## WAR SEEMS LIKELY GREECE AND BULGARIA

### CONSERVATIVES HOLD MEETING IN WESTHOLME AND EXPLAIN POSITION

#### Bulgaria Invaded by Greek Troops; Five Sentinels are Killed

No declaration of war although village shelled by invaders after crossing frontier

ATHENS, Oct. 22.—War between this country and Bulgaria seems imminent, although no declaration has yet been made. Reports received from the frontier indicate that Greek troops have already crossed into Bulgarian territory and unless that country backs down immediately and makes amends for the killing of Greek citizens in recent border troubles, there will be a declaration immediately.

SOPIA, Oct. 22.—A Bulgarian telegraph agency declared the Greek artillery had penetrated Bulgarian territory killing five sentinels and firing shells against the village of Petrich. SOPIA, Oct. 22 (later)—It is officially reported that Greek troops have invaded Bulgarian territory. No declaration of war, however, has been received from the Athens government.

#### SUSPECT FOUND ON STEAMSHIP

Man Thought to be James Burns on Yokohama Maru Refused Landing in Japan

SEATTLE, Oct. 22.—A stowaway, believed to be James Burns, the Nanaimo bank robber suspect, who escaped from jail here September 15, was found on the Japanese liner Yokohama Maru when she was three days at sea, according to word received here. The Japanese immigration officials refused to allow the man, who gave the name of Stevens, to be turned over to the Yokohama police. If the same action is taken by the Shanghai authorities, he will probably be brought back to Seattle.

#### BRITISH TANKER ASHORE IN FOG

Ampullaria Was Pulled off and Proceeded to San Francisco

LOS ANGELES, Oct. 22.—The British tanker Ampullaria, bound to San Francisco from European ports, went aground at Point Sur last night but less than an hour later was pulled off the rocks and proceeded slowly under her own power toward the Golden Gate, 100 miles distant. Dense fog prevailed at the time of the accident.

#### MINISTER OF LANDS COMING ON SATURDAY

Will Assist Fred Stork, Liberal Candidate, in Winding up His Federal Election Campaign

Hon. T. D. Pattullo, minister of lands and member of the legislature for Prince Rupert, will arrive in the city from Victoria on Saturday morning to assist Fred Stork in the winding up of his federal election campaign. Mr. Pattullo will remain in the city until a week from tomorrow when he will return south in order to be present at Victoria when the legislature opens. Mr. Pattullo is billed to speak here and at Terrace as well as at other points.

#### LOCAL DRY DOCK IS PLAINTIFF IN CASE

Skeena Lumber Co. of Usk Defendant in Case Claiming \$272 for Repairs to Machinery

The County Court case of the G.T.P. Development Co. vs. the Skeena Lumber Co., in which the sum of \$272 is claimed by the plaintiff for repairs done at the dry dock here to machinery of the defendant's mill at Usk, was called this morning before Judge Young and was adjourned until Monday. A witness for the defendant was unable to be in attendance. Date was definitely set by His Honor and the defendant was ordered to pay the costs of the court today. The defendant admits a claim of \$67 but disputes the balance of \$205. Milton Gonzales appears for the plaintiff and W. E. Fisher for the defendant.

#### Conservative Speakers Deal with Many Issues at Meeting in Theatre

Claim made that higher tariff would benefit country and Liberals charged with blocking low freight rates

Federal election questions were capably discussed from the Conservative viewpoint by C. Carmichael and R. L. Maitland at the public meeting in the Westholme Theatre last night. Perhaps the most forceful speaker of the evening was Mr. Carmichael who spent the most of his time dealing with the freight rates fight and who claimed that the Conservatives rather than the Liberals had striven to give British Columbia fair treatment in this matter. Mr. Maitland, a quieter though quite as impressive a speaker as Mr. Carmichael, dealt almost exclusively with the tariff and advanced the belief that high tariff was the only cure for Canada's ills. He stressed his statement that there was an appalling outflow of Canadians to the United States and argued that this was due to the fact that there was not sufficient tariff to protect Canada's industries from foreign competition. Both the visiting speakers dealt with general issues while local matters were briefly referred to by George G. Bushby, the local Conservative candidate. The speakers were given an attentive hearing by a good-sized audience. D. C. Stuart, president of the Prince Rupert Conservative Association, was in the chair.

Mr. Maitland prefaced his address with a few humorous remarks and made it clear at the outset that he had no personal grievance against Attorney General Manson or Mr. Stork. In fact he was glad to say that he and Mr. Manson were warm personal friends although their opinions politically were remotely divided. In any case, no personalities but the great issues of the day should enter into an election campaign, Mr. Maitland said.

#### CHALLENGE TO HON. A. MEIGHEN

Mackenzie King Calls Bluff of Conservative Leader in Ontario Address

BRANTFORD, Oct. 22.—Premier Mackenzie King, answering a charge of the Conservative leader, challenged Mr. Meighen to produce a list of two thousand Canadian factories closed under the Liberal regime and publish them on every billboard in the country.

#### THIRD BERYL G. CASE IS TRIED

Charles Morris Before Assize Court in Victoria Today on Murder Charge

**Women Voters And Present Campaign.**

Women are just like men. They are divided in their opinions. They choose their own political parties and vote any way they think fit. It is useless to try to fool women in political matters because they have a way of finding out things.

Mrs. Mary Ellen Smith, one of the leading women of Vancouver, was here Tuesday and told local women about some of the public questions affecting women which have been dealt with. She told them that most of the triumphs for feminine liberty have been secured through the Liberal party. She also urged that if women wished to still make progress they should support the Liberal government at Ottawa by voting for Fred Stork, the Mackenzie King candidate.

**Women Hold In Hands Fate Of Politicians.**

The fate of politicians is in the hands of the women of this constituency. They are the arbiters. There are enough of them to turn the election for or against any candidate. Through the efforts of the Liberal party in British Columbia and the Liberals at Ottawa the women are today in an enviable position and the natural thing for them to do will be to return Liberals so that the good work of extending the liberties of the people may go on.

The Conservatives have always been those who legislated for the benefit of the few. The Liberals have had in view the well-being of the masses.

**One More Week Before Elections.**

There is just one more week before the election and we shall then hope to return to the normal conditions of life. Then it will be "business as usual." Today everything is being upset by the national campaign which is being waged by the two great opposing parties, Liberals and Conservatives. The third party is not amounting to much on this occasion. It is the party of the disgruntled. It is made up of former Liberals and Conservatives, who, mainly for personal reasons, are at odds with the group they have been supporting in the past. They have no history and no future. They are simply a makeshift.

**Success To Mission Of Delegate From City.**

We all wish success to the mission of G. P. Riel, delegate from this city to the people of the prairies in connection with the movement of grain through this port. We want him to succeed. Let us hold the thought of success so that he may go his way fortified with the knowledge that we are with him and that we are ready and willing to do our utmost to help him.

There is no doubt that if we sit back we shall get a small amount of business and perhaps in time the cars of grain will come from the prairies in spite of our lassitude, but we have no intention of trusting to luck. We are ready and willing to do our bit and we have proved that by taking quick action in spite of the political campaign that is being waged and some of the politicians who do not care anything for the welfare of the port.

**CONSERVATIVE SPEAKERS DEAL WITH MANY ISSUES AT MEETING IN THEATRE**

(continued from page one)

causing the dumping of American goods in the Canadian market, might cause a lower price of goods for a while but only until Canadian manufacturers were put out of business when the prices of those American goods would promptly go up.

Mr. Maitland dubbed as "deliberate hypocrisy in public life" the boast of Mrs. Mary Ellen Smith regarding the minimum wage board while at the same time she advocated the reducing of the tariff. High wages could not be maintained in Canada if the industries were not given tariff protection. Mr. Maitland also referred to Mrs. Smith's reference to the Mothers' Pension Act and, in this connection, stated that one of Mrs. Smith's sons or his legal firm had drawn down \$56,000 from the government while another had received \$5,000 in liquor commission. "Perhaps that was why she was the father of the Mother's Pension Act," said Mr. Maitland, thereby causing considerable merriment.

**Cost of Living**

Mrs. Smith, Mr. Maitland said, had made the statement that the cost of living in Canada had gone down 25 per cent. He had as his authority the Labor Gazette for the statement that the cost of a certain group of stable articles had increased from \$11.63 in 1921 to \$12.22 in 1925.

Mr. Mackenzie King had claimed for the last four years that Canada was on the eve of an era of prosperity. Mr. Maitland declared, Mr. Meighen had said that it was the longest eye he had ever seen.

Mr. Maitland also defended the tariff as a benefit to the farmer in connection with the marketing of eggs. The farmers required protection from foreign competition if they were to make a living. Otherwise the large expenditures of the provincial government in developing could not but be in vain. The Conservative tariff had been taken off by the Mackenzie King government. It was the intention of the Conservatives to put up the tariff again so that the people might be given a chance to live.

**Senate Reform**

Premier King had said that he would bring about reform of the Senate but he had followed the custom of appointing political followers to that body and had left his Senate reform in the hands of Providence.

Mr. Maitland dealt with the outflow of Canadians to the United States. United States immigration records were the only dependable authority as Canada kept no records that at least 500,000 Canadians had left for the United States during the past four years. Canadian industrial production was reduced fifty per cent while United States was increased that much. Low tariff had made it impossible for Canadian industries to compete and the people of Canada had been compelled to follow the industry to the United States. Was there a person in the audience who had not had a relative or a friend go to the United States?

Low tariff, Mr. Maitland said, had also been the cause of business failures. He referred to industries that had been forced out of business through foreign competition and gave figures to show how foreign articles had replaced Canadian made in the Canadian market. The only chance to remedy the situation, he declared, was to vote for Arthur Meighen and a Conservative government.

**Tariff Uncertainty**

Mr. Maitland accused Premier King of speaking in favor of low tariff in Alberta and saying in Ontario that he would favor high or low tariff as conditions warranted. The fact of the matter he was not sure.

"There was never a time in the history of Canada," concluded Mr. Maitland, "when we could less afford such a pig-and-pup policy. There has been four years of depression and unemployment has been rife. The issue is not one of Bushby, Stork or Nickerson, nor the Grit against the Tory but, after looking back over four black years of trade depression with our population streaming into the United States, we have learned the lesson of the tariff. The only thing for us to do is to rally around the policy of protection and the good old banner of Sir John A. Macdonald."

Captain Carmichael

that in the four through the interior where Hon. A. M. Manson and Fred Stork had followed him they had used arguments which were deliberately misleading. So far as the Conservative party were concerned the freight rates were not a political issue. In order to prove this he traced the history of the movement since the time when it was initiated by Sir Richard McBride. It remained for Mackenzie King to throw the freight rates question into the political arena. McDonald and McPhillips, now judges, were the men appointed to investigate and they amassed a quantity of information in its favor. In 1921 the prairie members demanded lower rates on grain and flour going eastward and this was given them but nothing west.

"Every Conservative will be behind Mackenzie King on a reduction of the freight rates in British Columbia," declared the speaker.

Discussing it further Mr. Carmichael said John Oliver had been turned down flatly by the Mackenzie King Government and it was due to no other than the present Liberal Government that British Columbia did not enjoy lower rates today. McGeer had been dragged out from obscurity and was \$200,000 richer from the appointment. McGeer got most of his information about the case from H. H. Stevens and on two occasions when the B.C. members were proposing to take action McGeer had asked them to keep quiet for fear of prejudicing the cause. Then McGeer got Kennedy, a Progressive member, to introduce a resolution in the House, thus double-crossing the B.C. members. So long as he continued to draw down \$90,000 a year no results would be obtained, he declared.

**No Definite Policy**

The speaker claimed that General Clark, member for Burrard, had moved a resolution in favor of lower freight rates for B.C. and this was voted down by the Liberals. A bill introduced by Hon. G. P. Graham which would have given equal rates was later amended by the minister. If this was not an affront to the province he would like to know what was.

"Will the Government say they have a definite policy of lowering rates from 22c as at present to 18c from Calgary to Vancouver?" the speaker asked. When it was put up to Mackenzie King in the House he had evaded the answer. The Liberals had been in power for four years yet had denied the west equal treatment. All the Premier would now say was: "I will give all parts of Canada an impartial measure of justice."

**Cariboo Case**

"Mackenzie King asks for a majority. He holds out his hand from east to west and says 'send me stalwart Liberals' and then what does he do?" In Cariboo the people took this seriously and chose a Liberal candidate but Mackenzie King was scarcely out of Vancouver when he met the Liberal nominee at Kamloops and the Liberal quit. Perry, the insurgent Liberal member from

the north urged that the party back McBride, a man who had been a Conservative, a Progressive, now an Independent and next time he would be a Liberal. He appealed to the people to act as a jury sitting on the party that had not redeemed a single pledge.

Captain Carmichael referred to purchases made by the C.N.R. in the east which he claimed could have been made in the west with particular reference to tie contracts.

**Policy of Protection**

Turning then to the question of tariff, the speaker quoted from President McKinley to show the value of a national policy with a high protective tariff. He referred to the fact that people were leaving Canada for the United States.

"Can any of you say Canada is prosperous today?" inquired Mr. Carmichael. The Liberals said that when the tariff was raised the cost of living would go up, yet why was it they could go to the States today, where there was a protective tariff, and buy cheaper than in Canada. The Liberal proposal was all wrong.

"What about the returned soldier?" came from the audience. He saw by the local newspaper that things were not prosperous in Prince Rupert where the city was advertising for people to keep away. There was no such thing as a job to be found in Prince Rupert. So far as he could see a tariff was the proper policy for the country. Even Britain, while refusing to adopt the protective tariff, had had to subsidize industries. Canada had the resources.

**George Bushby**

George G. Bushby, not wishing to take up the time of the speakers on national issues, said he would refer to a few local matters. He declared his unqualified opposition to fish traps and criticized Fred Stork for having approved, in the report of the Duff Commission, of a reduction of trap license fees from \$500 to \$50 and the abolition of the 1/2c tax on salmon caught in traps. The fisheries department, Mr. Bushby said, had been opposed to traps. It did not seem likely to him that licenses would have been granted this year if Mr. Stork had been opposed to them.

Mr. Bushby also spoke on the necessity of fishermen here being provided with a wharf. They were the mainstay of the port and he felt were being shabbily treated. He himself had appealed to all authorities but had been given the cold and glassy eye. He was not going to stand it any longer and, if he did not get anything else, he was going to get a fisherman's wharf for Prince Rupert.

### MAN NOT ALLOWED TO DISPOSE OF HIS BODY

Is Property of Relatives Once He is Dead and Must be Buried if They Say So

LONDON, Oct. 22.—Under English common law a man may leave his property to whom he will but his body he cannot dispose of as it becomes the property of his relatives at his death. A recent case occurred here which illustrated the point. A man directed in his will: "my body will be given to one of the London hospitals, preferably King's College Hospital, for anatomical use providing that when it is finished with it shall be cremated and the ashes cast to the winds." A relative, however, has claimed the body for burial in the family grave, and buried therefore it will be.

The classic instance is that of a generation ago, when a body of London medical men concerned for the dearth of subjects for dissection in the medical schools formed themselves into a society, each member undertaking in his will to leave his body for dissection. Not one body, however, went to the schools, because they were all buried by relatives.

### ATTEMPT MADE TO ENTER HEILBRONER STORE FROM REAR

An attempt was made last evening to forcibly enter Max Heilbronner's jewelry store from the rear. At 7.30, before the night watchman arrived, Mr. Heilbronner was sitting alone in his workshop when he heard the door being tried. He immediately tightened up all the fastenings and the would-be breaker then gave a shove which loosened the door from its hinges. By this time Mr. Heilbronner had seized a revolver which he keeps in the shop for such emergencies and stood waiting for his visitor should he persist in breaking in. In the meantime, a call was sent for the police and, by the time Sergeant McGlinchy had arrived, the intruder had departed.

### OLD MR. CARTER HELPED BY SIMPLE MIXTURE

"After taking Adierika I feel better than for years. At my age (60) it is ideal — so different from other medicines." (signed) W. W. Carter. Adierika is a simple mixture of buckthorn bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. — Ormes Limited, Druggists.

**CO-OPERATION OF PARENTS IN SCHOOL STUDY**

Dr. Grant Speaks of Disadvantages of a Rigid Curriculum at Parent-Teacher Meeting

The need of co-operation between parent and teacher in the education of the children and the disadvantages of a rigid curriculum were emphasized at the meeting of the Parent-Teachers' Association last night in the Booth School auditorium. Mrs. Arnett presided in the absence of the president. In addition to giving an address, Dr. Grant presented the medals and prizes won by various students for woodwork, domestic science and drawing at the recent exhibition. Dr. Grant pointed out that parents and teachers had a common object in the development of boys and girls. It was a great responsibility to be in charge of the education and mental development of children and the home, and the school should be complimentary to each other. The parent should supplement the work of the teacher by helping to inculcate a love of good reading and a desire for study. The parent should always back up the teacher as being the friend of the child.

**Rigid Curriculum**

The teacher has a great part in the mental development of children, but it is well to remember that education is not a pouring-in of knowledge but rather a leading-out of the latent faculties of the child. Often when a child is backward in certain subjects it is not so much the fault of the teacher as of the curriculum. A course of study is laid down by the department of education and a teacher must follow it. Sometimes this following of a rigid curriculum meant that children are forced along lines for which they have no aptitude. Many boys and girls finding certain subjects beyond their comprehension drift away from school after passing the entrance grade or first year high school and maybe in consequence feel themselves inferior to students who successfully complete their course. On the other hand these seemingly unsuccessful students may be far superior in manual occupations as shown by their work in the domestic science or manual training classes, and if their education along these lines could be continued they would become skilled technical workers instead of drifting into "blind alley" occupations. Thus the need for a technical school course, for while the ranks of students for the professions were filled to overflowing there was a dearth of apprentices in many skilled trades. A vote of thanks was extended to Dr. Grant at the close and refreshments were served by a committee of ladies.

purpose of manufacturing shells and other wartime requirements. William Grant, local plumber, has been advised by an eastern concern that it cannot fill an order for stove parts as its factory is working 22½ hours per day producing shells.

**GOES TO HOSPITAL FOR EYE TREATMENT FOLLOWING ACCIDENT**

Mrs. Myhill-Jones Hurt While Visiting at Lewis Island Ranch

A simple accident, which may cause the loss of sight in the left eye, befell Mrs. Myhill-Jones yesterday morning at the Lambly ranch, Lewis Island, and necessitated her rapid removal by launch to the city for immediate medical attention.

While opening a tin of molasasses at the breakfast table the lid flew off and striking Mrs. Myhill-Jones in the left eye, broke her eye glasses, a piece of the glass entering the eye and puncturing the pupil.

Mrs. Myhill-Jones was admitted to the General Hospital upon arrival yesterday afternoon.

**UNCLE FROM AMERICA GAVE HIM THE MONEY**

Strange Story of Youth was not Believed but Proved to be True

ROME, Oct. 22.—A youth of 16 was arrested in a train at Turin on a charge of intended burglary. A timid lady seated in his compartment suspected designs upon her purse and proceeded to scream. The police arrived, and, finding the boy's pockets stuffed with banknotes and a valuable piece of jewellery lying among them, marched him off to the police station.

Asked where this wealth came from, the boy answered that his uncle, just home from America, had given it him. (Loud laughter.) Where was the uncle? At Potenza. (Loud laughter.) Potenza is to Turin as the Isle of Skye to London.

However, the police dutifully telegraphed to their colleagues at Potenza to make inquiries, in response to which, to their amazement, there appeared shortly in Turin a prosperous gentleman who was the boy's uncle, had come back from America, and had given him, besides a large sum of money, a tiepin worth about £250, which he kept loose in his not very elegant coat pocket! The boy was released with almost abject apologies.

## ALICE ARM MAN WORK CHAMPION

His Letter Urging Return of  
Man Who Supports Mac-  
kenzie King

### FOR WESTERN POLICY

Arthur Meighen Never Did  
Anything For West and  
Never Will

Stephen Dumas of Alice Arm  
has written an interesting letter urg-  
ing the return of Fred Stork and  
support for the western policy  
of the Mackenzie King govern-  
ment. He says:

Those who read and observe  
I write a few lines about the  
upcoming election. Never before  
in the history of Canada has  
there been an election where the  
west have taken so much inter-  
est. Never since the days of  
Wilfrid Laurier have we seen  
a man who would come out  
rooted and help us in our  
struggle until 1921 when we sent  
Mackenzie King to Ottawa, a  
Canadian.

As a real Canadian, broad-  
minded and big, he has put on  
statute books of Canada  
laws that make us a united  
people, laws that will give to the  
west equal rights with the east.  
Mackenzie King comes to you  
for a mandate to carry on  
the government of the country.  
He is his own interests at  
heart, he could have hung on to  
the reins of government for a  
hand and a half longer, but, be-  
cause interested in the welfare of  
the west as a great cosmopolitan  
statesman, he has come to you ask-  
ing for your endorsement.

**Men From West**  
Asks you to send him strong  
word from the west. Not men  
who have an object in being  
elected. "Send me the real pion-  
eers, men that they can help me  
with, men that will give me  
equal treatment and  
social justice. Sit down and  
cover the issues in this  
campaign. Compare, we will  
Prince Rupert of today with  
Prince Rupert of 1921. Ask  
yourself one fair question, who  
is the right man to send to Otta-  
wa, Mr. Bushby, Mr. Nickerson or  
Fred Stork? Then when you have  
made a decision as to your  
member turn your thoughts  
to the west, B.C. and all of Canada.

### MINERAL ACT

Notice of Intention to Apply to Lease  
Lands  
In the Mining Division of Cassiar  
District, on the west side of Big Horn  
River to the east of and adjoining the  
Hudson Mining Claim.  
NOTICE that I, Fred Lawson,  
of the Mining Division of Cassiar  
District, No. 70745C, intend, sixty  
days from the date hereof, to apply to  
the Mining Division for a Certificate of  
Intention to Lease the above land  
for the purpose of obtaining  
mineral rights thereon.  
I take notice that action  
under this section of the Act  
shall be taken by the Mining  
Division on the 30th day of August, A.D.  
1925.

Don't let your mind remain at  
home. Don't be selfish. We  
are here today but tomorrow  
we may be somewhere else in  
some other province. That is  
why I say compare the works of  
the Meighen government with the  
works of the King government  
and I think you will send Fred  
Stork back to Ottawa to help  
Mackenzie King give the west an  
even break.

### What Conservative Offer

What have the Conservatives  
to offer? What have they done  
for British Columbia and Prince  
Rupert and the four western pro-  
vinces in the past? Just quote  
the remarks of Mr. Stevens in  
1924 when he told the people of  
Vancouver that equalization of  
freight rates was not in their  
own interests. I think he meant  
not to his interest. That is why  
he came all the way back from  
Ottawa, during the recess to  
make that statement and that is  
the man who is around telling  
you that he is interested in the  
development, progress and pros-  
perity of Canada. Had he been  
truthful he would have said he  
was interested in the east but  
not the west as you would judge  
by his statement.

Mr. Stevens has told you to  
send Mr. Bushby to Ottawa to  
help Mr. Meighen help the big  
interests and the Wall Street of  
Canada put the lock and key on  
your B.C. ports. If Mr. Bushby  
is elected he will go to Vancouver  
and ally himself with Mr. Stevens  
if Mr. Stevens is elected to milk  
the west as they have done in  
the past.

### Wheat Through Vancouver

How much wheat is going  
through the port of Vancouver  
today? The answer must be  
"one hundred million bushels."  
Then look back and see how  
much was going through that  
port in 1921 and the answer will  
be "none."

Who were the men and to  
what party did they belong that  
made it possible for the opening  
up of that port as a shipper of  
grain? Surely you will not say it  
was the Conservative party? Maybe  
some of you will agree with  
Mr. Nickerson and say that  
his adopted party was the party  
that must be given the credit.  
How could it have been when the  
Liberal party had a majority of  
one in the House of Commons  
and they were solidly in favor  
of equalization of freight rates  
and the Prince Rupert elevator?

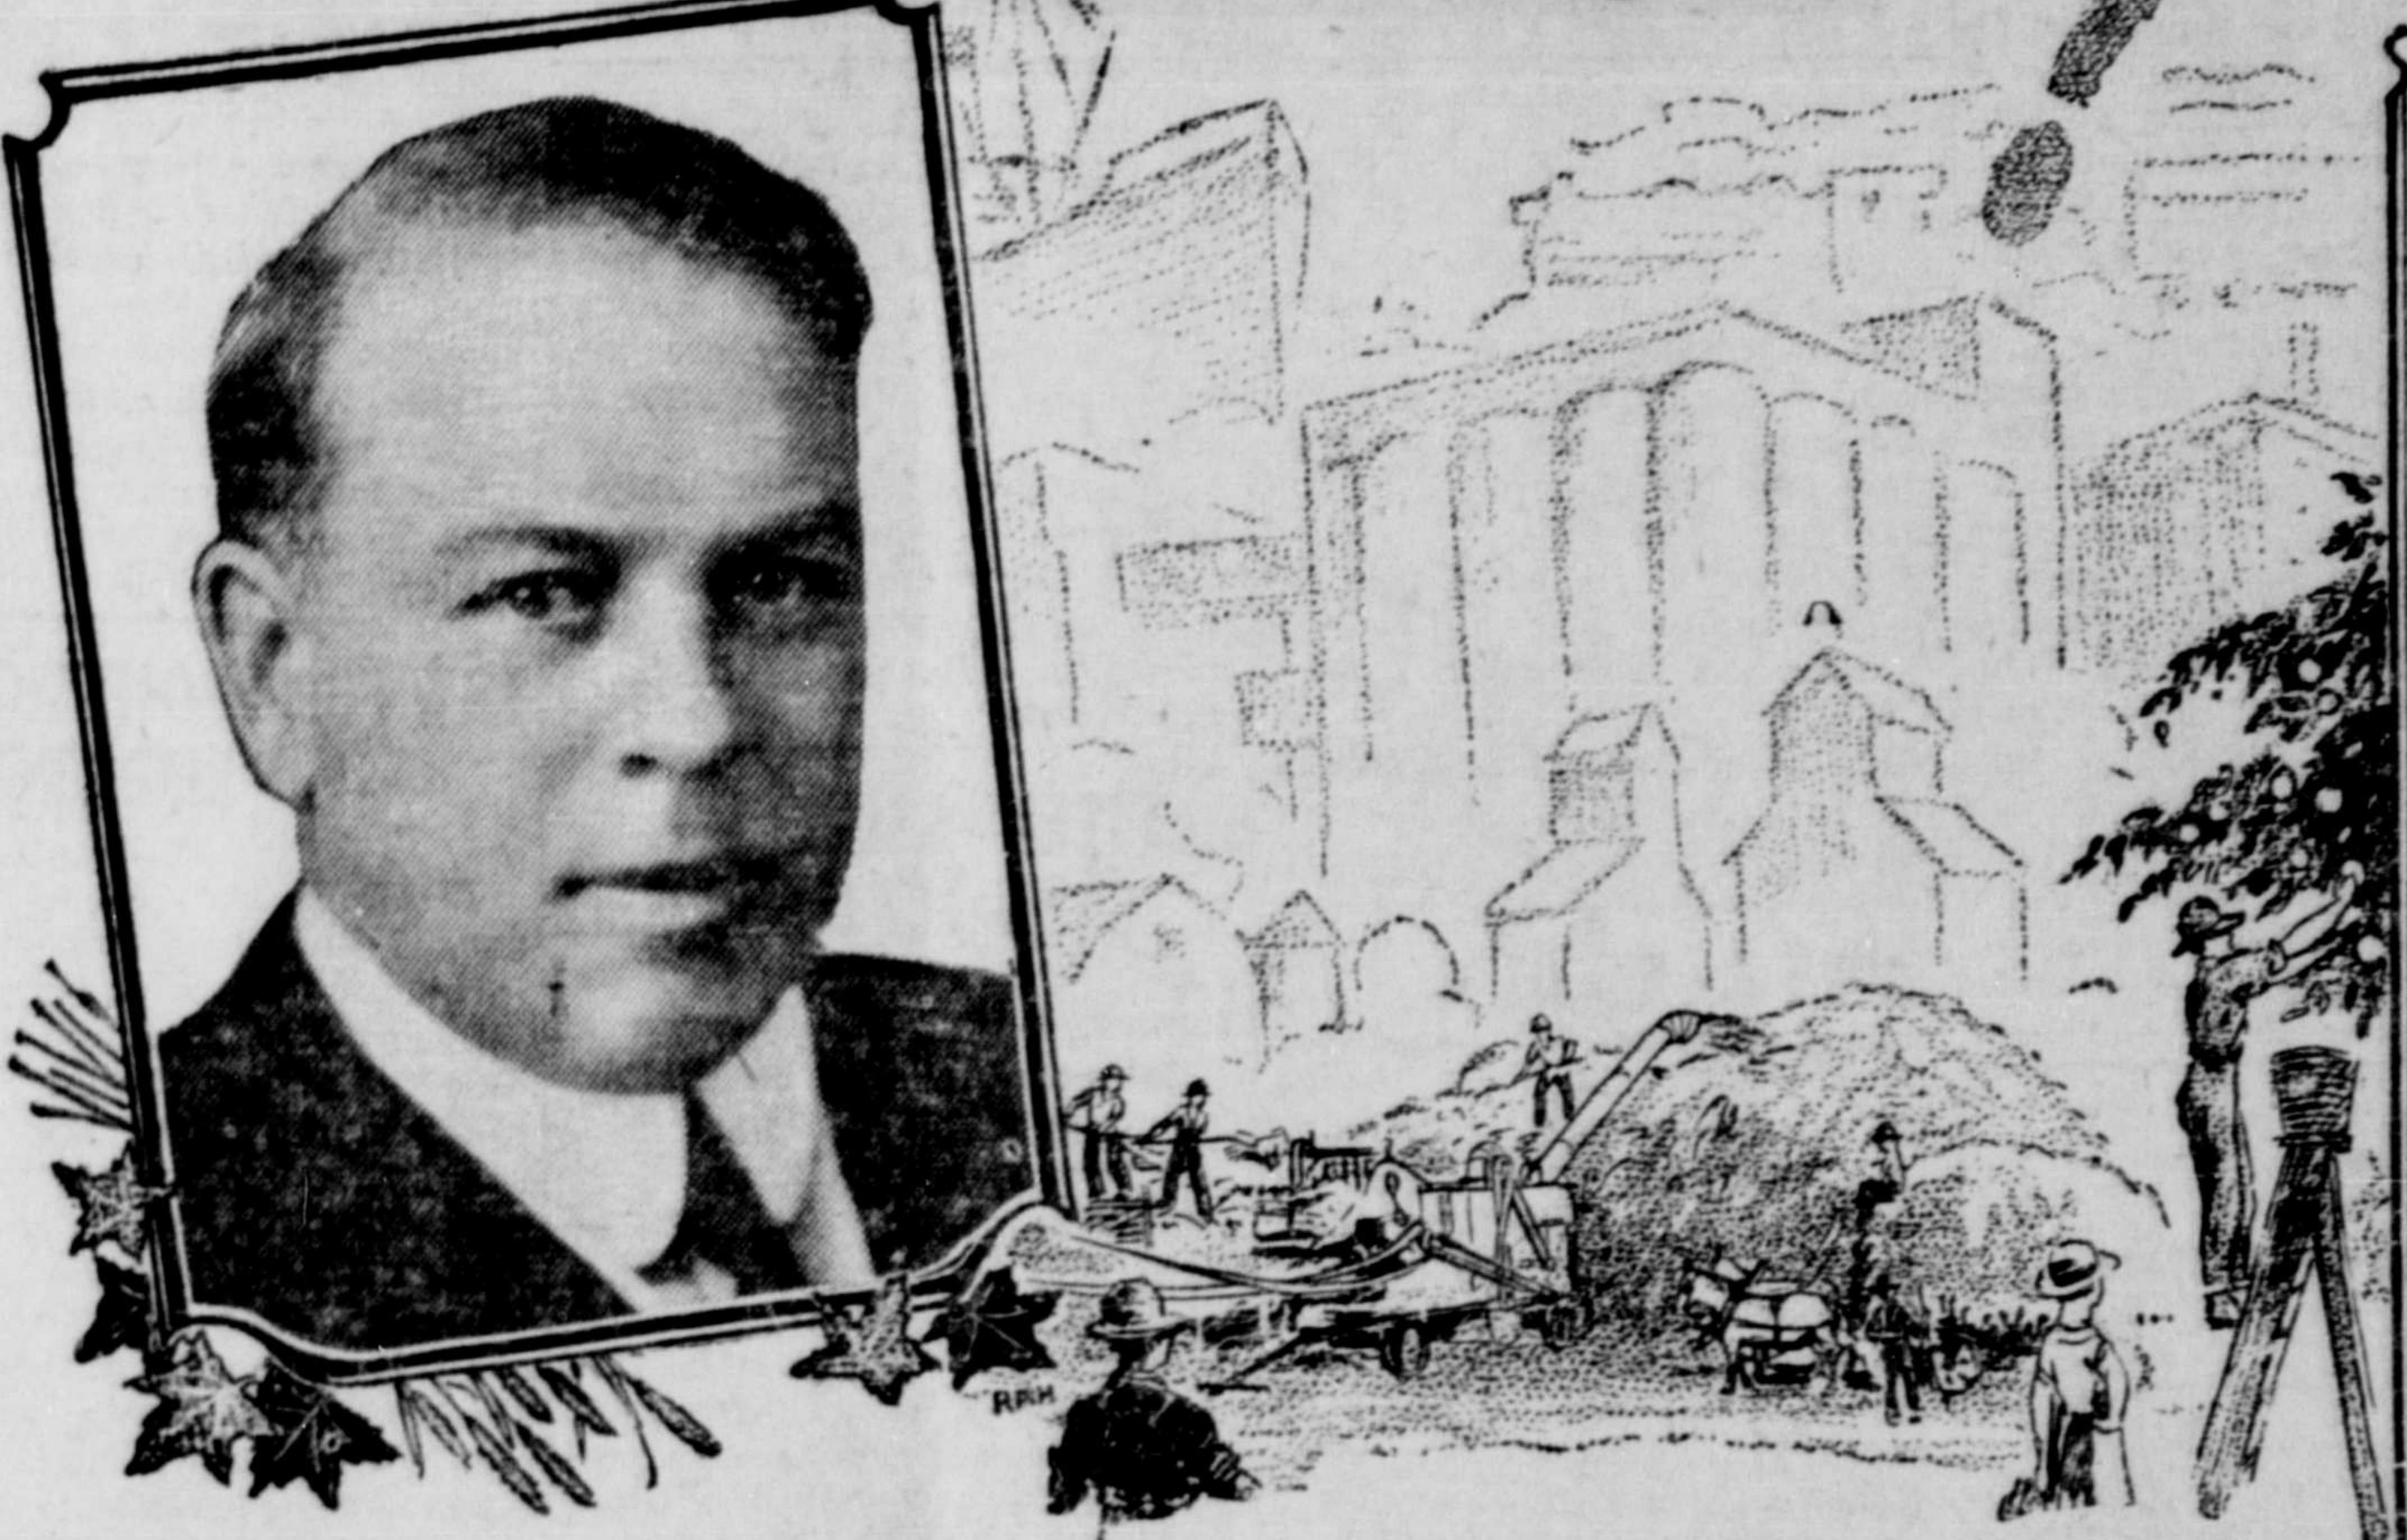

Mr. Nickerson's campaign man-  
ager is sending out circular let-  
ters telling us why he has taken  
the field in favor of Mr. Nickerson.  
He says he is not a dis-  
gruntled member of society nor  
has he an axe to grind for, as  
in the past, he has not solicited  
or expected any favors from any  
political party. Mr. Frizzell, sit  
down and think back. Maybe the  
present member has done you  
some favors. Maybe he hasn't.  
Is Mr. Stork not big enough and  
bold enough to fight our battles?  
You are imposing on the intelli-  
gence of the electors of Prince  
Rupert, and Skeena county when  
you say he is not.

### Flying Light

Mr. Stork was endorsed by  
them in 1917 although the over-  
seas vote defeated him. He had  
a majority at home. He was en-  
dorsed in 1921. He has given  
satisfaction in the past and will  
in the future. Did you support  
him in 1921. You did not. You  
supported Mr. Peck. This time  
you are a Progressive "Flying  
light" in other words, not carry-  
ing much weight. Mr. Nick-  
erson is a good citizen and a real  
man but in bad company. He  
has been ill-advised, which he  
will know on October 29. Even  
if Mr. Nickerson were elected  
what could he do? His hands  
would be tied. He would only  
be a wedge in the house. Send  
Mr. Stork back. Don't bite the  
hand that feeds you. He is a  
real Canadian western pioneer.  
An old time resident of Prince  
Rupert wants your endorsement,  
so that he can go back and help  
Mackenzie King help the west  
and you. It is not the east al-  
lied against the west but the  
monied interests of the east try-  
ing to speak for all the east and  
aided by the party that has al-  
ways been with the monied in-  
terests, the Conservative party  
headed by Mr. Meighen.

Don't listen to Meighen's pil-  
grimage of woe about Canada  
and Canadians leaving our  
country and going to the states.  
Look up his record and the re-  
cord of the Liberal party and see  
who built the west and vote ac-  
cordingly and if you do you will  
vote for Mr. Stork and a good  
Liberal Government.  
STEPHEN DUMAS,  
Alice Arm.

# Vote for Western Development

## Economy! Prosperity!

For the first time  
since 1913, the Liberal  
Government announces  
a surplus in the coun-  
try's budget—a surplus  
of \$4,816,000. This in  
spite of a reduced taxa-  
tion, in spite of the fact  
that the country under  
Meighen's leadership  
spent \$464,000,000 in  
1921, while in 1925  
\$350,000,000 was spent  
by Mackenzie King.  
For every four dollars  
spent by the Conserva-  
tives, the Liberals spent  
three!

**H**OW do YOU feel about the development of your own  
great West? Whatever your political affiliations, you  
are bound to admit that 1921 marked a turning point in  
western progress. Today the world has its eyes on British  
Columbia—this is the route to the markets of the globe,  
whether on the Atlantic or Pacific.

You have heard of the  
diversion of the agricultural  
products of the prairies over the  
western route, of the great in-  
crease in the annual crop, of  
elevators raising their huge bins  
in the great port of Vancouver,  
of ships from every nation in the  
world draining their yellow gold.

There has been an indus-  
trial development that few can  
credit. No one can say that this  
development is not actually due  
to the Liberal government policy  
of equalization of freight rates.

From no lesser person than  
C. W. Beatty, president of the  
C.P.R., we hear that business  
activity is greater in Vancouver  
than any other city in the  
Dominion.

Do you want the west still  
to prosper? Are you in favor of

progress or reaction? Premier  
King has declared himself. He  
says, throughout Canada, that  
trade is moving to the Pacific.  
He believes in the policy of  
equalization—he is for the west  
—not because he is prejudiced,  
but because he realizes that the  
very future of the Dominion  
hedges on National Unity and  
equality for every section of  
Canada.

King has a policy for popu-  
lating the open spaces; it is the  
standardization and equalization  
of freight rates—a tariff that has  
due regard to the present stage  
of the country's development,  
that is light on the implements  
of production, raw materials for  
our basic industries, the neces-  
saries of life and commodities  
from the nations in the British  
Commonwealth.

#### NEW VIEW OF TARIFF

Editor, Daily News:

Isn't it a fact that if produc-  
tions costs were lower in Canada  
than in the United States that  
Canada would get the world's  
business in commodities which  
are common to both countries?  
So, it comes to this: This high  
tariff agitation is merely a  
Yankee scheme to kill Canadian  
manufacturing, and so leave our  
natural resources a prey of their  
manufacturers.  
If there is not a scheme on  
foot why have the sinews of war  
from the United States been di-  
verted from the Progressive  
cause to that of the Conserva-  
tives? None can deny that the  
rank and file of the Progressives  
are non-plussed by the actions of  
their leaders.  
The answer is because the  
American monied interests have  
seen the light, because of no

other source of capital being  
available, because of the war,  
American capitalists fear no  
competition in Canada, so are  
preparing through their branch  
factories to hold the Canadian  
people up for a higher price  
than the Americans pay.  
It's about time Canadians also  
saw the light and realized that  
their competitor is the United  
States, not other countries have  
similar natural resources—and  
lower the tariff on the manufac-  
tured articles from countries  
having dissimilar natural re-  
sources so that the things which  
we cannot manufacture our-  
selves will come in cheap and so  
lower the cost of living to the  
people as a whole, and the cost  
of production to our manufac-  
turers in particular in the things  
which we are fitted to manufac-  
ture because of our natural re-  
sources.  
Finally, I will say that in or-  
der to offset the superior tech-  
nique of American manufac-  
turers, it is absolutely necessary  
that cheaper production must be

attained, also for development,  
it is necessary that this crazy  
idea of living by simply taking  
in our own washing be exploded.

having been given our agent in  
reference to the political situa-

refrain from taking part in polit-

Since our agent has unfortu-

# FOUR YEARS AT PENITENTIARY

Joseph A. Martin Found to Have Criminal Record and Sent Down by Judge

**ADMITS HAVING LIED.**

Refuses to Tell What he Did With Stuff Taken from Boat on Waterfront

Joseph A. Martin alias John Martin alias Joseph Lander was sentenced to four years at New Westminister penitentiary by Judge Young in the County Court this morning for theft from the gas-boat Glory at Cow Bay recently.

The accused was found guilty yesterday and adjournment was taken until this morning so that an alleged record against him might be investigated. Martin denied yesterday that he had been in trouble before. Sergeant A. H. Bailey of the city police identification department look against his criminal classification and wired same in code to Cortland Starnes, commissioner of criminal identification department of the Royal Canadian Mounted Police at Ottawa. The following reply was received and was presented in court this morning: "Joseph A. Martin according to description identical with John Martin alias Joseph Lander convicted in Vancouver, Calgary and in Montana October 30, 1923, three to seven years."

for burglary." "Yesterday," said Judge Young after the telegram had been read in court, "you emphatically made the statement that you had never been in trouble before. You have heard what Sergeant Bailey has said regarding your having been convicted three times. What have you to say?" "Nothing, it is true," was accused's reply.

"You lied yesterday?" "I did." The judge then stated that he had not accepted accused's story yesterday anyway. It was one of the most impossible he had ever heard in a criminal court. "Have you anything to say why sentence should not be passed on you?"

"I have nothing else to say," was the reply. His Honor stated that there was no necessity for accused, having acted as he had done. He was a young man and apparently quite able physically to make an honest living. However it seemed that he had decided on a life of crime and had become a menace to society. Inquiry was made as to what accused had been previously convicted for and Martin's answer was that at Vancouver it was for vagrancy, at Calgary for carrying concealed weapons and in Montana for burglary.

"Not a very good record, is it?" remarked the judge.

"It is not," was accused's reply. "Why do you follow such a life?" "I came here and tried to get a job and could not," said accused, "so I stole the stuff."

"If you had been frank about it yesterday and told the truth about it you might have received some consideration. I sentenced you to four years at New Westminister penitentiary."

# LAW FOR PROTECTION OF BIRDS IN CAGES

LONDON, Oct. 22. — An Act, passed by parliament, not only forbids the use as a decoy of any tethered live bird and the use of birdlime or similar material for trapping birds, but directs that if any bird be confined in a cage or receptacle not large enough to let it freely stretch its wings the person responsible shall be liable to a fine up to £25 and three months' hard labor. Decoy birds may be confiscated on conviction.

# RATTLERS RAISED IN CAPTIVITY DOING WELL

MINNEAPOLIS, Oct. 22. — Eight tiny rattlesnakes—button, rattle and all—at the Minneapolis museum represent the first young born of rattlesnakes which mated after being placed in captivity, in the belief of Miss Grace R. Wiley, curator, whose contention is supported by famous naturalists and the Ditmars of New York City.

The young were born to one of three genuine rattles which, until their capture three years ago, roamed the plains of Texas. The original litter numbered eleven, but three died shortly after birth. The remaining eight, fed principally upon white mice, are growing rapidly. They measured 12 inches in length at the second month, twice that at birth.

The baby rattlers are kept in a small box separate from the glass case containing the parents and other members of the snake colony. The female snake, not being of the mammal species, could do little to care for her young after birth, so Miss Wiley segregated them until they were strong enough to protect themselves from being crushed by the large ones miling about the cage.

Small white mice, raised by the museum, are the only food given the young while the grown serpents are denied such luxuries as a regular diet.

# ANIMALS AT ZOO RESPOND TO MUSIC

Different Effect on Various Kinds of Creatures is Seen

LONDON, Oct. 22.—The susceptibility of animals to music was the subject of experiments at the London Zoo. It was found that during the playing of a violin the snakes remained somnolent, the crocodiles came to the surface and made extraordinary noises, the monkeys chattered, and the elephants betrayed signs of nervousness. Most of the larger carnivora endeavored to participate.

C. J. Dennis, an Australian poet, once lured a brown snake four-feet in length from under a pile of timber by playing a "Chanson sans Paroles" on a small gramophone, whereupon his wife shot the snake. A friend of his tried the effect of a gramophone on a pet kangaroo. It listened with every appearance of pleasure to a series of ragtime selections, but when "Abide With Me" was played it stayed not upon the order of its going but departed "in staid" leaps, as the devil wint through Athlone."

# A Different Effect

"How do you like that cigar I gave you, old man? For 200 hands off that brand they give you a gramophone."

"You don't say! If I smoked 200 of those cigars I wouldn't want a gramophone; I'd want a harp."

# SYNOPSIS OF LAND ACT AMENDMENTS

## PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 3,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

## PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stampage.

## HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

## LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

## GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to 10 head.
