DISTRICTS TO DECIDE END OF STRIKE

CAPT. HANSON ACQUITTED OF CHARGE IN ASSIZE COURT

Miners Refer Strike Settlement Back to the Various Districts

LONDON, Nov. 13.—Delegates representing the striking miners at a conference today voted to refer the government settlement proposals to the various districts with a recommendation that they be accepted.

The opinion expressed in government circles was that it is possible the miners will reject the recommendations and therefore the strike will swiftly end.

Many of the delegates were dissatisfied with the terms which called for increased hours of work beyond the statutory seven hours a day and the contingent question of district settlements for both hours and wages. The card vote of delegates was 422,000 favoring and 352,000 against.

WASTE OF FORTY DOLLARS FOR EVERY MAN, WOMAN AND CHILD IN PROVINCE

VANCOUVER, Nov. 13.—With a bill of more than \$21,000,000 of legal liquor sold, the average expenditure for every man, woman and child in British Columbia on alcoholic beverages is \$40 a year, according to a report made by J. McIntyre, president of the Provincial Prohibition Association read here yesterday.

Although no recommendations were made in the morning session, Mr. McIntyre pointed out that the convention will reaffirm its conviction that the liquor Act is a failure and it will be for the convention to say when they should amend a vote for its repeal. "Our aim is to get short of total prohibition of manufacture, importation and sale of intoxicating liquor for beverage purposes in Canada," he concluded.

POLITICAL PARTY
In the day it was decided to form a Canadian political party having as its object a bone dry Dominion. A resolution was passed denouncing government control of liquor as experienced in British Columbia and calling on Eastern Canada to adhere to prohibition as the only safe course.

SENTENCED TO FOUR YEARS

FOON WILL BE IMPRISONED IN PENITENTIARY FOR ASSAULTING COUNTRYMAN, CHEN BOW HUNG

Chen Foon, the Chinaman convicted at Assizes of assaulting a countryman, Chen Bow Hung, at Captain's Cove with intent to cause grievous bodily harm, was sentenced this morning by Mr. Justice D. A. McDonald to four years in the Westminister penitentiary. Accused was asked through the interpreter, Chiu Quong, if he had anything to say in mitigation of sentence should not be passed on him and his answer was negative. About comment, His Lordship then sentenced and Lee Foon was taken to the lock-up where he will await transportation south early next week.

WOMAN WHO WAS BURNED IS DEAD

As a result of burns and shock when her house at 632 Ninth Avenue West was destroyed by fire last Sunday morning as she was sleeping, Mrs. Alberta Daniel, colored piano tuner, died about 6 o'clock this morning in the Prince Rupert General Hospital. Deceased was 43 years of age and resided in Prince Rupert for three years.

Princess of Wales, who is a "fight" because that lessons derived from her are an aid in everyday life.

Lessons on automobiles in France are based upon the number of horsepower developed by the motor.

PUT POISON IN THE FOOD

LAD OF SEVENTEEN FROM BURNS LAKE TRIED TO KILL SELF AND TWO MEN

Signey Wicks, a young lad of 17, was charged of attempting suicide and the life of two other men by placing poison in a dish of jelly intended for supper, says the Interior News. The bitter taste to the jelly aroused some suspicions that saved the life of the intended victims of the poison plot.

Wicks has been living on the farm of Alex. Jenkins at Colleycunt, as also was Joe Corbett, and particulars of the wholesale poison attempt are disclosed in a confession signed by the accused boy and in which he states that lack of money and clothes compelled him to end his life.

On the morning of November 4 he was feeling particularly despondent and in the evening he poured some strychnine into a dish of jelly with the admitted intention of poisoning the other two men. This carried out he took two pieces of roast beef and then walked about three miles into the bush, where he poured the poison on one piece and gave it to the dog and then ate the other piece of poisoned meat himself.

He then started to walk back toward the house, but had gone only about a mile when he was overcome with agony and fell down beside a small stream, where the dog died. All through the night he rolled in great agony but in the morning the pain eased up and he returned to the house, where he was surprised to see his two intended victims cutting down trees. The boy was questioned about the jelly, which the men had fortunately not consumed, and the boy admitted having poisoned it.

On Monday he was given a preliminary hearing before Magistrate J. D. Moore and remanded for trial with custody at Smithers.

Word was received this morning by the police here that Wicks had been found insane and committed to Essendale Hospital.

OVER TWENTY MILLION FEET LUMBER SCALED

THIS BRINGS OUTPUT FOR YEAR TO END OF OCTOBER UP TO 110,815,361

During the month of October there was scaled in this district by officials of the forestry department 29,832,258 board feet of logs in addition to 213,165 lineal feet of poles and some piles and ties. This brings the grand total scalings of logs for the year to the end of October to 110,815,361 board feet. Details of the scaling for November follows:

Douglas Fir	1,059,181
Red Cedar	2,527,879
Coast Spruce	8,237,703
Interior Spruce	447,320
Hemlock	5,728,737
Balsam	2,302,383
Jackpine	19,377
Cottonwood	9,698
Poles, lineal feet	213,165
Hemlock Piles, lineal feet	1,041
Cedar Piles, lineal feet	44,510
Cordwood, cords	197
Shingle Bolts, cords	12
Railway Ties	2,696
Fence Posts, cords	24
Pulpwood, cords	277

BANDITS TOOK BANK MONEY

GOT AWAY WITH \$40,000 CASH AND \$100,000 IN SECURITIES

LAPORTE, Ind., Nov. 13.—The Peoples Trust and Savings Bank was held up and robbed by five armed bandits this morning, who escaped with \$40,000 cash and \$100,000 in securities. A dozen persons, including the staff of the bank, were forced to lie on the floor while the robbers worked.

MRS. VINCENT ASTOR, made special envoy for Mayor Walker to Queen Marie of Rumania during Her Majesty's visit to New York

Captain Hanson Acquitted on Charge of Stealing \$4,000 is Today a Free Man Once More

Hegbert Arthur Hanson, charged with the theft on July 23 of \$4,000, being the property of the Canadian Fish & Cold Storage Co. Ltd., was acquitted by the jury this morning at the session of the Supreme Court Assizes before Mr. Justice D. A. McDonald. The jury retired at 5.45 last evening to consider its verdict and returned to the court room at 9.20 stating that it had been unable to reach a verdict. His Lordship asked the jury to make another effort to agree and adjourned the court until ten o'clock this morning, ordering the sheriff to take charge of them for the night. This morning, when court reassembled, M. M. McLachlan, foreman, announced that agreement had been reached on a verdict of not guilty. The accused was immediately released and, at the request of Milton Gonzales, counsel for the crown, His Lordship ordered the exhibits in the case returned to their owners.

ATTEENNOON SESSION
Continuing his evidence at the afternoon session yesterday, H. A. Hanson, the accused, stated there were at least three means of approaching the wharf through the Cold Storage plant as well as from the water. The height of the Chief Zibassa and the dredge alongside of which it was lying were compared and Hanson declared that a person standing on the dredge could have seen into his stateroom. He knew this because he had tried it to satisfy himself. The engineers and hundreds of fishermen knew that he kept money in his stateroom, asserted Capt. Hanson.

On the afternoon of the robbery after the police had arrived at the Cold Storage plant to start their investigations there was a telephone conversation between Sergeant Hannah and Mrs. Hanson first and then between Hanson and his wife. When the officer questioned her she stated that Capt. Hanson had left the house at 7.30 that morning and, when he had returned again, asked what was meant by the question. It appeared that Mrs. Hanson then became suspicious and wondered what had happened to her husband. She resolved that she would answer no further questions of strangers and even when her husband telephoned a few minutes later and asked the same questions, she was hesitant. Finally Mrs. Hanson had stated that her husband had come home between 8 and 9 on the morning in question to get \$5 which he had found he was short (continued on page four)

Dr. J. D. McLean, Minister of Finance, Urges Appointments be of Only Men Who Can Do Work

VANCOUVER, November 13.—In an address at the meeting of the Vancouver City Liberal Association here last night, Hon. J. D. McLean, minister of finance and provincial secretary, touched on the question of party patronage and stated that the qualification of a person for office must first be his ability to do the work. He did not believe in making positions for anyone.

The minister said it did not follow that all appointed should be Liberals for it was possible for a party to degenerate by becoming a machine. This was one of the greatest causes contributing to the defeat of the Bowser government. "I believe the best government and best administration is secured when surrounded by those sympathetic to its aim and objects," he said.

Dr. McLean urged immediate organization work in preparation for the next provincial election but no statement was made by any speaker as to when the election might be expected.

A resolution urging the appointment of a Liberal organizer and greater efforts to interest women voters in the cause of Liberalism were passed.

Geo. Murray was appointed president.

AN ADDITION TO ROUND HOUSE IS ABOUT TO BE MADE
As a result of the increased traffic resulting from the operation of the grain elevator, an addition is to be made to the roundhouse here in order to accommodate two more engines. The building will be 170 feet long by 20 feet wide and will be on the water side of the present building. This will make room for an increased staff.

MOVIE STORY KIDNAPPING

LOS ANGELES, Nov. 13.—The Times says negotiations have been attempted with Aimee McPherson to produce her story of her kidnapping and escape. Her attorney has advised her not to consider the offer.

ALLAN CHISHOLM DIED LAST NIGHT

Allan Chisholm, watchman at the Government Wharf, who has been seriously ill for some time, passed away about midnight last night at his home, 511 Green Street. Deceased, who was 64 years of age, was a native of Scotland and had been 46 years in British Columbia and eight years in Prince Rupert. He is survived by a widow.

JAMES WILSON WAS KILLED IN ACCIDENT

VANCOUVER, Nov. 13.—James Wilson, an old time superintendent of the Canadian Pacific Telegraphs of Vancouver who retired in 1910, was killed at Long Beach, California, yesterday in an auto accident.

CRANBROOK TO VOTE BEER PARLORS DEC. 4

VICTORIA, Nov. 13.—The voters of Cranbrook will have an opportunity to secure licensed beer parlors if they vote to do so at a plebiscite to be held there on December 4, it was announced today.

PIRATES TOOK BULLION FROM FRENCH VESSEL

HONG KONG, Nov. 13.—Twenty-six pirates boarded the French steamer Hanoi at Kwang Chou Wan south of here. They killed the guard, ransacked the steamer, robbed the passengers and then abandoned the ship taking \$50,000 worth of bullion and \$20,000 in loot from the passengers and large quantities of guns, ammunition and bullion shipped from the Maritime customs at Pak-oi to the Hong Kong bank.

WALLACE GETS KAIKYU MARU

JAPANESE VESSEL TO BE REPAIRED AT VANCOUVER AT COST OF ABOUT \$300,000

VANCOUVER, Nov. 13.—Competing against the leading shipbuilding firms of the Pacific Coast, the Burrard Drydock Company Limited (Wallace's) was today awarded the contract for repairing the Kaikyuu Maru, which was wrecked in Johnstone Strait on August 27. It is understood the bid was approximately \$300,000.

The work on the ship is expected to take four months and will commence immediately. Before the ship is dry-docked it will be necessary to remove two engines and several boilers. The rocks of Helmecken Island tore the bottom from stem to stern and the bulk of the repairs are beneath the engine room.

WHEAT CLEARS AT VANCOUVER

VANCOUVER, Nov. 13.—Wheat loadings for the past week have increased the following being the vessels clearing up to Thursday night since the same time the previous week.

Panama for Hull 37,333 bushels; for Odessa 54,333 bushels.
London Importer for Manchester 28,000 bushels.
Brazil Maru to Hampton Roads for orders 274,500 bushels.
Osiris for Antwerp 84,000 bushels.
Canadian Skirmisher for Liverpool 43,000 bushels.
Kinisan Maru for Kobe 63,400 bushels; for Yokohama 179,867 bushels.
Arabia Maru for Osaka 17,500; for Moji 37,333 bushels; for Yokohama 10,820 bushels.
Vinemoor for Wellington 20,906 bushels.

FREAK MOTOR TRIPS MADE

SEVEN THOUSAND DOLLAR MACHINE USED ON ROAD 200 FEET LONG

DULUTH, Nov. 13.—Alaska claims the world's most ardent automobilist, says George E. Lewis, Alaska author and lecturer, who is visiting here. A motorist has a \$7,000 auto which he drives back and forth over his own private road 200 feet long. Alaska's 1,700 miles of highway are not available to him in his visiting home.

CHANGING SYSTEM OF PUBLIC SCHOOLS.

On the recommendation of an expensive commission, the British Columbia school authorities are planning changes in the public school system with the object of better adapting the education of the young people to the life on which they are to embark after they leave school. But after all the system awaits little. It is the spirit of the authorities and the teachers that counts most.

Some time ago a move in the direction of preventing the break between what are known as the public schools and the high schools by grading regularly from the day the child is admitted to the public school to the day it leaves the high school. All are part of the public school system and there is no natural break. It is purely artificial, created largely by the change in name of the school and the separate organization with somewhat different methods of instruction. The first group of grades are known commonly as public school grades and the higher grades are high school grades. Possibly the best way to get rid of the gap would be to have all in one school under one supervising principal and with no more difficulty in passing from Grade 8 to Grade 9 than there would be in passing from Grade 2 to Grade 3.

However, the powers have decreed that the method to be carried out is to have a middle school, which it is to be supposed includes the appointment of another principal and the institution of another set of official examinations. Unite all the schools and you get rid of the official examinations and the fiction that there is something different about a high school from a public school.

Froebel's idea was that the kindergarten methods should be carried through all the grades from the primary to the university graduation and many educationists are of the same opinion but it is difficult to overcome official prejudice.

READY TO CONGRATULATE PRINCE GEORGE PEOPLE.

We are getting ready to congratulate Prince George people on their good fortune in securing a pulp and paper mill, something for which they have been waiting a long time. They rejoiced with us over the establishment of our elevator and we shall be glad to reciprocate. Just as they benefit from the elevator here, so we shall benefit from their big mill. If developments continue as at present we shall soon be asking for two trains daily instead of just a daily train service on this line.

DEVELOPMENTS ARE COMING FAST.

A fine new tourist hotel has been planned for this city and is likely to be built. Plans are being prepared for the new sawmill at Seal Cove. The elevator is in operation and just now is full of wheat. There is a new stevedoring company incorporated at this port this week. A big syndicate expects to build a thirty million dollar paper mill near Prince George; mining is on the up-grade with the exception of silver which is depressed a little just now owing to the slump in price of the metal. Everything points to progress in Prince Rupert and neighborhood. The port is making good and the neighborhood is developing. As Sir Henry Thornton said, "the crevices are filling up."

Crisp, flavory shreds of SHREDDED WHEAT. Pour hot milk over it. A warm, nourishing meal.

PRESBYTERIAN CHOIR FESTIVAL

BY SPECIAL REQUEST, THE MUSICAL FESTIVAL GIVEN BY THE SENIOR AND JUNIOR CHOIRS LAST SUNDAY TO BE REPEATED TOMORROW

The senior and junior choirs of the Presbyterian Church will, by special request, repeat tomorrow their Musical Festival which was so much enjoyed last Sunday by the congregation. But tomorrow it will be given at the evening service only, with the choir of fifty-seven voices, accompanied by an orchestra.

There will be but few changes in the program and those who missed this event last Sunday can look forward to something very fine tomorrow evening. There will be a special collection for church funds.

In The Letter Box

QUEEN MARIE'S IDEA OF GOD.

Editor, Daily News:

Some one asked Queen Marie of Roumania to tell her idea of God. The Queen writes:

"How dare I approach the tremendous subject of God! The name of God is the same as good. God is the unchangeable ever flowing fountain of good. The essence of all good."

God created all things. Out of him, flow all things. Nothing can exist without God. God is the source of the beginning and the end. We would not be there were no God. In fact, we are part of God as are the stars, the sea, the mountains, the trees, the beasts, the stones of the field. All come from and return to God to that which always was and always will be.

If we deny God we deny ourselves, our birthright, our right to eternal life. God made all things, molding one from another and developing one from the other through aeons and when at last he made man he said "It is good" and blew his spirit into man, considering him the perfection of creation so excellent that he found him to be worthy to be the bearer of his own spirit.

Thus each of us has a spark of God within us. It belongs to God. It is God. Has but one craving to return to God. This life is given us so that we may gradually overcome what is of the flesh and return to God to that from whence all is sprung. Yet God, for all that we turn from him lives in us always. He does not give us up. He is part of us and we are part of him. Our conscience is his voice that lives within us eternally telling us if we are doing right or wrong.

Just understand this one stupendous verity, that we are part of God and God is part of us and all becomes simple and clear for evermore. J. L. B.

FINANCING CIVIC UNDERTAKINGS

Editor Daily News:

Referring to your editorial of Nov. 3 I consider it my duty to the citizens and in fairness to my predecessors and the departments involved, to place before you the financial position of "Utilities."

Your statements were misleading, not only to residents of Prince Rupert, but to outside firms who are financially interested. The insinuation that we have something to hush up, and the term "frenzied finance," I consider detrimental to the City's interest in general and the Utilities mentioned in particular.

The following is taken from the certified Financial Report for the year ending Dec. 1, 1925, page 7: Revenue Accounts of City Utilities: Electric Light Dept. surplus \$10,988.71. Telephone Dept. Surplus... 5,781.17. Total... 16,769.88. Deduct deficit on Water Department... 6,982.17.

Net surplus on operation of Utilities... 9,787.71. i. e. the utilities show a surplus of about \$10,000 dollars.

Turn to the Operating statements on pages 16, 17, and 19, investigate these statements and we shall find out if utilities are operating at a profit or loss, if the plants, machinery and equipment are being maintained, and if provision is being made for interest and redemption charges.

LIGHT AND TELEPHONE. perusal of the pages referred to will prove that every item has received proper consideration and attention. Maintenance work has been carried out, thus eliminating the possibility of impoverishing the plants for the benefit of surplus. Interest and redemption charges have been paid. Some of the utilities are returning to general revenue, monies borrowed for extensions, and, in the case of the light department paying a tax of 3% on gross earnings—which amounted to approximately three thousand dollars in 1925. The above remarks apply particularly to the light and telephone departments.

Turning to the water department it likewise appears that maintenance, interest and redemption charges have been taken into consideration. This statement, however, shows a deficit of \$7,000.00 on operation. Keeping in mind that we have a trunk water system capable of supplying a population of some 40,000, or about 6 times our present population, the reason for this deficit may be explained.

SHORT BY \$4,000

On looking over this statement we find that our revenue alone during 1925 fell short of covering the interest and redemption charges by some \$4,000. This deficit might be eliminated by any of the following methods: absorbing the surplus of the other utilities, or raising the rates, or raising the tax levy. The latter method has been adopted in the past. When one takes into consideration the reasons for adopting this method, no exception can or should be taken. A proportion of the fixed charges might be allotted to taxes and paid by property owners as our water system was originally prepared with the idea of having at all times adequate fire protection. From this point of view, it would be unfair and detrimental to the City's interest either to raise the rates of the water department, or to place the rates of the light and telephone departments on a higher level and create a surplus to compensate the water department for what might really be termed a book deficit.

CITY INDEBTEDNESS

On page 10 is shown a "Statement of the Authorized Indebtedness of the City." The following should refute the statement in the first paragraph of your editorial under the above heading, and also after having received the explanations of "Ex-Alderman" and "Ex-Mayor McClymont" re the serial bond system of financing adopted by the City:

Table with columns for Department, Amount authorized, and Balance unpaid. Includes Water Dept., Light Dept., and Phone Dept.

The items "balance unpaid" include recent flotations for extensions and betterments of the systems. In the case of the light and phone two issues will be returned during 1926 and were originally \$65,000.00 and \$40,000.00 respectively.

The remarks in your editorial discredit not only the present members of the Council and officials of the City, but also the many able citizens who have given of their time and service in the past and who include, not only many successful business men in the city, but also men who have held, and now hold high positions in the Provincial and Dominion governments.

Thanking you for your space, I remain, Your truly, W. M. BROWN, Alderman, Chairman of Utilities Committee.

TERRACE

About forty returned men gathered in G.W.V.A. hall on Thursday evening, Armistice Day anniversary, the celebration taking the form of a smoker. An informal program of musical selections, was reminiscences, etc., was carried through and a very enjoyable social evening spent. The dance which followed was pronounced one of the most enjoyable of the season.

W. Lang Muir of the Forestry Dept., Prince George was in town on Thursday conducting examinations for licensed scalers. Jas. Smith, Ivan Frank, R. Haney, and W. Ungerer, of Terrace, and W. H. Watt and W. Beckett-Thompson, of Amesbury took the examinations.

J. J. Dore, Superintendent of Dominion Govt. Telegraphs, paid the local office an official visit on Thursday.

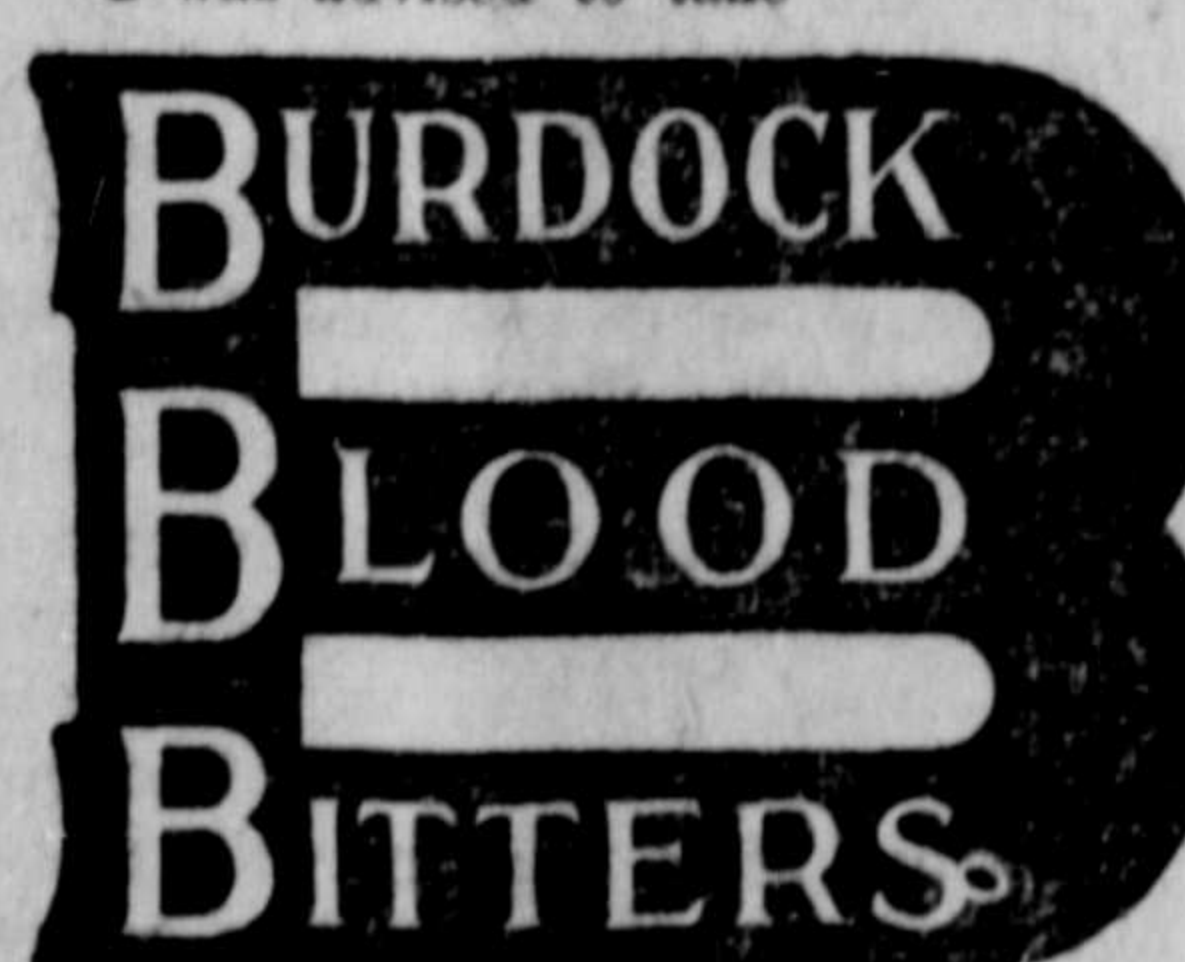

Mrs. J. M. Hoar, who has spent the past few months in the Kalam Lake Mining district, where Mr. Hoar is manager of the Hopper Davis Mining Co., left on Thursday for her home in Seattle. She was accompanied to Terrace by her husband.

A number of the members of the Lakelse Hatchery staff were in town for the Canadian Legion smoker and dance on Thursday evening.

Mrs. W. H. Burnett was a bridge hostess on Wednesday evening when

Was Nearly Crazy With Boils All Over His Body

Mr. S. L. Burke, Barronsfield, N.S., writes:—"For some time I was nearly crazy with boils all over my body. I tried everything I could think of to get rid of them, but to no avail, for as soon as one was healed up another would appear to take its place. I was advised to take

and after I had used two bottles the boils had all disappeared and I have not been troubled with them since." Put up only by The T. Milburn Co., Limited, Toronto, Ont.

The Sparkling Eye of Health and Beauty

Miss M. Becker, 113 David St., Kitchener, Ont., writes:—"My system became generally run down. I was nervous, tired, and subject to headaches. I did not sleep well, had neuralgic pains through my body and backache. My appetite was poor, as was also my circulation, for my hands and feet were always cold. I suffered considerably from palpitation of the heart, and although I tried nearly every remedy I heard of, it was without success. At last I read of Dr. Chase's Nerve Food, tried one box of this, and noticed I was feeling better. So I kept on using them until I had taken nine boxes. By that time I felt like a new person, could sleep and eat well, and was relieved of all my old symptoms."

STYLES of beauty may change. But whether straight lines or curves prevail there must be good vitality to give grace and elasticity of movement and the vivacity which makes beauty most appealing.

This is the day of the healthy, athletic girl. If you are lacking in strength and energy and vitality you can turn to Dr. Chase's Nerve Food with the strongest assurance that it will give you exactly what you most require.

In a way Dr. Chase's Nerve Food is more like a food than a medicine. It forms new rich blood, builds up nervous energy and thereby instils vitality into every organ and member of the human body.

It is a beautifier in the truest sense because it restores the bloom of health to the faded cheek—best proof that the blood is rich and red.

Tired feelings, headaches, irritability, sleeplessness and all the accompaniments of nervous exhaustion disappear when this great restorative treatment is used.

Dr. Chase's Nerve Food

60 cts. a box, all dealers or

The Dr. A. W. Chase Medicine Co., Limited, Toronto 2, Can.

four tables were played. Mrs. D. D. Munroe and Mrs. E. T. Kenney were prize winners.

Chas. Raven of the Lakelse Hatchery staff made a business trip to Prince Rupert during the week.

R. M. Cory left on Thursday for Lakelse Hatchery where he will assist in the planting of the newly arrived shipment of salmon eggs.

Mrs. A. C. Head entertained the W. A. of the Anglican Church on Thursday afternoon.

The United Church Guild met at the home of Mrs. Wm. Kirkpatrick on Wednesday.

THE MAN IN THE MOON

Love is the quality that makes two people wink at each other's failings and appreciate their virtues.

If you explain your mistakes you probably are a failure.

If you talk about your ailments, depend upon it your friends think you a bore.

If we spent as much time figuring out how to succeed as we do in worrying over our failures, our lives would be a grand success.

I sometimes wonder why I succeeded, considering that neither of my parents or teachers ever read anything on child psychology.

When the Government does something wrong, we are to blame because we are the people who elect them.

Another week is gone and past—Alas the time is flying fast, And Christmas will be here again Bringing presents in its train.

WATER NOTICE

DIVERSION AND USE.

TAKE NOTICE that Gosse Packing Company, Limited, whose address is Vancouver, B.C., will apply for a licence to take and use 100,000 gallons per day of water out of Unnamed stream, which flows northwesterly and drains into Captain's Cove at head of Captain's Cove. The water will be diverted from the stream at a point about 700 feet from mouth and will be used for commercial and domestic purposes upon the land described as Lot 1253, Range 4, Coast District. This notice was posted on the ground on the 4th day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 10, 1926.

PURE BEER

The Friendly Beverage

Pure beer adds to your well being and your enjoyment of life. Order it by the case from any Government Store—have it always on hand for your table and for the entertainment of your guests. British Columbia beers are healthful and invigorating.

BEERS, such as are made by the Amalgamated Breweries of British Columbia and distributed to the people by the bottle at the Government stores and by the glass in Licensed Premises, contain only enough alcohol—4½ per cent.—to stimulate the digestion, while their content of vitamins and valuable vegetable extracts and mineral salts are of the highest worth in fortifying against the dangers of low vitality and illness. Drink pure beer in the Winter months, when heavy foods and too much "indoors" lower vitality.

Dr. J. Hay, local dentist, will sail tomorrow night on the Prince Rupert for Vancouver and Victoria on a holiday trip.

Hugh McGuire, well known Stewart mining man, is a passenger on the Prince Rupert today bound north from Vancouver.

D. M. Menzies of the local Bank of Commerce staff will sail tomorrow night on the Prince Rupert for Vancouver on a holiday trip.

Joseph Rogers, sales manager of the Rupert Marine Products Ltd., will sail tomorrow night for Vancouver en route to the prairies on a business trip.

Dr. E. S. Tait, formerly of this city, who has been enjoying an extended hunting trip to Porcher Island, will sail tomorrow night on the Prince Rupert for Victoria.

Mrs. Charles E. Starr will sail tomorrow night for Seattle where she will spend the winter. Mr. Starr, who is manager of the Pacific Fisheries here, will go south shortly.

A. S. Paul, who has been organizing a syndicate to build a new hotel here, says Alex. McDermott, president of his company, has nothing to do with the scheme as reported.

J. P. McDermott, who has been U.S. vice-consul here for the past year assisting the consul, E. A. Wakefield, has resigned his position and will sail tomorrow night for Vancouver en route to his home in Salem, Massachusetts. A successor to Mr. McDermott is expected here shortly.

R. C. Hyde, a pioneer resident of the city and heavy property holder here among the buildings which he owns being the Royal Bank, arrived in the city this morning from Hanson, Idaho, and will be here for a few days looking after his interests. He is accompanied by his daughter, Miss Jeanne Hyde.

Decree absolute was granted by Mr. Justice D. A. McDonald this morning in the divorce case of Thomas Hetton vs. Mary Hetton in which H. Frank was cited as co-respondent. L. W. Paolacci appeared for the petitioner. After the granting of this divorce, the court adjourned until a week from Monday when the Sankey murder trial will be proceeded with.

GRANBY STOCK IS ADVANCING

ANTICIPATED DIVIDENDS AND FUTURE PROSPECTS HAVE BEEN RESPONSIBLE FOR CHANGE

NEW YORK, Nov. 13.—Granby stock is steadily advancing and it is claimed here that the advance is justified by anticipated dividends and by the present status of the company which has recovered from the result of earlier loose management. While the company will earn between six and seven dollars a share this year it is expected the dividend paid will not exceed four dollars a share.

The past three months operations of the company have been the best since the war.

At its Bonanza mine, where development work of Granby Consolidated has been concentrated during the last few months, operations have stopped for the time being. More than 20 drill holes were made and the ores have run from 5 to 12 per cent copper. From geological data in hand it is estimated by the management the average grade will run three per cent copper.

Mining this new ore will be easy and will be conducive to low costs, as it can be worked from a tunnel with lateral openings on both sides in ore, but it is not the plan at present to mine in the Bonanza property.

THROUGH SLEEPING CARS TO SHIP'S SIDE

The Canadian National Railways have made arrangements to operate tourists' and standard sleeping cars through from the Pacific Coast to the ship's side at Montreal and Halifax in connection with Old Country sailings during November and December.

For full information regarding rates, reservations, passports, etc., call at City Ticket Office, Canadian National Railways, 528 Third Avenue. Phone 260.

PASSENGER KILLED AVIATOR ESCAPED

VAN NUYS, Cal., Nov. 13.—Donald Rossiter, 21 years of age, a Los Angeles passenger aboard the air mail plane, was killed this morning when the machine fell 3,800 feet. The aviator by using a parachute, escaped unharmed.

SOLVING THE MYSTERY

Recently the widow of a farmer, striving to keep the farm going, had some difficulty with her hens, and wrote the following letter to the Department of Agriculture:

"Something is wrong with my chickens. Every morning when I come out I find two or three lying on the ground cold and stiff with their feet in the air. Can you tell me what is the matter?" After a little while she received the following letter from the department: "Dear Madam: Your chickens are dead."—Christian Evangelist.

SHILOH FOR COUGHS

CAPTAIN HANSON ACQUITTED ON CHARGE OF STEALING \$4,000 IS TODAY A FREE MAN ONCE MORE.

(continued from page one)

the company. CROSS EXAMINATION Capt. Hanson was given a thorough cross-examination by Mr. Gonzales and some of the questions asked him he was either unwilling or unable to answer. Accused would not say anything in reply to the suggestion that some of his crew might have taken the money. The conversation with Mr. Nichols in which he had voiced his suspicion of Moorehouse he said had been a confidential one. His Lordship pointed out that nothing was confidential in court. Hanson also said that he had an income which averaged \$250 per month from selling papers, magazines, drugs, stationery, etc., in addition to his wages from the Cold Storage.

Accused remembered distinctly leaving on his first trip on April 21. He had cashed checks at Queen Charlotte City and Skidegate and, at all times, had a check on his cash. Supplies had also been bought and the expense for these as well as the cashing of checks he declared accounted for the fact that his cash appeared to be \$565 short. Asked to explain why he had not paid his grocery bills for January, February and March until April 20 when he paid \$100 to one grocer, \$32 to another and purchased \$30 worth of liquor, accused said he had been saving up to start a chicken ranch but he was unable to obtain the chickens so, before leaving on the first trip of the season, he paid off his debts with \$350 which had been saved. The suggestion that payment had been made out of the \$4,000 given him by the Cold Storage was branded by Hanson as a "perfect lie."

As for the buying of liquor to take out to the fishermen, Hanson said the company had issued instructions against this practice but it had never been realized that it constituted bootlegging. On the first trip out, they had taken out liquor to give to the fishermen at a party which was to be held at Skidegate.

NOT A LOAN

Questioned as to his borrowing on June 11 of \$500 from Moorehouse, Hanson said that he had not borrowed the money but, being left in charge of the ship's stores while Moorehouse was busy with the engine following a breakdown, had taken \$500 from the storekeeper's cash box to place in safe keeping.

Hanson then recounted the events on the night of July 22 when he had counted his money with a view to returning it to the Cold Storage. This was at his home and his wife expressed anxiety at his keeping so much money in the house and asked that he find another place to keep it than in the trunk where he had been accustomed to placing it. He had therefore, thrown it under the sofa in the front room.

Hanson refuted the statement of Berney, the fireman, that he had a package under his coat when he went from the plant to his home on the morning of July 23. He had known Berney for about a year and he did not know why he should testify as he had.

Hanson also gave explanations as to why he had not taken the money up to the office on the morning of July 23, he had been busy loading oil from the Zibassa to the Fredella, later having had no breakfast he had coffee in the galley and at noon he had not taken it up believing that Darton would be at lunch. By two o'clock, the time he was sure Darton would be back, the discovery of the loss had been made.

Various other happenings of the day were described with some detail before Hanson left the stand where he had been for two and three-quarter hours.

MRS. HANSON'S EVIDENCE

Mrs. Hanson gave evidence corroborative of her husband's with respect to the family's financial affairs, Hanson's movements and telephone conversations. Her husband had handled the money of the house for three years since her serious illness when it had been impossible for her to do so.

The taking of Mrs. Hanson's evidence completed the case for the defence. In addressing the jury, Mr. Patmore asked it to get right down to the argument of facts. He discounted the suspicion said to have arisen through the delay of Capt. Hanson in making his returns. In such a delay Capt. Hanson was but following the example of the company's loose methods in connection with the fish buyers. Hanson had known of no necessity for hurry in the matter. Various transactions proved clearly that Hanson was no bookkeeper.

Mr. Patmore asked the jury to measure consistency of the evidence with the innocence or guilt of accused. If the evidence seemed consistent with innocence it was the duty of the jury to acquit, otherwise, convict. As for the evidence of the fireman, Berney, he might have meant to tell the truth but his memory might have been bad. It was quite easy to assume that Berney might have forgotten and that it was when Capt. Hanson was coming to the wharf that the bulge was seen in his coat and not, as Berney said, when he was passing through the boiler room on his way to the wharf.

PROBABILITIES

Asking the jury to consider the probability of Hanson acting as he did if he was really guilty, Mr. Patmore contended that it was unreasonable to so decide. He believed that Hanson's statement that he had gone back to the house for five dollars was correct and, if that were the case, his whole story was probably the truth. In any case, he had hardly been lost sight of that

whole day. After reporting the loss he had been cross-examined, grilled and in all ways checked up. It was just as reasonable to assume that a stranger had committed the theft and thrown the cash box overboard as it was to believe that Hanson had done. There was plenty of opportunity and many people knew where the money was kept. As for Sergeant Hannah's testimony that Hanson had said that he was holding anything back and that he was going to tell the truth, it was quite possible that, Hanson being a foreigner, his words might be misunderstood. It was not likely, Mr. Patmore submitted, that Hanson a trusted employee, holding a good position and living frugally to pay for his little home and other expenses, would stake his all on such a throw which would mean the gain of only a few thousand dollars. Circumstances, at first deemed suspicious, had been satisfactorily explained and all that remained to condemn the man was the fact that he had had charge of the money and that key to the cash box was in his possession. "I submit," concluded Mr. Patmore, "that if you measure the evidence in its consistency with innocence or guilt of the accused, you will find a verdict in his favor."

MR. GONZALES

Mr. Gonzales referred to the fact that on April 20, after he had come in possession of \$4,000 from the Cold Storage, Hanson had paid off his grocery bills and purchased liquor. It was up to the jury to decide whether Hanson had used his own or the company's money. As to Hanson's movements on July 23, Mr. Gonzales asked the jury to examine his actions and decide if they were not suspicious. The evidence of Berney, the fireman, was positive that he had seen the bulge in Hanson's coat as he passed through the boiler room on his way outside. Visser and Duncan said they had paid little attention to Hanson when he had passed him. Hanson's excuses for not turning the money in, Mr. Gonzales submitted, were not reasonable. In view of the shortages that were in various ways apparent, Mr. Gonzales suggested that it was a fair deduction

that Hanson had been spending some of the company's money and that, when packing was suddenly stopped, he was short and, realizing the seriousness of his position, went to the boat on the morning in question, took the bills out and threw overboard the cash box still containing the silver to anchor it and walked out in the manner described by Berney. The fact that the company's system might have been imperfect, Mr. Gonzales declared, was no excuse for the theft. Mr. Gonzales dismissed the possibility of the job being an outside one. It was an impossibility and absurd. Sergeant Hannah was clear enough about the remarks of accused after the box had been reported to be found and Mr. Gonzales suggested that accused was about to confess at that time but suddenly changed his mind. Concluding, Mr. Gonzales asked the jury to use its commonsense in considering its verdict.

HIS LORDSHIP'S CHARGE

The charge of Mr. Justice D. A. McDonald to the jury was most impartial. Despite the fact that His Lordship read the law and reviewed the evidence at some length, his remarks were devoid of any suggestion as to his own opinion in the matter of guilt or innocence of the accused. His Lordship asked the jury to dismiss certain irrelevant portions of evidence so as to concentrate to its decision of guilt or innocence of the accused. It was not for the court or jury to offer advice to the Cold Storage Co. with respect to the way it conducted its business even, if it did seem that a good deal of money and responsibility was placed in the hands of one man. That was, however, not an issue in the case.

The evidence, His Lordship explained, was circumstantial as was the evidence in the most of criminal cases coming before the courts. It was the duty of the jury to use its common sense in drawing inferences from such circumstantial evidence. He instructed the jury on the matter of doubt.

Going over the evidence, His Lordship suggested that the jury might dismiss as irrelevant the incident of the borrowing of \$500 by accused from Moore-

house on June 11. There seemed to be nothing out of the ordinary in that. There was no importance in the question of whether or not accused had gone back to his house on the morning in question to get \$5 other than that it might be taken as a point of credibility in deciding whether accused was telling the truth. If accused was believed in that statement, he might be believed in other things. As for the evidence of Berney, the fireman, His Lordship said that he seemed to be quite consistent. He did not attach much importance to the phone conversations between Sergeant Hannah, accused and Mrs. Hanson.

ACCUSED'S OWN TESTIMONY

His Lordship remarked that it had been entirely in the choice of accused whether or not he had taken the stand himself. He had not gone in the witness box no comment could have been made. The jury had as much right to believe accused's evidence as it had to believe that of any other witness. That evidence had been corroborated by the testimony of Mrs. Hanson. The defence was not required to prove who stole the money. His Lordship remarked in closing, as Mr. Patmore had suggested if the evidence seemed consistent with innocence then it was the duty of the jury to acquit. If the jury felt that web of evidence had been drawn around accused from which he could not escape, it would be its duty to convict.

REPORTED DISAGREEMENT

The jury retired at 5:45 to consider its verdict and, after supper, returned to the courtroom at 9:20 with the announcement that it had been unable to come to a verdict.

"I can understand that this case may cause you a good deal of worry," stated His Lordship, "but in view of the expense that would be caused the people by another trial and in order to prevent if possible the ordeal that another trial would be to the accused, I would ask you to make further consideration and return here tomorrow morning at 10 o'clock. I will help you as far as may be possible and I would ask you, for the sake of everybody concerned and as public servants which you are, to try and be generous and not stubborn and arrive at a verdict if at all possible."

The jury was taken in charge by Sheriff S. A. Nickerson and remained overnight in the Prince Rupert Hotel.

WINTER SCHEDULE FOR BOTH BOATS AND TRAINS NOW

C.N.R. steamer Prince Rupert, Capt. D. Donald, arrived from Vancouver at 10:10 this morning on the company's last week-end voyage to this port before the winter steamship schedule comes into effect. The vessel will sail tonight at 10 o'clock for Stewart and returning here tomorrow evening, will sail at 11 o'clock Sunday night for the south. The Prince George, arriving here next Wednesday, will make the first trip under the winter schedule, going from here to Stewart and Anxox that night and sailing from here for the south at 9 o'clock Friday morning. Completing the one trip, the Prince George will be withdrawn from service at Vancouver and the Prince Rupert, which will have remained at Vancouver for six days, will enter into the winter service.

The conversion of the daily passenger train service to tri-weekly will also come into effect this week-end. After today trains will arrive from the East on Sundays, Tuesdays and Thursdays and will leave for the East on Mondays, Wednesdays and Saturdays, the times of arrival and departure being the same as under the daily train schedule.

RUBBER SURFACE TO STREET IN LONDON

Experiment in Rubber-Topped Bricks Being Tried in New Bridge Street

LONDON, Nov. 12.—An interesting road experiment is being carried out by the City Corporation in New Bridge Street, where a length of rubber-topped bricks are being laid, says the London Daily News. The experiment will be watched closely by the Ministry of Transport and road authorities everywhere.

The new blocks are a British invention. The blocks themselves are terra cotta bricks, to the surface of which is fixed by special process a covering of durable rubber. They are treated with tar and then laid on a foundation of concrete and sand, as in the case of wood paving: It is claimed that road-

This Little Lady has been Serving You Faithfully for Many Years. "BREAKFAST" in Baker's Breakfast Cocoa Means Something. The United States Food Standards define "Breakfast" cocoa as cocoa containing not less than 22 per cent of cocoa butter. Many cheap cocoas (which cannot be labelled "Breakfast" Cocoa) contain not more than 14 per cent or 15 per cent of butter. Baker's Breakfast Cocoa contains not less than 26 per cent of cocoa butter, almost one-fifth more than Government requirement. The phrase Baker's Breakfast Cocoa means a pure, delicious cocoa of high quality and possessing a considerable amount of nourishment. WALTER BAKER & CO. Limited. Established 1870 DORCHESTER, MASS. Ketchikan activity reduces halibut landings at Prince Rupert; research boat to outfit; effective salvage work

The decrease of approximately two and a half million pounds in halibut landings at this port which will be recorded for the season about to close is ascribed in certain authoritative quarters to the innovation which has been carried out extensively during the year of ferrying fresh halibut in volume from Ketchikan to Prince Rupert for direct shipment East over the Canadian National Railways. The year's landings for preparation here would, it is said by some, have equalled or exceeded last year's had the packing of fresh fish been confined to this port in the north as it has practically been every year up to the present. Estimates differ but it is generally believed that the shipments of fresh fish packed in Ketchikan for rail delivery through this port exceeded during the season the decrease in this year's local landings when compared with last year's. Now that the experiment has had a full season's trial it will have been proven whether it has been a success or failure and whether such a manner of delivering fresh fish is a practicable possibility or the more or less of a bogey which it has been considered locally for many years. There are many who believe that such a movement of halibut will increase instead of diminishing and that, therein, Ketchikan may reap benefit at the possible expense of Prince Rupert.

Another theory that seems to be taken seriously in some quarters is that the putting down of the lid by the provincial police in this city has actually caused some of the American fishermen to avoid this port and remain in a more wide open town such as Ketchikan. Such an idea is, however, given little credence by the many who know that among the fishermen there are the boisterous one but that they form no greater a proportion in that calling in life than any other and to class them all as such is but to unwarrantedly slander the good name of many hundreds of law abiding citizens who, after all, are still Prince Rupert's mainstay.

With Monday set as the opening of the 1926-27 halibut close season and November 23 regarded as the final day upon which any fish may be expected to be marketed here, the total landings at this port up to yesterday's sale stand at 25,449,800 pounds, of which American bottoms landed 19,128,700 pounds and Canadian, 6,321,100 pounds. Last year's total was 28,920,700 pounds.

Landings during the past week totalled 461,300 pounds of which American boats brought in 406,000 pounds and Canadian, 55,300 pounds.

With the scarcity of halibut continuing prices remained during the week at a generally good level, reaching their height when 20.5c and 11c was paid last Saturday for American fish and 20c and 8c on Wednesday for Canadian. The lowest bids were 14c and 8c for American on Monday and 15c and 8c for Canadian.

The boats landing halibut during the past week (Saturday to Friday inclusive) were: American — Annie G., 12,000 pounds; Chelsea, 30,000; Zenith, 16,000; Roald Amundsen, 17,000; Oona, 8,000; Eastern Point, 4,000; Alaska, 30,000; Resolute, 27,000; Sunset, 30,000; Rainier, 23,000; Thor, 27,000; Kanaga, 50,000; Atlas, 34,000; Ithoma, 25,000; Albatross, 68,000. Canadian — Tramp, 12,000 pounds; Bingo, 8,000; Torberg, 3,500; Johanna, 9,000; Ternan, 4,000; Rose Spit, 8,000; Nuba, 2,500; Mayflower, 5,000; Imperieuse, 6,500.

The majority of the smaller Canadian halibut boats are now tied up here for the winter and also some American. The following are about the only boats claiming this port as their home which are still out fishing: Margaret I., Capt. George Fritz; Birdie B., Capt. George Wickdal; Wave (American), Capt. Ben Peterson; Verna, Capt. Pete Thompson; Gibson, Capt. Chris Hendricksen; Toodie, Capt. James Leash; Prosperity A., Capt. Andrew Christiansen; Cape Swain, Capt. Red Pierce; Pair of Jacks, Capt. John Ivanson; Valorous (American), Capt. John Berseth; Tahoma (American), Capt. W. Pierce.

PETE CHASING HALIBUT Pete Laporte, baseball umpire, etc., is taking a hand at halibut hunting for a few days having gone to the assistance of George Wickdal during the Birdie B.'s last trip of the season.

Deer-hunting halibut boats during the past week were the Minnie V., Capt. Al Benson, and the Morris H., Capt. John Hanson. The hunters on the former vessel which went to Welcome Harbor returned with a bag of eleven bucks.

The schooner Ternan, Capt. Nels Pearson, left on Thursday with the party intending to have gone out on the Johanna which met with mishap on the morning of her scheduled departure.

Powerboat P.R.T., Capt. Harris Kerr, left Thursday morning for Georgetown with a scow load of provisions and supplies. Returning the same night, the P.R.T. brought in one scow loaded with lumber for the Cold Storage and another having two carloads for Eastern delivery.

The M.T. 3, Capt. Reg. Green, flagship of the Bushby fleet, came up on Sunday from Louis Locker's logging camp on Porcher Island, bringing a tow of 400,000 feet of logs which was left at Metlakatla and which will later be taken on to the Georgetown mill.

Capt. John Wick indeed ran into a bunch of bad luck on Thursday morning when his halibut schooner, Johanna, was wrecked by a gasoline explosion as it lay moored at the Government Wharf. Serious as it was, it might, of course, have been worse as our good friend of tenuous fame, Brother Moody, would say.

Had it not been for the prompt work of Capt. Alfred Swanson who summoned his salvage gang together in jig time and jammed a scow alongside to prevent the Johanna from sinking into deep water, Capt. Wick would have been a few more thousand dollars out of pocket. After Chief Dan McDonald and his trusty men had coped with the situation in their usual effective manner and extinguished, with some difficulty, the mounting flames that added further to the excitement caused by the original explosion, the Johanna was towed up to the dry dock and placed in safety.

With the stern of the boat practically blown out, the planking badly raised and other extensive damage done, Capt. Wick debated whether his wisest plan would be to pass up the two or three thousand dollar repair job or build a new boat altogether. The most unfortunate factor of the whole thing was that no insurance was carried on the Johanna.

The Johanna, which was built some eight or nine years ago in Seattle, was purchased about five years ago by Capt. Wick and converted to Canadian registry. She has been a sound and successful operator. Some fifty feet long, the vessel is powered with a 27 h.p. Atlas gas engine.

M. Stockwell has purchased from the Prince Rupert Boat House a 5 h.p. Easthope engine which he will install in his trolling boat Gladys.

To fit the small craft especially for service in receiving the lines while landing of ocean vessels coming to this port to load cargo, the Prince Rupert Boat House launch "27" is having an 8 h.p. Easthope engine with high speed clutch installed. This will double the power of the little craft which will be handled by Bob Thomas who now takes on the elevated appendage of captain.

Shel Thomson, the popular custodian of the Prince Rupert Howing & Yacht Club, reposes in the Prince Rupert General Hospital trying to enjoy an enforced holiday brought about through unfortunate circumstances while attending to his duties. Shel fell last Saturday on the slippery floats and fractured some ribs. His physician, Dr. J. P. Cade, states that if his present progress continues, he will be able to leave the institution next week. Cheerio, Shel. If we didn't get to see you we were thinking of you just the same and believe that your affectionate secretary, Alex McRae, will see that all your pressing wants are adequately attended to.

The big American halibut schooner Scandia, which has been engaged by the International Fisheries Commission to carry out halibut research work during the halibut close season, is due here this week-end from Seattle to outfit finally for an extended trip to the Yakutat Banks with a party of scientists who will engage in first hand investigations. Headed by Dr. Will F. Thomson, director of the commission, the party will include Messrs. Dunlop, Bell, Bolton and Butt, some of whom have been here previously in connection with the work in hand.

Lighthouse tender Newington, Capt. Harry Ormlston, after an extensive overhauling at the dry dock, left at six o'clock Thursday morning for Langara Island, being due back here today.

The motorship tender Birnie, Capt. Joe Peterson, made a trip to Stewart during the week.

Everybody, of course, knows that Joe Hatchford is a lion tamer and that Frank Somers could very readily make an honest living charming snakes if the city telephone department went out of business, but it is so far known by only a favored few that Bill the Diver is the man who put the "she" in Shell and took the "devil" out of devilfish. Yes, friends, that is the valuable information that Mr. Justice D. A. McDonald and the rest of us learned on Thursday afternoon as we sat cooped up in the Supreme Court Assizes when we would much rather have been outside basking in Prince Rupert's famous sunshine.

It was too bad that Bill had to give to the public the secret of his patent process of intimidating the gentle octopus but now that is out, the public should be given a lesson so they may apply the trick in the hour of emergency. Bill's simple recipe is, as he stands at the bottom of the sea, to take two steps forward and wiggle his ears and then two steps backward and waggle his moustache. That is all and presto, Mr. Devilfish lays meekly down at his feet or hits promptly for the deeper and less perilous water. Seems simple, doesn't it? Put on your diving shoes and try it tonight out on your ballroom floor.

The Canadian Fish & Cold Storage Co.'s fish packer, Chief Zibassa, returned during the week from a trip to the Alert Bay district.

Jim Zarelli's hand to hand encounter with a monstrous buck was the feature of a hunting trip made during the week by a party to Porcher Island on Capt. Alf. Benson's Minnie V. Jim, whose first trip it was in chase of the wily deer, somehow or other managed to wound one and, like all other amateur hunters, approached it carelessly without making sure he had dispatched it. As Jim arrived beside it, the animal rose and made an attempt to escape but Jim

was little daunted and grabbed it by the horns. After a struggle between man and beast, Red Young finished the deer as Jimmy held it.

The party, which bagged eleven deer and a number of ducks, consisted of Frank and Theo Fortune, Leo Blain, Jim Zarelli, Bill Bissett, Alex. Prudhomme, Red Young, and Capt. Benson.

Three goose hunting parties which visited Big Bay for the Thanksgiving week-end had a rather tough time of it, returning home on Monday afternoon. Bill Reid had to be towed in by Jack Lindsay from Finlayson Island where he had an engine breakdown. Alex and John McRae made it safely on the Lois M. in the lumpy sea. Jack Lindsay was the only one who had any luck as far as the bagging of geese was concerned.

Repairs were being made this week to the powerboat Vasa, owned by T. Fujimoto, which sunk recently. Fujimoto is now on the bounding ocean en route to Japan where he will spend the winter.

Tug B.D.M., Capt. Whyte, of the Pacific (Coyle) Navigation Co., Northern Shipping Co., local agents, arrived from Vancouver on Wednesday with a scow of coal for Albert & McCaffery and scow of lumber for the dry dock. The tug returned south with the empties yesterday.

CANADIAN NATIONAL RAIL AND STEAMER WINTER SERVICE

The winter schedule of the Canadian National Railways, also the Coast Steamships becomes effective on Sunday, November 14th. After that date, trains will leave Prince Rupert each Monday, Wednesday and Saturday at 11.30 a.m., and arrive here each Sunday, Tuesday and Thursday at 3.30 p.m.

The s.s. "Prince Rupert" will arrive from the South each Wednesday at 10.30 a.m., and sail southbound each Friday at 9.00 a.m. Sailings for Stewart and Anyox will be each Wednesday at 10.00 p.m. There is no change in the Queen Charlotte Islands service.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donatville, Alta., writes:—"Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down. I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a couple of boxes I was not the same woman. I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to all those I know who are suffering from heart trouble."

Price 50c, a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A POLICY THAT WORKS FOR BOTH OF US

YOU'VE discovered, no doubt, that the best thing you can do for yourself, is something you do for others. It's a good business principle. The best way to keep our business growing is to make it serve you—giving better style, better quality, better service—then keeping the price down. It works for you and it works for us.

GAMES WERE INTERESTING

GRAND TERMINALS, GROTTO AND STARS WERE WINNERS OF LAST NIGHT'S BASKETBALL

Senior League—Native Sons of Canada, 21; Grand Terminals, 38.
 Intermediate League—Grand Terminals, 28; Grotto, 38.
 Junior League—Stars, 15; Tuxis Boys, 8.

Three good fast basketball games were played last evening in the Exhibition Hall. Each of the matches was close and shared the general interest of the good-sized crowd which was in attendance.

SENIOR LEAGUE
 In the Senior League, the Grand Terminals won their first victory of the season when they beat the Native Sons by the handy margin of 38 to 21. The details of the play were as follows:
 Native Sons—H. Menzies, V. Menzies (9), G. Shenton (4), R. Bartlett (2), E. Dingwall (4), R. Skinner (2), J. Farquhar, Y. Katsuyama.
 Total 21
 Terminals—H. Gordon (15), R. Howard (15), H. Ryall (4), J. Underwood (2), C. Thompson (2).
 Total 38
 Referee—E. A. Mann.

INTERMEDIATE
 The Grotto, as yet unbeaten, scored another Intermediate League victory over the Terminals by 38 to 28.
 Terminals—R. Smith, Y. Katsuyama, J. McNulty (12), Sam Joy (1), Spiro Gurvich (15), E. Dingwall.
 Total 28
 Grotto—D. Gurvich (6), V. Meagher (14), W. Wrathall (12), D. Stalker (6), J. Sim, T. Fraser.
 Total 38
 Referee—George Mitchell.

JUNIOR LEAGUE
 The Junior League game resulted in the Stars winning their first game of the season when they took the measure of the Tuxis Boys by 15 to 8.
 Stars—T. Kelsey (12), E. Smith, A. Cross, D. Morrison (2), W. Murray, W. Donald (1).
 Total 15
 Tuxis Boys—E. Hunt (2), F. Morrison (4), W. Johnson (2), H. Heilbroner, M. Sakamoto, F. Cameron.
 Total 8
 Referee—George Mitchell.

HAVE YOU PAIN AFTER EATING?

"FRUIT-A-TIVES" CORRECTS STOMACH TROUBLE QUICKLY

"After a long and weary illness, caused by bad Digestion, and after having tried all kinds of remedies, I decided to take 'Fruit-a-tives', and after three weeks' treatment, I felt great relief. To-day, I am in perfect health and am proud to say that the result is attributable to 'Fruit-a-tives,' which I recommend very sincerely. Mme. Brisson, 27 Rivet St., Montreal."

If you have poor Digestion or Pain after Eating, try "Fruit-a-tives," the wonderful fruit medicine. "Fruit-a-tives" is nature's own remedy—the intensified juices of apples, oranges, figs and prunes, combined with tonics. It will give you welcome and quick relief. 25c. and 50c. a box—at all dealers.

GROTTO BEATEN BY TERMINALS

GEORGE WAUGH WON GAME BUT OTHERS ON HIS SIDE LOST

Winning by an aggregate score of 985 to 766, the Grand Terminals gave the Grotto a sound drubbing in the billiard league last night. George Waugh was the only Grotto player to win his game. The high break of the evening was 31 by Frank Ziemann. The meeting was the complete reversal of a former tournament between the same two teams when the Grotto won.

The individual scores were as follows:

Terminals	Grotto
P. O'Donnell	200
C. Balagno	185
F. Ziemann	200
R. Howe	200
H. Corbett	200
Total	985
Total	766

WILL COMB CANADA FINEST ATHLETES FOR OLYMPIC MEET

TORONTO, Nov. 12.—Two big athletic meets in Western Canada during next summer are planned by officials of the Canadian Olympic committee for the purpose of sifting out the west's material for the Olympic games to be held in Amsterdam in 1928. One meet will probably be held in Winnipeg and the other in either Calgary or Edmonton. Every aspirant to a place on the Canadian Olympic team will be given a chance at these meets.

At the same time trial meets will be held in Eastern Canada, probably one each in Montreal and Saint John, the winners to meet at the central meet at Hamilton, Ont., at the time of the Canadian championship.

The western branches of the Amateur Athletic Union of Canada will convene at Winnipeg November 15 to get full reports on the progress of the provincial organizations. This information will form a basis for the survey of western athletic material which was commenced this month by P. J. Mulqueen, Toronto, chairman of the Canadian Olympic Committee, and J. A. McIver, Winnipeg, president of the A.A.U. of Canada.

Comb and extended meets will aid in selection of a first class track and field team to represent Canada against the world at the great gathering.

AIM IS TO DESTROY THE BOOTLEGGERS OF ONTARIO BY CHANGE

(Toronto Globe)

The bootlegger and the Ontario Temperance Act do not harmonize; so we must abolish the Temperance Act. This is the view of Premier Ferguson as he made it plain in his Kemptville speech. "Bootlegging flourishes," he said, "and those engaged in supplying liquor are growing rich in the traffic. Every Attorney-General has put all his energy into law enforcement, but experience has shown the impossibility of completely suppressing this traffic." So he proposes to change the law—although Attorney-General Nickle does not subscribe to the statement that it cannot be enforced—to install a permit system by which every adult can get malt and spirituous liquors, and says: "My firm belief is that this will do a great deal to destroy the bootlegger's business."

OTTAWA DISCUSSES THE PROHIBITION QUESTION

(Ottawa Citizen)

Prohibition is usually regarded as a moral question, and to some extent it has that quality. Its advocates are sometimes accused of being fanatics, who regard the drinking of intoxicants, even in moderation, as a sin. It may be justified, however, on grounds far less extreme.

As an element in human progress, prohibition may fairly be classed with the great scientific inventions of the age. It is the electric light, contrasted with the wax or tallow candle of our ancestors. It would be difficult to imagine any one factor which has contributed so much to efficiency and precision. It fits in with modern machinery. Railway heads have discovered that it is not safe to entrust a locomotive to an engineer who is even slightly under the influence of intoxicants. Such a person may to the casual eye appear quite sober, and he may go into respectable society without reproach, yet the delicate balance of his faculties may be disturbed to a dangerous extent.

HARDEST PART OF WORK ON HUDSON BAY LINE

(Winnipeg Free Press)

As Mr. Dunning, in his speech at Moose Jaw on Thursday, intimated that the hardest part of the work of getting the Hudson Bay route under way as a practical artery of traffic has yet to be tackled. The road bed for the last 92 miles has never had steel on it, and while it is believed not to have deteriorated to any great extent, at the same time some period must elapse before steel can be laid; in addition, there are two bridges to be built, not very large structures it is true, but sufficient to cause delay of some weeks before the
