ELEVATOR FINEST IN WORLD SAYS MCIVOR

REIGN OF TERROR CAUSED BY PEACE OFFICERS WHO DRANK SEIZED LIQUOR

McIvor Tells in Farmers' Paper About Plans for Utilization of the Prince Rupert Elevator

By GEO. McIVOR, in the "U. F. A." In a recent issue of "The U. F. A." you saw a photograph and were given some particulars regarding the elevator which the Wheat Pool have leased at Prince Rupert.

The writer has just returned from a visit to this port and I am sure you will be interested in knowing just what sort of a layout the Pool have taken possession of.

Prince Rupert is exactly 491 miles, by water, north of Vancouver, so that in distance it is approximately two days' sailing closer to the Orient than Vancouver. The government in building the elevator at Prince Rupert had three ideas in mind.

First, the fact that Oriental buyers of Canadian wheat would be able to receive their wheat at tidewater approximately two days closer than Vancouver.

Second, the use of the Canadian National line from Edmonton to Prince Rupert.

Third, and most important, the development of a huge agricultural country to the east of Prince Rupert.

However, on completion of the elevator, they were confronted with the fact that the bulk of all wheat grown in the province of Alberta was wheat contracted to the Wheat Pool, and in order to provide that the elevator be used, the government leased the elevator to the Wheat Pool at a very nominal rental for a period of two years.

Last Word in Construction

The elevator itself is the very latest word in elevator construction, and I would go so far as to say that it is the most modern elevator in the world. Delivery from cars into the elevator can be made at the rate of twelve cars per hour, so that in the usual working day ten hours, 120 cars per day can be unloaded, and this could be increased if necessary.

The discharging into ships is even more satisfactory. Grain can be discharged into ships at the rate of 40,000 bushels per hour, or just as fast as ships can receive same. This will enable ships to obtain a very quick load, which will mean the port itself will be well thought of by

(continued on page six)

CHIEF JUSTICE TO INVESTIGATE

Ottawa Citizen Says Lemire Will Continue Inquiry Into Customs Department.

OTTAWA, July 20.—The Citizen this morning published the following: "Sir Francois Lemire, chief justice of the superior court, has been appointed to continue the judicial investigation into the administration of the department of customs."

The newspaper says it will be for the chief justice to decide when the inquiry will proceed, "but it is anticipated there will be no great delay and sittings will be held in different parts of the country."

Under the terms adopted by the House of Commons the official was selected by two judges of the Exchequer Court.

SUPPOSED MURDER OF JAPANESE AT PORT ALICE MILL

VICTORIA, July 20.—The body of Shigru Konishi, a Japanese employed at Port Alice mill, was found Sunday in his bunkhouse and the provincial police believe it is a case of murder. Skimoshiwa, another employee of the mill, is being held.

This is the third murder to take place at the mill during the past year.

POSSIBLE APPOINTEES

OTTAWA, July 20.—J. L. S. Jacques, provincial member for Argenteuil and Pierre Audet of Quebec are said to be likely appointees to the Meighen cabinet from Quebec province, the former possibly getting the Marine and Fisheries portfolio.

CONVENTIONS DURING WEEK

Both Conservatives and Liberals Are Holding Meetings to Nominate Delegates.

This is rather a big week politically. Tonight local Conservatives meet to choose delegates to attend their convention on Thursday night and tomorrow night the Liberals meet for a similar purpose to prepare for the convention Saturday.

There is naturally a good deal of discussion in regard to the situation. It is pretty sure that Fred Stork will receive the nomination from the Liberals, but the Conservatives have not yet decided on a standard bearer, apparently.

The name of G. W. Nickerson had been mentioned as a possible independent candidate. Mr. Nickerson, however, stated this morning that he had no intention of being a candidate. "I am not going to contribute to the support of the newspapers this time," he jocularly remarked.

Under the terms adopted by the House of Commons the official was selected by two judges of the Exchequer Court.

Sockeye Salmon Fishing is Well Ahead of Last Year on Both the Skeena and Naas Rivers

With good weather prevailing the past week saw a general improvement in salmon fishing throughout District No. 2. There are few fish as yet, however, coming into the seining areas. The fishermen and canneries are now working principally on sockeye and the run of pinks and chums is just commencing, the latter being later than usual in arriving at the Skeena and Naas Rivers this year. Spring salmon fishing is still in progress on the Skeena and Naas Rivers, although it has been closed in the Bella Coola area. There has been very little complaint this season from fishermen in the Rivers Inlet area as to the depredations of sea lions to nets and salmon. In the Fitzhugh Sound district, however, there have been complaints that young whales and sharks have been damaging nets. There has not been a single complaint directed against sea lions.

Catch to Date

The following tables showing the catch to date on the Skeena and Naas Rivers compared with the catch at a similar date in 1925 indicate that there is an improvement in sockeye fishing this year, that the spring pack is down and that the Skeena River total is ahead of last year, while in the Naas River it is slightly down, due to the lateness of chums:

Skeena River		Cases	1926	1925
Sockeye	29,095	17,894	
Springs	13,742	18,465	
Steelheads	80	45	
Gohoes	1,076	1,471	
Pinks	1,537	1,599	
Chums	715	1,544	
Totals	46,245	41,028	

Naas River		Cases	1926	1925
Sockeye	6,003	4,401	
Springs	5,492	4,163	
Gohoes	217	72	
Pinks	2,052	935	
Chums	779	5,380	
Totals	14,513	14,952	

Pictures of Missing Link Taken by Swiss Scientist on Island

Woman with a tail is one of photographs said to have been secured in remote island of Phillipines

VICTORIA, July 20.—Photographs of what the owner, J. Wetteroid, said to be a Swiss scientist, stated were specimens of a tribe of about 200 "missing links," which he discovered on a remote island of the Philippine group, were exhibited here when he arrived on the freighter Loch Tay from Chile, according to Harry King, a member of a customs brokerage firm.

Wetteroid, according to King, claimed he secured the pictures with great difficulty after remaining seven days among the hill tribe men. One of the photographs is of a woman who apparently had a tail-like continuation of her spine.

VISITING HOURS ON BATTLESHIP ARE SET

Sailors Will Have Route March Through Streets on Thursday—Captain Returns Mayor's Call

H.M.S. Curlew will be open for visitors between the hours of 2 and 4:30 this afternoon and again on Wednesday at the same time. The vessel is remaining at anchor in the stream and it will be necessary for visitors to make their own arrangements to reach the ship.

On Thursday morning a party of men together with the ship's band will be landed and will have a route march through the city streets. The band will play during the march.

Capt. Bridges, commander of the Curlew, visited the City Hall this morning to return Mayor Newton's call and the mayor was Capt. Bridges' guest at luncheon aboard the Curlew today.

W. S. (Duke) Harris returned on the Cardena today from Hastings Arm where he has been inspecting a mining property in which he is interested. He will proceed to Hazelton on tomorrow morning's train.

Two Peace Officers Started Reign of Terror After Drinking Liquor Seized in Police Raids

Men Sleeping in Rooming Houses Were Shot and Clubbed By Crazed Officials Before Help Arrived.

MUSKOGEE, Okla., July 20.—Thirteen persons were shot and clubbed and the interiors of three rooming houses were demolished early today in a "reign of terror" precipitated by two peace officials who had been drinking liquor seized in raids last night.

One of the men, Paul Davis, deputy sheriff, was shot and wounded, probably fatally, before he was subdued. His companion, Detective Ves Cormack, was arrested. Davis and five of the victims are in the hospital.

The men entered a rooming house and shot and clubbed the sleeping men, ripping out the fixtures, before a "riot call" brought sufficient citizens and police to handle the situation.

ELECTION DATE SEPTEMBER 14

That's What Toronto Newspaper Says and Declares It to be Authentic

ANNOUNCEMENT TONIGHT

TORONTO, July 20.—The Mail and Empire published the following this morning: "Voters of Canada go to the polls in the approaching elections Tuesday, September 14. Official news of the selection of this date by Premier Meighen for the purpose of voting reached high Conservative circles here last evening and came with authority which left no possible room as to accuracy of the report. The formal announcement of the date, it is understood, will be made by Premier Meighen when he addresses the public tonight at Ottawa.

LIQUOR RAID BY DRY SQUAD

Plant of Vancouver Saki and Brewing Co. Seized at Vancouver and one Arrested

VANCOUVER, July 20.—Seeking the source of large quantities of liquor which is being sold illicitly it is alleged in the Oriental quarter the dry squad raided the Vancouver Saki and Brewing Company and seized a plant valued at \$50,000 yesterday.

The police arrested one man in a well-equipped plant found with large quantities of liquor ready for shipment.

The liquor board officials have not decided what action will be taken.

BOWSER NOT A CANDIDATE

Refuses Nomination in Comox-Alberni and Will Not Run in East Kootenay

VICTORIA, July 20.—Rumors that he would be a candidate in East Kootenay in the forthcoming election is emphatically denied by W. J. Bowser who also announces that he has refused the nomination for Comox-Alberni.

NEW CABINET FORMED FRANCE

Not Wanting Cabinet Position—May Go to Britain as High Commissioner.

Lincoln Ellsworth Denies That General Nobile Navigated Airship Norge on Historic Trip Over the Pole

NEW YORK, July 20.—Rumored dissension among the leaders of the Norge flight took definite form last night when Lincoln Ellsworth, the American backer of the expedition headed by Amundsen, issued a statement denying that Umberto Nobile, designer of the dirigible, acted as navigator on the historic trip.

"During the entire flight," said Ellsworth, "I stood without sleep in the navigating cabin. To the best of my knowledge General Nobile's only part in navigation consisted in relieving the wheel man for three short periods during the flight," said he,

replying to a statement of Nobile who said Ellsworth was "just a passenger whom I took aboard at Spitzbergen to Teller. During the entire flight of seventy hours everybody was doing."

CONSERVATIVES!

A MEETING OF THE CONSERVATIVE ASSOCIATION

Will be held on

TUESDAY, JULY 20, at 8 p.m.

in Emad Hall

BUSINESS: To elect officers for the ensuing year and to elect delegates for the Conservative Nominating Convention. ALL CONSERVATIVES ARE CORDIALLY INVITED

PARIS, July 20.—A new ministry has been formed by Premier Herriot with Anatole Monzie holding the portfolio of finance. The cabinet has but one aim, the defence of France, declared the premier.

DAILY EDITION

TUESDAY, July 20, 1926.

Boost your town and the town will boost you.
Knock your town and you'll get the knocks back.

Like to See the Navy
Boys in the City.

It's good to see the boys of the British navy in the city. If it's a sign of security. True, we pay nothing for the privilege. Just at present we get our protection free of cost, but that cannot go on for ever. We shall have to do our share eventually, one way or the other. If Canada were to join the United States, she would have to pay her share of the U. S. Navy, but because we are part of the British Empire and John Bull is a good-natured old cuss, we are able to impose on him ad libitum.

Victoria Liberal on
Election Issues.

B. J. Nicholas, editor of the Victoria Times, speaking to the Laurier Club at Vancouver, is reported as follows:

"I am not a constitutional authority and am probably the only man in Victoria who is not, and I prefer to leave the Byng question of dissolution to those who have studied the matter, but I imagine the Canadian people will insist on control of their own affairs."

"There is no question that Lord Byng acted with the utmost sincerity, but he is not an experienced politician. His action is not going to be disastrous. It has been a good thing for the Liberal party, as it has presented it with an opportunity to demonstrate the most important issue of maintaining at all costs the supremacy of Canadian Parliament and responsible government."

"But the Liberal party does not need to go to the electors on the constitutional issue. It should emphasize the inefficiency of Mr. Meighen in allowing to go to slaughter all the legislation of Parliament following the action of Lord Byng."

"The only conclusion to follow is that Mr. Meighen was hostile to that legislation. The budget, the Liberal attitude on freight rates, western grain shipments—these and other Liberal policies are the questions to place before the people at the coming election."

Provincial Police for
Whole of British Columbia.

The Vancouver Province, Conservative, discussing the policing question says:

Gradually, the provincial police are taking over the enforcement of the law in British Columbia. On Vancouver Island, outside Victoria, there will be practically no local police left within a month, and the provincial force will be in control everywhere. On the mainland, too, several cities and districts have completed policing agreements with the government and others have the matter under consideration. It is beginning to appear that, within a very short time, we shall have no local police left in the province outside the capital and Greater Vancouver.

In many ways, the change should make for efficiency. We have had too many police forces in the past, and there has been a great deal of overlapping and interference. This will be eliminated. Through the use of the motor car, the modern criminal has acquired great mobility. He is here one minute and in another city or municipality the next and the police force that lacks the authority to follow him through all his twists and turns is seriously handicapped.

The old rural constable has long been a joke. The limitations of his sphere prevented him getting any worth-while experience, and his methods were often crude and not particularly effective. It was easy for the criminal to study his foibles and circumvent him. The provincial constable will be a much harder nut to crack.

Greater Authority
Than Local Officers.

In small cities and villages, a provincial officer will always have greater authority than a local officer could have. He is the arm of a power outside, as it were, and as that power is somewhat distant and mysterious, there is a tendency to magnify its strength and to respect it accordingly. It is possible, too, under the provincial system, to have officers specialize in certain crime problems so that, when a particular type of crime is committed, an expert is at once available. Another advantage is that an officer can always be shifted to another place if there is any suspicion that he is forming undesirable alliances.

The elasticity of the plan makes it possible to concentrate the constables from several districts quickly at any point where they may be needed. Being under a single head, they are instantly available. It has been found, too, that the provincial force can do policing more cheaply than local police can, and that it is much more efficient in handling the liquor problem.

WHEAT
with ripe red strawberries

TERRACE NOTES

Mrs. A. C. Head and daughter Dorothy returned home on Saturday after several days spent in Prince Rupert.

Mrs. Olaf Hanson, Linea and Olaf Jr., of Prince Rupert and Smithers, arrived from the latter place on Friday to spend a short holiday with Mrs. George Little. They were joined here on Sunday by Mr. Hanson who came in on the excursion train from Prince Rupert.

Mrs. Whillay of Usk was a visitor in town at the week end.

W. E. Sparks and son Jack returned on Sunday from a short trip to Hazelton.

D. W. Davis and J. M. Hoar, mining men of Kalum Lake and R. Farin, mining engineer of Sandpoint, Idaho, came from Kalum Lake on Saturday and went up to Vansardot to inspect the mining claims of W. E. Van Meter.

Jno. Willman of Usk was a visitor here on Sunday.

Mrs. Geo. E. Keith was at home to a large number of friends at the tea hour on Friday.

Terrace turned out in force to greet the arrival of the excursionists on Sunday morning and entered into and enjoyed the day's sports quite as much as the visitors. Weather conditions were on the whole very favorable, the rain of the day before having laid the dust and freshened up the foliage. Local people very much appreciated the splendid music of the boys' band and were very generous in their praise of that body. The hope that the G.N.R. will make the excursion an annual affair was expressed by many visitors as well as by the local people.

Mrs. J. K. Frost entertained at afternoon tea on Saturday in honor of Mrs. Olaf Hanson of Smithers.

The rain of Saturday was greatly welcomed by the berry growers and will add materially to both the size and duration of the crop. While some of the farmers had hay cut the rain was not heavy enough to harm it to any extent.

Experts from the Summerland Experimental Farm who have been in the district during the past week have been investigating the blight which is very apparent on many of the local apple orchards where in some cases the fruit is withering and dropping off or so covered with scale as to be unfit for use. They express the opinion that it is not a pest as many supposed, but is due to too early development owing to the unusually open winter and early spring. This, followed by a long cold spell during which there was no growth, is the cause of the fruit not maturing properly.

D. D. Munro of the Land Settlement Board, arrived on Sunday on a short visit to his home here.

Professor Wickenden of Macaulay College, Saskatoon, arrived in town on Saturday to spend his vacation with Rev. W. F. Barfoot here. He occupied the pulpit in the Anglican Church on Sunday evening.

Mr. and Mrs. J. M. McCawley of Prince Rupert came up on Saturday and spent the week end in town.

Constable and Mrs. S. Service and two children arrived in town on Friday from Prince George having been transferred from that place to the Terrace district.

D. G. Munro of Prince Rupert spent the week end with his family here.

Mrs. W. H. Burnett was a bridge hostess on Saturday evening.

A. E. Dickie and T. M. J. Fortune, C.N.R. representatives of Prince Rupert, arrived in town on Saturday to make preparations for the entertainment of the excursionists the next day.

Among former Terrace residents who were here on Sunday with the excursion party were Miss Ethel Christie, Mr. and Mrs. E. J. Large and Evelyn, Mrs. Louis, Vernon Glass,

FAIR BOARD HAS MEETING

Features in Connection With the Forthcoming Exhibition Were Discussed.

The regular meeting of the Fair Board was held last night. Plans are now getting well under way for the big show that will be held in September, several of the features being discussed last evening.

There was a letter from J. McNeil, of Telkwa, offering to bring horses and riders and cattle to the city for a stampede to be held in connection with the Fair. Mainly because of the condition of the Acropolis Hill grounds, the board decided that it could not consider the proposition this year but Mr. McNeil will be informed that, if the city decides to make improvements to the grounds during the winter including the removal of the rockpile, the board will be in a position to consider the project next year.

The board has received a wire from Vic Foley, the prominent Vancouver boxer, that he will be here without fail during Fair Week for a ten-round bout with Jackie Newman of Edmonton from whom he recently gained a decision after a hard fifteen-round battle.

A parachute jumper had a proposition before the board to come here. The matter will be further gone into although the board believes that such a performance would be hardly suitable as it would be difficult to derive revenue therefrom.

The board received reports indicating that the sale of membership tickets, in connection with which a Chevrolet touring car is being offered, is proceeding satisfactorily.

NAVAL BALL AT AUDITORIUM

Central

Mr. and Mrs. C. P. Moore, Minneapolis; W. F. Taylor and W. H. Thorne, C.N.R.; McLaughlin, Usk; F. John, Jackson, A. Smith, Sig Curtis and F. Barrett, H.M.S. Curlew.

Chief Petty Officer Williamson, a member of the Royal Naval Referees' Association, handled the whistle in the game. The scorers for Prince Rupert were W. Mitchell, 2; Dickens, 1.

There will be another game between Prince Rupert and H. M. S. Curlew tomorrow night when the warship will field a different team. It is possible that a game may be arranged for Thursday afternoon between local Intermediate players and a team selected from a number of youths under 18 in the Curlew's crew.

The Prince Rupert team to meet the Curlew on Wednesday evening will be as follows: Murray, Haig, V. Menzies, George Mitchell, Sam Currie, Pat O'Donnell, F. Russell, J. Johnston, Dickens, W. Mitchell and Norrington; reserves, R. Howe, Skinner, Erskine and Hodgkinson.

W. Murray is trainer of the local team.

DEASE COUNTRY LOOKING GOOD

Day of Big Operation Instead of Small is Now at Hand, Says Resident Engineer.

FINE TRANSPORTATION SERVICE BEING GIVEN

Muddy River Section Gives Promise of Containing Some Rich Ground.

On Gold Pan Creek, the scene of the 1925 stampede, there are now only three hand operators, but more gold will be taken out this year than there was last, states G. A. Clothier, resident mining engineer, who returned to the city yesterday after spending a month in the Dease Lake region on his annual inspection trip. While he does not believe there is anything sensational in the way of mineral wealth in this particular region, Mr. Clothier states that experienced men will probably be able to make good wages. The outfits now there are doing well.

Speaking of the Dease Lake region as a whole, Mr. Clothier is of the opinion that it will gradually come to the front now that transportation will allow the operators to come in. The district looks as if it should turn out to be a hydraulicking country. The best ground having all been gone over by hand operators, the day of small operation is now over, but there is a good chance for big operation, there being plenty of ground on the benches.

Within the last three years there have been several hydraulicking and drag line scraper operations started in the district. Five companies are now operating on McJames Creek and all have a good chance for success, Mr. Clothier states. On Thibert Creek at Porter's Landing on the lower or far end of Dease Lake, two outfits are operating, and on Dease Creek at Laketon, about half-way down Dease Lake, there

Form No. 20.

THE BANKRUPTCY ACT.

IN THE ESTATE OF CECIL HARTLEY, authorized trustee, trustee.

NOTICE IS HEREBY GIVEN that Cecil Hartley of the Town of Vancouerhoof, in the Province of British Columbia, did, on the 1st day of July, 1926, make an authorized assignment of all his property for the benefit of his creditors and that H. MacLeod, official receiver, has appointed me to be custodian of the estate of the debtor and the creditors at their first meeting shall be entitled to administer the estate of the debtor.

NOTICE IS FURTHER GIVEN that the first meeting of creditors in the above estate will be held at the Court House, City of Prince Rupert, Colony of British Columbia, on the 26th day of July, 1926, at 2:30 o'clock in the afternoon.

To entitle you to vote thereof proof of your claim must be tendered with me before the meeting, however, no proofs.

Proofs to be used at the meeting must be lodged with me prior thereto.

AND FURTHER TAKE NOTICE that if you have a claim against the debtor for which you are entitled to payment of such claim must be filed with me within thirty days from the date of this notice for filing and after the expiration of the time fixed by section 37 of the said Act I shall distribute the assets of the debtor's estate, among the parties entitled thereto having regard only to the claims of which I have then notice.

DATED at the 12th day of July, 1926.

ALEX. CONNON, Custodian.

LAND ACT.

TAKE NOTICE that Standard Mines Corporation whose address is 1250 Pender St. West, Vancouver, B.C., will apply for a license to take and use 2,000 cubic yards of earth per day of water out of the South Fork of McJames Creek, which flows easterly and drains into Dease River, about six miles north of Atlin.

This notice was posted on the ground on the 10th day of June, 1926.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Atlin, objections to the application may be filed with the said Water Rights Commissioner, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is July 2, 1926.

PRINCE RUPERT

Dated June 14th, 1926.

Who is Mrs Experience?

"When I discovered the wonderful work done by Sunlight Soap, and the way it protects fabrics, I knew I was done with experiments."

MRS. EXPERIENCE is a composite character representing the millions of thrifty housewives and careful laundresses who have made Sunlight the largest selling laundry soap in the world.

The popularity of this great labour-saver and household economy is based on efficiency and purity.

Sunlight Soap

The Largest Selling Laundry Soap in the world

Sunlight removes dirt from clothes quickly, thoroughly, scientifically and above all safely.

It is backed by a \$5,000 Guarantee of Purity.

It costs no more than ordinary soaps.

Can the best be too good?

four or five more operations.

Good Transportation

Mr. Clothier, who went as far as McJames Creek, which is about 100 miles past Porter's Landing down the Dease River, was surprised at the great improvement in transportation facilities during the past three years. There is a really splendid river boat service by the Barrington Transportation Co. from Wrangell to Telegraph Creek and from Telegraph Creek to Dease Lake, a distance of 73 miles, there is a wagon road fifty miles of which is in good condition and quite fit for all manner of traffic including motor cars. Motor trucks now make the 773 miles trip from Telegraph Creek to Dease Lake in from 10 to 12 hours. From Dease Lake landing, at the upper end of the lake, Harper Reed is running a small gas scow

down the 25 mile length of Dease Lake and then down the Dease River past McJames to the confluence with the Liard River. This is in addition to the Hudson Bay boats and scows which also ply down the Dease River.

That the district is now supplied with a rapid transportation service is proved by the fact that Mr. Clothier himself made the trip from Gold Pan to Wrangell in 28 hours when coming out. Of course, it takes longer to go up when the boats are bucking the Stikine River instead of going with it.

Muddy River Country

There are now a number of prospectors in the Muddy River country, forty miles east of Gold Pan, and there seems to be a good chance of some good placer ground being found say Mr. Clothier. The conditions and formations are favorable and all that is needed is thorough prospecting which the district is now getting. It is a good country to get into, Mr. Clothier says, being equipped with good trails.

The strongest dam will be located at or near the foot of a chain of small lakes.

The capacity of the reservoir to be created is about 1250 million cubic feet, and it will flood about 2200 acres of land, and it will divert about 2000 acres of land.

Diversion from a stream about and below the proposed dam about 5 miles westerly of west line of 4th of July Mineral Claim, and will be used for power for industrial purposes upon the mines, described

in the mining lease, and Ruffner

will be used for power for the

construction of a dam across the river.

This notice was posted on the ground on the 24th day of June, 1926.

A copy of this notice and an application

pursuant thereto and to the "Water Act,

1914," will be filed in the office of the Water Recorder at Atlin, objections to the application may be filed with the said Water Rights Commissioner, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is July 2, 1926.

J. M. RUFFNER, Appellant.

Date, Atlin, May 20, 1926.

WATER NOTICE

Diversion and Use

TAKE NOTICE that Somerville Cannery Company Limited, whose address is Gore Avenue Wharf, Vancouver, B.C., will apply for a license to take and use 25 gallons per minute of water out of un-named stream, which flows northerly and drains into Ferguson Inlet, about 10 chains west from the corner of Lot 1571, Queen Charlotte District. The water will be diverted from the stream at a point about 6 chains from mouth of stream and will be used for industrial and domestic purposes upon the land described as Block A, Lot 1571, Queen Charlotte District. This notice was posted on the ground on the 14th day of July, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act," will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Rights Commissioner, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 29, 1926.

McIVOR TELLS IN FARMERS' PAPER ABOUT PLANS FOR UTILIZATION OF THE PRINCE RUPERT ELEVATOR

(Continued from Page One).

shipping men on account of the fact that their boats will not be delayed whilst loading.

Berth Three Ships

The elevator has 129 bins of various sizes. This will enable the superintendent to handle the house to the fullest capacity as it will give him ample storage space for all grades. There is 1,040 feet of dock, and on account of the fact that the elevator has nineteen loading spouts, this will enable us to berth three vessels of average loading at one time if necessary.

The people of Prince Rupert are very enthusiastic about the Pool taking over their plant, and are going to give us every support that they possibly can. The project has tremendous possibilities. We have already arranged with tramp vessels to load grain at Prince Rupert at a very nominal freight rate over and above that from Vancouver for U.K. and European ports. It is my belief that Oriental lines will readily see the advantage of the gain in time of sailing, and that their rates will be less than that to Vancouver.

The trackage from Edmonton to Prince Rupert is in very good condition, with the exception of a little ballasting, and on account of the favorable grade a good many more cars can be hauled than on the C.N.R. line to Vancouver under the same motive power.

Pioneering Movement

The whole project undoubtedly has good possibilities, and it will be a rather interesting development in the building up of our Pool to know that we are pioneering a new movement of grain through a new port.

President H. W. Wood will leave for Australia via the Orient on the Canadian Pacific liner Empress of Asia, sailing from Vancouver on July 22.

Mr. Wood will be accompanied through the Orient by George McIvor, western sales manager of the Canadian Pool, who will assist Mr. Wood in a survey of market conditions in the Far East. In the past few years the Far Eastern market has grown to astonishing proportions, with all indications pointing to a much greater increase in this trade for the future. It is definitely expected this trip will bring very tangible results in augmented sales for the Pool.

After spending about a month travelling through Japan and China, Mr. Wood will sail from Hong Kong on August 7, on the Eastern and Australian liner Tanda, arriving in Sydney on September 19.

Mr. Wood is representing the Alberta Pool in the study of the Wheat Pool situation in Australia. The Manitoba Pool is sending Colin Burnell and the Saskatchewan Pool is being represented by S. W. Robertson.
