OLD COUNTRY STRIKE LOOKS MORE SERIOUS

ALL IDEAS OF BUMPER HARVEST SHOULD BE ABANDONED, REPORTS SAY

Other Trade Unionists in Great Britain Fall in Behind Coal Miners

LONDON, July 25.—The possibilities of the coal strike threatened at the end of this month became more serious today when a conference of transportation and railway workers' unions decided to take steps to prevent the movement of coal in the event of the miners' strike materializing.

It has been decided to call a conference in London next Thursday of the executives of all trades unions to decide finally on strike action, if any, that is to be taken by unions generally. The amalgamated union of building trade workers this morning adopted unanimously a resolution calling upon the general council of the Trades Congress to establish "a council of action to ensure that every atom of strength of the organized working class movement is utilized in support of the miners in the present crisis."

CARE PREVENTS BAD ACCIDENT

Engine and Mail Coach of Montreal-Vancouver Express Derailed Near Ruby Creek

VANCOUVER July 25.—Careful driving by an engineer on the Canadian Pacific Montreal-Toronto express, due here this morning, averted a serious accident when the train struck a slide seventy-feet long, and three feet deep near Ruby Creek while rounding a curve. The engineer noticed a cloud of dust and immediately applied the brakes but the engine struck the obstacle and was derailed with the first mail coach. Fireman Stanley George was the only person injured. He had his foot crushed between the engine and cab.

GOOD PROGRESS ON ISLAND ROAD

Twenty-five Men Employed—Clearing is Finished Half Way to Galloway Rapids

Good progress is being made by the provincial department of public works on the clearing and grading of the Kaiaen Island Highway. Some 25 men are employed and clearing of stumps has now been completed half way to Galloway Rapids. The grading is a slower process, the first mile, in rather heavy rock, being the most difficult. It will be some time yet before the road is ready for any kind of traffic.

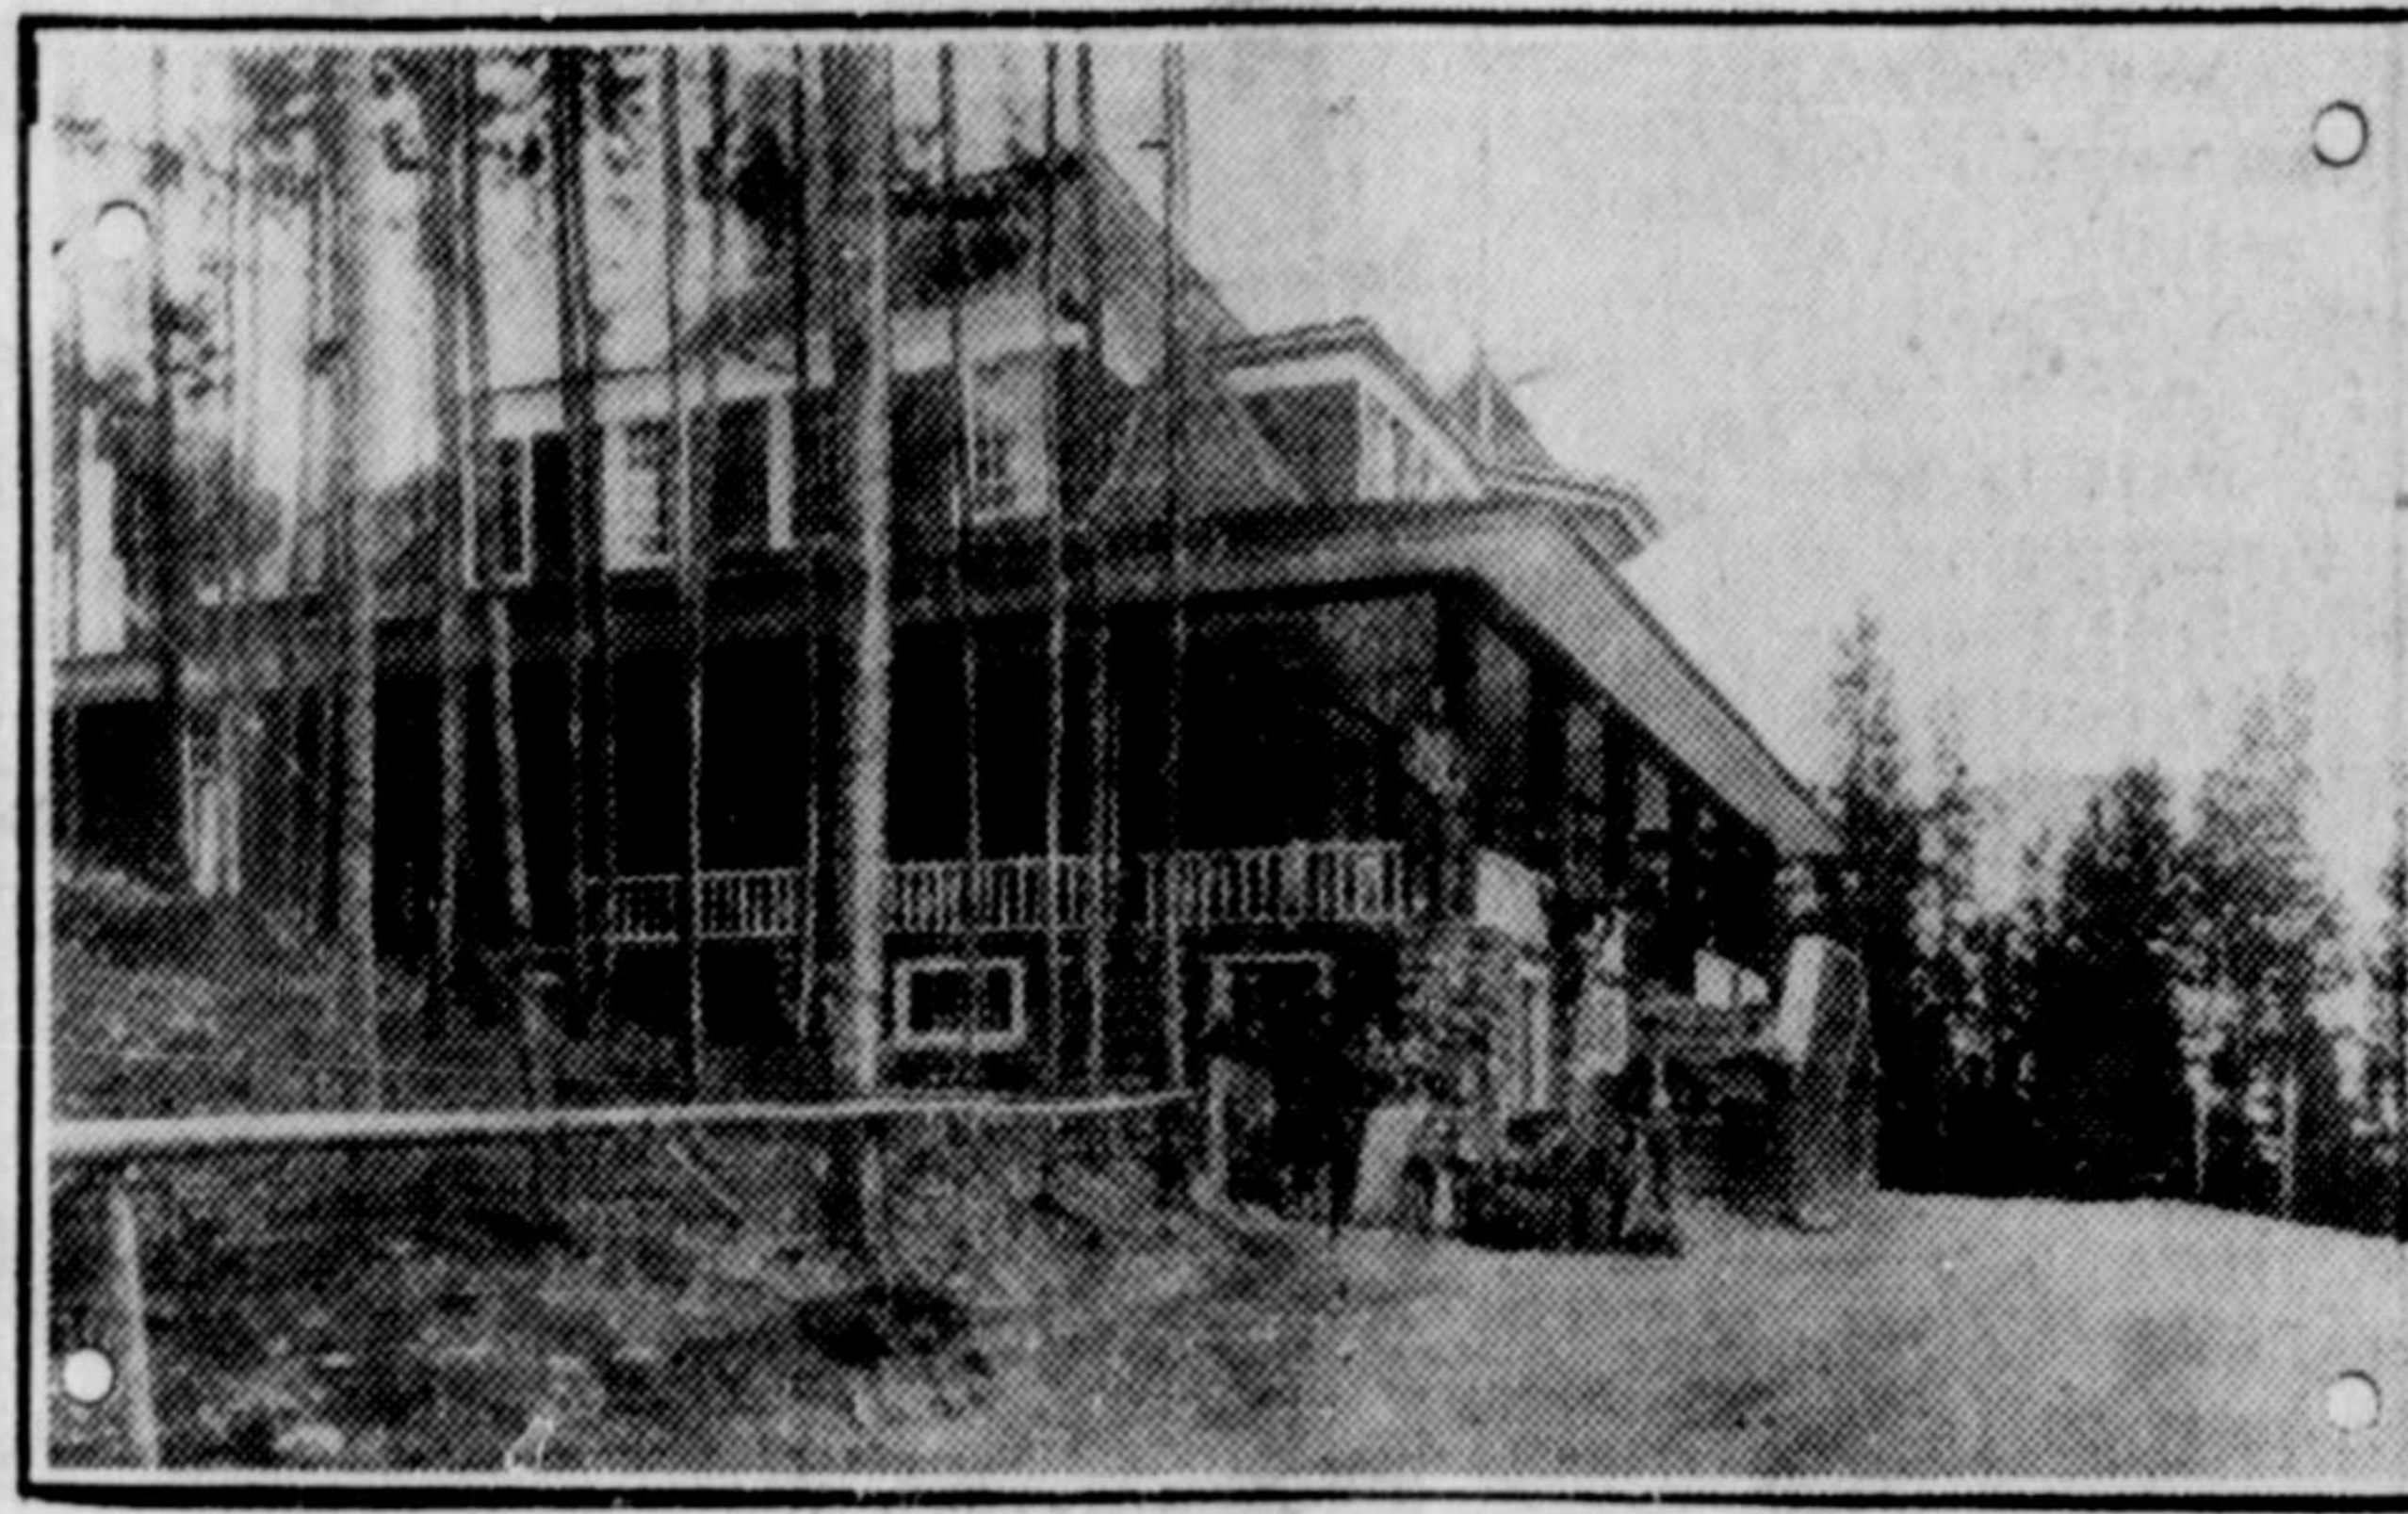

FRENCH CLEAR OUT RIFFIANS

Arc Fleeing After Heavy Losses—Air Force Took Prominent Part

FEZ, Morocco, July 25.—An official communication says that the French have cleared the western part of the Ouergha River valley of Riffian invaders and that the enemy is fleeing after heavy losses. The French air force took a prominent part in the engagement and planes are still following the Riffs in order to keep them moving.

The first of two new scows that are being built at the local dry dock for the Rupert Marine Products Co. Ltd. was launched yesterday. The scows are 54 feet long and 20 feet wide.

The halibut schooner Rose Spit, Capt. A. Olsen, which touched bottom in the fog while coming through Metlakatla Passage on Thursday night, was taken on dock today for minor hull repairs.

FORMER SMITHERS SCHOOL TEACHER DIES IN SOUTH

HAZELTON, July 25.—Word has reached here of the death in Nanaimo last week of Mrs. Walter Noel, wife of the senior member in the former local men's furnishings firm of Noel & Rock. The late Mrs. Noel, as Edith Middleton, was a teacher several years ago at Smithers. Three young sons, beside the widower, survive.

A party comprising George Frizzell, Milton Gonzales, George D. Tite, C. C. Mills and S. E. Parker will leave on the launch "Laura F." tonight for the Kestall River on trout fishing bent.

PREPARING TO HANDLE CROP

Canadian National Railway Expects to Transport Much Grain this Year

MONTREAL, July 25.—The Canadian National Railways, whose lines operate through the most productive part of the wheat belt is continuing its preparations not only for transportation of a record number of harvest laborers from east to west, but also for the carrying of the grain from the prairie provinces to the various distributing points. Already plans have been perfected for the allotting of 38,000 freight cars and approximately 160 locomotives to handle this cargo. When it is realized that each box car assigned to carrying grain will transport 1,500 bushels each trip some idea of the immensity of the whole movement can be obtained. This means that a single movement of these cars will transport roughly 57,000,000 bushels or more than the entire wheat crop of Canada a few years back.

On the whole the situation this year with regard to the wheat crop and the part that the Canadian National will play handling it is much better than it has been for some years past. Canadian National officials state that the indications are that in laborers transported and in grain carried all previous records will be broken.

CARDINAL BEGIN LAID TO REST

Remains of Late Catholic Primate Placed Alongside of Sixteen Predecessors

QUEBEC, July 25.—The remains of Cardinal Begin, the late Roman Catholic primate of Canada who died last Sunday, were laid to rest this morning in a crypt of the church alongside those of sixteen other former archbishops of Quebec who preceded him. Today's ceremonies were replete with dignity and impressiveness and thousands thronged the church.

VENTURE IS MAKING HER LAST VOYAGE

Will be Replaced in Prince Rupert and Cannery Service Next Week by Catala

The Union steamer Venture is this week making her last voyage to Prince Rupert and district cannery ports before being replaced by the company's new steamer Catala which is to enter service next week. The Venture, in command of Capt. Georgeson, arrived from the south at 6.30 last night and, after making her calls in the Naas River, was here again early this afternoon south-bound. Capt. A. Johnstone has left the Venture and will assume command of the Catala. Among those who sailed from here for Vancouver on the Venture this afternoon were R. Webster, W. A. Carter and Miss R. Moore.

HUGE NEW INDUSTRY

Montreal Paper Says Aluminum Makers Are Coming to Canada

MONTREAL, July 25.—The Gazette says today that the aluminum industry will move its headquarters from the United States to Canada following an agreement between James Duke, United States capitalist, and the Aluminum Company of America. A huge plant will be constructed on the Sauguey River in Quebec with an investment of over \$100,000,000. The construction of a city of 150,000 inhabitants will be involved.

HARRY FAY NOT TO BLAME FOR DEATH OF MICKEY SHANNON

LOUISVILLE, July 25.—A coroner's jury investigating the death of Mickey Shannon, Chicago boxer, whose neck was broken in a bout here Tuesday night, returned a verdict of "unavoidable accident," exonerating Harry Fay, Shannon's opponent, from all blame.

JOHN CONWAY IS PROMOTED

Government Agent at Anyox Moved to Cumberland—Man From Interior to Succeed Him

John Conway, who has been government agent at Anyox for the past few years, has been appointed agent in the larger district of Cumberland on Vancouver Island and will soon be leaving the smelter town to take over his new duties. He will be succeeded, it is understood, by R. M. McGusty, at present government agent at Williams Lake.

Mr. Conway has seen some 22 years service with the provincial government in the north. He was with the provincial police at Allin and Port Simpson and, more recently, with the office staff at Prince Rupert and Anyox, having gone from here to the latter point as agent. He is widely known and his many friends, while regretting his departure from the north, will be pleased to know that it is in the nature of a distinct promotion.

Mrs. Conway and family are expected in the city on the Prince George this afternoon on their way south.

FREIGHT RATE FIGHT POLICY

Decided Upon by Premier Oliver and G. G. McGeer in Conference on Thursday

VICTORIA, July 25.—That parliament has actually ordered by statute that British Columbia's grain movement be given low Crow's Nest Pass rates will be the argument advanced by the province when the Railway Commission commences a nationwide freight rate revision. This policy was decided upon by Premier Oliver and G. G. McGeer, government counsel, in a conference on Thursday it is announced.

TY COBB REINSTATED AND PLAYING AGAIN

Suspension Meted Out by President Ban Johnson Was Lifted Yesterday

DETROIT, July 25.—Ty Cobb, manager of the Detroit Tigers, who was indefinitely suspended on July 17 by President Ban Johnson for disputing with an umpire, was reinstated yesterday and took his place with the Detroit line-up.

Prospects Are Now That Grain Crop on Prairies This Season Will Be No More Than Average

WINNIPEG, July 25.—All ideas of a bumper crop this year might just as well be laid aside but, with a little more general rain, cool nights and bright days, there is promise of a lot of good wheat being reaped in the Canadian West this year. The Free Press crop report states today. All indications are that the heat wave of the past twenty days has taken a heavy toll from the original fine promise earlier in the season.

Some parts of the prairies, favored with timely rains, will yet have splendid crops. Other parts, however, have suffered remediously from drought. The average for the prairies, it is now conceded, will be little more than normal if that.

VANCOUVER BOARD OF TRADE REACHES PRINCE GEORGE ON ITS TOUR

PRINCE GEORGE, July 25.—The Vancouver Board of Trade party touring Central British Columbia arrived in Prince George this morning at 8 o'clock and was given a hearty welcome by civic officials and members of the local Board of Trade.

The program of entertainment consists of a luncheon which took place in the Riffs-Kifer Hall at noon today and a tour through the Mud River valley this afternoon. Tomorrow the visitors will drive through the Salmon River valley and a picnic will be held on J. H. Johnson's island in Summit Lake. The party will leave on Monday morning by motor for Quesnel.

One of the most important matters that is being impressed on the minds of the visitors here is the necessity for the completion of the Pacific Great Eastern Railway and its extension into the Peace River country.

RECOVERING FROM BLAZE

Homeless People Finding Temporary Shelter—Many Narrow Escapes

The Japanese and others, who were burned out in the fire at Port Essington on Thursday afternoon, are getting themselves established in all manner of temporary quarters, some having tents and others finding shelter under sails, etc., according to word brought by visitors to the cannery town yesterday. The fire was still smoldering yesterday but there appeared to be little further danger. Due to the shifting wind, the conflagration followed a rather tortuous course, and it seemed only by a miracle that the damage was not even more extensive than it was. Many premises had narrow escapes.

It is believed that about 200 people, mostly Orientals and Indians, were made homeless by the fire.

The Caledonia Hotel was insured but it is believed that few of the other buildings destroyed were covered.

LAWLESSNESS NOVA SCOTIA

More Trouble in Steel Strike Area—Gangs of Strikers Dispersed by Troops

GLACE BAY, July 25.—Lawlessness is again reported from the strike district. One building at the reserve mine was destroyed by fire yesterday, a general store at New Aberdeen was looted and high tension wires at Waterford were interfered with. Troops dispersed the various gangs of strikers around the mining company's property.

ODENSE FIRE STILL RAGES

Damage at Danish Seaport Estimated at Ten Million Kroners—Two Ships Lost

ODENSE, Denmark, July 25.—The great fire which started yesterday was still raging last night along the waterfront. The damage thus far is estimated at ten million kroner. Two ships were destroyed and immense quantities of goods stored in warehouses were lost.

Another Victory For The Oriental.

Why is it that a Japanese child, who came to the province three years ago from this native land unable to speak a word of English, should lead the thousands of white candidates at the British Columbia Entrance examinations? This is a question that a good number of people have been discussing the past day or so.

Wrapped up with the answer to the question is the reason why Oriental penetration in Canada at this time seems doubly dangerous. The Japs and Chinese are able to outwork the whites and this is a case of where the Oriental is able to outstudy them. No one will claim that the Oriental intelligence is any superior to the Occidental. The explanation for this and other successes, however, on the part of the yellow race in this country is that they are more energetic and industrious than the whites. Following the paths of pleasure and ease, the whites it seems are forgetting how to study and how to work. They are inclined to look for the "royal road" which the old adage claims does not exist.

Governments may exclude Orientals but they can hardly drive out those who are already here. They will have to be competed with by the whites and, if they win, the whites will be the losers. There are many incidents to indicate that the whites are not able to compete with the Orientals either in labor or study. That does not mean, however, that they are not capable of competing. Personal effort, as well as government measures, is necessary to cope with the situation.

All Dressed Up And No Place To Go.

It is one thing to have fine public buildings, community houses, auditoriums, park systems, and quite another to have adequate programs to fill them, says the Surrey Gazette. Nothing is really beautiful unless it is useful or serves some good purpose. Many people point with pride to a certain great public undertaking—the splendid work which represents civic pride and unselfish service. But the finger points only to the structural achievement of the material building. Many cities and towns get all all dressed up but with no place to go.

Our devotion to material structures alone must have its necessary complement in well directed plans to carry out the purposes for which the institutions were conceived and founded. If developments in community affairs are made possible by public funds or popular subscription, they should afford an all-inclusive scheme of management to the end that full participation may be had and full values derived.

Prince of Wales' Next Trip?

What the future travel programs of the Prince of Wales will be after his forthcoming visit to South America seems to be a popular topic for speculation in the Old Country. When he bids farewell to the American continent south of the equator he will have completed his rounds of all the continents of the earth, his trips having taken him to all the great dominions and larger colonies of the British Empire as well as to several countries outside the kingdom which he will eventually rule.

Carrying out the extensive program of trips that was planned for him after the World War, the prince has spent part of each year since that time away from London. With no more worlds to conquer he will now settle down to seriously prepare himself for the business of being king.

The next homecoming of the prince will excite Britishers to a greater extent than his return on any previous trip. After his return he will have more time to spend among his own people and consequently there are likely to be more rumors and speculation concerning him than during his former stays in the British capital between trips. These will not influence him, however, as he has shown a strong will and independence of action regarding himself since childhood.

SHANGHAI FIRM WANTS LUMBER

Large Mill May be Established in Alaska, Juneau, Commerce Chamber Hears

JUNEAU, July 25.—If conditions justify it, a sawmill capable of cutting 20,000,000 feet of lumber annually will be established in Southeastern Alaska by the China Import & Export Co., J. H. Free, general mill superintendent for that concern, told the Chamber of Commerce here. He said he was in Alaska looking for a supply of cheap lumber which would enable his company to manufacture box shooks on a basis to permit competition with Japanese and Swedish manufacturers.

Mr. Free has spent several weeks in the southern end of the division. He is satisfied that the source of supply offered by the hemlock and spruce in the Tongass National forest is adequate. But his investigation of production costs has not been so satisfactory. He said box shooks could be purchased on Puget Sound for \$17 per thousand and he did not believe that it was possible for the same kind of timber to be manufactured here at less than that figure. Logging costs he found the most important factor in the cost of production. Stumpage costs were not excessive. Labor, he said, seemed to be at a top figure. His survey, he added, had convinced him that for several years at least the cost of manufacture would not be increased over current figures.

If the company establishes a plant, Mr. Free said it would divert a part of its fleet from Pacific Coast ports to Alaska for cargoes, landing them direct at Shanghai, its headquarters. Should he recommend entry here, the general manager of the firm will come from Shanghai and meet him in the territory to look over the site chosen and make final arrangements. He did not intimate any possible location for the proposed plant.

**CALLIES HAD
EASY VICTORY**

Defeated Sons of Ennland in
Football Game by 4 to 1

The Callies were the winners again last evening in the football match with the Sons of England, the score being 4 goals to 1.

The Sons of England had a new man as goalie and his work was entirely satisfactory but their forwards and backs were not equal to the aggressive play which the Callies put up. The Callies team took the field in a reorganized form which did not work out as well as expected and the opinion seems to be that the players will do better by playing in their old positions. However, at no stage of the game from the scoring of the first goal until the final whistle, were the Sons able to threaten their opponents with defeat. In the first half the Callies played up hill. The Sons opened the scoring through Hanson and S. Currie equalized for the Callies with a free kick. In the second period, with positions reversed on the field, the Callies added three more and took a stronger hold on the city championship. The scorers were McDougall 2, and Alex. Mitchell 1.

Tom Jones was referee, and A. Clapperton and J. Johnston acted as linesmen. The teams lined up as follows:

Sons of England: Howlett; R. Howe and G. Howe; Dickens, Bales and Waugh; Farquhar, Anderson, Johnson, Hanson and Cameron.

Callies: Eddie McLean; Hugh Hamilton and M. Andrews; J. Harris, S. Currie, and R. Woods; J. Hamilton, W. Mitchell, D. Scott, R. McDougall and A. Mitchell.

Standing to date:

	W.	D.	L.	Pts.
Callies	4	0	0	8
G. W. V. A.	2	1	1	5
S. O. E.	1	1	3	3

Sport Chat

Baseball fans would welcome a return game between Rotary and Gyro. There are a lot of things to be settled, and one is why can't Jarvis McLeod and Consul Wakefield occupy the third sack at the same time? They both got there and if allowed to come home would have tied the score. Geo. Bryant, too, was hitting

LAND ACT

Notice of Intention to Apply to Lease Land

In Queen Charlotte Land Recording District of Prince Rupert, and situate about two miles in a northerly direction from Rooney Point, Massett Inlet, Graham Island, British Columbia.

Take Notice that Langara Fishing & Packing Company Limited, of Massett, B.C., occupation Packers, intends to apply for a lease of the following described lands:

Commencing at a post planted two miles in a northerly direction from Rooney Point, Massett Inlet, Graham Island, British Columbia; thence easterly five chains, more or less, to low water mark; thence northerly along low water mark one hundred and sixty chains; thence westerly five chains; thence southerly one hundred and sixty chains, more or less, to point of commencement, and containing eighty acres, more or less.

on all fours as he over-ran second base. Perhaps a bigger sack would accommodate George next time so that it would reach half way over to third base. That Texas Leaguer which Geo. Munro knocked out is only a sample of his bag of tricks. Watch him in action again!

Perhaps it was the coaching of the Gyros in the early part of the game which was weak. Manager Eddie Mann is a regular. Connie Mack on the sidelines, only Eddie forgot and tried to conduct the game from inside the diamond.

Robertson tried some big league stuff with his bunting and made a fine sacrifice. It is said McGraw has asked for his release from the Royal Bank. Consul Wakefield skipped from first to second like a two-year-old. That is not all he can do in a ball game, either.

Two bank managers on one team and a couple of lawyers besides ought to settle the matter without any further argument. The court is adjourned sine die. Bill Nelson is sort of peevish at Eddie for being yanked so unceremoniously. Bill claims the longer he plays the wilder he gets, which of course may be taken several ways. Charlie Starr thought he was in the fish exchange when he yelled "How many chickens?" Who was it that tried playing the grand stand as well as the ball and got away with it, too? Dr. Grant nearly forgot himself once or twice and thought it was the Callies he was rooting for. McNaughton for pep. No wonder Mac is scheduled for every school teacher party or personally conducted tour.

Quiet Season
Business along the waterfront is experiencing the quiet season usual at this time of the year. Very few boats are in port, only those requiring urgent repairs either to machinery or hull. The continued good weather has improved the salmon fishing, considerably and the number of fish per boat increases daily. While a week ago the cannery fishermen were a bit discouraged, their hopes have been rejuvenated with the consistent smiles of old King Sol.

Incoming packers report the run of sockeye at Smith's Inlet to have been very good during the past week while the Rivers Inlet catch is also keeping up fairly well. The Naas river fishing is very good indeed compared with other localities.

Halibut landings this week have been good and Monday and Tuesday saw over 400,000 pounds of fish landed. Americans obtained around 12c and 6c while Canadians pulled down around 10c and 6c. Weather on the deep sea fishing grounds has been fine and has permitted of long fishing hours, which also applies to the west coast. No untoward happenings have been reported during the week.

Boat Arrivals
Up to and including noon yesterday the following boats had marketed catches during the week. Rough Weather
Mr. and Mrs. Hubert Ward, and son Harry, accompanied by Miss McQuillin and Mr. Parry made a trip over last week end, aboard the power boat Bonanza, to Welcome Harbor, where some very enjoyable trout fishing was indulged in. The party caught quite a number of rainbow trout and the weather was ideal. However, upon venturing out of shelter, the boat encountered heavy seas and sheltered anchorage was again sought where anchor was dropped and the party remained for the night leaving at 5.15 next morning and arriving in the city on Monday morning at 9 o'clock.

Who Was It?
Quite a little excitement was caused around Cow Bay on Wednesday afternoon when two "mermaids" were seen disporting themselves in the cool waters of the harbor off the Yacht Club floats. Several pairs of marine glasses were trained upon the beautiful swimmers but it was impossible to discern just who they were although many guesses were made. The secret service of the fleet will mount a high powered telescope for the purposes of identification in the hope that the fair ones will repeat their commendable water performance.

The launch Joy Bird, skippered by Jack Cook, has been busily occupied during the past week towing rip-rap for the new elevator site from Tucks Inlet.

The power boat Wigwag, skippered and owned by Capt. Claud Ketchum, is packing for the Claxton cannery this season.

Launch Dixie Rupert, Capt. George Newcomb, was out to Shawatlans on Tuesday with a scow load of material for the city.

When the launch begins to toss and twirl,
And you ache from stem to stern,
It's then for strawberry short-cake,
Your tummy does not yearn.

Some Picnic

Last Sunday proved a red letter day in the picnic world when the veterans of many well fought battles entertained their friends, to the number of over a thousand, at Digby Island. Every-

thing went off with a bang and even the weather man reported on parade all dressed up in real summer marching order. Boats assisting in transporting the large crowd across the harbor included the Malamute, Doreen, Hanaco, Laura F., Joy Bird, Poinsettia, Rosina B., Glen Alva, and Mary R. Conspicuous also in the boat parade were boats of the Bushby towing fleet including P.R.T., Capt. Harris, Kerr, which upon her return from the Skeena jumped into the game during the evening and ably assisted in transporting some 100 people. The Cumshewa, Capt. Johnny Larson, and Tide Rip, Capt. "Hadsome" Jim Morrison, were not a bit backward in coming forward and rendered yeoman service.

Would You Believe It
It's kind of hard to believe but nevertheless it is a fact and there are witnesses to prove it. The launch Tseckwa, owned and skippered by Dave Stuart and piloted by Bill Wrathall, left on her first trial trip in the past three years on Monday night from the Ketchum float. Before departing skipper Dave shook hands with both the crowd, which gathered to see him leave, and amidst waving of one handkerchief, the launch snorted forth on her voyage. As evidence of how well the boat behaved it had been suggested the trip be one of two hour's duration but it was made in just under one hour, which is going some—as the monkey said when the elephant trod upon him.

Tugboat Fleet Busy
Future movements of the Bushby tugboats are as follows: The Tide Rip will clean up the canneries at Balmoral, Eslington and Haysport, the Cumshewa will clean up Oceanic, Carlisle and Claxton, and the P.R.T. will clean up all the canneries on the slough and tow in the full scows from other boats which are delivering to the Bushby mooring at Inverness. The P.R.T. will tow loaded scows to the Rupert Marine Products plant and the empty ones back to the Inverness mooring. In all ten scows will be working.

A Great Day
Monday was a great day in the annals of the Vancouver and Prince Rupert Boards of Trade when visiting members from the former were entertained by members of the latter body. The trip up to Skeena River canneries on the fisheries patrol boat Marfish will long be remembered not only from the sightseeing part of it but also from the eats and "tea" drinking end. A bountiful lunch was served aboard, under the supervision of George Richmond of St. Regis Cafe fame, the big feature of which was the steward service supplied by members of

the local board. "Bobbie" Robertson won the medal for efficiency and he was never seen on the entire journey without a tray of eats or liquids in his mitt. To cope with short orders, Bobbie carried pocketful of grub with him which, at the least signs of fatigue, he would cram into the hands of the hungry. This was a new innovation in stewardship which was much appreciated by the visitors. The chief steward's main concern seemed to be the catering to the wants of a certain Mr. Grundy aboard who evidently possessed a wonderful capacity for the good things of this life. Beads of perspiration stood upon poor Bobbie's brow in his valiant efforts to cope with Mr. Grundy's orders and it is to be hoped the steward's tip was a colossal one.

Some Gunners
After having received a course of instruction in machine gun work under the direction of leading seaman Howe, R.C.N.V. Reserve, Dr. Wright, vice-president of the Vancouver Gun Club and T. S. Dixon, secretary, who were visiting with the Vancouver Board of Trade members on Monday, have decided to discard the old fashioned rifle business when hunting next fall and arm themselves with the latest type of naval gun. Dr. Wright was taking a well earned rest on a pile of lumber in company with Mr. Dixon when he chanced to see the sign "Men Wanted" on the door of the R.C.N. Volunteer Reserve training quarters. Doc thereupon strolled across and knocking at the door asked the leading seaman if he would do for service. L. S. Howe asked the visitors in and gave them a course in machine gunnery much to their delight. Now we wonder if this efficient instruction had anything to do with the remarkable score made by Mr. Dixon at the P.R. Gun Club range in the evening when he made a score of 25 and 23?

Ray's Red Devil
Ray Love, the renowned electrical wizard, is busy, assisted by his second in command Norman Moorehouse, in getting his fiend of the seas, the Red Devil, into commission preparatory to taking a turn at the oars during the dull season. When Ray gets going in the newly painted craft boat owners will get some idea of what real speed looks like. The idea of using red paint is

that the boat will be able to be picked up better with the glasses as owing to the high speed attained it is liable to be indiscernible otherwise.

W. G. Walford, the local boat builder, has so spread his fame near and far that no sooner had the yacht Invader, owned by the millionaire Don Lee, of Los Angeles, dropped anchor than he received a hurry up call to go aboard and do some fixing.

Capt. Charlie Miller, left port on Tuesday aboard his new 30 foot trolling boat, Bella L., for the Dundas Island trolling grounds. The Bella L. is powered with a 10 h.p. Vulcan engine, has a beam of 8 foot 6 inches and draws 4 feet of water.

the work of driving new piles at the Akerberg-Thomson wharf and has now moved his pile driver down the waterfront to the site of the new wharf which is being built by Tommy Trolier, where pile driving is to proceed immediately.

Fished with Sausage

When it comes to new recipes for the use of a pound of sausage just talk to either George Hill or Stan Parker about the matter and they will doubtless enlighten you. These two well known fish hookers were bound for a little piscatorial recreation in the vicinity of Cloyah Bay and had procured a pound of Atkins famous sausage for the benefit of the inner man. The sausage and salmon eggs, in separate parcels, lay upon the table but in the scramble to get away they grabbed the sausage and left the bait behind. The catastrophe was not discovered until arrival at the fish catching rendezvous. Did they worry? Well they did not. After a hurried consultation it was mutually agreed that the inner man idea be left out of it altogether and that the sausage be put into commission as fish bait. This dainty bait was something quite new to the fish which scrambled up the bank to get at the parcel and had to be clubbed back into the water.
