Port Simpson Suffering From Drought and Big Bay Lumber Co.'s Mill May Have to Close

The dry spell of the past 21 days during which time not a drop of rain has fallen in Prince Rupert is already causing inconvenience at certain points along the coast, says Canon W. F. Rushbrook, of the mission launch Northern Cross, who is in town today.

LAUREL WHALEN BACK IN RUPERT

Somerville Cannery Co.'s Floating Cannery Arrives from Barnard Cove—Going South

After spending nearly four months at Barnard Cove, Princess Royal Island, packing salmon, the Somerville Cannery Co.'s floating cannery Laurel Whalen reached port last evening at six o'clock in tow of the tug Cape Scott. Having on board some five or six thousand cases of fish, the pack of the last week or so, the vessel will leave on Saturday for Vancouver in tow of the Hecla Straits Towing Co.'s tug Cape Scott.

Though pink fishing was a failure, the Laurel Whalen had a fairly good season's pack the local management of the Somerville Cannery Co. reported this morning. During the season steamers called at Barnard Cove and loaded salmon from the Laurel Whalen, this being over and above that which is still on the vessel representing the last week or so's work.

W. J. Jefferson, who has been manager of the Laurel Whalen arrived here with the vessel and will proceed south with it at the end of the week. There is also a skeleton crew aboard. The employees on the Laurel Whalen, like the company's cannery at Seal Cove, were largely white and the staff included a number of university boys. There were a few Indians and perhaps half a dozen Orientals.

The Seal Cove cannery is still packing chums and will continue to do so as long as they are available. Then the plant will start packing clams and continue to do so, it is expected, throughout the winter.

EUSHEY'S ATTITUDE TOWARD ELEVATOR

George Bushby's managers take exception to an interpretation of his speech at Smithers placed upon it by the Daily News. On re-reading the article it seems as if Mr. Bushby had been misinterpreted. He says, and his managers also state, that he is personally in favor of the elevator but that it was not built for the specific purpose of helping either the Bulkley Valley or Prince Rupert but as a national undertaking.

Mr. Bushby is conducting a clean campaign and this paper has no wish to misrepresent him in any way.

The big new plant at Chemainus which is being erected following the fire, is almost complete and as soon as it ready the mill will begin cutting. As the plant will be thoroughly up to date it will be in a position to cut a lot of lumber.

At Great Central Lake there is a new plant in process of erection which it is expected will cut something like 100,000 feet a day.

MAUD REACHES SEATTLE TO BE SOLD AT ONCE

Crew of Seven Men to be Dispersed Following Three Years Spent in Arctic

SEATTLE, Oct. 6.—Amundsen's exploration ship Maud which sailed from here June 3, 1922, with high hopes of drifting with the Arctic ice across the North Pole, returned last night. Her long career is over, perhaps or ever, for she has been ordered here by Amundsen to be sold and her crew of seven dispersed. The members of the crew have little to say of their three years amid the perils of the devastating ice pack. Although the Maud drifted and shouldered her way about 2,500 miles to the west of Nome, the currents carried her but little in a northerly direction. That was the reason Amundsen ordered the expedition abandoned.

Working Up Interest In The Elections.

Interest in the elections is increasing every day and it looks as if by the end of the month people here might really realize that an election is taking place. There are to be plenty of meetings apparently, if this week is any criterion of what is to follow.

So far there have been no personalities and everything has been very friendly. That is as it should be. It is very different from what has been taking place in other cities. In Vancouver, the names of Prince Rupert people have been bandied about in a scandalous manner and in the East the elevator has been held up as an example of Liberal reckless expenditures. Apparently Prince Rupert has been getting a lot of free publicity.

That class of electioneering is to be deplored. It acts as a boomerang on the people conducting it. The Conservatives will gain nothing from their campaign if carried on in that way.

Good Policy In Cariboo Constituency.

The policy of retiring the Liberal and allowing McBride to have the field to himself against the Conservatives in Cariboo was good tactics on the part of the Liberals. McBride has been a Liberal in his outlook and has supported Liberal policies. In all probability he will do the same again. If both he and Fraser had run, the probability is that the Conservative would be elected and he would not represent the views of the constituency which are Liberal.

McBride will now probably be elected and will give enough support to Mackenzie King to help him carry on a stable government.

Everyone Should Be At Two Meetings.

Two opposition meetings are being held this week, tonight by the Nickersonites and tomorrow by the Conservatives. Voters should attend these meetings in order to be posted on the issues of the day. Stork will be speaking again later on the general policy of the government and will doubtless then answer any criticisms that seem worthy of note. The only way to learn about the national policies of the parties is to go to the meetings and hear the speeches.

Memories Are Precious Things.

While a great many people are thankful for the fact that their memories are short and that they are able to obliterate from their lives the influence of many things that have happened, the majority have pleasant memories that they would like to retain.

It is not well to live too much in the past and yet pleasant memories are influences that tend to brighten the lives, especially of those who are lonely. Again and again we can go back in spirit to the days that have gone and recall the joys which, while fleeting enough, still remain with us and have their effect on the whole future of our lives.

Look Forward And Not Back.

While it is true that we should hold on tenaciously to pleasant memories, it is not well to dwell too much on the past. The present is with us and the future bears promise of great things if we only acquire the right mental attitude toward it. Let the memories of the past guide us in the future, but do not for a moment suggest that because the past was pleasant, there can be nothing pleasant again. Life is a matter of progress. If we do not make progress, we die.

The creator intended that people should enjoy life and not mourn forever about the past. Forward should be our watchword.

WESTERN SHIPMENTS OF GRAIN DISCUSSED

Edmonton Journal Thinks No One Need be Concerned Over Shipping Problem

(Edmonton Journal)
In the course of an interview at the coast Mayor Blatchford asked why such heavy shipments of grain are going east "while there is nothing coming to Vancouver of any consequence." The movement to the head of the lakes is certainly much larger than that to the Pacific, but this is inevitable at the present time. With only a few weeks before navigation closes on the lakes, grain has to be hurried forward very rapidly if it is to be exported by that route. But there is not the same necessity in connection with the other. One of its largest advantages is that it is open for use the year round. No sensational seasonal rush is required.

interested in the western route to be concerned because the receipts at Vancouver are at the moment so much less than at Fort William. They are considerably higher than last year, the C.N.R. reporting the arrival of 272 cars to September 23 as compared with 163 up to the same day in 1924, and the testing time is still to come. If the recent order of the railway commission on western routes is not interfered with and the tariffs of the companies are adjusted to bring them into accord with that order, the additional advantage accruing to the farmer from shipping through Vancouver will be such that there must be a very large increase in the business which that port handles.

There have been reports that ocean rates were being increased so as to offset the benefit of the rail reductions. This is explicitly denied by the president of the Vancouver board of trade in a letter to the Edmonton board. He states that, since the commission's order, ocean rates have gone down instead of up.

TO GET ACTION ELEVATOR ROAD

City Council Taking Matter up With Railway Officials at Request of Board of Trade

A letter having been received from the board of trade inquiring as to what progress was being made on the matter, the city council decided last night to communicate at once with officials of the railway company with a view to coming to an arrangement whereby a roadway may be built from the city to the elevator. The city is prepared to put the road in shape to the city limits provided the railway takes care of the building of the road on its property. It has not yet been definitely decided where the connection will be made. Eleventh Street was mentioned at the meeting last night but there is a possibility that it may be from some point in Westview.

TO PAY POLL TAX COLLECTOR STRAIGHT 10 PCT. COMMISSION

Some Discussion in Regard to Basis of Payment to W. H. Sherman

In connection with the passing of accounts at the meeting of the city council last night, there were some discussions as to the basis on which commission should be paid to W. H. Sherman for the collection of poll taxes.

Ald. Stephens said that it had been the original intention of the council to pay Mr. Sherman 10 per cent of collections apart from those received automatically by the city from companies who deducted the poll taxes from the payroll. He understood that, instead of this, Mr. Sherman was being paid ten per cent generally which he thought was a violation of the rule set by the council.

Mayor Newton stated the finance committee, subsequent to the council dealing with the matter, had decided to revert to last year's policy in the payment of commission and give Mr. Sherman ten per cent on all collections other than those deducted from the city payrolls as had been done last year. He had been informed that the finance committee had made such a decision while he was away from the city.

Ald. Stephens remembered no such decision by the finance committee. In any case, the finance committee had no authority to change a resolution of the council.

Ald. Larsen and Ald. Perry both felt that Mr. Sherman had been doing good work and should get the straight ten per cent. Ald. McMordie felt similarly and, in view of the fact that the work would hardly be worth Mr. Sherman's while if he was not paid on such a basis, moved that the decision of the finance committee to that effect be confirmed. This was seconded by Ald. Brown and carried, Ald. Stephens voting against.

BIRTHDAY PARTY FOR MRS. PETER BYRNE IS HELD AT THEIR HOME

Presentation Made Her by Number of Friends Who Called on Them

A party of young people captured the home of Mr. and Mrs. Peter Byrne, Allin Avenue, last night without opposition, the occasion being a surprise party in honor of the birthday of Mrs. Byrne. The evening was enjoyable spent in music, games and dancing, music for the latter being furnished by John Knox, piano; Stanley Webb, violin; and Harold Van Buskirk, guitar. H. Van Buskirk also entertained with an exhibition of step dancing.

Refreshments were served at midnight when Mr. Knox, on behalf of the company, presented Mrs. Byrne with a beautiful cut glass set. Those present included Mr. and Mrs. Peter Byrne, Mr. and Mrs. J. Knox, Mr. and Mrs. McLeod, the Misses Bella Mackenzie, Chrissie Mackenzie, Mae Thompson, Mary Colussi, Muriel Forsythe, and Messrs. Stanley Webb, Harold Van Buskirk, Huntley Watt, Fred Porter, Jack Martin, Mac Smith, Jack Gillis, Elmer Thompson, and Charlie Henderson.

A double doiley shower was given last night by Miss Dorothy Gillingham and Miss Agnes Letnes for two brides-to-be, Miss Violet Mortimer who is to marry Paul A. Yellon in the Anglican Church Thursday, and Miss Hazel Morency who will be married to Howard Pringle on November 8.

Miss Letnes, dressed as a baggageman, delivered the truck of doilies to each of the girls, much to their delight, and the beautiful sets were much admired. Tea was served and everyone spent an enjoyable time.

GARBAGE WHARF PILES SOLD TO THOS. TROTIER

Offer of \$50 Accepted by Council Last Night, Purchaser to be Responsible for Removal

An offer from Thomas Trotier of \$50 for the piles in the old garbage wharf on the waterfront was accepted by the city council last night on motion of Ald. Perry, seconded by Ald. Larsen, the understanding being that Mr. Trotier should be responsible for the taking out of the piles. It is the intention of Mr. Trotier to use the piles in connection with the coal and feed dock he is building east of Cow Bay.

THE MAN IN THE MOON

says:

FRIENDS sometimes like to send in verses or jokes for this column and if suitable they are used. They must not be spiteful as that sort of joke is not published here. Anyone sending in verses should sign them or send an accompanying note by them. Today the editor turned over some unsigned verses to me which are so good I am taking a chance and using them anyway. The writer says they are written on being convinced with George Leek that "It's a great day."

Info rhyme I go slipping
To sing of our shipping,
Which now is increasing so quickly,
Our weary longshoremen
Are calling for more men
The freight drops around them
so thickly.

Our halibut dories
Relate wondrous stories
Of fish piled afresh with the gunwale,
Our trawler, the Foster,
Tells those who accost her,
"I'm loaded plumb up to the funnel."

The wheat of the prairie
No longer is chary
Of seeking the Ocean Pacific
And our elevator,
(Though Tories berate her)
Wreathes our faces with smiles
heavily.

Log barges are coming,
Our mill's saws are humming,
The sun of prosperity's shining,
On your toes, no one slouching!
Put an end to all grouching!
Take a poke at the guy who
keeps whining.

IF I profited by all my mistakes I should be the richest man in Prince Rupert.

Who is on profit bent,
She's looking daily for a man
Who'll help to pay the rent.

When the sun is shining like this,
And the little girl is all smiling,
Ah, this is what I call bliss.

SPORT CHAT

Arrangements are being made to stage a boxing bout in the city shortly between Brick Skinner of the Pfre Hall and C. McNeil of Carter-Halls, Ltd. Staff. McNeil is a colored man and is said to be very fast. It is expected that he will give the local man a real run for his money and already a good deal of interest is attaching itself to the bout. Vic Rodgers of the Dominion Baths, who is promoting the bout, thinks he has found a Canadian Siki in the colored gentleman who recently arrived here from the prairies. He is working out his protegee briskly already.

An indoor baseball league is being organized in Juneau this winter with at least four teams entered as in the summer baseball league—Elks, Alaska, Juneau, Moose and American Legion. In addition to the plans for indoor baseball, the proceeds of which will be devoted to the purchasing of equipment for children's playgrounds in the Alaskan capital, there is also being discussed the possibility of conducting gymnasium classes to include indoor sports. For some winters past, there has been talk of re-establishing indoor baseball in Prince Rupert but nothing has been done, the opinion seemingly being that basketball is sufficient winter league sport here.

There not being enough persons present to form a quorum, the annual meeting of the Prince Rupert Basketball Association called for last night was adjourned to a later date. There were ten Juniors at the meeting and a few other interested persons as well as the following officers and delegates: Jack Campbell, president; Eddie Smith, acting secretary; Miss S. A. Mills, Maple Leafs; Harry Love, Sons of Canada; George Cochrane, Grotto; W. Wrathall, Collis; Harry Walker, High School; Dave Balfour, Elks. President Campbell stated that another date would be set for the annual meeting as soon as the players were ready.

This is the last day for receiving entries in the billiard league and tonight the meeting in the city hall will arrange for drawing up schedules and arranging for the season's activities.

JUNEAU PAPER PREDICTS WIN FOR LIBERALS

Victory of "Bob" Lowe in Yukon is Forecasted by Alaska Daily Empire

The Alaska Daily Empire, Juneau's newspaper, predicts the victory of Robert Lowe, Liberal candidate in the forthcoming federal election, over Capt. George Black, Conservative member in the last House, in the following editorial which appeared last week:

The impression seems to prevail that Robert Lowe of Whitehorse, the Liberal nominee, will be elected to the Dominion parliament from Yukon Territory, notwithstanding that Capt. Geo. Black, the present member and Conservative nominee for re-election, is also popular. Bob Lowe has been a resident of Yukon Territory for more than a quarter of a century. He has lived at Whitehorse and been the most prominent citizen of that town from the beginning of the place. He has been a member of the Yukon Territorial Council since the organization of that legislative body, and he knows Canadian Yukon like a book. On the other hand, Capt. Black left the Yukon some years ago and is now a practicing lawyer in Vancouver.

The supporters of Bob Lowe will make their campaign with the slogan, "Yukon for Yukoners; we want no carpetbaggers." It is said that the chances seem more than favorable for their success.

It might be said in passing that Robert Lowe is a member of a prominent Liberal family. A brother has served many terms in the Dominion parliament as a Liberal party member.

MARKETED HIS CROP WITHIN 113 DAYS

SASKATOON, Oct. 6.—Just 113 days after he put the seed in the ground, wheat grown on the farm of Bert Clearwater, near here has been unloaded at Port Arthur, Mr. Clearwater began his seeding operations on May 17 of this year and finished threshing on August 29. His grain had been unloaded at the lake head on September 7. This wheat which was sown on spring ploughing, yielded 24 1-2 bushels to the acre. Mr. Clearwater maintains this is a new speed record for Canada.

UNITED CHURCH HOLDS BANQUET

Reopening of Church Fittingly Celebrated at Enthusiastic Affair Last Evening

About 200 persons were present at the banquet last night which was held to celebrate the reopening of the United Church in Prince Rupert. The affair was of an informal nature but was much enjoyed and the program was a very interesting one. The three sections of the church social hall which were filled with the guests were very prettily decorated for the occasion.

After ample justice had been done to the splendid supper that was provided, Miss E. M. Earle, who was chairman, called upon Alfred Plant to lead in community singing which proved most enthusiastic. Soloists of the evening were Mrs. McGregor, Mrs. Jarvis McLeod, Rev. Evan Baker of Kingston, Ont., and Bruce Stevens. The accompanists were Miss Way and Clifford Cameron.

Dr. W. T. Kergin gave an address on the past history of the church making many interesting references to pioneer days in Prince Rupert. Rev. G. G. Haeker spoke on the present outlook of the church and Rev. W. J. Parsons of Terrace was also a speaker. The program was concluded with an original and humorous sketch, "Why Husbands Leave Home," by Miss Isabel Haddock and Earl Barrie.

The entire Ladies' Aid of the church under the direction of the president, Mrs. W. A. Matheson, had charge of the banquet while Mrs. A. D. Plant and Mrs. Haeker made the arrangements for the program.

REV. AND MRS. PARSONS ARE LEAVING TERRACE

Will be at Fruit Centre Only Two More Sundays Before Going South

TERRACE, Oct. 6. — Expressions of keen regret are being heard on all sides since it became generally known that Rev. and Mrs. W. J. Parsons are soon to sever their connection with the United Church here. During their four years in Terrace Mr. and Mrs. Parsons have been very active in all lines of work which had to do with the uplift of the community, and especially among the young people they will be very sorely missed and their places very hard to fill.

Mrs. Parsons has been very active in "teen-age" girl work, while Mr. Parsons has been the leader of the boys in their Trail Ranger and Boy Scout activities during the years he has been here. He was president of the Parent-Teacher Association last year and both he and Mrs. Parsons were very interested workers in that association.

Mr. Parsons will occupy the pulpit here for the next two Sundays, after which they expect to leave for Vancouver, prior to going to their new location.

A NARROW ESCAPE.

UNITED STATES ANCIENT DEBT

Proposal Made by Newspapers of That Country to Clear up Indebtedness

An Eastern Canadian newspaper says:—Several of the leading newspapers of the United States have been discussing the debts of the southern states that were repudiated shortly after the civil war, and are urging that, in making settlement with European nations of present war debts these old debts should be paid.

The money is mostly owed to Britain—some \$60,000,000 with interest. These debts, which were repudiated, were not the debts of the rebel south, as too many people in the United States like to suppose. They were not that at all. Those who take the risk of lending money to a people in rebellion expect to lose if the cause fails. After the war had ended in the defeat of the south money was required in the work of reconstruction, and the governments of several states borrowed freely in the London market.

At that time Washington was taking a hand in reorganizing the south, and her agents were called carpet baggers. Later on, when these different states recovered control of their own af-

Creditor Nation

Now that the United States is a creditor nation, anxious to see France, Belgium, Italy and other nations pay—anxious that none of them should stoop to the had expedient of repudiation, it is found extremely awkward to be confronted in the press of Europe with the story of the repudiated debts of certain of the United States. Several leading newspapers urge that in international war debt adjustment these long evaded debts be faced and paid, as they ought to be. But it takes a great deal of newspaper talk to persuade Uncle Sam that he ought to "pay for a dead horse." He would like to do it for the looks of the thing, but, having been poor in his youth, he hates to part with money.

LIFE HISTORY HUGE SALMON

Eighty-Five Pound White Spring is a Five Year Old Babcock Says

SOME TAGGING RESULTS

VICTORIA, Oct. 6. — Just how the eighty-five pound salmon caught recently in the Straits of Juan de Fuca managed to reach its enormous size was explained by John P. Babcock, leading Canadian fish authority and deputy commissioner of fisheries for British Columbia in a statement issued after he had examined the monstrous specimen.

Expert's Statement

"The eighty-five pound white spring salmon which was caught in a trap in Juan de Fuca Strait last month is shown, from an examination of its scales submitted to me, to be a five-year-old fish," said Mr. Babcock. "Like most of the other record weight spring salmon, it is of the 'sea type,' that is, it left fresh water early in the spring of its first year and passed virtually all of its life in salt water. Ordinarily most spring salmon spend their first year in fresh water and migrate to the sea in the second spring of their lives and live in the sea for three or four years. Those that spend one year in fresh water grow but a few inches in length during that period. On reaching salt water, they find food much more abundant and grow rapidly.

"This eighty-five pound fish migrated to sea soon after it reached the swimming stage and therefore grew much more rapidly the first year than it would have done had it remained that year in fresh water. Having lived in the sea for five years—one year more than the average—it was enabled to grow to greater weight than is usual to the individuals of its race. While it is close to the record, if not the record spring salmon taken in British Columbia waters, it is not the record on the coast. Spring salmon weighing over ninety pounds have been taken in the Columbia. This eighty-five pound fish, however, must have been a glutton—a regular Falstaff.

Roam Long Way

"And talking of salmon, some very interesting tagging experiments have been conducted by the Biological Board of Canada on the west coast of Vancouver Island and Northern British Columbia this past summer. Some hundreds of spring salmon that were caught by trolling were tagged and liberated. Metal tags, each bearing a separate number and the letters 'B.C.' '25' were fastened in their flesh near the base of the tail. They were tagged and liberated in order to trace their movements and gain additional data as to growth. Several of these tagged fish have been caught in Puget Sound and Fraser River waters, as was naturally to be expected. Several others were caught in the Columbia River. The record traveler of them all, however, is the one, just reported, caught near Pittsburg on the Sacramento River, in California. That fish appears to have wandered farther than the one that Dr. Gilbert tagged for the United States Bureau of Fisheries on the southeastern side of the Alaska peninsula in 1923, that was recaptured in Siberia that fall.

Authorities Co-operate

"It will be recalled that the fishery executives of the United States, Canada, British Columbia, Washington, Oregon and California met in Seattle last March and organized for uniform investigations of the Pacific salmon. One of the measures adopted provided for the tagging of salmon in salt water from Monterey Bay, California, to Alaska, during the past summer. The first returns of that work are first coming in, and while it is too early to reach any definite conclusions, those marked off Vancouver Island that have been recaptured in the Columbia, and the one caught in the Sacramento, indicate at least, that some spring salmon from those rivers are at times associated on the west coast of Vancouver Island with those from Puget Sound and the Fraser. Further developments are anticipated, as many of the fish tagged were small, in their second year, and will not mature for two or three years."

NELS JOHNSON IS SENT SOUTH

Gets Six Months at Okalla Prison for Being Drunk

Nels Johnson, logger, well known character about town of Scandinavian nationality and familiarly referred to as "King Haakon," appeared once too often in the city police court this morning on a charge of intoxication and was sentenced to six months at Okalla Prison by Stipendiary Magistrate H. F. McLeod. The chief of police stated that Johnson had been given many chances but nothing could be done with him. It was his (the chief's) desire that he be sent out of town and this request was met by His Worship.

Nels shambled from the courtroom protesting that he should be given another chance and asking what the police were doing about all the bootleggers in town. He continued his protestations after being locked in the guard room. He will be taken south on the Gardena this afternoon in custody of Capt. George Ash.
