IMPERIALISTIC SPEECH BY PREMIER KING

EASTERN PROVINCE BACK TO STRAIGHT LIBERAL-CONSERVATIVE POLITICS

Canada Under Existing Conditions Can Serve Empire and World Best

Premier King refers to annexation in speech at Kitchener—does not favor arrangement

KITCHENER, Aug. 4.—"As Canada is true to herself and Canadians are true to Canada's highest interests, so will Canadian citizenship mean most to Empire citizenship," said Premier King at luncheon here today in his honor in connection with an "Old Home Week" celebration.

"Were we out of the Empire, would Great Britain not be the first nation with which we would seek to co-operate?" asked the Premier.

Referring to the suggestion of annexation with the United States, Mr. King said that he believed both nations were contributing to civilization and the happiness of mankind in a greater degree under existing conditions than would be possible under any other arrangement.

"As we stand today," he said, "we are in a position to interpret between the two most formidable bodies of opinion in the world—the American and the British."

NEW SEAPORT IS DISCUSSED

P. Forde, District Engineer, Credited With Saying That Glacier Bay May be Such

VANCOUVER, Aug. 4.—A dispatch from Stewart quotes J. P. Forde, Dominion government engineer, as stating that Canada may have a new ocean port giving access to the Yukon from the sea obviating the necessity of using Skagway. This would be through breaking up the ice in Glacier Bay and causing the open water to extend past the boundary line into Canadian territory.

According to Forde this would make Glacier Bay an international waterway giving Canada a direct outlet for the Yukon providing a route could be found to connect with the Yukon River or some other stream of the interior.

The Juneau Empire carried a story along these lines last week. This has apparently been enlarged upon by a Stewart correspondent. Glacier Bay lies west of Skagway on the Alaskan panhandle. Mr. Forde is at present on a trip there aboard the departmental cruiser Walrodo.

C.N.R. HAS SILK TRAINS

Product Being Landed at Vancouver and Taken East by Way of Jasper

EDMONTON, Aug. 4.—The Canadian National Railways are now getting into the silk hauling business. The first train went through here some weeks ago, there was a second last week and it is now expected that there will be at least one train a month in future. The silk shipments are brought into Vancouver from the Orient by the Blue Funnel line and rushed over the C.N.R. to New York by way of Jasper Park.

JOHNNY HAWKES AND VIC FOLEY BATTLED TO SIX-ROUND DRAW

OLYMPIA, Aug. 4.—Johnny Hawkes of Tenno, Washington, and Vic Foley of Vancouver, champion bantamweight of Canada, fought six rounds to a draw last night.

PRINCE AT ST. HELENA.

ST. HELENA, Aug. 4.—The Prince of Wales arrived here last night aboard the Repulse. An official reception is being tendered today.

Prize Winning Canadian Peonies Exhibited In London

This unique picture shows the much discussed Canadian Peonies grown in Montreal by Mr. Ormiston Roy and shipped to England in cold storage in a Canadian Pacific vessel, on exhibition in the window of the Canadian Pacific offices in London, England. The Royal Horticultural Society has presented the Banksia Silver Medal to Mr. Roy and several London papers have remarked editorially upon the extraordinarily perfect condition of the blooms after their long sea voyage. An interesting feature of the picture is that in the window may be seen the reflection of the new Canadian Building which stands almost directly opposite the Canadian Pacific Offices and was recently opened by the King and Queen.

FINISHING OF P.G.E. RY.

Plans Made to Reach Decision at Next Session of Legislature

VICTORIA, Aug. 4.—Following an announcement by Premier Oliver that he would personally inspect the Pacific Great Eastern Railway this week, Hon. W. H. Sutherland, minister of public works, said yesterday that the government had ordered a complete investigation into the cost of completing the links from North Vancouver to Squamish and from Quesnel to Prince George. The new figures will be placed before the legislature next session for decision as to whether or not the province should spend the millions that will probably be required to do the work.

KAMLOOPS HAS \$50,000 FIRE

Blaze Started by Tramps Destroyed Buildings of Mellon Co.

KAMLOOPS, Aug. 4.—Fire believed to have been started by tramps in a building housing 30 tons of hay resulted in the destruction here yesterday of the buildings of the Mellon Co. The loss is placed at \$50,000.

CUTTING WHEAT IN PEACE RIVER

First Fields Yielded 25 Bushels Per Acre—Harvest is Early This Year

EDMONTON, Aug. 4.—Cutting of wheat started in the Peace River district at the end of the week. The yield of the first fields to be cut is estimated at 25 bushels. Binders were at work on Wednesday in the wheat fields at Spirit River, where wheat will average 22 bushels. The harvest is early over the whole north and cutting will be fairly general this week.

Savings in Operating Costs Improve Position of C.N.R. Sir Henry Thornton States

JASPER, Aug. 4.—Commenting upon the financial statement of the Canadian National Railways for the six months period from January 1 to June 30 inclusive issued this week, Sir Henry W. Thornton, chairman and president of the company, interviewed here today, said: "An analysis of the improvement in the cumulative position of the net earnings of the Canadian National Railways for the first six months of this year indicates that the result has been obtained through a substantial saving in operating costs."

"The gross receipts show a de-termining efficiency is producing a decrease of \$9,318,815.00 or 8.11 per cent compared with same period last year. To bring about this result all forms of operating expenses have been substantially reduced, conducting transportation expenses showing a reduction of over five million dollars or 9.12 per cent. This reduction in transportation expenses being in greater ratio to increase op-

Run of Sockeye Salmon in this District as Large as Expected says J. P. Babcock

VANCOUVER, Aug. 4.—Although the sockeye salmon catch in all Alaskan districts is expected this season to be the smallest in many years, the run in Northern British Columbia waters is likely to be as large as early conditions indicated according to John P. Babcock, commissioner of fisheries for British Columbia and chairman of the International Halibut Commission.

Mr. Babcock has just returned from Prince Rupert after an official tour of inspection of the treaty fishing grounds. Referring to the system inaugurated for the tagging of halibut in order to secure information regarding their migratory and other habits, Mr. Babcock said:

"The work is well in hand and, while a number of marked fish were recaptured shortly after their liberation without having travelled very far, officials nevertheless expect to secure valuable data in the future by recapturing tagged halibut that have been at liberty several seasons."

IDAHO MINE IS RICH ONE

Hecla Property Has Paid Thirteen Millions in Dividends—Million and Half This Year

WALLACE, Idaho, Aug. 4.—The directors of the Hecla silver-lead mine at Burke yesterday declared a quarterly dividend of \$500,000. This brings the total dividends for the year so far to \$1,500,000. Since the discovery of the mine, dividends paid have aggregated more than \$13,000,000.

Candidates Nominated in New Brunswick for Provincial Election

FREDERICTON, New Brunswick, Aug. 4.—Ninety-eight candidates were nominated yesterday for the forty-eight seats in the New Brunswick legislature, members of which will be elected at the polls on August 10. Nominations were taken at the shire towns of fifteen counties of the province, also at four urban constituencies, two of which have been constituted since the last general provincial elections. In the four latter there are straight fights between government and opposition candidates and the same is true of twelve out of the fifteen counties. In the three remaining there will be three-cornered fights.

For some weeks the election campaign in New Brunswick has been underway and not in many years has so much interest been manifested in a provincial electoral struggle. Forty-eight members are to be elected and candidates are in the field representing the Liberal, Conservative and United Farmers' parties.

This election, however, marks the decline of the United Farmers' party or Progressives in New Brunswick. Whereas in 1920 the United Farmers succeeded in electing seven candidates, they have now nominated but three, and all these in Carleton, the only county in the Maritime provinces that sends a supporter of Robert Forke to the Federal House. A Chase Fawcett, who was the House Leader of the Progressives in the last legislature, has retired from the political arena and is now a member of the recently re-organized New Brunswick Power Commission. Thus it may be said generally that New Brunswick has turned to the two-party system and the present election is really a fight between the Liberal government of the day, led by Hon. Dr. P. J. Veniot, and the Conservative opposition led by Hon. Dr. J. B. M. Baxter.

PARTY BROKE; BANDIT KILLS

Denver Bloodhounds on Trail of Desparado Who Shot Two Women and Man

DENVER, Colorado, Aug. 4.—Bloodhounds are on the trail of a man who Sunday night killed Miss Marie McCormick, Miss Julia Stearns and Fred Funkner, members of a picnic party, who made the announcement that they were "broke" in response to a demand for money. Carl Perry, the fourth member of the party, escaped.

According to Perry, the bandit jumped on the running board of their automobile and forced them at the point of a gun to drive to a secluded spot where the demand for money was made. Being told that the party was "broke," the bandit opened fire with two revolvers, shooting three victims in the head and wounding Perry in the arm.

QUEER WEATHER IS CHRONICLED

Hail in Kentucky; Snow in Wisconsin; Floods on Rio Grande River

CHICAGO, Aug. 4.—Hail stones as large as eggs, snow, violent thunder and cool weather finds mention in August's weather chronicle instead of the usual sky-rocketing temperature. Hail caused considerable damage to the tobacco crop in Kentucky and snow fell for five minutes near Amber, Wisconsin. Various other widely scattered points were visited by hail while Texas towns along the Rio Grande River are suffering from a severe flood. Two hundred soldiers are aiding the farmers in their fight to keep the waters from the cotton fields near El Paso.

CAPTOWN TO LEAVE HERE TOMORROW A.M.

Capt. G. S. Knowles, D.S.O., and Officers to Entertain at Dance Aboard Ship Tonight

H.M.S. Capetown will conclude her seven day visit to this port tomorrow morning at 9 o'clock, when she will sail for Vancouver, Nanaimo, Victoria and other southern ports.

Tonight Capt. G. S. Knowles and his officers will entertain at an invitation dance aboard the ship.

INDIAN GIRL'S DEATH ACCIDENTAL DROWNING

Inquest Held at Port Essington Over Remains of Winnie Brown of Hazelton

An inquest was held yesterday at Port Essington by Dr. William Sagar, coroner, and it was found that Winnie Brown, Hazelton Indian girl, whose body was found in the Skeena River near Balmoral Cannery, had come to her death through accidental drowning. There were no marks of violence but there was evidence to show that there had been drinking. Deceased, who was about 23 years of age will be buried at Port Essington.

RIO GRANDE IS IN FLOOD

Soldiers Called Out From Fort Bliss to Assist in Preventing Destruction

EL PASO, Aug. 4.—Two hundred soldiers from Fort Bliss were ordered out last night to assist farmers, business men and reclamation service employees in the fight against a flood of the Rio Grande River which is threatening lower valley cotton fields. More than 2,000 acres, mostly under cultivation, are reported to be inundated.

**Rules of The Road
In Navigating Boats.**

There are certain "rules of the road" in navigating the water just as there are in driving cars about the city streets, although a good many people who operate boats apparently do not know much about them. A little study of these rules might prevent serious accidents occurring in this vicinity. Apart from the rules that are set by the authorities, there are other rules that are patent to anyone with any common sense.

One rule that is constantly being broken is that in regard to carrying lights. Every boat travelling after dark is supposed to show lights although a great many do not. Small fishing vessels and pleasure craft are the worst offenders in this regard.

Another thing that is very dangerous is running up too close to steamers to "catch their swell." There are reported to have been a number of near-accidents through doing this lately. It is a foolhardy practice and worries those in charge of the larger vessels.

**Poor Sportsmen
Are Very Common.**

Wilful destruction of and negligence with property of others in popular hunting and fishing resorts nearby is a practice that is constantly being complained of. Only today it is reported that the boats that had been placed on Cloyah Lake for the benefit of the anglers at large have been allowed to drift down the river and now there are no boats on the lake. There have been numerous other reports of a like nature from other points.

The most of the improvements that have been made at such places as Cloyah have been the result of work and efforts of people not only desirous of making things more convenient for themselves but also for the sporting fraternity at large. Those people who do not exercise the little care necessary to preserve these improvements for themselves as well as others are indeed poor sportsmen and should not be allowed the privilege of using conveniences that have been put in by those with a truer sporting instinct.

**Liquor Situation
In United States.**

In spite of the many complications over prohibition enforcement in the United States and the fact that the reorganization of the country into 22 dry districts by Assistant Secretary Andrews of the Treasury is already in hot water, there is no real indication that the Volstead Act will soon be made more lenient. It certainly will not be in the next session of Congress. The dries are still in control of both houses of Congress or, perhaps, to put it more accurately the wets are unable to muster enough votes to drive a more liberal measure through.

If Congress could cast a secret ballot, so that no one would know how a member voted, not even his colleagues, the Volstead Act would be in danger. But a majority of each house is either dry from conviction or unwilling to vote wet for political reasons.

A prominent senator said that if the Liberal forces would present a concrete and well-thought-out plan for dealing with light wines and beer without the saloon they could get somewhere. He said they could get nowhere without such a plan. Mere criticism of the dries, he said, would achieve nothing constructive in the way of new liquor legislation.

In this connection, it can be said that more and more members of the American Congress are studying the Canadian system of dispensing liquor through the agency of the government. This system commends itself to many U.S. citizens who would not bring back the old saloon and yet believe the present law cannot be enforced and that the conditions under it are not improving.

The new reorganization plan of Assistant Secretary Andrews is being watched closely by wets and dries. Predictions of its failure are widespread. Andrews has set out to keep it out of politics but is already yielding to political pressure, and has incurred some political enemies that will not be servicable. By abolishing the federal directors in the states and lopping off many federal dry officials he has stirred up certain antagonisms which will make enforcement more difficult.

**COMPLAIN OF
LOOSE CATTLE**

**City Council Receives Petition
Asking That Herds be Controlled**

W. Robinson was present at the council meeting last night and presented a petition, which had a large number of signatures, asking that cattle be not allowed within the city limits. In the discussion which followed it appeared that several residents had had their gardens destroyed by cattle, and while the owner of the cattle had been fined in the police court for permitting his cattle to run at large, this did not in any way compensate the owner of the garden for the damage done.

Ald. Larson felt that the owner of the garden should be compensated for the damage done in such instances as it was not right for people to take a great deal of trouble in planting gardens and then have the same destroyed.

Ald. Casey said that "the dairyman must take care of his herds." While he was in full sympathy with the desire of the dairyman to find grazing for his herd nevertheless persons suffering from damage caused by cattle roaming about must be compensated to the full extent of the damage done.

Mayor Newton said that he had instructed the Chief of Police to get in touch with the owner of the herd and instruct him that he must provide a suitable caretaker for the cattle at all times or the cattle must be shut up. He said that it had been found impracticable to locate the dairy outside the city limits. The citizens also must have fresh milk, and with that in mind he would suggest that the petition lay on the table for a week until he got in touch with the Chief of Police and the owner of the herd.

W. Robinson, in speaking for the petitioners, said that a great deal of the damage had been done by heifers which were allowed to run loose a great part of the time. The petition was finally left on the table for a week.

**LOCAL BUSINESS
BEING NEGLECTED**

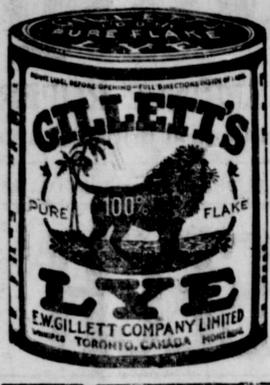

Provincial Mining Journal Criticizes Service Being Given by C.N.R. Steamers

Under the heading "Does the C.N.R. Want Mining Business?" (The Mining and Engineer Record, a Vancouver publication, says editorially as follows:

The Canadian National steamers are probably as comfortable as any operating on the Coast; the service is usually good and the rooms comfortable; there are however, some rooms on the lower forward deck that are not popular with the public, being in the locality where transient cows, pigs and chickens are stored and where odours are variable.

Mining men of Stewart and Anxox are expressing dissatisfaction with service being afforded their towns in regard to accommodations. We are informed by passengers who came south on the Prince George in July that they were unable to secure any reservations from Stewart on that trip, the boats making no such arrangements from that point. Four mine managers were given rooms alongside the barnyard when the boat left Stewart at 9 a.m. as all decent rooms were reported as reserved from Prince Rupert to Vancouver. It was only after the boat left Prince Rupert at 11 p.m. that these men learned that, while the rooms had been reserved for that point presumably on instructions from the Company's officials, there were not passengers for them all. Through the courtesy of the purser they were enabled to transfer to the passenger cabins, but that did not cool their ire against the C.N. Steamships.

We can quite understand that the C.N.R. is catering to the tourist business, and realize that is a traffic which justifies attention. However, it should be possible to cater to it without doing so entirely at the expense of the very men who provide the entire business for these steamers in the slack season. The goodwill of the people of Portland Canal represents a potential asset to C.N.R. Coast service, for un-

doubtedly there is a large, growing business in that area and one which it is wise to cultivate.

While the C.N.R. is in the fortunate position of being able to get the Dominion to meet its deficits its officials should realize that it is up to them to use efforts to get and hold business. If they are not going to use some effort to give satisfactory service to men who furnish them with all year business, both freight and passenger, they cannot expect to hold their own in the transportation business which is decidedly competitive.

**The Man in the Moon
SAYS--**

THE most drunken man I ever heard about was the guy who put a nickel in the letter box of the Woolworth building and then stepped back and looked to the top of the building to see how much he weighed.

WHEN going to bed we put off a lot of things until tomorrow.

I HEAR of a burglar who stole a collar stud. Probably saved time hunting for his own.

IN London there is on view bread said to be 10,000 years old. It is said to be guarded for fear of being stolen by the boarding house keepers.

IN the old country a man was recently arrested by a woman. There is really nothing very new about that.

MOUNTAIN climbers have found wasps 24,000 feet up. Now watch the picnickers get jealous.

IT takes a humble bee to keep on humming.

JUDGING from the photograph of a chum's girl I saw the other day she must be horribly rich.

AT this time of the year it was usual for Pa to do a little gardening in the evenings but this year he is busy hunting around the cellar for a few scraps of left-over coals.

THE latest traffic regulations in Chicago states that tail lights are to be carried on saddle horses. I hope there is a good rider on the horse when the lamp flares up.

**Ten Years Ago
in Prince Rupert**

August 4, 1915.

There will be a mass procession tonight of the citizens to the Auditorium on Sixth Avenue where a commemoration service will be held on the anniversary

of the outbreak of war. Melakatia hand will head the procession.

Reports from the various salmon fishing grounds are to the effect that the run of sockeye salmon is improving and the canners are hopeful yet of securing a full pack.

The high school girls have been industriously knitting socks for the boys in the trenches. Several dozen pairs have already been forwarded.

Gordon H. Gower, provincial inspector of schools, has just returned from a most interesting trip into the British Columbia section of the Peace River. Mr. Gower's mission was to look over sites for new schools which it is intended to open up in that part.

**AIRPLANE AT DEASE
LAKE IS BUSY NOW**

Frequent Trips Being Made by Archibald Little into Liard River Country

DEASE LAKE, Aug. 4. — The big Vickers Viking flying boat, which was brought to the Cassiar country in June by Archibald Little, Detroit mining engineer, has established its base at this settlement at the head of Dease Lake. It is being flown on frequent trips into the Liard River country by Col. J. Scott Williams, manager of the Laurentide Air Service.

**LAND ACT.
Notice of Intention to Apply to Lease Land**

In Land Recording District of Prince Rupert, and situate at Ferguson Bay, Massett Inlet, Q.C. Islands, B.C.

The Camera of the year

No. 1A Pocket Kodak

Series II (Focusing Model)

Equipped with Diomatic Shutter and Kodak Anastigmat lens f.7.7.

\$26.90

By a simple lever mechanism, the front snaps instantly into picture position—ready for business. This Kodak is equipped with the Kodak Anastigmat lens f.7.7 and Diomatic shutter, four speeds, 1/10 to 1/100 second.

There's a sliding, timing scale to fit the exposure to the light. A finger-tip turn of the lens mount sets the focus.

This superior lens and shutter combination means better timed, sharper negatives—the evidence is plain in the prints.

The No. 1A Pocket Kodak is on display at our store. Come in and look it over.

Mr. and Mrs. R. L. McIntosh returned to the city on the train last evening from Terrace.

On account of weather conditions the scheduled league baseball game between the Sons of Canada and the Sawmill was not played last night.

Magistrate McLymont was entitled to wear the white gloves this morning as there were no offenders to come before him in the city police court.

R. F. Winch, who has been visiting cannery points in the district for the past few days, will sail this afternoon by the Cardena on his return to Vancouver.

Motorship Bellingham, Capt. Len Williams, brought in 8,630 cases of canned salmon from Alaska points yesterday and cleared for the return trip late last evening.

The success of the 1925 Exhibition depends upon the individual efforts of every single citizen. Let's put it over big this year. Get behind the directors and do your bit.

The secretary of the Fair Board announced that this morning that 250 entries had been received from the Kitsumkalum district for the 1925 Exhibition. This was the first list of entries received from this district.

The work of renovating the United Church building is now well under way and the basement will be ready for the first meeting of the Presbytery on Thursday. The regular church services will be conducted in the basement during the time that the main auditorium of the church is being plastered and kalsomined.

UNITED STATES BEST CUSTOMER

Canada Sends Most Goods South of Line—United Kingdom is Second

OTTAWA, Aug. 4.—The United States proved to be Canada's best customer during the twelve months ended June 30 last. Canadian exports to that country during this period totalled \$429,275,635 in value. The United Kingdom was second, Canadian exports sold there during the period in question being valued at \$393,740,608.

The total Canadian exports to all countries for the 12 months ended June 30 last were valued at \$1,073,546,094, or a decrease of \$16,302,304, as compared with a similar period ended June 30, 1924. Foreign exports from Canada during the period in question totalled \$12,160,237, as compared with \$13,061,819 during the 12 months ended June 30, 1924.

Canada's imports for consumption during the period in question totalled \$808,896,004, a decrease of \$46,018,874, as compared with a similar period ended June 30, 1924.

ARGENTINE TO SEND CRUISERS TO MEET PRINCE OF WALES

To Accompany the Curlew Into the Port of Buenos Aires

BUENOS AIRES, Aug. 4.—Four Argentine and two scout cruisers of the Argentine navy will meet the Prince of Wales about 45 miles outside the port of Buenos Aires and accompany the cruiser Curlew, on which the Prince will arrive August 17 for his visit to Argentina.

The prince after his extended tour of South America, left Capetown on July 29, for South America on board the battleship Repulse.

On August 14 he will transfer to the Curlew, which, being of shallower draft will be able to bring the visitor directly to the quay at Montevideo, where he is going to call before coming to Argentina.

BREECHES AS CURE FOR VARICOSE VEINS

Doctor Says Low Necked, Short Skirts, Thin Stockings Healthful

BATH, Eng., Aug. 4.—Men should stop wearing long trousers, and thereby avoid the dreaded ailment of varicose veins, Dr. Leonard Hill, member of the British Institute of Medical Research, told the British Medical Association in convention today. Tight collars also are harmful, he said, explaining that girls, by wearing low-necked blouses, short skirts, and thin stockings obtain more health-giving ultra violet rays than do men.

NEW BOAT BELONGING TO CANADIAN FISHING COMPANY CALLS HERE

The new power boat Caniseo belonging to the Canadian Fishing Co., arrived in port from Kelchikan last night and sailed for Vancouver today. She took up a party of officials, including A. Hager, president of the company and left them at Kelchikan, from which point they will go south on another boat.

NAVAL CADETS HAD NARROW ESCAPE OFF VICTORIA HARBOR

VICTORIA, Aug. 4.—Alfred Garson and William Burt, Winnipeg naval cadets training here, had a narrow escape from death yesterday when their canoe capsized in the rough water outside the harbor. A passing launch, manned by William Deft, rescued them as they were on the point of sinking.

SANTAL MIDY

Each Capsule (MIDY) bears name **DR. CASSE**

Be aware of counterfeits

"Poor Dorothy—she's still too weak to romp and play"

THE hand of sickness touched her—and it was all so pitifully unnecessary.

She touched a door handle, a book, money, telephone, or something upon which other hands had left invisible disease germs. The germs passed into her system by way of her nose or mouth. Then the fever—the days of dread—the long convalescence—the impaired vitality.

Mothers—protect the tender health of your children. Have everyone in the family use Lifebuoy frequently—because Lifebuoy is a real health soap and combats the ever-present dangers of dirt.

The rich, creamy lather of Lifebuoy carries a gentle antiseptic deep down into every pore and leaves the skin purified. The wholesome odour soon vanishes—but the Lifebuoy protection remains.

Lifebuoy is a pure, bland soap, made from the rich oils of palm fruit and coconut. It agrees with your skin—keeps it soft, clear, glowing with health.

PRESENT STYLES IN FEMINE CLOTHES RAPPED BY CLERIC

Cardinal Gasquet Says They are Worse Than no Clothes at all

LONDON, Aug. 4.—If women were to go about without any clothes at all it would be "far less repugnant to people of good taste" than are the present suggestive styles, in the opinion of 79-year-old Cardinal Gasquet, Vatican librarian, here on a visit.

"There is more suggestiveness about the flimsy clothing they now wear than there would be in complete nudity," said the aged churchman.

Meantime, Rev. Richard Free, an English vicar, preached a sermon in which he declared "day by day, in every way, the fair sex is growing naked and naked."

and questioned whether the police would not have to be called in as they were an account of the Parisian ladies' costumes after the French revolution.

Mrs. Carlisle and four children of Moosejaw who have been visiting in the city with Mr. Carlisle's brother and wife, Mr. and Mrs. Thomas Carlisle, returned east on the train this morning.

NEW RAILWAY MANAGER TO VISIT THIS CITY

LONG FASTS MEAN BETTER HEALTH

Chicago Scientist Talks After Finishing Thirty-Three Day Fast

CHICAGO, Aug. 4.—For better health alternately feast and take long fasts, advises Frederick Hoelzel, lay scientist of the University of Chicago physiology department. He recently finished a thirty three day fast.

Prolonged hunger is not the ordeal that hunger strikers would lead the public to think, he says, for he never felt better in his life. He lost thirty pounds during the period of abstinence, but regained twenty of it in less than eight days afterward.

Fasters should go on a meal diet immediately preceding their enforced hunger, Hoelzel did and felt perfectly normal the first two days of the fast. He had a hard time walking from the third to the seventh day, then he experienced a slight weakness. No distinct hunger was felt until after the third week.

The desire for food after the third week over-topped everything else in the life of the faster. All interest except in things to eat waned. Pains caused by contraction of the stomach prevented sleep. No headaches were experienced and hot weather was found favorable.

Hoelzel broke the fast with orange juice. Ten days later he ate a pound of steak, a pound of shrimp, a pound of halibut and a pound of salmon.

Who Has This Icing?

Mrs. F. W. Charles asks for a cake icing, with walnuts, that is made with Pacific Milk. We sent her two, but neither is the one she tasted somewhere, and heard it took Pacific Milk to make properly.

If some friend of this British Columbia product would help Mrs. C., she will be most grateful. Address

Don't Miss BENT'S Summer Clearing Sale

Canadian National Business This Summer is Record Says R. Creelman

JASPER, Aug. 4.—R. Creelman, general passenger traffic manager for the west of the Canadian National Railways, who is here with President Thornton's party, says that the present year is the biggest one that the company has had in tourist travel. Jasper Park has had its lodge filled to capacity ever since the opening of the season. In the eastern resorts the same is true. Every possible piece of railway equipment is in use and the

SKEENA FISHING IS STILL GOOD

Total Pack to Date is 116,000 Cases—46,000 Sockeye

Favorable reports continue to come in from the Skeena river points as to the salmon fishing there. To date there have been about 116,000 cases of salmon put up by the various canneries which is in excess of the pack four years ago although not as good as the record pack of the preceding year. Already 46,000 cases of sockeye have been put up which is in excess of the whole pack four years ago when the total sockeye pack on the Skeena was only 41,000 cases.

Humpback salmon are coming in fair quantities, about the same as four years ago, but the cohort run is in excess of the pack last year at the same time in the season.

WESTHOLME THEATRE

Tuesday Only, 7 and 9 p.m.

THE CALL OF THE CANYON

Zane Grey at his best. The story of a modern girl who had to choose between love in the rough-and-ready West or life in the jazz-circles of New York. A contrast of the fast-living young generation and the stern realities of Nature. A photo-play that has clean, wholesome drama with many comedy touches, also novelty for it depicts life in the canyons of Arizona and life within the canyon walls of a big metropolis. Pretty eastern dresses; western scenic grandeur. Many big scenes including a real sand storm. Don't miss the tennis court showing the young men grooming their hair and side-burns and the girl secretly rouging her knees. Unrivaled cast.

SCOTCH AND ENGLISH

Jean entered a butcher's shop in a little town in Scotland and demanded to see a sheep's head.

"Is it English?" she asked when one was shown her.

"No, lass, it's Scotch," replied the butcher.

"Then it'll na do," said Jean.

"Mistress is English and she said I was sure to bring English meat."

"Here, Jock!" said the butcher, tossing the sheep's head over to his assistant, "take the brains out of that, will you?"
