## SEATTLE HAS ITS BIGGEST BLAZE IN YEARS

### RESUMPTION OF COAL INDUSTRY WILL FOLLOW AGREEMENT IN NOVA SCOTIA

#### Coleman Creosote Co. Plant is Destroyed in Bad Waterfront Fire

SEATTLE, Aug. 7.—Four firemen were injured; one spectator, in his eagerness to see the blaze, fell into the harbor and was drowned, and damage of nearly half a million dollars was the toll of a fire which destroyed the Golman Creosote Works here last night. It was the first time in two years that a general fire alarm was sounded here. All the city's fire fighting equipment and two fire lugs were used before the fire was finally brought under control.

#### MEIGHEN IS ON RAMPAGE

Challenges So-called Liberal-Farmer Alliance in T. A. Crean's Riding

SHOAL LAKE, Aug. 7.—In the riding of Marquette in Manitoba, which is represented in the House of Commons by T. A. Crean, former leader of the Progressives, and which is said to be the hotbed of Progressive activities, Hon. Arthur Meighen, leader of the Conservative opposition, challenged what he called the Liberal-Farmer alliance and denounced them for what he claimed was a conspiracy to destroy the fiscal structure of the Dominion.

#### KINGSTON HAS SEVERE STORM

Woman Dies of Heart Failure—Much Damage Done to Premises of Storekeepers

KINGSTON, Aug. 7.—The worst electrical storm in the city's history held the district in its grasp for five hours yesterday. The thunder and lightning was accompanied by a record fall of rain.

#### BETTER RATES BEFORE CROP

Mayor Taylor of Vancouver Takes Hand in Freight Rates Fight

VANCOUVER, Aug. 7.—Mayor L. D. Taylor has wired Premier King a strong appeal for equalization of freight rates before the prairie crop commences to move. In his telegram, the mayor intimates that he will take the initiative in calling a great mass meeting of protest by citizens of Vancouver and surrounding cities and municipalities.

#### HAZELTON HOSPITAL NURSES' HOME TO BE READY BY NOVEMBER

Tenders have been called for a \$10,000 nurses' home at Hazelton in connection with the hospital there. The building, which will be a very fine structure, is to be completed and ready for occupancy by November 15 of the present year.

#### LIARD RIVER MURDER CASE

Five Indian Prisoners Will Arrive Here on August 19 to Face Trial

Seven prisoners are to have their cases dealt with at the continuation of the summer assizes which will open here on August 19 before Mr. Justice D. A. Macdonald. L. W. Patmore of this city will prosecute and the same juryman who acted when the court started in June will again be called upon.

The outstanding case will be the murder charges against five Liard River Indians—four men and one woman. The prisoners, who have been at Okalla since they were brought out last fall by the Royal Canadian Mounted Police, will arrive here on the morning of August 19 from the south. They are charged with having murdered an Indian boy, Atol or Wastelia Moccasin, at Thirty-Mile Bar, Liard River, on April 1, 1923. The boy was killed, it is charged, because he was suspected of using witchcraft against the tribe. Death came from exposure when he was tied by the feet to a tree and left to freeze to death. The delay in the trial has been because an important witness of the crown, an Indian woman named Lucy, had been left behind when the prisoners were brought out and she could not be brought here until this summer. She and a woman interpreter are now in Prince Rupert.

Capt. T. V. Sandys-Wunsch, who was in charge of the Royal Canadian Mounted Police detachment which brought the Indians out last fall, arrived in the city from Vancouver this morning.

Other cases to come up at this assize are an attempted murder charge against Faustina Pena as a result of a brawl among members of the crew of the steamer Curacao at Stewart and a charge of theft against a Smithers man named Edison who is to be defended by L. S. McGill.

#### MOUNTIES TO HAVE SHOOTING PRACTICE AT TELKWA RANGE

Capt. T. V. Sandys-Wunsch, R.C.M.P., was an arrival from Vancouver on the Prince George this morning. He is here to conduct an annual shooting course for men of the Royal Canadian Mounted Police in this district and will proceed tomorrow with Inspector A. E. Acland to Telkwa where the shoots will be held, that place having a good range. They will be back in the course of four or five days.

Capt. Wunsch is a revolver shot of some renown and holds a world's record.

#### NEW YORK FUR SHOP ROBBERY \$100,000

Bandits Herd Employees Into Basement and Escaped With Large Amount of Loot

NEW YORK, Aug. 7.—Five robbers today held up the store and factory of the Harry Bleiweis Co., manufacturing furriers, herded six employees into the basement and escaped with furs valued at \$100,000.

Modern transportation in the Yukon. A motorcycle on runners, propelled by a chain-covered wheel, covers a 275-mile trip in fourth of the time taken by a four-horse team.

#### United Church of Canada in Prince Rupert District is Instituted at Meeting Here

During yesterday the former Port Simpson and Hazelton districts of the Methodist Church met in this city and transacted business leading up to the handing over of affairs to the newly formed United Church of Canada. There was also a conference with former members of the Presbyterian Church presbytery.

At 6.30 last evening a supper was served at which delegates to the United Church presbytery and a goodly number of members of the United Church in Prince Rupert joined together. Rev. G. G. Haeker presided.

#### CASSIAR HAS GOLD REALLY

Shipments Arriving at Wrangell Said to Prove Paying Proposition

WRANGELL, Aug. 7.—That gold is being taken in paying quantities from the Telegraph Creek district, despite previous reports that the spring stampede into the Cassiar district was a fiasco, was proven when first shipments arrived here yesterday by boat down the Stikine River. Some claims on Gold Pan Creek are reported to be paying from \$25 to \$30 a day per man.

News of the gold really coming out of the country has resulted in many persons who abandoned claims restaking them.

#### PHILLIES AND PIRATES LEAD

Cincinnati Reds Going Strong in National League — Senators Down in American

NEW YORK, Aug. 7.—The Cincinnati Reds, by trimming the New York Giants yesterday, are now but three and a half games behind the Giants while the Pittsburgh Pirates, winning from the Brooklyn Dodgers, widened the gap at the top and are now two half games ahead of the Giants.

The Philadelphia Americans are leading Washington in the American League pennance race by one full game.

#### URGES PROHIBITION

Dr. H. C. Wrinch of Hazelton, in a short address, urged the people to still keep as their ideal national prohibition. Dr. Wrinch stated emphatically that all recent experiments with the handling of liquor, including government control and beer parlors, had been a failure. He gave instances where in some sections of the United States, South Carolina particularly, prohibition was proving fully successful. One Howe Sound man had reported, after traveling eighteen months through Bayview states where prohibition was in effect, that prohibition was in effect.

#### Withdrawal of Militia and Opening of Mines Monday is Announced

HALIFAX, Aug. 7.—The signing of a six months' interim contract, withdrawal of the military from the Cape Breton mining areas, recommencement of work on Monday and the appointment of a commission to investigate the entire coal mining industry are developments which it is expected will occur in rapid succession as a result of the agreement of the British Empire Steel Corporation and their miner employees to accept the government proposals for a return to work after five months of idleness.

SYDNEY, Aug. 7.—The miners and the steel company signed the contract today and work will resume on Monday.

#### HORACE DU VERNET IS REVISITING CITY

Former Local Resident is Now Connected With South Carolina Lumber Concern

Horace DuVernet arrived on yesterday's train from Greenville, South Carolina, and is the guest of his mother, Mrs. F. H. DuVernet. He is on a business trip in the interest of his firm, Messrs. Hudson & Rigby, wholesale lumber merchants. They are one of the oldest firms operating in Dixie Land.

Mr. DuVernet, who was one of the pioneers of Prince Rupert, left two years ago for the south to take up a position under his cousin, Robert Parker DuVernet, later on going into the lumber business. He is charmed with the south and the southern people. He was struck with their politeness, hospitality and the religious atmosphere prevalent everywhere. He believes there is a wonderful future for the south as it is now coming into her own.

Mr. DuVernet travels through the states of Maryland, Virginia, Tennessee, North and South Carolina and Georgia and, speaking of the liquor law, he is yet to find the first drunken man. Prohibition is there to stay for ever, he says.

Mr. DuVernet will go south Sunday, returning to South Carolina by way of the northwestern states.

#### THREW HIS WIFE OFF BOAT, THEN TOOK TO WATER

Petersburg Authorities Investigating Report Brought to Them by Young Girls

PETERSBURG, Alaska, Aug. 7.—Federal authorities stated yesterday that two girls, five and three years of age, had informed them that Tom Rise had beaten his wife on board a boat and thrown her overboard, then jumping himself into the water leaving the children on the moving craft. The vessel beached itself and the girls crawled off when the tide lowered and walked to a cannery three miles distant. The authorities are dragging Wrangell Narrows south of here for the bodies. One of the children stated that her parents had been drinking.

#### BARON BYNG IS ON WAY SOUTH

Governor General Returning to Civilization After Trip to Northwest Territories

WINNIPEG, Aug. 7.—After a journey of thousands of miles which carried him to the furthest northern regions of Canada's northern hinterland, Baron Byng of Vimy, Governor General of Canada, is on his way back to civilization. It was the first time that such a trip was ever undertaken by a Governor General and, in the course of the journey, the party encountered much of the hardship experienced by the scattered population of the north country.

#### FURIOUS STORM AT SASKATOON

Tops Ripped Off Cars and Wire Services Interrupted—Crops Damaged

SASKATOON, Aug. 7.—Several districts in Northern Saskatchewan were visited by a terrific wind and hail storm yesterday. The gale ripped the tops off three cars of a Canadian National freight train, caused damage to the telephone and telegraph service and forced passenger trains to remain here 35 minutes while the storm passed. There was considerable damage to the crops.

#### PREMIER MINE TO RAISE CAPACITY OF CONCENTRATOR

The concentrator at the Premier mine is to be enlarged so that it will handle more than 400 tons of ore a day according to an announcement made in Vancouver by R. W. Wood, president of the Premier Gold Mining Co., following a trip of inspection to the property.

**End Of Nova Scotia Strike.**

No doubt the newly elected Conservative government in Nova Scotia will claim credit for the settlement of the coal strike in that province and, in some respects, it may be entitled to it, though the terms of the settlement do not indicate that the new regime is any less "under the thumb" of the British Empire Steel Co. than the old Liberal government was accused of being. However this may be, it should be a matter of general gratification that the end of the long industrial struggle is in sight and that Cape Breton will soon be busy again at its principal industry. Strikes like these are not good for the morale of the country and certainly do not constitute good advertising for Canada abroad.

**Looks Like An Election Soon.**

The date of the federal general election is still uncertain and speculation is rife as to when it will be held. However, the campaign may now be said to be on and it will only need the spark of a definite announcement to intensify it. Arthur Meighen and the Conservatives are already on the stump and so are some of the Liberals. The indications are that the election will be held before there is another session of parliament and it is very likely that Premier King will make an announcement to that effect in the course of the next few days.

**Importance Of Fishing Industry.**

While the great agricultural, timber and mining resources of Canada have deservedly received a great deal of publicity, comparatively little has been published regarding the fishing industry in Canada. As a matter of fact, it is the one natural resource which is inexhaustible. It will not be many years before a great tide of immigration will stream into Canada, such as was experienced during the years preceding the great war, and as this continues the available arable land will grow scarcer and scarcer. As the great publishing interests of the United States, especially, continue to use enormous quantities of paper made from Canadian wood pulp, and building activities require an ever-increasing supply of lumber of all kinds Canada must then stand in somewhat the same position which is experienced in the republic today as regards her present limited supply of standing merchantable timber. And perhaps sometime the great silver, gold and copper mines of the Dominion will become depleted of their stores of valuable mineral content.

But in the great fishing banks the supply of edible marine life will be inexhaustible if it is properly conserved. Virgin prairie may become farm lands too high in price to attract the immigrant or in places become valuable city lots, vast tracts of timber may be denuded of their growth and mineral veins may pinch out, but Nature will continue to reproduce her kind in the waters of the deep just as she has always done since Creation.

With the present high cost of living it is surprising that fish is not more popular than it is. However, a great change has taken place in the past few years, and while the proportion of fish is but a very small fraction of the meat consumption of this country the progress which has been made is vastly encouraging to those who are interested in the Canadian fishing industry.—Commercial and Financial World.

**Victoria, Emperor and Lakeview Mines in Stewart District Are Covered in Government Report**

By G. A. Clothier, Resident Engineer

The Dandy group consists of four claims — Dandy No. 1, Dandy No. 2, Star No. 1, and Star No. 2—situated north of and adjoining the Dunwell group and east of the Mayflower group. Early in the spring this property was acquired by R. W. Martin and Eastern associates and some work done in the bed of a deep creek cutting across the claims. The work consisted of open-cutting and a crosscut tunnel about 70 feet in length, showing some small mineralized quartz veins and silicified bands bedded with the slate formation.

Later a company was organized called the Victoria Mines Limited, with a capitalization of \$500,000, divided into 500,000 shares. This company started late in the fall and up to the end of the year a crosscut tunnel had been driven 90 feet with the object of cutting any or all of the north-south series of veins prominent on the Dunwell, and which, according to the prospectus issued by the company, must necessarily extend into the company's ground.

**Emperor Mines**

The North Line group includes three mineral claims and two fractions—North Line, North Line Fraction, South Line, South Line Extension, and Flat Fraction—owned by James McKay, of Stewart, and situated north of the Lakeview group. Last year the claims were bonded to Gus Seiffert, who organized the North and South Line Syndicate in Vancouver on a basis of 300 units of a par value of \$200 a unit. To provide working funds 75 units were disposed of and work was started as early this spring as snow and trail conditions would permit. Under the supervision of Mr. Seiffert a very creditable amount and quality of work has been done this season, making a good start on a promising property.

The trail was put in passable condition from the Lakeview to the camp. Preliminary to starting development work two log cabins were built, one 14 by 14 feet and the other 18 by 31 feet, for mess and bunk houses.

A great deal of surface work was done first in stripping and open-cutting at intervals of from 50 to 100 feet, this indicating a vein of from 7 to 14 feet in width. The vein has a quartz gangue mineralized with galena, zinc-blende, and pyrite.

A crosscut tunnel was driven 120 feet, striking the hanging wall of the vein at a depth of about 85 feet. A cut of 13 feet in length was then driven across the vein without reaching the foot wall. A drift was driven north 40 feet and another 25 feet south, both in the hanging wall of the vein. Both faces were in good ore when work was stopped early in the winter. While the ore on the average is not high grade, it will at least make good milling ore, with the probabilities that there will be shoots of shipping grade ore in it.

Mr. Seiffert has now incorporated the Emperor Mines, Limited, with a capitalization of 1,500,000 shares at \$1 each par value, to take over the property. It is expected there will be no difficulty in proving necessary funds to proceed in the spring on a comprehensive plan of development. A trail will be recommended to the property from the Lakeview or whatever point is most advantageous.

**Lakeview**

The Lakeview Mines, Ltd., was incorporated in April of this year, with a capitalization of \$500,000, divided into 500,000 shares. Its holdings consist of the Lakeview group of mineral claims—Lakeview No. 1, Lakeview No. 2, Lakeview No. 3, and the Silver Bell Fraction, staked and owned by James McKay and Chas. Bibeau, of Stewart; the Lakeview Fraction and an interest in the Riverside No. 1, Riverside No. 2, and Riverside No. 3 Fraction.

The Lakeview group lies east of and adjoining the Dunwell Mines, Limited, ground, and the other claims between the Lakeview group and Glacier creek. Altogether it is ideal ground for operating and shipping, being only about 2 miles from the main wagon road and 5 miles from tide water. The country rock is the Bitter Creek formation, composed of chiefly argillites, tuffaceous rocks, and bands of limestone.

The Lakeview claims have had an extensive amount of pros-

new camp to accommodate fifteen to twenty men, convenient to both the 100-foot and 300-foot levels, was built. A contract for the driving of the tunnel was let, employing six men, and at the end of January, 1925, 140 feet had been driven. It is estimated that the vein will be cut at a distance of 580 feet from the portal and a depth of 330 feet obtained on the dip of the vein.

A power plant is now being taken up on the snow and erected February, 1925, consisting of a 355-cubic-foot 12 drill Canadian Ingersoll-Rand compressor; 50-60 horse power semi-Diesel, Vickers-Petter engine; receiver, drills, air pipe, rails, fuel oil, etc. The management expects to have it operating early in April. In the meantime the tunnel is being continued by hand and its objective should be reached early in May.

No work has yet been done on the north-south vein. A shaft was sunk 32 feet in ore all the way by former operators. It is the intention of the management to explore this at a later date by driving a crosscut from the north end of the 100 foot level, a distance of 350 feet, which will obtain a vertical depth of 175 feet below the collar of the shaft. This is a very promising vein, showing a splendid grade of ore.

**Ten Years Ago in Prince Rupert**

August 7, 1915.

Judge Young has just handed down a decision that crown lands which are under lease by private persons may become liable to be taxed by the municipality for the full value of the land but not for the interest represented by the rental paid.

Children are busily engaged selling flowers in aid of the Red Cross fund and, as a result considerable money has been turned over to the treasurer of the society. The weekly sales are also being well patronized. Yesterday the sale at Parkin & Wards store in charge of Mrs. Shockley and Mrs. Tremayne realized \$74.30.

W. R. Gallaway, general passenger agent of the Soo line arrived over the G.T.P. last evening and went south this morning.

Canon Rix left on the Prince George on a two week's vacation. In his absence, Bishop Du Verneil will conduct the services in St. Andrews church.

**LAND ACT.**

Morte H. Craig returned to the city on the Prince George this morning from a brief trip south.

Read our ad. It may mean \$10 to you. Prince Rupert Transfer and Taxi. Phone 189-112. tf

Pat Daly, famous miner from the Stewart district, is a through passenger on the Prince George today for the north.

Miss Grace Ackroyd returned to the city this morning on the Prince George after having spent some time visiting in Vancouver.

Cash and Carry special Saturday all day until sold. 50 baskets Yellow Freestone Peaches at 50c basket. Universal Trading Company.

Dr. H. C. Wrinch, M.L.A., who has been in the city attending the meeting of the Presbytery of the United Church, returned to Hazelton this morning.

Rev. W. J. Parsons and Rev. J. H. Young of Terrace, who have been attending the sessions of the Presbytery here, returned to the interior on this morning's train.

Mr. Marpole of Vancouver, whose firm has the contract for lowering the sand and gravel from Hastings Arm for the elevator here, was a passenger arriving on the Princess Alice this morning.

J. J. Carroll, superintendent of C.N.R. steamships, returned to the city this morning on the Prince George accompanied by Mrs. Carroll and daughter who will remain in the city for a short time.

C.N.R. steamer Prince George, Capt. Harry Nedden, with over 200 first class passengers, arrived at 11:30 this morning, having been delayed down the coast by fog. Over 100 of the passengers proceeded East by train.

The Board of Trade has placed large signboards at the Government and C.N.R. docks directing tourists to see—the Salt Lakes, Butze Rapids, Shawatlans Lake, Gold Storage Plant, Dry Dock, Metlakatla, Westview Drive and view from Acropolis Hill.

Sister Mary Ludovic, who has completed a term of six years as Sister Superior at the Dawson City Hospital, will arrive in Juneau this week to become Superior at St. Anne's Hospital there. Sister Ludovic has been in Vancouver for a few days since coming out from Dawson.

Misses Gwen and Muriel Holby, nieces of A. R. Holby, arrived from the south this morning on the Prince George and will spend some time in the city as the guest of Mr. and Mrs. Holby. Geo. Holby, their father, is superintendent of the elevators of the Montreal Harbor Commission.

On last evening's train there arrived Dr. H. C. Wrinch, M.L.A., and Rev. A. C. Pound of Hazelton. Rev. V. H. Sansum of Kispiox, Rev. and Mrs. J. H. Young of Terrace, Mrs. C. H. Sawle and John Newick from Hazelton, and Rev. W. J. Parsons from Terrace to attend a district meeting in the United Church here and later to attend the first meeting of the Presbytery of the United Church of Prince Rupert District.

Scandinavians invited. Swedish service tonight in Swedish Lutheran Church, 274 Ninth Avenue

Mrs. W. H. Vickers and daughter Evelyn are enjoying a holiday at the Prince Rupert cannery.

Mr. and Mrs. Fred Cameron and family were passengers on today's train for Terrace where they will spend a couple of weeks holidaying.

Union steamer Catala, Capt. A. Johnstone, arrived from the south this morning at 8:30 and sailed soon afterwards for Naas River points.

Members of the Fair Board are looking over the Exhibition building and grounds this afternoon with the idea of having repairs and improvements made in time for the Fall Exhibition.

Mr. and Mrs. A. W. McTaggart of Anyox, who have been holidaying in Terrace, returned to the city on last night's train and will proceed north on the Prince George tonight.

Charles L. Youngman is seriously ill in the Prince Rupert General Hospital. He was in charge of the local liquor store while William Millar was away on holidays. The latter was called back from Hazelton and arrived in the city last night.

### COMPLETED TRIP.

NEW YORK, Aug. 7.—Lieut. Leigh Wade, U.S. world flyer, and Linton Wells, New York, the first men to cross the United States in an automobile without stopping, made the 3925 trip in 165 hours and 50 minutes. They started at Los Angeles and finished here.

### DAMAGE TO BEATRICE.

VICTORIA, Aug. 7.—The keel of the Princess Beatrice was damaged for about 52 feet and the hull suffered strain as a result of the vessel hitting Louise Rock in the Skeena River last Monday. It will take at least a week to repair the damage.

### TO OPEN DRY DOCK.

VANCOUVER, Aug. 7.—Hon. Dr. J. H. King, federal minister of public works, will open the new sixteen thousand ton dry dock and shipbuilding plant of the Burrard Dry Dock Co. here on Monday.

### GAME CALLED.

The Gyros and the Sawmill played two innings in their scheduled baseball game last evening when the match was called on account of rain. The Sawmill was leading when the game was called.

### HOTEL ARRIVALS.

Prince Rupert.  
Thomas A. B. Ferris and W. A. Oswald, Vancouver; P. M. Olsen, Phelan; H. O. Murrill, Walkerville, Ont.; S. C. Pepper, Berkeley, Cal.; W. F. Binns and W. H. Ross, Balmoral; Mrs. T. Hall, Salvus East; Mrs. C. H. Sawle, New Hazelton; Rev. and Mrs. J. H. Young and family, Terrace; John M. Kelley, Adalanto, Cal.; Paul Roscoe, Lake Benton, Minn.; Joseph Kelley, Verdi, Minn.; Mr. and Mrs. T. A. Stafford and daughter, Chicago; Mr. and Mrs. A. W. McTaggart, Anyox; Mrs. W. H. Fraser and F. H. Fraser, Toronto; Dr. William Sager, Port Essington.

**RAILWAY HEAD IN OKANAGAN**

Kelowna-Kamloops Branch Line Inspected Yesterday by Thornton and Party

VERNON, August 7.—Sir Henry W. Thornton, chairman and president of the Canadian National Railways, together with two of his directors and regional and divisional officials, yesterday inspected the new Kamloops-Kelowna branch line and the territory which it will serve. The C.N.R. president's party arrived here yesterday morning and left immediately for Kelowna where they were entertained at lunch. The journey to Kelowna and return was made by automobile, the party having come to Vernon yesterday by special train over the newly completed line from Kamloops.

At Kamloops, Sir Henry and the directors, Major Graham A. Bell and J. Gill Gardner, were guests at a dinner tendered by Kamloops citizens to Hon. Dr. Sutherland, minister of Public Works for British Columbia. In the course of a brief address, the Canadian National President dealt with the financial condition of his company and spoke with optimism of the outlook for the balance of the present year. Though gross receipts had been reduced by nine million dollars during the first six months of 1925 as compared with the similar period of 1924, there had been a corresponding decrease of operating expenses amounting to \$10,200,000 so that net earnings showed a betterment of more than a million dollars. The last few days of July had shown the first increases and present crop prospects throughout western Canada indicated that business for the balance of the year would be very heavy. Referring to the new Kamloops-Kelowna branch line, now nearing completion, Sir Henry informed his auditors that the Canadian National was going into the Okanagan Valley with the intention of securing every pound of freight and every passenger possible and of giving to the people of the area served the very best that could be given in the way of railroad service. Touching upon the financial question he stated that, while the first three years had been occupied with a multitude of problems requiring solution, a thorough financial survey was now being made which would determine what recommendations should be made to the government in regard to more complete financial amalgamation of the constituent companies of the Canadian National System, and what, if any, action should be taken toward writing off capitalization.

On their return to Kamloops early this morning, the party left for Vancouver and is due to arrive there Friday evening, leaving the same night for Victoria after which Sir Henry will return to Vancouver for the opening of the exhibition and to open the new Canadian National radio station C.N.R. on the night of August 11.

**SMITHERS**

Frank Manuels, a dispatcher at the local railway office, left for Winnipeg on Monday to spend three week's holiday at his old home.

A daughter was born at the Bulkley Valley District Hospital on Sunday, August 2, to Mr. and Mrs. Jas. Owens of Evelyn.

Word has been received in

town that a son has been born to Mr. and Mrs. Roy Eisey of Vancouver. Mr. and Mrs. Eisey are both well known in Smithers, having been teachers at the local school.

Mrs. T. T. Dunlop, accompanied by her sister Miss McLaughlin, left for Vancouver on Monday to purchase a stock for the ladies' ware store they are opening up in Smithers.

After an absence of several weeks spent in the Ootsa Lake and Sibola districts, Dunc McGibbon returned to town Wednesday morning. He left his partner Bill Sweeney making improvements in the trail to Sibola.

Ed Eby is extending his business ventures to include a hardware store and left for Vancouver Wednesday to get a stock of staple lines of hardware and other lines for the new business.

George Cunningham of Port Essington was a business visitor to town on Wednesday.

L. S. McGill returned to town the forepart of this week from a trip into the Ootsa Lake country. Mr. McGill was looking up his clients in that section and covered about 600 miles in his car on the trip.

**BOYS' BAND HERE IS OFF TO GOOD START**

Initial Practice Was Held Last Evening in Anglican Church Basement

A fair number were present at the first practice of the boys' band held last evening in the basement of the Anglican Church. At the present time there are not enough instruments for all the boys who wish to join the band but it is felt that this may be remedied by donations from parents who are anxious to have their boys receive the benefit of the instruction which the Rotary Club is providing. A number of the boys are also away on their vacation and it is hardly expected that the band will get under way with the full number of members until after the summer holidays. A good start was made, however, last evening and Bandmaster Wilson was very much encouraged with the enthusiasm of the boys.

**TRINITY IS NEW HALIBUT VESSEL**

Fine Fishing Schooner is in Port Today For First Time After Her Maiden Voyage to Banks

Another fine new American halibut schooner is in port today after her maiden trip to the fishing banks. The vessel is the Trinity which is owned and skippered by Capt. Conrad Pelterson. With a tonnage of 41, the Trinity is 62 feet long and has a 110 horse power diesel engine. She was built and registered in Seattle. Her crew consists of nine men and she brought in a catch of 39,000 pounds.

**HAZELTON MAN IS MOVING TO RUPERT**

Alex. Connon Resigns as Manager of Cunningham Store to Join F. G. Dawson Staff Here

Alex. A. Connon, who has been manager at Hazelton for R. Cunningham & Son has resigned to take a position here with F. G. Dawson Ltd. He is expected

in the city about the end of the present month.

**KEEPING AMERICAN SAILORS INFORMED ON BASEBALL GAMES**

MELBOURNE, Aug. 7.—Just as hockey, baseball and football scores were supplied to the Canadian soldiers in the Great War, the United States Navy is furnishing 35,000 sailors of the U.S. fleet with baseball scores during the visit to the Antipodes. The visitors were royally entertained ashore, and made a favorable impression wherever they went, but there was one thing missing—the baseball scores. They told the Australian newspapers about it, and the scores are cabled daily "down under." The Australian newspapers were quick to oblige their American guests, and the baseball results were flashed across the United States and under the Pacific. But it takes calculus, or something like it, to figure out the standings without a percentage book. The sailors demanded the standings, which are now being cabled nightly. Similar information on the national pastime will be sent to New Zealand when the fleet goes there.

**Sport Chat**

Philadelphia Athletics and Washington Senators are having a battle royal for leadership in the American League while Pittsburgh Pirates and New York Giants are touch and go for honors in the National. With things so close as they are now it is hard to speculate who will be the principals in the big World Series party this year. The Cincinnati Reds are also pressing hard in the National and it is quite impossible for them to climb to the top before the season ends a couple of months hence. Philadelphia is just three games ahead of Washington in the American while Pittsburgh and New York are practically on even footing in the National.

While the Fair is still a good month off, preparations are already being made for the sport program during Exhibition week. Negotiations are in progress with outside baseball and football teams and a good bill may be expected. Word received from Ocean Falls is to the effect that a soccer team is coming from there. There is inclined to be some doubt about this locally for the paper makers would have to lose quite a bit of time to make the trip. It is considered more likely that a team will come from Anxox instead. Ketchikan is coming over in force again and this will assure at least one outside baseball team to meet the locals.

Hockey is continuing to grow in favor in eastern cities as a winter's pastime. Some American cities have had professional teams in different leagues for some time and now there is talk of two professional leagues in the eastern states this coming winter. As many of the professional players in these leagues come from Canada, there will be a wild scramble now for players to fill up the different teams for the coming winter.

There has been a lot written and said in connection with a disagreement between one Jack Dempsey and his manager Jack Kearns. It seems that there is little hope of a reconciliation as arrangements have been made to divide certain realty holdings in

San Francisco in which they were both interested. If Dempsey should fight before September 1926 Kearns will receive a share of the proceeds. Dempsey has had a dispute with the New York boxing commission who demand that he fight or he will not be champion. Dempsey says he will fight but he wants to delay the matter until next year when Kearns will not be able to share in the proceeds. It would seem to be a case of too much easy money and many think that Dempsey will not enter the ring again.

TO LECTURE ON INTERIOR

P. Escott-North, F.R.G.S., Visits Bulkley Valley and Lakes District.

SMITHERS, Aug. 7.—The English traveller and lecturer, P. Escott-North, a Fellow of the Royal Geographical Society, arrived in Smithers last Tuesday and spent a couple of days here in the course of his tour through Central British Columbia.

On a former trip to America he took a series of motion pictures illustrating cow-boy life as it actually is on the ranges and plains of Canada and the United States and produced the photoplay called "The Cow-Boy" which made a great hit in London last June.

Mr. Escott-North motored from Burns Lake to Smithers and, although he has travelled in all parts of the world, he stated that he thought the Bulkley Valley was one of the most fertile districts he had seen in his wanderings and predicted a great future for this section when the country became more settled and markets were established for the produce.

Ootsa Lake Land. There are hundreds of acres of land in the Ootsa Lake district owned by English investors and Mr. Escott-North, at their request, made an inspection of their holdings while in that country. He found that a considerable portion of the land was of good quality but realized that, as an investment for the owners, it must prove somewhat of a failure.

BUSTER KEATON IN BIG COMEDY

"Seven Chances," at Westholme Theatre Tonight, is Well Known Story

Buster Keaton, in his picture "Seven Chances," to be shown tonight and tomorrow at the Westholme Theatre, is a broker who has placed his business in a precarious position by his donations to every charity that has applied for funds.

He is all set because he knows just the girl he wants to marry. He gets into his car and goes to her house where he proposes and is accepted. Then he says he's glad she accepted him because otherwise he would have lost the seven million. She walks out on him because she thinks he is marrying her merely to get his money.

Buster returns to the office downcast. The partner insists that he must marry someone to save him from going to jail and to save the firm. The girl, in the meanwhile, telephones to the office at a time when the partner is trying to talk Buster into marrying. The partner takes down the phone and sets it on the desk while he continues to argue with Buster.

Buster and the partner leave the office with the lawyer to try to find another girl. The girl cannot get the office because the telephone is down so she sends a note by messenger to tell Buster that she is waiting for him and will marry him.

Buster, his partner, and the lawyer go to the country club where Buster proposes to every girl he meets until one finally accepts him. Before the girl accepts, the partner has given up the country club as hopeless and gone with the lawyer to a newspaper office where he causes to be published a picture of Buster and a story to the effect that he will marry any girl who is at the Grand Street Church by 5 o'clock in a bridal outfit.

Buster, in the meanwhile, has made arrangements for the girl who accepted him to be at the same church at the same hour. Buster arrives and when the girl shows up he is ready to marry, but the deadly work of the newspaper story and picture has sent hundreds of brides to the church, looking for a husband with seven million dollars.

The crowd becomes so great that Buster has hundreds of brides instead of one on his hands and cannot marry any one of them. During the struggle the messenger from the girl arrives and gets him. Buster is now confronted with the problem of getting out of the church and away from the mass of brides to reach his girl. Not only must he reach her but he must marry here before seven. Telling the

message to get a minister and take him by taxi to the girl's home, he escapes from the church and starts for the girl.

IF the bills that arrive at the end of the month were only received one might look forward to the mail. FOR something to keep you occupied try and wrap up a porcupine in a sheet of newspaper.

A. R. Tordiffe, who has been a visitor in the city for the past few days, returned to his home at Cedarvale today. In Queen Charlotte Land Recording District of Prince Rupert, and situate about one and a half miles east of Massett Lighthouse at the mouth of Massett Inlet, Graham Island, British Columbia.

TAKE NOTICE that Langara Fishing & Packing Company Limited, of Victoria, B.C., occupation, Packers, intends to apply for a lease of the following described lands:— Commencing at a post planted at the northwest corner of Lot Seven, Graham Island, British Columbia, about one and a half miles east of Massett Lighthouse at the mouth of Massett Inlet, Graham Island, British Columbia; thence northerly five chains, more or less to low water mark; thence westerly, along low water mark one hundred and sixty chains; thence southerly five chains; thence easterly one hundred and sixty chains, more or less, to point of commencement, and containing eighty acres, more or less.

Per E. H. Simpson, Agent. LANGARA FISHING & PACKING CO. LTD., Applicant.

The Lucky Youth. FORTUNATUS had only to don his enchanted cap and make a wish to obtain anything his heart desired. It is not given to ordinary mortals to have so simple and direct a mode of filling their wants. But have you ever considered what a boon advertising has become? Everything you need or wish is displayed for your benefit in the advertising columns. Merchants and manufacturers use advertising to lay before you their most attractive wares. You have only to choose at your ease the things you care most about before actually going to see them in the stores. Advertising is continually making the world better dressed, better fed and housed. It is increasing the world's capacity for things that elevate, improve and idealize the important business of living. It is a big, vital force in fostering convenient, comfortable and useful lives. Empty your home of all advertised things and see the hole you make! YES, IT PAYS TO READ-- ADVERTISING

# CHANGES IN WATER RATES

City's New Bylaw is Now in Effect and Accounts are Issued this Month Under it

Under the city's new water bylaw which went into effect on August 1 and on which charges this month are based, there are several new features with which many consumers may not yet have familiarized themselves.

Under the bylaw, the water service connection is increased. A one-half inch service now costs \$15; three-quarter inch, \$18, and one inch, \$21. Each house is required to have a separate service and water account in future will be kept in the name of the owner and not of the tenant.

Those consumers who are supplied through meters will notice an increase in the rate as the minimum cost per 100 cubic feet is raised from 13c to 20c. The schedule operates on a sliding scale from 1500 cubic feet at 20c per hundred to 160,000 cubic feet or over at 5c.

The minimum monthly charge for any service will be \$1. All rates are subject to a discount of ten per cent if paid on or before the fifteenth of the current month except, where payment is made six months or more in advance, when a discount of fifteen per cent will be allowed.

## FAMOUS WATERLOO BRIDGE MAY FALL INTO RIVER SOON

LONDON, Aug. 7.—The famous Waterloo Bridge may fall into the river this year, the London County Council was told by C. A. G. Manning, an engineer, who pointed out it would place South London in danger if eighty thousand tons of masonry suddenly collapsed into the Thames.

While the County Council engineers deny there is cause for alarm just yet, they admit the bridge is slowly sinking. Almost hourly examinations are being made to determine the exact condition of the historic bridge, and on the first sign of collapse it will be closed.

The assault case against Solomon S. Brethwaite was adjourned this morning in the police court until Monday.

### TIMBER SALE, X 7199

Sealed Tenders will be received by the District Forester not later than noon on the 20th day of August, 1925, for the purchase of Licence X7199, situated north of Separation Point, Tolleme Channel, C.N.R., to cut 254,000 feet board measure of spruce, cedar, hemlock and balsam sawlogs.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

## HALIFAX HERALD HAD NOT ALL THE FACTS

Item Leading up to Editorial Attack on C.N.R. More Fully Explained by New Glasgow Eastern Chronicle

In regard to the editorial "Private Cars in Canada," reprinted recently in the Daily News from the Halifax Herald, a local reader has forwarded to the editor a copy of the New Glasgow Eastern Chronicle which further explains the incident that led up to the editorial being written in the eastern paper. The Halifax Herald, which is a strong Conservative paper, apparently seized on the item from the Eastern Chronicle to launch an attack on the C.N.R. management before the facts were fully known. The Eastern Chronicle says it is really too bad that the Halifax Herald chose for a text, to base an attack upon private cars, that particular item from the Eastern Chronicle. We are thoroughly in accord with the Herald, on the question of private cars, a pernicious system that was introduced into public life in Canada by profligate Tory politicians, politicians who rode them to death, as far as public sentiment in Canada is concerned, a long time prior to any Liberal advent to power.

We also agree with what the Herald says about the railway Moloch, which was wished upon Canada by a Tory government, and which is today a terrible burden of taxation and a deplorable hindrance to trade. Both are good subjects of attack when properly placed and are fair samples of the pernicious conditions and practices placed upon Canada by Tory rule which it is very difficult for her to recover. The reason we regret the Herald's use of the item is that it was not in detail correct. Nor was it intended to convey such an interpretation as the Herald in its anxiety deduced. The car was not Mr. Fraser's, but Superintendent Martin's of the Eastern Division of the C.N.R., which he graciously sent to Truro as a special complement, knowing that the train upon which Mrs. Fraser was travelling reached Monastery at the unseemingly hour of two o'clock in the morning, from which station a drive of twenty miles to Gaysboro has to be undertaken. We regret our careless share in the incident, and it would be an ungrateful country that would find any suggestion of fault in an act of courtesy towards a lady of the land so worthily entitled as the aged widow of the late Lieutenant-Governor of Nova Scotia.

### GOLD ORE MINING CO., LTD. (N.P.L.)

NOTICE IS HEREBY GIVEN that the Resident Engineer, No. 1 Northwestern Mineral Survey District, British Columbia, upon receiving notice of an advertised and solicited sale of shares in a certain company, viz., the Gold Ore Mining Company Ltd. (N.P.L.), upon statements or terms of sale, and after a detailed report and conditions has notified the undersigned, the Minister of Mines, who upon investigation and in pursuance of section 16 of "Mineral Survey & Development Act," Chapter 169, B.C., 1924, finds it necessary to prevent injury to investors to give the following notice:—

That the said Resident Engineer, under date 23rd July, 1925, has submitted to the Minister of Mines a detailed report and comment on statements contained in an advertisement appearing in the Province of British Columbia and composed in terms which solicit the sale of shares in the said Gold Ore Mining Co. Ltd. (N.P.L.) and a leading paragraph reads:—

"In speaking of the Eagle Group of claims belonging to the Gold Ore Mining Co. Ltd., John the King has this to say: 'There are two distinct veins on the property that can be traced for four hundred feet on the surface.'"

The said Resident Engineer's comment on the foregoing follows:—

"The north vein has an open cut on it and the south vein has three cuts which trace it for a distance of about 150 feet."

Said advertisement in the same paragraph contains the following words:—

"The vein varies in width from 25 to 30 feet while the other runs from 10 to 12 feet."

The said Resident Engineer's comment hereon follows:—

"The north vein shows a mineralized width of approximately 10 feet. The south vein varies from 4 1/2 to 6 feet in width."

Said advertisement in the same paragraph contains the following words:—

"Open cuts on these veins at different distances have shown an average of better than \$10.00 to the ton in gold, silver and lead."

The Resident Engineer's comment hereon follows:—

"An average sample taken across the face of the north vein where stripped on the surface, for a width of 9 feet, gave returns of 40 cents per ton in gold, \$27.50 per ton silver or a total of \$28.05. There is, however, a very small percentage of this class of ore and it would not pay to mine and mill the average ore to make this class of concentrates."

"That a pamphlet, on the first page of which appears the words 'At the End of the Trail in Your Search for Success, Gold Ore,' has been published and circulated in the Province of British Columbia and that the same in its terms solicits the sale of shares in the said Gold Ore Mining Co. Ltd. (N.P.L.)"

That the said pamphlet, in one of its leading paragraphs, and in respect of the Mining Star Group of Mineral Claims, which is described as 'property number one' of the Gold Ore Mining Co. Ltd. (N.P.L.) uses the following words:—

"This property (meaning the Mining Star Group) lies adjacent to such well-known properties as the Sunshine, L. & L., Glacier, Bonwell, and others, which are well known."

The Resident Engineer's comment hereon follows:—

"It is a mile from either the Glacier Creek or Bonwell properties."

"That the said pamphlet, in reference to 'property number one' (meaning the Eagle Group of Mineral Claims) uses the following words:—

"This (property number one) will be drilled in the vein and it is thought that this pay for the expenditure, at the same time proving up a big body of high grade ore."

The Resident Engineer's comment hereon follows:—

WM. SLOAN, Minister of Mines, July, 1925.
