PROGRESSIVES STILL HAVE TROUBLE WITH BOLTERS WHO VOTE LIBERAL

Hazelton to Terrace Road is Being Built

Surveys and locating in progress and camps are being put in for actual construction work

The first link of what in all likelihood will ultimately be a motor road from Hazelton to Terrace is being started by the provincial department of public works with the commencement of work on a new road between South Hazelton and Skeena Crossing. Surveying and locating now being in progress, camps are being put up at present and it is expected to have the Hazelton-Skeena Crossing road in shape for use by the end of the present year. The ultimate cost is estimated at \$3,000 per mile but this will not be all expended this season. The sum of \$10,000 has already been voted for the work to start at once. The new road will follow in places the old tote road between the two places which is now practically impassable but will branch off at other places to take advantage of better ground. P. Corrigan will be foreman in charge and it is pointed out that labor is plentiful in the district so no men should go from here.

EIGHT CENTS SPRING SALMON

Fishermen on Fraser River Returned to Work today and Canneries Reopen

NEW WESTMINSTER, May 18.—A thousand fishermen, including Japanese and Indians, who had not dropped their nets into the Fraser river since Monday last when they decided to strike, following a reduction in prices paid by the buyers of spring salmon, returned to work this morning. This was the result of a decision reached at a mass meeting here Saturday.

The settlement is in the form of a compromise, the fishermen who had demanded ten cents a pound agreeing to accept eight for red spring salmon, which price is guaranteed until July 1. The canneries are reopening.

NO CONVICTION HANLEY CASE

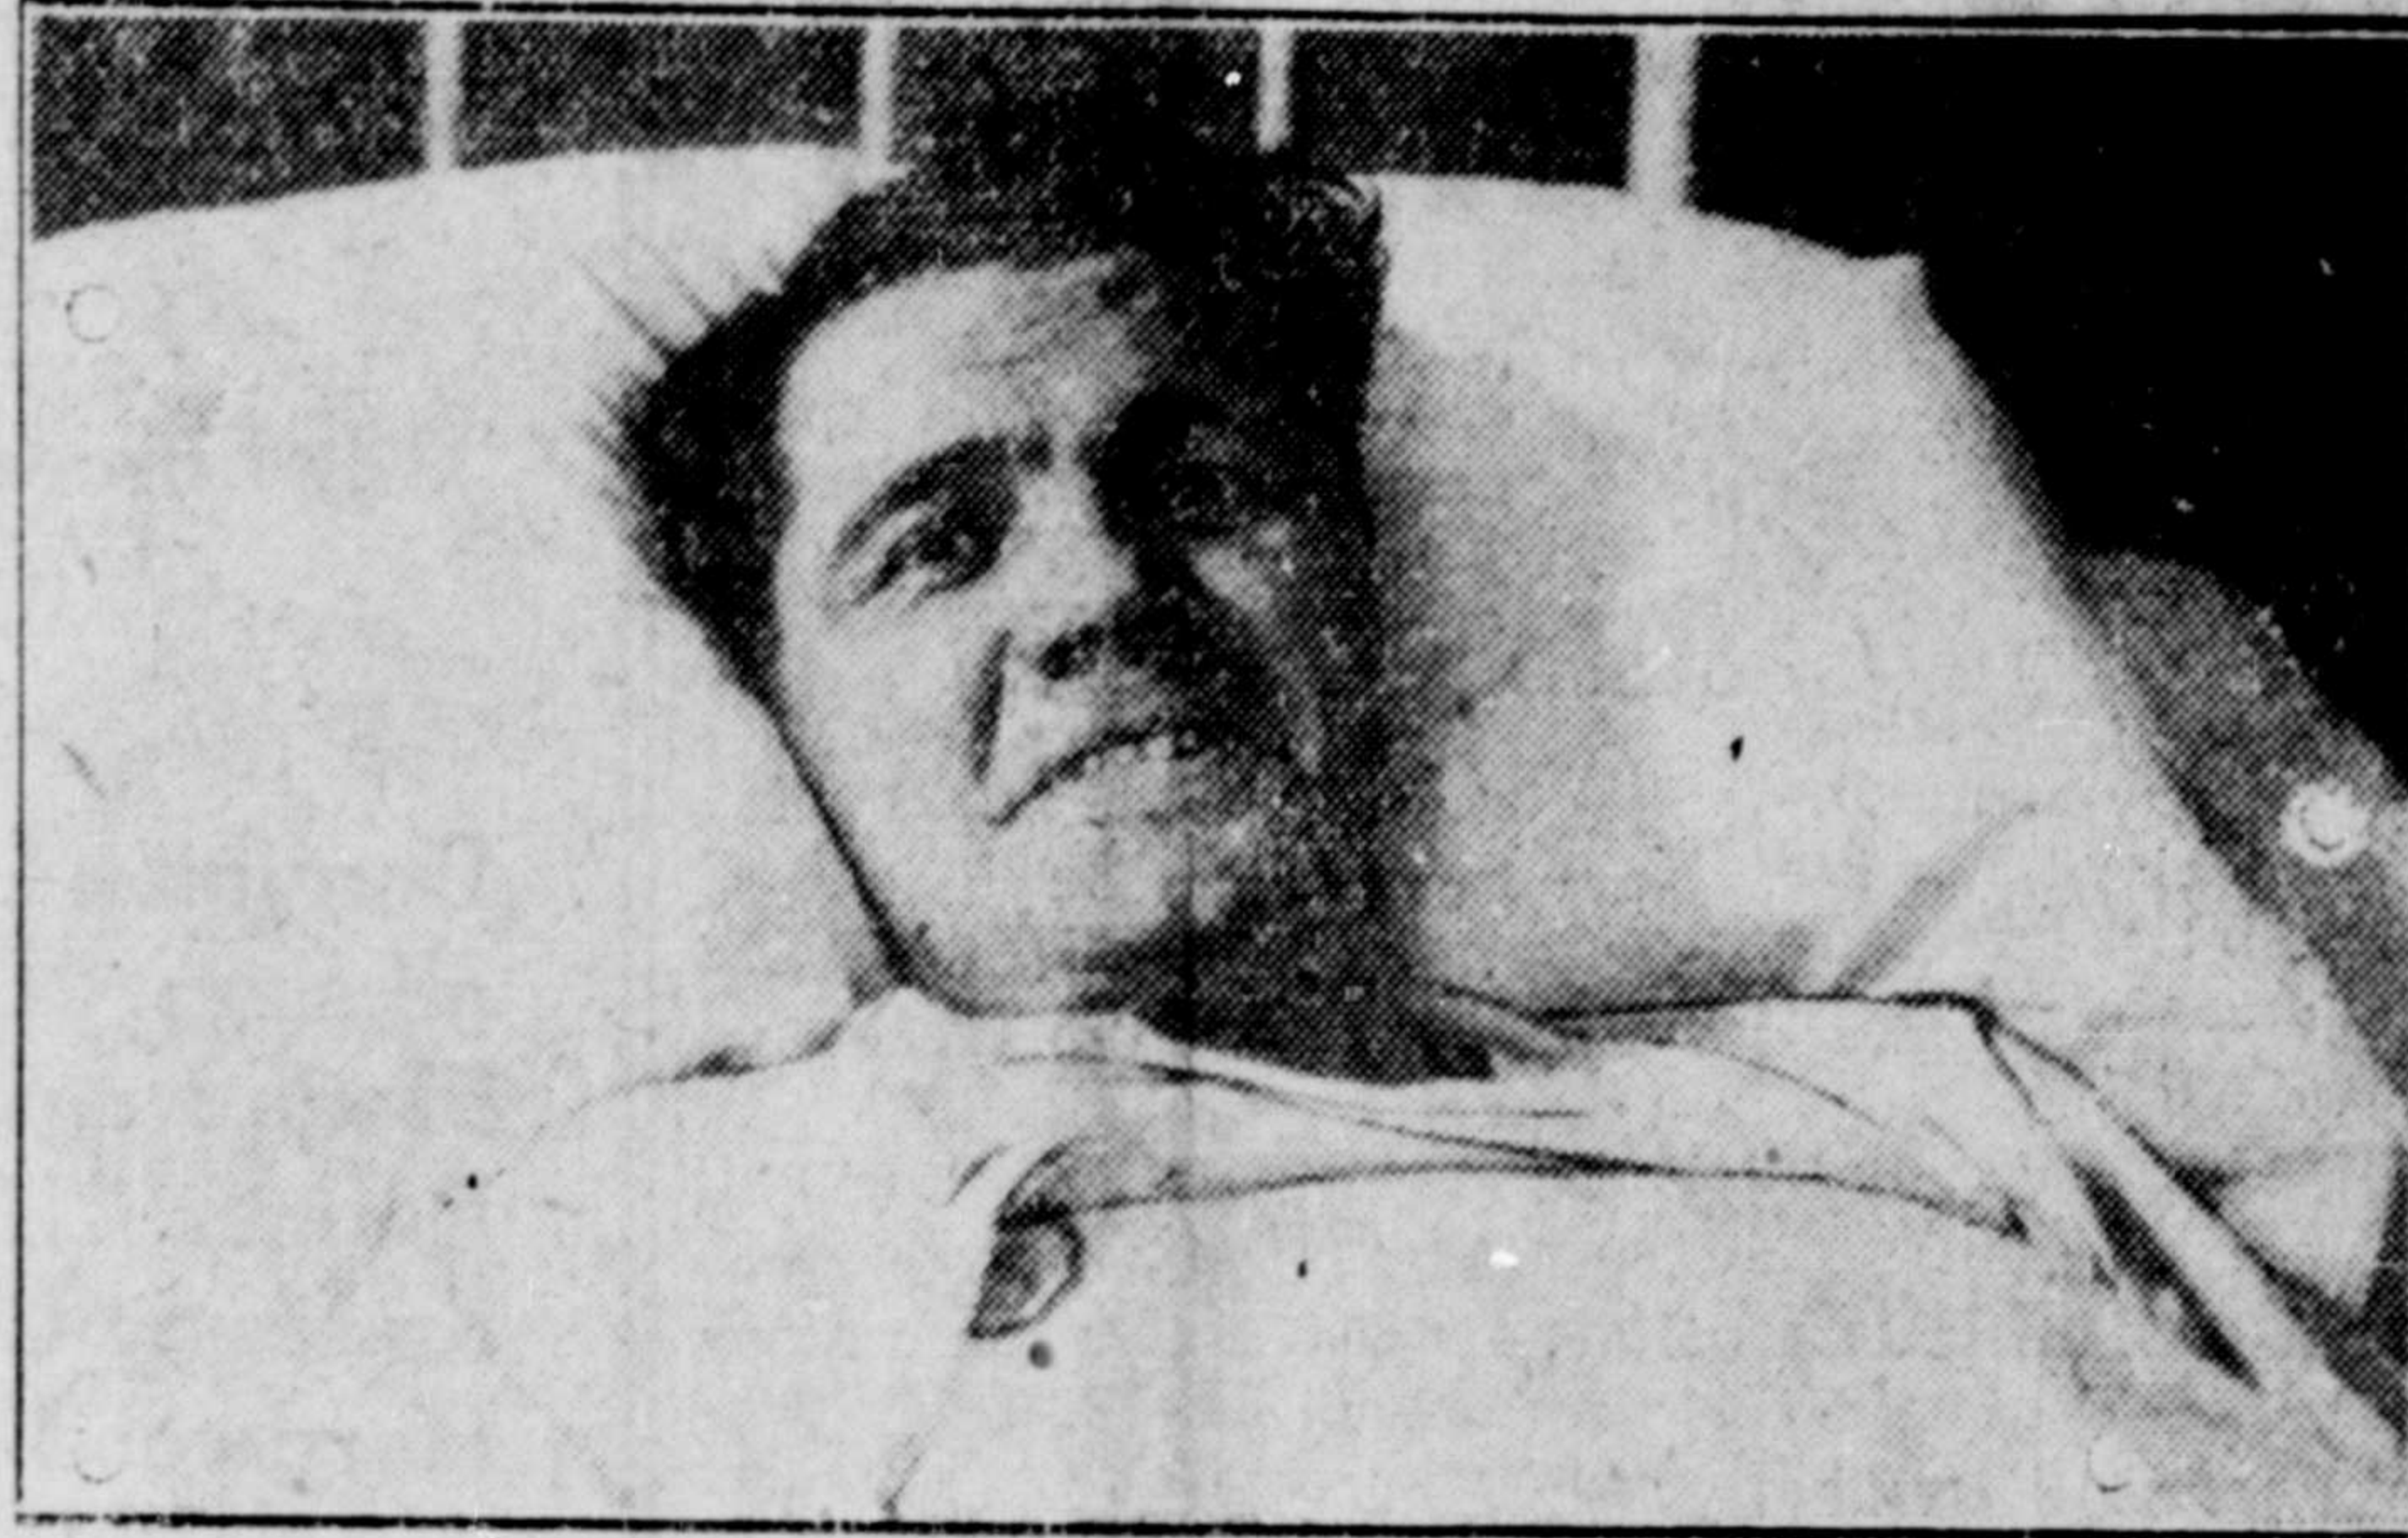

Jury at Nelson Disagrees in Connection with Charge of Murdering Miss Neilson

NELSON, May 18.—Patrick Hanley, thought to be insane, who was tried at the week end on the charge of murdering Mildred Neilson, a Vancouver nurse, must be tried again at the next assizes as a result of the jury reporting Saturday night that they had failed to reach an agreement. They were dismissed.

Hanley collapsed on the stand.

POLICE ASKED TO SEARCH FOR YOUNG LADY OF WESTVIEW

The city police were asked this morning to locate Miss Hazel Richardson, aged 18, who disappeared last night from the residence of her brother-in-law and sister, Mr. and Mrs. Thomas Priest, Graham Avenue, with whom she had been living. The young lady, as far as the police have been informed, was seen shortly before 11 o'clock last night on Second Avenue near the Junction walking towards the city in company with a tall, well dressed young man. No alarm is felt for her safety as it is assumed she simply left without giving notice. Points which she may have reached by steamers leaving here last night were being communicated with this morning by wire.

"Babe" Ruth is still in hospital, but his smile has returned, which will be consoling news for the slumping Yankees.

Lash of Party Whip Again Fails to Keep Bolting Progressives in Line; Conservatives Slink Away

VOTERS LIST CLOSSES TODAY

Those Not Applying Before Five O'clock Must Wait Until Autumn

By making personal appearance before Government Agent Norman A. Watt, who is holding court of revision until 5 o'clock this afternoon on the provincial voters' list, persons so far not registered may still have their names placed on the next list which will shortly be published. All those who failed to register before the lists closed on April 5 and who do not appear personally today will not be able to get on the list again for six months. The names of those who voted at the last provincial election automatically go on the new list.

The voters' list for Prince Rupert district is in a healthy condition reported Mr. Watt this morning. There are practically the same number on the new list as there were on the previous one, some 400 new applicants for this list offsetting those who had the names struck off by not voting at the last election or otherwise.

Mr. Watt is today also hearing applications filed chiefly on account of the persons in question being no longer resident in the district or dead.

The court is in session all day.

SERIOUS ACCIDENT IN GERMAN MINES

DORFOLD, Germany, May 18.—Forty-three are known to be dead and twenty-seven were injured in a mine explosion on Saturday. It was the most serious accident in the history of this mining region. Comrades worked feverishly in their efforts to rescue the entrapped miners.

PIONEER BUSINESS MAN OF PROVINCE DEAD IN VICTORIA

VICTORIA, May 18.—John Raymond, aged 82, one of the best known pioneer businessmen of the province, died on Sunday.

Will leave bolters to be dealt with by constituents, leaders decide; Meighen does not vote on important question

OTTAWA, May 18.—That the Progressives who persistently support the Mackenzie King Government in spite of the protests of the leaders of the party and the attempt to force them to vote according to the dictates of the party whips will be left to be dealt with by their constituents is the final verdict of the Progressive leaders in regard to their action. When they bolted on the first budget debate a meeting of the party was called by Robert Forke, their leader, and for three days the matter was discussed. Finally Mr. Forke was persuaded to retain the leadership and the bolting members voted to a man for a resolution reaffirming their belief in Progressive principles. Then they bolted again Friday, voting with the government on a lack of confidence motion which also declared for a low tariff.

It was amusing to see the manner in which the Conservative members slunk out of the House when the vote was taken. Fourteen of them had the courage of their convictions and voted with the government against the low tariff proposal of the Progressives and eleven Progressives voted the same way. The other Progressives voted against the government tariff policy. Only 33 members in all could be found to support the low tariff proposals, the Conservatives evading the vote altogether. They could not vote for low tariff and they disliked having to vote with the Mackenzie King government, so they did not answer the division call. Among those who refused to vote was Rt. Hon. Arthur Meighen. He left the chamber.

It is understood that another Progressive caucus will be held soon at which the action of the eleven bolting members will be discussed but it is not thought they will be drummed out of the party just now. At any rate the leaders have decided against such action. They seem to expect an election this year and then the matter will be made a campaign issue.

Storm Sweeps Ontario and Frost Injures the Fruit and Vegetables

TORONTO, May 18.—The Sault Ste. Marie section of Lake Ontario was on Saturday swept by the worst storm in the experience of sailors this year, forcing vessels to take shelter. One steamer reached here covered with a foot of ice and snow. This was followed by four degrees of frost last night in many parts of western Ontario. It is feared there will be considerable damage to early vegetables and fruit.

Aristocracy of Canada in Railway Offices in Old Days Says Leader of Progressives

Robert Forke, leader of the Progressive Party in the House of Commons, does not favor either the C.P.R. owning all the railways of Canada or the Government doing the same. He sees danger in monopoly. Tells of the time when the C.P.R. had a monopoly in western Canada. Mr. Forke, speaking in the House of Commons, said in part:

I can remember that when I came to Canada as a young man and first came in touch with some of the Canadian Pacific Railway officials I concluded that the aristocracy of Canada was to be found among the servants in the employ of that railway at that time. This is long ago, and whatever I say can be in no way a reflection on any of the men who occupied positions with the railways at that time. But I remember the time when the ordinary man would approach a railway ticket office with misgivings; he would ask a question and wait a considerable time before the gentleman in charge found it convenient to look up. And when he did look up and the question was asked again he would turn over a number of leaves and after a while vouchsafe a curt answer. If you persevered long enough you might get what information you were after. I do not think I am exaggerating. But what is the case today with the Canadian Pacific and the Canadian National Railways? You get the very best attention, the most courteous treatment, and accurate advice, and no one can complain in any degree of the services rendered by the officers of either company. I do not know what has brought about the change but there is no doubt that a remarkable change has taken place in the services rendered by both companies today in comparison with the state of affairs that existed in the early years of our history.

SECOND VACANCY HOUSE COMMONS

Thomas Henry Thompson, Conservative Member for East Hastings, is Dead

BELLEVILLE, Ont., May 18.—Thomas Henry Thompson, aged 58, Conservative member of the House of Commons for East Hastings, died suddenly on Sunday. This makes two vacancies in the House of Commons. Of Irish descent, the late Mr. Thompson was born in the district he represented in the House of Commons. He was interested in various mercantile concerns and was a prominent Mason, having been a past Grand Master of the Provincial Lodge. He was first elected to the House of Commons in 1917 and was re-elected in 1921. He was a Methodist and is survived by a widow and two children.

POLICE OFF TO GOLD FIELDS

Inspector Spiller Taking "Frontier Constable" into Dease Lake Country

With the rush of gold seekers into the Dease Lake region, the long arm of the law is also being extended into that territory. Today Acting Inspector W. Spiller of the provincial police sails for the north on the Princess Mary to install at his new post Constable G. E. Ashton who is coming north from Vancouver on the vessel. Constable Ashton, now detailed for duty in the Dease Lake country, is known in the force as the "frontier constable." Formerly located in the Peace River country he now comes from Ashcroft.

YUKON RIVER BOAT CREWS HERE TODAY

Princess Mary is Taking 125 Men North—Princess Louise—Coming on Run Early in June

Aboard the C.P.R. steamer Princess Mary, Capt. C. C. Saint-ey, which is due in port this afternoon northbound from Vancouver to Skagway, are 125 members of the crews of the White Pass & Yukon route steamers. The vessel also had the first cargo of the season for Dawson and Mayo. This will be held at White Horse until navigation opens on the Yukon River about June 1.

The Princess Mary will make one more trip north and of June 8, the Princess Louise will be here on her first trip of the year. The Princess Alice will follow a week later and in July the Princess Charlotte will be put on the Alaska route to assist in the handling of tourist traffic.

Consequently I could not for one moment think of the Canadian Pacific Railway operating all the railways of Canada. On the other hand, if all the railways were to come into the possession of the Canadian National Railway Company, and owned by the people of the country, with all the faith I have in human nature, and in the light of all the knowledge I am gaining in these days in political affairs, I could not believe that it would be possible to keep the railways free from political manipulation in some way or other. This is the situation as I see it. It is a fine idea, and it looks

FACTS ABOUT TEA SERIES—No. 8

The Consumption of Tea

Tea as a beverage is used in nearly every country in the world. It is estimated over 200 billion cups are consumed annually. Australia leads in tea drinking with an annual per capita consumption of about nine pounds, which means that every Australian consumes from six to eight cups of tea every day. The consumption per capita in England is 8½ lbs., and in Canada nearly 5 lbs. In the United States, it is less than 1 lb., but this is largely because Americans have not been able to get fine teas until comparatively recently. "SALADA" is considered one of the choicest blends on the market, and is the largest selling tea in either United States or Canada.

Forest Trees and Their Beauty.

The three principal forest trees here are the spruce, cedar and hemlock and the greatest of these, speaking artistically, is the hemlock. The spruce is the tree from which we cut material for building airplanes. Cedar is manufactured into shingles, or cut into lumber from which doors and window frames are made. Both are useful woods. The hemlock has only of recent years become recognized as a commercial product, but its popularity is growing. In the forest, however, the hemlock has the other two beaten. It is one of the most beautiful trees that grows. This is especially noticeable along the muskeg glades where the country is rather open and the symmetry of the tree can be appreciated. The conifers are all pretty when growing alone or in open groups. Each has a beauty all its own, but the hemlock, at this time of year especially, exceeds all others in the north country in beauty.

This Is The Time To Study The Wild Flowers.

This is the time of year to study the wild flowers and especially the flowering shrubs of which there are many. Prince Rupert townsite offers a good opportunity to find many of the flowers which otherwise could only be secured after much climbing. Doubtless the children now growing up with all the advantages of botanical study will know all the flowers and shrubs of the neighborhood, the lack of which handicaps sojourners in their appreciation of the woods.

Value Of Mill To The Community.

If someone announced they were about to erect a new mill cutting 25,000 feet of lumber daily here, we should look on the announcement with marked approval. That was what happened at the week end. J. A. Smith, owner of the local lumber mill, arrived in town with the machinery for the new installation. It is a new mill to be run in conjunction with the other producing 25,000 feet a day and adding that much to the production of the big concern and employing a large number more men. The box factory machinery is partly here and the work of erecting both these additions to the plant will be going ahead at once.

The old mill was supposed to have a capacity of 120,000 feet a day but so far all the company has been able to produce is 100,000 feet. This was done at the week end for the first time.

Recent visitors to Ketchikan were interested in a mill there that cut 70,000 feet a day but here we shall have a mill soon that will almost double that capacity. It is an industry of which Prince Rupert may be proud.

Temporary Check On Graham Island.

There is a temporary check to industry at the north end of Graham Island in the shutting down of the Buckley Bay mill and camps, but it is probable it will be for the one season only. When the differences between the interested parties have been adjusted, the mill will be operated again and the mill at Port Clements is also likely to operate at the same time. In the meantime the clam cannery near Massett is working full swing and giving settlers an opportunity to earn a little money to help along their farming operations.

KEEPING SUNDAY IS DISCUSSED

How and Where to Spend Day Question for Consideration by Lutheran League

At the evening service at St. Paul's Church last evening the Lutheran League discussed the subject: "How and Where to Spend Sunday." The discussion was based on Exodus 20: 9-11 and Exodus 31: 12-17, together with Christ's teachings on Lord's Day observance.

The subject was opened by the President and was continued by the Vice-president, Secretary, Treasurer, and other members of the League.

One day in seven is the Lord's Day, not because the Lord needs it, but because man needs what is commanded concerning this day, it was pointed out. Those who make excuses for not obeying God's command are fooling only themselves. The best way to overcome the objectionable things is to be busy about positive things for the moral and spiritual uplift of the community. The "Salt" of any community are those who stand for the worship of God and the keeping of His commandments.

UNITED CHURCH HAS 667 MISSIONARIES

Only Nineteen That Will Not be Under New Organization

TORONTO, May 18. — The United Church of Canada will have about 650 missionaries in the foreign field, according to the latest estimate of the Mission Boards of the three Unitarian Churches. There is at the present time a total of 667 missionaries in the foreign service of the three churches, and all but nineteen of these will continue with their parent Churches when they enter into the Union. The figures for the three churches are as follows:

Presbyterian Missionaries	333
Methodist	310
Congregational	24
Total for three	667
Non-concurring Missionaries	19

PRINCE GEORGE

Ex-Mayor Hiram Carney appeared before the city council this week to protest against the turning over of the policing of the city to the provincial police. He stated that he was representing over 100 residents. Mayor Alward stood pat, however, and stated that he would veto any resolution calling for reconsideration of the action now taken in coming to an agreement with the provincial police.

Many Prince George people were present last week at the opening of the new bridge across the Fraser River at McBride. It was the greatest day in the history of McBride since the arrival of the railway steel. The bridge, which was built by the provincial government at a cost of \$28,000, was opened by H. G. Perry, M.L.A. in the absence of Hon. Dr. W. H. Sutherland, minister of public works, who sent his regrets that he was unable to attend.

Owen W. Ross, formerly clerk for the municipality of Oak Bay, was the unanimous choice of the city council last week to succeed S. W. George, resigned, as city clerk. There were 48 applications for the position. Arthur Culbert, formerly of Prince Rupert, was one of the applicants.

Two new settlers, accompanied by their families, arrived in the city last week to make their homes on the east side of the Fraser river. The newcomers are Emil Larsen with wife and three children and Alfred Pearson with wife and four children from North Dakota.

The date of the Prince George fall fair has been set by the directors for September 1 and 2. It will be the first fair in the north this year with the exception of that at Woodpecker which will take place towards the end of August.

SELF DENIAL WEEK CAMPAIGN BEST YET

Salvation Army Realized \$775.10 as Result of Last Week's Efforts

The Self Denial week campaign of the Salvation Army which closed on Saturday was the most successful yet conducted in the city and the largest amount ever was collected. The collections aggregated \$775.10 and, with returns yet to be made, it is expected that the objective of \$800 will be realized. Total collections of officers and soldiers amounted to \$465.60; altar service gifts amounted to \$21.50, and \$288 was realized from the tag day on Saturday. The highest taggers were Misses Annie Smith, Dolly Smith and Evelyn Pierce. In addition to those whose names were published on Saturday, Misses Mary Herman and Annie Krofs also assisted in tagging.

QUIET WEDDING ON SATURDAY EVENING

Miss Jenny Alfreda Jensen Becomes Bride of Arne Bendiksen, Both of this City

A quiet wedding took place Saturday evening at the Lutheran Parsonage, 249 Fifth Ave. West, when Arne Bendiksen of 128 Seventh Ave. West took to bride Miss Jenny Alfreda Jensen, daughter of Mr. and Mrs. Jens Jensen, Eighth Avenue and McBride Street. Only a few friends of the contracting parties were present at the ceremony, the official witnesses being Mr. and Mrs. John Hansen of English Hill.

Mr. and Mrs. Bendiksen will make their home in the city.

ARISTOCRACY OF CANADA IN RAILWAY OFFICES IN OLD DAYS SAYS LEADER OF PROGRESSIVES.

(Continued from Page One).

splendid at first sight, to have all the railways of the country owned by the Dominion and run in the interests of the people, not exactly for profit but for service, but it is Utopian, and we are not likely to see it materialized. The only thing we can do is to see to it that the two systems are run as profitably and economically as they possibly can be in order to give the best service to the people.

Immigration

I am thoroughly convinced that we shall not have a solution of the railway problem until there are a great many more people in this country. Sir Henry Thornton may practice all the economy he likes, and he may cut down capital expenditure, and do everything he possibly can to make the system successful, but, I repeat, until we have a larger population we shall not get out of our railway trouble. The leader of the opposition implied that the difficulties in connection with the railways today were due to the fact that business had suffered, for the reason I suppose that the factories were not running as they ought to run. While I have nothing to say against the industrial activities of Canada, I am satisfied that so long as we maintain this attitude

we shall not solve our problems.

I know very well that hon. members to my right, for whom I have every respect, think when I speak in this way that I am taking a sectional point of view; they believe that being a farmer and knowing only about agriculture I am always harping on the one string of making agriculture prosperous in Canada. Let me say, however, that I believe from the bottom of my heart that there is no solution for our problem in this country which is not based on agricultural prosperity. You can build all the factories you like and make an attempt to set business going generally; but unless you secure a prosperous, industrious and numerous population living in the country, the urban industries will not prosper. So that our utmost endeavor at this time should be to find out how we can make agriculture prosperous.

LIQUOR CASES IN THE POLICE COURT

Five White Men and Seven Indians were Fined by Magistrate McClymont Today

There were twelve liquor charges in the city police court this morning, five involving white men and the remaining seven, Indians.

Phillip Millett and Joe Smith were fined \$50 and costs for supplying liquor to Indians. George Rose and Robert Gibbs were fined \$25 for intoxication and Joe Rose forfeited \$25 on failing to appear on a similar charge.

Leander Smythe, Henry Gillison, Arthur Lewis and Henry Rudland, Indians, were each fined \$15 and costs for intoxication and Ethel Gladstone was assessed \$10. Arthur Derrick and R. Leighton, charged with being in possession, were each fined \$25 and costs.

Here and There

It is expected that the present year will break all records in the movement of Eastern trans-atlantic travellers. It is estimated that over a quarter of a million Americans and Canadians will travel to Europe during the season.

The supply of farm hands for Western farms is not equal to the demand and the shortage is becoming more pronounced as the season progresses, in spite of the large number of immigrants coming from Europe for this purpose.

During the eight months ending March 1925, 187,798 cars of grain were passed by the government inspectors for the western provinces. This number has only been exceeded four times in the past twenty-four years. Of the total for this year 105,555 were on Canadian Pacific lines.

According to a statement issued by the Bureau of Statistics, Canada's production of commercial fruits for the past year showed a decrease of \$8,902,912 in value as compared with 1923. The total value of fruits grown in 1923 was \$33,169,343 and in 1924, \$24,266,431.

There has been a decided increase in the first quarter of this year in the ordinary life insurance written in Canada as compared with that of the corresponding period in 1924. The increase in March over February was from twenty-eight to thirty-five million dollars.

According to the first weekly report issued by the Canadian Pacific Railway, the crop acreage this year will be slightly less than last. It is estimated that Manitoba will sow about 2,643,000 acres this year, Saskatchewan 8,555,183 and Alberta 2,721,689 making a total area of 13,919,872 as compared with 14,153,905 in 1923.

Very encouraging reports as to the general agricultural outlook in Southern Alberta have been received from Canadian Pacific Agents around Calgary. Much more progress has been made with seeding than was anticipated and conditions are described as either "splendid," "fine" or good and in every case plenty of moisture in the ground is reported.

The country is being besieged by moving-picture stars. Mary Pickford, Viola Dana, Tom Mix, Harold Lloyd and others have passed through within the last few weeks, and explored the Rocky Mountains and other Canadian attractions. The latest is Hoot Gibson, who is bringing a large company of movie people here to film the Calgary Stampede as an incident in a "super" drama.

Lord Aberdeen and Temair, former Governor-General of the Dominion and Lady Aberdeen passed through Canada recently with the British delegates to the seventh Quinquennial conference of the International Council of Women, of which the Marchioness is president and founder, at Washington. On the bridge at Niagara Falls Her Ladyship was presented with a golden key symbolic of free entry into the United States.

BROWN WINNER OF SPOON AT RANGES

Special Arrangements for Prize Shoot Announced for May 24

There will be a prize shoot at the ranges on May 24 at which special prizes will be offered.

Sport Chat

The arrival at Stewart of Babe Fortin and his brother, Ed, and Bill Stickney, former Commercial leaguer at Vancouver, will give the northern mining camp the nucleus of what ought to be a strong baseball team this summer.

Mike McTigue, light-heavyweight professional boxing champion of the world, is now reputed with putting the professional manager of prize-fighters out of business. When someone asked once, why it was that prize-fighters needed to share their income often fifty-fifty with managers, someone else retorted: "Because they are stupid, for no one but a stupid fellow would become a prize-fighter." Apparently, McTigue

has proven himself to be not quite so stupid as the average. Some time ago he cut himself loose from his manager, and when it came to the point of signing articles for his fight with Paul Berlenbach, which is to take place at the end of the month, he produced instead of a manager a lawyer, to look after the legal and money ends of the fight, while he was looking after the physical end of it.

Those who have followed the fighting game for some years now, seem to think, that McTigue has touched a note, which will change the whole aspect of the fight business, at least among the higher classes of fighters. Managers or rather business agents will still be in demand for the newcomers no doubt, because they are usually improvident, and need someone to stake them to the necessary money for training and trainer's expenses; but it is more than likely that there will gradually evolve out of the present situation, boxing agencies, like theatrical agencies, for the arranging of matches, with lawyers, who for a reasonable fee will see that the contracts are properly drawn up.

In tonight's Stuart Shield football fixture, the Great War Veterans will have another opportunity of getting into a position of advantage on the standing sheet. Their opponents, the Gallies, if they win the match, will again be at the top of the league ahead of the Sons of England.

The teams will line-up as follows: Great War Veterans—Gawthorn; Barton and V. Menzies; Skinner, George Mitchell and Bell; Russell, Norwood, Erskine, Campbell and Cochrane; reserves Mac and McPherson.

STORY OF OUTLAWS SHOWN HERE TONIGHT

Love Affair of Beautiful Girl and Cowboy Give Rise to Thrilling Situations

The Zane Grey Paramount picture, "The Border Legion," featuring Antonio Moreno and Helene Chadwick in the principal roles, will be shown here tonight.

The story deals with the love affair of a beautiful daughter of the West, played by Miss Chadwick, and Moreno, a young cowboy, and with the activities of a band of ruthless outlaws called "The Border Legion," headed by Rockliffe Fellowes and Gibson Gowland.

Taunted by the girl, Jim Cleve decides to join the Legion. The girl, forgiving, rides to bring him back, but is intercepted by Kells who takes the girl a prisoner to his lonely cabin in the mountains. He tries to make love to her but she resists, shooting and wounding him.

Cleve goes to the cabin to enlist in the Legion. He catches sight of the girl and manages to get a word alone with her. They plan to escape. When this proves impossible, Jim finds an itinerant preacher, and he and the girl are married.

The outlaws ride to raid a gold camp but are betrayed and only four escape alive. During the raid Cleve and the girl escape on the coach carrying the gold from the camp, but the remnants of the band hold up the coach, wound Cleve and again carry off the girl.

The bandits have gathered in a cabin and are playing cards to see who shall have the girl when Cleve, bloody and barely able to stand, staggers in. He reaches for his guns. The lights are knocked out. Pistols flash and then

LOTS OF GINGER IN "NEVER SAY DIE" AT WESTHOLME THEATRE

Mid-Week Play Features Douglas MacLean Who is Supposed to be Sick

Jack Woodbury, otherwise Douglas MacLean, was supposed to have heart trouble!

A corps of noted physicians diagnosed his case as leaky valves and palpitation. It really was only a bee which buzzed around in the doctor's stethoscope and afterwards stung Jack on the chest.

The only heart trouble Jack ever had was on account of Violet and her ravishing dimple. But she was engaged to Hector. It was a case of love at first sight for Jack. After the doctor's mistake Hector saw his chance to pick up an easy inheritance. He forced Violet to agree to marry Jack, become his heir and save his fortune from going to charity. Later she could marry Hector who happened to be Jack's best friend. "It didn't sound like a nice thing to do, but—ah, boys and girls! what a bear of a comedy situation!

Everything was thus set, when Jack double-crossed the gang by remaining in the best of health. To make a funny situation worse, Violet, in the person of the adorable Lillian Rich, fell madly in love with Jack. She just couldn't help doing it. It upset Hector's efforts—Hector was the foolish fiance—to drag in a Parisian vamp to compromise the unwilling bridegroom.

No one but Douglas MacLean would be clever enough to extricate himself from so many complications.

But the gold-grabber wasn't beaten yet! He hired an expert gunman to catapult Jack into eternity and Jack had the wildest, most hilariously furious ride of his life eluding the gunman in a dilapidated hackney-cab, which lost horse and cabbie and barely missed crashing into no less than seventy-nine obstacles.

Thife in Paradise," filmed for Prince Rupert audiences and to be shown here at the week end. Here's what it is:

The glamour of the China Seas. Beachcombers diving in the waters for rare pearls. A fight underneath the water—two men battling for a pearl and then their bigger fight under water with a shark.

San Francisco society where a man masquerades in another's place and steals a girl's heart. And contrasted with this is San Francisco's bohemia where this thief has a rendezvous with an Eurasian belle.

A polo match—blondes vs. brunettes on horseback. Something entirely new—never before shown on the screen.

A runaway chase that runs the whole gamut.

A big society revel where a beauty does an under water dance dressed in a costume of pearls. It's original, too—and, boys, it certainly is beautiful—and the girl is captivating.

And an airplane honeymoon. Some thrill—full of new delights.

And the ending—a climax that grips—a fitting end for a marvellous picture.

The Man in the Moon SAYS—

HOW do you live
And what do you give?
Do you bring words of cheer
To all who are here?
Or are you a pall
Bringing sorrow to all?
Just think for a minute
What fun there is in it
If all do their part
With hand and with heart
To make life worth living
Their services giving.

NO MORE FOOLING

NOWHERE did Abraham Lincoln show his shrewdness of judgment to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right, Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertised merchandise.

MRS. COOLIDGE SETS PACE FOR WOMEN OF AMERICAN CAPITAL

WASHINGTON, May 18. — Society leaders of the capital, accustomed to moulding their tastes to those of the first lady of the land, are stumped by the form of diversion selected by Mrs. Coolidge.

Four to six miles of walking daily is the program of Mrs. Coolidge and this schedule stands, so far as the demands on the time of a president's wife permits, rain or shine, winter or summer.

Mrs. Coolidge has refused to be "jailed" in the White House. She regards the executive mansion as a home, and she has maintained the simple habits of life she accustomed herself to as the wife of a Massachusetts lawyer.

LAND ACT.

Notice of Intention to Apply to Lease Lands. In the Land Recording District of Prince Rupert, and situate on the north-west coast of Pease Island, B.C., approximately five miles north from the mouth of Winter Harbor.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS. Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,999 board feet per acre west of the Coast Range and 5,999 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes: minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the ranges administered under a Grazing Commissioner.
