## NEW FREIGHT RATES CLASSIFICATION MADE

### WIDE AREAS IN KETTLE VALLEY, SLOCAN AND KASLO DISTRICTS BURNING UP

#### Reductions in Charges Expected as Result of Railway Board Finding

OTTAWA, July 18.—Under an order of the Board of Railway Commissioners made public today a new freight rate classification which will become effective throughout Canada about October 1. This judgment deals with Canadian freight classification No. 17 which will supersede classification No. 16. The main judgment was written by Commissioner S. J. McLean and concurred in by Commissioner A. G. Boyce. Commissioner Frank Oliver issued a judgment dissenting from the main judgment in certain respects.

#### RUSSELL SCOTT IS BUOYED UP

Three Witnesses Come to Rescue  
of Condemned Man in  
Chicago

CHICAGO, July 18.—Russell Scott, former Canadian financier who is counting the hours of the county jail death cell, has been buoyed up by the hope of eventually escaping the gallows. Three "new" witnesses—two Chicago women and James M. Ball of Detroit—claim to have been on the scene when James Maurer, drug clerk, was shot and for whose death Russell Scott has been held responsible. Ball insists that Robert Scott, Russell's brother, actually fired the shot that killed the druggist. The nature of the evidence of the two women has not yet been disclosed.

#### FIRE DESTROYS ALBERTA TOWN

Bowden, 70 Miles North of Calgary, is a Smoking Ruin—Nobody Hurt

CALGARY, July 18.—Fire last night practically wiped out the town of Bowden, 70 miles north of here, and three hundred persons are homeless. The fire started in a blacksmith shop and spread rapidly before a gale. Twenty-five houses were destroyed and two business streets are in smoking ruin. No one was injured.

The fire was brought under control this morning. The loss is estimated at \$200,000.

#### HIGH HALIBUT PRICE SEATTLE

Thirty Cents Was Paid for First Class Fish at Exchange There Yesterday

SEATTLE, July 18.—Halibut reached the highest price level of the season on the Seattle fish exchange yesterday when 30c a pound was paid for first class fish. Scarcity of fish and increased eastern demands are the factors responsible for the advance.

#### SAIL FOR RUPERT

VANCOUVER, July 18.—The Vancouver Board of Trade party sailed last night on the Cardena for Prince Rupert on the first lap of its tour of Central British Columbia.

#### VANCOUVER MEN DUE TOMORROW

Board of Trade Party Will Arrive on Cardena and Proceed East Monday Night

The Vancouver Board of Trade party, containing some of the southern metropolis' most prominent business men, will arrive here on the Union steamer Cardena tomorrow afternoon on the first lap of the tour which will take them over the C.N.R. from here to Prince George and thence south, by way of the Pacific Great Eastern, on their return home.

Arrangements for the entertainment of the visitors at Prince Rupert have been made by a committee of the local Board of Trade. Tomorrow afternoon they will be shown points of interest in the city and, it being Sunday evening, entertainment will, of course, be informal.

On Monday, the party will be taken on a cruise to the Skeena River and the canneries will be visited. They will leave here at 10 o'clock in the morning and will be back here late in the afternoon or evening. At midnight, they will leave by special train for the interior. The first stop will be Terrace on Tuesday morning. Other important interior points such as Hazelton, Smithers, Telkwa, Burns Lake, Vanderhoof and Prince George will be visited. The excursionists will cover the interior farming areas on the motor roads. There are forty-five members of the Vancouver Board of Trade in the party.

#### SAPPER SMITH WON AT BISLEY

King's Prize Captured by Former Member of Royal Engineers

BISLEY, July 18.—Sapper A. Smith, late of the Royal Engineers, won the 1925 King's Prize—leading trophy of the annual rifle meeting here. His total score was 226 in the second and final stages. The prize reaches an aggregate value of £1,170 of which £250 is given by the King. Besides this, it carries with it the National Rifle Association's gold medal and gold badge.

Prior to this year, the King's Prize at Bisley had been won five times by Canadians. These winners were: 1895—Pte. T. H. Hayhurst, 13th Regiment, Hamilton, Ont. 1904—Pte. S. J. Perry, 6th Duke of Connaught's Own Regiment, Vancouver. 1914—Pte. W. J. Clifford, 10th Royal Grenadier Guards, Toronto. 1913—Sergt.-Major W. A. Hawkins, 48th Highlanders, Toronto. 1924—Lieut. Desmond Burke, Gov.-General's Foot Guards, Ottawa.

Australia, New Zealand and South Africa each captured the King's Prize once. The contest was instituted in 1860 and, of course, the large majority of winners were from England with some from Scotland.

No Bisley meetings were held in the war years from 1915 to 1918.

#### WASHINGTON TOWN BURNS

Business Section and Residences in Creston (Lincoln County) Destroyed

SPOKANE, Wash., July 18.—Most of the business section and several residences in the town of Creston (Lincoln County) were destroyed by fire last night. The loss is estimated at more than \$100,000. Twenty-four buildings were involved in the destruction.

#### Three Great Forest Fires are Raging in West Kootenay with Damage to Property being done

NELSON, July 18.—At least three great forest fires are raging in the West Kootenay in addition to twenty lesser ones.

A fire at Paulson, east of Grand Forks, is holding up the eastbound Kettle Valley train.

On the C.P.R. branch line between Roseberry and Nakusp, fire at Hunter Siding destroyed the sawmill with all its buildings. The train was unable to get through and had to return to Kakusp, picking up four men, two women and a team of horses at Summit Lake to save them from the flames.

A fire at Whitewater is simply an inferno and it is reported to be within five miles of Kaslo. The area of this fire is forty to seventy-five square miles.

#### FOREST AND FIELD PARTY ARRIVES

Boston Excursionists Visiting Stewart Before Going South Tonight

A party of twenty-eight from the Forest and Field Club of Boston, Mass., arrived in the city yesterday afternoon on the C. N. R. train. In charge of the party is C. W. Casson, who made a similar trip through the West Kootenay with another party, on its way through the mountains the party stopped at several points of interest including Hazelton, Kitwanga and short stops at some of the canneries on the Skeena River. The party left at four o'clock on the Prince Rupert for Stewart and will proceed south on the same boat tonight.

#### ONTARIO SCHOOL TEACHERS HERE

Party of 85 Arriving in City by Special Train This Afternoon

A party of 85 school teachers from the province of Ontario will reach the city this afternoon at 4 o'clock by special train. Last year a similar party from the same section came through here and stopped at several points en route.

The party reaching here today were met at Jasper Park by R. F. McNaughton, district passenger agent who is accompanying them to this city. They have made several stops at various points, including Buckley Gate, Kitwanga, and a short stop at Sunnyside cannery. The party are proceeding south tonight on the Prince Rupert.

#### NEW GYRO HEAD

VANCOUVER, July 18.—Kenaz Huffman, lawyer of Denver, Colorado, was elected international president of the Gyro Club at the convention here this week. Clarence H. Loughheed of Calgary was given the post of vice-president and Ed. Kagy was re-elected international secretary.

VICTORIA, July 18.—The final for the men's singles tennis championship of British Columbia will be played here today between D. M. Gordon of Victoria and LeRoy Rennie of Toronto, the winners in yesterday's semi-finals.

In the men's doubles championship, Garrett and Proctor of Victoria will meet McCallum and Gordon of Victoria and in the ladies' doubles Mrs. Bourque of Edmonton and Mrs. Wright of Ottawa will be opposed by Miss Marjorie Leeming and Miss Tatlow of Victoria.

In the mixed doubles Miss Leeming and Proctor of Victoria will meet Mrs. Wright and Rennie.

In the women's singles, Miss Marjorie Leeming, winner of the Canadian title a week ago, will play Mrs. Wright of Ottawa.

#### JAPANESE TO GET REPRIEVE

Yamamoto, Port Alice Murderer, Likely to be Put in Insane Asylum

VANCOUVER, July 18.—I. Yamamoto, held at Okalla prison under sentence to be hanged on August 8, for the murder of another Japanese at a Port Alice lumber camp, will probably be reprieved and confined to the insane asylum following representations that have been made to the Department of Justice on his behalf. It has been learned that W. D. Carter, K.C., deputy attorney general, has recommended to the minister of justice at Ottawa that the prisoner be confined to the asylum for criminally insane.

#### TY COBB IS SUSPENDED

Manager of Detroit Tigers Had Argument with Umpire in Thursday's Game

DETROIT, July 18.—Ty Cobb, manager and centre-fielder of the Detroit Americans, was indefinitely suspended yesterday by President Ban Johnson of the American League following an argument with Umpire Rowland in the tenth inning of Thursday's game with the Washington Senators. Cobb will direct the operations of his team from the stands until his suspension is lifted.

**Power Development Badly Needed Here.**

Perhaps no announcement has ever been made by Hon. T. D. Pattullo, the local member of the legislature, that was filled with more possibilities for benefit to Prince Rupert than that of yesterday in which he stated that he had at last succeeded in getting somebody interested in power development here. Mr. Pattullo has long had this in mind for Prince Rupert and it is to be hoped that something will actually arise from it. There is already more power required here than the city can supply and the next few years will probably bring more demands. Industry today needs power more than it ever did before and, if power is available in Prince Rupert, there would no doubt be a great industrial expansion here.

It is now generally admitted that this city never made a greater mistake than when it turned down a power development scheme some thirteen years ago. If that had not been done, the city might have been a great deal ahead of what it is today. That, however, is "water over the dam." It was done and cannot be helped. Many people who were so keen about municipal ownership in 1911 would welcome the entry of a company into the district, providing the terms were right. It is doubtful if the city authorities now are willing to or even able economically to proceed with extensions to the city source of supply that would be necessary to provide the power that will probably be required here with port development in the near future.

The entry of a real big business concern into the power development field here would undoubtedly be a great thing for Prince Rupert.

**Home Newspaper And What It Means.**

It has been said that no institution not founded on a fundamental human need can live, says the Grand Forks Gazette. The reverse of this is also true. This is why the home newspaper, as an institution, has survived many things; the onslaughts of individual opposition, the increase of paper and printing costs, the perils of unpaid subscriptions, the uncertainty of advertising patronage, the problems of its own professional competition and the hazards of its own mistakes. Through all these the home newspaper still lives.

When subjected to the test of whether the home newspaper could be done without, there always follows the inevitable reaction of whether the people of the community would want to do without it. The more than 17,000 daily, weekly, semi-weekly and tri-weekly newspapers in the United States and Canada stand as proof of the important service the newspaper renders in its local field of circulation.

The newspaper is not an invention, nor is it a fad or fancy. It is a growth—a development made possible by the co-operative and receptive spirit of the people themselves because of the need for the transmission of news and as a circulation medium for advertising the products of the community and of the world. But the home newspaper is even more than this. It is the echo of the community's voice, a spokesman of the community's mind, a reflection of the community's vision, a champion of the community's rights, and a direct avenue for the community's progress.

**LILLOOET IN HECATE STS.**

Hydrographic Survey Steamer Doing Work in Preparation New Charts

The hydrographic survey steamer Lillooet has been a fortnight in Hecate Strait, having proceeded there from working in the northwest arm of Quatsino Sound, says the Victoria Colonist. Three of the hydrographic surveyors, W. K. Willis, L. R. Davies, and F. C. Smith, are at work at the south end of Princess Royal Island. This is really a continuation of a part of the work of the season 1924.

Under the direction of H. D. Parizeau, though the ship has to proceed to Queen Charlotte City, the work of the survey goes on, L. R. Davies and F. C. Smith, two of the surveyors, are living on the houseboat Somass, while Mr. W. K. Willis is camped on Price Island, which forms the south shore of Schooner Passage.

Mr. Parizeau has Commander J. H. Knight with him on the Lillooet, which has to proceed to Queen Charlotte City to coal, clean the boilers and paint the ship. He has then to return to Victoria to give expert technical evidence in the Beryl G. case, leaving Commander Knight in charge of the Lillooet to continue the survey of the west or ocean coasts of Aristazable and Price Islands, which forms part of a new chart to be known as "Laredo Sound and Approaches."

For many miles out to sea the waters of Laredo Sound are literally crowded with pinnacle rocks, both above and below water. There is not a more unknown or dangerous area of coast in the waters of British Columbia, with the exception of the west coast of the Queen Charlotte Islands. At the same time in parts there is much traffic of tug boats with rafts of logs and with scows and halibut fishing boats of all sizes. All these boats, as they are made of wood, take chances of finding new pinnacle rocks, but none of the government fishery vessels can enter this area as they are steel built and so cannot take any chances with rocks.

**HAZELTON**

At the annual school meeting last week W. S. Sargent and J. H. Willan were elected trustees.

The annual Sunday School picnic of the New Hazelton United Church took place on Wednesday afternoon at the recreation park. Thomas Willan got the highest number of points in boys' sports and Earl Spooner was second. Orrie Sargent, Alice Stoyneff and Frances Willan all tried for first place in the girls' division.

J. D. Wells and T. W. Shackleton of Usk arrived here last week on their way to the Kispiox gold strike.

Dr. H. C. Wrench, M.L.A. will go to Terrace on Monday to participate with Hon. T. D. Pattullo in the formal opening of the new bridge across the Skeena River.

Miss M. Collier, a former member of the Hazelton Hospital nursing staff, has arrived from Hamilton, Ont., to visit Mrs. N. R. Cary. She is accompanied by her sister, Mrs. Peteh.

Miss Ruth Bolivar, a graduate of the local hospital, has returned to join the staff here after having taken a post-graduate course at the Vancouver General Hospital.

**TERRACE NOTES**

WHAT will the women do in their spare time now that Murdock has gone?

THE funny thing about the month end dinner is that it isn't funny.

WE can live without music, poetry and fun, we can live without fretting or winning, we can live without motor boats, tennis and jazz, but I'm hanged if we'll live without dining.

WE hear a lot about more motive power for the city's needs. Why not harness some of the city windmills?

**Here and There**

This year's receipts from motor vehicles licenses in New Brunswick already amount to \$422,000. This amount is larger than the total for any year, except last year when the gross receipts for the whole twelve months were \$452,489. The estimate for the present year is half a million.  
The mines and quarries of the Province of Quebec produced to the value of \$18,952,896 during 1924, according to the final report issued by the Provincial Department of Mines. Building materials account for \$11,380,977; other non-metallic minerals \$7,191, and metallic minerals \$380,804.  
"In the Cascades and falls of the Canadian Rockies there is enough hydro-electric power to supply the American west with all the electric energy it will need for ages to come," declared W. Paxton Little, treasurer of the Niagara Falls Power Company, who recently visited Banff with a party of distinguished American electrical magnates.  
That the Province of Quebec abounds in historic and romantic material for the construction of popular novels, is the judgment of two popular writers—James Oliver Curwood, author of scores of best sellers, and Edwin Balmer, well-known short story writer—who have recently toured the province and Western Canada in quest of "local color."  
There has been an unusual distinction conferred upon Prof. Camille Couture, a Montreal musician, who, besides being a violinist is also a maker of violins. He has been honored with a medal and diploma from the British Empire Exhibition at Wembley for a magnificent violin of his make, which he exhibited there.  
In order to dispel the existing impression in England regarding the coldness of the Canadian climate, five thousand peony blooms are being distributed at the Canadian Pacific Railway Pavilion at the British Empire Exhibition. These plants were produced by W. Ormiston Roy, of Montreal, who states that peonies are the best landscape flower and can be grown in all parts of Canada, irrespective of climatic conditions.  
Hon. W. G. Nichol, Lieut.-Governor of British Columbia, and D. C. Coleman, Vice-President of the Canadian Pacific Railway, opened Crystal Gardens, the new and unique indoor salt-water swimming pool at Victoria, B.C., recently. This amusement centre, which has two dancing floors, a gymnasium, art gallery and tea-rooms, is regarded as the largest and finest of its kind on the continent.  
Being exceeded only by Mexico and the United States, Canada now ranks third among the silver producing countries of the world. Records of Canadian production have been kept since 1858 and show a total recovery of 451,000,000 fine ounces to the end of 1923. In 1924 production was slightly in excess of 20,000,000 ounces. During 1858-1923 the value of production totalled \$290,705,532, while for last year it amounted to \$13,519,043.  
The first lot of buffalo, numbering some 200, to be transferred from the Wainwright Park to the new Buffalo Park, north of Edmonton, left Wainwright, Alberta, recently. For some time past the herd at Wainwright had been growing too rapidly and the Federal authorities decided to ship a number to the Buffalo Park to determine whether or not they can acclimate themselves in the new district as they did in the southern area. Altogether two thousand buffalo, in lots of two hundred each, will be shipped to the Buffalo Park.  
J. H. Thompson left on the train this morning to spend the week end with his family at Terrace.

No one starting out in life ever expects to fail. Youth is always hopeful, but hope alone cannot bring success.

If your hope is to see your boy a success in the world, securing independence and comfort—the vision of so many, yet the attainment of so few—adopt a regular savings plan for him now, and teach him in his tender years the value of saving something out of every dollar.

THAT WAY LIES HIS SUCCESS.

**CALLIES WON SOCCER CUP**

Dominion Day Trophy Carried off by Scots Last Night

Last night the Callies football team won the Dominion Day Cup by a score of 2-1 as a result of their game with the Great War Veterans. The game was not without its thrills and the large crowd present got good value for its money. The last half of the game was by far the more exciting and the last fifteen minutes was as exciting a finish as has been witnessed in Prince Rupert for some time.

In the opening half the Callies played down hill and secured a very easy goal, the only one in the period. The sun was shining in the goal keeper's eyes, and he scarcely was able to notice the ball at all until it was lodged behind the posts for a tally by Sam Currie. This heartened the Vets and they became very aggressive until the whistle blew half time.

The second period was football of a very different kind and, after the Vets had threatened the Callies goal which they cleared nicely, the ball travelled to the Vets end and there the Callies pressed vigorously. Gawthron was called upon to save some nice shots which he did acceptably. From now on the Callies had the best of the play, although occasional rushes by the Vets carried the ball near to the Callies goal. One of these resulted in forcing a corner which Bert Long drove in nicely in front of the goal and Brick Skinner headed in before the Callies had time to clear. The Vets supporters rose to their feet and cheered with great enthusiasm but their spirits were soon damped. Soon after being centered, the ball went to the mouth of the Vets goal, and Dave Scott drove the pig skin

between the posts and put the Callies one up. This gave the Callie supporters good reason for giving vent to their feelings, which had hardly abated when the whistle blew for time.

The Vets forward line seemed to be rather disorganized, and during the second period at no time were they able to organize their attacks to advantage. The Callies forward line on the other hand were very consistent in its playing and, were it not for the good defense on the Vets line up, would probably have added other counters to the score. On the whole the play was rather in favor of the Callies, whose team work rather than individual playing, was responsible for their victory.

**Wore Black Crepe**  
The players each wore a band of black crepe on their left arm out of respect to the memory of a deceased player R. Dowther. The teams lined up as follows: G.W.V.A. — Goal, Gawthron, backs, Erskine, Vic Menzies; half backs, Skinner, Murray, and Geo. Mitchell; forwards, Barton, Russell, Norwood, Jas. Mitchell and Bert Long.

Callies — Goal, W. Hamilton; backs, M. Andrews and W. E. Williscroft; half backs, J. Harris, S. Currie and R. Woods; forwards, Alex. Mitchell, R. McDougall, D. Scott, Wm. Mitchell and D. Jack.

Tom Jones was referee, and Dick Howe and Dr. Kennedy acted as linesmen.

**Sport Chat**

There is a move afoot in the city to start a Junior Baseball League and the same is worthy of every consideration by the sporting fraternity of the community. Wednesday evening was reserved at Acropolis grounds for the use of lacrosse players but, as it seems impossible to get this game under way this season, the junior baseball players may be given the evening. At the next meeting of the Baseball Association the matter will be brought before the gathering by President Ben Self, and anyone interested in the move should get in touch with Mr. Self at once.

The win of the Gyros over the Sawmill on Thursday evening has tended to revive interest in the city baseball league. The Sawmill were without the services of Lidstone but feel that they will be able to take the measure of the Sons when they next meet. It is not too late yet for any one of the teams to step out and win the city championship.

While other parts of the continent are scorching in a wave of near-tropical heat, Nels Nelson, world's champion ski jumper, Uno Hilstrom and Trand Nelson, speed along the surface of tons of snow and ice, thousands of feet above sea level, on Lefroy glacier, Lake Louise, soar through the cool, crisp air and land on the second terrace of the glacier. The popular winter sport has been introduced by Mr. Nelson for the entertainment of tourists who are visiting at

Lake Louise. The slopes of Victoria glacier, however, have almost proved too tame for the daring Norseman. He tried the slopes of Lefroy and before the summer months are over he proposes to model a hill upon which he will attempt to better his own world's record jump.

### Light Landings

Both American and Canadian halibut landings have been light this week with a consequent rise in prices offered on the Fish Exchange. A feature of the sales this week has been the good price received for Canadian second class fish which has been over a cent and a half higher than American in some cases.

While captains of schooners fishing off the west coast of the Queen Charlottes, and in nearer waters, report having encountered very heavy gales, which interfered greatly with fishing, those skippers fishing on the distant northern halibut banks report having experienced very fair weather conditions.

One reason given on the waterfront for the light arrivals this week is the fact that the majority of American schooners put into home ports for July 4 celebrations which has resulted in the big schooners becoming bunched. Also at this season a number of the big boats go south for annual overhaul and their absence is naturally felt from a producing standpoint.

### Business Slows Up

General business has slowed up quite a bit on the waterfront during the week, as is usual at this time of year. With improv-

ed weather prevailing all boats are away from port catching fish while the sun shines. The shipyards are pretty well through with boat building programs although considerable remodelling repair work is on hand to various craft.

### Arrivals

Arrivals this week included: American—Foremost, Sherman, Hi Gill, Sirius, Valorous, Brisk, Glacier, Reliance, Tahoma, Democrat, Senator, Sentinel, Lenore, Teddy J., Defence, Emblem and Kennebec. Canadian—Margaret L. Ingrid H., Ternon, Marguerite, N. & S., Fanny F., Fisher, Toodie, Brant E. Lipsell, Verna and Gaygeon.

### An Easy Duck

Captain Iverson, skipper of the good Canadian schooner E. Lipsell, was the happiest man on the waterfront on Thursday morning, and cared not whether it rained ink or if the boat's cook soled his shoes with the left-over flapjacks. Upon being closely questioned, Cap. divulged the reason for his reckless happiness. Yes sir, he had earned an easy dollar and he didn't care who knew it. While fishing about 4 miles off Tow Hill, Q.C. Islands, something of a metallic nature scraped the hull and those aboard had visions of a floating treasure chest. A moment afterwards the boys hauled in a splendid halibut specimen bearing nobly a government tag and testifying to the handwork of Prof. Thompson, government fisheries expert. A guard was mounted over the fish until it reached port in case it should get lost in the scramble. Upon arrival Thursday morning Cap distinguished himself and his crew by hauling the tagged discolorator wonder up to John Dybhavn's office where he received a crisp dollar bill for his trouble.

Power boat Vesta, owned by the Prince Rupert Spruce Mills, left port on Thursday morning with C. P. Rief and Mr. Tucker aboard, on a three week's trip down the coast on a timber cruising expedition.

With the return of summer weather the activities of the local Yacht Club members have mostly been confined this week to swimming parties and advantage is being taken daily of the good graces of the weather man to indulge in aquatic recreation at the salubrious Sall Lakes.

### The "Elto" Engine

N. M. McLean, the boatbuilder, is busy building a 12 foot shallow water cedar boat which is to be equipped with an outboard "Elto" engine. It will be capable of carrying 12 people and is guaranteed to maintain a speed of 7 miles per hour. Many inquiries are being received by Mac, who is the local agent for the Elto outboard motor, and already there are several well satisfied users in the city. This engine is quite easily fixed at the back of any ordinary row boat or canoe and ranges in price from \$175 to \$195, the first cost being the last cost. The ease with which this little giant power plant is started and its low cost of operation is making it a very popular engine. The "Elto" is on hand at Mac's yards at Cow Bay for immediate delivery and a call to Red 400 will arrange all details.

The tugboat P.R.T., Capt. Harris Kerr, made a trip on Tuesday to Skeena River canneries with her owner George Bushby, of tugboat fame, aboard. Mr. Bushby was accompanied by Mrs. Bushby and family. Capt. Jim Morrison was Mr. Bushby's guest on the trip.

The packer Narbethong, skippered by Bert Wearmouth, arrived in port on Thursday morning from Dundas Island with 3,000 spring salmon for the Allin fisheries. Bert says the cohoes are coming in

### Rhymes of Hippo

(contributed)  
Away in an inlet, where waters are still,  
Lie three of the dreadnaughts, awaiting God's will.  
They're all going fishing but in morning's dawn,  
The alarm rings unheeded; the harve ones sleep on.

Ashore on this island a bakery stands,  
Run by two pretty lasses, with lily white hands.

Bread, doughnuts and cookies they bake day and night,  
And everyone wonders why they can't make 'em light.

The things look so tempting, but someone has said,  
Why don't they quit baking to make sinkers instead.

For men must eat and women must cook,  
In spite of the grouch and the nasty look.

While the harbor bar is moaning—"Two Bakers."

An Atwater-Kent ignition system has recently been installed on the halibut boat Swilling, owned by Roberson and Goodlad, in place of the make and break ignition system.

Nels Nelson, owner and skipper of the power boat Wanderer, has recently salvaged the wreck of the Kelly Logging Co.'s boat Dorothkalon, which occurred off the coast of the Q.C. Islands some time ago. The engine will be overhauled at the dry dock.

Repairs are being made to the Akerberg-Thomson wharf. New piles are being driven by the John Currie pile driver and the derrick is being overhauled.

friends were down at the Prince Charles on Wednesday night to give him a "bon voyage" send off upon his return to Vancouver after visiting the new court house site at Smithers for which he has the contract in partnership with Olof Hanson.

The tug Cape Scott recently arrived with 300 tons of coal from Nanaimo and 20,000 feet of lumber for the Albert-McCaffery interests. The lumber is to be used on the replanking of the North West Dredging Co.'s scow now on the dry dock.

### Found Another One

George Frizzell thought he knew every rock and floating log between here and Port Essington but even the wisest of us miss our guess sometimes. George was coming in from Port Essington recently and struck a half sunken log with the result that he bent the propeller and tailshaft of the power launch Laura F. and she has been out of commission for a few days this week. There will now be another black mark on George's chart which at the present time resembles a fly paper during a heat wave.

### A Good Samaritan

Captain Benson, owner of the dust raiser Poinsettia and incidentally one of the leading lights in Yacht Club circles, is spending his evening hours touring around the harbor acting the good Samaritan. Ben delights in sneaking up on little skiffs and well filled rowboats with the idea of showing them a real boat and giving them a sort of roller-coaster effect as the backwash from the propeller seeps over the side of their craft. When Ben is travelling, which is fairly often these days, he hits up about 10 miles per hour, which, to a guy trying to scull two or three hundred pounds of human freight across the bay, looks more like 100 m.p.h. But what tickles Ben is to come across some luckless

person in a motor boat when the engine won't function. Then with a broad smile and many dapper bows the speeder will suggest they throw him a line and follow him home.

James Brown, the Ecstall river lumber man, was in port this week aboard his power boat Sloe with a scow of fish boxes in tow. On the outward journey Jimmy had the misfortune to break a cap screw in the connecting rod which connected him to the Akerberg-Thomson wharf for a day or two.

Lance is now a man in blue, And struts along the street. He's here and there and everywhere, His beat is full of feet.

### Police! Police!

Lance Polterton, the man who put the tin in tin-lack, and until recently assistant supervisor of left-handed hammers at the Booth Fisheries, has gone and joined the local police force. The new job is evidently doing him good for although he has only been at it for a few days he has already put on weight—about the feet.

If you should happen to transgress Or throw a fit or two, You'll very quickly change your ways When you see this man in blue.

For like the blacksmith in the yarn, His muscles rise and fall, Don't stand and argue—take my tip Or he'll drive you to the wall.

### The Hein Engine

N. M. McLean has recently been granted the agency for B.C. for the Hein (Danish) full-deisel crude oil engine on the 4-cycle system, one of the most remarkably efficient engines on the market today. A 20-h.p. engine of this make only costs \$1,100. These engines are built

from 6 h.p. up to 450 h.p. and their great feature is lack of vibration and easy starting plus their economy of operation. The Hein Company is sending one of their experts to the city to take charge of installations. Upon his arrival demonstrations will be made with one of the Hein machines now at Mac's yards, Cow Bay. A number of inquiries have already been received from boat owners and doubtless much interest will be created when demonstrations get under way.

C.G.S. Estevan, Capt. H. Billon, has arrived from Victoria to load building materials at Digby Island for the Cape St. James lighthouse. The dwelling house was recently burned down and it is the intention of the government to rebuild it. Four carpenters will go from here to do the work, viz: Alex. McLeod, foreman; Chas. Taylor, Hugh Killin and J. Mackenzie.

Louis Locker, the logger, was in town this week from Porcher Island for camp supplies and mechanical equipment from the Akerberg-Thomson shops.

### Customs Excited

Great excitement prevailed at the Customs House on Thursday when the radio receiving set broadcasted an S.O.S. to the office staff. Jarvis McLeod, collector of customs, sprang to the headpiece, like a hungry dog at a bone, and gleaned the information that Captain Cross, of racing boat fame, was stalled in the harbor, and that some misguided person had put fresh water in the gas tank instead of gasoline. Collector McLeod thereupon set the wheels of rescue in motion and a high powered motor boat was despatched to bring the delinquent craft in to port. This little episode goes to show how very necessary it is to have a radio broadcast on the pleasure craft, otherwise skipper Cross might have been on the harbor yet.

# AIRPLANE MAPS OF MANITOBA

Dominion Government Making Aerial Survey of That Part of Country

WINNIPEG, July 18.—When the last seaplane is shipped from Montreal by the end of June, there will be 16 planes engaged in forest patrol and photographic survey work in the northern portions of Manitoba. There are at present nine in the service, which is carried on by the Dominion department of the interior.

The new machines are being specially built by the Vickers company, Montreal, and will be of the most up-to-date type. While the aircraft commissioned for service in Manitoba last year made flights from eastern Canada, the planes now being constructed will be shipped west by train, after being put through a thorough test.

The photographic survey which was started last year when Major Hobbs covered the Reindeer Lake country, will be continued, and the photographers are concentrating on territory east of Lake Winnipeg and on both sides of the Nelson river as far north as

### As He Understood It

A little five year old was pleading to be allowed to go out to play. His mother became rather cross and said, "When I see fit, you shall go, not before." ## ROTARY BOYS' BAND BEING ORGANIZED

Arrangements Well Under Way, Prospects For Success Very Bright

The committee of the Rotary Club which has in mind the formation of a boys' band held a preliminary meeting last evening. It is expected that there will be little difficulty in getting the band under way as there are a large number of boys who have already expressed their desire to become members.

The club already has made arrangements for the instruction of the boys, having engaged Bandmaster Wilson for three evenings a week for the next six months.

Several instruments are already available and, in several cases, the parents of boys have expressed the intention of supplying their boys with instruments. In addition, one instrument has already been donated and it is expected others will also be received. This will encourage a good start and soon the organization should be in stride.

Boys only from 10 to 14 will be eligible to join and, after they have reached the age of 16, will automatically give place to younger ones who may care to join.

The committee which consists of J. W. Nicholls, H. H. Little and W. D. Vance is very enthusiastic concerning the matter which has aroused a great deal of interest among the boys.
