Premier Greenfield, who followed Mr. Rae, stated there vas little hope at the present time for the construction of a new Wife of Manager at St. Davids, ine to the coast as estimates of engineers of both transcontinenal lines showed the cost to be prohibitive.

putting it on

That's how it averages up on most jobs. Two-and-one-half times as much for the labor as for the paint. So why risk your entire investment by yielding to the temptation to save a few cents per gallon on the paint you buy?

Good paint is always the cheapest.

Use Valdura Asphalt Paint and you will be certain of a satisfactory job.

Valdura Asphalt Paint

is better than most mineral paints because it is made of one of the rarest minerals known - genuine 99.5% pure Gilsonite natural asphalt - this makes it an absolutely waterproof preservative paint which possesses great durability. Valdura is also highly acid and alkali resisting. Can be used anywhere, indoors or outdoors, underground or above ground, and will always give perfect protection.

Valdura is made in glossy Black and rich, deep shades of Red, Brown and Green. It is put up in convenient sized containers from 1/4-gallon up; is all ready for use and can be applied by anyone. First cost is low and, based upon cost-per-year-ofservice, it is cheaper than any other paint made.
