DAILY EDITION

FRIDAY, JULY 24, 1925.

Some Questions For Sir Henry Thornton.

Sir Henry Thornton is coming to see us again. That is good news and we will be happy to welcome him—as we would any distinguished gentleman.

The last time Sir Henry was here he inspired our hopes as to developments at Prince Rupert and left the impression that, if he had anything to do about it, this port was to have some considerable development in the immediate future. He said that he would put forth efforts at once to have two tourist boats built for the Alaska service and a hotel erected here.

What he said then was about the last we heard of these things and, to say the least about it, we are rather curious now to know what happened. That will be one of the things that it will be in order for Sir Henry to tell us about when he comes again next month. We will want him to say if we really are going to get these things and if not, why not. If he tells us "Nay" and gives us a satisfactory explanation he should not make any bad friends. There is danger, however, of him doing so if he does lead us to expect something of which there is little chance of materialization. Straight talk is what we want and, in the long run, it will not hurt us.

Everybody Likes Praise.

Nobody has ever explained satisfactorily why every human is susceptible to the laudatory recognition of his or her work. Praise has no material value yet "how we love it." There is probably nothing that inspires us to better work than commendation of our ability and efforts.

Did you ever see a restauranteur and his chef gleaming at the diners heartily devouring a good meal? The approval of their food gives the restauranteur and the cook more satisfaction than the money they receive for their labors. Eat as though you like the food and your host enjoys the meal better than you possibly could.

Observe your bootblack some morning. Have you noticed how he makes the shiny cloth snap and sing? How he rubs and rubs until he can see his own shiny nose mirrored on the toe of your shoe? He isn't working only for that nickel tip. He wants your stamp of approval on his ability as a shiner-of-shoes. Watch him gleam and sparkle when you remark "That's some shine."

Your home town merchants depend for a living upon pleasing you but it is not only because of business reasons that they smile broadly when you tell them about the tasty cakes, the durable shoes, the lovely dress, the excellent suit or whatever you purchased from them. Try if once and see if they won't try to please you even better with your next purchase. They are not unlike stage folk who can't "do their stuff" without applause. It seems foolish but it is extremely human.

Even the unemotional newspaperman is to be inspired by a word of praise though kicks are more common with him than pats on the back, even when he is doing his sincere best. Like everybody else, a newspaperman is to be won more by recognizing his good work than by seeking to condemn him for his faults.

But while you are passing round your praises and encomiums don't overlook those at home. It will help the children to do better work in school and to be more obedient at home, it will make the housework less a drudgery for the women folks and a little praise now and then makes the serious business of making a comfortable living for the wife and children a little easier and more pleasurable for the man of the house.

Rise of Mining Barometer at Alice Arm Predicted; Mines in Operation are Described

(By George Clothier, Resident Engineer)

The Kitsault River section takes in all the Kitsault valley and tributary valleys, from tide-water at the town of Alice Arm to the head of the river, about 26 miles in length and 4 miles in width.

The mining situation, which has been most discouraging for the past two or three years, due mainly to the non-operation of the Dolly Varden, shows some signs of improving. The Esperanza mine has been making small shipments all year. The Consolidated Homestake Mining and Development Company secured a bond on the Toric group and from late reports the work done is proving very encouraging.

The Kitsault River Mining and Development Company Limited, has recently been incorporated to develop some claims up the Kitsault. The Granby Consolidated has bonded the Standard group on McGrath mountain and the Silver Band group, also on McGrath mountain, has been optioned. All indications are that the mining barometer has a tendency to rise.

The Dolly Varden Railway has been kept in repair for the use of hand-cars and speeders, which is indispensable to the prospectors up the valley.

About the same amount of prospecting and development work is done each year by the resident prospectors, in preparation for the time when the inaction will be removed and the country will get its merited attention.

Esperanza Mine

The Esperanza property, consisting of three claims situated on the west side of the Kitsault, about a mile from the town of Alice Arm, is owned by Mr. Fraser, in charge at the mine, and six associates at Anyox. It has been a very consistent small shipper for a number of years, though it has never had any plant of any kind on it and never a very large crew. It has probably shipped \$100,000 worth of ore altogether. This year the production amounted to 232 tons of ore, yielding 28 oz. gold, 17,501 oz. silver, and a few hundred pounds of lead—a very creditable output. Experiments were made in shipping second-grade ore to Granby.

I made an examination of the property late last year and had all the ore dumps sampled. The object of this was to ascertain whether the average ore in the mine would make a profitable milling-ore. Heretofore the vein has all been mined and the high grade sorted out for shipment, the second grade going to the dumps. From my sampling I found that the entire vein in the present working tunnel, averaging 40 inches in width, would average \$12 silver a ton with silver at 67 cents an ounce, which I estimate will yield a profit of at least \$1 a ton after the property is equipped with compressor, small concentrator, etc. There are two ore-shoots in this tunnel, aggregating about 80 feet in length, that will average about \$25 a ton for a width of 33 inches. These ore-bodies would yield a good profit to mine and mill. The remainder of the ore would not pay to mine and mill, but would pay to mill after being reduced to get the high grade.

The dumps will average about 16 oz. silver to the ton as nearly as they could be sampled. These would yield a good profit if concentrated. My conclusion was that a small capacity mill is a necessity and warranted by the present ore on the dumps and in the mine.

Samples of scheelite were picked from the dump and tested, my sample assaying 20 per cent. tungstic acid. This could not be profitably brought up to a marketable grade by hand sorting, but in the event of a mill being erected on the property might make a very profitable by-product.

The property has not by any means been exhausted so far as development is concerned, and altogether presents an undertaking with very probable chances of success.

Toric Group

The Toric Group consists of four mineral claims—Toric, Anglo, Moose, and Lamb—situated on the east side of the Kitsault River, opposite the Dolly Varden and North Star properties. The property was staked and is still owned by the Strombeck Bros., of Alice Arm. In August of last year it was bonded by the Consolidated Homestake Mining and

The Man in the Moon SAYS—

IT was a nervy hobo who took a shirt button up to the ladies' door and asked her to sew a shirt on it.

NOW that the June wedding present season is over, we can look forward to the Christmas present season.

OF course you've heard the story about the newly arrived Englishman who took a job as a faller in the bush and chopped all around the tree. The foreman came along and asked him which way he thought the tree was going to fall. To which the Englishman replied, "Well guv'nor, I ain't no bloomin' prophet."

IT takes a man all his time nowadays to distinguish between the flapper and his maiden aunt.

A MAN can hardly be called lazy when he gets up at 5 a.m. to give him more time to loaf about the house.

THE press started when it saw the printer's devil.

A MAN is said to be mean when he cuts his own hair.

THEY had a good hundred dollars worth of monkey business down at Dayton, Tennessee, the other day.

WHEN I look at myself in the looking glass first thing in the morning I am forced to the conclusion that the only difference between a monkey and myself—well, it's just a tale,

WHEN a guy drives the ducks down to the slough it's a sure sign he doesn't know much about farming.

LAND ACT

Notice of Intention to Apply to Lease Land

In Queen Charlotte Land Recording District of Prince Rupert, and situate at Rooney Point, Graham Island, British Columbia.

Take Notice that Langara Fishing & Packing Company Limited, of Massett, B.C., occupation Packers, intends to apply for a lease of the following described lands:

Commencing at a post planted at Rooney Point, Graham Island, British Columbia; thence northerly five chains, more or less, to low water mark; thence westerly along low water mark one hundred and sixty chains; thence southerly five chains; thence easterly one hundred and sixty chains, more or less, to point of commencement, and containing eighty acres, more or less.

SURPRISE PARTY FOR MR. AND MRS. JOY JR.

Enjoyable Affair Took Place Last Night — Presentation Was Made

The home of Mr. and Mrs. Joy, Jr., was captured last night by a crowd of some thirty people, the occasion being a surprise party on Mrs. Joy in celebration of her birthday. The evening was delightfully spent in card playing, community singing and dancing which continued until the early hours. During the festivities Mrs. Joy was presented with a beautiful Community silver carving set. Jack Judge made the presentation with a few fitting remarks and the gift was suitably acknowledged by the happy recipient.

Those present included Mr. and Mrs. J. Joy, Jr., Mr. and Mrs. Alex Strachan, Mr. and Mrs. R. Arthur, Mr. and Mrs. W. Stuart, Mrs. J. Joy, Sr.; Misses Florrie and Marjorie Joy, Sam Joy, L. Lockwood, Miss Isabel Stuart, Mr. and Mrs. Jack Judge, Mrs. Robinson; Mrs. H. Haskell, Miss Aletia Johnson, Miss Elsie McEwen, R. Roland, Geo. Anderson, W. Barton and A. Woie.

**WONDERFUL
BALL GAME**

Rotary Club Beat Gyros by 14 to 13 Yesterday Afternoon

The Rotary-Gyros baseball game was not the burlesque show which many anticipated although the score was large and the younger men won by a narrow margin of 14 to 13. In all, the Gyros used four pitchers and many other substitutes on their team which brought up their total number of players to about 15. Possibly the feature of the game was Consul Wakefield's pitching for the first three innings when he had the Gyros eating from his hand. He was given good support by (Ty Cobb) Munro and (Hans Wagner) McLeod who fielded and batted well over the 1,000 mark with fine exhibitions of base sliding and base running thrown in for good measure.

For the Gyros, South Paw Nelson, and Canary Campbell held forth on the mound at first and gave good satisfaction, although they tended to be a little wild in the pinches. (Tris Speaker) McNaughton on third base lived up to his reputation and played a good game both with his hands and with his voice.

The early stages of the game was all Rotary, who easily held their opponents in check and piled up a good tantalizing score. In the third inning, the Gyros team went up in the air badly and before Manager Eddie Mann could pull his kite to earth the Rotarians had piled up a lead which was difficult for the "young uns" to overtake.

Napoleon's Army

The Gyro lineup resembled something like Napoleon's army and, apart from Lionel Holby, Leo Waugh and a few others, the whole club was thrown into the breach to stem the tide. The Rotary team was the same throughout, and when George Munro was injured in the fourth he was relieved by Sid Johnson who held down third sack up to this time. "Dazzy" Vance stepped into the box for the Rotarians when the Gyros threatened in the fourth and while he did not equal the strike out record he served up a few twisters which took the cover off the ball.

Joe Scott umpired and the teams lined up as follows:

Rotary—E. A. Wakefield, p.; G. Munro, c.; H. Little, tb; N.

**SONS OF CANADA
TASTE DEFEAT**

Sawmill Won Baseball Game Last Night by 5 to 3

The baseball game last evening between the Sons of Canada and the Sawmill was won by the Sawmill by a score of 5 to 3, it being the Sons' first loss. The match was one of the best so far this season from the fans' point of view, and Lidstone, who was in the box for the Mill, turned in one of the best games of his career. Schlenker for the Sons pitched a good game but, on the pinches, was not accorded support from his team. This accounted for some of the tallies of the mill who were ready to seize every advantage. The back stops on both teams played well and held the base runners on nearly every occasion. It was the brand of ball that called for the support of the fans and the Mill rooters did not hesitate to show their appreciation for their team's efforts. They also caused a little annoyance to the Sons' batters and, on more than one occasion, the Sons threatened to go up in the air but the steadiness of some of the older players held the team in check. The Sons were the worst offenders as far as errors were concerned and this, in large measure, accounts for the difference in the score.

The following is the box score:
Sawmill

**BOOTH SCHOOL BEAT
BORDEN STREET IN
JUNIOR BASEBALL**

Booth School defeated Borden Street School yesterday by a score of 17 to 4 in the baseball game at the Rotary Club sports. The Juniors put up a nice brand of ball and held the interest of the fans although the game was so one-sided. The Rotary Club presented the winning team with a football for use at the school grounds, and the youngsters appreciated the gift very much.

Borden Street School was represented by Albert Stiles, G. Viereck, E. Smith, G. Minns, G. Parkin, J. Bryant, G. Gillis, G. McDonald and H. Helgeson, while Booth School fielded the following team: F. Dingwell, R. Stalker, J. Nelson, E. Ratchford, Buster Hill, Doug. Stalker, R. Nelson, W. Johnson, and E. Johnson.

QUADRA TO BE DRY BOAT NOW

Well Known Vessel to be Taken
in U.S. Dry Navy

VICTORIA, July 24.—The
steamer Quadra will shortly enter
upon another adventurous phase of its picturesque career.
Few vessels in the North Pacific
can boast of such a long, active
and tangled history as this
staunch little 400-ton boat, yet
now she seems destined to attain
another important period of service.

When the Quadra was launched
in 1891 she served a short time in Atlantic waters and was
then turned over to the Canadian
government to be used in fisheries
patrol work off the British Columbia coast. In the war
against the poachers she became
more famous than the illustrious
Spanish admiral after whom she
was named because of his associa-
tion with the early exploration
of this coast.

When the war broke out the
Quadra was an old vessel, but
she was commissioned for special
war service and aided Canadian
cruisers in the capture of the
schooners Oregon and Leonor
said to be operated by Germans
in a gun-running exploit off the Mexican coast. Later on,
when the Canadian government
decided to use faster and more
modern vessels for fisheries pat-
rol work, the Quadra was ordered
sold and she eventually became
the property of liquor ex-

Sealed Tenders addressed to the under-
signed and endorsed for the "Construction
and Equipment of one (1) forty foot
motor launch" will be received up to
July 30, 1925.

Plans, specifications and form of tender
may be obtained at the offices of the Chief
Forester, Victoria; the District Forester,
Court House, Vancouver, and the
District Forester, Prince Rupert, on de-
posit of \$10.00, which will be refunded on
the return of plans and specifications.

The lowest or any tender not necessarily
accepted.

G. R. NADEN,
Deputy Minister of Lands.

MONTRÉAL WORRIED BY ITS MOSQUITOES

City Authorities and C.N.R. Co-
operating to Eradicate
Dangerous Pests

MONTREAL, July 24.—Complaints are again being made regarding the mosquito evil in the lower levels of Notre Dame de Grace ward.

Coupled with flies, gnats and other species of irritants which have their headquarters in the swamps, the fear is expressed that, being carriers of disease germs, they may be productive of an epidemic of some sort.

City authorities and the Canadian National Railway are co-operating to eliminate the mosquitoes. Some people think they come from the River Ste. Pierre, which has been a source of annoyance for some years owing to the fact that the city of Montreal uses it for sewage purposes. Protest after protest has been filed by Alderman Angrignon of St. Paul ward and Provincial authorities have ordered the city to improve the sewage in this section of the city. Very many houses still boast ancient facilities.

CANCER VACCINATION IS NEW POSSIBILITY

This May be Result of Experi-
ments Conducted by London
Doctor

LONDON, July 24.—Vaccination against cancer may become possible following further experiments by Dr. W. E. Gye, who recently announced the segregation of the cancer germ.

Dr. Gye, who, according to reports, has made a vaccine from the cancer virus, is now attempting to inoculate animals to make them immune against the disease. If the experiments are successful, it is understood that, although the treatment will not be a cure, it will be a preventive and immunity can be obtained from the danger of smallpox and other maladies.

It is declared that the inoculation of mice has resulted in the rodents' immunity.

It is also reported that Dr. Gye and Dr. J. E. Barnard have seen and photographed smallpox germs.
