm work owing to the great distance from existing farms and stations;

"It is further pointed out that the facilities provided for the improving of live stock cannot be used by the farmers of Central British Columbia, on account of freight and express charges occasioned by these great distances;

"It is further pointed out that climatic and soil conditions in Central British Columbia require local attention which cannot possibly be given by any experimental farm or station in Southern British Columbia or in Alberta;

"It is further pointed out that soil and climatic conditions make it essential that an experimental station be established to serve the needs of the farmers living in Central British Columbia between Fraser Lake and the Coast

### HER FACE WAS COVERED WITH PIMPLES SHE GOT RID OF THEM BY USING BURDOCK BLOOD BITTERS

Miss T. Hunter, R.R. No. 8, London, Ont., writes: "I wish to recommend Burdock Blood Bitters to all women who are suffering from pimples or any other facial blemishes. About two years ago I was greatly troubled with pimples and sores breaking out on my face, and could get no relief until, finally, a friend recommended me to take B.B.B. This I did, and I am now glad to say that your remedy has given me the desirable results, and I now have a nice smooth, clear skin, as it has eliminated all the impurities from my blood."

Get B.B.B. when you ask for it; it has been on the market for the past 46 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

DOWN in Ottawa one of the doctors has his office in the basement of his house just like Consul Wakefield's office on Fourth Ave. in P.R. A teamster came in to be vaccinated. The girl said he'd have to have it done in the basement but he remonstrated and said he'd have it in the arm or not at all. And the young lady smiled sweetly and said he'd better wait and see the doctor and she dashed for the door and exploded outside.

### Ten Years Ago in Prince Rupert

March 7, 1915.

Prince Rupert's first overseas contingent is now in England. The steamship Missanabie, bearing Col. C. W. Peck and his command, sailed from Halifax on February 22 and docked at Liverpool on March 4. The ship passed through the submarine zone without any mishap. The regiment will undergo further training at Shorncliffe.

### Anti-Communist Law in Japan.

The Japanese law against Communists is made so stringent that imprisonment is provided for almost every form of Communist activity. Apparently there was much opposition to it as the House of Parliament was closely guarded during its passage.

This is the beginning of restrictive measures in Japan, which doubtless will be rigidly enforced.

There are times when restrictive measures are necessary but generally speaking they arouse hostility and cause much bitterness. Much depends upon the way in which the law is enforced.

### Nova Scotia Miners Are Out On Strike.

The miners of Nova Scotia are on strike and the industry of the province is again tied up. We know nothing of the cause for the strike. Quite likely there may be the best of reasons for calling out the men. What we do know is that the employers and the men will lose much money, that there will be all sorts of ill-feeling generated on each side, that there is even danger of bloodshed judging by the experience of the past, and when it is over little will be gained by either party to the dispute. The probability is it will last a number of weeks and possibly months.

As a rule strikes are a mistake. Sometimes they are instigated by communist agitators and sometimes they arise from the just or unjust grievances of the men at what they consider wrong action on the part of the operators. There seems to be no mutual trust. Agitators preach that the employers are the natural enemies of the employees and the employers make little effort to remove the stigma. Each assumes an attitude of contempt for the other with disastrous results.

### Whalen Company Likely To Be Sold.

It is very probable that the assets of the Whalen Pulp and Paper Company will be sold for the benefit of the bondholders. As there are few people with sufficient capital to purchase so large a concern the probability is that someone will get it at bargain prices and then make it pay. The purchaser is likely to be some American capitalist who is looking for just such a bargain.

The Daily News is not objecting to Americans coming here and buying up our mills and pulp leases but it seems a pity that the business of the big concerns cannot be conducted in such a way as to give returns to the investors and to enable them to carry on successfully so that there may be no bargain lots to offer.

### Competition Of German Firms.

In Germany today wages are low and it is almost impossible for British firms to compete on reasonable terms. The result is proving rather disastrous to the industries of Great Britain. Even in Canada people are again buying German goods in large quantities at the expense of the industries of Britain.

OLD TIME DANCES AT METROPOLE HALL LAST NIGHT WERE ENJOYED

There were all sorts of dances, quadrilles, polkas, and such dances as the Highland schottische, and Flowers of Edinburgh, at the Old Country Scotch dance in Metropole Hall last night. The hundred people who attended had a wonderful time, and much hilarity prevailed. There was an exhibition of the Highland Fling by Mr. and Mrs. J. Watt. Refreshments were provided by a committee of Old Country people. Those in charge were Howard Steen, J. Simpson and J. Irvine. A volunteer orchestra consisting of John Bremner, J. Watt and J. B. McKay, violins; W. Vaughan Davies, piano; and J. N. Kelly, drum, provided excellent music, and two pipers, Alex. McDonald and J. Sturgeon also played for some of the dances. The affair was kept up until a late hour.

# FEARS AFFECT ATTENDANCE AT THE CATHEDRAL

### St. Paul's Collection Suffers From Scare Reports: Paderewski in London

LONDON, Mar. 7.—(Canadian Press by mail)—So many sensational statements have been made about the possibility of the dome of St. Paul's Cathedral collapsing that in order to allay the fears and suspicions of the public the King and Queen are planning to attend a service there in the near future.

As soon as rumors of the dome's condition began to leak out the congregations began to diminish—so did the collections. The Dean and Chapter have since been trying to encourage the "House Full" idea again by issuing statements to the effect that the dome was safe for many generations; but if they can only get the King and Queen to sit underneath it for an hour or two they feel that there will be nothing further to worry about.

And although the collapse of the dome is considered by the majority of experts very remote, especially as steps are being taken at once to ensure its preservation, one policy of \$250,000 has already been taken out of a concern in the neighborhood of St. Paul's against damage to the building and stocks by the collapse of the dome.

### Dilemma for Diplomats

Ambassador and Mrs. Kellogg were just getting ready to go to a banquet in their honor by the Japanese ambassador, at his sumptuous house in Grosvenor Square, when a courier arrived from Buckingham Palace asking them to lunch that day. There was nothing to do, of course, but to accept the latter invitation and explain matters to their first host as well as possible.

King George and Queen Mary believe in impromptu invitations, and although they are sometimes a little awkward to the favored invited, it creates a sense of informality and friendliness which is very gratifying.

### When Paderewski Plays

There must be something about the London air that inspires a generous feeling inside the human heart. When Chajiat-pine came to London a few months ago, not to give a recital but chiefly to buy London suits, he was inspired to give a private recital to the American musicians of the Savoy bands, because he liked their jazzy tunes so much. Now, Paderewski, living in a regal suite at Claridge's for a short spell, found some distinguished members on London society, including the young Lady Louis Mountbatten, outside his suite the other day, listening to him practising inside.

He promptly asked them all inside, arranged them around the piano, and played Chopin for an hour and a half.

# ROBB COMING TO THE COAST

### Vice-President of C.N.R. Will be at Winnipeg Tomorrow Westbound

MONTREAL, Mar. 7.—For the purpose of completing a survey of conditions in the west relating to colonization, W. D. Robb, vice-president Canadian National Railway has left Montreal and will eventually proceed to the Pacific coast. Mr. Robb is accompanied on his journey by W. J. Black, director of colonization and development.

The vice president and director will reach Winnipeg on Sunday morning and will make a brief stay in that city. While in Winnipeg Mr. Robb and Mr. Black will confer with those officials of colonization and development department whose headquarters are situated there.

They will also meet and receive the views of a number of field workers of the department.

### Radio Station

When at a later date Mr. Robb reaches Vancouver he has an additional object in view—to inspect and study locations proposed for the erection of a radio station which is to be built under the direction of the radio department of Canadian National

Railway. In this matter Mr. Robb will have the technical advice of W. H. Swift, jr., director of radio, the latter also having accompanied Mr. Robb on his journey westward. The new radio centre at Vancouver will be built in accordance with the most recent practice and the engineer has taken advantage of experience obtained in Canada and the United States in station construction.

The station will be of remote control type. Power, control and antennae being placed some distance from the studio so that broadcasts will be as free as possible from all extra noise.

CNRV will be the call letters of Vancouver station and it is anticipated that it will make its presence as widely known through the Pacific as CNRA at Montreal has already done across the Atlantic.

### PRINCE RUPERT AS OUTLET FOR PEACE RIVER DISTRICT

(continued from page one)

railway controlled by the C.P.R. It would not open up the British Columbia section of the country. If it did so, extensions would have to be made westward from Spirit River and that would make a very indirect route to the coast. By building the line through Peace River Pass the best part of the country would be tapped, it is claimed, and the most direct route to the coast secured. The objection to this route is the extra time that would be needed to complete it.

There are many people who strongly advocate having the line reach the Canadian National at or about Fort Fraser using either the Pine River Pass or the Peace Pass. By coming out that way it is claimed that the very best country in B.C. would be opened for settlement.

The Provincial Government is anxious to have the P.G.E. included as a part of the system and to do that the line would have to tap the C.N.R. at Prince George. The Hansard route would also serve the P.G.E.

The difficulty in discussing any of the routes is the lack of definite information. The rail ways have more information than any one else and their verdict is likely to be final.

The city is gradually becoming fairly well equipped with playground facilities for the younger generation. School boards, during the past few years, have been actively taking the matter up. Booth School now has a playshed and another is to be installed at Borden Street. Besides this there has been work done on all the playgrounds and now a splendid tennis and basketball court is just being completed at the Catholic convent. The High School pupils, on their own initiative, a couple of years ago fitted themselves out with a tennis court. The Gyro Club installed a playground in McClymont Park last year and propose undertaking similar work in other parts of the city during

the coming year.

With outside requirements being pretty well taken care of, there is pressing need for a public gymnasium which could be used to advantage by adults and which would afford recreation along an athletic line for the young people from school children up. The advantages to be derived through such an institution have been dealt with so often that it is not necessary to repeat them at this time. A joint committee of the Rotary and Gyro Club to go into the matter was appointed some time ago and has done some preliminary work. The matter has not yet been brought to a head, however. It should not be dropped but now that a start has been made the movement should take on the form of a general community drive. If organized properly and in a definite manner it would receive general support. How about a gymnasium this year?

salmon grounds. Already several trollers have met with a measure of success and have obtained around 16c per pound for their catches.

Repairs have been completed to the halibut schooner Cape Spencer, Capt. Dan Larsen, which recently broke her camshaft while out on the fishing grounds and hostilities are being renewed with the halibut.

Lumber Arrives The tug M.T.S. Capt. R. Green, arrived in port on Thursday having in tow three scowloads of lumber made up of one scowload of fish boxes for the Booth Fisheries, a scow load of boxes for the Pacific Fisheries and a scowload of lumber for the Provincial Government for the building of the new tool shed at Cow Bay.

Jack Lindsay's pleasure launch is on the Cow Bay Creek ways for a pre-season fixing up. Considerable work is to be done on the hull which was badly damaged last fall when the boat was driven on the rocks.

Getting Acquainted R. Sharpe, superintending engineer for the Northern Construction Company on the building of the foundations for the government elevator, was finding no difficulty in getting acquainted along the waterfront on Thursday morning.

thinkingly took up a position at the deck rail. The deckhand above, a master hand at emitting water from a hose, let unpteen gallons loose just as the boat lurched. The result was that the whole darned works gently trickled over the side of the upper deck on top of Gus, giving him the appearance of a lighted mattress after a fire. It was at this juncture that Gus discovered the above mentioned trick with the atmosphere while the deckhand, as far as is known, is running yet.

Geo. Ness of Lockport recently had the misfortune to catch a rock with the propeller of his power boat with the result that repairs had to be done locally.

Lighthouse Fire The government lighthouse tender Newington, Capt. H. Ormiston, returned this week from a special duty-trip to Cape St. James lighthouse where a fire recently destroyed the living quarters of the lighthouse keeper and his wife, which were situated adjacent to the light. The only thing saved from the conflagration was a few bed-clothes and mighty little wearing apparel. After the fire the lighthouse keeper rigged up temporary living quarters in the lighthouse. Tom Morrison, chief engineer, was one of the first members of the crew to go ashore and distinguished himself in making out a list of wearing apparel replacements.

The launch Oh Baly, skippered by Laurie Lambly, returned from a trip to Lewis Island on Wednesday night after taking over Mr. and Mrs. Will Stephen.

The Canadian Fish & Cold Storage herring seiners Lord and Chief Legie arrived in port yesterday with 60 tons of herring caught in local waters.

The herring seiner Tip-Top, Messrs. Bradbury and Yelf, arrived in port on Wednesday afternoon loaded with herring. So heavy was the cargo that the decks were awash. The herring run is improving daily.

Capt. "Humpty" Brown is busy doing a lot of work on his troller Ox in preparation for the coming season.

Capt. Khorst expects to have his new deep sea trolling boat all ready for the big time and upon installation of his new engine will be out on trial trips in readiness for leading the Hippo Island fleet to their happy hunting grounds in the near future.

Purchase New Steamer The Booth Fisheries recently purchased the steamer Eastern Gale from the U.S. Shipping Board, which will be used in the transportation of outfits and pack between Seattle and Western Alaska canneries. The vessel is of steel construction and a gross tonnage of 4,600.

troller, Karen, Capt. Billy Thane, also arrived in port on Wednesday afternoon with 700 pounds of red salmon.

The genial "Doc" Clapperton, who has been confined to his bed for the past two weeks with rheumatism, is now able to be around although not perfectly recovered.

Repairs have been completed to the halibut schooner Cape Spencer, Capt. Dan Larsen, which recently broke her camshaft while out on the fishing grounds and hostilities are being renewed with the halibut.

RUPERT ENDORSES A REQUEST FOR SURVEY Backs up Resolution of Victoria Chamber of Commerce in Effort

The Board of Trade last night endorsed a resolution asking for a survey of the west coast sent them by the Victoria Chamber of Commerce. In their resolution they particularly included the west coast of Queen Charlotte Islands. The resolution received from Victoria read:

"Resolved that this chamber of commerce petition the Minister of Marine & Fisheries to commission a suitable vessel for use in the preparation of an up-to-date hydrographic survey of the west coast, and that the support of the Vancouver, Port Alberni and Prince Rupert Boards of Trade, together with that of the Associated Boards of the Island, be also sought;

"And that we seek the active support of A. W. Neill, M.P. for the Comox-Alberni district; F. Stork, M.P. for Prince Rupert; G. H. Dickie, M.P. for the Nanaimo District, and the Honorable Dr. Tolmie, either on behalf of commissioning a special vessel for the services of the steamers Givency or Thiepval for this purpose.

"And further that we enlist the interest of the shipping companies to the extent of petitioning the minister, either individually or collectively."

HOME NURSING SUBJECT INTERESTING ADDRESS Girl Guards of Salvation Army Received Good Advice From Head of Hospital

Miss Edith McCaul, R.N., lady superintendent of the Prince Rupert General Hospital, delivered a lecture to the Girl Guards of the Salvation Army last night on "Home Nursing." Mrs. Rea presided and there was a large attendance. Prior to the lecture the girls spent an hour in the gymnasium.

Miss McCaul divided her lecture into three parts devoting each part respectively to personal cleanliness, care of a patient, and the necessity of a clean home. The girls were very keenly interested and followed the address throughout with evident appreciation. At the close Guard Nellie Gurvich thanked the speaker on behalf of the troupe and Guard Edith Leek recited the pledge and declaration. Miss Salloway, head operating nurse, accompanied Miss McCaul. Refreshments were served at the close.

Dick Howe sailed his morning for Vancouver on a ten day business trip in connection with the Swift-Canadian Co.
