### EVERYBODY VOTE TOMORROW

Men and women of Prince Rupert! Tomorrow is election day and it is your duty as citizens to go to the polls and express yourselves on the great issues before the electorate. The privilege of voting has been won by our forefathers after many a long fight. The privilege is ours today and we should value it and treat it seriously.

Tomorrow we are to decide who shall represent us. Summed up briefly the issues as we see them are as follows:

Fred Stork is a supporter of the Liberal party. If returned he will help to keep in power Right Hon. William Lyon Mackenzie King and his government and to perpetuate a moderate tariff and increasing encouragement to the West. Incidentally Stork was the man chiefly instrumental in securing the elevator for Prince Rupert as one of the first fruits of the western policy.

George Bushby is a Conservative and a follower of Hon. Arthur Meighen, leader of the party. The Conservatives have come out boldly in favor of a high protective tariff, higher than the present tariff, claiming it would be the best thing for the country. Incidentally the Conservatives generally were opposed to the Prince Rupert elevator with the exception of Hon. Dr. Tolmie.

George Nickerson, the third candidate, has adopted the platform of the Progressive party and the leadership of Robert Forke. The Progressives are a comparatively small party with diminishing power and influence as shown by the small number of candidates in the field on this occasion. Their chief strength is in the prairie provinces where the movement originated. They have given the Mackenzie King government an independent support for the past four years and will probably support any party that happens to be in the ascendancy. They stand for low tariff and development of the prairies.

Of the personality of the men, that is a matter of individual opinion. It is sufficient to say that all are men of standing in the community and either one would do credit to the riding, should he be chosen to represent it.

## Fred Stork, M.P.

### Liberal Candidate

### To the Electors of Skeena Riding

Ladies and Gentlemen:  
After having covered this riding thoroughly and held very encouraging and bumper meetings throughout the constituency, I feel that my election is assured by a very large majority as is also the election of the Mackenzie King Government by a large majority in Canada. I therefore appeal to you again on my record as a member of the constituency for the past four years and also upon the record of the King Government which I represent.

Thanking you one and all for your hearty co-operation with me during the campaign and soliciting the same during my coming tenure of office, I am  
Very gratefully yours,  
**FRED STORK**

## CURRENT SWEEP AWAY NEW DAM

Forty Thousand Dollar Damage Done Yesterday to New Work in Fraser River

NEW WESTMINSTER, Oct. 28.—A partially constructed dam being built for the Dominion Government near Woodward's landing on the ship channel of the river was wrecked yesterday causing a loss of about \$40,000. No loss of life occurred.

The wreck was due to pressure of the river current. The contract for the work was let last spring for \$73,000. It was to have been 2,000 feet in length and nine feet above high water to serve as a barricade to divert the volume of water from the banks of the river into the channel.

## LUNCHEON GIVEN RAILWAY OFFICIAL

TORONTO, Oct. 28.—A luncheon was given here this afternoon to James Coleman, general superintendent of car equipment for the central region of the C.N.R. on his retiring from service after 52 years of active service. He was presented with a purse of gold and a fully equipped travelling bag went to Mrs. Coleman.

## STORK HOLDS GOOD MEETING

Essington People Give Him Fine Reception at Meeting Last Night

Fred Stork returned early this morning from a visit to Port Essington where he held a meeting last night. The whole of the village was out and they were very responsive and gave the candidate a splendid reception. Mr. Stork says undoubtedly he will receive a good majority at Essington.

In his address Mr. Stork spoke of the fact that he had been for the fishermen throughout and he would continue to be so when returned.

## BUSHBY WILL BE ELECTED

It is reported from local Conservative headquarters that after a careful check of the vote in town Mr. Bushby is assured of a majority in the city, while the result of the rural polls was never in doubt, and the latest reports from outside points are even more favorable than was expected.

## LEPER TAKEN TO LAZARETTO

Chinaman Joins Little Colony on Bentinck Island Near William Head

NANAIMO, Oct. 28.—Wong, a Chinese leper, discovered some days ago by the provincial police on a vegetable farm near South Wellington was taken yesterday aboard a boat and removed to the leper colony at the recently established lazaretto on Bentinck Island.

Wong's shack and all his personal belongings were burned and his faithful dog, who was his lone companion, was destroyed.

The lazaretto until recently was located at Darey Island in Gulf of Georgia but it has been removed to its present location in order to be more convenient to the quarantine station at William Head.

Bentinck Island is situated between William Head and Race Rocks and about a mile from Race Rocks in the Straits of Juan de Fuca.

## TO INVESTIGATE BALKANS TROUBLE

PARIS, Oct. 28.—At a secret session of the council of the League of Nations last night the decision was reached to send a commission to the Balkans to investigate the causes and determine the responsibility for the present conflict between Greece and Bulgaria.

## MURDER ABOARD BIG FREIGHTER

Russian Stabbed in Bunk by Norwegian For Calling Foul Names

VANCOUVER, Oct. 28.—Stabbed in the chest as he lay in his bunk, Evadoskoff, a Russian, was killed in the fore-castle of the freighter Crofton Hall early this morning and H. Berentsen, 33 years of age, a Norwegian, another member of the ship's crew, is held by the police charged with murder.

When Captain Lang arrived on the scene, the Russian lay at the foot of the steps leading to the sleeping quarters still breathing but unconscious from loss of blood. Berentsen was hiding behind the bunk.

Evadoskoff evidently had been dragged from the blood-soaked bunk to where he lay.

Lang said the Norwegian admitted his guilt, saying his fellow seaman had called him foul names, which no man could get away with.

Police were summoned to the ship which is docked here to load cargo for Atlantic coast ports. They took Berentsen into custody.

## WHEAT ADVANCES WINNIPEG MARKET

Heavy Short Covering and Speculative Buying Features on Prairie Exchange Yesterday

WINNIPEG, Oct. 28.—Heavy short covering and speculative buying were the main factors in a big advance scored on the wheat market yesterday. The gains ranged from 2 1/2 c to 4 c per bushel.

## BIRTH.

A daughter was born at the Prince Rupert General Hospital on October 27 to Mr. and Mrs. Frank Brochu of the Seaview Apartments.

## Nickerson's Final Appeal to Electors of Skeena Riding

To the Electors:

After covering the greater portion of Skeena Riding, in every portion of which I have been received with enthusiasm and given every assurance of strong support, I wish once again to assure the electors, that, if elected, I shall strenuously work for the improvement of the unsatisfactory conditions prevailing throughout this riding, and shall vigorously oppose every attempt to strangle this riding or any part of it, regardless of whether those responsible are Government or C.N.R. officials. I shall insist on plain dealing with the people of the riding in the matter of all contracts given by either the Government or the Railway, and in all matters where in the past the favored few have been given the preference.

### Eliminate Discrimination

I shall work unceasingly for the removal of all discrimination in freight rates, passenger and freight traffic, tourist advertising, and unnecessary expenditures on Golf Links while conditions of discrimination or neglect against the development of the country's resources exist. To endeavor to make Canada a suitable place for Canadians is my desire and by the improvement of living conditions, first stop the flow of Canadians from Canada before importing Europeans in an endeavor to fill the gap.

I shall use every effort to promote the development of the potential wealth of the Riding; its fishing, mining, timber and agricultural possibilities, and on every occasion to make known its opportunities.

### Impossible Meet All

On account of the great area of the district it has been impossible to meet every elector personally, and I hope you will take the will for the deed if I have not called on you. I have been unable to visit the Atlin district at all for the above reason.

Respectfully soliciting your vote and influence, I am,  
Sincerely yours,  
**G. W. NICKERSON,**  
Progressive Candidate.

Prince Rupert, B.C.,  
October 28, 1925.

## To the Electors of Skeena

Ladies and Gentlemen:

The last three months it has been my privilege to visit the greater part of the Skeena Riding, and in every instance I have been accorded a wonderful reception.

I have received support from most unexpected quarters, and am confident of a handsome majority throughout the whole Riding.

(Signed) **GEORGE G. BUSHBY.**

## GREECE OBEYS COUNCIL ORDER

Troops Now Retiring and Will be Withdrawn Within 60 Hours

### ATTACK BY BULGARS

PARIS, Oct. 28.—Greece announced today at the meeting of the Council of the League of Nations that she had given orders for her troops in Bulgarian territory to retire behind her own frontier. Complete evacuation of Bulgaria will be carried out within 60 hours, as ordered by the council, she declared.

LONDON, Oct. 28.—A despatch from Salonika declares Greek troops withdrawing from Bulgarian territory this morning were attacked by Bulgarians. It is believed the evacuation must have ceased, the despatch adds.

## LEADERS CLOSE THEIR CAMPAIGN

King and Meighen Will Await Final Results at Ottawa Tomorrow

OTTAWA, Oct. 28.—With the exception of Hon. Arthur Meighen all the party leaders will close their federal election campaigns in their own constituencies tonight. Mackenzie King addresses four meetings in North York, Robert Forke the Progressive leader, speaks at Virren, Hon. E. L. Patenaude, independent Conservative, speaks at St. Laurent, Quebec. Mr. Meighen speaks tonight at Ottawa where both he and King will await results tomorrow night.

## CHARGE THAT MEIGHEN WAS PARTY TO PLOT

BRAMPTON, Oct. 28.—The charge that Meighen was a party to the Montreal plot to gain control of the Canadian National Railways was stated here last night by Sir Clifford Sifton at a meeting.

Sir Clifford said Meighen had given no declaration of his own on the Quebec platform, leaving everything to Patenaude, who "told of a group of St. James Street financiers." He said plans concerning the method of handling the National railways should the Conservatives be returned to power had already been perfected.

Under the plan five men would be chosen by the Canadian Pacific Railway and five by the Government and five more by the latter to compose a committee which would operate the two systems.

## ORE CARRIER IS OFF ROCKS

Motorship Fairbanks Was Pulled off Yesterday Afternoon and Arrived at Dry Dock for Survey

The ore carrier Fairbanks was pulled off the rocks at Bishop Point in Metlakatla Passage by the salvage outfit of the Prince Rupert Boathouse early yesterday afternoon and arrived at this side of the harbor about 3 o'clock accompanied by the rescue outfit. She came in under her own power and went up to the dry dock this morning for survey. Though the vessel hit the rocks with some impact and went fast aground, damage to her hull was slight.

## INDIAN MUST HANG JANUARY

Charles Henry White Convicted of Murder of Frank Rossi of North Vancouver

VANCOUVER, Oct. 28.—Charles Henry White, a 23 year old Indian half breed, resident on the north shore last night, was found guilty by an assize court jury of the murder of Frank Rossi, a North Vancouver storekeeper and sentenced by Mr. Justice D. A. McDonald to hang on January 14.

The body of Rossi was found by a milkman where he had been brutally murdered on June 22 last. The man had been beaten and hacked to death by an axe in the hands of his assailant.

## MASKED MARVEL AT NEWMARKET

American Turfman Won Cambridgeshire Stakes Winning \$5,000 and Extras

NEWMARKET, Oct. 28.—Masked Marvel owned by A. K. Macomber, an American turfman, won the Cambridgeshire stakes carrying 1,000 pounds here daily except Mondays. This with extras at nine furlongs here today.

THE DAILY NEWS  
PRINCE RUPERT - BRITISH COLUMBIA

Published Every Afternoon, except Sunday, the Prince Rupert Daily News, Limited, Third Avenue.  
H. F. PULLEN, Managing Editor.

Member of Audit Bureau of Circulations.

DAILY EDITION Wednesday, Oct. 28, 1925.

### Simply Differences Of Interpretation.

Reports coming in from different parts of the country in regard to the political outlook differ according to the viewpoint of the person who sends the report. Just now nearly everybody sees things from a party point of view and it is very difficult to secure accurate news of the meetings that are held and the speeches delivered.

An example of this is seen at Smithers. Our reports all indicate that Stork will poll the largest vote there and yet along comes L. S. McGill and says that Stork is not a factor in the elections there. Our opinion is that Mr. McGill is strongly biased against Mr. Stork and has the wrong slant on the true opinion of the electorate.

### Anyox Another Case In Point.

Yesterday the Conservative and Progressive speakers returned from Anyox and expressed themselves as well pleased with the reception given them there. However, a telegram received from a correspondent in that town said there were not over one hundred people present at the meeting. This could hardly be considered encouraging. Somebody saw things through colored spectacles.

So it is throughout the campaign. No one gets quite the true perspective because the minds of most of the people are warped by their political views.

### No Such Thing As Unbiased Report.

We have said this before, but it bears repeating, that there is not and cannot be such a thing as a truly unbiased report of any meeting or event. The reason for that is that the reporters are human. They report things as they see them and possibly as they would like others to see them.

One part of an address appeals to one person and another part to another. The part which appeals most strongly is the part that will be featured in the report.

It is all very well for people who have never done any newspaper work to criticize those who have. As a rule the men who prate most about the inefficiencies of others are those who would be the least efficient if they tried the work. To the average man the report with which they agree is the correct one and the report which sees it from the opposite viewpoint is the incorrect one.

### Fish Day Again Is Celebrated.

This is fish day once more and today, in spite of election excitement, we are remembering that fishing is our premier industry and that fish is one of the best foods we can eat.

It was a pity Fish Day should have been set at a time when everyone was busy with the election but, in spite of that, we can remember to eat fish because fish is one of the best foods and it is the food that we produce right here.

### Value To Coast Of Australian Treaty.

Just a short time ago the coast paper mills were finding it difficult to sell their product. The stock rooms were glutted and there was danger that a shutdown might follow. Then the Australian trade treaty was signed lowering the tariff to that country and instantly there is a demand in Australia for paper. The mills, instead of closing down, are enlarging their plants and increasing employment on the coast.

Nothing is so likely to help Prince Rupert & the Australian trade treaty. If there is a demand for pulp and paper, there is a possibility of a mill starting here. So the Mackenzie King government is of value to us. It is a government with western sympathies and should be continued by the people of the West.

### ELKS NEW HEAD IN CITY OF KETCHIKAN

J. R. Heckman Takes Place of Lawrence Kuble as Exalted Ruler of Order

KETCHIKAN, Oct. 28.—J. R. Heckman was unanimously elected to serve the unexpired term of exalted ruler of the Ketchikan lodge of Elks, created by the resignation of Lawrence Kuble, who has been appointed the Alaska district deputy for the Elks lodge. The rules of the order do not permit the district deputy to occupy two positions at the same time, and Mr. Kuble, who was serving his second term as exalted ruler, resigned at the last meeting.

Mr. Heckman is now absent from the city and has not yet been notified of his election.

Following the regular business of the lodge Joe Diamond and his troupe of entertainers amused those assembled with a fine program of song, dance and burlesque and a class of candidates

was initiated into the order. A banquet ended the evening's business.

### MUSEUM BOARD HOLDS MEETING AND HEARS REPORT ON FINANCE

Monday evening the Museum board held a meeting with all the members present and discussed a proposal that had been made to them for increasing the size of the exhibit in the Bank of Commerce building. It is probable that as a result a number of Indian curios will shortly arrive for the collection.

Miss Ruth Stewart reported on the progress made in raising money for the museum fund. She said that the newly formed Prince Rupert Players Club was preparing a play, "Jane," which was to be put on at the Westholme Theatre soon, the proceeds to go to the museum fund. Good work was being done on it and it promised to be a great success.

## COMPOSITION OF OTTAWA HOUSE

Mackenzie King Has Only Real National Policy Suited to Canada

OTTAWA, Oct. 28.—The next House of Commons will contain 245 members, or ten more than the last, the increase being entirely in the West, as follows:

Old House		New House	
P. E. I.	1	1	1
Nova Scotia	16	14	14
New Brunswick	11	11	11
Quebec	65	65	65
Ontario	82	82	82
Manitoba	15	17	17
Saskatchewan	16	21	21
Alberta	12	16	16
British Columbia	13	14	14
Yukon	1	1	1

To win half the next House a party must have 123 members, or about 70 more than Mr. Meighen commanded in the last one. At the very least it would need 10 more to have a working majority. The King government at no time had such a margin, but it had the support of a number of Progressives who were chiefly concerned with getting practical useful legislation. Mr. Meighen can count on no aid from that source — his tariff policy precludes it. Where can he look for 80 seats more than he had in the late House? His most sanguine backers claim for him a dozen or 15 at the utmost, in the West, which will return 69 members. If he got 50 in Ontario and 20 in the Maritimes, he would still need 45 or 50 to carry on a government. Not all the hopes built on Patenaude's Sectional Campaign in Quebec stretch nearly so far as that. Besides, the Liberal campaigners predict surprising gains for the Government in Ontario and assert that the recent Provincial Elections in Nova Scotia and New Brunswick will have little or no bearing on the Federal result.

**Impossibility**  
A victory for Mr. Meighen and his party seems to be a mathematical impossibility, making all allowance for the hazards of political prophecy. In the vast region west of the Great Lakes the Conservative party is scarcely on the map at all, and in the Province of Quebec it finds it expedient to keep its leader out of sight and to ally itself with a movement based on hostility to public ownership, to the development of the Upper St. Lawrence, to the continuance of the British preferential tariff and to the legitimate claims of Western Canada.

Conservative propagandists talk of a return to the National Policy, but National is a misnomer when applied to a political program which takes no account of the needs and sentiments of the Prairie West. The Liberal party at any rate, has made a sincere effort to consult the interests and conditions of all parts of the Dominion. It has sought to reconcile the economic differences of Western and Central Canada, whereas the Conservative party has yielded to the extremists in one camp. The Liberal party has the right to be called the National party as its policy makes a national appeal limited to no section of the country or of the community.

### THE MAN IN THE MOON SAYS:

YOU don't have to go to the Arctic circle to meet icebergs. I have met several on the streets of Prince Rupert.

THERE'S one advantage about these political days, no politician is ever an iceberg.

THERE is some justification for icebergs because some people have to be frozen to keep them in their place.

THANK all the powers that be, tomorrow ends the political campaign and then we shall be free from the shackles of the politicians.

JUST as soon as Thursday is over we are going to begin thinking of Christmas.

THE snow came doubtless to soften the rhetorical blows of the opposing politicians.

WHAT a world this would be if we had no elections, no

monthly accounts to pay, no police to dodge and no neighbors to scandalize.

SNOW, snow, beautiful snow How I would like to see you go, While you are here I detest you so

I'm fond of beauty but do not like snow.

"Who's Who in the Political World" will be an interesting publication after tomorrow.

THREE bold knights Of old I knew One was elected and Then there were two!

OLD grandma stirred In her grave one day And thought she's just peep At the old world gay.

But she glimpsed a flapper With powdered knees Which shocked her so It made her sneeze.

So she hurried back To the land of shades To ponder and grieve O'er the fate of the maids.

NICKERSON said in his speech last night that post offices were given on a basis of population. One had been erected at Quick and the stork was responsible but it was not the member for the district.

### DEVELOPING MINE.

ALICE ARM, Oct. 28.—Development work on the Matilda property by the Kitsault River Mining & Development Co. has been completed for the season, results having been very encouraging. Oscar Flint was in charge of the

work which will be continued next year.

### Ten Years Ago in Prince Rupert

H. O. Crewe is in hospital at Shorncliffe suffering from the effects of gas and it is expected he will return to Canada shortly. Denny Allen is acting as cyclist orderly to the general staff. G. C. Emerson is in hospital at Shorncliffe and Mrs. Emerson is with him there. Mrs. S. P. McMorris is also at Shorncliffe.

W. J. Thams, accountant for the Royal Fish Co., has received word of the marriage of his daughter, Miss Maud Thams, to Charles Hill of H.M.S. Carnarvon.

### VANDERHOOF

Rev. W. T. McFarlane, who will succeed Rev. E. B. Arrol as pastor of the Union Church here, is expected to arrive at the end of next week. Mr. Arrol will leave for Wellington, Vancouver Island, this week.

Dr. Bramford will leave next week for Victoria where he will attend the meeting of the Advisory Board of Farmers' Institutes representing the Nechako and Prince George districts.

Paul Boor has left for Forysthe, Montana, where he will spend the winter months.

M. E. Burger has left for California on a business trip. It is

# CANADA Helps Her Farmers

CANADA has long recognized agriculture as her greatest basic industry. Hence, whatever benefits the farmer, benefits Canada.

In recent years much has been done by the government in enacting legislation, by Council in passing regulations, and by the Department of Agriculture in putting various policies into effect, all with this end in view—helping the farmer.

As already indicated, the introduction of grading in connection with the selling of many of our products has done much to help the farmer and

improve our marketing opportunities, but grading is not by any means the only line of effort undertaken. In fact, there are very many lines along which efforts are being made to help the farmer either directly or indirectly, and so promote the interests of Canada generally.

To cite only a few of these lines, and barely to mention some of the things being done, the laws passed to help out or the policies in effect to promote the industry, the following paragraphs are submitted.

### I. Helping the Farmer Sell His Products:

(a) **The Stocker Trade with Great Britain** re-opened April 1st, 1923, after 30 years' suspension. In 1923, 57,672 cattle were shipped to Great Britain; in 1924, 79,435 cattle, while for 1925, up to Sept. 24th, 73,800 cattle have gone forward, so that it is probable that over 100,000 head will be shipped this year.

(b) **Improved Practices on Canadian Stockyards** have been brought about by the Department's control of live stock exchanges and stockyards.

(c) **Feeder Shows and Sales** were organized in 1923, and are generously assisted, encouraging the proper feeding and finishing of our beef cattle.

(d) **The Meat Inspection Service**, by establishing the reputation of Canadian meats on foreign markets, has done much towards the building up of a profitable outlet for our live stock.

(e) **Shipping Point Inspection for Fruit**, first put into effect last year, is meeting with the approbation of growers and shippers.

(f) **The Market for Canada's Tobacco Crop** is being extended, and the demand increased by effective propaganda by the Department.

### II. Improving Quality:

(a) **By Grading Produce**, such as butter, cheese, hogs, apples, potatoes, eggs, wool, grass and clover seed, and hay, the quality of these products marketed is being improved; the buyer is able to place confidence in the product, and the selling price is consequently enhanced.

(b) **By Plant Breeding Work**, new varieties of cereals, fruits and vegetables are being produced. Mention need only be made of Marquis and the new Garnet Wheat, of the McKay Pea, and the Melba Apple, to illustrate the value of this work.

(c) **By the Distribution of Pure Bred Sires**, (bulls, rams and boars), vast improvement has been brought about in our flocks and herds, which improvement would have been impossible save for this assistance.

(d) **By Assisting Agricultural Exhibitions** by money grants and by assisting live stock exhibitors in the payment of transportation costs for their exhibits, the value of quality is being brought more closely to the attention of the farmer, and the spirit of emulation aroused.

### III. Encouraging and Improving Production:

(a) **Certification of Seed Potatoes** has done a great deal to encourage the use of Canadian seed potatoes in the United States, while the use of such certified seed has improved the quality of Canada's potato crop generally.

(b) **Flax Growing** has been greatly developed in some districts, revived in others, and introduced in still other parts of the Dominion.

(c) **Tobacco Growing** has been encouraged, and valuable assistance given, in production and marketing, in the older tobacco districts of Quebec and Ontario, while this year the possibilities of certain parts of British Columbia have been investigated, with such satisfactory results that the work will be extended next year.

(d) **Egg Laying Contests**, started some four years ago, have increased in popularity and number, there being now thirteen contests in operation. As a basis for registration and certification, these contests have already caused a wonderful improvement in Canada's poultry flocks.

(e) **Silver Black Fox Farming** is being set on a stable basis by the inspection of foundation stock commenced by the Department two years ago, and now nearing completion. Fox diseases have for some years been the subject of study at a special laboratory maintained for that purpose, while a new Fox Research Station is now being established to assist in solving the problems of feeding, breeding and disease control.

### IV. Lowering Cost of Production:

(a) **The Introduction of Crop Rotations**, proven satisfactory after a number of years' trial at the various Experimental Farms, is helping the farmer make better use of his land.

(b) **The Introduction of Better Cultural Methods** is resulting in conservation of energy, increased returns and lower costs.

(c) **The Introduction of Better Feeding Methods for Live Stock** is helping the farmer make better use of his feeds, and increase returns from his live stock.

(d) **The Introduction of New and Better Varieties of cereals, fruits, vegetables and special crops** such as flax and tobacco gives the farmer better returns from the land he has

under cultivation, with certainly no increase in cost of production.

(e) **The Illustration Stations** of which there are now some 150 scattered throughout the Dominion, by demonstrating under actual farm conditions the rotations, cultural methods, feeding methods and new varieties of various crops tried and found satisfactory on the Experimental Farms, serve as object lessons to farmers for miles around and show how costs can be reduced and returns increased.

### V. Protection Against Fraud:

(a) **Fertilizers** are controlled by the system of analysis, registration and inspection maintained under the Fertilizers Act.

(b) **Feeds** are sold under conditions prescribed by the Feeding Stuffs Act which place severe penalties on dealers selling feeding stuffs not up to standard, or likely to be injurious to live stock.

(c) **Seeds**, under the Seeds Act, 1923, are sold by grade, and are subject to inspection, while the sale of seed containing noxious weed is prohibited.

(d) **Canned Goods** must be equal to the standard of quality described on the container, and up to weight. All canned fruit, vegetable and milk labels must be approved by the Department before they may be used.

### VI. Fighting Disease and Pests:

(a) **Wheat Rust Eradication** on the prairie is a step nearer by reason of the determined efforts now being made by the Department. A staff of trained pathologists and plant breeders has been organized, a new Rust Laboratory is being built, the breeding of rust resistant varieties is proceeding, and eradication of the host plants, barberry and buckthorn completed.

(b) **The Eradication of Bovine Tuberculosis** is gradually coming nearer the bounds of possibility, by reason of three different policies of the Department.

(i) **Accredited Herds**, there being now 1945 herds of pure bred cattle fully accredited, that is, declared absolutely free from tuberculosis, while 2187 other herds are in process of accreditation.

(ii) **Restricted Tuberculosis Free Areas** have been established in the Carman district of Manitoba, and the Chassey-Huntingdon district in Quebec, the first in 1923, the second in 1924. A third area, consisting of the Province of Prince Edward Island, is now under test, while it is hoped to commence work in the Fraser Valley of British Columbia in December of this year.

(iii) **Under the Supervised Herd Plan**, herds are tested by officers of the Department, but no compensation is paid for reactors, as is done in the case of accredited herds and restricted areas.

(c) **Cattle Mange, Hog Cholera and Glanders** are effectively controlled by inspection.

(d) **Injurious Insects, grasshoppers, European corn borer, gipsy moth, spruce budworm, and brown tail moth**, would do infinitely more damage were it not for control measures carried out by the Department.

These and many other lines of work are now being conducted by the Federal Department of Agriculture. No doubt you are interested in some of them.

If you wish for more information or desire any of our bulletins dealing with your particular farming problems, write—

Dominion Department of Agriculture, Ottawa

## E. H. Shockley Planing Mills

Re-located at 230 Central Street, Vancouver, with additional machines for the manufacture of SASH, DOORS, MOULDINGS LUMBER, LATH, SHINGLES, VENEER also carried in stock.

## DEATH OF WILLIAM DUNK WAS SUICIDE

Body of Former San Francisco Furniture Merchant Was Found in Vancouver on Monday

VANCOUVER, Oct. 28.—A verdict of suicide was returned yesterday by the coroner's jury which investigated the death of William Dunk, former San Francisco furniture merchant, whose body was found in Stanley Park on Monday. Dunk was reported missing from Victoria on October 17. He is believed to have been the father of "Bobby" Dunk, Sacramento Coast League baseball player.

## LADY HIKERS PROGRESSING

Reached Quesnel Last Week and Proceeded Down Cariboo Road to Ashcroft

Mrs. Sam Johnstone and Miss Anna Rovvik with their pack on their backs reached Quesnel last Thursday, according to a special despatch to the Province. They were going to follow the Cariboo road to Ashcroft and then follow the railway track for the last two hundred miles into Vancouver. They have refused all offers of lifts by the passers by. Their shoes have had to be resoled.

## NEW SOUTH WALES GOVERNMENT TO HAVE VERY BUSY SESSION

Proposal to Make 44 Hour Week Legal in That State and Make Other Changes

SYDNEY, N.S.W., Oct. 28.—The first working session of the present Parliament of New South Wales, which has just been opened, promises to be a strenuous one, and if all the proposals submitted by the Labor Government be given effect it will be a notable one also. The program contained, in addition to important industrial proposals, ameliorative measures relating to primary producers, economic correctives—especially in the direction of reducing the great difference between the prices paid to primary producers for their products and those paid by the consumer, as well as social improvements, and the vigorous application of a development policy as affecting both primary and secondary industries.

The most important of the industrial proposals is the re-introduction of the 44-hour working week, and the setting up of a state system of unemployed and social insurance. With regard to the former Hon. T. T. Lang, the Premier, claims that the State's previous experience of the shorter working week had shown clearly that the fears expressed by political opponents had not been realized, and that on the contrary the progress of New South Wales had been just as sound and vigorous as ever. In support of that he has quoted comparative official statistics prepared by an unbiased authority, which shows that in both primary and secondary production there were marked increases while the 44-hour week was in force before.

### NOTICE.

# "No - I've not boiled any garments since"

"A friend suggested that I stop boiling the clothes I washed and try Rinso, which I did, with such delightful results that I have not boiled any garments since then.

"I found that Rinso is excellent for removing finger prints from white paint and for washing all woodwork.

"It has cut my house cleaning troubles in half and consequently I felt that it was only your due to know that Rinso has a much bigger work to do in our house than just to clean the dirt from our laundry."

The makers of Rinso receive many such letters as this. For Rinso not only does the family wash merely by soaking—it is also excellent for many household duties, such as cleaning woodwork, scrubbing floors, etc. Order Rinso today.

## The girl you leave behind you

Just stop a moment and think about the way she spends her day—that girl you leave behind you. While you are working she is at home working with her hands. Perhaps washing the same cups and saucers that she washed yesterday and will wash on many tomorrows.

Perhaps doing the week's washing. In YOUR work is variety—interest—growth; in hers only dullness—sameness—stagnation.

Talk it over with the girl you leave behind you. See how glad she will be to say farewell to wash day.

A fair trial of our family services will give your wife many new hours for her family and herself.

Have her phone The Canadian Steam Laundry and you'll be coming home to more cheerful welcomes from a fresher, happier girl.

Many a Man is Licked Before He Starts Declares Thornton Discussing Football Experience

Head of Canadian Railroads Tells of the Days when he was Centre Forward on University Football Team

(By Samuel Crowther in American Magazine) Have you found that playing football in college has helped you afterward in business? I mean, did you get anything out of football that is with you now—that you use every day? I asked Sir Henry Worth Thornton—the Harry Thornton of a few years ago, American-born and American-reared railroad man.

As president of the Canadian National Railways he is now holding down one of the biggest railroad jobs in the world. Twenty-two thousand miles of operated track, a series of hotels, an express service, a telegraph system and fleets of steamers are under his direction. "I think," he answered, "although perhaps I ought not to say it, that I got just as much out of football as I got out of the university courses. Football, or any other game for that matter, may easily be overdone. A man may forget that a game is a game, and start to make a business out of it. But hard competition in any game teaches a boy one big lesson, and hard competition in any team game teaches an additional lesson."

Best Centre in Country Back in 1892 and 1893, playing on the eleven of the University of Pennsylvania, Thornton was rated the best centre in the country. Those were the days of line plunging, and the coaches usually picked a fat tub of a man for centre. He was expected to stay put and stop plays by sheer weight.

Thornton was thought by experts to be too long and lank for centre; his two hundred pounds stretched out through six feet four inches. But the two hundred pounds were mostly quick muscle, and Thornton, instead of waiting for the play to bump him, began not only to bump the plays, but to get down the field with the ends and otherwise act in unusual fashion. He is the man who started the present style of centre play.

"I got my lessons out of football," he continued; "but I might as well have got them out of baseball, or tennis, or rowing. I have not in mind any physical benefit from playing hard games. Probably there is some physical benefit, but that is the least important side, for good health can be had without running the risk of breaking one's neck. Also, I am not much concerned as to whether hard games tell on a man in after years; I am fifty-three now, and if I had any better health I should not know what to do with it!"

Mental Benefits "The big benefits that come from hard playing are mental, not physical. Most men who fail to do anything or to get anywhere in this world do not, at least so it seems to me, fail because of lack of ability. Ability is largely a cultivated quality; it is a growth requiring careful culture. It withers in the presence of fear.

"Many a man is licked before he starts. He looks at a job and, as he looks, the job grows bigger and he grows smaller. The upshot is that he does not tackle that job. He does not admit to himself that he is afraid of it, the effect that he is going to make a fool of himself biting off more than he can chew. Suppose he has to compete against a man or a group of men—which, directly or indirectly, all of us have to do every day of the year in business. He sees that the man, or men, against him is confident. He knows that he is worried and he thinks he shows it. Then, gradually, he estab-

probably be met ere another season elapses. The city proposes to accede to the request of the people there that a playground be established near Seal Cove and the Gyo Club has offered to furnish the equipment. The club has asked the city to prepare a larger piece of ground than was at first proposed so that there may be adequate space for the equipment. Now the United Church announces that it will put in a gymnasium on lots that it has secured from the city at a nominal price. The Men's Own gymnasium in town has been a popular venue for rising athletes of all denominations for many years and the new project, it may be anticipated, will be similarly appreciated.

WAR VETERANS WINNERS OVER BILLIARD PARLOR

Opening Game of First Division Billiard League Resulted in Score of 1175 to 1054

Winning only one of the five games, the Prince Rupert Billiard Parlor went down to defeat by an aggregate score of 1175 to 1054 at the hands of the Great War Veterans in the first tournament of the season in the first division billiard league last night. The only winner for the Billiard Parlor was George McMoyle who defeated Col. McMorde by 250 to 175.

Scores of the evening were as follows: Col. McMorde (War Veterans), 175; George McMoyle (Billiard Parlor), 250; Sergeant H. H. Jebson, 250; Charles Balagno, 150; Fred Pyle, 250; Don Brown, 209; Percy Tinker, 250; F. Aldridge, 209; W. J. Nelson, 250; W. Stickney, 236.

PLAYS FOOTBALL WITH A CORK LEG

CENTER POINT, Idaho, Oct. 28.—Although Beryl Hunter, 19, has a cork leg, he is a regular member of the Center Point high school football team. He plays centre. Coach Alfred Kline said the boy is a good player; that he makes his tackles along with the rest of the squad and asks no favors because of his handicap. "He is a game youngster," Coach Kline declared, "and I use him at centre because he is the best player we have for the position.

Last year Beryl played on the baseball team.

HOSPITAL AUXILIARY MEETING YESTERDAY

A meeting of the Ladies' Hospital Auxiliary was held in the council chamber yesterday afternoon with Mrs. Dibb, president, in the chair, when final arrangements were made for the Halloween Ball to be held in the Auditorium next Friday night.

The following ladies consented to act as patronesses: Mrs. S. K. Campbell, Mrs. Fred Stork, Mrs. J. A. West, Mrs. W. T. Kergin, Mrs. L. W. Kergin, Mrs. C.

SPORT CHAT

Vanderhoof is already getting ready for the skating and hockey season. At a meeting of the Athletic Association held last week it was decided that no one would be allowed to use the rink this winter unless they are duly paid up members of the Association, it being the opinion that the rink could be successfully operated only if all those who use it are collected from. Public school children will be allowed use of the rink free of charge but those over sixteen and attending High School will have to pay membership. The following committee was appointed to take charge of skating rink matters at Vanderhoof this winter: R. H. Moore, J. B. Armishaw and Cecil Steele.

The requirements of the residents of the East end of town from an athletic standpoint will

## NICKERSON AT THE EMPRESS

Well Attended Meeting Last Night at Which he Spoke Very Well

### BUSHBY CRITICIZED

Progressive Candidate Expounds His Views on Many Questions of Day

The Empress Theatre was well filled last night to hear G. W. Nickerson, the Progressive candidate and his lieutenant W. H. Montgomery, expound the issues of the day from their standpoint. Mr. Nickerson spoke well and got good responses from the audience. He spoke in such a happy way that even his opponents enjoyed his sallies. "I may be a lone voice in the wilderness," he said, "but at least you can hear me." George Frizzell presided.

### Vote on Principle

The first speaker was W. H. Montgomery, who prophesied success for his candidate. He was not finding fault for what he claimed was, the failure of Fred Stork but said the government was to blame. While Mr. Bushby would get some of the vote that was opposed to the government, Nickerson would get most of it. He read a letter from the Daily News to strengthen his point. People on this occasion were going to vote on principle and he thought it would be a good day when still more would exercise the same discretion. Mr. Bushby was a first class citizen but he would rather see him a citizen than representing them at Ottawa.

Mr. Montgomery then referred to the opposition of Sir Henry Drayton to the elevator which he said was built by the Liberal party. The Conservatives if returned would try to have it remain a monument instead of used. Drayton would never do anything for this place he felt sure.

Mr. Bushby had said he would never countenance expenditures until the overhead was reduced. Under the present system it was a question of get all you can for your constituency and the idealism of the Conservative candidate would not be to the advantage of Prince Rupert.

Mr. Montgomery then read another letter from the Daily News in regard to the Ford profits and argued against high tariffs. He also spoke against bringing in immigrants.

### G. W. Nickerson

In opening his address Mr. Nickerson told of a meeting at Usk in which he claimed an attempt had been made to take advantage of him but which had worked to his advantage. He had had a delightful trip. He claimed that a few Liberals had benefited from the Liberal administration while the others got nothing but taps on the shoulder. He referred slightly to Sir Henry Thornton, president of the railway as a "great bag of wind." He had had money to spend in Paris and at other places but not at Prince Rupert. To vote for either Stork or Bushby was to say that the voter had lost faith in the country.

Mr. Nickerson said he had professed both in and out of season. When the Conservatives were in power he had criticized and now the Liberals were making no effort to fulfill the promises and he was again protesting. He had been consistent in his kicking.

The speaker mentioned the bets which had been made and claimed that the money had come from campaign funds. He claimed that the sale of the Hastings Mill site to the Vancouver Harbor Board had been for the purpose of raising campaign funds. "That is the stuff they pull." This was not a personal matter of Bushby, Stork or Nickerson, it was purely a matter of principle.

### Adopted Progressives

Mr. Nickerson referred to the raising of the salary of Sir Henry Thornton when the section hands worked for 30c and hour. He briefly mentioned the telegram received from Robert Forke and said that as he had adopted the Progressive platform he was a Progressive.

The speaker ridiculed the idea of bringing in sneakers from the outside and claimed that Stork after being four years at Ottawa was unable to expound his policy or tell of the work being done

 must be accurate in his work. One slip and a valuable piece of machinery, a tool or the "job" is spoiled—maybe he loses his job. "Carelessness" the boss will call it, where, as a matter of fact, it may be defective vision. Why take chances on being declared incompetent when with proper glasses you will be classed as an "expert." Our examination is thorough and not troublesome.

## In The Letter Box

### A DEFENSIBLE TARIFF

A protective tariff functions in two ways. It may protect the home market for the sale of articles which are the products of certain industries, by the imposition of a tax on similar imported articles. This may be called the protective feature of a tariff and is the one stressed by protectionists. An effective tariff also has what may be called a bonus feature, but this is never referred to by protectionists. The bonus feature may be defined as the legalized privilege conferred by a tariff, of increasing the price of a protected article, to a level which corresponds with the value of a similar imported article to which the tariff rate has been added.

While the protective feature of a tariff is a necessary evil, the bonus feature should be wholly, or at least partly eliminated, by the imposition of a general excise tax on protected articles. As an instance, upon the product of an industry which is protected by an effective imported article, should be placed an excise tax, to the amount of the tariff rate in excess of 10 per cent of the value of such imported articles. The imposition of an excise tax would in no wise interfere with the protection of the home market, but would protect the consumer against legalized exploitation for the benefit of private parties.

### An Illustration

Owing to the confusion that exists regarding the operation of a tariff, the necessity for an excise tax on protected articles may be best shown by means of an illustration.

Any article upon which there is a duty in excess of 10 per cent ad valorem (or the equivalent to specific duty) may be used as an example, but a certain motor company, having factories on both sides of the international boundary line and which produce automobiles in each factory of the same quality, will best serve the purpose.

On the American side a car is valued at \$440 roughly speaking; on the Canadian side a similar car costs \$594, the increase in the price being due to the imposition of a duty reaching as high as 35 per cent ad valorem on imported automobiles. This tariff rate is included in the price of the car on the Canadian side, which the buyer must pay, and the manufacturer is benefited to the extent of \$154 on each car, solely because of the high

duty on automobiles. Now in order to clearly understand the benefit derived from a high duty by certain industrialists on account of the bonus feature of a tariff, let us assume that the duty on automobiles entering Canada is suspended. In that case the present price of automobiles in Canada couldn't be maintained over night for they would be regulated by the free competition of the world. The Canadian could buy a car as cheaply as the American and the factory on the Canadian side would lose a gift of \$154 on each car because of the suspension of the duty on automobiles.

### Are We Intelligent?

The toleration of such a gift seems to be a serious reflection on the economic intelligence of those who submit to such conditions, in order to justify the imposition of tariff rates, an excise tax on protected articles equal to the duty on similar imported articles is necessary and fair and works out thus: In the case of the car referred to, the increase in price due to the tariff rate of 35 per cent ad valorem amounting to \$154 would by means of the imposition of an excise tax revert to the government. The buyer of the car would have to pay the same price but \$154 of that price would go to the government as a tax rather than to the manufacturer. In the case of the motor company it would pay to the government a tax equal to the amount it had increased the price of the car because of the protective duty, and its home market would still be protected by a 35 per cent ad valorem duty.

Industries are essential to the prosperity of the country and for this reason a price-raising subsidy of 10 per cent of the value of protected articles, based on the declared value of the foreign made article at the port of entry should be followed. Then an excise tax to cover the difference between the 10 per cent exemption and the full protective tariff rate should be levied. By using the parable of the car mentioned the effect will be shown thus: The foreign car at the port of entry is valued at \$440. The value (not price) of the Canadian made car is not greater. The excise tax exemption of 10 per cent of the value of the Canadian car is \$44 which is the bonus to which the manufacturer may be entitled.

The effective tariff rate on a car is as high as 35 per cent ad valorem which, when the 10 per cent exemption is deducted leaves 25 per cent of the value upon which to place an excise tax. This tax in the case of the

car amounts to \$110 (government revenue) rather than an enforced gift to the industrialist. There is not one high tariff advocate on the stump today who will dare attack this scheme publicly, but who will continue his attempts to deliver the people to the privileged interests, who feast upon and devour their substance.

D. J. SULLIVAN.

## HOSPITAL BLANKETS

Editor Daily News.

In your issue of 24th instant there appeared a letter signed by the Retail Merchants' Association criticizing the Hospital Board for having purchased blankets from the Hudson's Bay Company.

It is regrettable that the Association did not take the trouble to properly inform themselves as to why the order was given before rushing into print, and furthermore if they had a grievance why did they not voice it direct to the board? The facts are these:

At a meeting of the Board held on September 16, an appropriation was made for blankets and prices were invited from both wholesalers and local retailers. In response thereto samples and prices were received from local merchants as well as wholesalers and in order that the Board might be better qualified to pass on the merits of the various garments submitted, they enlisted the services of a local citizen with practical knowledge of the drygoods business. After a careful examination it was decided that the blanket offered by the Hudson's Bay Company was not only the cheapest of its kind but very much superior in quality to any of the others, but, having in mind the principle that all things being equal or nearly so the business should remain in town, they sent the blanket next in order of quality to the laundry along with the Hudson's Bay blanket. The result of that experiment left no doubt in the minds of the Committee of the relative value of the two blankets and the order was placed accordingly.

The Hospital Board believes in buying at home and to show that this policy is carried out it need only be said that aside from the purchase of surgical and medicinal supplies over 90 per cent of the Hospital's requirements are bought in town. At the same time the Board feels that in the interests of the citizens generally they must insist on wholesale prices and it is the duty of the retailers as well as others to see that they receive them. The order in question was a wholesale

## WATER NOTICE.

**Diversion and Use.**  
 TAKE NOTICE that Henry C. Gieserich, agent for the Engineer Gold Mines Ltd., whose address is Engineer, B.C., will apply for a license to take and use 50 cu. ft. per second of water out of Wann River which flows westerly and drains into Tagish Lake about two and one half miles south of the Engineer Mine. The water will be diverted from the stream at a point about two miles from the terminus of the said river into Tagish Lake and will be used for hydro-electric power purposes upon the Engineer Mine, whose holdings are described as eleven Crown Granted Mineral Claims, surveyed as Lots Nos. 12, 20, 106, 207, 208, 218, 957, 968, 970, 972, and 1264, Group 1, Cassiar District. This notice was posted on the ground on the 18th day of October, 1925. A copy of this notice and application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Altn, B.C. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the appearance of this notice in a local newspaper. The date of the first publication of this notice is the 24th day of October, 1925.  
 HENRY C. GIESERICH, AGENT.

## RAFFLES OR GAMES OF CHANCE PROHIBITED

NOTICE IS HEREBY GIVEN that I have been instructed to strictly enforce Section 215 of the Criminal Code of Canada which makes it an indictable offence to conduct any scheme, contrivance, or operation of any kind for the purpose of determining who are, the holders of lots, tickets, numbers or chances of any property being sold or disposed of, or to dispose of any goods, wares or merchandise by any mode of chance or mixed chance and skill or who induces any person to stake money or other valuable property or thing on the result of any game of chance, by wheel or otherwise, or to conduct any lottery or raffle.  
 This section does not apply to raffles or prizes of a value not to exceed \$50.00 by any bazaar held for religious or charitable purposes, provided permission is first obtained from the Mayor of the City to hold the same.  
 W. H. VICKERS,  
 Chief of Police.

## LAND ACT.

Notice of Intention to Apply to Lease Land.

In Prince Rupert Land Recording District, and Situate at Newcombe Harbor, B.C. Island, about one mile northeast from the entrance to Petrel Channel, and about one mile southward from the northeast corner of Lot 8034P.

Take notice that Wallace Fisheries Limited, of Vancouver, B.C., occupation fishermen, intends to apply for a lease of the following prescribed lands:—  
 Commencing at a post planted about one mile in a southerly direction from the northeast corner of Lot 8033P; thence south 2 1/2 chains; thence west 6.00 chains; thence north 9.70 chains; thence easterly meandering along the high water mark to post of commencement, and containing 1.00 acre, more or less.  
 WALLACE FISHERIES LIMITED,  
 Applicant.  
 Dated September 26th 1925.

one and the Board deliberated very carefully before deciding what they considered to be first of all in the best interests of the Hospital.

A public discussion of contributions to the Hospital would be most undesirable but the Retail Merchants' Association are invited to peruse the lists of subscribers to its various demands after which they will not be quite so ready to belittle the support of outsiders. The public may rest assured that the Hospital Board has one, and only one motive, namely to administer the affairs of the Institution for the good of the people without fear of favor.

S. K. CAMPBELL,  
 Chairman,  
 Prince Rupert Hospital Association.

# MARTIN PRIED OFF BOLT FROM DOOR OF CELL

Escaped Prisoner is Still at Large Neighborhood of Powell River

No trace had yet been found at Powell River yesterday morning of Joe Martin, the local prisoner on his way to the penitentiary to serve four years for theft, according to word brought this morning by the steamer Prince Rupert from which vessel he escaped last Saturday night. The boat had been lying at Powell River for some time loading paper and it was about 11.30 or half an hour before the vessel sailed from there for Vancouver that Martin's absence was noticed by Constable Smith of Anyox, his escort. By that time Martin had made a clean getaway and it was hard to say how long he had been gone. Constable Smith had been on the dock at Ocean Falls conversing with officers there.

Martin made his escape by removing the lever from the lavatory and using this as a wrench to pry off the bolt holding the padlock hasp. This done, the door was opened from the cell into the constable's room and it was simply a matter of opening a Yale lock from the inside to get into the hold of the ship and thence ashore.

It is the general opinion that Martin cannot remain at large around Powell River without being found somewhere in the neighborhood.

Constable Smith returned from the south on the Prince Rupert this morning bringing with him a man named Alex Kostoff who was arrested at Powell River on a charge of having obtained board and lodging fraudulently from A. T. Eckoff of this city.

# ROCK SHOWERS FROM BLASTING

Residents of Graham Avenue Being Subjected to Risk and Annoyance

Residents of Graham Avenue in Westview are being subjected to considerable annoyance and not a little risk on account of blasting operations on the railway grade in widening the cut just west of the elevator for the new tracks which will lead to the grain plant. Almost daily the houses in that vicinity are being showered with rock.

Yesterday a large boulder came hurtling through the air and smashed through the verandah stairway of Frank Dibb's residence embedding itself in the ground after having passed through an inch and a quarter planking. Had it come two feet higher up it would have gone right through the parlor windows. As it is, owing to the construction of the stairway, considerable expense will be involved in making repairs.

Owing to the blasting, dishes were recently broken in the residence of C. V. Evitt which adjoins Mr. Dibb's.

# MILITANT BUDDHIST GROUP IN JAPAN IS FORMING NEW PARTY

TOKYO, Oct. 28.—Formation of a strong Clerical party that would participate in the coming elections at which more than 9,000,000 new voters will ballot, is reported to be supported by priests of the Nichiren sect, a militant Buddhist group. An obsolete police regulation prohibits religious workers from joining political parties in Japan. The Nichiren sect, composed of 23 different groups, has approximately 3,000,000 followers.

# FREE DANCING LESSONS SAN FRANCISCO CHILDREN

SAN FRANCISCO, Oct. 28.—A large San Francisco department store is responsible for the fact that the city has approximately 5,000 potential Pavlovas, ranging in age from five to 14 years. About four years ago the store tried to give free dancing lessons to the children of its customers, as an experiment. At first there was a class of 30 children. In six months there were classes for every day in the week.

No charge is made for even the most advanced work. Many of the children have developed considerable talent and have found professional work.

# SCHOOL TO TRAIN PROHIBITION AGENTS

SPRINGFIELD, October 28.—Ethics in catching bootleggers are being taught here in a school for prohibition agents. Recognizing that the crude tactics of agents in enforcement work in some sections have brought the officers and the law into disrepute the government established the school in an effort to teach the dry agent "how to gain respect, not only for himself but also the prohibition law."

The school is under the tutelage of Thomas Williamson, United States attorney, and John B. Madden, deputy prohibition administrator of Illinois.

# WHITE LABOR ONLY REDUCTION PLANTS

VANCOUVER, Oct. 28.—Chief Inspector Motherwell of the fisheries department announces that in the reduction plants white labor only will be allowed. This is another step in the process of eliminating Orientals from the fisheries.

# REINDEER SHIP HITS WHARF AT KETCHIKAN

KETCHIKAN, Oct. 28.—When her engines failed, the steamer Neabeano, carrying 76 live reindeer from Nome to Seattle for distribution in the United States before Christmas, rammed a wharf here yesterday. Both the vessel and the dock sustained slight damage.

# BRITISH COLUMBIA

The Mineral Province of Western Canada TO END OF DECEMBER, 1924.

Has produced Minerals as follows:—Placer Gold, \$77,382,953; Lode Gold, \$118,473,190; Silver, \$68,824,579; Lead, \$70,548,578; Copper, \$187,489,378; Zinc, \$32,171,497; Miscellaneous Minerals, \$1,431,349; Coal and Goke, \$260,880,048; Building Stone, Brick, Cement, etc., \$42,225,814; making its Mineral Production to the end of 1924 show an

Aggregate Value of \$859,427,386  
Production for Year Ending Dec. 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants. Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES  
Victoria, British Columbia.  
N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

# FUR CASES TRIED

Eckoff Fined Fifty Dollars for Not Keeping Proper Record

Alexander Eckoff was fined \$50 and \$2 costs in the city police court by Stipendiary Magistrate H. F. McLeod this morning for not keeping a proper record of furs bought. A second charge of having unprinted furs or pelts in his possession was adjourned for eight days. William Goldbloom charged with buying furs out of season, was remanded until this afternoon. The charges were placed by the Provincial police.
