

# HON. DR. KING DEFENDS PRINCE RUPERT

## AUSTRALIAN ELECTION CAMPAIGN TO DEAL WITH UNAUTHORIZED STRIKE

### Defends Spending Money on Port of Prince Rupert

Hon. J. H. King tells Vancouver people this will become outlet for Peace River country some day

VANCOUVER, Sept. 19.—Following a custom, which he has established during the present election campaign, Hon. J. H. King, minister of public works in the Mackenzie King government, spoke a good word for Prince Rupert yesterday in the course of an address before the Laurier Club in the Hotel Vancouver. Dr. King was the guest of honor on that occasion and he took advantage of the opportunity to defend expenditure of the country's money in developing the port of Prince Rupert. He said the government was amply justified in its action. Some day Prince Rupert would be the outlet for the Peace River country.

### BOY DROWNED SELF RATHER GO TO SCHOOL

Eleven Year Old Lad Carried Out Threat to Commit Suicide

KENTVILLE, N.S., Sept. 19.—Threatening to drown himself if his father failed him to attend school Edward Yuditto carried out his threat and his body was found floating in the river eight miles from here. The boy who was only eleven years old confessed his intention to his brother Wednesday.

### MRS. SMITH ON TARIFF BOARD

Prominent Vancouver Lady Given Important Post Under Federal Government

### ELWOOD BARD IS COMMITTED

Local Youth is Charged with Theft of \$75 from Person of Hindu in Hotel Room

Charged with robbing Hockin Singh, a Hindu, of \$75 in a room of the Empress Hotel recently, Elwood Bard was committed for trial in the city police court this morning by Stipendiary Magistrate H. F. McLeod on a charge of theft from the person. Accused will come up before Judge F. McB. Young at the first of the week for election.

Witnesses at the preliminary trial this morning were the Hindu who identified Bard as the man who robbed him; John Robertson, who told of having seen Bard with a gun shortly before the time of the alleged robbery; Constable George Grate who arrested Bard on identification of Hockin Singh but found only \$3 on his person, and Mrs. A. M. Ross, who entered Hockin Singh to the hotel, called the police on his complaint but saw nothing of accused on the premises. The case was prosecuted by City Solicitor E. F. Jones and Miss Blanche Curtin acted as court stenographer.

### Election in Australia to be Fought Over Question of the Supremacy of Their Parliament

MELBOURNE, Australia, Sept. 19.—A general election is pending in Australia, the Prime Minister last night announced. Parliament will be dissolved shortly, and it is probable the election will take place on November 14. The seamen's strike, which is not authorized by the unions to which the men belong and which is demoralizing the shipping of Australia, seems likely to be an issue in the general election campaign. Premier Bruce says the issue is whether Australia is to be governed by parliament under a democratic constitutional form of government or whether their authority is to be flouted by irresponsible extremists attempting to abdicate to themselves an autocratic dictatorship over the country.

### Fair at Terrace Growing to Keep Pace with Development That Very Fertile District

TERRACE, Sept. 19.—While as yet official returns have not been made up, owing to the illness of Secretary J. B. Agar, Morse Hatt, president of the Terrace Fall Fair Association, is confident that the 1925 Fall Fair was even more successful, financially, than last year. Splendid weather conditions prevailed throughout the day and a large crowd turned out to view the exhibits.

A large room on the lower floors of the G.W.V.A. Hall was filled to the doors with a display of vegetables, field roots, grains and grasses, etc., which certainly reflect great credit on the growers and acclaim the soil in this district very well suited to the growing of these products. So large was the display, and so keen was the competition, that it was 2 p.m. before the judging was finished and the hall open to the public.

Probably the display of tree trunks in the auditorium upstairs did not equal that of last year, owing to the fact that the fruit crop this year was seriously depleted by late spring frosts, however, there was a good display and what was shown was of a very high order and demonstrates beyond a doubt that this is a real fruit growing district. A profusion of cut flowers, very artistically arranged, covered one table the full length of the long hall and almost every kind and color of flower one could call to mind was there exhibited.

In the home cooking department the Terrace housewives demonstrated their skill in the culinary art to great advantage and the tables looked very empty indeed.

There was a small display of needlework, very good in quality, but in no way demonstrating the ability of the ladies along this line, and it is to be hoped that in another year more interest will be taken in this section.

A display of school work sent in by Dome Creek School took away some prizes from the local youngsters, but the home school made a very good showing.

Mineral exhibits proved quite an attraction, while photography, paper work, wood carving, etc., were also on display. Outside, poultry, Belgian hares, swine and cattle were exhibited in their several classes. While the entries in swine and cattle were not numerous they go to show that the country is gradually being stocked with a good grade of stock, and each year should see this section of the fair greatly improving.

Under fair board management, luncheon, in the form of a bean feast, was served on the main floor of the building and was well patronized. Afternoon tea was also served and a grand ball in the evening wound up the day. Music was furnished by Mrs. Atwood's four piece orchestra and a very large crowd danced until the wee sma' hours. Lunch was served at midnight by the fair board.

### OFFICIAL EXAMINING CLAIMS AT SMITHERS

SMITHERS, Sept. 19.—To make an examination of the Schurfer claims on Hudson Bay Mountain, R. W. Rea of Premier, B.C., geologist with the B.C. Silver Mining Co., arrived in town Tuesday evening and left for the mine next morning accompanied by A. C. Garde. Chas. Banks and C. B. North of this company visited this prospect several weeks ago and seemed greatly impressed with the showings.

### BLACK WHALES ARE BREEDING

Unusual Condition Found This Year in Alaskan Waters: New Station to be Erected

SEWARD, Sept. 19.—Fine black whales are giving birth in Alaskan waters for the first time on record, according to a report received from the Akutan whaling station, which says nine out of ten of the females caught this year were carrying embryo young.

Private advices here state that the American Pacific Whaling Co., which has been dismantling the Gray's Harbor station, will establish the second largest depot of its kind in the world at Kodiak Island.

### MEIGHEN DID NOT SAY IT

Denies he Advocated Increasing Railway Rates in the West or Anywhere

CHARLOTTETOWN, Sept. 19.—Positive denial of news reports that he had advocated that railway rates be increased for the west or any other part of Canada was made by Hon. Arthur Meighen here last night. He wired Mr. Toimie at Victoria to this effect stating: "The Liberal campaign seems chiefly directed against me to misrepresent my statements."

### JAP HALIBUT FOR CANADA

Haruna Maru Brings First Shipment of Frozen Fish to Vancouver Today

VANCOUVER, Sept. 19.—Although millions of pounds of halibut are caught annually on the Pacific coast, the steamer Haruna Maru, reported due here tomorrow, is said to be bringing several thousand pounds of frozen Japanese product to local markets. This is believed to be the first Japanese halibut brought to this continent.

#### West Must Insist On Railways Complying.

It looks just now as if the railways were governing Canada and against any such conditions of affairs the West must put in such an emphatic protest that a change is bound to take place.

There has been talk enough about the western freight rates. The demand has been made that they be equalized and the Government of Canada and the Board of Railway Commissioners have both ordered that this be done.

There has been enough playing with the West on the part of Montreal and the East generally. If we cannot get decent treatment it is time we advocated more vigorous measures.

Prince Rupert is vitally interested in this freight rates case. It is not a matter of politics. It is simply business. We shall have to talk so plainly pretty soon that there will be no mistaking what we mean.

#### Flour Mill For Prince Rupert.

A Vancouver man writes suggesting the establishment of a flour mill here. He gives reasons why he thinks it should be successful. With his proposal we agree most heartily.

#### Pupils In Schools Indicate Permanency.

When the schools reopened after the holidays it was found that there were about 1,050 pupils attending in this city.

#### Everybody Use North B.C. Produce.

Prince Rupert people should make a point of buying Northern B.C. produce. This is the natural market for the potatoes and other products of the farms of the interior.

Very soon Bulkley Valley beef will be coming in, but in the meantime there are potatoes of the best quality and the way to build up the north is to encourage those who are giving their lives to the work of developing it.

The government has done a great deal toward helping Prince Rupert but we must do something ourselves and there is no way we can co-operate to better advantage than by insisting on being given potatoes grown in Northern British Columbia.

#### Getting In Touch With The Unseen.

A despatch published yesterday telling about Conan Doyle receiving spirit messages, caused a good deal of discussion locally. A great many are inclined to scoff at the idea of such messages being received while others are firm believers in close contact between the seen and the unseen.

Those who listen to radio messages coming from points thousands of miles away realize that there may be spirit messages also pervading the air which need only the proper receiving apparatus to enable us to hear them.

It is easy to scoff. The ignorant have always done that. There were men who scoffed at the automobile until they were knocked down by one.

## SHIP PRODUCE IN CAR LOTS

Marketing Centre Being Established at Smithers and Effort Made to Push Sales

SMITHERS, Sept. 19.—At the regular monthly meeting of the board of trade in the Municipal Office Monday night, Wm. Doodson of the firm of Sealy and Doodson, outlined for the meeting the plans of his firm for the establishment of a centre to deal with the marketing of farm produce of the Bulkley Valley.

Mr. Doodson said the farmers throughout the district had been requested to supply him with a list of the produce they will have for sale his fall, and he has communicated with the wholesalers in the business centres asking that they give him a chance to show that the produce of the Bulkley Valley is equal or better than the products of other districts.

The plan is to have warehouses at Smithers and ship from here in car load lots, and a start has already been made on the erection of the first building which will be twenty-four by 60 feet.

The board gave their endorsement to the project and expressed a willingness to give their assistance where needed.

#### THE MAN IN THE MOON says:

THE taxes that worry me are the ones I have to pay. I do not worry about the inheritance tax.

FAITH is a great thing. It is faith that enables many of us to live beyond our incomes.

LOVE is blind, but that is why a lot of us were able to marry.

#### Ten Years Ago in Prince Rupert

A pot of money containing \$100.01, donated by George Frizzell and raffled by the Red Cross, has been won by David Thompson.

Adair Carss injured his leg while out hunting at the head of the Inlet today. He fell on his hunting knife.

W. J. Greer won the Exhibition gold medal for shooting at the McNicholl Creek range today. His score was 87 and that of Joe Jack, who won the silver medal, was 82.

## CLARES HECLA

### The Furnace that Saves One Ton in Seven

There's no place like home on a winter's night—if the home is heated by the Hecla Furnace—for inside is the cosy, warming glow of perfect heating—the right temperature for health and good spirits.

The winter has lost its terrors for the whole family—no more colds, chills, frozen pipes—even the flowers on the windowsills thrive in the beneficent, humid warmth provided by the Hecla.

The steel ribbed fire pot provides an extraordinarily large radiating surface—extracting all the heat from the coal. Its fused joints prevent leakage of gas and dust into the rooms. Its individual triangular grate bars enable you to trim the fire and dispose of the ashes without losing any of the good live coals. Its circular water pan humidifies the heat to the correct degree for health.

Altogether you will find, as thousands of users have, that the Hecla is the most satisfactory, as well as the most economical heating unit you could procure.

The complete story of the Hecla will interest you. Our dealer in your neighborhood will tell you—or if you cannot locate him, mail the attached coupon.

## FLOUR MILL NEEDED HERE

**Vancouver Man Writes Suggesting Efforts be Made to Secure One**

The Daily News has often suggested the possibility of a flour mill in Prince Rupert. This needed mill is noticed on the outside even more than here. A Vancouver man, Bruce Brown, writes suggesting that efforts be made to secure one. Here is what he says:

Editor, Daily News:

As one who has followed the development of your city from its beginning, I may be pardoned for making suggestions which may benefit the city. First, I would advocate a strong effort being made to secure an up-to-date flour mill. I see no reason why such a venture should not pay, provided they turned out a first class article. It is cheaper to ship wheat than flour and they would have access to the finest wheat in the world. What is the use of importing flour, bran, etc., from Vancouver and Edmonton when it can be manufactured in Prince Rupert?

The city is well located for a distributing point. The north country, the Islands, east as far as Prince George, and last but not least, the city itself.

Another thing to be considered is, what freight is it, the big Oriental steamers require for the bulk of their load. From observation I would say, saw logs, lumber, flour and wheat. Prince Rupert can furnish all except flour. I would suggest a site for a flour mill be set apart on the waterfront. I would also suggest that Prince Rupert, Edmonton and Vancouver papers be advertised in, calling the attention of those interested in the milling business to the opportunity that exists for a flour mill in Prince Rupert. Nowadays a city is like any other big business, what it wants it must go after and the best way to make known your wants is to advertise.

BRUCE BROWN.

## NERVOUS WRECK FROM BOWEL TROUBLE

Ten Years of Suffering Ended by "Fruit-a-tives"

Mr. F. M. Sullivan

"For over ten years, I was a complete nervous wreck, owing to severe Bowel Trouble and Acute Indigestion. Though a big man, I could hardly lift the smallest weight without suffering pain. As a last resort, I started using "Fruit-a-tives." Like a cloud, the nervousness left me after using the first box. I use the tablets according to directions and follow carefully your diet rules. The result is, today I am free of Indigestion and Bowel Troubles, and cannot recommend the wonderful Fruit Treatment too highly."

Thus writes Mr. Sullivan of 19 Pine St., Geneva, N. Y. "Fruit-a-tives" are made from intensified juices of luscious fruits — there is no other medicine like them. 25c & 50c at all dealers.

## FLOUR MARKET IS DECLINING

District Potatoes and Vegetables Now Filling Local Demands — Price and Quality Good

The flour market has declined \$1.20 per barrel of 196 pounds during the past two weeks. The market is due for further declines as it is anticipated that the 1925 wheat crop will be considerably better than last year's.

Potatoes from the interior country are now coming in sufficient quantities to supply all local demands. It should not be necessary to import from Southern B.C. Local consumers should demand Northern B.C. potatoes and vegetables thus keeping their money at home. Prices are lower than imported stocks and quality is far superior.

Turnips, carrots, beets, cabbage, etc. are all coming in from the interior as well and prices will decline further when carload shipments commence to arrive.

The butter market advanced another two cents this week and the retail price will go up if further advances occur.

Fall fruits and vegetables are now being featured in local stores including a wide range of choice apple stocks. Concord grapes are due at the end of this week.

The Glorious Naval Epic

# Zeebrugge

The stirring story of the most daring exploit in history, produced with the co-operation of the British Admiralty and endorsed by Their Majesties the King and Queen. The famous attack vividly reproduced to the minutest detail. Amongst the many thrilling scenes shown are the torpedoing of merchant ships by the German (actual films captured on board a German submarine during the war), British destroyers to the rescue of an unarmed victim, the planning and preparing of the attempt to bottle up the pirates in their lair, the assembling of the ships, the setting out, the smoke-screen, and the assault. You will see the "Vindictive" run herself against the Mole, the G-3 blow herself up under the bridge, the attack by bluejackets and marines, the actual entry and sinking of the block-ships in the canal and the withdrawal and disappearance of the fleet, its task accomplished. The reconstruction of the events of St. George's Day, 1918, is a moving achievement.
