Organizer for Ku Klux Klan Refused Entry to Canada; Lodge Appeal

Organization is started in Victoria under the direction of Captain Laycock, D.S.O.; Headquarters raid planned

VANCOUVER, Nov. 11.—The Ku Klux Klan got its first shock yesterday when Major Luther R. Powell of Portland, organizer of the Canadian Knights of the Ku Klux Klan was refused entry into Canada by the Canadian immigration officials at White Rock. He was classed as an undesirable, according to the Sun, which paper says it obtained its information from boundary officials. Powell has appealed to Ottawa and his case being taken as a test.

The Sun goes on to state that it was known action was pending for the ejection of the Klan from the Shaughnessy Heights residence from where it was planned to direct a Dominion-wide organization.

VICTORIA, Nov. 11.—The Times yesterday said: "Organization of the Canadian Ku Klux Klan started in Victoria today. Captain W. B. Laycock, D.S.O., one of the leaders of the movement on the mainland, arrived from Vancouver Thanksgiving Day and at once started organization work."

Better Not Build Railway to Peace River Than Have Freight go to Prince Rupert

(Special to Daily News)

VICTORIA, Nov. 11.—Influential members of the Legislature who are opposing the proposed extension of the P.G.E. north of Prince George have faith in the reports of the experts who investigated the whole situation in 1922. It was stated in the Legislature lobby today.

J. G. Sullivan, chief of these investigators, asserted that under no consideration should the line be built north of Prince George. His first reason was insufficient prospective revenue to justify the expenditure and secondly because the Peace River freight in his opinion would move to tidewater from Prince George over the Canadian National to Prince Rupert, the nearest seaport, and not down the P.G.E. to Squamish.

Hon. A. M. Manson to Defend Himself in the Legislature on Friday in Wong Abduction Case

(Special to Daily News)

VICTORIA, Nov. 11.—Hon. A. M. Manson, attorney general, is said to be burning the midnight oil studying details and preparing a speech for Friday that is expected to be the biggest of his career.

It is stated in government circles that Mr. Manson will furnish abundance of facts and figures to refute the onslaught from all sides made on the administration of his department in the Janet Smith murder mystery and the Wong Foon Sing abduction. "His career is at stake," said an opposition member. His opponents also admit that Manson is under a disadvantage in being forced to delay his speech while the Wong cases are sub-judice.

Joshua Hincheliffe, member for Victoria, in the House yesterday declared that the Attorney General remained silent when he held clues to the secret of where Wong was when abducted.

Mr. Manson intervened to say that private detective suspicion fell on Robinson from the outset and that his officers were on the trail in a few hours. "It is true they did not succeed for a time," he said, "but eventually they did succeed in liberating the Chinese and getting the conviction of Robinson."

Canadian Press

VICTORIA, Nov. 11.—Attorney General Manson will defend his administration from the strictures of the defence in the trial of Wong Foon Sing abductors Robinson and his son. Mr. Manson has set the date for Friday of this week when he expects the trial of the others on the charges will be completed and he

Shelter for Fishermen Will Be Discussed at Meeting of Joint Committee Very Soon

Fred Stork Initiates Movement to Have Federal Government Undertake Work on Waterfront View to Relieving Situation

Fred Stork, M.P., having communicated with the city council last night suggesting that that body consult with the Halibut Fishermen's Union and the Halibut Boat Owners' Association with a view to arriving at some decision as to the requirements for a shelter and mooring location for fishing boats in Prince Rupert harbor in which case he would be pleased to urge upon the government that immediate steps be taken to provide such a facility, the matter of obtaining an adequate fishermen's wharf for this port again becomes a live issue with perhaps more promise of actual accomplishment than it ever had before.

Mayor's Position

After Mr. Stork's letter had been read at the meeting last night, Mayor Newton at some length related how the Board of Works this year had endeavored to reach some solution of the question of furnishing a fishermen's wharf but without success. The proposal of the provincial government that the filling in of Cow Bay be permitted by the city which in return would receive 200 feet of waterfrontage just east of the mouth of Cow Bay, it was true had been ratified by the electors but the Board of Works had subsequently decided that, as the cost of providing a wharf and shelter on the waterfrontage would be prohibitive as far as the city was concerned, it would be better to retain what shelter there was at the mouth of Cow Bay instead of losing that and not being able to provide anything else. Therefore, as far as the council was concerned, the filling in of Cow Bay had not been approved and the transfer of waterfront had never been effected. As for the suggestion that a shelter be provided at Seal Cove, the fishermen themselves had said they would rather stay with the limited facilities they already had at the mouth of Cow Bay. Thus the matter stood with no practical solution of the question having been obtained.

Different Situation

Ald. Casey said that up to this time, in dealing with the matter of a fishermen's wharf, the city had always been confronted with the necessity of making a large expenditure itself. This was the first time as far as he knew that any government official had called upon the city for co-operation with a view to having the facility provided. He felt that the council should have no hesitation in encouraging Mr. Stork or the federal government in an attempt to improve harborage mooring facilities for the fishing fleet. He was sure that many suggestions could be made along the line referred to in Mr. Stork's letter.

Mayor Newton again referred to the efforts that had been made by the Board of Works to reach a solution and said that he could not see how anything could be done to improve the situation for the fishermen. If any member of the council had any suggestion to make, he would be glad to hear of it.

Ald. Larsen felt that the city should not pass lightly over Mr. Stork's suggestion. He was of the opinion that the boat owners and fishermen would be better able to offer suggestions than the city council.

Ald. Perry thought that it would be well for the council to call the meeting suggested by Mr. Stork.

Too Good to Miss

RUSHING GRAIN TO VANCOUVER

Several Hundred Cars Unloaded There Yesterday and Quantities More Going

NATIONAL'S BIG BUSINESS

There is Now 4,276,265 Bushels of Grain in Store at Pacific Coast Port

WINNIPEG, Nov. 11.—Statistics issued at the railway offices here today show that there is a particularly heavy movement of grain toward the port of Vancouver. With 238 cars loaded to that point during yesterday, 270 cars arrived there and 257 were unloaded by the Canadian National. This is the largest number of cars unloaded in any one day at that point and with 425 cars from other lines makes a big total at the port for the day.

The day's arrivals brings the total western movement over Canadian National lines this fall to 5,187 cars, being 450 cars more than the entire Vancouver shipment of the previous crop season.

There is now 4,276,265 bushels of grain in store at the Pacific Coast port.

DAILY EDITION Wednesday, Nov. 11, 1925.

We Are Just What We Think.

If we think success, we shall succeed. If we think failure, then failure looms ahead of us like a dark abyss that is bound to overwhelm us. If we think joy we become joyful and life is pleasant for ourselves and our friends. If we think sadness and dwell on that which is sad, then sadness will be our lot, few our friends, and woe to those who cleave to us, for their path shall be saddened with the gloom of our companionship.

If we think evil, then evil will be ours as sure as night follows day. There is no escape. The mind is in control. It may not be the impelling force but it is the guiding force. It is the instrument through which our destinies are shaped.

What Will Happen In Parliament.

Many people are still speculating as to what is likely to happen in Parliament when it convenes. Nobody knows. Yet we can all guess. Our guess is that Mackenzie King's Government will be sustained and that it will carry on for a year or two. We may be wrong, of course, because this is only a guess.

If all the independent groups line up with the Government they will have a majority of eleven over the Conservatives. Give the Conservatives two of the independents, eliminate Bagot, take out the speaker who has to be elected and still the Government has a majority of five over all. With that majority they can carry on. It looks reasonable that the men who were elected to carry out a similar policy should work together in order to prevent another group with another policy controlling the Government.

In discussing this there is no intention to re-introduce political controversy. The election is over and we hope there will not be another for some time to come. The convening of Parliament and the fate of the Government is something that we can now look at from an ex parte point of view. We are all spectators. We have cast our votes and can sit back and look at the result and talk over the possibilities.

Drunk Loving Cup With German Ambassador.

Austin Chamberlain, one of the most prominent members of the British Government during a banquet at the Guildhall, London, drank from the same loving cup with the German ambassador and referring to this Mr. Chamberlain expressed the wish that the people of Germany and Britain would also forget the war.

The Guildhall banquet is an annual event of greatest importance in British public life. The custom has grown up for prominent statesmen to make important public announcements on that occasion. Policies are outlined or pronouncements made. The policy of the British Government, it would seem then, is to be one of conciliation and friendship toward Germany.

Disturbing Force In The Dominion.

The Ku Klux Klan, if allowed to proceed with organization, promises to become a disturbing force in Canadian life, whereas what is needed just now is a welding force that will bring together the different factions, nationalities and groups and make them one. We shall be sorry to see the Canadian people broken up into factions and the Klan has been a strong factor in bringing about such a condition wherever it has operated.

TAX REVISION CONTROVERSY

Coolidge Administration Trying to Lift Burdens from Wealthy and Place on Poor

SENATE FIGHT COMING

Democrats and Progressive Republicans Likely Thwart Republican Move in House

WASHINGTON, Nov. 11.—The tax revision controversy, which has begun before the House Committee on Ways and Means, and which will continue for most of the winter, is already beginning to take on important political aspects. Before it is finished, it promises to arouse a great political controversy which may have a bearing on the campaign in 1926 for the control of Congress. It may reach into the next presidential campaign in 1928.

Secretary of the Treasury Mellon has put forth a plan for the revision of the existing tax law which provides chiefly for the reduction of the surtaxes on large incomes and the repeal of the estate tax and inheritance tax. It has other features and comprehends considerable reductions in the income taxes imposed on the small taxpayers. What are known as the normal income tax rate would be reduced as well as the surtaxes. The plan of Secretary Mellon would lop off about \$300,000,000 from the present tax burden of the country.

Relieving Capital

But while Mr. Mellon would cut taxes all along the line, the avowed purpose of his plan is primarily to relieve capital and wealth of much of its present tax burden. His argument is that the public would thus be benefited by relieving capital of burdens which now tend to hamper it and prevent it from engaging freely in industry.

President Coolidge is backing the Mellon proposals and the "Old Guard" republicans in Congress are likewise backing them.

On the other hand, the democrats and progressive republicans are already tending to combine to fight the Mellon program. They are calling for reductions which would total more than \$300,000,000 and which would, first of all, relieve the small taxpayers. They are willing to make some reductions in the surtaxes but not as much as under the Mellon program. As for the estate taxes, the democrats and progressives, with some exceptions, strongly oppose repeal. They maintain the Mellon program is part of a program, whose purpose is to bring about, inside of a few years, vast transfer of taxes from wealth to the banks of the people of small and moderate means.

Agricultural Elements

To a considerable extent, the agricultural elements of the country are lining up against the Mellon program. Already, the American Farm Bureau Federation is out openly against repeal of the estate tax on the ground that to repeal it would mean the farmers would have to pay more taxes.

The House will probably pass the tax bill about as Mellon and the administration want it passed. But not so the Senate. It is probable that combination of democrats and progressive republicans in the Senate will defeat the Mellon program and to a large extent shape the tax measures to suit themselves. They will not only assail the Mellon plan as the plan of "big business" but they will strike at the Coolidge administration on the ground that its voice is the voice, not of the masses of the people, but of the classes.

ARMENIAN RELIEF FUND OPENED HERE

City Council Authorizes City Treasurer to Take Subscriptions for European Orphans

The city council decided last night to open a subscription list in the city treasurer's office for the Armenian Relief Fund. The matter came up in the form of a report from the finance committee recommending that a straight grant of \$100 be made by the council instead of permitting a subscription campaign to be carried out in the city. Such a precedent was not approved of by Ald. Stephens and Ald. Casey who felt that the council had no authority to vote the people's money in this manner. After some further discussion, it was decided to open the subscription list for voluntary contributions.

LIBRARY BOARD HOLDS SESSION

New Regulation in Regard to Fines is Adopted; Not Enough Books on Shelves

The Library Board had a long session last evening with all the members present except Alderman Smith who was at the city council meeting. A number of small matters were dealt with connected with the administration of the institution. Miss Cruikshank, the librarian, had a number of suggestions to make and particularly urged that more books were needed as the old ones were wearing out fast.

In her report the librarian stated that 2,859 books had been issued during October which was an average of 105.8 a day. There had been 42 new registrations, 11 of which were juvenile. Eleven borrowers had cancelled their membership leaving 2,922 now on the list.

During the month four books had been added by gift and 44 by purchase while 4 had been cancelled leaving now on the shelves or in circulation 4,527 volumes. A number of these are in bad condition and some will be sent away at once to be rebound.

A new regulation was passed by the board in regard to fines. It was decided to levy two cents a day for the first five days overdue and one cent a day afterwards. No renewals will be allowed on new fiction as there is always a long waiting list for that class of literature.

The paper scroll is about 110 inches long and 30 inches broad. The strip can be read, but only with the aid of a magnifying glass. Turning Leftovers into savory dishes

The French people—famous for thrift—used to say that they could feed six people with what the average family on this side of the Atlantic threw away.

It is almost inevitable that there should be things left from yesterday — yet the remains of roasts and steaks, the spoonfuls of vegetables, the food that has lost its taste, are no longer wasted, nor are the "scraps" turned into "stews."

The sprightly "OXO" CUBES with their supreme flavour of prime beef, have come to the rescue of those who want to be sensibly economical. Now you find "OXO" CUBES in thousands of homes and the French have changed their ideas about our extravagant cooking.

Minced Meat on Toast

2 cupfuls minced beef (left-over steak or roast)
2 "OXO" BEEF CUBES
1 cup boiling water
2 tablespoonfuls flour
1 tablespoonful butter

Mince the meat, removing all gristle and fat. Dissolve the cubes in the boiling water. Blend the butter and flour and stir quickly into the dissolved cubes. Pour over the meat and let simmer two or three minutes (long enough to cook the flour and heat the meat.) Pour over six or seven slices of hot toast.

Where any gravy is left over, use but one "OXO" BEEF CUBE dissolved in 1/2 cupful boiling water and add the gravy. Season to taste.

Our Free Cook Book tells you how to do it

Many other attractive ways of utilizing left-overs are included in the new "OXO" COOK BOOK. The recipes are simple and practical — the results well worth your trying. You will delight in the new dishes, too, that are economically made with "OXO" CUBES. Write for a copy to Oxo Limited, 355 St. Antoine St. Montreal. It will be mailed to you FREE and postage paid.

GRAIN MAN IS COMING HERE

Local Board Discusses Shipping Situation from this Port at Meeting

A meeting of the local Grain Board was held in the Mayor's office last night S. D. Macdonald, vice-chairman, in the chair in absence of M. P. McGaffery, chairman, who is in the south.

A comprehensive report was heard from C. P. Riel, who was delegated by the board to visit the prairies in the interests of grain shipments through this port.

The many phases of the situation were discussed at length. The outstanding point in the report was the contemplated visit to Prince Rupert of George McIvor, head of the Canadian Co-operative Wheat Producers, Ltd., Calgary, Alta., who controls the marketing and routing of all westbound grain of Alberta and Saskatchewan controlled by the wheat pool. After considerable discussion, and in view of the fact that only half the members of the board were present, it was decided to await the arrival of Mr. McIvor, on or about November 15, when a delegation of the board will wait upon him to place full particulars of marketing conditions through this port before him.

Those present at the meeting were S. D. Macdonald, vice-chairman, Mayor S. M. Newton, Ald. Geo. B. Casey, J. W. Nicholls, C. P. Riel, and S. Webb, secretary.

HOCKEY TEAMS ARE LINING UP

Regina Moves to Portland Holus-Solus and Saskatoon Busy Under Lalonde

VANCOUVER, Nov. 11.—With Regina out of the hockey league this year and with Portland taking the vacant franchise, there is an air of uncertainty about the outcome of the 1925-1926 season. Saskatoon seems to be strong after the players with Newsy Lalonde as the guiding hand.

Vancouver will play pretty much as it did last year and Victoria will not have many changes. Frederickson has been resigned after a period of doubt and if Frank Foyston can be induced to leave his meal business in Seattle and rejoin the team the Gogars will have a strong line-up.

The Regina club practically intact has gone to Portland but it is expected the team will be strengthened before the season opens.

The artificial rinks are not yet frozen so practices have not yet begun but everything will be in full swing soon.

SPORT CHAT

We have heard about schools being named after kings, princes, presidents, etc., etc., but Manassa, Colorado, has set a new style. They have built a new High School there and what do you think they are calling it? Jack Dempsey High School, of course, for the redoubtable world champion honored Manassa by being born there although we never heard that he attended a High School there or anywhere else for that matter. Anyway, Manassa is going to tell the world and its rising generations that it is at least the home town of a world's boxing champion.

The feeling is growing stronger that Jack Dempsey will never fight again or that if he does it will be his last appearance, win or lose, in the ring. The champion continues to have most things pertaining to himself and his movements chronicled extensively. He has recently been on a tour of Mexico but it is not said whether Estelle has been with him or not. Harry Wills, the negro, still seems to be the outstanding figure as far as a rival for Jack's crown is concerned. Young Stribling is also spoken of but it is the general opinion that he will have to gain a little more experience before he will be able to wear the world's crown if he ever does capture it.

CRITICISM OF LEGISLATURE

W. W. deGraves in Vancouver Star Has Some Interesting Impressions of Debate in House

TWIGG'S BIG GUN

Chief Use of Dick Burde to Keep Legislature From Being Dull

A Useful Barometer

Major "Dick" Burde, M.C., Port Alberni, is the barometer by which members tell whether they are getting across or not, says W. W. deGraves in an interesting article in the Vancouver Star.

Wise members who are making a speech keep their eyes on Richard. If they notice he is getting restless they speed up or else wind up and sit down, for a restless "Dick" Burde is a sure sign of a coming storm.

To see "Dick" turning in his chair, looking at the clock, and otherwise showing signs of restlessness, gives most speakers a queer feeling as they never know what the next minute will bring forth.

Usually it is very much to the point, and a member who has been wasting the time of the House in airy persiflage, has the error of his ways pointed out to him in a typical "Dick" Burde manner, which usually brings down the House.

Richard in the guise of watchdog, certainly has his uses.

A Hornets' Nest

And Major Burde can give a shrewd knock on occasion. Witness this in the House on Thursday, when H. Despard Twigg, the Victoria opposition member was doubting whether an election pamphlet he was quoting from was the work of Dugal McPherson, the new member for Grand Forks.

"I not only wrote every word of it myself, but I am proud of it," replied the Grand Forks member, who although a tyro in the House, can look after himself.

"You'll stir up a hornet's nest yet, my friend," was the warning Major Burde gave Mr. Twigg.

"I may tell the honorable gentleman that I have stirred up many a hornet's nest in my day," boasted Mr. Twigg, but the drawled "Yes, and you've often been stung, too," from the Alberni member stopped the argument.

Only Good in Parts

Mr. Twigg's much heralded attack against the government was, like a curate's egg, only good in spots. And not many spots at that.

But it served to enliven the House on more than one occasion. In fact, Mr. Twigg's speech was the only one in which interruptions did occur, the house paying H. G. Perry, the Fort George member, the compliment of letting him severely alone on Thursday, realizing that they were listening to the only constructive speech; in fact, some hearers said "the only speech" delivered this session so far.

All Disappointed

For instance there was the time when Mr. Twigg remarked that he was disappointed in "The Honorable the Premier's speech." "We all were," commented Major Burde.

"Evidently the consensus of opinion is with me," rejoined Mr.

Twigg, and after a glance around the House, the stormy petrel from Port Alberni gravely assured him "it is."

Constructive Criticism?

Later Liberal members had a chance at Mr. Twigg, who, in referring to the fact that the government had complained that the opposition had offered no constructive criticism of their administration, naively remarked: "Exactly what constructive criticism is I do not know."

The answering "hear, hear's" from all over the chamber apprised him of the effect of his admission, followed as they were by bursts of laughter.

A few seconds later he proceeded to give what he said was constructive criticism, and again the members smiled.

Premier's Audacity

Premier Oliver and Mr. Twigg crossed swords on more than one occasion on Thursday. A notable instance was when Mr. Twigg, reading from election reports, the Grand Forks by-election having especially aroused his ire, read where the premier had stated that the present government would hardly squander money, the majority of them being self-made men.

"Somebody assumed an enormous responsibility if that is true," he commented. "I wonder that you didn't say the Almighty was relieved of an enormous responsibility," interjected Mr. Oliver.

"I would like to have said that, but I haven't the audacity of the premier," admitted Mr. Twigg.

Show Us Pictures

Later Mr. Twigg was talking of the seizures of Doukhobor goods at Grand Forks following the burning of school houses.

"In case some of the members don't know the facts, let me relate them—" he commenced.

"Never mind; just show us some of the pictures," was Major Burde's interjection, and the house chuckled.

Twigg Still Persistent

Then Mr. Twigg ran foul of the Premier again when he asked for some information as to an event of which he had heard, but which apparently the Premier had not. It was an alleged promise of a \$5,000 grant to aid an irrigation district in Grand Forks.

"My knowledge of these imaginary events which are apparently exciting my friend is very small," chided the Premier.

"Oh yes—the Premier only heard of the Grand Forks election yesterday," replied Mr. Twigg, evidently stung by the manner in which the veteran parried his thrusts.

J. W. Jones, of South Okana-

gan, came to Mr. Twigg's aid. "He was not there. They asked him to keep away; it was the only chance they had of winning," he shot across the House, referring to the Premier's absence from that election. And even Mr. Oliver enjoyed the sally.

A "Dud"

In Conservative circles it had been stated that Mr. Twigg was going to fire the big gun against the government. It was November 5, and Mr. Twigg was to be the Guy Fawkes who would blow up the government. He met the same fate as the other Guy Fawkes insofar as a successful explosion was concerned. The bomb was a "dud."

BOWSER MAY BE AGAIN LEADER

Victoria Newspaper Makes Suggestion That he May Again Replace Pooley

(Victoria Times)

Two interesting features of the recent Dominion election campaign are associated with Mr. Bowser. One of them is the activity the former leader of the provincial Conservative party showed throughout the contest, campaigning in most of the principal districts and generally conducting himself as if he were still in active public life—or expected soon to be. It was not the easiest thing in the world for Mr. Bowser to do, because he was encumbered by a lot of mental reservations. It was no easier, for instance, for him to appeal to the electors of Vancouver Centre to elect H. H. Stevens than it would have been for Mr. Stevens to ask the electors to send Mr. Bowser to the provincial Legislature. Each bristles at the bare mention of the other's name. Nor was it an easy task for Mr. Bowser to champion the cause of Dr. Tolmie whom a few local Conservatives still regard as the prospective leader of their provincial party—a post which Mr. Bowser expects to resume before long. The former leader, however, had to demonstrate that he was not a relic, and he did it not only with characteristic energy, but often in his speeches with that characteristic recklessness in statement which we recall so well.

The other interesting feature associated with Mr. Bowser during the campaign was the enthusiasm with which he was greeted by Conservatives at the various meetings he addressed. He won more applause than any of the candidates of his party for

whom he was pleading. While Mr. Pooley, the present titular leader, was relegated to the wilds of Comox-Alberni and other isolated districts, Mr. Bowser was prancing about on his war horse in the big centres and getting most of the spotlight. All this means that in his own good time Mr. Bowser will come back, and coming back in his case means his resumption of the leadership of the provincial Conservative party. Napoleon is still in the saddle. No doubt the Bourbons, now trying to run his party in British Columbia, have taken due notice.

In The Letter Box

BROADCASTING HERE.

Mr. Editor. While listening in to the different broadcasting stations of the continent, the thought occurred to me that a broadcasting station, would be a fine investment for the city of Prince Rupert. It would give the city the broadest kind of publicity, as it is now, an outsider would think that the only Canadian port on the Pacific is Vancouver. There are many items of interest that could be put on the air from Prince Rupert. The farmers could be reached on the grain questions. Mining news of the north. Arrival of notable men. The amount of fish landed and shipped from the port would be an eye opener. And everytime anything could be broadcasted, the name of Prince Rupert would be used, which would keep people from forgetting that there is such a place as Prince Rupert. I submit the above idea for careful consideration.

Yours respectfully,

JAS. A. SCOTT.

CHINESE MUST GET CONSENT OF PARENTS BEFORE THEY MARRY

PEKIN, Nov. 11. — Marriages between coeds of the various government colleges and universities without the consent of parents has been prohibited.

Governor General Li Ching-lin, of Chihli province, asserted that the social custom of the West has penetrated China to such an extent that many young men and women contract marriages without parental approval. As the General viewed free marriages as detrimental to the ancient doctrines, all professors and students will be dismissed and punished without mercy if they persist in the practice.

CITY COUNCIL NOT PLEASED

Protest at Refusal of Railway Company to Build Road Between Government and C.N.R. Wharves

A letter from W. H. Toby, C.N.R. superintendent, stating that the city's request for a road between the Government wharf and the C.N.R. dock had been given full consideration by the railway company and it had been found that the traffic over such a road would not warrant the expenditure of \$1,500 in building it and therefore the request could not be entertained, failed to find the approval of the city council at last night's meeting and it was decided to make a reply to the railway company setting out emphatically but politely what the city council thought of such an attitude on the part of the railway management.

Ald. Casey declared that it cost the citizens of Prince Rupert a good deal more than \$1,500 in a year to make the detour that was necessary to go from one wharf to the other. He thought the letter was a "pretty shabby turn-down" and he moved that the city council reply to the railway company stating that it did not view the spirit of the railway company as a fair one and that it still pressed for the building of such a roadway. "Here we are," said Ald. Casey, "all of us trying our best to boost business for the C.N.R. and they turn

HOME AFTER AN EXTENDED TOUR

Mr. and Mrs. Thomas McClymont Were in Portage la Prairie Election Time

Police Magistrate and Mrs. T. McClymont returned home on the Prince Rupert this morning after a seven weeks' holiday trip. They visited in New York with their nephews; at Perth, Ontario, Mrs. McClymont's former home town; Winnipeg, Portage la Prairie and spent the past week in Vancouver.

Mr. McClymont reports farming conditions in Ontario in good shape and over that part of the prairies through which he passed by train thrashing seemed to have been completed although in Southern Alberta the situation was reported to be not so good.

At the time of the election, Mr. McClymont was in Portage la Prairie. There being no Liberal in the field for that seat, the Liberals of the city were supporting Rt. Hon. Arthur Meighen, the Conservative leader. There is a Boosters' Club in that city and they were strong for Mr. Meighen as they considered it would be best for the city to have the party leader as their member. The result was that the city of Portage rolled up a majority of over 1,000 for Mr. Meighen, this easily offsetting the majority given by the rural part of the riding to Harry Leader, the Progressive candidate, who beat Mr. Meighen in the 1921 election.

SHELTER FOR FISHERMEN WILL BE DISCUSSED AT MEETING OF JOINT COMMITTEE VERY SOON.

(continued from page 1)

suggestion along this line had emanated from the Federal Government. He thought the opportunity was too good to pass over and urged strongly that the city council at once arrange for a meeting with the boat owners and the fishermen.

Ald. Stephens felt that the matter of providing a fishermen's wharf was essentially something for the federal government to deal with. Responsibility for such a wharf he felt should not be shifted to the city council and Mr. Stork he felt was the proper person to call such a meeting rather than the city council. He was pleased to see that Mr. Stork had seen fit to take up the matter so soon after the election.

Mayor Newton was of the opinion that it would be better for local interests to call the meeting suggested rather than Mr. Stork. His hand would be much more greatly strengthened if the proposal for the fishermen's wharf came from a joint committee of the council, Board of Trade, boat owners and fishermen than if it was known as Ottawa that Mr. Stork had been obliged to call the meeting himself to formulate a proposal.

Assistance Assured
Ald. McMordie felt that, now some assurance was forthcoming of assistance from the Federal Government, it might be possible to utilize the 200 feet of waterfront for the purpose desired where before it would have been impossible for the city itself to embark upon the project.

Ald. McMordie moved that the letter be acknowledged and that the mayor call the joint committee together at an early date to reach a decision as to what was required. This was seconded by Ald. Perry and carried.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made in printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 19, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, cowboys and travellers, up to ten head.
