START ON SUPERSTRUCTURE IMMEDIATELY

BOARD OF TRADE CHARGES DISCRIMINATION BY RAILWAY AGAINST PORT

Freight Rate Revision is to be Undertaken by Railway Board on Instructions from the Government

Must be Based on Policy of Equalization and Particularly to Encourage West Bound Traffic Through Pacific Ports

OTTAWA, June 6.—The Board of Railway Commissioners have been instructed by the government under an order in council to proceed with a revision of the freight rates. The order lays down that the policy of equalization of rates should be recognized to the fullest possible extent. The board will be unfettered in its investigations except in regard to the rules on grain and flour and on these the maximums established under the Crow agreement must not be exceeded.

Furthermore the board is directed in its investigations to have regard to the freest possible interchange of commodities between the various provinces and in particular to encourage the movement of traffic through Canadian ports and the encouragement of increased traffic westward and eastward through Pacific coast ports owing to expansion of trade with the Orient and to transportation of products through the Panama Canal.

PROPOSE ERECTING COAL BUNKERS HERE
 A suggestion was made at the Board of Trade meeting last night that a private company was proposing erecting coal bunkers at this port to handle Alberta coal. The matter came up in connection with a petition from the miners of Edson asking that the Government establish bunkers here. The petition was referred to the proper committee.

MANSON WILL BE PROSECUTOR

Attorney General to Represent Crown at Assizes Here Next Week

VANCOUVER, June 6.—Following a custom which fell into desuetude some years ago, Hon. A. M. Manson will prosecute for the Crown at the Prince Rupert assizes, which open on June 9. Mr. Justice W. M. McDonald, who will preside, leaves tonight for the north.

McFARLANE WINS GOLF CHAMPIONSHIP

WORCESTER, Mass., June 6.—McFarlane defeated Jones in the final eighteen holes yesterday afternoon for the U.S. open championship by a score of 72 to 73.

CUTS GASOLINE COST TO 10 CENTS A GALLON

SIoux FALLS, S. Dak.—James A. May of 3991 H Street has perfected an amazing new device that is enabling car owners to cut their gasoline bills in half by doubling their mileage from gasoline used. Many owners have made over 40 miles on a gallon. It also removes carbon, increases motor power and pep, prevents spark plug trouble and overheating. Anyone can install it in five minutes. Mr. May wants agents, and is offering to send one free to one auto owner in each locality. Write him today.

MINISTERS ARE VISITING HERE

Hon. Wm. Sloan and Hon. Dr. Sutherland on Way to Stewart

BARROW GOES EAST.

A party of provincial cabinet ministers consisting of Hon. Dr. W. H. Sutherland, minister of public works, Hon. William Sloan, minister of mines and provincial secretary, and Hon. E. D. Barrow, minister of agriculture, arrived on the Prince Rupert this morning from Victoria. Dr. Sutherland and Mr. Sloan will proceed to Stewart tonight accompanied by H. E. Kerzin, M.L.A. for Alton who will endeavor to impress upon them the advisability and feasibility of constructing a trail of road to connect Stewart with Dease Lake where great developments in the industry of gold mining are expected. Mr. Kerzin has always been enthusiastic about this project and recent developments in the Cassiar district have served to make him even more so. It is his ambition to make Stewart the port of entry for the Gassiar and Alton districts just as Skagway is the entry to the Yukon.

Dr. Sutherland has with him P. Philip, chief engineer of the public works department, and A. L. Carruthers, former district engineer here and now bridge superintendent for the department. Mining trails and bridges generally in the Portland Canal district will receive their attention in view of increased development and large number of applications. The party will also visit Anyox and Alice Arm. Mrs. Sutherland is accompanying Dr. Sutherland. Mr. Barrow, shortly after arriving here, proceeded by train to Smithers. Accompanied by Col. W. S. Latta of the Land Settlement Board he will visit the Bulkley and Nechako valleys.

PLAINTIFF WINS IN COUNTY COURT CASE

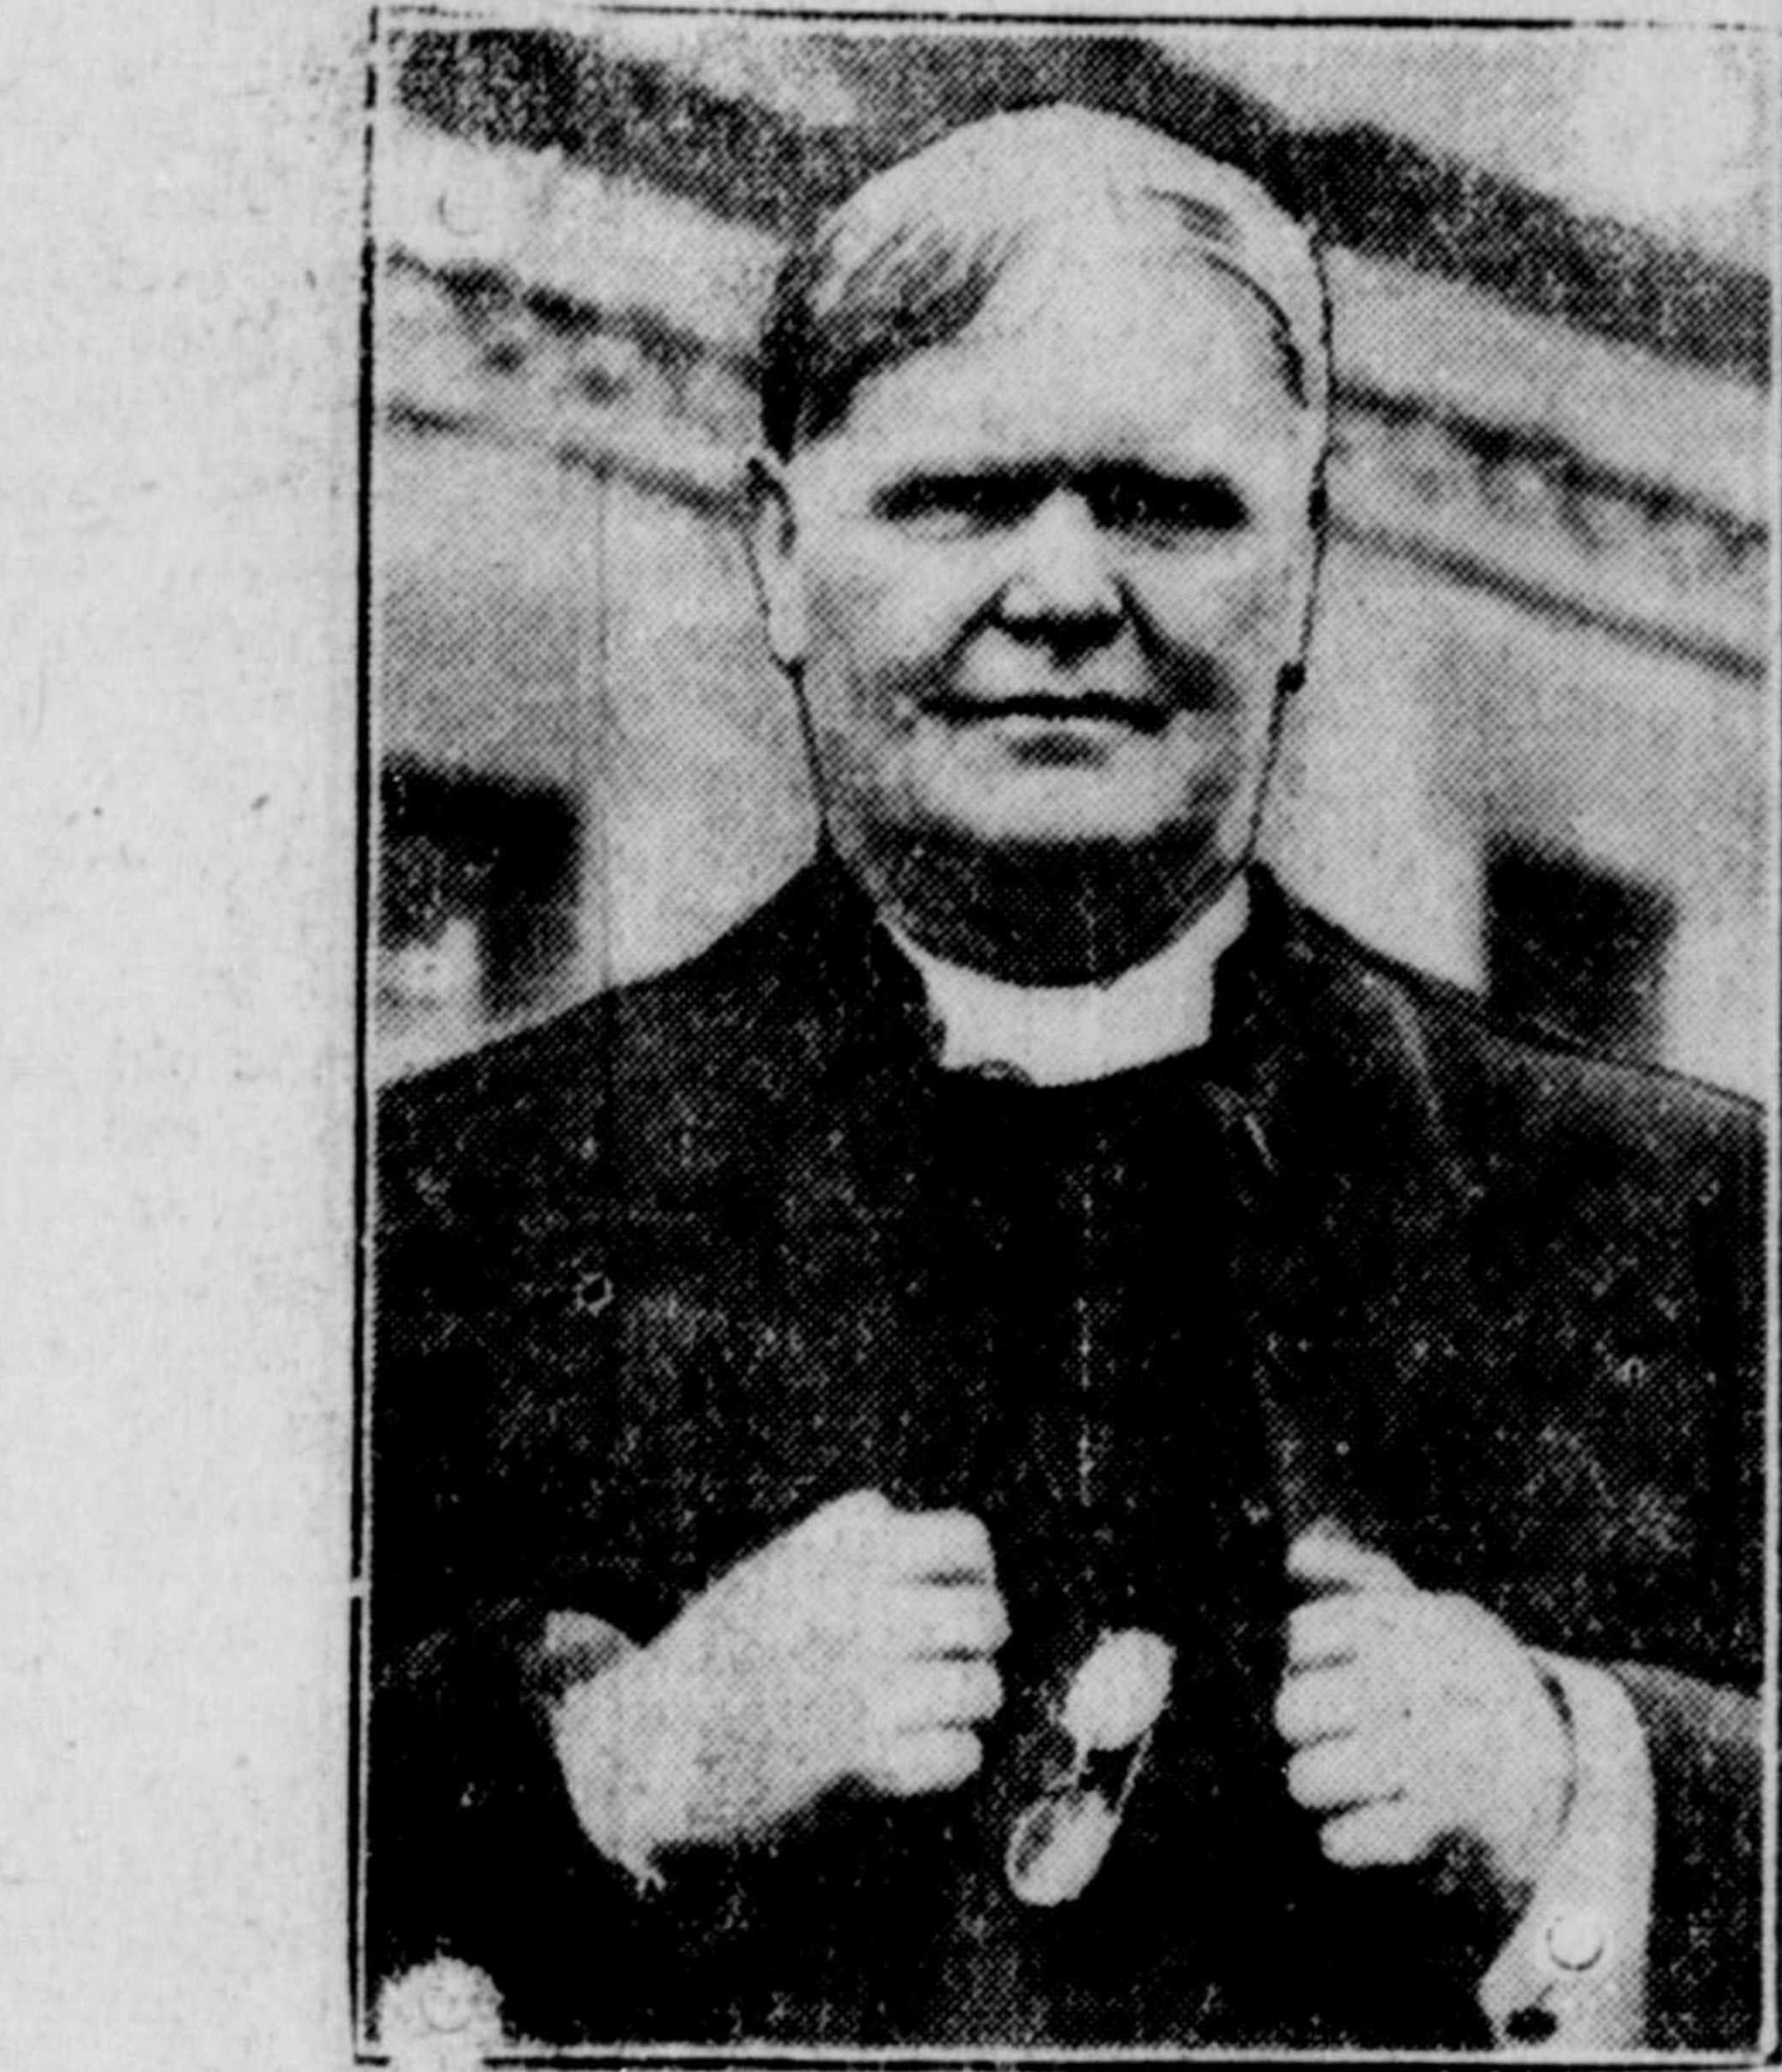

A. J. Richmond is Ordered to Pay \$130 to Laura Darwin

Judgment in favor of the plaintiff for \$130 and costs was given by Judge Young this morning in the case of Laura Darwin vs. A. J. Richmond. Plaintiff claimed that she had purchased a seal coat from defendant paying \$130 down. She later returned the coat but did not get her money back. This is what she sued for. M. Gonzales had the case for the plaintiff and W. E. Fisher for the defendant.

GIBBONS IS KNOCKED OUT

Gene Tunney, Lightweight Champion, Wins in Twelfth Round at New York

NEW YORK, June 6.—Gene Tunney, American lightweight champion, knocked out Tommy Gibbons in the twelfth round of their fifteen round bout last night. Tunney was the aggressor throughout and after a minutes' fighting in the twelfth crashed a blow to Gibbons' jaw.

Bishop Weldon, dean of Durham, thinks English society has become demoralized within the last few years

Elevator Contractor Arrives and Inspects Site of Elevator Prior to Commencing Work Here

F. E. Halls, vice-president of the Winnipeg contracting firm of Carter-Halls-Adinger, which has the contract for the building of the elevator superstructure here, arrived on the Prince Rupert this morning from Vancouver to make preliminary arrangements for the starting of the work. This morning, accompanied by W. N. Chater, the supervising engineer, he visited the site.

The Northern Construction Co. is well advanced with the substructure work and the situation is in a position where the superstructure work may be commenced almost immediately. Mr. Halls announced this afternoon that equipment which was used in the construction of the elevator at Edmonton is now being loaded there for Prince Rupert and should arrive by the first of next week. The work of Carter-Halls here will be started as soon as it arrives. David Shearer, who was in charge of the elevator construction at Edmonton, will be superintendent of the work in Prince Rupert and is due to arrive in the city about the middle of next week. Mr. Halls stated that the Prince Rupert elevator would be completed and ready for operation by November 1.

TWO SEATTLE BANDITS SHOT

Citizens Open Fire After Desperadoes Rob Bank

SEATTLE, June 6.—James Pollock, aged 25, and George Jones, aged 26, were shot and killed following the hold-up of the Bothell State Bank, eight miles from Seattle yesterday, when \$2,500 was taken. Four bandits participated, three entering the bank while the fourth kept an automobile running. Citizens gathered and, opening fire on the desperadoes, killed two of them.

INDIAN PRINCE DIES IN PARIS

Maharajah of Gwalior Expired Suddenly Yesterday—Cremated in Style Today

PARIS, June 6.—Maharajah of Gwalior, one of India's richest and most powerful princes, died suddenly here on Friday. The body was cremated today in royal style wearing the royal robes and with all jewels.

TWO WERE KILLED IN AN AUTO SMASH

TACOMA, June 6.—Judge Merritt J. Wordon, former supreme court judge, 69 years of age, and Mrs. Lena Bradley were killed and five others were injured when an automobile ran away down a steep hill yesterday crashing into a building.

Discrimination Against Prince Rupert in Cheap Summer Excursion Fares

Also No Routing Through This Port to Alaska owing to American Domination of Rates

At the general monthly meeting of the Board of Trade held in the council chamber last night a committee consisting of M. P. McCaffery, D. G. Stewart and G. W. Nickerson was appointed to carry on negotiations with the management of the Canadian National Railways with a view to having the discrimination against Prince Rupert in regard to tourist tickets removed.

The matter was introduced by Mr. Nickerson who read telegrams which had passed between himself, as president of the Board and J. E. Dalrymple, vice-president of the railway in charge of traffic. This showed clearly that no excursion ticket could be purchased from Eastern points to Prince Rupert but only to Vancouver and that for easterners to go to Alaska they must go through Vancouver and not by rail to Prince Rupert. In fact the Prince Rupert terminal was deliberately sidetracked.

Urge Strong Action
 Members of the Board took part in the discussion all expressing themselves as indignant at the position in which Prince Rupert is placed and urging that strong action be taken.

The situation was discovered when J. C. McLennan received a letter from his son Reid who is at the military college Kingston, saying he was unable to purchase a summer excursion ticket to Prince Rupert but was told he would have to buy it to Vancouver and then pay \$13 extra to proceed to this port. Investigation was made and it was found that this city was not included in the places to which tickets are sold. Also in the advertisements this place is ignored. Mr. Nickerson then wired Vice-president Dalrymple, pointing out the discrepancy and stating that there was clear discrimination against this port and asking that it be adjusted and the following reply was received:
 Railway Position
 "Your message of May 30. The existing representation of summer tourist fares to the Pacific Coast, including Vancouver and Prince Rupert have been effective for a number of years. The additional charge of \$13 between Rupert and Vancouver is not transportation charges but simply covers meals and berths on the steamer. We do not feel that Prince Rupert is being discriminated against under the existing arrangements and any change would undoubtedly prove disastrous to present representations via Rupert and steamer now shown in tariffs from Canadian and United States points to Vancouver and south, also to Alaska, which tariffs we do not entirely control. Will, however, review situation for next season. Meanwhile will carefully check movement via Vancouver via Rupert this season. Too late now to make any change even if our connecting United States railways were willing to do so. They would in any event oppose preferential arrangement via Rupert to Skagway notwithstanding difference in distance, which is largely if not entirely obliterated by reason of the basis of fares existing."
 Request for Adjustment
 This was entirely unsatisfactory to the Prince Rupert Board of Trade so Mr. Nickerson sent (continued on page four)

ARE SETTLING ON SITE TODAY

Location of Biological Station Will be Finally Selected It is Expected

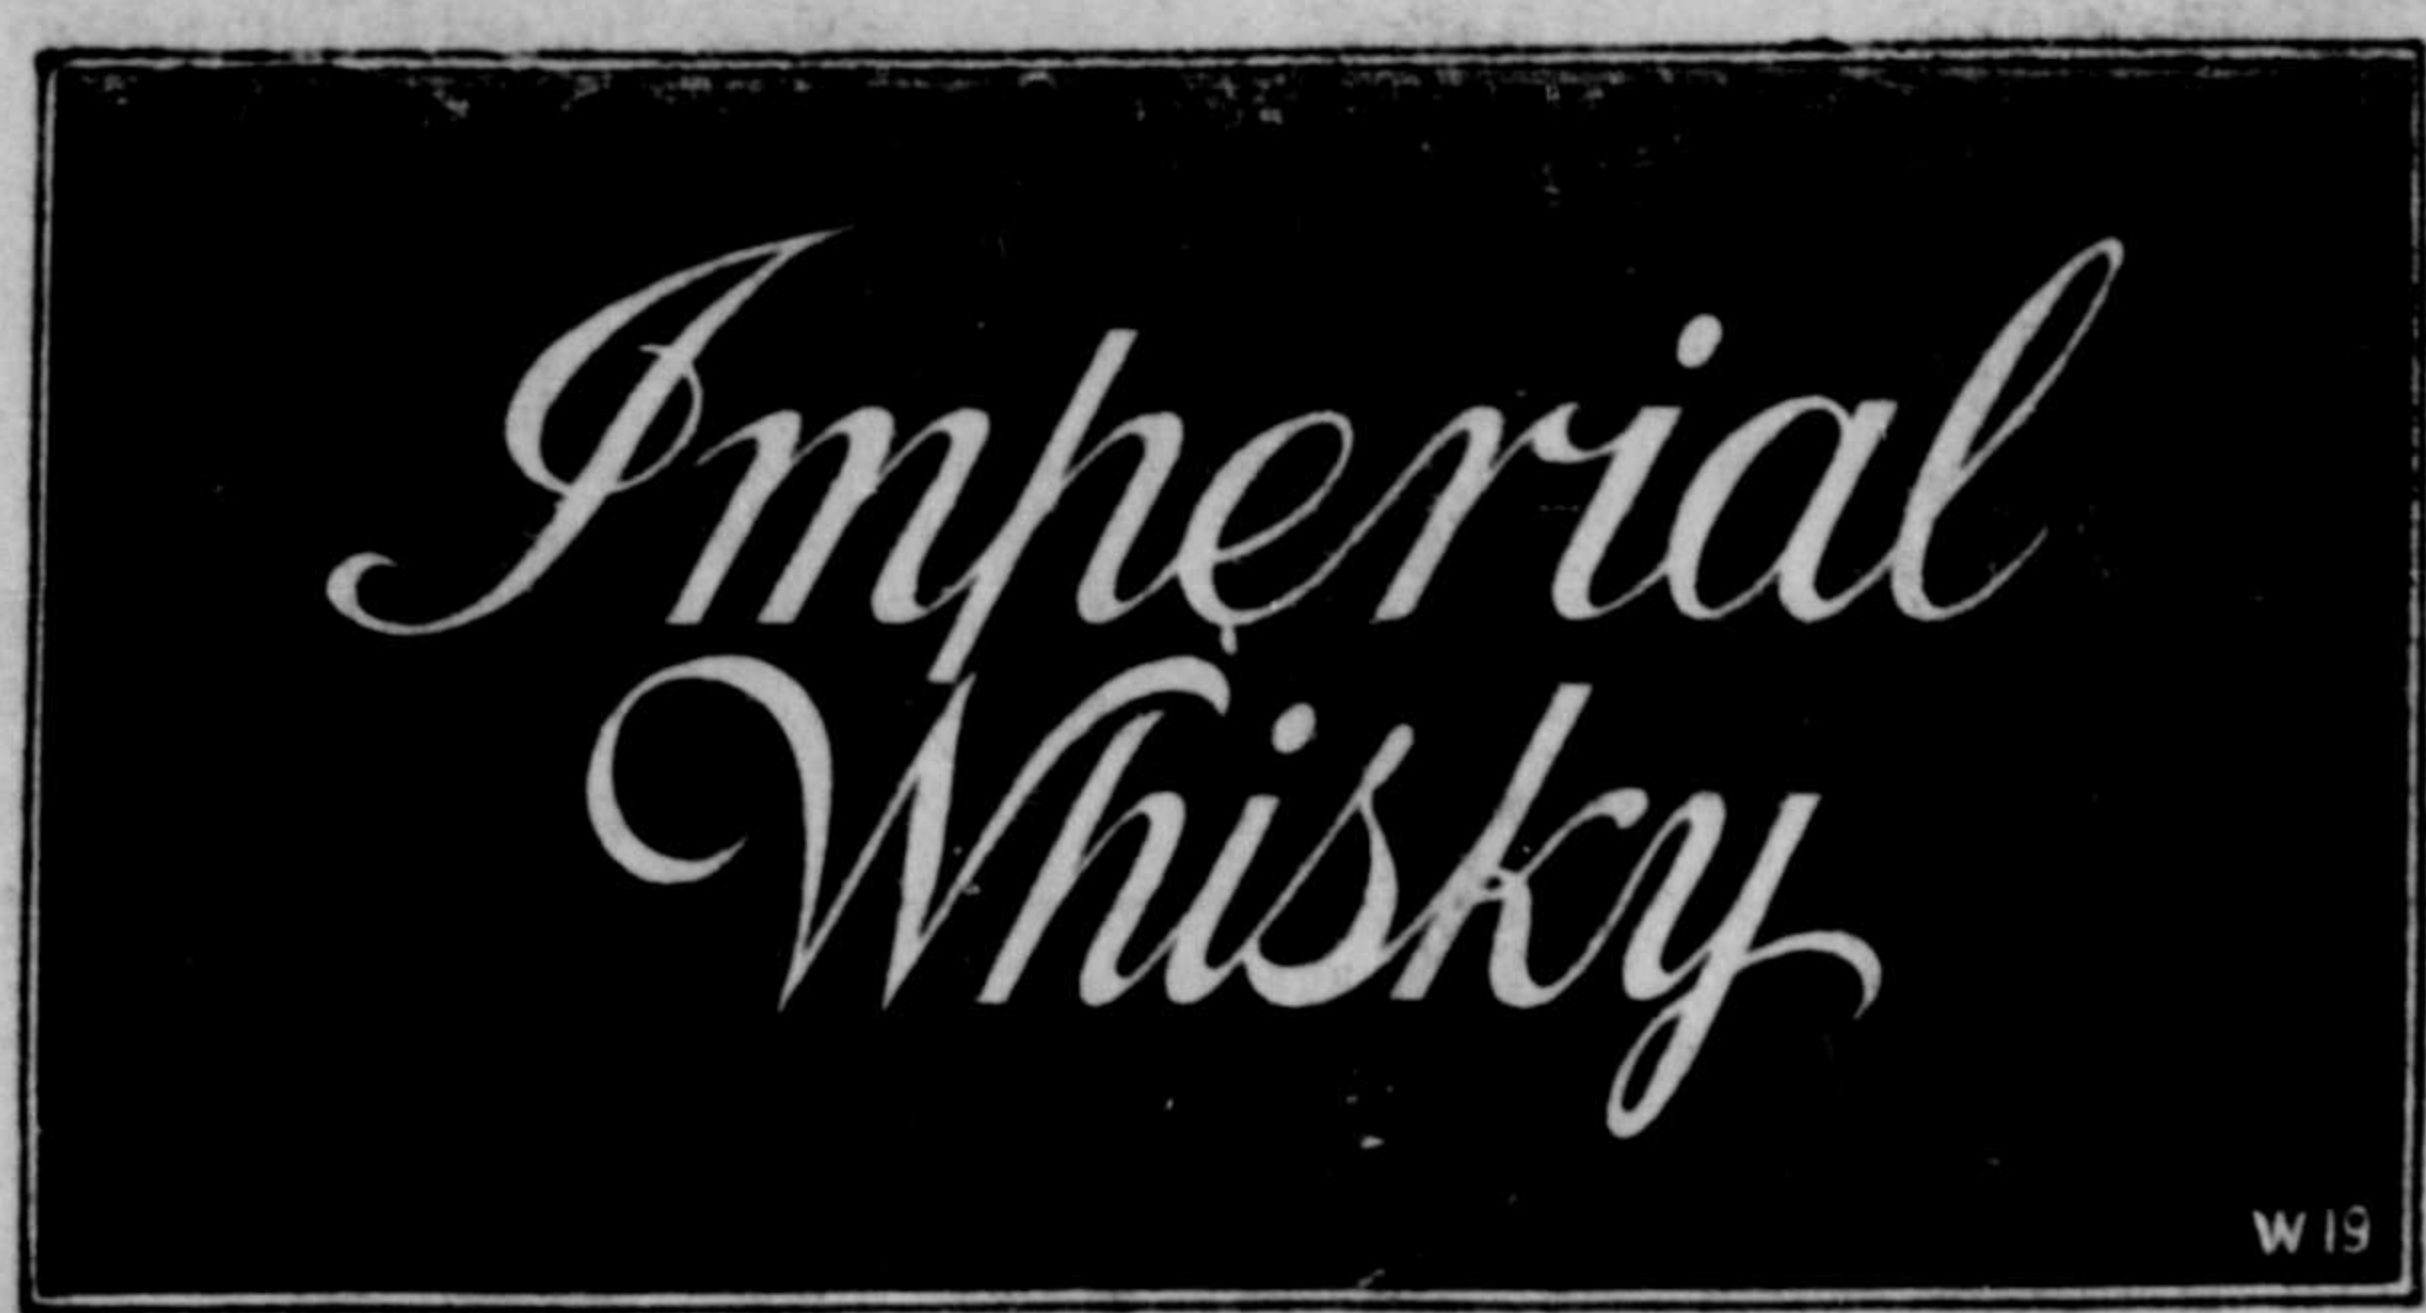

Sites on the government wharf for the biological station that is to be established here were visited this morning by Hon. Dr. W. H. Sutherland, minister of public works; P. Philip, chief engineer, and G. C. MacKay, local district engineer. They were accompanied by John Dybborn, local member of the biological board of Canada. As a result of their meeting, it is expected that the site will be finally decided upon this afternoon. This will permit of work on the erection of the station commencing at once.

STEWART CLAIM IS IN DISPUTE

Case Against Prince John Mining Co. Before Courts in Vancouver

VICTORIA, June 6.—Title to the claim known as Prince John No. 5 mineral claim in the Stewart district is in dispute in an action in the Supreme Court before Mr. Justice Gregory. The plaintiffs, the Victoria Improvement Co. Ltd., claim adverse rights as against the defendants, the Prince John Mining Company, to possession, ownership and title in some 19 claims. The hearing is the first of 19 actions and may be considered a test action for the others. Advertise in the Daily News.

DAILY EDITION

Saturday, June 6, 1925.

Discrimination Against Prince Rupert.

It looks as if there had been discrimination against the port of Prince Rupert in the matter of excursion rates from the East and also in regard to through tickets to Alaska.

According to the telegram of Vice-president Dalrymple, the Canadian National is controlled in its policy by the American transportation companies and anything that would give Canada an advantage must be carefully frowned down.

Why Was Road To Prince Rupert Built?

Why was the railroad to Prince Rupert built? We all understood it was in order to give Canada an advantage in travel to the Orient and to Alaska.

If the people of Canada do not want to use the railway to Prince Rupert, why not turn it over to some big American company? Take the New York Central as an example.

What Has Prince Rupert Yet Received?

Since Sir Henry Thornton took charge of the road, what has Prince Rupert received from the railway? Nothing, except a totem pole and numerous promises, every one of which has been unfulfilled.

We believe that F. G. Dawson, the local director has done his utmost for us. The difficulty is that the forces pulling in the opposite direction seem to have been too strong.

Why Does This Line Not Pay?

Before the Parliamentary committee Sir Henry Thornton said this part of the railway did not pay. It could hardly be otherwise.

When Sir Henry was appointed to the position, we had high hopes of improvement. We were promised one thing after another but we have received nothing.

What would best serve Prince Rupert would be a return to private ownership. Let us urge the leasing of the line to the New York Central or to some other big American concern.

Prospecting During 1924 Much More Active In This District Says Engineer's Annual Report

From Report of G. A. Clothier, Resident Mining Engineer. The North-Western Mineral Survey District (No. 1) is comprised of the following eight Mining Divisions: Queen Charlotte, Bella Coola, Skeena, Nass River, Portland Canal, Stikine, Altin, and Liard.

From a mineral bearing viewpoint the district divides itself naturally into three belts or zones—namely, the great Central Belt or Coast Range and the two flanking zones, the Eastern Contact Belt on the eastern side and the Western Contact Belt on the western or coast side of the Coast Range.

The Coast Range or Central Belt may be termed the copper-belt as exemplified by the Outsider mine on Portland Canal, the Hidden Creek mine of the Granby Company at Anyox, and Marble Bay and Britannia farther south.

Prospecting Active

Prospecting during 1924 has probably been much more active in every part of the district than heretofore. The Portland Canal country, being in the public eye, has no doubt had its most intensive prospecting year; every prospector is combing his ground thoroughly and expending all his energies in developing his findings to the point where he can interest capital.

The Alice Arm country has had a better than ordinary prospecting season notwithstanding the inactivity in mining in that section. Here there are more opportunities for the prospector, because the country has not been as closely staked, and also many claims have been allowed to lapse on account of the non-interest in mining, due mainly to the closing down of the Dolly Varden mine and railway.

Kitsumgallum Lake

The Kitsumgallum Lake section has had its most active season in prospecting; a great deal of country has been explored and about seventy groups of claims staked on new ground.

plenty of opportunity for development work.

Some prospecting has been done this year along the Stikine River, but amounting to nothing when the extent of country and its accessibility are taken into consideration.

Dease Lake

The conversion of the old pack trail from Telegraph Creek, at the head of navigation on the Stikine River, to Dease Lake into a truck road is giving that vast area a great mining impetus and makes available an unlimited area for both lode and placer prospecting.

The reorganizing of the Engineer mine and the development of the property of the Altin Silver-Lead Mines, Limited, will no doubt lead to further prospecting in the Altin Division, which has everything to recommend it to the prospector for the summer season.

The Queen Charlotte Islands and the coast and offshore islands have had about the usual amount of prospecting this year, but nothing of much importance has been reported.

Altogether about 1,000 claims have been recorded in the district during 1924, practically the same as for the preceding year.

Help to Prospectors

Owing to extent of territory and lack of time I have been unable this year to locate and arrange for "prospecting trails" into new mineral areas.

A cable received by Mrs. C. E. Emmerson in this city from Mrs. H. L. Roberson who is in England says that Mr. Emmerson is well and is feeling in exceedingly good form at the front.

"My Wife Handles the Money"

The wife deposits

In a joint account

For the children, too

—so a business man writes us. "She can do it better than I. Each pay day she always deposits our savings first. We never buy anything unless we have the cash to pay for it and each year our savings are growing."

A Joint Account in the name of husband and wife allows the wife to deposit or withdraw money during her husband's absence or when he cannot get to the bank during business hours.

A Savings Account for the children will teach them the value of keeping their money, thus helping them to form the habit of saving.

Leishman Clothes

Are You Well Dressed—Or Just Clothed

There's more in good clothes than just good materials. There's style, becomingness, comfort, good form, appropriateness to purpose and occupation. We look upon each customer as having a distinct individuality, not as a type of standardized proportions. That's why men who go out of our store are men who always look well-dressed. We handle the clothes of the leading clothing manufacturer in Canada—LEISHMAN CLOTHES. They are clothes that turn out a well-dressed man—not merely a man with a suit of clothes covering his back. "QUALITY" is to be seen in every line of them—in their style, fabrics, appropriateness and unusually long wear. Made to Measure or Ready for Service.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

The volume of halibut landed during the week has been well up to the average and prices offered on the Fish Exchange for both American and Canadian fares have kept up, although on Thursday the prices dropped approximately 5c and 2c on American and Canadian fish due in a measure, to the fact that arrivals had been heavy for the week and the eastern market was pretty well filled up. Incoming skippers report the weather on the deep sea grounds to have been "breezing up" for the last few days although good weather was experienced over last week and the fishing was consistently good, taking all things into consideration.

Good business in the marine supply departments of the waterfront has been maintained and everyone seems well satisfied that they are getting their share. Quite a lot of work is being done at the local shipyards and machine shops for the various canneries in the district. In addition there are a number of seine and trolling boats on the ways for repairs while a lot of painting is being carried out on all classes of boats.

Arrivals
Arrivals this week follow: American — Sunset, Lituya, North, Zenith, Augusta, Rambler, Foremost, Sitka, Rainier, Gladys, Hilda, Thelma, J. P. Todd II, Teddie J., Vesta, Wash, Clum, Republic, Albatross, Brisk, June, Tahoma, National, Canadian — Murineag, Maude, Allen, H. & R., Brant, Fanny F., Toodie, Margalice, E. Lipsett, Mab, June B. (salmon), Swing.

"Doc" Got Stung
It is seldom that a man gets "stung" and is proud of it, so it is with pleasure we recount the experiences of our waterfront celebrity known as "Doc" Claperton. Our hero sure got stung where it could be seen plenty, and if he had been in a mix-up with Jack Dempsey his left eye could not have been made a fitter color for a funeral. The trouble with Doc is that he will insist upon butting in on the football matches and is never happier than when wagging that little flag of his. The witnessing of a football match was the cause of his downfall in this case, and now he has been "stung" plenty perhaps he will take it to heart. Upon the evening in question the mosquitoes espied the football chaser cheering his side on to disaster and decided to put a rubber heel—so to speak—on his voice. A big black fellow, reminding one of a wild goose on the wing, impudently perched itself upon Doc's left optic and took a few good digs underneath the outer hide. That put the lid upon the football enthusiasm because the mosquito took some eyesight with the last swallow and its a darned hard job to follow a soccer game if you can't see. However, everything happens for the best, according to the wise sage, and the bump that rose on the eye adds considerable weight to Doc who has been proudly displaying his wound received "in action." Now that the swelling has gone down and the sight is completely restored Doc feels lost for sympathy.

M.T.3 Has Busy Time
The tugboat M.T.3, the Geo. Bushby flagship, with Capt. R. Green at the gadgits has been putting in some strenuous hours hauling pack horses to Stewart, booms of logs to the Georgetown mill and scows of lumber and fish boxes to the local market. On Sunday last the tug returned from Stewart after delivering 22 packhorses, which have been wintering in the Kitkatla district,

for the Sterling Silver Lead Mines Ltd., on the Marmot River. On the return south Reggie lowered a boom of logs from the Klutzmeteen river to the northern mill and there picked up a scow of lumber and a scow of fish boxes for local consumption. On Thursday the little giant towed the Muse pile driver over to the Salt Lakes where pile driving is being carried on in connection with the new public landing float. The tug P.R.T., Capt. Harris Kerr, is touring around the Skeena River canneries fixing up the hoppers for the fish offal which will be towed to the Rupert Marine Products plant during the canning season for reduction purposes.

The tugboat Wigwam and halibut schooner Johanna, Pair of Jacks, and E. Lipsett have been up on the Ward ways this week for painting.

Henry Collison of Kitkatla has his general utility boat on the McLean ways for a general overhaul preparatory to engaging in the fish packing for the Millard cannery. The engine is also coming in for a thorough doing.

The Lena S., Capt. N. Shaw of Lowe Inlet, is on the Suga ways for remodelling. Lena will be commissioned in the salmon packing on behalf of the Lowe Inlet cannery when the work is completed.

Hubert Ward is installing four Pullman berths in his newly acquired coastal cruiser Bonanza. With this addition to the already comfortable travelling equipment there will be sleeping accommodation for five persons aboard as a spacious bunk is being installed forward.

Some Speed Artist
The latest waterfront celebrity to join the nautical speed artists is Pete Bruno, of tonsorial fame. Pete has recently taken unto himself a V-bottom boat and thrown out the old engine in disgust. In its place will be installed one of the latest Ford marine type go-getters and Pete openly avowed he will attain a speed of something like the noise a train makes going at 45 miles per hour. The owner will assist the engine to attain this remarkable speed by injecting a patent oil fuel in it, the ingredients of which are only known to manipulators of hair tonics. He will pay spectators to keep clear of the propellers when Pete starts her up.

Mr. and Mrs. Weldon McAfee returned to Georgetown on the M.T.3 on Wednesday morning. Mr. McAfee has been managing the Big Bay Lumber Co.'s office for the past week but has now been relieved by Mr. Nelson in the absence of Ralph LePine the regular manager, who is south on a holiday.

The launch Joy Bird, Capt. Cook, was out to Tucks Inlet on Tuesday towing the powder house from the elevator site. Blasting of rock is now being carried out opposite the Cold Storage in connection with the elevator fill.

Considerable minor repair work has been carried out on the Arnett dredge at the Akerberg-Thomson shops this week.

Launch Oh Baby Out
The launch Oh Baby, skippered by Laurie Lambly, made the return trip to Georgetown on Tuesday for local interests. On Wednesday the launch took Johnny Morrison and Evan Davies over to Mellakatta. The former was on a short visit to his parents prior to taking over his season's duties as book-keeper

at the Sunnyside cannery.

W. H. Walford, the boat builder, who has been confined to his home on Park Avenue for the past week, is now back on the job welding the left-handed caulking irons in fine shape.

Captains Actually Work

The near sinking of the light-house tender Birnie on Tuesday morning, which fortunately was unattended with serious consequences, caused a lot of excitement on the waterfront early on Tuesday morning, and the happening of course had its humorous side. When Skipper Peterson of the Birnie found the decks awash upon arrival, caused by the overloading of the craft, he quickly aroused the sleeping men aboard and put in a "still alarm" to the tender Newington for aid. Like good sailors the crew of the Newington responded on the double, headed by their doughty skipper, Harry Ormiston, who, for the first time in his life, wore pyjamas for underwear. Captains Ormiston and Petersen set to work with the speed of a crazy jazz tune and seizing shovels commenced to sweat blood in an effort to get the lime etc. overboard to lighten the vessel. Onlookers say that it was impossible to time the speed of the shovels with a stop watch, the shovels seeming to vibrate with the force of energy behind them. Blinded with perspiration the skippers did not stop for handkerchiefs but daily shook their heads over the side of the boat to save time. Betting was heavy as to how long the pace would last but eventually, as the danger lessened, the shovels gradually slowed down and seemed to keep pace perfectly with the Dead March played with a crunch. It has been suggested that in recognition of the valiant services of Ormiston and Petersen the shovels used in the display of work should be presented to them as mementos of happy moments.

Capt. Hans arrived in port early in the week from Sandspit, Q.C.I., on the bridge of his power boat Beatrice H. for the installation of a seine winch at the Akerberg-Thomson shops.

The power boat Markwell, Capt. C. L. Clifton, is in port from Hartley Bay and has been taken up on the McLean ways for a general overhaul prior to taking over a contract with the Lowe Inlet cannery.

It was with great regret the waterfront boys on Thursday learned of the death of Harry Day. Deceased was well known in nautical circles and enjoyed the friendship of all with whom he came in contact. The sympathy of the entire nautical fraternity is extended to his wife in her bereavement.

Peter Venn of Mellakatta is in port to have his engine overhauled prior to hitting for the salmon trolling grounds.

Johnny McLeod is installing an engine in his new 18 foot boat at the Canadian National Yacht Club floats.

James Crew, well known on the Skeena river, has purchased a 4 h.p. Regal engine which he is having installed in a recently acquired hull. The boat will be of the Columbia river type and will be commissioned in the Skeena river fishing when the engine installation is completed.

The lighthouse tenders Newington and Birnie left port on Thursday morning for Vadsø Island, situated four miles from Anox, to carry out the installation of a new beacon light at that point.

The fish packer Plop, Capt. Clawson, arrived in port this week from the Wark Canal district. Cap reports that the salmon run is not too bad at present but better things are expected to happen in the near future.

Off to the South
Charlie "Chuck" Currie, accompanied by Sydney Hunter, will leave port early next week on the former's power boat,

Did Good Work
The Prince Rupert Yacht Club regatta held on Thursday was by far and away the best public event ever staged by the amateur mariners and its seems to be the general opinion that so successful were the races that a similar day will be put on annually. The success of the day was due, in a great measure, to the untiring efforts of A. Macdonald, vice-president, and R. E. Benson, director, who left no stone unturned to give the visitors a real good time. In staging a regatta there is a lot of detail work to be done such as anchoring buoys, erecting flags, measuring the course, arranging for refreshments, etc. which all takes time and effort, and unless these little things are attended to in a proper manner something goes amiss and the edge of enjoyment is taken off the proceedings. A word of praise is also due to George Richmond who, as usual, catered so royally and liberally to the visitors of the day.

Wonderful Seamanship
It's one thing to own a real motor boat but it's quite another thing to exercise brilliant seamanship and bring home all the silver Yacht Club cups that are being given away.

Dr. F.P. Kenny
DENTIST
Exchange Block
Phone 109

However this wonderful feat was successfully accomplished by Captain H. T. Cross with his good ship Francis G. in the Prince Rupert Yacht Club regatta held yesterday afternoon. The Yacht Club day was a humdinger from the drop of the hat but when the club speed snorters got under way in an effort to lift the silverware, formerly held by M. M. Stephens, it was then that strong men laughed and women howled with enthusiasm and the lid was securely locked on an exciting and sandwich eating time. It will be interesting to a good many nautical sports to know that skipper Cross learned his seamanship on the prairies when he successfully negotiated many inspiring races in self-built prairie schooners. Capt. Cross is

Miss Helen S. Lambert, R.N., of Deer Island, New Brunswick, has arrived in the city to visit with her sister, Mrs. H. M. Daggett, 528 Seventh Avenue, East.

SURVEY PARTIES ARE GOING EAST

Dr. George Hanson to Start at Smithers and J. R. Marshall at Burns Lake

Two federal geological survey parties, which will work this year in the interior district, arrived on this morning's boat from the south and went East by train.

Dr. George Hanson, well known here as a result of several years' work in the district during the past, will head a party that will start out at Smithers and work over Hudson Bay Mountain, down the Copper River and out to Usk and Terrace. Dr. Hanson's party is already at Smithers, he himself having arrived from Vancouver today. His party consists of J. L. Ramsell, who was with him last year; R. H. B. Jones, who was here some years ago and has recently been taking post graduate work at Madison, Wisconsin; R. A. Henderson and S. Gibson. All are graduates from the University of B.C.

The second party which arrived here is headed by J. R. Marshall of Ottawa and the other members are Carl Barton, who was with Dr. Hanson last year, and W. Smitheringale. They are also U.B.C. men. This party will start from Burns Lake and cover the lake district to the south of there.

HAD BAD SPELLS WITH HER HEART

Mrs. C. Martin, D.D. No. 2, Orillia, Ont., writes: "I have been troubled with my heart for a long time and very often had bad spells with it. I would take fainting spells, and my husband had to have somebody to stay with me all the time. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

MILBURN'S HEART AND NERVE PILLS
My husband went and got me two boxes, and after the first one was finished I felt like a different woman. I cannot recommend them enough to all those who suffer with anything wrong with their heart or nerves."
Milburn's H. & N. Pills have been on the market for the past 30 years and are put up only by the T. Milburn Co., Limited, Toronto, Ont.
"All druggists handle them."

A MARTYR TO CONSTIPATION

"Fruit-a-tives" brought early relief

MRS. C. W. THOMPSON

"I first heard of 'Fruit-a-tives' through a friend of mine living in St. Johnsbury, and as I was troubled with very high Blood Pressure and Constipation, I decided to try the fruit treatment. The result is that I am feeling very much better, and I am glad to recommend 'Fruit-a-tives' to anyone". Mrs. C. W. Thompson, Lyndonville, Vermont.

All your physical and mental energy is drawn from your blood stream. If the bowels and kidneys do not function properly, poison enters the blood-stream, and the heart, brain and nerves are all affected. "Fruit-a-tives" clear the system of all waste matter, purify the blood and tone up the whole system. They are made from the intensified juices of luscious healthful fruits combined with tonics. Sold everywhere 25c & 50c.

offered at present. Attorney General Manson stated today, following reports that the Chinese consul at Vancouver intended to ask that this step be taken.

TUG WELL KNOWN IN PRINCE RUPERT SANK IN FRASER

The tug Tepic, well known in Prince Rupert, crashed into the cement piers of the bridge across the Fraser River at Mission last week and now lies on a submerged bar in the river, having sunk with a gaping hole in her side. Capt. C. Johnson and his crew of seven men had a narrow escape but were successful in scrambling on to a scow from the sinking vessel. It is expected that the Tepic will be raised and salvaged but some difficulty has attended efforts already made in that direction.

Annual Meeting of Kitselas Mountain Copper Co. Ltd. Taking Place Here Today
A. J. Thompson, manager of the Kitselas Mountain Copper Co. Ltd.; J. D. Wells, secretary, and James Darby, a heavy shareholder, arrived in the city yesterday afternoon from Usk to attend the annual meeting of the company which is to take place here today. There is a proposal on foot to give an option on the property. This will be decided upon at the meeting today.

UNION JACK OVER CAR ASSEMBLED WEMBLEY EXHIBITION

LONDON, June 6. — A Ford car flying the Union Jack was touring Wembley last week. It had been "assembled" in the Engineering Palace in the morning in a little over an hour. This exhibition by Manchester workmen of mass production in action attracted a big crowd during the day, and promises to be a star event this year. The assembling of a car is a thing never before attempted at an exhibition.

FORMER SPEAKER HERE

J. W. Wear, former speaker of the provincial legislature, and Mrs. Wear are making the round trip to Prince Rupert and Stewart aboard the steamer Prince Rupert as a holiday.

J. S. MacMillan of the T. A. Kelly Logging Co. arrived on the Prince Rupert this morning from Vancouver and will proceed on the Prince John tonight to Logan Inlet, Queen Charlotte Islands.

The Man in the Moon SAYS:-

OF all bad things
The greatest curse
Is going about with
An empty purse.

PEOPLE who have nothing else to recommend them, usually have ancestors.

AN angler fishing on the ship canal bank, above the lock at Sault Ste Marie, had no luck at all. In fact, he had the bad luck to lose a silver dollar out of his pocket into the water. In the evening he decided to return and see if his luck had improved. He started to fish below the lock, and to his great joy he landed a large rainbow trout. On taking the fish home he began to clean it. And what do you suppose he found? The silver dollar? No, only seventy-five cents. A toll of twenty-five cents is charged for passing through the lock.

IT'S easy enough to be happy
When winning a motorboat race

But the man worth while,
Is he who can smile
When left behind at the base.

IT'S easy enough to be smiling
When the engine's running quite well

But it never feels nice
To get free advice
When you sweat as she's resting
ing a spell.

IT'S easy to be optimistic
In the cool atmosphere of the west

But down East it is hot,
While here it is not,
So I like it out here much the best.

BOARD OF TRADE RESCINDS MOTION REGARD MINISTER

The Board of Trade at its meeting last night on motion of George W. Nickerson, decided to expunge from the records some strictures passed several years ago on Hon. William Sloan, chief commissioner of fisheries for the province of B.C. Mr. Nickerson was the mover of the original motion and D. G. Stewart the seconder. They respectively moved and seconded the motion to rescind, which was carried unanimously, after Mr. Nickerson had asked that it be done.

NOTICE OF CANCELLATION OF RESERVE
NOTICE IS HEREBY GIVEN that the reserve covering certain lands near the junction of Crestall and Skeena Rivers designated Lot 24, Range 5, Coast District, is cancelled.
GEO. E. NADEN,
Deputy Minister of Lands,
Department of Lands,
Victoria, B.C.
May 14th, 1925.

SUNDOWN

An epic drama of mighty events. A photo-play in which the spectator will live the stirring deeds with the rugged pioneers, empire builders, men with hearts of steel, women of heroic mold, who after hewing their way across half a continent to open up the vast ranges of the west, were in turn pushed out by the ever onward march of civilization. This is the momentous story of the last stand of the Gattle Kings and their final gigantic drive across the border with 100,000 head of cattle, their battle with flood and fire and the blazing, killing heat of the desert, seeking a new home with hearts unconquered. A big picture. Historic! Vital! Thrilling!
Roy Stewart, Bessie Love, Hobart Bosworth, Arthur Hoyt, Charles Murray, Margaret McWade and E. J. Radcliffe as President Roosevelt.
