## FOREST FIRES ARE STILL RAGING IN SOUTH AGED COMMANDER MAUDE BLINDED BY CONSTANT GLARE OF SUN'S RAYS

### Vancouver Island, Mainland, Fraser Valley and Southern Interior Districts Suffering

Courtenay camp partly destroyed--schoolhouse,  
homes, mill and camps wiped out  
near Vancouver

#### THIS DISTRICT FORTUNATE

Hazard also prevails here and the greatest of  
caution is necessary says district  
forester Bonney

VANCOUVER, Aug. 10.—The forest fire situation on Sat-  
urday night and Sunday was reported to be extremely serious at  
all points owing to high winds.  
At Courtenay, Vancouver Island, several loggers narrowly  
escaped death when fire raged through the timber adjacent to  
the Comox Logging Co.'s camp. Twenty houses belonging to  
employees and fifteen buildings owned by the company are re-  
ported destroyed with a loss approximating \$100,000.  
The Hyacinthe Bay district was also besieged by flames.

### MURDER SUSPECT KILLS HIMSELF

Henry Schwartz Puts Bullet  
Through Head When Sur-  
rounded by Police

OAKLAND, Aug. 10.—Trapped  
in an apartment, Henry Schwartz,  
object of a nation wide search in  
connection with a mysterious  
murder in the Pacific Cellulose  
Co.'s plant at Walnut Creek,  
committed suicide early on Sun-  
day.

Schwartz was believed to have  
murdered a laborer and attempt-  
ed to incinerate the body in a  
plot to collect insurance in ex-  
cess of \$100,000.  
He shot himself through the  
head when police surrounded the  
apartment in which he had been  
hiding since July 3.

### TORONTO BANK ROBBERS CAUGHT

Got Away With \$1,500 But Were  
Soon Picked Up This Morn-  
ing

TORONTO, Aug. 10.—Two  
robbers, who held up the branch  
of the Imperial Bank of Canada  
in the east end of the city and  
escaped with \$1,500, were cap-  
tured a few minutes after leaving  
the premises this morning.

Near Cloverdale in the Fraser  
Valley three homes and a school-  
house were burned while several  
homes of Japanese near Langley  
Prairie were wiped out. Twelve  
homes and a mill near Newton  
are reported to have been burn-  
ed.

Near Revelstoke, a serious fire  
threatens the town of Clan Wil-  
liam.

The entire camp of the Lamont  
Logging Co. near Harrison Lake  
was destroyed on Sunday.

P.S. Bonney, district forester  
here, stated this morning that  
Prince Rupert district was singu-  
larly fortunate at this time as far  
as forest fires were concerned  
but the situation was hazardous  
warranting the greatest of pre-  
caution being taken by the public  
at large to ensure against  
tragedy befalling the tie pole and  
lumber industry in the interior.  
There has been little rain in the  
interior during the past thirty  
days.

There are only two fires still  
burning in the district at the  
present time, Mr. Bonney stated  
—one at Beament east of Hazel-  
ton, and the other at Fish Lake  
south of Burns Lake. They are  
both well under control and are  
being patrolled by small crews.

Mr. Bonney announced that so  
far this season there have been  
164 fires in this district involving  
little destruction of timber.

### REDS ARE AT WORK IN GREAT BRITAIN

Discontent and Disloyalty  
Into Army and Navy

LONDON, Aug. 10.—Communi-  
stic propaganda aimed to cre-  
ate discontent and disloyalty in  
the ranks of the British army  
and navy is alleged to have been  
in progress for some time in sev-  
eral naval centres and garrisons  
especially at Aldershot camp, the  
principal military centre in  
Southern England, according to  
press reports. The government  
is taking strong measures to

### INDIAN BOY WAS KILLED

Charlie Hayward, Aged Six, Vic-  
tim of Accident at Inverness  
Cannery on Saturday

Charlie Hayward, a six-year-  
old Indian boy, was accidentally  
killed on Saturday afternoon at  
Inverness Cannery when he fell  
from a trough and sustained in-  
juries to his head.

The boy was apparently at-  
tempting to climb the old trough  
which was situated in a narrow  
alley way and which had been  
used for conveying cans. The  
structure fell over on him and  
he was struck on the temple be-  
sides having the back of his  
head injured in hitting the wood-  
en platform. His little sister,  
with whom he was playing, heard  
him scream and when they went  
to him he was unconscious. The  
accident occurred at 5 o'clock  
and he never regained consci-  
ousness. He died later in the  
evening.

The body will be taken for in-  
terment to Port Simpson where  
the family resides.

### NAMU HAS BIG FIRE

Chinese Bunkhouse Burned—  
125 Lose Their Belong-  
ings

A fire at Namu cannery yester-  
day afternoon totally de-  
stroyed the Chinese bunkhouse  
and, as a result, 125 Orientals  
lost all their belongings. The  
C.N.R. steamer Prince Charles,  
Capt. MacLean, was passing at  
the time and noticed the flames  
and immediately went to the  
assistance of the fire fight-  
ers. All the cannery buildings  
were threatened but, with the  
aid of the ship's hose and a  
bucket brigade headed by sec-  
ond officer Geo. Coles, further  
damage was averted. The  
arrival here of the Prince  
Charles was delayed today owing  
to the assistance rendered  
in extinguishing the flames.

### BIG FREIGHTER WENT ASHORE

Considerable Damage Done to  
Mogul in Stranding Near  
Klew Nugget Light

The Coastwise Steamship &  
Barge Co.'s big freighter Mogul  
arrived here Saturday night af-  
ter having gone ashore near  
Klew Nugget Light in Grenville  
Channel while on her way from  
Anxox to Tacoma with a cargo  
of ore. It was foggy when the  
accident occurred and the chan-  
nel at this point is very narrow.  
She got off under her own  
steam and proceeded here.

The Mogul is tied up at the  
ocean dock and an examination  
made this morning by a diver  
established that quite extensive  
damage to the hull had been  
done. The vessel is remaining  
here pending receipt of instruc-  
tions from the south.

The Mogul, formerly the  
Caesar, is one of the largest  
freighters operating in coast

Timber

Provincial forestry officials  
are having a rush of scaling just  
now. There are about 600 sec-

up. The logs are at Gardner  
Canal, Swanson Bay, Alice Arm,  
Surf Inlet and Ocean Falls.

The local sawmill is now tak-

in the district. The second  
delivery of logs for the Prince Ru-  
pert Spruce mill from the T. A.  
Kelly camps on the Queen Char-  
lotte Island is due here this  
week. It will consist of approxi-  
mately one million feet in the  
form of a Davis raft.

### SETTLEMENT OF LOCAL STRIKE IS HOPED FOR

Provincial Government Officials  
are Confering With Em-  
ployers and Men at  
Elevator

J. D. McNiven of Victoria,  
chairman of the Adjustment  
Board for the province accom-  
panied by F. E. Harrison, Domi-  
nion Fair Wage officer of Van-  
couver, were arrivals by the Gar-  
dena last evening. They left  
Vancouver before the present  
strike at the elevator was called  
and came north to investigate  
conditions as they had received  
reports intimating dissatisfac-  
tion existed.

This morning they held a  
conference with a representative  
of the Carter, Halls and Aldinger  
Co., and later met a delegation  
from the men who are on strike.  
Further conferences will be held  
with the idea of bringing about  
a settlement of the situation.

Last evening the men held  
another large meeting and report  
that some men who arrived from  
the east to go to work on the  
elevator had joined the strikers  
when they ascertained that a  
strike was on. More men from  
the east are expected to arrive  
shortly.

### Veteran Navigator Declares He Will Again Attempt Trip to England in His Small Boat

GLALLAM BAY, Washington, Aug. 10.—Commander Euse-  
bius B. Maude, R.N. (retired), who started from Mayne Island  
on a voyage to England by way of the Panama Canal aboard his  
thirty foot dory type sloop "Half Moon," landed on Sunday at  
Lapush, an Indian village, 35 miles south of Cape Flattery. He  
was partly blinded as a result of the constant glare of the sun's  
rays. Unable to take observations or read the compass, he was  
forced to turn homewards, keeping his course by the sun and  
stars for many days.

Commander Maude declares  
that he will make another at-  
tempt to reach England in the  
near future.

His blindness is believed to  
have been the reason for him dis-  
regarding the wireless operator  
at Destruction Island who went  
out to assist him on Friday af-  
ternoon.

Labor Trouble At Elevator.

It would be particularly unfortunate to have a lengthy interruption on the elevator construction at this time. The work is of such a nature that it must be proceeded with steadily and without delay if the big grain plant is to be ready to handle the crop this year.

This spring there has been a labor element getting established in Prince Rupert that resembles the old I.W.W., if it is not really a branch of that organization.

It is to be hoped that the present difficulty or misunderstanding will be settled without delay and that there will be no serious hold-up in the finishing of the work that means so much to Prince Rupert.

Provincial Election In New Brunswick.

With a federal election looming up, particular interest will be manifested in the result of the provincial election in New Brunswick today. Whichever side wins will undoubtedly be heartened for the larger contest though the result of the provincial voting is not necessarily to be taken as an indication of how things will go in the federal field.

Various Glacier Creek Mines Are Dealt With in Report of Provincial Mines Department

(By G. A. Clothier, Resident Engineer)

The L & L Glacier Creek Mines Co., Ltd. was incorporated in May, 1924, with a capitalization of \$250,000, divided into 1,000,000 shares.

The work done on the property up to the first of the year consisted of four open cuts, tracing the vein a distance of over 300 feet. Each cut exposed an ore-body varying in width from a few inches up to three feet of heavy sulphide ore of zinc-blende and arsenical iron in about equal proportions.

Under these surface exposures a tunnel had been driven on the vein a distance of 225 feet, extending under the first two surface cuts and about up to the third one without disclosing any appreciable amount of ore such as exposed on the surface.

This year, under the supervision of J. F. Breeze, the tunnel was continued 60 feet, bearing to the right and thus crosscutting the formation for about 30 feet, but without encouraging results.

An upper tunnel was then started at the lowest open-cut, about 70 feet vertically above the main tunnel, and driven about 120 feet by the end of 1924. This tunnel has been in high-grade ore varying from 8 to 30 inches in width from the collar to the

very profitable investment. A comfortable log cabin was built this year, but another will be added early in the spring in anticipation of the employment of more men in staking and sorting out. Recommendations will be made for the reconstruction of a portion of the trail to improve shipping facilities.

Ruth and Francis

The Ruth and Francis group of four claims, situated on the North fork of Glacier Creek, is owned by James Nesbitt and Andy Archie, of Stewart. This season, while prospecting the ground, Mr. Nesbitt discovered a small vein in a high bank just across the creek from the cabin.

The Windsor Group consists of four mineral claims—Windsor, Windsor No. 1, Laura and Laura No. 1—owned by Ben Lawrence, of Stewart, and associates. The claims are situated at a general elevation of about 3,700 feet on the south side of Bitter Creek glacier and about nine miles up Bitter Creek from the bridge on the main Bear River wagon road.

Bitter Creek Formation

The general rock formation is the Bitter Creek formation, consisting largely of slates and argillites, extending south to the Dunwell, Lakeview, Portland Canal, and other properties.

The showings on the property consist of two veins. The upper one I did not see, but is described by the owner as being a narrow, oxidized vein up to 8 or 10 inches in width, in which occur patches and small lenses of galena-zinc-blende ore carrying high values in silver. Some work was done this summer on this vein and the owners consider the showing very promising.

The lower or main vein consists of a bell up to 18 feet in width, in which there is from one to five feet of heavily pyritized quartz, the remainder being slate intersected with quartz-seams mineralized with pyrite. It strikes N. 30 degrees W., paralleling the glacier, and dips about 40 degrees W. into the hill.

The work on this vein consists of several open cuts and a cross cut tunnel, 76 feet long, cutting the vein, which is about 12 feet in width as nearly as could be ascertained through a heavy, soft oxidation, due to seepage through the pyrite.

The heavy iron sulphide is comparatively low grade, but fair gold values are obtained where the ore shows galena and zinc-blende. One cut gave \$12 a ton gold values across five feet.

The vein is strong, well defined and, as stated, shows fair values at several places along the surface. I think the possibility of developing a tonnage of milling grade is sufficient to justify considerable development work.

New "Baby City" of Ontario

An Old Home Week Celebration to celebrate the attainment of City status will be the big attraction for Northern Ontario the first week in August. North Bay, to-day the largest town in the Province, with a population officially estimated at 13,011, will become the Baby City of Ontario on Sunday, August 2nd.

Historically rebuilt, two privately owned parks have had to be taken over for the year and other large expenditures incurred, but the citizens are behind the celebration movement and are determined to make it something that will be long remembered in the Northland.

The last municipal census placed it at 13,011, while the rapid growth of the town this year indicated that it will be at least 15,000 when it takes its position as a City next August.

**BASEBALL GAME WAS ONE-SIDED**

**Sons of Canada Won From Sawmill by Score of 10 to 1 Yesterday**

The league baseball game yesterday afternoon between the Sons of Canada and the Sawmill was a rather one-sided affair, the Canucks winning by a score of 10 to 1. Chet Schlenker, hurler for the Sons, pitched one of his best games yet and was given good support by his team mates. Dan Lidstone, pitcher for the Sawmill, was hit rather more freely than usual, but it was poor support from the field that was largely responsible for the way things went. Eight errors were chalked up against the mill, Smith, second baseman, making five of them. The Seal Cove boys would have been shut out had it not been for an overthrow in the last half of the ninth inning. The hitting of W. Mitchell was a feature of the game. He made one three-bagger and a double as well.

P. Laporte and Howard Frizzell were umpires. The crowd of spectators was not very large. The box score was as follows:

The Cold Storage feel that they have strengthened their team considerably lately and point to the game on Friday last with the Callies as proof of this fact. The teams will line up as follows:

Sons of England: Howlett, R. Howe, G. Howe, Kelsey, Bales, Cameron, Farquhar, Dickens, Johnson, Hanson and Hodgkinson.

**112 Taxi Could Not Get Rid of \$10 Bill on Saturday Evening**

There is evidently too much money in Prince Rupert. In fact, the 112 Taxi, Prince Rupert Transfer & Taxi Co., could not get rid of a ten dollar bill on Saturday night between 7 and 9 o'clock.

In accordance with their advertisement in last week's issue of The News, Jimmy Mitchell, of the Canadian Fish & Cold Storage Co.'s staff, was the man selected by 112 Taxi to carry the key ticket. Although he met and spoke with several hundreds of wearers of 112 Taxi tickets, not one person asked if he had the "ten spot" to spare and up to 9 o'clock he still had the money in his possession.

This advertising stunt was such a success that on Saturday week 112 Taxi will give away \$45. Surely somebody will get it next time.

The Somerville Co. has put in a wireless set at Barnard Cove, the size being similar to that used on coast steamers. W. Morse, formerly operator on the Union steamer Cardena, is in charge.

## BITTER FIGHT AT EDMONTON

Both C.P.R. and C.N.R. Bidding For Peace River Control

EDMONTON, Aug. 10. — With the full forces of the Canadian Pacific and interlocking directorates thrown into the fight in an effort to keep control of the Edmonton, Dunvegan and British Columbia railroad, and thus hold the key to the situation insofar as the far-famed Peace River transportation problem is concerned, and with the settlers of the district affected lined up with the Canadian National system in their efforts to get control of the road, one of the most bitter battles ever fought in the railroad annals of Western Canada is now being waged here.

The C.P.R. now offers an annual rental of \$60,000 and has guaranteed that the rates on the road will be reduced to the main line schedules if it is stated. This would mean a reduction on wheat rates alone from 43 cents to 27 cents per bushel and would mean the salvation of the Peace River district. The contract under which the C.P.R. operates the road expires on July 25, and the C.P.R. has offered to renew it for a period of seven years at the new rates.

**C.N.R. Offer**  
 On the other hand the Canadian National offer is said to be even better than that of the C.P.R., in that it also offers main line rates, and in addition to make any necessary improvements on the system and then to pay the government half of any operating profits that may accrue after the new fixed charges have been taken care of. The National system asks a ten-year lease.

ago the popular interior politician sallied forth with other inhabitants of Fernie to fight a fire which was creeping down the mountains and into the pass east of the town.

After he had toiled for hours with the other fire fighters digging fire breaks to protect the road, Mr. Uphill suddenly noticed that the fire on the mountain above was racing down at terrific speed. He threw his shovel away and took to his heels, beating the flames by a few seconds.

## CONSTANCE TALMADGE IN TONIGHT'S SHOW

Plays Role of Hopeless Flirt in Picture "Learning to Love."

Constance Talmadge as Pat Stanhope in "Learning to Love," at the Westholme Theatre tonight, is a hopeless flirt. In turn she makes love to her professor, to a college boy, to a young Chicago millionaire and to a French count.

However, she fails to make any impression on her lawyer and guardian, Warner, and for that reason promptly falls in love with him.

As a result of allowing herself to become "engaged" to four of her fiancés at once, Pat starts a row which lands three of her fiancés in jail.

Warner saves her from scandal, but declares he will compel her to marry the next man with whom she becomes entangled. That gives Pat an idea and she secretes herself in Warner's room and then sends a hint of her escapade to a society scandal paper. Whereupon Warner, to save her reputation, forces Pat to marry him.

However, he refuses to live with her, declaring that his wife must be a real woman, not a flirt. Heartbroken, Pat sails for Paris to get a divorce.

On the boat she meets Billy, one of her former college boy fiancés, who tells her that he is on his way to Paris to heal his shattered heart in wild living. Pat, feeling that she has ruined Warner's life, and anxious to make amends by getting him a divorce, promises Billy, half-heartedly, that she will marry him later.

However, Warner, who has been secretly in love with Pat all along, hastens to Paris after her. Both of them later find the "heart-broken" Billy toasting three beautiful French girls in champagne at a popular cafe and so Pat turns back to her husband and happiness.

## CLEVER COMEDY IS MID-WEEK FEATURE

Betty Compton and Raymond Griffith Star in "Paths to Paradise"

"Paths to Paradise," featuring Betty Compton and Raymond Griffith, which is coming to the Westholme Theatre on Wednesday and Thursday, opens on the scene of a guide showing a group of sightseers through San Francisco's Chinatown. In an underground dance hall Betty Compton enters as a fictitious queen of a gang of counterfeiters. She is in the act of "taking over" Ray Griffith, a likely looking sap, according to her pals. Ray calls in a friend, after they have relieved him of several hundred dollars by a couple of clever tricks; the two of them flash stars and declare the place under arrest.

Next Griffith is found across the street with his partner dividing the money and jewelry handed over as a bribe. Ray's badge, purposely left behind in the dive, tags him as a "San Francisco Gas Meter Inspector," but he's a clever high-hat crook who doesn't put any stock in the saying that there is honor

The same thing is true with circulation. During the last few years Advertisers have not been satisfied to suppose they were getting a certain circulation for their money; they don't want to be merely told, they want to know.

They want the circulation measured by a standardized and unquestionable measurement.

The Audit Bureau of Circulations is the recognized authority for proving circulation. It is maintained as a co-operative organization by the advertisers, advertising agencies and publishers who realize the necessity for businesslike methods in advertising.

## BIG ELEVATOR AT EDMONTON EMPTY

Is Now Ready to Handle 1925 Grain Whenever It Arrives

EDMONTON, Aug. 10. — With only from 70,000 to 75,000 bushels of grain in the Dominion elevator at Edmonton at the week end prospects were that early this week the huge storage bins would all be empty. Not since the commencement of the last crop year has the elevator contained so little grain, and probably never since the first few months after its opening.

Last week proved to be an exceptionally heavy one for shipping of grain from the elevator, and between 300,000 and 400,000 bushels were loaded into cars for Vancouver. This was chiefly due to cancellations on wheat shipments, as allowed by the railway companies expiring at the end of the month. One or two local grain companies, however, secured an extension of one month but are expecting to move all grain before the end of the week, thus cleaning up the elevator for the new crop.

## NAMES MENTIONED GOVERNOR GENERAL

King Considers Duke of York and Prince Henry too Young to Occupy Important Position

LONDON, Aug. 10.—Who will be the next governor general of Canada? This question is one of the most popular topics for speculation wherever Canadians in London meet at any social function, such as the king's garden party. A number of names are being discussed.

Among those most mentioned is the Duke of Athol, whose wife is a particularly able and popular personality in the house of commons. There is a general consensus of opinion that he would make an excellent appointment if no member of the royal family is available.

It is known that the king considers both the Duke of York and Prince Henry too young at present to occupy such an important position, but is willing to give his assent to their appointment if Canada expressly wishes it.

Other names freely mentioned are those of Lord Willingdon, who has taken a great interest in Canada and Earl Gavan. Until somebody is definitely chosen, the Anglo-Canadian world in London is going to continue an interesting series of speculations.

Walter Wesley, charged with drunkenness, was fined \$20 and costs by Stipendiary Magistrate H. F. McLeod under the Indian Act this morning. Alex. Brown, charged similarly, was remanded until August 15.
