# 20 INDICTMENTS AGAINST U.S. OFFICIALS

## GOOD SIZED CHECK SENT TO PRINCE RUPERT FROM SHARE LIQUOR PROFITS

### Prohibition Official Made Much Money Result Irregularities

Twenty indictments brought in by two grand juries at Chicago regard to illicit removal of beer and wine

CHICAGO, Dec. 19.—Hundreds of barrels of beer and approximately 500,000 gallons of sacramental wine have been directly withdrawn from bonded warehouse here, it was revealed yesterday, when two grand juries handed down 20 indictments involving former prohibition officers and others, including officials of the Erie Railroad.

District attorneys claim they can prove that Percy Owen, former prohibition officer, received \$200,000 in connection with irregularities in the administration of the office.

### ASSISTED IN BIG MINING DEAL AT SMITHERS RECENTLY

A. G. Garde, M.E., formerly of this city and now located at Smithers, was here yesterday enroute to Vancouver where he will spend the next two or three months. Mr. Garde was one of the intermediaries in the recent \$125,000 mining deal between the B.C. Silver Corporation and Paul Shuler of Lake Kathryn and associates whereby the latter has disposed of a promising group of claims on Hudson Bay Mountain not far from the glacier. A program of diamond drift work is to be carried out on the property in the spring and if present indications materialize, the mine may become an important producer.

The House adopted the report without a dissenting vote.

LIQUOR CASE  
IS ADJOURNED

Crown Not Yet Ready to Proceed

With Charges Against Con-

solidated Export Co.

Ltd.

Hope was expressed by counsel in the city police court this morning that it would be possible to wind up the nine charges of violation of the Government Liquor Act against the Consolidated Export Co. Ltd., before the end of the year. In the meantime, at the request of the crown, which is not yet ready to proceed, the case was adjourned until December 26.

Milton Gonzales, counsel for the defence, while not opposing the adjournment, pointed out that it was the third remand that had been taken on the request of the crown prosecutor, L. W. Patmore. He stated that his client had important business in Vancouver and might be compelled to go south. He hoped that, in this case, no objection would be taken to a later adjournment at the request of the defence. Mr. Patmore agreed to granting such a remand if necessary.

Mr. Gonzales further stated that, in connection with the selling charge, the defence was pre-

pared to admit certain facts so bill to confirm the assessments of the dyking commission on

that the proceedings would not properties affected by the Sumas being delayed and so that argument reclamation scheme. The division was a victory for the gov-

VICTORIA, Dec. 19.—The department of industries, established after the war to stimulate manufacturing in British Columbia, will pass out of existence as a result of a unanimous recommendation made today by a sub-committee of the committee on public accounts, which conducted an investigation into its activities earlier in the season.

Of the industries aided by government loans it is said many had now failed, leaving abandoned plants in the hands of the authorities. No new loans have been made in the past three years.

The House adopted the report without a dissenting vote.

cent of the teachers in the district have first class or academic certificates. Contrary to what has seemed the rule in the past, there is also to be noted more permanence among the teachers now. Whereas, in the past, it has seemed to be the common practice for a teacher to take a school for one year and then leave, teachers are now remaining from year to year and in a number of smaller schools the same teachers have now been serving five or six years. This is a feature that is particularly gratifying to Inspector Fraser.

In a number of cases, phenomenally good work has been done in country schools where the public school teachers have voluntarily taken on High School instruction. Last year at New Hazelton, a boy named Mithell E. Newman, now a Normal School student, passed his Junior matriculation making a total of 646 marks, one of the highest records in the district. Miss Evelyn Sheasgreen of Vancouver was the teacher. This year at Southbank, where Miss Mina Dean of Port Simpson is the teacher, a boy named George Murray is doing Matriculation work after having passed through Grades 9 and 10 with high standing in spite of the fact that he had only six months' schooling during each year.

### Bright Stewart Girl.

One of the outstanding scholastic achievements of this year was that of Muriel Mary Crawford, 15 year old daughter of Mr. and Mrs. W. J. Crawford of Stewart, who matriculated with 860 marks out of a possible 1100. It was the highest record in the district. The teacher was Miss M. B. Henderson of the Stewart Superior School.

There is one school in the district where all the eight pupils

## Waterfront Whiffs

Doings of the Mosquito Fleet Which is the Chief Source of Prince Rupert's Prosperity

### Hull Repairs

The main anxiety of local nauticals during the past week has been to get in little duck hunting before the end of the month when the season closes and several parties have been out. With Christmas Day less than a week distant everyone is busy, outside of the regular working day, seeing to Santa Claus being on the job on Christmas Eve and that the larder is well stocked with the good things of this life with which to satisfy the ever craving inner man. There is talk of hunting parties going out over the holiday weekend but as to just how far they will get is purely a matter of conjecture.

**Trappers! Don't sell your furs until you have seen me. W. Goldbloom, Second Ave.**

With very few exceptions members of both the local hall-but fleet and the mosquito fleet proper will remain in town for the festive season either with their relatives or friends.

### Much Work

Much work is being carried out at waterfront shipyards on hull repairs and engine overhauls. The McLean ways have been fully occupied for the past week and there is a waiting list of over forty boats ready to come up for the necessary repairs in readiness for the February opening of halibut fishing. The Cow Bay creek ways are also full to capacity.

The roof of the ocean dock is to be repaired in the near future and two hundred yards of gravel has been secured by the Prince Rupert Boathouse, with the power boat Pachena, to be used in connection with the work. The unloading of the gravel from the scow was completed by the tug Lion over last week end.

Provincial constable Tommy Canin, who has been sweating bricks this week while overhauling the engine of the police launch Adanac, has vowed he will lock the engine up altogether if it doesn't quit disturbing the peace after all his labors. The whole boat, both inside and out, looks remarkably bright and to get the most comfort out of travel via the Adanac route it would be well for passengers to take a pair of smoked glasses along.

Capt. Jack Mouat has been putting in some profitable time this week overhauling his new Vulcan heavy duty engine. This engine is for a new sealing boat Cap is building in readiness for the spring fishing.

**Jim Promoted**

It is with much pride that the admiralty office of the Mosquito fleet announces in the orders of the week that Capt. "Handsome" Jim Morrison has been promoted to be gentleman-skippers of the Bushby fleet. The reason for the promotion is given as "distinguished service in towing piles of hefty dimensions and ridiculous shapes to safety." While on the subject of Capt. "Handsome" Jim and his exploits it is with pleasure the Whiffman recounts one of the most daring that happened last winter, according to the informant, when our hero was out with his boys aboard his schooner Cayenne. The water supply ran short and Jim had to go ashore at night on an island to see if it could be replenished therefrom. The night was black, and as bears were known to frequent the vicinity the skipper armed with a rifle and a lantern rowed to the shore in the dory. While pulling up the dory to safety Jim was startled by something, or somebody, breathing in his face. Upon looking up he was terrified to see a black buck deer glaring at him and pawing the earth as though intending to get awkward. This was too much for Jim who grabbing his rifle and lantern scurried to the nearest tree, followed by the buck. Before the deer could reach him Jim had sealed the tree and clinging to a branch waited for the worst to happen. Standing on its hind legs the deer looked up into the tree and Jim, thinking the beast meant to climb up after him, sealed to the

**Bloomin' Burglars**  
The waterfront, in the vicinity of the C.N.R. dock, was visited during the week by a gang of bloomin' burglars who broke into one of the sheds and lifted a couple of cases of Christmas cheer—that kind of cheer unsuitable for the filling of fountain pens. The fleet secret service sleuths are on the job so when down around that way it is wise to watch one's breath.

**I want 10,000 Minks and will pay best prices. See W. Goldbloom, Second Ave.**

### Fight Staged

One of the greatest fights ever staged in the city took place on the waterfront on Wednesday afternoon and the Whiffman happened to be lucky enough to witness it. A gentleman of dim countenance, who daily stands at the edge of the docks in the vicinity of the fish houses and fishes, presumably for flounders, chanced to bring up from the depths a hefty looking fish with long whiskers which he termed a cat fish. Extracting the hook and re-baiting same the fisherman dropped it over the side and this time was rewarded with a snub-nosed looking affair which he called a bulldog fish. This he quickly released but in throwing it on to the wharf it came into contact with the catfish and then the fat was in the bacon. The catfish arched its back like a camel while the fish of the bulldog species bared its teeth and showed fight in the approved bulldog fashion. In fact the darned thing did everything but

bark. The fight waged thick and fast and was even up to the eighth round when the boss of the show, or rather the gentleman who had extracted the fish from the salt chuck, gave the final knockout to both with the handle of his razor. While it lasted it was a good scrap and well worth the price of admission.

**Messrs. Brown and Flewin of Port Simpson, who have been in the south on a business trip, returned on the Cardena on Sunday last and proceeded to the home port on the power boat Taplow, which, during their absence had been completely overhauled.**

**Capt. Mickey Sullivan, the man who made Jap Inlet famous, and who has been in the city for the past week on business left for the inlet on Wednesday morning.**

### Wonderful Climate

In support of the fact that Prince Rupert enjoys a wonderful climate, in fact a climate that is very little different to that enjoyed by the much advertised state of California, it can be stated with authority that Salt Lake swimming was indulged in last week end by Constantine Michaloff and John Chenowski, who made the trip in a rowboat. The water was clear and exhilarating and the swimmers thoroughly enjoyed themselves. On the return trip the aquatic gentlemen were successful in bringing down a bald headed eagle in the vicinity of the lake which measured seven feet between the tips of its wings.

**If its furs you have to sell I want them. W. Goldbloom, 2nd Avenue.**

C.N.R. steamer Prince John unloaded 200 tons of Nanaimo-Wellington coal at the Albert-McCaffery wharf on Saturday last in addition to 15 tons of asphalt and 750 rolls of roofing paper.

Capt. Jack Mouat has been putting in some profitable time this week overhauling his new Vulcan heavy duty engine. This engine is for a new sealing boat Cap is building in readiness for the spring fishing.

### Jim Promoted

It is with much pride that the admiralty office of the Mosquito fleet announces in the orders of the week that Capt. "Handsome" Jim Morrison has been promoted to be gentleman-skippers of the Bushby fleet. The reason for the promotion is given as "distinguished service in towing piles of hefty dimensions and ridiculous shapes to safety." While on the subject of Capt. ## CABARET PROVED GREAT SUCCESS

Elks' Hall Was Transformed by Active Decorating Committee and Merry Time Enjoyed

There seldom has been anything just as attractive as the cabaret dance at the Elks' Home last night, given for the purpose of raising money for the Christmas Cheer fund. Tables were sold to patrons and a charge also made for the refreshments. There was a good musical program between dances and the merriment was kept up until after two o'clock in the morning. The whole was under the direction of Howard Frizzell with other members of the committee consisting of Dave Balfour, Kenny McQuaig, and W. Hurst, all active workers. Murray Fuller had charge of the finances and Mrs. Carroll looked after refreshments.

Mrs. Gilhuly was responsible for the table decorating and Mrs. Geo. Frizzell for making the artificial flowers.

### Veritable Fairyland

One of the features of the evening was the decorations. The hall had been transformed into a veritable fairyland by means of steamers, greenery and other decorations. At one end was the orchestra dais beneath a canopy of green. Tables were arranged around the walls and in the galleries and dancing took place in the central space in the middle of the floor.

Colored spotlights were used on the performers, giving a very beautiful effect and Chinese lanterns were used throughout, shedding their soft and dreamy beams on the assembled merry-makers. On each table was a basket of artificial flowers and nothing was omitted which might add to the comfort or enjoyment of the guests.

The music was provided by a seven piece orchestra consisting of Kenny Rood, D. Eastman, Miss Irene Morrison, James Prevost, George Rorie Jr., and W. Balagno.

### Pretty Effect

One of the pretty effects was the snowball dance by little Edna Ireland made up as a picnic. She was drawn in on a little sleigh hidden in a snowball, little Misses Brown and Evans drawing the sleigh. When in the hall, the snowball parted and disclosed the little darky girl inside.

Two duets were sung by G. Gulick and W. Mitchell, two songs by Mrs. Jarvis McLeod, and violin solos by W. Balagno.

Everything was novel and cheery and reflected the Christmas spirit.

## Waterfront Whiffs

(continued from page two) morning last for Mellakatla in a gashoat and got stranded on Digby Island thereby causing uneasiness to their parents and friends, had the misfortune to strike their propeller on a rock which took off two of the blades. By drifting with the tide and rowing occasionally they eventually made the Indian town and were towed back to the city by an Indian boat.

Tugboat P.R.T., Capt. Harris Kerr, left port for Georgetown on Monday and returned with a scow of lumber for the city and a scow of lumber for the Big Bay yards. Tugboat M.T.3., Capt. R. Green, has gone to Hartley Bay for a scowload of machinery.

### McLean Activities

The McLean ways are particularly active at this season. The Canadian schooner Scrub, Capt. Dolph Prince, is undergoing a complete overhaul and new tanks are being installed. The schooner Thelma H., Capt. Bill Hanson, is also on the ways at present for the installation of a new 85 gal-

lon gas tank. The Point May, Capt. Charlie Wallace, is the next boat due for a going over as soon as there is room. Over 40 boats are on the waiting list now.

**Trappers! Don't forget to bring your furs to the old reliable house.—W. Goldblum, 2nd Avenue.**

### Caught by Tide

When one goes duck hunting it is usual to get into the water just above the knees but when a rising tide comes up above the waist and puts ones pipe out, and land looks several miles distant with no rescuer in sight, it is then that duck hunting does not take on quite so rosy a hue. While out with the Zanardi hunting party in the Gardner Canal district this week with Capt. Gammon, Capt. Swanson, E. C. form. However, Milton was go-

ing from point to point collecting the game when he came across Doc in his rather unhappy predicament and did a movie picture stunt by shooting out with the skiff and pulling on a brilliant piece of rescue work.

### Tide High

The high tide at noon on Wednesday came up to a particularly high level and although rated in the official tide book at 22.7 feet many nauticals asserted it came up to within a few feet of the roadway, and that the old Hazelton boathouse at the Yacht Club was partly submerged. The extra rise in the tide was helped by a strong westerly wind.

M. A. Marley of the Prince Rupert Spruce Mills staff sailed last night on the Prince Rupert for Vancouver.
