GLACIER BAY IS CANADIAN TERRITORY

CONSERVATIVES WIN BIG VICTORY IN THE NEW BRUNSWICK ELECTIONS

Canadian Port at Glacier Bay Possibility Says Dom. Engineer

J. P. Forde says wharves could be built there as glacier is mile back from United States boundary line

Glacier Bay, a long inlet on the Alaskan pan handle approximately 100 miles from the mouth of Lynn Canal and 175 miles N.W. of Juneau, through an interesting and remarkable natural phenomenon, now contains a new Canadian port whereas, a few years ago, navigable water in the bay did not extend past the international boundary line according to J. P. Forde, district engineer for the federal department of public works, who has returned here after having gone north aboard the departmental cruiser Walrondo to investigate reports to this effect.

When Capt. Vancouver visited Glacier Bay in 1894, the inlet was covered with a glacier right to its mouth on Icy Straits. In the years since that time the ice has been gradually receding and when an examination was made in 1912 it was estimated that the inlet was clear to about the international boundary line. Mr. Forde made this trip to make surveys of the boundary line and he found that Glacier Bay was now clear of ice to a point about 4,000 feet or nearly a mile past the boundary. Still the head of the bay is covered for many miles with ice but there is now the possibility of Canadian port development for the sides of the bay beyond the boundary are of such a nature that they could be used for wharves and the water is of such depth as to permit almost any kind of vessel to safely navigate it.

Further investigations and the possibility of development of this water way, Mr. Forde points out, of course, constitute a matter that the government will have to decide upon. It was his mission to definitely determine the international boundary line in Glacier Bay and this he has done. To establish the possibility of Glacier Bay as the site for a new Canadian port, Mr. Forde said, would depend on examinations that would have to be made of the possibility of entering the Yukon from that point. As far as navigation is concerned it is quite practicable for Glacier Bay is a year round waterway having only occasional ice bergs as they break off from the glacier.

While in the north, Mr. Forde went aboard the Walrondo to Skagway and spent four days at White Horse where he made arrangements for departmental work that is to be done in the Yukon this season. One of the latest works done by the department in the Yukon was the placing of a dam in Yukon River which, by flooding and emptying, aids in the removal of ice from the river at the time of the spring break-ups.

Mr. Forde left here today aboard the Walrondo for Victoria. He has been accompanied on the trip by A. Hackett, assistant engineer, and his son, Bill and daughter, Miss Forde.

McALLISTER WAS GUILTY

Admits Fourteen Charges of Getting Money Under False Pretences

RUPERT FIRM USED
Had Mania for Issuing Checks While Under Influence of Liquor

(Special to Daily News)
VANCOUVER, Aug. 11.—Geo. McAllister, pleading guilty to fourteen charges of getting money under false pretences was remanded until August 18 for sentence when he appeared before Magistrate James A. Findlay in the police court this morning.

The arrest of McAllister followed police investigation into the mysterious visits to wholesale houses of a supposed buyer for a Prince Rupert firm, who after lodging an order would cash a small check. The goods would be shipped north and returned as not ordered, while the wholesale firm would find on the check was valueless as the order.

Counsel for the defense gave McAllister a good character and declared that he had a mania for issuing worthless checks while under the influence of liquor.

PRETTY GOOD PRICE FOR HALIBUT TODAY

Twelve to Fourteen Cents Paid for First Class Fish at Exchange

The prices paid for halibut today were fairly high ranging from twelve to fourteen cents for first class fish. The details were as follows:

American	
Pioneer, 27,000, at 12.80c and 5c to Cold Storage.	
Mildred H., 21,000, at 12.70c and 5c to Booth Fisheries.	
Swan, 10,000, at 14.70c and 7c to Royal Fish Co.	
Canadian	
Fisher, 14,000, at 12.40c and 7c to Pacific Fisheries.	
Tramp, 13,000, at 12.90c and 7c to Atlin Fisheries.	
Tennen, 10,500, at 12.30c and 7c to Atlin Fisheries.	
Fannie F., 4,500, at 12.20c and 7c to Royal Fish Co.	
Kobe, 2,000, at 12.40c and 7c to Atlin Fisheries.	

JAPANESE SHIP STRUCK A TUG

Sank Hustler in Vancouver Narrows and Cut Water Main to Point Grey

VANCOUVER, Aug. 11.—The thirty ton tug Hustler was struck and sunk in the first narrows here this morning during a dense fog and smoke by the Japanese freighter Kaikya Maru. Two men aboard the tug narrowly escaped death.

Mass Meeting of Strikers is Considering Offer Secured from Company by Fair Wage Officials

A proposal for a settlement of the elevator strike is being considered by the men involved this afternoon and there seems a probability that work will recommence immediately. J. D. McNiven, deputy minister of labor, and F. E. Harrison, Dominion government fair wage officer at Vancouver, who are in the city, have taken the matter up with Mr. Shearer who is in charge of the work at the elevator, with the result that Mr. Shearer has agreed to pay the city rate of wages which is 57 1/2 cents an hour for common labor and also to pay time and a half for any overtime over eight hours a day that may be required.

Mr. McNiven and Mr. Harrison met the strike committee and laid the proposal before them and asked them to call a mass meeting of the men affected this afternoon, for them to accept or reject the proposal as they saw fit.

The two officials pointed out that the rate offered by the company is the prevailing rate in the locality and the best that the men can expect to get. In the opinion of the officials it is a fair offer.

Mr. McNiven said there were 170 men involved in the strike. The carpenters and a few laborers were still working.

Most of the men, it is understood, are not permanent residents of Prince Rupert, but laborers who have come here recently.

Meagher Gives Evidence at Halibut Commission Urges Abolition of Duty

SEATTLE, Aug. 11.—That both Canadian and American members of the Deep Sea Fishermen's Union favored reciprocity was the assertion of J. H. Meagher, secretary of the union, before the United States tariff commission on halibut at the hearing here yesterday.

Especially, declared Mr. Meagher, do fishermen desire the elimination of the American duty of two cents a pound on fresh halibut and the Canadian levy of one cent. The Canadian duty, he asserted, did not benefit the Canadian fishermen.

As evidence of the ruling prices at Prince Rupert during the past two years fish from Canadian boats sold two cents lower than that from Americans.

The witness attacked the fifty per cent ad valorem duty collected by the United States on equipment bought in Canada by American fishermen.

Chairman Marvin announced that the commission would confine itself to cost data, having concern with the tariff policy.

The hearing began with the report of the investigators, who found the Canadian price of halibut slightly higher than the American on the Pacific but the reverse on the Atlantic where halibut was only a side line.

The report credited 54 per cent of last year's halibut supply of the world to the United States, 15 per cent to Canada. It also mentioned that a Japanese company had begun operations near her own country.

GOT SIX MONTHS FOR MAKING INTOXICANTS

VANDERHOOF, Aug. 11.—Geo. Joseph, an Indian, was sentenced to six months in jail for making intoxicants and another six for selling it. He was tried before Stipendiary Magistrate John D. Charleston and the convictions were secured by Dominion Constable W. F. Manson and Provincial Constable H. H. Mansell.

Conservative Victory in New Brunswick was a Complete Turnover

Only a dozen Liberals left to form opposition to new government of Hon. J. B. M. Baxter

ST. JOHN, N.B., Aug. 11.—The opposition led by Hon. J. B. M. Baxter won a sweeping victory in the provincial elections in New Brunswick yesterday, the government, headed by Hon. P. J. Veniot, securing but twelve of the 48 seats constituting the house.

With a following of 35 Mr. Baxter will have a majority of 24 in the next Legislature.

The farmers with but three candidates in the field did not prove a factor and two independents who ran lost their deposits. Every member of the government with the exception of the premier and his ministers of lands and mines, Hon. J. A. Dysart, and Hon. J. E. Meehaud, suffered personal defeat.

Final Figures
ST. JOHN, N.B., Aug. 11.—Final figures in the election returns in this province give Conservatives 39 and Liberals 12.

Mr. Baxter, in a formal statement, commenting on the victory declined to discuss the personnel of the incoming administration.

No sooner had the count commenced last evening than it was evident a change had taken place in the alignment of the parties and that the Liberals would be defeated. In only a few constituencies did the party hold its own. Premier Veniot, who will now lead the opposition forces, was elected.

The man who will be the new premier, Hon. J. B. M. Baxter, K.C., was minister of customs in the Meighan government. He resigned as leader of the opposition in New Brunswick in September, 1921, to accept the portfolio and returned to the provincial arena this year to again lead the Conservatives. He was elected by the constituency of St. John-Albert in 1921 and only a few weeks ago was unanimously chosen leader of the Conservatives at a convention held in St. John. From the time of Hon. Mr. Baxter's resignation as leader of the opposition to accept the federal portfolio until his re-appointment a few weeks ago, the Conservatives had as House leader, Charles D. Richards of Fredericton.

Hon. Dr. Baxter was born at Carleton, St. John, N.B., in 1868, and educated at the public schools and at King's College, Windsor, N.S. (D.C.L.). He was first elected to the New Brunswick legislature at a bye-election in 1914 for St. John County. He was re-elected at the general elections of 1912 and in December 1914, became attorney general. He held that portfolio until 1917 when the government of Hon. J. A. Murray was defeated at the polls.

Perhaps the outstanding issue in the present campaign was the proposed hydro electric development at Grand Falls. At the last session of the legislature the government introduced and succeeded in piloting through the House legislation which provided for the expenditure of \$10,000,000 to complete the initial development at Grand Falls. This money was to be spent under the direction of the New Brunswick Power Commission, of which the

FOREST FIRES STILL MENACE

Weather Cooler and Absence of Wind Aids Fighters on Vancouver Island

VANCOUVER, Aug. 11.—The forest fire situation was little improved this morning although the absence of wind and cooler weather enabled the fire fighters to gain some advantage. The situation is still serious in the vicinity of Courtenay, Ladysmith and Heriot Bay.

Along the Fraser valley crews are gradually subduing outbreaks, which have destroyed a number of homes and logging equipment. In the big bend country north of Revelstok four fire fighters are missing.

GIRL FAILS TO SWIM CHANNEL

Collapses When Eight Miles From Dover and Forced to Quit

BOULOGNE, Aug. 11.—Lillian Harrison, the Argentine swimmer, who was attempting to swim the channel between Calais and Dover collapsed when eight miles from Dover last night and was forced to give up the effort.

SALMON PACK BETTER THAN WAS EXPECTED

Fish Put up Than Four Years Ago When Catch was Failure on Skeena

SOCKEYES ABOUT OVER

Good Packs at Rivers Inlet and Smith's Inlet but Naas River is Fair

With the 1925 salmon pack on the Skeena and Naas Rivers now conservatively estimated to be eight per cent up, the total pack on the Skeena River to date is 63,000 cases as compared with 59,967 cases, the total of last year's pack. The pack of sockeye to date stands at 58,500 cases as compared with 144,700 cases last year and the season for sockeye is practically over.

On the Naas River the total pack to date is 60,900 cases as compared with 142,800 cases last year and the sockeye pack is 12,000 cases as against 33,500 cases in 1924.

Estimates today are that the total packs on the Skeena and Naas Rivers will be about 120,000 cases (continued on page six)

OIL INFERNO IS BLAZING

Million and Half Dollars Worth of Liquid Goin' up in Flames in Fresno

FRESNO, Cal., Aug. 11.—Damage estimated at more than a million and a half dollars will be done by a fire which is raging here destroying 700,000 barrels of high gravity refining oil stored in a huge reservoir nine miles east of Coalinga.

The fire which it is expected will be uncontrolled for several days started when the 750,000 barrel reservoir was struck by lightning at noon yesterday. Roaring flames leaping 250 feet in the air is making the heat unbearable anywhere within 100 yards of the inferno.

PREMIER DUNNING MAY ENTER CABINET OF MACKENZIE KING

OTTAWA, Aug. 11.—Premier Dunning of Saskatchewan is here conferring with Premier Mackenzie King, it is understood, with a view to entering the federal cabinet as minister of immigration.

Canada As Part Of British Empire.

The so-called "bogey" of Canada's annexation by the United States will always be with us as long as American interests continue to be the main factor in the development of our country as they are today. It is all very well for British statesmen and others to preach the gospel of Empire solidarity but the day is coming and is not very far off when more than that will be required. After all, business is stronger than sentiment and actions are louder than words. To ensure Canada remaining a part of the British Empire, it is up to Great Britain to send its money out here to participate in the development of the country. She must find some way to do this to a much greater degree than she has been doing.

Why is it that so many American interests have been able to come into Canada and successfully build up and operate great industries while similar British enterprises have failed? This is a question for serious thought even in the district surrounding Prince Rupert where there are a number of successful concerns operating with American financial backing and very few British. It is not that the British are not capable of looking after such things but it seems that they have neglected to do so. They have started things but, through mismanagement or timidity, have failed to see them through. All British industries have not gone this way but a number have and it is apparent that there are more successful industries conducted with American backing in this district at least than there are with British.

It is not too late for Great Britain still to enter this comparatively virgin field of natural resources. It is desirable, however, that they should do so at once—both for themselves and for Canada. British competition with United States in the development of this country will certainly be better for Canada than American monopoly.

Great Britain must spread out if she is to keep her position in the world and one field that is awaiting her entry with open arms is Canada. More British people in Canada imbued with the energy and aggressiveness that one requires to get on in this country and a more generous though sensible distribution of British capital in this Dominion will do much to remove the talk or possibility of annexation with the United States. The people of Canada will then be more prosperous and contented as a part of the British Empire and it will be one means of stimulating the trade of the British Empire which it is generally admitted has been waning during recent years.

Bigger Crop This Year Than Last.

It is only a matter of a very short time now before the actual wheat yield in Canada will be known. A few weeks ago the Dominion Government estimated it at 365,000,000 bushels, and this is considered a conservative estimate. Since then some adverse weather was experienced, but not of such a character as to have really deleterious effects on the outlook. Last year the actual harvest was 262,000,000 bushels. This year, then, with a much larger crop and with firmer prices, it is anticipated that possibly twice as much money as last year will be put into circulation as a result of the yield. While this may prove an exaggeration the point is that the prospects are very much better than they were this time last year, and the outlook, therefore, for better times, as far as a good crop affects these, is proportionately enhanced.—Victoria Colonist.

WATCHED FIRE NAMU CANNERY

Passengers on Vessel Say Scene Was Spectacular One When Bunkhouse Burned

HELD TWO AND HALF HOURS

Passengers on the Prince Charles, which arrived yesterday afternoon about four o'clock, say the fire at Namu was a spectacular one. When the steamer arrived on the scene the Chinese bunkhouse was totally destroyed and was a mass of blazing debris. Efforts were being made to prevent the blaze spreading and fortunately the wind which had been blowing strongly all day was dying down.

Immediately on arrival Captain McLean ordered the ship's pumps connected with the canneries water system and salt water was pumped through the pipes which connected with a hose at the scene of the fire. This increased the pressure to such an extent that it was possible to deal effectively with the fire, which had spread to the trees and brush and prevent any further spreading. Had the fire spread in the direction it was being carried, the whole of the canneries buildings would probably have gone up in smoke.

For two and a half hours the Prince Charles pumps were kept going and then it was felt that even if the wind should rise, the canneries would be safe.

Started Upstairs
The fire apparently started in the upper storey of the building and a number of the Chinese below were able to get their goods out. Others lost everything including a good deal of money. Provision was made for the men in the adjoining buildings.

Happily everybody was able to get out of the building without injury, but two pigs were badly burned.

The cannery at Namu is owned by the Gosse Miller Company and Richard Gosse, the manager, was away at the time. He went south on the last trip of the Prince Charles and was to have rejoined that vessel at Campbell River but did not put in an appearance when the vessel passed that place.

Temporary arrangements will be made to house the Chinese workers until a new building can be erected.

UNION BANK WANTS REBATE ON LICENSE

In View of Closing on August 31, It is Felt That Full Fee Should not be Required

H. H. Little, manager of the local branch of the Union Bank, was in communication with the city council last night asking that \$25 be accepted from the bank covering license fee up to August 31 when the bank will be closed and amalgamated with the Royal Bank. The full yearly license fee for a bank is \$200 which the bank felt, under the circumstances, should not be required. The matter was referred to the finance committee.

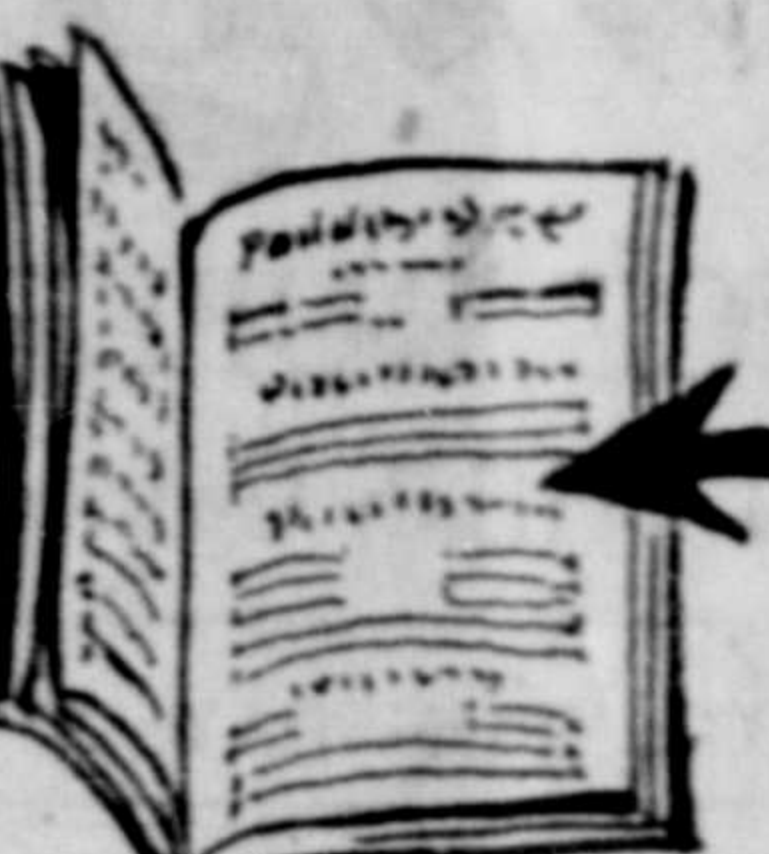

154 MEN HAVE LEFT HERE FOR PRAIRIES

Considerable Movement to Harvest Fields is Reported by Government Labor Bureau

Up to and including this morning 154 men had left Prince Rupert for the prairie harvest fields. It was stated at the provincial government labor bureau this morning. Saturday's train took out 93 men, Monday's 36, and this morning's 25. Still further men are planning on leaving this week and, by the time they are gone, there will probably be a scarcity of labor in the city.

DISTRICT EXHIBITS COMING FOR FAIR

Word was received at the Fair Office this morning that Prince George will be represented with a large district exhibit at the Exhibition here next month. Good displays are also expected from the Lakes district and from Hazelton. If either Hazelton or Prince George are adjudged to have the best district exhibit at this Fair, they will obtain permanent possession of the silver cup which has been won by both

EFFECT OF LOYALTY SHOWN IN PROSPERITY

Editor on Return From Vancouver Tells of Change of Tone in That City

The loyalty of the Vancouver people to their city and the steady growth which is going on all the time in and around that centre were the most interesting things noticed on the visit made there by H. F. Pullen, editor of this paper, who returned yesterday on the Prince Charles. He says that everywhere one goes there is the same spirit manifested. Vancouver is the big thing in the life of everyone and the result is shown in growth, progress and prosperity.

While there is that feeling of intense loyalty to their own city in Vancouver, there is also expression given to the idea that Prince Rupert will also be a shipping centre and that before long its progress will be very evident. Businessmen say they believe it will be a good thing for Vancouver to have Prince Rupert established as a distributing centre for the district. Vancouver supplies a good deal of the food-stuffs and material for any progress in the north and the people do not consider there should be any rivalry but rather co-operation between the sister cities. Mr. Pullen says he found none of that sneering contempt which was so common a few years ago. The tone of the people in the north has changed altogether and great interest was taken by everyone in the progress and possibilities of the north.

ACTING MAYOR CASEY.

Ald. Casey will be acting mayor during the absence of Mayor Newton who, after attending the halibut tariff conference in Seattle, will proceed to Calgary to be present at a convention of the Sons of England. Ald. Casey was chosen at the meeting of the council last night on motion of Ald. Perry, seconded by Ald. Brown.

George W. Taylor, who has been appointed travelling auditor for Canadian National coast steamers succeeding F. S. Shepard who has been promoted to the post of assistant chief clerk in the Audit Office at Vancouver, is paying his first visit to Prince Rupert on official duties having arrived from Vancouver on the Prince Charles yesterday afternoon.

Of the passengers coming north on the Prince Charles yesterday a number were school teachers and university professors. Prominent among them was Professor Hall of the University of Wisconsin, who is on a pleasure jaunt with Mrs. Hall. Of 68 passengers arriving, 46 went east on the train and a number of them planned to stop off at Jasper.

ANNOUNCEMENTS

Elks' Flag Day and dance Thursday, August 13.

Baptist Church Ladies' Aid Bazaar, November 26.

St. Andrew's Ladies' Auxiliary Bazaar, December 2.

An official of the Illinois Central Railway, Mr. Straus, who was accompanied by Mrs. Straus, making the tour of the coast and returning to Iowa by way of Jasper and Winnipeg, was an enthusiastic booster for the inside passage up the coast following a very pleasant voyage terminating yesterday. He says when the route becomes better known many people will come this way for their holidays.

A. Theodore, owner of the new Boston Cafe at Vancouver who is interested in fishing boats on the coast, left the steamer Prince Charles at Butedale yesterday.

McRae Bros. tender of \$340.50 for printing and stationery for the tax collector's office was accepted by the city council last night on recommendation of the finance committee.

Accounts up to August 7 totaling \$18,582.11 and including the public works payroll for the month of July were passed for payment at the meeting of the city council last night.

Elks' Annual Flag Day, Thursday, August 13, Kiddies Flag Parade from Elks' Home, Third Ave. to Acropolis Hill at 2 p.m. Ball game, Elks vs. Gyro 3.30 p.m. Children's Masquerade Elks' Home 8 p.m. Flag Dance 9.30 p.m.

We have just been notified of a reduction in price from the mine and are pleased to offer our famous Edison Coal, lump sacked, delivered \$14.00, Egg \$13.00 for August delivery only. Now is the time to get your winter supply. Prince Rupert, Feed Co. Phone 58. 188

Three directors of the Marmot Metals Ltd., the company operating on the Marmot River near Stewart, passed through Prince Rupert yesterday on the way to the mine. They were Dr. McKechnie of Vancouver and B. Heisterman and W. G. Warren of Victoria. They will spend a few days looking over the Marmot Metals and also the Porter Idaho and Dunwell and possibly the Premier.

Ella Sigmund, little daughter of Mr. and Mrs. J. Sigmund, Graham Avenue, is a patient in the Prince Rupert General Hospital suffering from painful injuries sustained when she fell on a rock pile at the week-end near her home. Cords of her ankle were severed and, while she is making as good progress as could be expected, it will be a long time before she will be able to walk again.

Kiddies Flan Day Parade from Elks' Home, Thursday, 2 p.m.

Among the passengers making the round trip on the Prince Charles are Mr. and Mrs. T. Mutch of Victoria.

Mrs. George Rorie and her daughter, Miss Nancy Rorie, are sailing tonight by the Cardena for Vancouver on a vacation trip.

Mrs. Gerheitz and Mrs. Ripstein, who have been visiting in the city with their parents, Mr. and Mrs. William Goldbloom, returned last night on the Prince Rupert to Vancouver with their families.

Mrs. Alf. Christiansen and Mrs. Fred Seadden returned to the city last night after having spent an enjoyable few days at Mrs. Seadden's summer home near the Salt Lake, where they were joined on Sunday by Mrs. Alex Strachan.

Union steamer Cardena, Capt. C. B. Smith, arrived at 2.20 this afternoon from Anyox, Alice Arm and Stewart and will sail at 5 for Vancouver and waypoints. Included among the passengers leaving here for Vancouver on the vessel will be Mr. and Mrs. W. E. Collison and daughters, Mrs. F. Slater and son, Mr. and Mrs. T. Bashaw, Mr. and Mrs. G. Elkins, Mrs. George Rorie, Miss Nancy Rorie, Miss May Martin and Miss Abbey.

Several Good Mines in Bitter Creek Section of Stewart, B.C. Mining District Says Report

(By G. A. Clothier, Resident Engineer) The Ruby Silver group is comprised of the six mineral claims—Ruby, Ruby No. 1, Stirling, Pershing, Pershing No. 1, and Star—owned by A. W. P. LeSueur, The Ruby Silver Extension group is comprised of four mineral claims—Ruby No. 2, Ruby No. 3, Ruby No. 4, and Ruby No. 5—owned by A. W. P. LeSueur and associates.

The general rock formation is argillite of the Bitter Creek formation. The showing is a quartz calcite vein, about 5 feet wide on the surface, mineralized with pyrite in spots. No ruby silver was seen as the name implies, it strikes S. 70 degrees E. into the hill and dips 68 degrees S.W.

At 24 feet in from the collar of the tunnel a short crosscut of 5 feet was driven to the right; another at 51 feet from the collar, 12 feet long, shows about 2 feet of mixed vein-matter; a third, at 54 feet back from the face, 15 feet long, shows only a seam of a vein on the dyke, the balance being across the dyke.

The Ruby Silver Mines, Limited, was incorporated this year, with a capitalization of 350,000 shares at \$1 per share par value. The Rufus group is composed of seven mineral claims—Rufus, Rufus No. 1 to 6, inclusive—situated on the north side of Bear river, about 4 miles up from the end of the wagon road.

The property was briefly reported on in 1922, since when nothing of importance has been done until this year. Two good log buildings were built, one just above the Bear River and the other on the upper claims. An assaying outfit was installed at the lower camp. The season's work consisted of surface prospecting, assaying, and the plotting of the geological features, under the supervision of Mr. Whitworth.

The Terminus group is composed of the following mineral claims: Glenora, Edith M., Oneida, Evans, Ayrshire and Cobalt Fraction. These claims are Crown granted and situated on the east side of American creek, about 5 miles from the end of the wagon-road and railway at the Red Cliff, at a general elevation of about 3,400 feet.

A crosscut tunnel was then started, which it was estimated with a drivage of 286 feet, would encounter the vein and obtain a depth of 100 feet on it. At the end of the year the tunnel had been advanced to about 270 feet. Later information is that the vein had been encountered, though, (at the time of writing) not entirely crossed, showing in the footwall streaks of sulphides in the vein matter, consisting of galena, zinc-blende, and grey copper, carrying high silver values, the vein matter itself carrying good milling values.

Should the development warranted, and there seems small doubt of it now, recommendations will be made to the Mines Department for assistance in building a pack-trail over a suitable route to the main wagon road.

Chi-Namel COLOR VARNISHES. PRODUCE a beautiful, self-leveling, transparent color & gloss finish in one operation. Is the IDEAL FINISH for furniture or woodwork whether new or old, hard or soft wood.

BIG PICTURE COMING HERE

Westholme Theatre to Show "The Ten Commandments" at End of Next Week

The management of the Westholme Theatre has obtained one of the greatest moving pictures ever produced, namely "The Ten Commandments," for its patrons and the big feature will be shown for three days at the end of next week, August 20, 21 and 22.

The Ten Commandments is not a preachment. It is a simple story with more than one thing to think about. Not only does it say that when you persist in ignoring the plain rules for right living you bring your own hell on yourself as a natural result, but it also says, through the mistakenly narrow character of the little Scotch-American Mother, that you can drive your children away from the God you want them to love, by "using the Cross as a whip."

Does Your Grocer Use Scales?

HE DOES!—Because you expect him to weigh your orders of bulk goods. If he didn't you would assuredly change your grocer.

The same thing is true with circulation. During the last few years Advertisers have not been satisfied to suppose they were getting a certain circulation for their money; they don't want to be merely told, they want to know.

They want the circulation measured by a standardized and unquestionable measurement.

The Audit Bureau of Circulations is the recognized authority for proving circulation. It is maintained as a co-operative organization by the advertisers, advertising agencies and publishers who realize the necessity for businesslike methods in advertising.

A.B.C. reports place in the hands of advertisers, essential facts that have been secured and verified by a searching examination of the publisher's records

You don't need to buy Space by Guess!

You can get the full circulation facts on the Prince Rupert Daily News by referring to the last A.B.C. report which will be gladly furnished by request.
