## SUBMARINE RAMMED AND IS UNDER WATER

### CONSPIRACY TO KEEP GRAIN FROM COMING WEST CHARGED AT VANCOUVER

#### Submarine Rammed and Sank but Crew may be Saved if Ship Raised

NEW YORK, Sept. 26.—Thirty-five officers and men of the United States submarine S-51 perished last night when the coastwise steamer City of Rome rammed and sank the submarine fourteen miles east of Block Island, R.I. Only three men were saved, they being picked up by the City of Rome.

NEW LONDON, Conn., Sept. 26.—The sunken submarine has been located close to the scene of the accident in 127 feet of water. Hope is expressed that the hatches were all closed tightly before the craft went down and that the crew are still alive.

#### ANOTHER STAY WHALEN SALE

Month's Delay to Give Opportunity For Second Mortgage Bondholders to Salvage

VANCOUVER, Sept. 26.—To enable the second mortgage bondholders of the bankrupt Whalen Pulp & Paper Mills to negotiate further for the purchase of the assets of the concern, Mr. Justice W. A. McDonald in the Supreme Court yesterday granted a postponement of the date of sale from September 30 to October 30.

Two plants of the company earned approximately \$90,000 during July and August last, according to Knox Walkem, receiver.

#### NEW SECRETARY STATE TODAY

Hon. Walter Foster, Former Premier of New Brunswick, Given Position

OTTAWA, Sept. 26.—Hon. A. B. Copp, secretary of state, has resigned his portfolio in the Mackenzie King government and his resignation has been accepted. Copp is being appointed to the Senate and Hon. Walter Foster, former premier of New Brunswick, has been appointed secretary of state.

#### ANOTHER TRIP TO CASSIAR BY AIR PLANNED

Vickers Viking Machine, Piloted By Col. Williams, May Go North Again Next Year

That Frank Perry, one of the prospectors who led the aerial expedition into the Cassiar district this year, is attempting to finance another such trip next year and that the big Vickers-Viking flying boat belonging to the Laurentide Air Service which carried the prospectors in this year is being left for the winter in Vancouver instead of being taken East as originally intended is the word brought back from Vancouver by David Thomson who returned home this morning. Col. Williams, who was in charge of the machine, will return to Montreal from Vancouver next week.

Mr. Thomson, who made the flight from here to Vancouver a couple of weeks ago as Col. Williams' guest, says that it was a wonderful experience and one that he apparently would like to repeat whenever occasion arises. He speaks highly of the abilities and skill of Col. Williams as a pilot and says that he would venture anywhere with him at the helm. Mr. Thomson says, however, that Col. Williams is a go-getter when it comes to an automobile.

Col. Williams has been spending the past fortnight in Vancouver visiting with his mother who resides there. He is another British Columbia man who has gained fame as a pilot. He attended school at Cumberland, Vancouver Island, and at one time lived with his parents at Dawson.

#### FOUR YOUNG MEN CHARGED WITH MURDER

Alleged to Have Performed Illegal Operation on Girl Who Died as Result

VANCOUVER, Sept. 26.—As the result of ante-mortem statements made by Evelyn Campbell, the 21 year old Vancouver girl who died in the General Hospital Friday as the result of an alleged illegal operation, Sam S. Montgomery, aged 33, alleged to have performed the operation, John Clash, 27; Joseph Green, 21; and Roy Nelson, 21, have been arrested by the police and charged with murder.

#### Sockeye Pack for This District Larger Than Last Season but Total of All Varieties is Less

With the packing season now practically over, the total salmon pack for No. 2 district this year stands at 807,800 cases as compared with 1,180,670 cases in 1924. Despite the decline in the total pack, the pack of sockeye in the district this year, 315,611 cases, is larger than 1924 when the figure was 305,128 cases. The responsible factor for the increase in sockeye were the large packs in Smiths and Rivers Inlet areas, Naas, Skeena, Central and Bella Goola areas showed a decrease in sockeye pack this year. Next week will see the closing down of most of the canneries in District No. 2, except on the Queen Charlotte Islands where two canneries, Lockeport and Lagoon Bay, and three salteries which are now having a good run of chums may continue for three weeks yet.

100 cases of chums and 2,680 cases of pinks from the Lagoon Bay and Lockeport canneries. This is in addition to the fish being put up by two salteries at Skidegate and another at Jedway. There is a good run of chums on the Islands now which is keeping the canneries and salteries busy.

**Details of Pack**

|               |         |         |
|---------------|---------|---------|
| Total Sockeye | 86,000  | 19,301  |
| Naas River    | 276,000 | 74,000  |
| Skeena River  | 179,340 | 47,480  |
| Bella Goola   | 65,770  | 10,910  |
| Smith's Inlet | 36,450  | 33,350  |
| River's Inlet | 145,460 | 128,570 |
| Q.C. Ids.     | 18,780  |         |

The sockeye pack may be regarded as complete as the season is ended. Fishing now is only for cohoes and chums. In the Naas River area, two canneries, Naas Harbor and Arandale, are still packing. In the Skeena River area, six canneries are still running—Inverness, Claxton, Sunnyside, Haysport, Balmoral and Somerville; in Bella Goola, four—Tallheo, Manitou, Kimsquit and Bella Goola, and in Rivers Inlet, Strathcona and Goose Bay. Smith's Inlet is through for the season.

#### NEWFOUNDLAND BOAT LOST SIX DROWNED

NORTH SYDNEY, Sept. 26.—Captain Joseph Vatcher of Newfoundland schooner Inez G. and five seamen were drowned last night when the vessel capsized while attempting to make this port in a storm.

#### AIR STATION CLOSING DOWN

Flight Lieutenant Earl MacLeod Leaves for Vancouver today Mawdsley and Hull Leave Next Week

Flight Lieutenant Earl MacLeod, who has been in command of the Digby Island station of the Royal Canadian Air Force during the fishery patrol season, sails this afternoon on the Princess Mary for headquarters at Jericho Beach, Vancouver, accompanied by other members of the personnel. The station is now being closed down for the winter and Flight Lieutenant F. Mawdsley will remain here until next week to wind things up on the arrival of Flying Officer A. H. Hull from the Queen Charlotte Islands. The latter will fly through to Vancouver.

Flight Lieutenant MacLeod has been under orders for some time to proceed to Ottawa to take charge of the Air Force Station there but it is not impossible that there may be some change in the order and Lieut. MacLeod is hopeful that he may return to Prince Rupert again next year on fisheries patrol work.

#### VIC FOLEY WINNER OF BOUT WITH VIC KING

VANCOUVER, Sept. 26.—Vic Foley, bantamweight champion of Canada, retained his title when he knocked out Vic King of Australia in the seventh of a scheduled fifteen round bout. King claimed a foul but the referee disallowed it.

#### Conspiracy is Charged to Keep Grain Moving Through Eastern Ports

VANCOUVER, Sept. 26.—Reports are being received here that efforts are made by those interested in the Eastern route to keep grain from being shipped West. Most of the monied interests are anxious to have the business kept in the East and reports are being spread abroad on the prairies that the treatment meted shippers is not as good in the West as in the East.

Many of those using their influence against Western ports are Americans, who wish to keep the shipments of grain going through Buffalo to United States ports. The effect of the campaign is clearly shown in the fact that only a few cars of grain have been shipped to Vancouver whereas the shipments to the East have been unusually heavy. The matter was discussed here by the conference of mayors and it is understood that concerted action will be taken to find out just why the grain is not coming West and to correct the injustice which is being done the Western ports.

#### TORIES CONDEMN RUPERT ELEVATOR

Former Conservative Candidate Refers to Extravagance of King Government at Prince Rupert

TORONTO, Sept. 26.—"The needless elevator at Prince Rupert" was one item mentioned by Dr. R. J. Manion, former cabinet minister in the Meighen government, in a general condemnation of the Mackenzie King government for extravagance in an election speech delivered here this week.

#### INDIAN BOY GIVEN TWO YEARS TERM

Convicted of Theft at Smithers Lad Goes to Industrial School

SMITHERS, Sept. 26.—The young Indian boy apprehended by Prov. Constable P. Carr of Burns Lake and charged with breaking into the store of Wm. D. Lukens of Palling and stealing several articles, was tried here on Thursday before Magistrate Hoskins.

The boy was found to be guilty of the theft and received a sentence of a term of not less than two years at the Indian Industrial School.

#### PRINCE GEORGE MAN ON ASSAULT CHARGE

Mr. and Mrs. Arthur Bellos, who recently arrived here from Prince George, were principals in an assault case that came up in the police court this morning and was adjourned until Monday. Mrs. Bellos, who laid the information against her husband, alleges that he assaulted her by striking her with his fist. Bellos is out on \$200 bail pending completion of the trial.

#### COMMITTED ON FORGERY CHARGE

Joseph O. Williams Alleged to Have Signed Name of Farmer to Checks

SMITHERS, Sept. 26.—Some quick work on the part of the provincial police of the district has resulted in Joseph O. Williams being committed for trial on a charge of forgery.

About a week ago Williams was in Smithers and is alleged to have cashed two cheques with local merchants, one for \$56.00 and the other for \$64.00 and signing the name of D. E. Moore, a farmer of the Driftwood section.

When the cheques were presented at the Bank last Friday the forgery was noticed and they were traced to Williams, who had already left for Prince George. A charge was laid by Jas. Kennedy who had cashed one of the cheques and Williams was arrested at that town and brought back to Smithers where he appeared before Magistrate Hoskins on Thursday for a preliminary hearing and will be tried before Judge Young at the coming session of the County Court.

### Making Progress With Elevator.

It seems as if we are making good progress with the grain elevator. It is announced officially that it is to be operated by the grain commission and that members of that commission will be here early next month to make an examination of the work. Doubtless then steps will be taken to arrange for a proper staff to operate the elevator so that no time may be lost.

Prince Rupert, through the elevator, has been coming much into the public eye of late and she will do so more than ever as the vessels come here.

### Great Britain And Arbitration.

Great Britain is leading in the matter of adherence to the principle of arbitration. Just now the British representative at Geneva is asking for a general disarmament conference with a view to reducing expenditures on armaments, naval and otherwise. It is ridiculous to reduce shipbuilding unless there is also a curtailment of land forces, air forces and under water forces.

### Just Few Days In Which To Register.

There are just a few days in which to register. Anyone not on the provincial list here whether registered elsewhere or not should at once take steps to get the name on the list here. The person who is not registered will not be able to vote.

### Women Should Take Interest In Election.

It is noticeable that women make up their minds quickly and seldom change. They are often influenced by prejudices. They find it difficult to weigh the pros and cons and then to make up their minds on a basis of reason. Many men are the same but not as many as women.

The country is kept safe by the men who can change their minds. They are not tied to any party but vote as they see fit. The difficulty is that people often vote for the man instead of the principles at stake. Of course men are needed of the very highest calibre but unless they vote right when they get into parliament, what is the good of sending them to parliament?

If we send a man to Ottawa who is going to vote for the leaders who are opposed to us, what use are they? They are worse than useless. They are playing into the hands of the enemy. What we want is men who are pledged to policies which are best for Prince Rupert and district and who will support leaders who are ready and willing to help us.

### Warning Against Mining Fakes.

Hon. William Sloan has been warning people against faking mining companies. Prince Rupert people have been receiving circulars from the syndicate exploiting the Hat Creek claims and this is one of the concerns against which the minister warns. He points out that things are not as represented.

It is to be hoped that Prince Rupert people will not be led into sending away money to this concern. It will be another case of pouring out our good money with no hope of getting it back.

## LAW GOVERNING THIS ELECTION

Provision Made For Strictest Secrecy and Voter Himself Not Allowed to Tell

OTTAWA, Sept. 26. — (By Canadian Press.)—The secret ballot has always been regarded as one of the cornerstones of democratic government. In Canada the secrecy of the ballot has been protected by stringent laws. No matter what proceedings may arise from election, no man or woman is required or permitted to divulge the name of the candidate for whom he or she has voted.

Every election brings forth a new army of voters. Three or four years brings many young men and women to the voting age and many aliens into the ranks of citizenship. For these, as well as for persons who have exercised their franchise and forgotten the strict regulations which circumscribe the casting of the ballot, the actual terms of the Dominion Elections Act are of interest at the present time. The Act is the law governing all federal contests and contains the provisions for the guarding of the citizens' right to the secret ballot.

The Act requires every candidate, officer, clerk, agent or other person in attendance at a polling station or at the counting of the votes to aid in maintaining the secrecy of the voting; and no candidate, officer, clerk, agent or other person shall:

**No Person Shall**  
(a) Before the poll is closed communicate to any person any information as to whether any person on the list of voters has or has not applied for a ballot paper or voted at that polling station; or

(b) At the polling station interfere with or attempt to interfere with a voter when marking his ballot paper, or otherwise attempt to obtain information as to the candidate for whom any voter is about to vote or has voted; or

(c) At the counting of the votes attempt to ascertain the number on the back of any ballot paper; or

(d) At any time communicate except to a court or judge lawfully requiring him to do so, any information as to the number on the back of the ballot paper given to any voter at a polling station; or

(e) At any time or place, directly or indirectly, induce or endeavor to induce any voter to show his ballot paper after he has marked it, so as to make known to any person the name of the candidate for or against whom he has so marked his vote; or

(f) At any time communicate to any person any information obtained at a polling station as to the candidate for whom any voter at such polling station is about to vote or has voted; or

(g) At such counting attempt to obtain any information or communicate any information obtained at such counting as to the candidate for whom any vote is given in any particular ballot paper.

**Illegal Practice**  
Clause two of the section states that "any person who violates any provision of this section shall be guilty of an illegal practice and of an offence against this Act punishable by summary convictions as in this Act provided."

It is against the law for any voter, unless unable to read or incapacitated by blindness or other physical cause from voting in the manner prescribed in the Act, to show his ballot paper when marked, to any person so as to allow name of the candidate for whom he has voted to be known "and any person who violates the provision of this section shall be guilty of an illegal practice," states the Act.

A person unable to vote without assistance is not debarred from voting, but he is required to make oath in the prescribed form of his incapacity and the deputy returning officer may then assist the voter by marking his ballot in the manner directed by such voter, in the presence of the sworn agents of the candidates or of the sworn electors, representing the candidates in the polling station, and of no other person, and place such ballot in the ballot box. The deputy returning officer is required by law to indicate in the poll book where such votes have

### Swear Interpreter

In the case of a voter applying for a ballot, when the deputy returning officer does not understand the language spoken by the applicant, he is required to swear an interpreter, who shall be the means of communication between him and the voter with reference to all matters required to enable such voter to vote, and in case no interpreter is found, such voter is not to be allowed to vote.

Voters are required to vote without undue delay, and as soon as they have voted the law requires them to leave the polling station. Provision is made that in each polling station there must be separate rooms, or parts of the room curtained off, into which the voter may retire for the purpose of marking his ballot, and these must be fitted out with a table and a pencil.

A section of the Act governing court procedures under the Act provides that "no person may be required to state for whom he voted" in any proceedings which may arise.

Penalties are provided in the Act for persons guilty of illegal or corrupt practice at elections. Section 86 of the Act provides that: "Any person who during an election commits a corrupt practice or an illegal practice shall ipso facto become disqualified from voting and incompetent to vote at such election."

### THE MAN IN THE MOON

A bride is all right if she is properly groomed.

The country is going to the dogs. It always goes there at election time.

And I should not wonder but, Though diamonds really come from mines, She gets them from a nut.

Now that elections are on and everybody is organizing, I am about to organize a "Don't care a darn" club.

## PRESENTATION TO LIBRARIAN

Miss Mortimer Recipient of Handsome Silverware From Members of Her Board

There was a special, informal meeting of the Prince Rupert Library Board last night at the president's flat in the Daily News building for the purpose of presenting the retiring librarian, Miss Violet Mortimer, with a piece of silverware as a mark of their appreciation of the services rendered during the past year.

In calling on Mrs. Kirkpatrick to make the presentation, H. F. Pullen spoke of the success the board had had in getting good librarians. He stated that much of the success of the institution was due to the excellent services rendered by Miss Mortimer and the librarian who had preceded her. At the last regular meeting of the board, members had said some things about her work but at that time they were not in a position to show in any substantial manner how they appreciated it. Now they were able to do so and he called on Mrs. Kirkpatrick who made the formal presentation.

Mrs. Kirkpatrick wished Miss Mortimer success in her new vocation and thanked her for the good services she had rendered here.

Miss Mortimer thanked the board for the beautiful present, a fine silver entree dish, and said she would always remember their kindness.

Following the presentation tea was served. Those present were Mrs. Kirkpatrick, Rev. G. G. Hacker, Alderman Smith, G. V. Wilkinson, James Black, H. F. Pullen, Miss Cruikshank (the new librarian), and Miss Mortimer.

## PAULINE ON A VISIT TO HULL

Agent General is Prominent Among Empire Visitors as Guest of Lord Mayor

Representatives of all the Dominions were recently guests of the Lord Mayor of Hull and for several days they were banqueted and shown all the industries and resources of the port.

Prominent among the visitors was F. A. Pauline, agent general for British Columbia. He gave several interviews to newspapers which were given great prominence. Speaking of the visit he is reported in the Daily Mail as having said:

"I have had no previous experience of a city being so generous, or so enterprising, and that it has taken this method of letting the rest of the British Empire know what it is doing and what it can do. I am quite sure that as the result of this visit many of us will go away with a much better knowledge of what the City of Hull stands for than we possessed before. I feel that each one of us greatly appreciate the opportunity given us of increasing the knowledge of the facilities of this port and will, as far as possible, for the country each represents, look forward to taking advantage of the opportunities you offer us, and make use of the knowledge we have obtained."

This statement by Frederick A. Pauline, agent-general for British Columbia, was characteristic of the feelings of all those who have for two days enjoyed the hospitality of the Third Port with a view to obtaining first-hand knowledge of the facilities of Hull, and of getting into personal touch with those who guide the commercial destinies of the port.

### Immigration Groups

A proposal to establish immigration groups in British Columbia and his opinion on the subject being asked he said: "I am sure that the British Columbian Government would view with sympathy any such scheme which Hull would care to put forward, by which groups were formed for the purpose of sending overseas their surplus population. I am sure that the overseas Settlement Board would co-operate, and if Hull decides to start the scheme on a small scale by way of experiment, the Board might even go so far as to contribute towards the cost. Emigration to Canada, of course, is in the

## MINE ACTIVITY AT HAZELTON

Number of Properties Being Worked and Ore Being Shipped from There

Largely through the activities of W. S. Harris, the Hazelton district has experienced a revival of mining during the summer that has not only opened up showings of great promise on properties attracting great interest in other days, but has also raised the optimism of the people of that district whose faith has not been strengthened by the inactivity of recent years says the Interior News. Mr. Harris has succeeded in turning the eyes of Vancouver business men to the Hazelton district, and the progress being made should increase that interest from the lower coast.

On the Sunrise property on Nine Mile mountain, now controlled by four men with the Tretheway brothers as chief owners, six men are working. They are running a drift tunnel on a five-foot vein for a distance of 200 feet and possibly 300 feet, taking out a good deal of high grade ore as they proceed. The largest paystreak is ten inches wide with several other veins of varying widths. The work being done is of considerable importance to the property.

### Silver Cup

A Vancouver syndicate is having the work done on the Silver Cup property on Nine Mile mountain, four men being employed taking out ore and developing. One carload is ready for shipment and the second is well along. The ore is high grade and will stand up to the cost of using pack horses. The Silver Cup has always produced high grade ore, and the values are maintained today equal to any ore taken out in the last fifteen years.

On the Mohawk claim on Four Mile mountain, Mr. Harris and Vancouver associates have run a tunnel and are now taking out ore. Three men are at work and a team started last week to haul the ore to the railroad. Mr. Harris expects to get out two or more cars before Christmas.

### Gold - Cobalt

On the Hazelton View property, owned and operated by the New Hazelton Gold-Cobalt Co., an Roehrer de Boule mountain, a one hundred foot tunnel has been completed and work is now well advanced on another fifty-foot drift. In these two drifts the company has recovered thirty tons of ore, which gives an average assay of \$160 per ton in gold. The smelter returns will more than pay the season's operating expenses. Owing to the early winter on the top of the mountain where the property is located, no further work will be undertaken this season after the fifty-foot drift has been completed.

Before the year is out at least half a dozen carloads of ore will have been shipped from the New Hazelton district. This is a great improvement over the past number of years, when mining was practically at a standstill.

## QUIET WEDDING OF PEOPLE FROM LAKES

SMITHERS, Sept. 26.—A quiet wedding was solemnized at the Union Church parsonage on Thursday afternoon, when Mrs. Edna Taylor became the bride of Harold C. Shinn of Southbank, Francois Lake. Both the bride and groom are well known in the Lakes district, Mr. Shinn being a soldier-farmer in Unea Valley.

SMITHERS, Sept. 26.—A very enjoyable party was held at the home of Mrs. J. P. Kirkpatrick on Saturday last when well over twenty young people responded to the invitation of the hostesses, Miss Arlene Kirkpatrick and Miss Marjorie Roberts.

Although in the nature of a "farewell" to Miss Kirkpatrick, who is leaving for Vancouver to resume her studies, gaiety and merriment held sway. Dainty re-

freshments were served and the hours were spent in dancing, games and music, after which the party dispersed with numerous good wishes for success in her new sphere of one who has been a most popular member of the younger set in Smithers.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

Continued good weather has kept the majority of boats engaged in the many pursuits connected with the fishing industry, out of port. As long as old King Sol is on such good behaviour the waterfront, and particularly Cow Bay, will wear a deserted look. Many of the native boats in port for the Fair took advantage of the occasion to have necessary repairs done at local yards and this has kept them busy.

**Halibut Situation**

Halibut arrivals, while not heavy, have been well up to the average and good weather has been the order of the day on the high spots. Although individual trips have been rather on the light side, a number of boats have been in from the westward which has swollen the volume. Prices offered on the Fish Exchange on Monday were good. Americans receiving around 15c and 7c, and one Canadian boat pulling down 13.2c and 7c for first and second class fish respectively. On Thursday, when a total of 134,000 pounds of halibut was landed, Canadians got the better of the bargain over their American colleagues on both classes of fish.

**Boats Collide**

The only unusual happening in fishing circles this week was the collision between the American schooners Republic and Sentinel off Casey Point when the latter boat was sunk. Salvage operations were carried out by the Prince Rupert Boat House with Capt. A. Swanson in charge, and the Ing R.F.M. standing by to assist. Rolfe Walker carried out the diving part of the operations and the Sentinel was beached for temporary repairs before being towed to the dry dock. The Sentinel is badly damaged and the accident might have been attended with serious consequences. Two men were asleep below when the boat was hit and it is a miracle that they got out before the boat sank.

In Prince Rupert Land Recording District of Prince Rupert, and situate at Yesington Bay, Massett Inlet.

TAKE NOTICE that Eugene H. Simpson, of Massett, B.C., occupation canneryman, intends to apply for a lease of the following described lands: Commencing at a post planted about 90 chains westerly from the N.E. corner of Lot 1550, Range 5, Coast District; thence north three chains; thence north three chains, more or less, to high water mark; thence easterly along high water mark to point of commencement, and containing 2 acres, more or less.

EUGENE H. SIMPSON,  
Applicant.  
Dated 23rd July, 1925.

slumbering here one William Lake; he heard the bell but had no brake. At fifty miles drove Alie Pidd; he thought he would not skid, but did. At ninety miles drove Eddie Swan; the motor stopped but he went on. Beneath this stone lies William Raines, ice on the hill—he had no chains. Here lies the body of William Jay, who died maintaining the right of way. Reposes here one Adolf Lutig; he turned his head to watch a cutie. And Rodger Red is parked in this; he did not stop, or look or listen. Hi Holt, who lies in this ere casket, turned in his seat to move a basket. You see no pedestrian's stone. They have a graveyard all their own. The smell of gas came to his nose, he struck a match—turned up his toes.

**McLean Yards**

Good progress is being made at the McLean yards on the new Haymoller schooner. The decking is practically finished and there only remains the pilot house to be erected and the painting done before the new boat will be ready for her engine trials.

Several native boats have been up on the McLean ways for overhaul having remained over from Fair week to get hull repairs executed.

Canadian schooners Nuba and Ringleader have also been up on the ways this week for a general looking to.

Chief Edenshaw of Massett was in port this week on his power boat Edenshaw on a business visit.

Jarvis McLeod, customs collector, received a wireless message on Thursday morning that a ship was in distress off Ros Spit, Queen Charlotte Islands. The Canadian Fish & Cold Storage Co.'s trawler G. E. Foster, Capt. Sanderson, which was putting out to sea that morning was instructed to go to the aid of the vessel. However, just after the Foster left port Jarvis received another message to say the ship was alright and under way again. No particulars of the ship that sent the message were given.

Schooner W. R. Lord, of the Cold Storage fleet, arrived from Skidegate on Wednesday with a cargo of humpbacks on Wednesday and left port on the return trip on Thursday.

Tugboat M.T.3., Capt. R. Green, flagship of the Bushby towing fleet, left port on Tuesday morning for Barnard Cove with a scow load of cans in tow for the Laurel Whalen floating cannery which is operated by the Sommerville cannery at that point.

The Hushby tugboat P.R.T., Capt. Harris Kerr, arrived in port this week from Georgetown with a scow load of lumber for the local fish dock and a scow load of lumber, containing 18,000 feet of one inch rough clear spruce, to be loaded on the freighter Chilkoot consigned to the H. R. McMillan Export Co., Vancouver for transshipment to England.

Geo. F. Adams, head contractor for the Wallace Fisheries, arrived on the Catala yesterday en route to Kameon cannery, situated 75 miles south of here, to superintend some construction work which is being carried out at that point.

**A Gift Gun**

Jimmy Mitchell, the crack shot of the Cold Storage staff when the gun does fire, has been presented with a beautiful game gun by an unknown admirer. The glad tidings reached the big plant this morning when Jimmy came marching in with the new piece of artillery strapped upon his wrist. Last year the marksman had the misfortune to miss umpteen deer, through the fact that his rifle would not fire properly, but doubtless the new gift will overcome all previous difficulties. Jimmy will not now be in fear of being bunted to death by an annoyed quadruped. As a word of well meant advice, it would seem to be a good idea for

Schooners Marguerite, Doreen N., and Muirneag have been up on the Ward ways this week for painting and hull-overhaul.

Philip Douglas, native rancher of the Naas River district, has been in town to get a new dynamo fitted to his boat.

Doug. Stork's pleasure launch Sunbeam II, is on the McLean ways for hull overhaul. Considerable caulking and other repairs are to be carried on the boat and all put in good shape for the hunting trips to come.

# ALLENBY MINE IS PRODUCING

Output of 400 to 500 Tons Daily so Far at Interior Granby Property

NEW YORK, Sept. 26.—Production at the Allenby property began several weeks ago with a present output of around 400 to 500 tons daily, compared with an operating capacity of about 2,000 tons daily. Present operations are at the annual rate of about 4,000,000 pounds. The mill is reported to be operating efficiently and getting favorable recoveries. Allenby operations will be gradually speeded up until production is on the basis planned for, or around 20,000,000 pounds annually.

Meanwhile Hidden Creek properties at Anxox are operating at the annual rate of around 40,000,000 pounds of copper, with costs just over 9c a pound, before depreciation and depletion. Inasmuch as the second quarterly statement of Granby, which incidentally was the best so far issued, included a deduction of around \$115,000 as the discount on the bond issue refunding operation, the third and fourth quarterly statements, which will reflect larger production and better metal markets should be even more satisfactory to stockholders.

If the Granby management's present plans work out favorably, Granby's earnings will show a marked increase. This is being anticipated by a firmer market for the stock.

# "STOMACH PAINS WERE DREADFUL"

Operation Prevented by Fruit Treatment "Fruit-a-lives"

"For years I was a sufferer from Chronic Dyspepsia, Indigestion and Constipation; the stomach pains were dreadful. I was advised that my condition strongly resembled cancer of the stomach. Dreading an operation, I consulted my physician, but grew steadily worse. Then I decided to try 'Fruit-a-lives'. Immediately my condition began to improve and soon Dyspepsia and Constipation were things of the past"—Mrs. Annie Glover, 16 Henry Street, Ottawa.

There is no other medicine like "Fruit-a-lives". The effect of this fruit treatment in all cases of Constipation is wonderful. 25 and 50 cents everywhere.

# GRAIN MOVING AT RAPID RATE

Arrivals at Vancouver Are 109 Cars Ahead of Last Year

WINNIPEG, Sept. 26.—With more than six times as much grain shipped from the lake head during the week September 18 to 24 inclusive as during the same period last year, the transportation of the 1925 crop continues apace, according to the weekly report issued last night by Canadian National officers here. Statistics from the lake head show the week's unloadings at 6,642 cars, with 78 boats cleared carrying 17,659,500 bushels. These compared with 920 cars unloaded and 15 boats cleared carrying 2,802,000 bushels during the same week a year ago.

Grain marketings at prairie points along the Canadian National lines reached the peak of the season yesterday with 3,049,000 bushels, being 100,000 bushels higher than any day since August 1, and one hundred per cent higher than the same day last year.

Arrivals at Vancouver over Canadian National lines up to September 23 were 272 cars as compared with 163 up to the same day last year.

# SOCIAL EVENING BY CALLIES FOOTBALL CLUB LAST NIGHT

Under the auspices of the St. Andrew's Society, an enjoyable social evening was held by the Callies football club last night. There was a good attendance.
