## WHALEN COMPANY IS BEING REORGANIZED

### TAMMANY IS AGAIN IN CONTROL IN NEW YORK CITY BY HUGE MAJORITY

#### Proposal to Drop Plant Swanson Bay or Erect New One at That Point

Whalen Company will be reorganized January 1 and probably named Quatsino Pulp & Paper Company

VANCOUVER, Nov. 4.—When the Whalen Pulp & Paper Company is reorganized on January 1 it may be named the Quatsino Pulp & Paper Company.

Some of the new owners admit the possibility of dropping the Swanson Bay plant while other stockholders believe the present plant may be wrecked and a modern plant erected in order to secure low cost of production.

Eastern financiers and manufacturing experts are coming this month to inspect the Whalen affairs and make recommendations. E. M. Miles, the present receiver is to continue in office until the end of the year.

The principal concerns owning bonds that were a first charge against the properties were Peabody Boughtelling Co.; Royal Securities Corporation; Bank of Nova Scotia; and Sun Life Assurance Company. These concerns will control the reorganization.

#### ROSS WATSON NOT GUILTY

Former Seattle Police Constable Sent Back Home Following Acquittal at Nanaimo

NANAIMO, Nov. 4.—Ross Watson, former Seattle police constable, was early this morning acquitted of the charge of complicity in the \$42,000 robbery from the Royal Bank here on December 12 last. The jury was out an hour and a half and on their return they brought in a verdict of "not guilty."

Watson was returned to Seattle today by the immigration authorities.

#### BUILDING ROAD GRAHAM ISLAND

Twenty Men Employed on Highway Between Port Clements and Tlell

Work is still being carried out by the provincial department of works on the twelve mile Port Clements-Tlell road on Graham Island and some twenty men are now being employed on the job.

E. Woodworth, bridge foreman for the department, who is at present at Hazelton, will proceed to the Islands on the next steamer to take charge of the building of all bridges on the road. The longest will be that over the Tlell River—350 feet in length.

#### RAILROAD INTO CASSIAR SAYS VANCOUVER MAN

Hawthornthwaite Thinks There Would be Plenty of Business to Warrant Line

VANCOUVER, Nov. 4.—That the Stewart Consolidated Gold Mines, Limited, a British Columbia corporation, is giving serious consideration to the construction of a railway from Telegraph Creek or Glenora to Dease Lake, is intimated by J. H. Hawthornthwaite, president of the company, who with a party of nine men, including railroad and mining engineers, has just completed a four months' inspection of the Cassiar district.

The Stewart Consolidated Gold Mines, Ltd., has been capitalized at \$2,000,000, and has unlimited British capital behind it, Mr. Hawthornthwaite states, and was formed for operation in the Portland canal and Cassiar districts.

Mr. Hawthornthwaite, formerly a member of the Canadian parliament, has been interested in the mining industry for more than forty years, particularly in the Cassiar district, and from the reports given him by the party of engineers which he escorted this summer, he is of the opinion that the plan to build a railroad is not only feasible but profitable.

Transportation in the Cassiar, as in nearly all newly discovered districts, is the principal problem for the prospector and the developer to overcome. The Cassiar district is so large and Mr. Hawthornthwaite believes productive, that a railroad will be a profitable enterprise and he is now in Vancouver to urge upon his company the wisdom of building one.

#### DR. KING GOES OFF TO OTTAWA

Will Take Part in Cabinet Council to Decide What Action Government to Take

VANCOUVER, Nov. 4.—Hon. Dr. King, minister of public works in the Mackenzie King government and member elect for East Kootenay, arrived here last evening and leaves for Ottawa tomorrow to confer in regard to the future action of the government. He will be there just in time to attend the meeting of the cabinet which decides whether the government will meet the House or not.

#### AUSTRIAN WORKMEN GET INCREASED PAY: STRIKE IS AVERTED

VIENNA, Nov. 4.—A strike of 90,000 government employees was averted here today when the men were granted an increase in pay amounting to 28 per cent of their present wages.

#### EXPLOSION TOOK PLACE DUPONT POWDER WORKS

TACOMA, Nov. 4.—Two men were killed and four injured when the dynamite and cartridge house of the Dupont Powder Company blew up at Dumont near here this morning.

#### WILL HANG FOR KILLING MAN

Murder Aboard Steamer Crofton Hall Ends in Conviction of Berenssen

VANCOUVER, Nov. 4.—Harold Berenssen was found guilty last night and sentenced by Mr. Justice McDonald in the assize court to be hanged on January 18 for the murder of his shipmate N. Evadoskoff aboard the steamer Crofton Hall early on the morning of October 28.

Evadoskoff was stabbed to death while he slept and Berenssen's arrest followed.

#### ARMED MEN SEIZED \$75,000 AND MADE GETAWAY WITH CASH

VANDERGRIFT, Penna., Nov. 4.—Two armed men today held up the messenger of the Vandergrift Savings & Trust Co., seized the satchel containing \$75,000, and escaped.

After having paid his annual visit to the Engineer mine and other properties in the Atlin district, G. A. Clothier, resident mining engineer, returned to the city on the Princess Mary yesterday.

#### N.Z. GOVERNMENT IS SUSTAINED

Gets Majority Over all Parties in Elections Today

WELLINGTON, N.Z., Nov. 4.—The Government won a sweeping victory today in the federal election in New Zealand assuring Premier Coates of a good majority. At midnight the standing of the parties as indicated by the returns at that time of all eighty members was as follows:

Government	55
Labor	13
Nationalists	10
Independents	2

#### CREW SAVED OF SHIP BURNED OFF VIRGINIA

NEW YORK, Nov. 4.—The freighter Algiers was burned Sunday off the coast of Virginia and the crew of seventeen were rescued by the British steamer Rassauy. It was feared that the crew had been lost.

Jack Selvig and Gunnar Selvig, local fishermen, will leave on tomorrow's train for New York from which port they will sail on November 14 aboard the Norwegian American liner Stavangerfjord for Oslo, Norway, where they will spend the winter.

#### Tammany Tiger Again Roars Triumphantly in City of New York Result Victory Yesterday

NEW YORK, Nov. 4.—Tammany Hall scored another triumph yesterday when the Democrats secured a sweeping victory in the New York City elections. A million people voted for mayor electing State Senator James J. Walker by a majority of 400,000 votes over his opponent Frank W. Waterman, Republican.

The victory was not confined to the election of mayor, for a long list of Democrats was also elected to fill various civic offices.

#### Work on Island Road is Still Proceeding and Thirty Men Employed on the Work There

Five miles slashed, two miles cleared and grubbed ready for grading and 2,000 feet graded but yet to be surfaced represents the work that has been completed to date by the provincial department of public works on the Kaien Island Highway.

Work of grading 1,000 feet in addition to that already finished is now proceeding and, when this is completed, progress should be much more rapid—probably a mile a month. Heavy rock excavation is now involved in the work but when this is finished it will be on a muck-bench which should prove much easier.

The road is being built to standard type of first class roads in the province and there will be no grades over seven per cent. Some thirty men are now employed on the job. When part of the road will be ready for traffic will depend on how steadily the work is carried out.

The city's connection to the government road is now about completed and an excellent job has been done which is a credit, it is admitted, to all concerned in carrying it out.

#### CAPTAIN OF TUG HOPE GETS HIS PAPERS BACK

Finding of Commission of Inquiry Into Foundering of Boat to be Given Next Week

VICTORIA, Nov. 4.—At the conclusion of yesterday's inquiry into the foundering of the tug Hope off Bentinck Island in the Straits of Juan de Fuca on October 17 with the loss of seven lives, Captain F. Forrest of the tug was handed back his certificate.

The findings of the commissioners will be put into written form by Wreck Commissioner MacPherson and handed down next week.

#### PRINCE OF WALES THROWN FROM HORSE DURING A FOX HUNT

LEIGHTON BUZZARD, Bedfordshire, Eng., Nov. 4.—During an exciting fox hunt yesterday the Prince of Wales took his first tumble of the season when the horse he was riding failed to take an awkward fence. The Prince was not hurt.

#### GRAIN APPEAL BOARD FOR CITY OF EDMONTON

EDMONTON, Nov. 4.—An appeal board is to be appointed in Edmonton to deal with disputes over grading. This has been asked by the Edmonton Board of Trade and it is suggested it will have a good effect on business, increasing the confidence of the shipper.

#### ABDUCTION TRIALS SET FOR TOMORROW

VANCOUVER, Nov. 4.—The trial of the six men accused of the abduction of Wong Foon Sing has been adjourned until Thursday of this week.

It was decided by the finance committee of the city council last night to recommend that the interest rate on local improvement debentures be changed from six per cent to 5 1/2 percent. This will be recommended at a special meeting of the city council this afternoon.

#### TO LEGALIZE APPOINTMENT OF CABINETS

All Have Been Illegally Invested With Power for 27 Years Past

VICTORIA, Nov. 4.—Not one cabinet minister in British Columbia has been legally appointed since 1896, according to a discovery made by the legal department of the Government. Yesterday Premier Oliver introduced a bill into the Legislature to amend the Constitution Act. The bill is for the purpose of validating all proceedings of the executive councils and all official acts of the departmental heads for the past 27 years.

The flaw in the appointments of appointment from the Throne. The practice, for some unknown reason, was neglected in 1898 and has been forgotten ever since.

#### SEA OTTER TO BE PROTECTED

Regulation Making it Illegal to Kill Them Has Been Continued

JUNEAU, Nov. 4.—Sea otter will continue to be protected with a view to giving that rare fur-bearing animal an opportunity to rehabilitate.

The sea otter is one of the scarsest and one of the most expensive furs on the market. A good pelt is worth as much as a silver fox if not more. When the sealers used to go out on their annual hunt they kept a close lookout for otter and usually brought home a few, thus adding to the value of the catch.

The regulation making it illegal to kill sea otter was to expire November 1 but was renewed and is still in force.

#### ROUGHEST TRIP ACROSS OCEAN

Twenty-Six Passengers Were Injured on Liner Berengaria and Furniture Damaged

SOUTHAMPTON, Nov. 4.—Liner Berengaria reached here from New York this morning after what the captain described as the roughest passage in his experience. During the voyage across the Atlantic 26 passengers were injured as a result of the rolling of the ship in the heavy seas whipped by fierce gales and the damage to furniture, crockery and other things aboard the ship will amount to more than \$150,000.

Good Times Here Say Financial Men.

The good times are with us and are steadily improving according to our financial men. The Royal Bank of Canada issues a most optimistic report on conditions. It says industry is improving and everything looks like good times ahead.

This is not election talk. The elections are over and there is nothing to be gained by optimistic or pessimistic talk. We can face conditions as they really are and they look very good. Canada seems likely to come into her own and it will be difficult even for a change of government to stop her.

We devoutly hope that the financial men are right and that we are in for a period of prosperity. We need it.

Listening In As An Amusement.

Listening in is becoming a popular amusement. Many people now have radio sets and the broadcasting stations are improving steadily as they adapt themselves to the new kind of work. Vast audiences are now able to hear those who speak or sing at the powerful stations. And the number will increase. Steadily the receiving sets will be improved, static and other interference be eliminated, and the radio will become as common in the home as the Victrola or the Brunswick. The radio has apparently come to stay and will steadily develop until it can be controlled easily by anyone at any time.

Concessions Necessary France and United States.

The failure of the United States to reach an agreement with France produces widespread disappointment, since there is now general appreciation of the necessity for the return of France to a condition of financial stability, says the Bank letter. Whatever merit is attached to the plans that France shall pay \$40,000,000 a year for five years with remission of further interest during the period, lies in the suggestion that both countries are now more nearly ready to face the true situation. For France to reach the point where she is prepared to recognize her debt as far as her resources will permit, will constitute almost as much a step in advance as for the United States, possessing half the gold in the world, to recognize the real conditions in Europe and the necessity for the adjustments necessary to permit her to begin to receive the goods in which ultimate payments must be made. Like the "Davies Plan," this interim agreement bridges an awkward situation, and permits a lapse of time in which both peoples may grow accustomed to the idea that further concessions are necessary.

That France's capacity to pay may be even smaller than her own statesmen are willing to admit, constitutes one possibility which should be given careful consideration. So general is the recognition that France requires stabilization of her credit, that many well informed people thought that she might promise more than she could ever hope to perform in order to secure a settlement together with credits which would stabilize her finances and her money. At the last Mr. Caillaux offered much more than most Frenchmen felt France could pay, and it is quite possible that the ultimate settlement will be in some such terms as these which now seem too large in France and too small in the United States.

Better Times in Sight Says Royal Bank Report Giving in Detail Why Improvement Due

Not since the beginning of the economic readjustment period have fundamental conditions been more favorable to a healthy expansion of industry and trade, says the Royal Bank monthly letter. There are already signs of improvement in the business situation, and while for the most part they relate to seasonal conditions, some of the changes are indicative of the gradual restoration of balanced relations which are so necessary to general prosperity. The maladjustment between industry and agriculture has during the past twelve months been mitigated if not entirely relieved, and the highly satisfactory crop returns now indicate that the purchasing power of the farming community will be greater than for the past five years and more widely distributed. The yield for the three Prairie Provinces as estimated by the Northwestern Grain Dealers Association in their mid October report, compared with the financial estimates of 1924, are as follows:

	1925	1924
Wheat	400,385,000	235,694,000
Oats	392,653,000	223,325,000
Barley	65,355,000	70,630,000
Rye	9,220,000	11,126,000
Flax	6,395,000	9,577,000

Livestock markets showed a very encouraging tone during the month. Supplies were heavy, but export demand from Great Britain and the United States was strong. Hogs are bringing high prices, and this is likely to be the case for some time to come owing to short supplies.

Industries Active

The major industries of the country are generally more active. The iron and steel mills are again operating closer to capacity. More than sixty thousand tons of rail business has been placed, and the demand for automobile and agricultural implement companies has been in larger volume. The important textile industry which in 1924 had one of the worst years of its history, is feeling the stimulus of improved conditions, and the reduction in primary costs gives the trade better prospects of earnings. In woollen goods the situation is slightly better, and in silks, including rayon, relative prosperity prevails. The boot and shoe industry has been unsatisfactory for some time, but there is a general report of better business, and leather prices are firmer.

Mineral Situation

Mineral production records for Canada show a steady growth. Production of metals and non-metals reached a total value of \$90,347,698 as compared with \$84,307,385 in the first half of 1924. The output of gold for the six months was \$14,506,219 as against \$11,810,960, and silver 5,601,883 oz. as compared with 5,008,256 oz. for the corresponding period of the previous year. In British Columbia the production of non-ferrous metals, especially lead and zinc, shows a large increase, and at present market prices the total output for the first eight months of the year is estimated at \$41,000,000 or only \$7,500,000 short of the total value for the whole of 1924. The coal mining industry, after being completely disorganized by protracted strikes, is making rapid recovery and a better feeling is in evidence. Export trade in lumber is quiet. The maritime provinces find it difficult to obtain satisfactory business against European competition. The Australian market appears to be satisfied, and the demand from Japan has fallen off. There is a steady increase, however, in shipments from the Pacific Coast to the Atlantic ports of the United States, and domestic demand is expected to improve with western conditions. In the pulp and paper industry, production and shipments are ahead of last year. The production of newsprint for the eight months ended the 31st August is 988,764 tons as compared with 907,693 tons in 1924.

Building Permits

The value of building permits and contracts entered upon for construction work in Western Canada for the first nine months of the year show an increase of \$3,583,000 over the figures a year ago, although the figures for the Dominion for the same period are slightly lower. The usual statistics which reflect the current volume of business indicate a tendency to expansion. Carloading and bank debits throughout the past two months have been well above the corresponding figures of last year. The agricultural situation is contributing in no small degree to larger and better balanced buying power. Wholesalers

generally report increased turnovers, although in all lines buying is cautious and closely confined to immediate needs.

Fewer Failures

Commercial failures for the third quarter of 1925 show a distinct improvement both in number and extent of liabilities. Our foreign trade continues to show a growth that is particularly noteworthy. During September, exports amounted to \$108,497,911—a considerable increase over \$80,960,729 for the corresponding month last year. This represents a record total for the month since 1920. For the six months of the fiscal year ended September, total exports were \$571,315,340 against \$482,091,954 for the same period last year.

The comfortable position of the money market, the small fluctuations in commodity prices, light stocks of merchandise, the increased purchasing power based on good crops and a high state of employment are factors which collectively inspire greater confidence in the business situation.

If curiosity killed the cat, there ought to be a lot of dead ones around here.

IT'S a sad thing to state, but U.S. women have taken to drink. A story came over the wire to many newspapers last week telling of a woman who fought with 150 rattlesnakes and killed them all. Yes, she killed them.

British Journalists Give Impressions of Canada

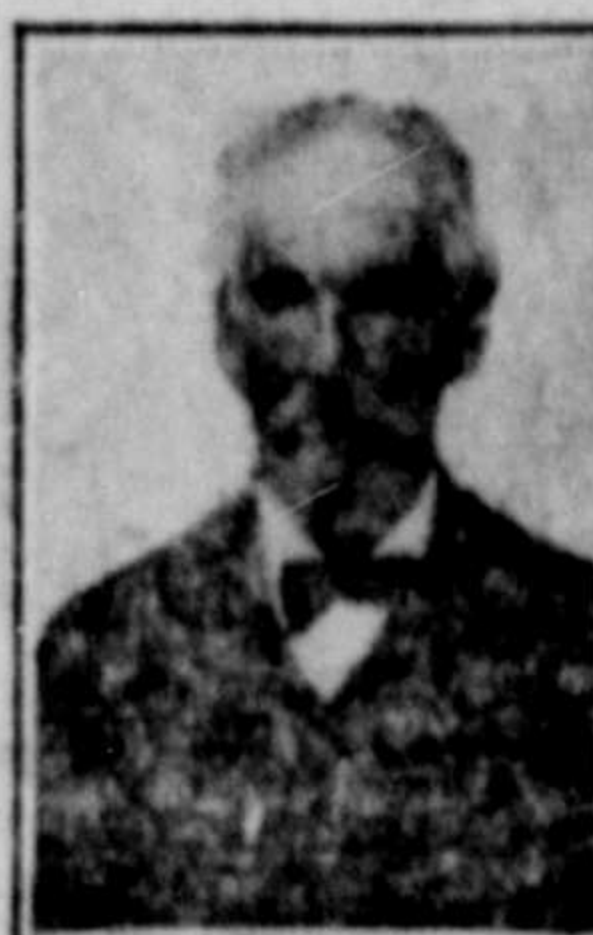

Having completed a ten-thousand-mile tour of Canada from coast to coast and return at the invitation of E. W. Beatty, chairman and president of the Canadian Pacific Railway, ten British journalists representing papers from London, Western England, Wales, Glasgow and Belfast, now broadcast to Canadians their views of the Dominion. These journalists were asked to come to this

country to study at first hand the economic, commercial, industrial and agricultural conditions of the Dominion and to thus enable them to meet and combat from their own knowledge the misunderstanding and misrepresentation of Canada and Canadian conditions that have been prevalent in the Old Country of late months. Their trip was an unqualified success from every point of view. The impressions follow—

R. A. COLWILL, Western Morning News, Plymouth.

"Canada has given me a true appreciation of what is meant by great open spaces. The possibilities of this vast country are enormous, and you have as yet but scratched the surface of its wealth. It is a land which offers great opportunities to men of the right type, but this great Dominion is obviously a young man's country, and one where every man must work. You ask no questions as to his antecedents. You merely ask him to carve out his own career. You take a man for what he himself is worth, not for what his father was. In such a land a man who is a man can work and be happy."

H. S. READ, South Wales News, Cardiff.

"Canada is not a country but a continent boundless in rich resources and richer still in the indefatigable energy of a people whose most conspicuous social characteristics is their devotion to education and research, in view of the future. For its development the great requirement is population, which can best be supplied by co-operative action of home and Dominion authorities in training would-be immigrants for agricultural work. Training is an essential requisition to rescue men and women from unwilling idleness in the Old Country and put them within reach of the abundant opportunities of the New Land in conditions of penury into shares of exhaustless wealth, and in so doing to strengthen the Empire. We are greatly indebted to the Canadian Pacific Railway for their invitation to make the tour."

W. D. RENTON, Daily Chronicle, London.

"Canada's supreme confidence in her future greatness has made a deep impression upon me. Only men possessed of great vision and almost overpowering energy would have laid so soundly and on such comprehensive lines the foundations which we have everywhere seen for the coming of a great civilization. The nobly planned parliament buildings, the ambitious university institutions, the network of railways, harbor facilities, vast water powers, electricity schemes, irrigation works, and cities planned out on princely lines, have been conceived for a great tomorrow. Canada is shouldering financial and other burdens in this task of Empire building which call for sympathy and admiration. It is the white man's burden in the world. One stands amazed that so few people should have accomplished so much in so short a time which encompassed Canada's history."

HUGH MARTIN, Daily News, London.

"Canada's need is the Old Country's opportunity. Equally Britain is the new country's opportunity. From the Atlantic to the Pacific seaboard I have heard the cry: 'Send us men; send us capital; and have found conclusive proof that once again the new world has the power to redress the balance of the old; have we and have you the will to make that power effective? It seems to me to be largely a matter of understanding and sympathy. Patriotism is not enough, but translated into terms of mutual help I know is capable of leading us both into a new promised land. Let us pull together."

J. P. CHAPTER, Westminster Gazette, London.

"Since I was here in 1911 there has been great improvement in the roads of Canada. Though the country is said to have passed through hard times recently the enormous number of automobiles now in use appears to indicate a return or rapidly returning prosperity. Very many more trees are conserved on the prairie landscape, the planting of which and the more general use of paint for the decoration of dwellings suggests an increasing desire to have homes rather than mere houses. This spirit, it seems to me, will do more for the consolidating of Canada as a nation than any great increase in those whose chief desire is get rich quick and quit."

JOHN A. BUIST, Glasgow Herald.

"Every province of Canada claims that it is the land of opportunity. I believe that each is entitled to make that claim and that the opportunity is for more people who are willing to work primarily on the land and are determined to succeed. The vast open spaces must be populated. As a Scotswoman who has met many old countrymen on this wonderful tour via the Canadian Pacific Railway across the Dominion I should like to see a large influx of immigrants belonging to the race which played such a noble part in the pioneer work in the land of promise for the people of that type. What prevents them from coming? They lack the means, not the desire. I believe that if our home government and the Dominion Government could agree to assist them to a greater extent than has hitherto been done, the main obstacle to the flow of Scottish immigration into Canada would be removed. The people must be found, if not from the Old Land then taken from elsewhere, but I think you would prefer the old stock."

CAPT. E. ALTHAM, C.B., R.N., Morning Post, London.

"(1) Canada has laid foundations on generous lines worthy of a great future. (2) Her waiting spaces and Britain's need for room within the Empire for an overflowing population create a new bond of union. (3) The future prosperity of Canada rests not only upon agricultural development but on increased employment of British labor in both countries for manufacturing her raw materials. (4) Misunderstanding of Old Country conditions is being caused by meagre, misleading, and even malevolent news too often supplied from England to the Canadian Press. (5) The importance of a navy for better appreciation. (6) Canada is a land where men must be men indeed, no wasters, agitators, or traitors to King, Flag and Empire, need apply. That is my predominant impression."

CHAS. J. JORY, Daily Telegraph, London.

"I became more and more impressed with the boundless possibilities of this great Dominion every day of my tour. From Halifax to Vancouver that impression grew from wonder to amazement. Surely for a man who will work and for the woman who will help him there is no land so rich in resource, so full of opportunities. All honor, then, to the brave men who made this possible, to the pioneers who blazed a nation's way through brush and canyon, who adventured over river and lake and prairie, and to the Canadian statesmen whose vision was not that of ordinary men."

F. G. L. PETERSON, Times, London.

"At the end of a long journey, in the course of which we have crossed the Dominion twice and travelled nearly ten thousand miles, we are returning to our homes deeply impressed with the immense resources of Canada. We have seen life and conditions of labor in the Maritimes, in the industrial centres of the East, on the prairies and at the Pacific Coast. We have set ourselves to learn something of the twin problems of men and markets which face the Canadian people, and the experience which we have thus gained will be of inestimable advantage to us in the future. It will enable us to set the proper value on items of news from the Dominion, to refute baseless charges against its own good name, to make known to the young men of our own country the splendid opportunities that await them, in short, so far as lies within our power, to tell the Motherland the truth about Canada."

JOHN SAYERS, Belfast Telegraph.

"Canada fills me with wonder and admiration. That a comparatively small population should have accomplished so much in so short a time is marvelous, and from what I have seen I am convinced that the tapping of the Dominion's resources, particularly of Alberta and British Columbia, has only begun. If the two urgent needs of men and capital—British if possible—can be supplied, there seems to be no limit to the future of the country. I am impressed by the loyalty, the beauty, and the pluck of Canada, and I take off my hat to the courage of the early explorers and settlers. They laid foundations upon which it should be an honor to be today. Floreat Canada."

**PREMIER OF ALBERTA NOTIFIES GROUCHERS THEY ARE NOT WANTED**

EDMONTON, Nov. 4. — "The outlook in Alberta is bright, and the clearer we get our vision the brighter it will appear," was the emphatic declaration of Premier Greenfield in an address before the inaugural meeting of the Edmonton board of trade for 1925-26, held in the Macdonald.

"The future of this province is what we ourselves make it," the premier added. "If we approach our problems in a broad-minded spirit of co-operation and confidence, we cannot fail to progress."

There is no room in Alberta for the groucher or the "calamity howler," Mr. Greenfield declared. No one who has studied

the development and progress made in the years gone by, and is prepared to accept that progress as an indication of what lies ahead, could possibly have any doubts as to Alberta's future greatness. It was true that there had been handicaps to overcome and big problems to face, but despite all these the story of this province had been one of consistent progress and sustained development.

# ENGLISH WOMAN WINNER OF PRIZES

TORONTO, Ont., Nov. 4.—(By Canadian Press).—The "Globe" says editorially:—It took only four months to make a prize-winning Canadian farm woman of Mrs. W. N. Smith, lately of England, now of British Columbia. With her husband and six children she arrived in Canada last May, and this autumn she competed at the Milner, B.C. Fall Fair, winning first prize in butter, fancy butter, and cream cheese, and second for clotted cream. Mrs. Smith made good butter and cheese on her husband's farm in England, and immediately they settled on their forty-acre farm at Fort Langley she put her knowledge to practice.

# CAILLAUX IS LEFT OUT BUT NOT DISAPPOINTED

(Edmonton Journal)  
M. Caillaux has been left out of the reorganized French cabinet, but the chances are that he will remain a very active figure in the public life of this country. "I am never disappointed," he told a recent interviewer. He has had more ups and downs than most politicians and there are many in Canada today who would have saved themselves many heart-burnings if they had cultivated his philosophical attitude. It isn't easy "to meet with triumph and disaster and treat these two impostors just the same." But the man who enters on a political career has special need of being able to do so.

# STRESEMAN MAY GET NOBEL PRIZE

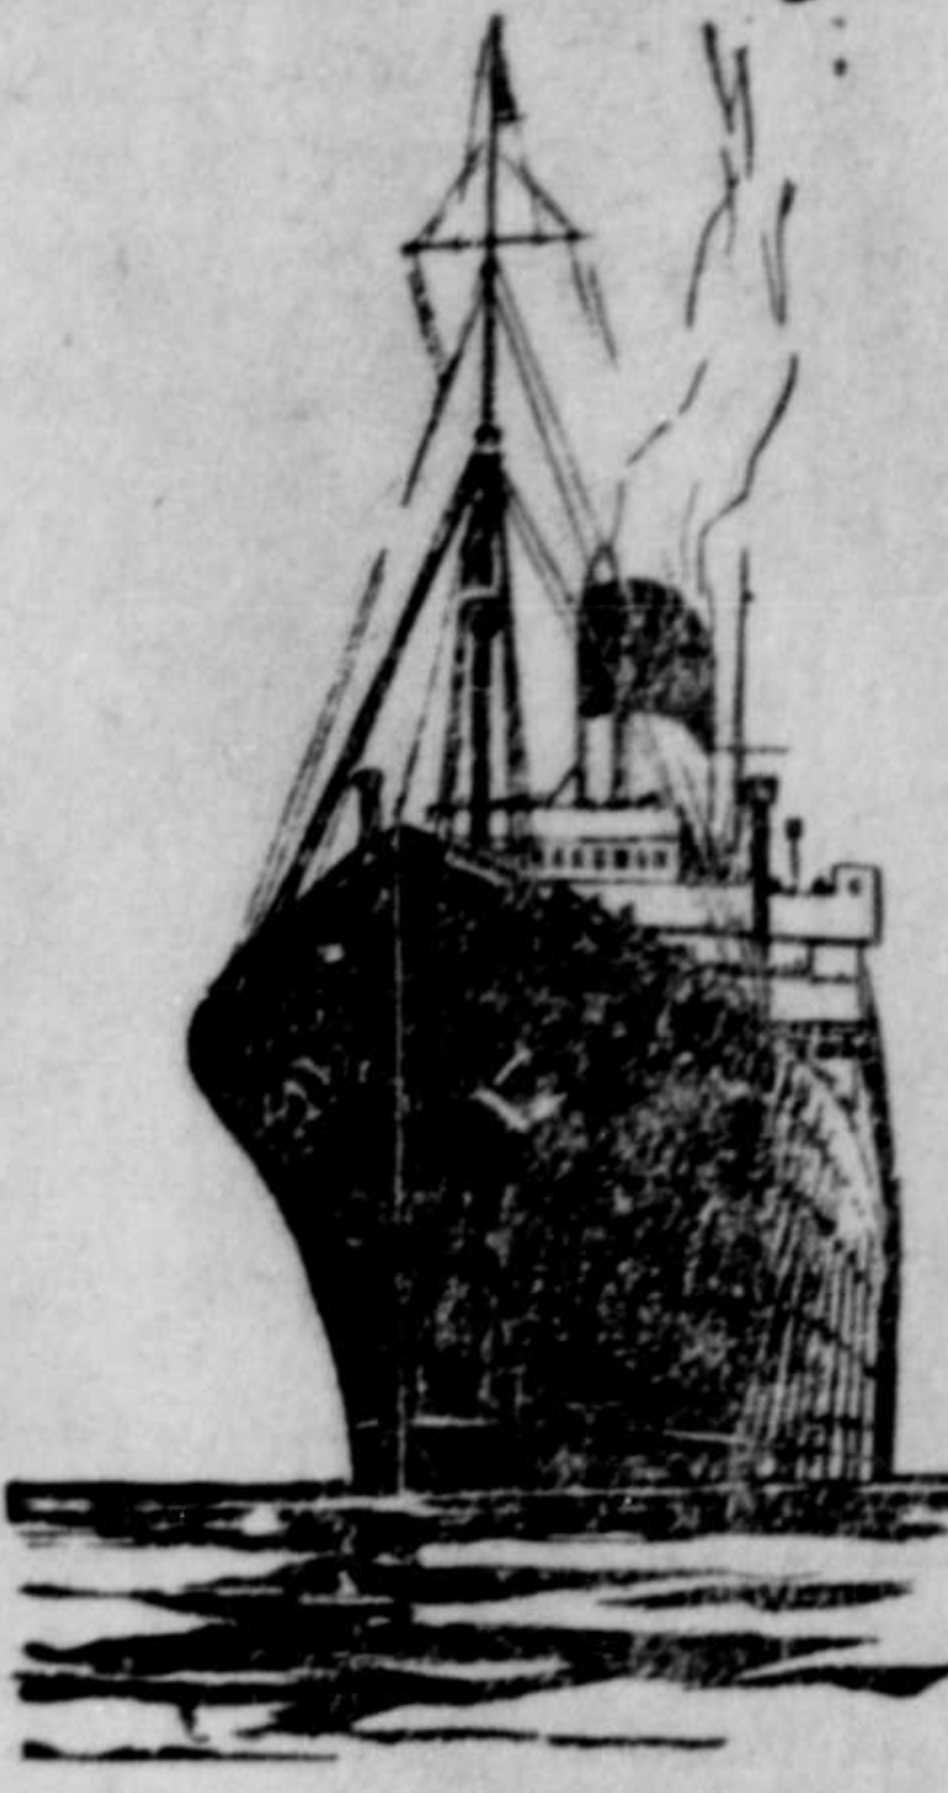

(Ottawa Citizen)  
It has been proposed by admirers of Herr Stresemann, the German foreign minister, that he be made the recipient of the Nobel peace prize for the current year, because Herr Stresemann began the overtures which culminated in the Locarno treaty. This is but one indication of the importance which the people of Europe attach to the Locarno pact, which to millions of heavily burdened citizens brings a renewal of fervent hope that at last the dawn of permanent peace has arrived.

# KNITTING SWEATERS

Alaskan Women Helping War Veterans Who Are Now in Hospitals  
JUNEAU, Nov. 4.—A call for volunteer knitters to make sweaters for ex-service men in hospitals is made in Juneau by the Juneau Chapter, American Red Cross. The call is made in compliance with a request from the Red Cross headquarters in San Francisco to all chapters. A supply of sweaters for the ex-service men who are confined in hospitals is necessary for protection from the approaching winter weather and it is urged that they be sent in at as early a date as possible. Request is made for sweaters both with and without sleeves.

Mrs. W. S. Pullen and Mrs. H. L. Faulkner, members of the Executive Board of the Juneau Chapter, are in charge here.

**NO GREAT MEN IN WORLD TODAY**

**Bishop of Manchester Urges Against Encouraging Restless Spirit of Age**

LONDON, Nov. 4.—According to Bishop Temple, of Manchester, (son of the former Archbishop of Canterbury, and destined himself, in the opinion of many, to succeed some day to that office) the world is not producing great individuals in the present era. Bishop Temple admits that the average level of intelligence, and possibly of character, may be higher than usual, but "we are sadly lacking in people who have struck their own roots, and who are drawing out of themselves their own mental, moral and spiritual nourishment."

These sentiments were uttered when the Bishop addressed a gathering in Manchester on "The Church and Publicity." The adoption of methods which made no appeal either to the intelligence or the moral sense might be legitimate in commerce, he said. They might be effective, though they were certainly not legitimate, in politics, but they were neither legitimate nor effective in religion. It was extraordinarily difficult for the church to find any effective publicity which did not on the whole minister to the restless spirit. If publicity had to be striking, arresting, it had to some extent make people jump. Yet, the first duty of the Church in an age like ours was to persuade people to stop jumping—to sit still, or to kneel still and to appreciate those eternal things from which the bustle of the world was diverting their attention.

**JUNIOR GIRLS WERE JOINT HOSTESSES AT UNITED CHURCH**

**Debate Took Place Between Teams from Either Side; Banquet Enjoyable**

The Junior Canadian Girls in Training last night entertained the senior C.G.I.T. of the United Church at a banquet in the church parlors and proved themselves to be excellent hostesses for they looked after their guests well and made them welcome.

One of the features of the excellent program was the debate in which Jean Mackay and Catherine Harvey took the affirmative and Phyllis Harvey and Verina Brochu the negative. Music was provided by the Unique orchestra Phyllis Harvey leading and Victoria Krikevsky pianist.

The program was as follows: Community Singing.  
Piano duet, Ella Steen and Victor Krikevsky.  
Recitation, Nellie Gurvich.  
Selection, Junior Orchestra.  
Song, Linea Hanson.  
Community singing.  
Selections, Junior Orchestra.  
Debate Juniors vs. Seniors.

At the close Jean Mackay on behalf of the guests, thanked the juniors for the enjoyable time.

**BILLIARD GAMES WON BY GROTTO FROM VETERANS**

The second division billiard tournament last night between the Grotto and the Great War Veterans' Association resulted in victory for the Grotto by an aggregate of 704 to 514, one of the games having gone by default.

Scores were as follows:  
Bert Morgan (Grotto), 150;  
W. J. Nelson (War Veterans), 138.  
J. Hillman, 150; Dr. J. A. West, 140.  
J. Beesley, 101; Joe Howe, 150.  
G. Howe, 150; C. L. Youngman, 116.

**APPEAL MADE FOR LADY COMMUNIST**

**Jail Sentence in United States for Being Member of Communist Labor Party**

NEW YORK, Nov. 4.— (By Canadian Press).—Miss Charlotte Anita Whitney, facing a jail sentence of from one to fourteen years for being a member of the Communist Labor Party, is vigorously appealing for by R. W. Riis in a letter to the press, who says:— "A national-wide appeal to Governor Richardson of California is being organized by the American Civil Liberties Union, a body which is intent only upon conserving freedom of speech, of assembly and of the press. Miss Whitney is a niece of a Supreme Court Judge. She is very much of the type of Jane Addams, holding many offices in charitable women's Suffrage and University circles. Through her social work in 1919 she joined the Communist Labor Party. In 1920 she was convicted by the California courts of membership in this party. There was no charge that she advocated violence in governmental reform. As a matter of fact, she repeatedly urged in her party councils only peaceful methods. Her conviction, therefore, was based entirely on her membership in that party. It is a fundamental principal of law that guilt must be personal. The doctrine of guilt by association was characteristic of the Middle Ages. It has no place in our modern democracy."

**BIG BAG OF GAME SECURED IN ALASKA**

SEWARD, Nov. 4.—N. E. Boomhower, a New York carpet manufacturer, returned here yesterday from a two months' big game hunt in which he shot a brown bear 10 feet long and 19 inches between the eyes, besides bagging several reindeer, two sheep, two grizzlies, and one caribou. The antlers of the caribou had 69 points, nearly equaling the world's record.

**BADMINTON CLUB AT ANYOX BEING FORMED**

ANYOX, Nov. 4.—A badminton club is being formed here and orders have already been sent for raquets. The gymnasium will be used for a court, certain hours being set aside mornings and afternoons for the players of the popular game.

Jack Priest, well known rancher, arrived in the city on last night's train to take charge of the meat department in the store that Sealy & Doodson of Smithers are opening here.

**GIRLS' ATHLETICS AT KETCHIKAN PLANNED**

KETCHIKAN, Nov. 4.—Tomorrow night in the high school gymnasium a meeting of young women of the town has been called by Miss Pearl Smith, girls' athletic director of the High School for the purpose of organizing a basketball team and gymnasium class for young women. Miss Smith will act as coach to the team and instructor of the gym class.

**SPORT CHAT**

The Sault Ste. Marie senior hockey team, Allan Cup winners in 1924 and for years one of the outstanding teams in Canadian amateur senior hockey, have promised its allegiance as a body to the Knickerbocker hockey club of New York and will play this year in the Eastern Hockey League, affiliated body of the United States Amateur Hockey Association. This league includes the Pittsburgh Hornets, United States finalists last year, Boston and Providence and possibly two Canadian teams.

Georges Carpentier, French heavyweight and one time contender for the world's title, is about to make a third invasion of the United States which will open at Los Angeles early in December when he will meet Jimmy Delaney, the St. Paul heavyweight. According to the articles of his agreement, Carpentier will not fight any other opponent before he leaps into the ring at Los Angeles. Arrangements are being made, however, for a number of other more or less important bouts to take place after that event.

**TEN MILLION VISITED FAIR**

Directors of British Empire Exhibition Thanked Sir Henry Thornton for His Share in Success

MONTREAL, Nov. 4.—Ten million people visited the pavilion of the Canadian National Railways at Wembley during the two seasons, according to cable advices received at headquarters of the company here yesterday. Following the final closing of the British Empire Exhibition, this number includes thousands of school children. Literature dealing with various phases of Canadian life and natural resources was supplied to more than two thousand school teachers. This literature, it has been learned, has been accepted in the majority of instances as the text by which instruction on Canada is given to school children in many parts of Great Britain.

Before the Exhibition closed on Saturday, Right Hon. J. H. Thomas, M.P., visited the Canadian National pavilion on behalf of the directors of the Exhibition, wished God speed to the staff and asked that the thanks of the directors be transmitted to Sir Henry Thornton for the splendid exhibit which the company had maintained and for the co-operation which had been given to those who had the welfare of the exhibition at heart. He stated that the directors had recognized the Canadian National exhibit as one of the most outstanding contributions to the fair and that this opinion was held by the many distinguished visitors, including the King and Queen who had visited the pavilion and also by the millions of ordinary visitors.

Appreciation Expressed by "Mikado" Company For Her Services During Rehearsals

The company which took part in the presentation of "The Mikado" for the Daughters of the Empire recently gathered in the L.O.P.E. hall on Fifth Avenue last night and presented Miss Blanche Curtin with a vanity case as a mark of appreciation for her services in connection with the rehearsals for the show. The presentation was made by Mrs. A. T. Parkin and the ceremony was followed with the serving of refreshments and an informal dance for which music was played by Mrs. R. P. Ponder. There were about 25 couples in attendance.

**RED CROSS WORK IN ALASKA IMPORTANT**

Large Sum to be Raised to Carry on Activities in Territory

JUNEAU, Nov. 4.—Juneau is making an effort to raise \$2,275 to finance the year's work of the Red Cross Society carried on by Juneau Chapter. The ninth annual roll call will be held November 11 to 26 when the drive will be made in all communities of the Chapter to secure funds. Records of the past three or four years show that it costs the Chapter annually approximately \$3,000 to carry on the work. It has undertaken throughout the district, which includes community health, public school health inspection and social service work. This has been carried on in every town and Indian settlement in the Chapter.

**PRESENTATIONS MADE TO MRS. H. R. GRANT**

Two presentations have been made to Mrs. H. R. Grant, who is leaving with Rev. Dr. Grant Friday. One of these was a cream ladle by the members of her Sunday school class of eight girls which was presented on Sunday. The other was a gold pencil presented to her by the Canadian girls in training at their last meeting presided over by Miss Doris Galloway when a pleasant social evening was spent.

**AUSTRALIAN ELECTION ON**

Labor Party Led by Matthew Charlton Outlines Its Policies

FOREIGN POLICY  
Endowment of Motherhood One of Planks of Present Opposition

SYDNEY, Australia, Nov. 4. — (By Canadian Press).—Both the Premier of the Commonwealth, Rt. Hon. Stanley M. Bruce, and the Labor Leader, Matthew Charlton, have been campaigning recently in New South Wales, and the federal election contest is warming up, noticeably as the polling date, November 14, draws nearer. It is becoming more apparent daily that the chief issue in the election—at least, so far as the coalition government composed of members of the Nationalist and Country Parties led respectively by Premier Bruce and Hon. Dr. Page, treasurer, is concerned—is the question of Communism.

Premier Bruce continues in his speeches to associate the Labor Party with the Communists, and he criticizes Labor Leader Charlton for not stating definitely, if Labor came into power, what it would do against those who are "trying to subvert the present economic and social system."

**Government Policy**  
In a recent speech in Sydney Premier Bruce, replying to a speech made by Mr. Charlton in Sydney a few nights previously, said that every constructive suggestion which the Labor leader had made was culled from the policy of the government. Mr. Charlton's defence policy, he claimed, was fundamentally unsound, and it showed such a lack of appreciation of the problems of Australia that, in the Premier's opinion, "it must cause consternation to the whole people."

Mr. Charlton, in his speeches, charges Premier Bruce and Treasurer Page with misrepresenting Labor's attitude towards Communism. He declares that the sole stock-in-trade of these two political leaders consists of fables of social and sectarian horrors which would arise if Labor were to come into power in Australia. He denounces Mr. Bruce's immigration policy on the ground that Australia has a large excess of labor and there are no vast empty spaces except in the desert. It is in the expansion of the home production of articles now imported that ways and means of maintaining a new population must be found, Mr. Charlton says. Labor would co-operate with the State Labor Governments in order to break up large estates for new settlers.

**Cruisers or Subs.**  
On the question of defence Mr. Charlton says that it has been shown that Australia could have 10 submarines for the cost of one cruiser. Submarines, he pointed out, need no expensive bases and are particularly suitable for Australian needs and resources. Similarly the cost of a cruiser would buy 168 aeroplanes. The Labor Party wants money spent on the forms of defence which, in its opinion, should have priority, and the spending as far as possible to be done in Australia. In the policy of the Bruce government cruisers are favored as the chief means of defence for Australia.

Further outlining his attitude on defence Mr. Charlton says Australia needs shore guns with in whose range no enemy vessel would appear, and needs an aerial fleet that could not be outnumbered, and also internal means of production and maintenance. He claims that the Nationalist Party and the Country Party are bent, not on the defence of the Commonwealth, but on forced contributions to Imperial expansion masquerading as defence. They are Jingoes and anti-Australian in their defence policy, the Labor leader declares.

**Overseas Wars**  
On the question of Australia's foreign policy Mr. Charlton says Premier Bruce has urged that Australia should have a voice in foreign affairs, which in the Labor leader's opinion, would mean that Australia would be committed to any overseas war that Great Britain decided to enter. Mr. Charlton states that

**KEEP OUT of the Puddles**

COURTLY Sir Walter Raleigh--cynic savant and first-class fighting man--desired a favor from good Queen Bess. A puddle in the queen's path made his opportunity. Across it he flung his costly cloak. Her majesty, smiling at his devotion, trod on, dry shod, and Sir Walter's unique self-advertising produced results.

Though most advertising is less spectacular to-day, it is far more serviceable. It smooths out the every-day pathways of each one of us.

Because of advertising, luxuries and necessities that once would have been worth a king's ransom are yours at little cost. Advertising pits merchant against merchant, artisan against artisan, manufacturer against manufacturer. This competition brings out the best there is in everything for your personal benefit.

You wouldn't know about many boons of modern life were it not for advertising. That is why you are not taking full advantage of the better things in life to-day if you overlook ADVERTISEMENTS.

Read advertising and keep abreast of the times

Labor stands for an Australian foreign policy developed in the light of day for a people determined to uphold their national rights and honest enough to admit that other nations have equal rights.

Mr. Charlton defines the Labor Party's general policy as embracing co-operation and government aid in marketing, agricultural and pastoral research, rural credit banks, extension of the Commonwealth Shipping Line for the cheapening of freights, the establishment of Commonwealth agricultural implement factories, and a comprehensive scheme of water conservation and irrigation.

The Labor Party, Mr. Charlton says, believes that a compulsory wheat pool is necessary and it would pay a cotton bounty of 2d. a pound.

**Motherhood Endowment**  
Mr. Charlton states that if the Labor Party came into power it would make provision for motherhood endowment. It would seek an alteration of the constitution in order to bring about uniformity of the working hours throughout Australia, and it would also seek other enlarged powers with a view to benefitting the people of the Commonwealth in general.

**VANDERHOOF**  
William Vaughan, Fort Fraser of the Soldier Settlement Board, is spending a couple of weeks in the Vanderhoof district.

Mr. Cameron has arrived in Vanderhoof to visit with his daughter, Mrs. E. C. McGeachy.

Karl Rudolph Hesse, pioneer of the Nechako district, was killed recently in the sawmill at Newlands.

Mrs. Brain and her daughter, Miss Evelyn Brain, have returned

from Ontario. It is likely the entire family will return to locate in this district.

Miss J. M. Richards, who has been seriously ill for some time, is able to be around again.

Mrs. J. M. Johnston has left to spend the winter months visiting with friends in California.

Miss L. J. Reid arrived last week from Vancouver to nurse her sister-in-law Mrs. Frank Reid, who is seriously ill.

**STEWART**  
The annual meeting of the Stewart General Hospital Association was held last week, officers being elected as follows: President, Rev. A. W. R. Ashley; secretary, R. W. Kennedy; directors, John McLeod, H. G. Marvin, Miss Kate Ryan and William Newell.

Billy Burnham, the day after he went up to the Indian Mine last week, to be engaged as a cook, blew his head off.

The belief is now held that John Grant, who disappeared some time ago, met his death by drowning between Stewart and Hyder. A felt hat was found floating on the water and beneath the old dock were found signs of a struggle.

George H. Sheperd, M.E., local assayer, has arranged to give a series of talks to the pupils of the Stewart public school on matters pertaining to mining.

Ore sacking has been resumed on the Indian Mine and it is expected to ship 150 tons per month during the winter. The property reopened last week after having been shut down for several months.

## STANDING FOR SKEENA RIDING

Certain Corrections and Late Returns Accounted for in Revised List

With Namu, Colleymount, Aiyansh and Telegraph Creek yet to report a revised and corrected standing of the votes in Skeena riding gives George G. Bushby, Conservative, a total of 2923 votes; George W. Nickerson, Progressive, 767, and Fred Stork, Liberal, 3651.

The only poll heard from since yesterday was Rivers Inlet which gave Bushby 8, Nickerson 4, and Stork 9.

Conservative headquarters stated yesterday that the Sandspit poll was Bushby 10, Nickerson 5, Stork 6, instead of Bushby 5, Nickerson 1, Stork 17, as previously published. This correction has been accepted in the following tabulation of the vote as it stands to date:

Lockeport	1	1	8
Rivers Inlet	8	4	9
Total to date 2923	767	3651	
Majority for Stork	728

ing ones are known by the old-timer. They are mostly transients who have been here but for the season or for a few weeks. On the other hand the passenger lists from the south for Ketchikan at this time of the year include generally the substantial permanent residents who would as soon spend the winter in Ketchikan as in California.

The exodus means little and is no worse than in former years. No more can be thought of it than of the exodus of the transient harvest hands from the fields of the prairie country.

## SAN FRANCISCO CLIFF HOUSE OUT OF BUSINESS

No Longer Will Pickled Guests be Able to see Millions of Animals on Seal Rocks

SAN FRANCISCO, Nov. 3. — San Francisco's Cliff House, known for generations wherever non vivants gathered, has given up the losing fight. Its recent management credit its demise to prohibition.

Old-time San Franciscans, sitting over their ice cream sodas, recall that the Cliff House always has been one of the cardinal features of the city, a "point of interest" demanded by every tourist.

The first Cliff House was built in 1863 and, since, there has been some sort of a restaurant there most of the time. The site is magnificent. High above the ocean, beside the Golden Gate, it looks down on the famous Seal Rocks and commands a great stretch of sea and shore line. The house is the first building sighted by approaching ships and the last seen by departing ones.

Hugh Molyneux, general road foreman for Alton district, was a passenger going south on the Princess Mary yesterday afternoon bound for Victoria where he will spend the winter.

## MUSSOLINI ACTIVE

Chastens His Followers and Calls Down Premier Baldwin

(Manchester Guardian)

Mussolini has made a bid for public confidence by chastening some of the more violent of his followers. Both Florence and Rome have lately been the scenes of disgraceful Fascist attacks on Freemasons. Now, however, the local Fascist directory in both cities has been disbanded and reorganized. The Prefect of Florence and the secretary of the Fascists of Rome have been dismissed, and a purging of the wild men in local branches is promised. Meanwhile a typical example of the dictator's sensitiveness to criticism is to be found in an astonishing letter which, according to the "Action Francaise," Mussolini has addressed to Mr. Baldwin, rebuking him like an angry schoolmaster for a perfectly courteous reference in a recent speech to the unsuitability of government to this country. The tirade is not at the moment officially confirmed, but it is in the authentic tone to which this rather testy autocrat has accustomed us.

## COURTING COUPLES HAVE TO PAY TAX

Point of Exempting Them and Babies From Bridge Tolls at Bath is Brought up

LONDON, Eng., Nov. 4. — Visitors to Bath will remember the old-fashioned bridges leading from the more crowded part of the ancient city to the rural districts where a toll is levied to all who pass over. A proposal was submitted at the meeting of the city council that these bridges should be free after nine o'clock at night, "in the interests of courting couples."

"When I was courting I used one bridge so much that I must have bought it," declared Councillor A. E. Cooke amidst much laughter.

"I suppose you found it cheap at the price," commented the mayor, amid louder laughter.

As to perambulators, Mr. Cook characterized it as "the height of meanness for a corporation to expect a penny for a baby in a pram when it might be the child's pocket money for a month."

But the council declined to grant concessions to either courting couples or babies.

## PROTEST MADE AT BEING A FLAPPER

Montreal Newspaper Comments on Objection to the Use of the Word

MONTREAL, Nov. 3. — The Gazette has an editorial on the Camp-Fire Girls who have protested against the word "flapper." It agrees that they are right in objecting: "It is not good English, it might very well suit a crazy door, a growling shutter, a motor car hood off the hooks, or a wet flag smack-ing hard up against a rain-soaked pole. But the fair sex? Never! The thing is unthinkable. It is an outrage upon our native tongue, of which the demons have usually the larger share. The up-to-date girl is modern. That sounds better. She has ambition, independence, a way of her own, and is gifted with robust common-sense. She can go one better than Grandmother and not hurt anybody. And then again nobody has the least cause to cavil about the way in which she can and will doff all the streamers and roll the delicious crust of some home made apple pie. At fashions she is dapper. At household affairs she comes pretty high being a perfect caper. And there you are."

## The girl you leave behind you

Just stop a moment and think about the way she spends her day—that girl you leave behind you. While you are working she is at home working with her hands. Perhaps washing the same cups and saucers that she washed yesterday and will wash on many tomorrows. Perhaps doing the week's washing. In YOUR work is variety—interest—growth; in hers only dullness — sameness—stagnation.

Talk it over with the girl you leave behind you. See how glad she will be to say farewell to wash day.

A fair trial of our family-services will give your wife many new hours for her family and herself.

Have her phone The Canadian Steam Laundry and you'll be coming home to more cheerful welcomes from a fresher, happier girl.
