HUNDREDS SPEND NIGHT ON BLAZING SHIP

CITY WATER MAIN CARRIED AWAY BY BIG LANDSLIDE FROM MOUNTAIN

Exciting Time Aboard Burning Vessel as She Races for Nearest Port

Passengers and crew of Steamer Lenape, 368
in number, reach Delaware breakwater
in safety; one drowned

LEWIS, Delaware, Nov. 18.—The Clyde liner Lenape was scuttled inside the Delaware breakwater early this morning after winning the race for life with 368 passengers and crew aboard who spent a harrowing night at sea on board the burning vessel.

The Lenape caught fire early last night off Atlantic City en route to New York from Jacksonville. Many women and children were aboard and naturally there was the greatest consternation. The vessel put into the nearest shelter and discharged her passengers and sent the crew ashore before the fire got sufficient headway to make their presence aboard impossible.

One man was drowned and more than a dozen persons were injured but none seriously.

FIRST DIVISION THIS SESSION

Defeat of Colonel Peck
by Vote of 24 to 20 on
Amendment to Ad-
dress

VICTORIA, Nov. 18.—The Legislature took its first division yesterday when an amendment by Colonel Peck, Conservative member for the Islands, was voted on. He expressed regret that Vancouver had not been given cabinet representation by the government and was defeated by 24 to 20.

The amendment was accepted by Premier Oliver as a straight vote of lack of confidence in the government.

Noting against it, in addition to the Liberals, were D. A. Stoddard, the provincial member for Cariboo; Thomas Uphill, labor member for Fernie; and J. Burde, independent for Alberni.

BODIES PICKED UP ON COAST

Only One Still Missing of Those
Lost from Coast Guard
Steamer Morill

SHELburne, Nov. 18.—Eight bodies of sailors of the U.S. coast guard steamer Morill were picked up on the shore near here yesterday. One body is still missing.

The nine men were drowned when returning to the steamer in sail boat when the craft capsized and only one out of the ten aboard was saved.

BODY OF VICTORIA WOMAN IS FOUND

VICTORIA, Nov. 18.—The body of Mrs. Maria Ahlitt, 55 years of age, was found floating in Ross Bay last evening. She had been missing since morning.

Unable to Fill Vacancy
in Pastorate.

It was found at the congregational meeting of the First Presbyterian Church held last evening for the purpose of taking steps to fill the vacancy made through the resignation of Rev. Dr. H. B. Grant that it would be necessary to have a moderator appointed in order to extend a call. It was decided, therefore, to communicate at once with the New Westminster presbytery with this end in view and there will be another congregational meeting on December 1, when it is expected that some definite action towards the filling of the vacancy may be taken. G. H. Munro presided at last night's meeting.

Hawaiian Islands have been picking up the C.N.R.V. programs regularly and it is hoped to reach Australia.

FATHER BELLE OF ROME VISITS CITY

Superior of Prince Rupert
Priests Arrived Here on This
Morning's Train

Father Belle of Rome, superior of the fathers of the Roman Catholic Church in Prince Rupert district, arrived in the city on this morning's train coming direct from Rome. He will spend a week here on official duties and will then proceed south. Father Belle was met on arrival here by Bishop E. M. Bunoz and Father P. J. McGrath.

Mr. and Mrs. Roy T. Woodley, pioneers of Entrance, Alta., and now of Vancouver, with their ten children, all of whom are under 12 years of age. The father is a native of Ontario.

LOOKS FOR GRAIN HERE

Vancouver Embargo, M. P. McCaffery Expects, Will Benefit Prince Rupert

That the embargo which has been placed on the shipment of grain to Vancouver on account of the lack of facilities there to dry it will result in grain for export shipment coming through this port as soon as the elevator here is completed is the opinion of M. P. McCaffery, chairman of the local grain board, who returned to the city on the Prince Rupert this morning after a business trip south. Results of his trip as far as the question of grain shipping is concerned will be reported by Mr. McCaffery to the grain board at an early meeting.

Mr. McCaffery was accompanied on the trip by his daughter, Margaret.

Mountain Landslide at Shawatlans Carries Off Sixty Feet of City Main

Pump will be in operation by evening and in
meantime reservoir is supplying
city with water

The municipal gravity water system is out of commission today and the city is depending on the Aeropolis Hill reservoir for its water supply until the emergency pumping plant at Shawatlans Lake can be put into operation as a result of a big slide which came down a steep mountain side early this morning and carried away about 60 feet of 45 inch pipe on the mainline between Woodworth and Shawatlans Lake.

The point where the pipe line was thus damaged is about 2,000 feet below the dam or three hundred feet below the falls in the creek between the two lakes. Originating up a steep side

hill, the slide picked up trees and everything movable with it and the impact, on striking the pipe line, broke a joint. The force of the water released from the pipe caused part of the line to be washed into the creek and drove a hole 15 feet deep to bed rock.

The cause of the slide was probably the recent heavy rains. It is believed that it occurred about 3 or 4 o'clock this morning and the first intimation of the trouble was given about 6 o'clock this morning when it was noticed that the pressure was down and that the water in the reservoir was falling. Had the power plant at Shawatlans Lake been in operation it would have been noticed sooner and the power supply would have been stopped. There is no inconvenience on that score, however, because the city power is at present coming from the dry dock while the plant at Shawatlans Lake is undergoing repairs.

Immediately after the break was discovered, water from the dam into the main was turned off to prevent further erosion and arrangements were made to put the pumping plant at Shawatlans Lake into operation to pump water into the reservoir. It will be running by evening and, with sufficient water in the reservoir to carry the city in the meantime, no interruption in water service is anticipated although the pressure may drop.

A crew of men left town early this afternoon to make repairs to the damaged main. The job, Ernest Love, superintendent of utilities, stated, will be a heavy one as the big pipes are very unwieldy and hard to handle in the position where they have

been washed out. It will be necessary to put in heavy cribbing or concrete and the job of making repairs will probably take ten days.

The washout may delay the reopening of the Shawatlans Lake power house which had been scheduled for November 29.

“Canada first, the Empire next” should be the watchword of the Dominion,” he declared.

Premier Mackenzie King Says to Seek Election Before House Meets Would Cause Undue Delay

OTTAWA, Nov. 18.—To bring on a by-election under any conditions or circumstances in order to secure my presence in the House of Commons on the opening day of the session would be to render my colleagues and myself liable to the charge of deliberately adopting a course of procedure which would not permit of Parliament assembling at the earliest practicable date and such circumstances would immediately become contingent upon a factor for which I myself or my government would be solely responsible, Premier Mackenzie King stated last night in giving reasons which would cause him not to seek a seat in the House of Commons before parliament assembled.

Indicating the probability of parliament meeting next month to test and decide the contention that the government is not entitled to carry on, the premier stated it is obviously desirable and every way in the public interest that all doubts in the matter be speedily removed.

“Canada first, the Empire next” should be the watchword of the Dominion,” he declared.

Share of Benefits of
Confederation

WINNIPEG, Nov. 18.—The secession of the maritime province was ridiculed as an idea which at present would not find support of “consequence” was the opinion expressed by maritime representatives yesterday at the economic conference taking place here. The members for the provinces in the far eastern part of Canada made an earnest plea for “common justice” and a fair share of the benefits which should be theirs as partners in the confederation. They also asked for serious consideration of their problems as a national obligation.

Indecent Action

Of Despard Twigg.

Despard Twigg's attempt to make political capital from the expert work of the provincial police will fall flat and will disgust many of those who have supported the Conservative party. Unpleasant things have to be done in the detection of crime just as in other lines of work but they are not things that can with decency be canvassed and discussed in public. Medical students secure the specimens for their analytical work but the average person does not know where they come from and it is not desirable he should know. A great many things are better not published abroad and one of them has to do with such things as the testing the course of a bullet when fired at a human head. The police have to test those things but we do not need to know just how and to have all the gruesome details paraded before us.

If Mr. Twigg has a complaint to make, let him do it in the proper quarter, but to try to make political capital of it and to bring such a matter before parliament is going the limit. In fact it is indecent.

Proposed French Flight From Pole.

France has found a new way of attracting public attention. Its naval department proposes sending airplanes to the North Pole and then having the explorers fly back to civilization in them. It is a novel idea and one in which much interest will be taken as in any big sporting event. Whether it is worth doing is another thing.

It looks to us as if this craze to visit the poles is overdone. Large sums of money and many human lives are given in more or less fruitless endeavors. Doubtless there is scientific work in connection with the expeditions that will prove of value but it seems as if there had been about enough done already for all practical purposes. There is no objection to a party organizing and paying its own way to visit any part of the earth they wish. The difficulty is that just as soon as they get into difficulties several other parties have to be organized to search for and relieve them. Governments are called on to lend aid and it is difficult to refuse.

Minister Of Crown At Disadvantage.

The attorney general in any government is always open to attack. His department is the one which deals with live matters that affect the people directly and vitally and is more or less spectacular.

Of late Attorney General Manson has been the subject of a number of political broadsides and he is not able to reply every time. His work makes it necessary that he bear a great many of the insults and receive the blows without returning them. Now and then, however, he comes back and that happened in the Legislature when the A.G. defended his course in regard to police administration. His indictment of the men who had been attacking him was a scathing one. He had the ear of the public throughout the province and doubtless his statement will have the effect of quieting some of the foolish apprehensions that have been felt.

Britain Holding To Immigration Restrictions.

A short despatch received this morning states that the British government refused to remove the war time restrictions on immigration. People going to that country must still have their passports vised and they must be people who are likely to prove good citizens. Before the war anyone could come without question as long as they were not police suspects. The probability is that the restrictions will be continued indefinitely. The lessons of the late war indicate that it is good policy to keep track of all new arrivals and to find out something about them.

SALVAGING BIG GRAIN VESSEL

Difficult Work Getting Poloric Back to Port When Steering Gear Broke

VICTORIA, Nov. 18.—The salvaging of the Poloric by the Salvage King in the ocean westward from Vancouver Island was a difficult feat and effectively executed. The vessel was wallowing in a sea caused by three cross winds of cyclonic intensity. Of the narrow beam type of construction the Poloric wallowed and rolled in the trough of mountainous waves, at times standing almost on end. Her starboard rail was buried time after time as sea broke over the listing vessel.

Efforts made to repair the broken steering gear and also to trim ship succeeded, and the position of the Poloric was much improved from that time, though she still faced mountainous seas left as the result of a raging gale which abated but slowly in the hours to follow. The Salvage King stood by to convoy the stricken vessel in these hours.

Line Aboard

It was on Wednesday that those on board the Salvage King shot their first line to the Poloric, by means of a rifle and grenade. The line carried fair to the stricken vessel but broke as those on board were trying to attach it to a heavier line.

A second shot placed another line on board and the Salvage King paid out over 1,800 feet of two-inch towing line. After considerable hard work and notable seamanship on the part of the officers of both vessels the Poloric was brought under tow and progress was made toward port.

It was during the long and arduous feat of towing the 561-foot freighter with its twelve degree list to starboard that the efficiency of the Salvage King showed well. Three distinct seas were running at the time, a southeast, southwest, and a westerly, all three combining to make towing difficult and playing with the freighter like a cork in a handrooked bathtub.

Washed by Seas

The Poloric rolled her lower rail under water time after time, and took seas over the hatch combings. At times she would rise almost on end, with mountains of water running out from under her as she sank again in the troughs.

Through it all the officers and men on the Poloric retained their positions, and managed to bring some comfort to the two Leasars seriously hurt in the first moments of the battle with the seas. Others, and there were many others, sustained minor cuts and bruises and the plunging ship proceeded on her way towards port.

EMPEROR ORE SHOOT IS PROVING UP WELL

Average Assay Gives Returns of Over \$25 a Ton and Huge Body of It There

STEWART, Nov. 18.—The ore shoot at the Emperor Mines at the end of last week is turning out very well. Assays across the face taken every inch gave an average of \$25.40 to the ton. With 25 feet of this class of ore at a depth of about 400 feet there is enough ore in sight to warrant the installation of a mill.

J. S. Cowper of Vancouver is heavily interested in this mine and he sold stock all last winter to Vancouver people. Gus Seifert, the local manager, is being congratulated by everyone here and local people realize the effect the good news will have.

The Emperor ore body is in a particularly fine position for mining, the vein being nearly vertical and altogether it is a very promising property.

NIGHT SCHOOL CLASSES OPERATING AT ANYOX

ANYOX, Nov. 18.—Night school classes are now operating here in mechanical drawing, metallurgy, mineralogy, electrical practice, high school subjects, public school subjects, English for foreigners, and boiler shop practice. A class is also being organized for bandsmen and another class on building construction is planned if enough students offer.

SUGGESTS LAWMAKERS GET DOWN TO BUSINESS

Victoria Paper Thinks Too Much Time Wasted in Foolish Opposition

Whether the session of the Legislature now under way be either short or of customary length, drab or exciting, is of no particular concern to the people of this province as long as our lawmakers shall apply themselves to the dispatch of public business with the same care and consideration as they would devote to their own. As far as the session has gone there has been very little to mark any difference between this one and former ones. The members of the opposition who have already contributed to the debate on the Address have run true to form.

Very few constructive ideas have been propounded by them, excepting perhaps, Mr. Hinchcliffe's proposal to alter the form of taking the absentee vote—a plan which might well be considered. Various accusations have been made. If any of these were serious, or even intended to be serious, there might be some justification for their consideration in detail. For the most part, however, their frivolous

Dr. Wood's Norway Pine Syrup

Mrs. S. E. Little, 103 Inkerman St., London, Ont., writes:—"I got a very severe cold which settled in my bronchial tubes.

I coughed night and day, and although I tried several different remedies I could get no relief until a friend advised me to take Dr. Wood's Norway Pine Syrup. This I did, and I must say that it gave me almost immediate relief as I got rid of my cough very quickly. I hope this testimonial will be the means of helping others."

VICTORIA REALTORS WILL MAKE STUDY OF COMMISSION GOVERNMENT

VICTORIA, Nov. 18.—The Victoria Real Estate Board at its fortnightly meeting in the Chamber of Commerce, appointed a committee consisting of Fred Landsberg and David Leeming, with power to add to their numbers, to study civic affairs and bring in a report to the organization on betterment in civic government methods.

Fred Landsberg suggested that the special committee interview the legislators and seek action permitting adoption of the city manager plan of civic administration.

FIRE ADJUSTERS ARRIVE IN CITY

Survey is Being Made Today of Damage Done at Mill in Big Blaze Saturday Night

To make adjustments of insurance in connection with the big fire last Saturday night at the Prince Rupert Spruce Mills, P. G. Shaleross and K. G. McCandless, representing insurance concerns, arrived from Vancouver on the Prince Rupert this morning. They are making their surveys of the damage today and expect to have their work completed and a settlement probably reached before they return south on the steamer Friday morning. It is understood that representatives of other insurance companies carrying risk on the mill are expected here within a few days.

J. A. Smith, president of the Prince Rupert Spruce Mills Ltd., this morning reiterated his statement made immediately after the fire that rebuilding of the plant would depend on how insurance adjustments were effected. He expects to go south himself on Friday morning on business in connection with future plans.

In the course of a conversation this morning, Mr. Smith expressed every satisfaction with the local fire department both as regarded the speed with which it reached the scene of the blaze and the work it did after arriving there.

SCHOOL MATTERS ARE BEFORE MUNICIPALITY

Sanich Requires Principals of Schools to Co-operate For Mutual Benefit and Will Encourage Art

VICTORIA, Nov. 18.—Two important steps were taken by the trustees of the Sanich municipal schools at their meeting at Royal Oak. One of these was a decision to ask the principals of the various schools in the municipality to meet occasionally

with a view to securing uniformity of system and in the supplies required. This would obviate the appointment of a superintendent or supervising principal.

The other decision was to provide art pictures to be hung in the schools in an endeavor to inculcate a love of art in the pupils.

SMITHERS ATHLETIC CLUB HOLDS ANNUAL MEETING ON MONDAY

Officers Elected for Coming Year: Skating Rink is Rented to Percy Davidson

SMITHERS, Nov. 18.—The Annual meeting of the Smithers Athletic Club was held in the G.W.V.A. rooms on Monday night and an extra large crowd of sport fans in attendance.

The report of Pres. Al Finnerty and his officers covering the activities of the past year, while perhaps not showing as an extensive program as other years was very encouraging and met with the satisfaction of those present.

The financial statement showed that some \$1800 had been raised through various sources and practically all spent on sports and athletic events during the year. The main items of expense was incurred in bringing in the Prince George and Burns Lake hockey teams for games with the local boys last winter.

The meeting decided to let the skating rink out to Percy Davidson for the coming winter, but reserving certain hours for the use of the hockey teams for practice. Mr. Davidson managed the rink for the club a couple of seasons. He is now on the job getting ready for King Frost.

On Monday night the business men of town showed that they are behind the club in its endeavors to promote sport and amusement for the public and several of them accepted positions on the executive committee.

In the election of officers the following were chosen to carry on for the next year:

President, Al Finnerty, (re-elected fourth year).

Secretary, Geo. Roberts (re-elected).

Treasurer, Phil Hoskins (re-elected).

Vice-pres, Cliff Warner.

Executive—Messrs. J. Mason Adams, H. W. Matthews, Stuart Campbell, Dr. Hankinson, E. E. Orchard, N. Kilpatrick, F. Watson and L. B. Warner.

SMITHERS

Mr. and Mrs. L. B. Warner entertained a number of friends at bridge last Thursday evening, having as their guest of honor Mr. and Mrs. J. P. Kirkpatrick. Cards were played at seven tables and the prizes were won by Mrs. J. P. Kirkpatrick and Mrs. C. Reid for the ladies and D. D. Munro and J. G. Stephens for the men. Following the serving of refreshments a pleasant hour was spent with singing and music.

Roy McDonald of New Hazelton was a visitor in Smithers last Friday and while here rented a house with the intention of coming here to live for the winter months.

Mrs. J. Manson Adams and Mrs. C. Reid entertained in honor of Mrs. J. P. Kirkpatrick with an afternoon bridge party at the home of Mrs. Adams last Friday.

Prov. Constable Thos. Thais has been granted a six months' leave and left on Monday for a holiday to be spent with friends and relatives at his old home in England. From Vancouver Mr. Thais intends going to the Old Country via the Panama Canal.

If the advance sale of tickets can be taken as an indication, the entertainment being put on by the Gray Orchestra on Thursday night in aid of the local Hos-

pital, should be a huge success and local talent is working hard to give a varied and entertaining program.

After a week's holiday spent in and around Smithers, E. R. Cox, telegraph operator at Hazelton left for his home on Saturday.

STEWART

The last shipment of ore for the season, consisting of 60 tons, was made last week from the Porter Idaho mine to the Selby smelter. Development work will be continued throughout the winter with a view to resuming shipping as soon as weather conditions permit in the spring.

Twenty tons of high grade silver ore, accumulated without the use of powder or steel, was shipped to a southern smelter last week from the Cantu mine, a recent location on the American side of Salmon River owned by T. W. McDonald and F. N. Cronholm of Hyder.

Capt. C. A. Mackenzie of Vancouver has taken an option on the Northern Light group of claims adjoining the Premier. The owners are Charles and William Bunting. FRONT PAGE

PRETTY SHOWER FOR MISS ANDERSON AT HOME OF MISS JONES

In honor of Miss Gertrude Anderson, who is to be married this month, Miss Catherine Jones, 612 Young Street, entertained at a miscellaneous shower last evening. The hostess was assisted in receiving by her mother, Mrs. Robert Jones.

The rooms were decorated in pale pink relieved with white hearts appropriate to the occasion, while in the centre of the table was a bride's cake.

In the course of the evening the presentation ceremony took place when little Lillian Jones and Merle Viola West drew in a wagon load of gifts for the bride-to-be.

The evening was spent most enjoyably in music and games with Miss Irene Morrison at the piano. A guessing contest was won by Mrs. Robert McDougall and the second prize went to Mrs. A. Leveque.

Dr. William Sager of Port Simpson, who came here to conduct the enquiry into the death of Mrs. William Frost, expects to return to Port Simpson on the Catala tomorrow night. Dr. Sager and his family are planning a holiday trip to Vancouver in the near future.

Probably one reason for the popularity of WRIGLEY'S is that it lasts so long and returns such great dividends for so small an outlay. It keeps teeth clean, breath sweet, appetite keen, digestion good. Fresh and full-flavored always in its wax-wrapped package.

SPORT CHAT

Vic Foley, Vancouver bantam-weight, who is now on a trip to Portland and California, cleaning up a few of 'em, is to have one of the biggest battles of his career on December 7 when he will defend his Canadian championship in Toronto against Bobby Eber, Eastern Canada's best. Jack Allen, Foley's manager, is said to have been guaranteed one of the largest amounts ever paid for a Canadian championship in undertaking to present his protégé at Toronto. Eber is said to be one of the cleverest bantams in the fight game and it is believed that the approaching encounter will be a bout worthy of the Canadian championship.

The New York Giants will sign on Ernie Nevers, pitcher, Stanford football captain and all-American fullback candidate, it was announced in New York this week. The contract will come into effect after Nevers leaves college which he is now attending. Besides being a football player of national prominence, Nevers has earned a name as a baseball pitcher and hitter and also plays a good fielding position. The Chicago White Sox and Boston Red Sox also sought for Nevers' services but the Giants beat them to it.

GAZETTE TELLS ABOUT RUPERT

Continuation of Article on Visit to Co'd Storage Plant Here Is in London Magazine

The Canadian Gazette, published in London, continues in its latest number the article on a visit to the cold storage plant at Prince Rupert as follows:

The system in the cold storage plant is storage of the fish according to weight. In one room, with a capacity of 300,000 lb., halibut from 10 to 80 lb. are stored. In another with a capacity of 350,000 lb., halibut from 24 to 40 lb. are preserved. "Whales," that is to say, halibut from 80 to 250 lb. are stored in another room, "Chickens" halibut under 10 lb. in another room, and "Babies," salmon under 5 lb., in yet another room. Rooms are also used for public cold storage.

The length of time that the fish will keep in cold storage, I was told, in perfect condition was one year, but it can easily be stored for two, if necessary, without harm.

Ice Storage

Before leaving the cold storage we saw the ice storage room, in which at times there were 300 tons of ice in great oblong slabs. The full capacity of the ice storage amounts to some 1,900 tons. Leaving the cold storage, we visited the ice making plant, where there are three tanks for making ice in a huge room with a capacity turn out of 100 tons in every twenty-four hours.

Above the packing rooms are the ice-crushers, the large ones capable of crushing one ton of ice in about two minutes. The great slabs of ice come sliding down the long inclined metal-lined wooden shutles from the ice making plant to the crushers, where they are speedily demolished, the crushed ice falling through funnels in the floor and down the shutles to the packers below, or out of the building along long shutles to the metal funnels from the wharf down to the holds of the fishing boats, the large boats being served with ice crushed by the large crushers, and the small boats by the smaller crushers. Ice also passes out on to the platform crushed for the refrigerator cars, or in slabs sliding down a chute into the cars for transportation to local consumers.

The Smoke House

The next place of interest is the smoke house, with a capacity when in full swing, for smoking 3,000 lb. of fish. Spruce is the only fuel used for smoking in the four smoke houses. The fish smoked are salmon, black cod and herrings, which last are made into kippers and bloaters. Herrings for smoking are split.

SURVEY COMPLETED AT DUNWELL MINE FOR IMPROVEMENTS

Power Plant and Tram Line to Work in Connection With Mill Which is to be Installed

STEWART, Nov. 18.—Dalby B. Morkill, who went south a few days ago completed the survey of a mill site and tram line at the Dunwell mine before leaving. The power for operating the mill will be generated by two 200 horsepower internal combustion crude oil engines.

The mill will be connected with the mine by an aerial tram 4,200 feet long operated by gravity and capable of handling 100 tons of ore every eight hours. The ore will come out of Number 4 tunnel pass through a fifty ton bunker into a crusher and then into a five hundred ton bunker from which it will feed evenly into the tram. At the lower terminal it will pass through a small bunker, through another crusher into the 500 ton bunker. Work during the winter will consist chiefly in blocking out ore so that by the time the mill is ready there will be plenty of ore to keep it running.

STEAMER BURNED IN ALASKA KNOWN HERE

Gunner was Engaged in Coast Trading Before Entering Northern Whaling Business

Word has been received here that the steamer Gunner, formerly well known as a caller at this port has been burned to the water's edge, and what was left of the boat was ashore in Prince William Sound, Alaska.

Two of the crew of the boat were badly injured during the fire; Richard Holbrook of Seattle and Frank Hanson of San Francisco. Captain L. Lane, owner of the boat, is on his way south to report the accident at San Francisco.

The Gunner was brought to this coast from the North Sea by Captain G. Polkinghorne, and for a time she was operated in the coast service. Then a company was formed to search for the treasures of Captain Kidd or some other famous Spanish gold deposits on Coos Island. The treasure was not located and the ship was sold. Since that time, which was about eighteen months ago, nothing was heard of the ship until this report, when it was learned she had been burned while whaling off the coast of Alaska.

CULLING STUDENTS AT THE UNIVERSITY

Many Freshmen Will be Asked to Withdraw at Christmas to Avoid Waste of Time

(Vancouver Star) At the present time every university in Canada, including the University of B.C., is greatly perturbed at the number of students who fail to last the course.

The problem is by no means new. In fact, it can be classed as a hardy annual. Today, at Point Grey, the faculties are busy looking into the records of the Freshmen, with a view to calling upon those they consider unfit for a university education to withdraw at Christmas, in order to avoid any further waste of time or money.

With the growth of our educational system it has become the ambition of almost all parents to put their children through the university. They fail to grasp the fact that, in the large majority of cases, their sons and daughters are unfitted for the higher education, and that, even if they struggle through to a degree, they are no further advanced along the true path of life.

Tongue Was Coated Bad Taste In Mouth Every Morning

Mrs. J. R. Adams, Assiniboia, Sask., writes:—"For months I was troubled with a coated tongue, and had a bad taste in my mouth every morning. One day I saw where your Milburn's Laxa-Liver Pills were advertised for just such a condition as mine, so I went at once and bought three vials of them, but after using one-and-a-half, all my troubles disappeared."

One day I saw where your **Milburn's LAXA-LIVER PILLS** were advertised for just such a condition as mine, so I went at once and bought three vials of them, but after using one-and-a-half, all my troubles disappeared.

The Man Who Talked at Random

HE sat in the window-corner of the Pullman's smoking compartment, and breathed fatly and uttered large opinions in a suety voice. It grew late, as so often it does; and he put the quietus on a discussion with the ponderous statement:

"I don't read advertisements. They have no effect on me at all. I'd never miss them if they stopped printing 'em."

Then he glanced at his advertised watch and sought his lower birth.

In the morning the ad-skeptic contorted himself out of his advertised pyjamas into his advertised underwear, drew on his advertised socks, adjusted them with his advertised garters, got into his advertised clothes, laced his advertised shoes and added himself to the congestion in the wash-room.

There he shaved with an advertised razor, using advertised shaving cream; brushed his teeth with an advertised toothbrush and advertised dental cream, washed with advertised soap, and brushed his hair with an advertised brush. Buttoning his advertised collar on an advertised button, he neatly knotted his advertised tie, gave his advertised suspenders a tug or two, and finished dressing.

Let us leave him there, this man who never reads advertisements!

Everything worth using is advertised. Everything that isn't, rarely is.

Read the advertisements for value's sake

Are the Pennies Blocking Your Way

Some women, even though they realize what a waste of time and what a tiring job washing is, still they struggle with washday because they think laundry service is beyond their names.

But if they'd only try our Thrift-T Service they'd know how economical laundry service can be.

Everything washed clean, your flat work ironed, wearing apparel just to iron—and the cost is only 5c per lb. and 1c per piece.

Get rid of washday and you'll have many new hours a week to use them as you wish. You'd like to have them of course, so don't let the pennies stand in the way.

CONSERVATIVE GAINS IN QUEBEC CONSTITUENCIES

(Victoria Colonist)

The Conservative campaign in Quebec in the late election was not a complete failure. The majorities given to the Liberal candidates in 1925, were, with the exception of two counties, much less than in 1921. Total figures show a difference between the majorities of 1921 and 1925 of 195,514, and there are other figures from eight counties to be returned. The Liberals have lost ground very substantially in the French-Canadian province.

COMPENSATION BOARD IS BUSY

Delegation from Trades and Labor Council and Hospital Association Wait on Them

Officials of the Workmen's Compensation Board of British Columbia who are on an official visit to this city are finding plenty of business to engage their attention. A large number of cases are being taken up and interested local citizens are interviewing the officials on general matters concerning the working of the act. The party, which consists of E. S. H. Winn, K.C., chairman of the board; Dr. John Noy, medical officer and R. B. Fulton, secretary, will proceed by tonight's train to the interior to hold sessions at Smithers and Prince George and possibly Hazelton, Hutton and McBride before returning to Vancouver by way of Jasper.

Yesterday the board dealt with a number of cases at the hospital, examinations having been made as to the progress of recovery from injury. A number of workmen were also examined as to the permanent effect of injuries. Inquiries are also being conducted into a number of disputed cases. In such cases the Board has the power of a court in taking evidence and rendering decisions. Conferences are also being held with local doctors in regard to the care and treatment of injured workmen.

Last night the Board met a delegation from the Trades and Labor Council consisting of Ald. Casey, S. D. Macdonald and F. Derry. Various phases of the Act were discussed and a number of specific cases referred to.

W. S. FISHER, Collector.

managing secretary of the Prince Rupert General Hospital.

The work of dealing with cases and meeting in conference with various local individuals is being continued today.

Activities of Board

Mr. Fulton, secretary of the board, stated this morning that in nine years the board had dealt with something like 180,000 cases. Compensation for the present year up to the end of last month, Mr. Fulton stated, totalling \$2,700,000 had been paid.

There is a general misunderstanding that the workmen themselves pay the entire cost of medical aid and compensation. This is not the case, Mr. Fulton explained. For every cent the workmen contribute to the revenue of the Act the employers pay two cents for medical aid in addition to defraying the entire cost of the accident fund through which compensation is paid for such loss of time. The Board thus derives more than ten times as much revenue from the employers for medical aid and compensation as from the employees.

Inspection Work

This year the Workmen's Compensation Board took over the administration of the Electrical Energies Inspection Act and the Boiler Inspection Act. The staff under these acts was formerly under direct control of the minister of public works of the province and worked in conjunction with the Board. In the six months since the Board took over these departments there has been a great advance in the number of inspections and the cost of the inspections has been materially reduced.

Another misunderstanding in connection with the Workmen's Compensation Board has been with respect to the so-called reserve fund. There is really no reserve fund but the fund so referred to is in effect a pension fund and represents money laid

aside for pensions to permanently disabled men and dependents of deceased workmen.

System of Act

The whole system of the Workmen's Compensation Act, Mr. Fulton explained, is based on the cost of accidents and in effect is really mutual insurance.

The percentage of compensation now paid is 62 1/2 per cent of the workmen's average wages in addition to which workmen receive necessary hospital treatment and medical and nursing attendance. Freedom is given for the choice of any doctor desired so that the injured workman may be assured of just as good treatment as if they were the richest men in the country. The Board never hesitates to see that attention of specialists is given where necessary.

The members of the Workmen's Compensation Board are E. S. H. Winn, K.C., chairman, and Parker Williams and H. B. Gilmour, commissioners.

DEATH DUE TO DROWNING

Inquest Deemed Unnecessary in Case of Mrs. William Frost.

Having satisfied himself that death had been due to accidental drowning while under the influence of liquor, Dr. William Sager of Port Simpson, coroner, decided yesterday afternoon that it would be unnecessary to hold a public inquest into the death of the late Mrs. William Frost. A post-mortem examination was made by Dr. Sager as a result of which it was established that the woman had been drowned. The question was not settled, however, whether she had partly swam, or drifted after drowning, across the harbor. Mrs. Frost was known to have been a good swimmer.

KITKATLA WANTS SCHOOL TEACHER

Return of Mrs. Daimpre is Desired by People of Native Village

John M. Nelson, representing the village of Kitkatla, is in town making arrangements for securing a school teacher for the village. There has been no teacher appointed this year and the school has been closed. It is the desire of the Kitkatla people to have Mrs. L. D. Daimpre return to the school there. Mrs. Daimpre is now residing in Vancouver where her husband is studying for the ministry. He was for some time in charge of the Anglican Church of Kitkatla.
