PREMIER KING FIELD SPEAKER

Delivered Brief Address at Kicking Horse Pass Railway Town Yesterday Morning

FIELD, B.C., Oct. 3.—Stopping off here for a short time while on his way to Vancouver, Hon. William Lyon Mackenzie King, premier of Canada, delivered a brief address yesterday morning. He mentioned the greatly diversified interests of Canada and the necessity for all policies being imbued with the idea of serving Canada as a whole. The premier declared that all the wealth of the Dominion came from four basic industries and, therefore, the aim of the government had been to ent taxation as far as possible on these industries.

"What the Liberal government is trying to do," he added, "is to reduce the cost of living by reducing taxation."

Cowper is Convicted of Defamatory Libel Janet Smith Articles

VANCOUVER, Oct. 3.—J. S. Cowper, editor of the Tribune, a weekly publication, was last night found guilty by the Assize Court on a charge of defamatory libel. Before returning their verdict the jury deliberated several hours. Cowper was remanded for sentence but bail was granted.

The charge arose from articles appearing in the Tribune in connection with the death of Janet Smith, complainant being F. L. Baker, in whose employ Janet Smith was at the time of her death.

Giving evidence in his own defense, Cowper declared he published the comments based on a statement made by one Barbara Orford, who professed to have clairvoyant powers.

No notice of appeal was given by defense counsel who applied for his client's liberty as soon as the verdict was given. Mr. Justice McDonald asked if the prosecution had any objection and B. L. Maitland, representing F. L. Baker, replied: "We are not anxious to exact retribution for the crime. My Lord, my clients are more concerned with clearing their names of scandal and flushing the tongues whose wagging has done so much harm. I am perfectly content to follow the suggestion of the defense."

STORK MEETING GREAT SUPPORT

ANYOX, Oct. 3.—Fred Stork, Liberal candidate for the federal constituency, accompanied by George Casey, is holding public meetings here and is getting a good reception. Tomorrow he will speak at Premier mine and Monday will address a meeting at Stewart.

Speaking at Alice Arm at a well-attended meeting, Mr. Stork outlined his policy locally and also dealt with national questions, including the tariff, showing that the Liberal policy was the only one that made for real progress.

Everywhere Mr. Stork has gone so far in this district he has met with unexpected support. He has been surprised at the way in which not only Liberals but independents have rallied to the Mackenzie King banner.

Board of Trade Hears of Efforts to Clear Way for Shipping Grain Through Port of Prince Rupert

At the regular monthly meeting of the board of trade held in the council chamber last evening, vice-president J. H. Pillsbury in the chair, M. P. McGaffery reported on behalf of the grain committee, of which he is chairman, that the grain committee would operate the elevator but would not go out for business. Action of that kind would have to come from brokers or from the citizens of Prince Rupert.

One of the chief difficulties just now Mr. McGaffery found, was the lining of grain ships.

George Bushby Gives Address at Smithers Saying Prince Rupert Not Ready for an Elevator Yet

George G. Bushby, Conservative candidate for Skeena riding in the forthcoming Federal election in speaking at Smithers this week, stated that the elevator at Prince Rupert was never conceived with the idea of helping the Bulkley Valley or Prince Rupert but was merely a political sop to weld the support of the Progressive Party. This country, he said, was not ready for an elevator.

Mr. Bushby's speech at Smithers was his first that has been reported in the press since his campaign opened. The Interior News, the Smithers paper, reported it as follows:

In opening his address, Mr. Bushby stated that he had endeavored to gather some figures for his political speeches, but had given the attempt up, jumping into railway matters, he stated that the road was doing the very best it could under the circumstances and the recent tilt of \$15,000 to Sir Henry Thornton's salary was perfectly justified. Three years was not long enough for Sir Henry to show what he could do, and he was quite in favor of the action of Premier King in re-organizing Sir Henry to carry on with the National Railway.

Economy His Motto

Mr. Bushby took up the four main items entering into financial problems of Canada, stating that the debt was \$2,422,000,000 calling for an annual interest of \$312,000,000. The revenue was \$314,000,000 and the ordinary expenses but \$16,000,000 less, and he claimed the balance was all that was being applied to interest charges, and the great millions of interest was being piled up under the head of consolidated debts. He claimed that these huge interest charges could only be paid by cutting expenses, which had been run up to big figures by both Liberals and Conservatives alike. This, he claimed, must stop, as there were a lot of people who did nothing but live off the government. In metaphor, Mr. Bushby reminded the audience that when individuals wanted to own a car and could not afford a limousine.

THE MAN IN THE MOON

A POLITICIAN is known by the hangers-on that surround him.

AN interesting thing to investigate would be who put the shine on a nose first?

HOW would a girl employ her time if she did not have to powder her nose?

When Gertrude tries The shine to cover It's a sign she wants A shiekish lover.

When Gertrude looks Into the glass She thinks she sees A sweet young lass.

But Gertrude often Makes mistakes Because advice She never takes.

So Gertrude if You would excel Just tell the shieks To powder their noses.

JAKE wants to know how long it will be before all the men wear side whiskers and balloon trousers.

WHAT the girls all adore In a shiek I deplore. But it's plain they will win in the end.

If its whiskers they ask Who should take them to task While the boys all have money to spend.

THE coal dealers are beginning to feel happy. Coal is in demand once more, at least part of the time.

Gold Extraction At Massett.

The process of gold extraction at Massett seems to have been a success. The people who have been conducting the experiments there have stuck to the job in spite of adverse criticism and discouragements that would have daunted most people. If they have won out everyone will be pleased to hear it. Anything that benefits anyone in this part of the country tends to benefit the whole.

Mackenzie King Gets Good Reception.

According to the reports sent out by the Canadian Press, Premier Mackenzie King is meeting with a splendid reception everywhere he goes. He is rapidly gaining that personal magnetism that was such a feature of Sir Wilfrid Laurier and which made his administration so successful. He is still a young man for the position but Sir Richard McBride was also young when he first attained power, yet his regime was a great success.

There is a great resemblance in type between Mackenzie King, Sir Richard McBride, Sir Wilfrid Laurier and Sir John A. Macdonald. Neither of them was the least like Hon. Arthur Meighen who aspires to the leadership.

Not Like To See Logs Go South To Vancouver.

We do not like to see Queen Charlotte Island logs going south to Vancouver. There is nothing anybody can do about it unless it is to start another mill here and buy the logs. People have a perfect right to sell their logs anywhere they wish as long as they do not export them. At the same time there ought to be some way in which the sending of the choice Queen Charlotte logs to the south could be prevented.

McCaffery Doing Good Work For City.

M. P. McCaffery, chairman of the grain committee of the Board of Trade, is doing some excellent work for the city in finding out what difficulties are in the way of shipping grain through this port and endeavoring to have the difficulties overcome. It is public spirited work for which he will receive no pay except the consciousness of service well rendered.

A lot of people here give their services to the public in that way and they get little recognition. The work is accepted without question and a few people who do nothing are often apt to be critical of the way in which it is done. Members of the board of trade all pay a fee for the privilege of being allowed to serve the city gratis and many of the members give much time and effort to public affairs and usually they are criticized for doing it.

Many People Live For Letters.

People today hardly realize what an important factor the post office is in the life of the community. Many people live for the letters they receive. Time is measured by the distance between mails. For a few cents friends are able to keep in touch with each other though living far distant. Friendships are kept alive and lovers exchange tokens. Truly the post office is a great institution.

BUCKY HARRIS' OPPORTUNITY

Young Manager of Washington Senators May Enter Baseball "Hall of Fame"

WASHINGTON, Oct. 3.—Stanley Harris, the "boy wonder," has in his grasp the opportunity to prove himself one of the five greatest baseball managers of all time.

In 24 years of world's series history only four men—famed for many seasons—have captured the national games' greatest title two years in succession. They were the late Frank Chance with the Chicago Cubs in 1907 and 1908, Connie Mack with the Philadelphia Athletics in 1910 and 1911, Bill Carrigan with the Boston Americans in 1915 and 1916 and John McGraw with the New York Giants in 1921 and 1922.

Today Harris stands with one victory to his credit, the conquest of the Giants a year ago, and another world's series in the offing, this time against Pittsburgh. But regardless of the outcome in the battle at hand the youngster will see many years of service before he attains the record of McGraw, the greatest campaigner. Nine times McGraw has taken his warriors into the little fight and has been victorious thrice.

Winners and Losers

Mack also has gained three conquests in the baseball classic and has lost two, one of them to McGraw. The chief of the Athletics has outwitted the Giants on two occasions.

Hughie Jennings, now Giant coach, and McGraw share the record of losing three world's series in succession. Miller Huggins of the Yankees has figured in three title affairs and won one.

Winning and losing managers and clubs since 1903 follow, winners first:

- 1903—Collins, Boston Americans; Clarke, Pittsburgh Nationals.
- 1905—McGraw, New York Nationals; Mack, Philadelphia Americans.
- 1906—Jones, Chicago Americans; Chance, Chicago Nationals.
- 1907—Chance, Chicago Nationals; Jennings, Detroit Americans.
- 1908—Chance, Chicago Nationals; Jennings, Detroit Americans.
- 1909—Clarke, Pittsburgh Nationals; Jennings, Detroit Americans.
- 1910—Mack, Philadelphia Americans; Chance, Chicago Nationals.
- 1911—Mack, Philadelphia Americans; McGraw, New York Nationals.
- 1912—Stahl, Boston Americans; McGraw, New York Nationals.
- 1913—Mack, Philadelphia Americans; McGraw, New York Nationals.
- 1914—Stallings, Boston Nationals; Mack, Philadelphia Americans.
- 1915—Carrigan, Boston Americans; Moran, Philadelphia Nationals.
- 1916—Carrigan, Boston Americans; Robinson, Brooklyn Nationals.
- 1917—Rowland, Chicago Americans; McGraw, New York Nationals.
- 1918—Barrlow, Boston Americans; Mitchell, Chicago Nationals.
- 1919—Moran, Cincinnati Nationals; Gleason, Chicago Americans.
- 1920—Speaker, Cleveland Americans; Robinson, Brooklyn Nationals.
- 1921—McGraw, New York Na-

SPORT CHAT

Basketball players and fans of Prince Rupert will foregather next Monday evening in the City Hall for the annual meeting of the local Association at which preliminary plans for the big winter sport in this city will be formulated. It is expected that, like last year, there will be a large attendance. The prospects for basketball this winter are promising. The 1924-25 season was a very successful one in all the leagues and the teams, on the whole, had good material and were evenly matched so that interest was kept up till the fall of the season's curtain. Again there seems to be plenty of material on hand for the forthcoming season, new arrivals taking the places of those who have left during the summer. A lot depends on the way things are started and it is to be hoped that all who are interested in the sport will turn out Monday night to help things along. The business will include the usual routine matters of electing officers and reading annual reports, Jack Campbell is the retiring president and a new secretary will have to be elected, Jimmie Marks having left the city since last season.

The accidental killing of William James Richardson when mistaken for a deer by Charles Woodward in the Victoria district this week is another example of how easily hunting accidents may happen and a warning that every care should be observed by hunters, even if what may seem undue care means the losing of game. Woodward's story as told at the inquest, was to the effect that he had been hunting alone on Sunday morning in the Highland district. Towards noon he jumped a deer but could not raise his rifle quickly enough to take a shot at it. A moment later he had seen what he had taken to be another deer emerging from the same place. As this second animal doubled back again, Woodward fired at it and the bullet sped through the underbrush and hit Richardson in the left leg just below the groin. Woodward had done his best to staunch the flow of blood from the wound, Richardson fainting as the former tore away the clothing from the spot where the bullet entered. Failing to attract attention by shouting for aid, Woodward had set off through the bush in search of a telephone but Richardson died before he was able to return with help.

Capital Under Cover

The condition of Canada with its large bank deposits and small loans was an unflattering sign that capital was hiding because it did not know what was coming next. Mr. Bushby defended the Conservative plan of tax-exempt bonds, saying it was necessary to induce Canadians to purchase the bonds. Today most development money was from outside the Dominion, and while work was provided for some Canadians, the profits and dividends all went to enrich other countries.

Roads to Mines

The candidate claimed the Federal government should be induced to build roads to mining properties. This, the speaker said, was also Hon. Mr. Sloan's pet idea and he did not want to take credit for advancing the suggestion, but he felt that the government could well assist for the taxation to be derived when the mine started shipping. He told of the isolation of the Francois and Ootsa country and thought the government might well lighten their loads by building telephone lines to that area.

GEORGE BUSHBY GIVES ADDRESS AT SMITHERS SAYING PRINCE RUPERT NOT READY FOR AN ELEVATOR YET.

(continued from page one) they bought a Ford; when they could not afford a Ford, they walked; and he thought the government of Canada should jolly well walk. He certainly would see that expenses were cut, Canada, he said, was the only country that had not cut taxation since the war, and he suggested that the U.S. idea of a bureau of budgets to cull the extravagances be followed. Mr. Bushby pointed to the fact that all wealth comes from the soil as the base for his denunciation of the Liberal policy

of exporting raw resources. In dealing with pulp, however, he stated that it was quite proper to ship out the pulp where such was necessary, but not otherwise. Logging systems were an extravagance, as also was the plan of shipping 815 lumber to the United States to be whipped into shape for sale at \$100. Canada's copper is all shipped to foreign countries for refining, he said, and he deplored the robbery of the copper deposits by miners, as the copper could not be replaced. Shipment of grain through the United States was another crime.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

Halibut landings this week have been light while the prices offering on the Fish Exchange for both American and Canadian first and second class catches have been well maintained. The cause of the reduced volume of halibut is given by incoming skippers as due to a scarcity of fish for one thing and also due to the fact that there has been quite a bit of "bunching" up of the boats of both fleets recently. This week Americans have received as high as 15c and 16c for first class and 6c and 7c for second class. Canadians have been drawing down around 12c and 11c for first class and 7c and 8c for second class fish.

With the fall weather approaching, a number of the smaller craft, which have been engaged in the salmon fishing and other cannery work, have put into port and the Cow Bay floats are becoming congested in consequence. The waterfront shipyards have been receiving a number of repair orders and nautical business generally is picking up rapidly.

Last Sunday was the busiest day of the season at the Prince Rupert Yacht Club floats. The beautiful sunshine was taken full advantage of by every member who could nurse a spark of life out of the engine and the floats were depleted of craft from early morning until late at night. The majority of boats were out on hunting expeditions in various localities while quite a few intrepid picnickers were over to the Salt Lakes and adjacent beauty spots.

Arrivals
 From Monday noon until yesterday noon the following schooners had marketed catches this week: American—Gladstone, Ghum, June, Arctic, Majestic, Wahash, Reliance, Rainier, Kanaga, Brisk, Betty, Polaris, Allon, Unimak, High Gill, Wave, Western, Mars, Eureka, Valorous, Gladys and Eastern Point.
 Canadian—Pair of Jacks, Fanny F., Chief Zibassa, Rose Spit, R.W., White Lily, Ternan, Alken, Verna, N. & S., Fisher, Dolphin, Margalice, Kaien, Ingrid H. and

recently about the Northern Lights in the sky and the beauties thereof, but information has come to hand which makes the Whiff man think they were not the Northern Lights at all at all. It is not generally known that Alex. Macdonald, the man who put the steam in steam laundry, has had a new umpteen candle power searchlight fitted on the launch Vaquero but such is the case. Now it is quite feasible the brilliant lights seen in the sky were just reflections from the new searchlight, and if so, we thank Alex for the entertainment nightly.

Doc Saved the Beer

It is with regret we report an accident to our old friend Doc Clapperton, and an accident that does not happen to a man every day in his life. While assisting to unload beer from the C.P.R. boat last Saturday one of the barrels became unmanageable with the result that it rested rather forcibly upon Doc's left pedal extremity. Doubtless the softness of Doc's foot prevented the barrel from becoming damaged and thereby spilling any of the valuable liquid but just the same the accident is much regretted.

What's in a Name?

TIMES have changed since the Bard of Avon put his famous query, "What's in a name?" In Shakespeare's day the most successful merchant was the biggest skinflint. His name meant nothing. You entered his shop with your eyes open and your fingers crossed. You haggled and you bargained. And if you were especially astute, perhaps you retained your eye teeth.

Modern business ideals and modern advertising have wrought the change. Today, the biggest asset of any successful business is a good name built up through fair dealing fair policies and a good product.

Advertising creates reputation. Makers of advertised products and merchants who sell these products frequently value the names at millions of dollars. They cannot afford to jeopardise the worth of these names by selling anything but good merchandise of full measure and fair price.

A merchant or manufacturer does not dare to advertise wares that will not give service. He has his good name to protect.

Bank on this. Advertised goods must be as advertised. That's why it pays you to deal with advertisers and to buy advertised goods.

Advertising is your protection. Read it

MISSING STEAMER IS SAID TO BE OPERATING COAST OF CALIFORNIA

VICTORIA, Oct. 3.—The Belgian steamer Gertrude, posted in Antwerp as missing with a \$1,000,000 liquor cargo, was reported only ten days ago as operating off the southern California coast, according to a Los Angeles dispatch. The Gertrude has been refueled from Vancouver, and is now attempting to unload her cargo, the report says.

Leaving Antwerp for Vancouver on February 22, the Gertrude passed up the Panama Canal on March 27, since which time nothing has been heard of the craft. Her owners believed the vessel had been lost, but inquiries made at local and Vancouver exporting houses proved their fears were unfounded.

Movements of the Gertrude were watched from the time she sailed from Antwerp until she passed through the canal, it being taken for granted by United States coastguard officials, because she sent out no wireless movements, that she was a rum-runner. Where she discharged part of her cargo, and what the future movements of the Gertrude are to be, is a matter of mystery in local shipping circles, although it had been reported that she would change her registry on arrival at Vancouver and enter the liquor carrying business.

The Norwegian motorship Lillehorn, which also left Antwerp about the same time as the Gertrude, with a cargo of liquor, and bound for Vancouver, has

ROAD NEEDED TO ELEVATOR

At the meeting of the board of trade last night P. M. Ray of the Hecate Straits Towing Company drew attention to the need of a road to the elevator. Ships coming there would have to be provisioned and it would be difficult getting to them by water.

F. G. Dawson said the city and the railway were getting together in regard to the matter.

J. H. Pillsbury said it would take time to build the road and it should be done with the least possible delay.

M. P. McCaffery was appointed to take the matter up with the city and the railway company.

QUO VADIS PICTURE WAS STAGED IN ROME

Most Realistic Picture Ever Made is to be Shown Tonight

The picture Quo Vadis, which was to have been shown here last night but did not arrive is to be shown tonight, is said to be the most realistic ever seen here.

The picture was staged in Rome on the actual scenes of Nero's tyrannies during his cruel reign in the middle of the first century. To get proper realism it is said that the producers obtained permission of the Italian government to rehabilitate many of the ruins of ancient Rome—the Palatine, Circus Maximus and others. These rehabilitations, of course, were

merely temporary, and were removed immediately following the completion of the scenes, in order that the ruins might remain in their classic contact.

But the pictured effect is said to be the most realistic ever camerized. The Rome that ruled the world lives again. Nero, the tyrant, as cruel and inhuman as he was vain, casts beautiful slave girls to the fishes to delight his banquet guests; burns Rome that he may gain inspiration for his insipid verses; and turns half-famished, raging lions upon the Christians to hide his incendiaryism.

Softening the deeds of the emperor's inhumanities is the tender love story of Vinicius and Lygia, and the supreme faith of the Christians, who face the most terrible deaths rather than yield their beliefs to their pagan persecutors.

Emil Jennings, noted for his characterizations in "Passion," "Deception" and others, has the role of Nero and is said to have achieved the pinnacle of artistry in its portrayal. He is supported by a cast of 20,000 men, women and children.

CITY WITHOUT ANY FLAPPERS

Assistant Overseer of Zion City Would Establish Another in B.C.

VICTORIA, Oct. 3.—It was Henry Drummond who wrote of a city without a church but Charles Caldwell, formerly of Stewart, well known throughout British Columbia, proposes to establish in this province a city without a flapper. It is to be a branch of the famous Zion City established by the "apostle" Dowie, where smoking, drinking, swearing, lipsticks, short skirts and immodesty are banned.

C. F. Caldwell is assistant to the head overseer of Zion City.

Mr. Caldwell was known in British Columbia in the early days as one of the leading mining men of the interior, and later of Stewart. He became converted, however, and joined the faithful at Zion. His abilities as a talker resulted in his rise in the organization and he became assistant overseer to the great John Alexander Dowie.

He says a branch of the Zion colony would do well in British Columbia and would do this country a lot of good and it has been his worldly ambition to lead out from the old flock the nucleus of a new colony here. He is at present looking over general conditions in the province.

HIJACKED A CAR OF LIQUOR HE SHIPPED

Authorities Looking for Man who Fleeced Seattle Businessmen on Illegal Deal

SEATTLE, Oct. 3.—Prohibition Administrator Lyle is searching for a Seattle man who fleeced four businessmen out of \$10,000 put up by them to finance the smuggling of a freight car of liquor from British Columbia.

The authorities seized the car here two weeks ago.

The man obtained more than \$2,000 from each businessman and then went to Canada and succeeded in getting 276 sacks of liquor concealed in a freight car, billed as shingles.

When the car arrived at Granite Falls, 50 miles north of here, the man unloaded all but six sacks and then sent the car to Seattle. It is presumed he intended to tell his associates that the car had been hijacked while standing on the tracks.

The authorities found six sacks and a large space between the shingles where the hijacked cargo had been.
