## WEST STILL HAS CHANCE FOR STANLEY CUP

### WELL KNOWN PIONEER NORTHERN COASTING VESSEL IS AGAIN IN TROUBLE

#### Famous, formerly Amur, Hit Rock Yesterday in Skeena River and Sinks

The coast freighter Famous, formerly owned and operated as the Amur by the Coastwise Steamship & Barge Co. until she was wrecked a couple of years ago at White Cliff Island near the mouth of the Skeena River, has again come to grief in local waters and is sunk near Balmoral Cannery after having struck Lewis Rock yesterday morning while bound into Balmoral Cannery from Vancouver with a cargo of tinplate.

Last night at 7 o'clock, the vessel was floated off the rock and it was the intention to beach her but she went to the bottom before this could be done. She is completely submerged at high tide having sustained a large hole forward in the impact. Arrangements are now being made to have her pumped out so she can be brought to dry dock for repairs.

Strong wind and treacherous tidal currents are believed to have been the cause of the stranding.

The Famous is now owned by Capt. Vincent of Vancouver. It was her first voyage this far north under the new ownership. She is one of the pioneer vessels on the Pacific Coast and, before being acquired by the Coastwise Steamship & Barge Co., was owned by the Canadian Pacific Railway. She was one of the first vessels operated by the C.P.R. to Alaska, Prince Rupert and the Queen Charlotte Islands.

The Famous, then the Amur, was built at Sunderland, England, in 1890. She is 216 feet long, 28 feet beam and 17 feet 9 inches deep. Her gross tonnage is 997 and registered, 579. She was badly damaged in the wreck on Whitecliff Island a couple of years ago and was re-engined and practically rebuilt following that accident.

Hubert Ward, representative of the underwriters and the Vancouver Dredging & Salvage Co., stated this afternoon that arrangements are being made to send Capt. Swanson with a salvage outfit to the Famous tonight or tomorrow morning. It is proposed to pump the vessel out at low water and, if possible, she may be brought here for examination and possibly repairs.

#### STILL ADRIFT NORTH PACIFIC

**Wheatland Montana Gets Tow But Loses It in Sixty Mile Gale**

CORIDOVA, April 5.—The steamer Wheatland Montana, disabled twelve hundred miles west of here in the North Pacific ocean, was taken in tow late Saturday night by her sister ship, West Niger, but broke away during a sixty-mile gale Sunday night. The Niger is standing by but will be unable to get another line aboard the Wheatland Montana until the wind moderates. The steamer Cuprum, which reached the Montana first, has proceeded to Yokohama.

#### THOUSANDS NEW SETTLERS PASS BY WINNIPEG

**Canadian National Lines Extremely Busy Distributing Immigrants Among Western Farms**

WINNIPEG, April 5.—With the arrival here last week-end of the second immigrant special over the Canadian National lines, 2,300 new settlers reached this city by that route during the week and colonization officials expected that within twenty-four hours all would have left for their final destinations on western farms.

The latest arrivals are from the ss. "Estonia" and are chiefly Central Europeans, many of which, however, are prepared to take up land after some practical experience of Canadian methods. Six special trains were required to transport this week's arrivals from the seaboard by the Canadian National and the past three days has seen the heaviest immigration movement experienced for over a decade.

## FOUND FAVOR FOR CANADA

C.N.R. Passenger Traffic Manager Says European Immigrants Looking This Way

MONTREAL, April 5.—An increasing wave of sentiment in favor of Canada throughout the whole of the British Isles and the continental countries of Europe was noted by C. W. Johnston, passenger traffic manager of the Canadian National Railways, who has returned to Montreal from a business trip during which he visited all the principal countries of Europe. This sentiment, Mr. Johnston states, is easy for the visitor from Canada to recognize, as it is reflected vividly in the number of earnest enquiries which are almost deluging some of the immigration bureaus of the government and of the Canadian National system and the requests for information from prospective tourists who are turning their thoughts towards Canada for future trips.

In the British Isles, in particular, Mr. Johnston found that the attempt to circulate propaganda inimical to the interest of the Dominion is not making as much headway as in the past, that the people are inclined to place greater reliance upon the information given to them from accredited sources such as the railway and government agencies and the published letters of settlers who have found conditions here to their liking, and that, as a result of this, coupled with the other inducements provided, the outlook for increased immigration from Great Britain is most hopeful.

It was also Mr. Johnston's experience to discover that much more about Canada is known in Great Britain and on the continent than one would expect and he explains this condition as being due in a considerable measure to the favorable impression created here in the minds of delegates to such large international conventions as the British Society for the Advancement of Science; the International Mathematical Congress, the International Parliamentary Union, and the British Empire Service League.

These bodies, according to Mr. Johnston, have proven to be real ambassadors of goodwill for Canada and have spread far and wide the story of Canada in a way that no citizen of this country could hope to. Mr. Johnston also found that the immigration quota law of the United States is reacting to the advantage of Canada, particularly in the continental countries. He states that the disposition to scramble for

## PLACING NEW SETTLERS IS WELL IN HAND

Movement to Canada Heavy this Year and Will Increase Next

WINNIPEG, April 5.—With the object of placing new arrivals in Canada as near the railway lines as possible the colonization department of the Canadian National Railways has perfected its machinery for settlement in good time to handle the spring influx of immigrants. W. D. Robb, vice president in charge of this work for the system, reported on his arrival in Winnipeg at the end of last week. Mr. Robb has just completed an inspection tour to the west coast and was accompanied by Dr. W. J. Black, director in charge of colonization. He visited Edmonton, Vancouver, Victoria and Saskatoon speaking to the boards of trade and other organizations in the interests of colonization.

"Our primary aim is not to sell railway lands but to settle the country already served by railway lines," Mr. Robb said. "Newcomers have a better chance of making good on the land if they are located near a railway line, the railways need the population to make operation pay, and the country need the population. So we believe we are engaged in a task of mutual benefit to all concerned," he said.

Mr. Robb was of the opinion that this year's flood of settlers which had been moving westward for the last three weeks at a rapid pace, is the beginning of an increasing yearly movement. "I cannot give definite figures on the number we may expect this year. They are greatly in excess of last year, however, and there will be a bigger movement again next year," said Mr. Robb. "With settlement agencies working in conjunction with the government and the railways, the machinery for handling settlers is vastly improved and this is an important factor in promoting settlement of the right kind."

Mr. Robb spent Saturday in the city meeting local officials and continued his journey eastward to Montreal that night.

positions under that law is gradually growing less and that intending settlers are beginning to realize Canada has much to offer that is well worth seeking to make preparations for immigration to the Dominion.

## FORTY PEOPLE WERE KILLED

Canadian National Railway Reports on Grade Crossing Accidents During 1925

MONTREAL, April 5.—Figures compiled by the operating department of the Canadian National Railways show that during 1925 on the lines of the system there were 65 grade crossing accidents to vehicles in which 40 people lost their lives and fifty-one were seriously or slightly injured. In only nine cases were there no fatalities or injuries. All but twelve of the accidents happened to automobiles or motor trucks. While it is difficult to place the blame in all cases, subsequent investigations rigorously pursued by the Canadian National Railways showed that in 96 per cent of the accidents the railway company was not at fault, every precaution having been taken by it to prevent these occurrences. In two cases three complete families were wiped out and in one accident two whole families lost their lives. It is also a matter of undisputed fact that good fortune rather than any other circumstances was alone responsible for the comparatively low mortality figure among such a large number of crossing accidents.

The automobile has yet to be made that can try conclusions with a swiftly moving train and win. Investigations proved that in a large number of cases the accidents were due solely to carelessness on the part of the drivers of the automobiles. Listed among the accidents are two where autoists drove their cars into the tender of engines, three where the automobiles hit the second or third car back of the engine and one where the driver actually crashed into the twentieth car back of the engine and did it with sufficient force to bruise and somewhat injure the occupants of the automobile as well as to damage the machine.

No one month was free from crossing accidents, but October led which might indicate that towards the end of the motoring season drivers became more careless in approaching railway crossings. The accidents by months were: January, 1; February, 2; March, 4; April, 3; May, 7; June, 4; July, 9; August, 6; September, 7; October, 10; November, 8; December, 4.

F. T. Foley, who is establishing a new cannery at Captain's Cove, sailed for Vancouver on the Prince Charles this morning and will be back in about ten days' time. Mr. Foley reports that arrangements are now complete for the starting of construction of the new plant.

In custody of A. Creelman, acting as a special provincial police constable, three Indians, Luke Fowler, James Woken and Johnnie Moore, were brought to the city on this morning's train to take trial in Judge Young's court on charges of theft of provisions and equipment from a trapper's cabin in the Terrace district.

Paddy Higgins, locator and owner of the Silver King mine on Driftwood Creek in the Babine district, arrived on this morning's train from the interior and sailed aboard the Prince Charles enroute to Spokane where he will attend a meeting of the company which is interested in the mine. Work has been carried out during the winter on the Silver King mine by Mr. Higgins and will be continued this year. A good strike of ore was made last fall on the property.

Union steamer Cardena, Capt. A. E. Dickson, arrived from the south at 8 o'clock last night and sailed at 10 o'clock for Anyox, Alice Arm and Stewart. The vessel had among her passengers the following for Prince Rupert: Miss Gilroy, Mrs. E. Vernon, Mr. Keller, Mr. Wassal, William Goldbloom, Dr. F. P. Kenny, Mr. and Mrs. Bayliss, Mr. and Mrs. R. G. Johnston, Miss A. Dawson, Mrs. Bradbury, Mrs. Webber, Mrs. J. R. Dellaronde, K. S. Medway, Mr. and Mrs. Albert Farrow and children; for Arrandale, Mr. and Mrs. W. E. Walker and family and cannery crew; for Anyox, Mr. Gerard and R. W. Corbish; for Alice Arm, Mrs. Frandle; round trip, Mrs. Travers.

Beautiful White Hands with Washing Dishes

No more harsh laundry soap for dishwashing. No more red, rough, chapped hands. Lux has done away with all that.

Lux has lightened the labour of dishwashing and made it possible for you to keep your hands as white and soft and your nails as trim and neat as though they had never touched dishwater. You know it isn't the grease from the dishes nor the temperature of the water that reddens the hands. Water itself and hard laundry soaps do the damage.

Lux softens the water and makes it harmless to the skin, hurries the whole operation of dishwashing, and actually keeps the skin in fine soft condition. The vegetable oils in Lux are bland oils—mild and soothing as well as highly efficient.

One tablespoon of Lux in each pan of dish-water is all you need.

Really, you should use Lux for the whole family wash—it's so efficient, so safe and reasonably priced—and it prolongs the life of fabrics. Many a garment goes to the cleaners that might better be washed with Lux.

Lux Laundered Lingerie Protects Sensitive Skins

Over a score of years Lux perfection has naturally encouraged imitation. For your protection, Lux is sold only in packages, never in bulk.

YEARS OF TOIL PRECEDE FAME IN MOVIE LIFE

Careers of Most Successful Film Artists Shows Modest Beginning

HOLLYWOOD, April 4.—Shiny erge suits have been supplanted by arrays of English-tailored garments. Flossy fur imitations have given way to saffles. Instead of hall bedrooms, there are fine homes. Trips to Europe, once confined to dreams, now receive no more thought than visits to Florida.

Such has been life to many of the movie stars who began in the age of one-reel thrillers, when five-dollars-a-day was considered a fat salary.

Star Was Extra

After a career on the stage, which began at the age of five, and led to Belasco productions,

Friday and Saturday. All star cast in "Mannequin."

"MANNEQUIN" IS GRIPPING TALE

Week-End Picture is Film Portrayal of Story That Won Fanny Hurst \$50,000

Animal Trainer. Wallace Beery was an animal trainer and then a baritone singer with a stock company.

Rapid Rise. Charlie Chaplin made his screen debut in 1914 and three years later signed a contract to make eight two-reel comedies at a salary of \$1,000,000.

Rancher and Engineer. Jack Holt was a rancher, civil engineer, miner, sheep raiser and a freighter of government mail in Alaska before he began facing the camera.

Lived in Poverty. As an actress on the European stage, Pola Negri lived in poverty.

Betty Bronson had appeared in small roles in but two or three pictures before Herbert Brenon brought her to the bright lights as the star of "Peter Pan" and "A Kiss for Cinderella."

Beautiful Dolores Costello blooms and is lovely. When she is 14, so degraded and drunken has Annie become that Orchid runs away from home and seeks refuge in a New York settlement house, where she is reared and educated.

At 18 she has gone to work in a department store, where her beauty soon wins a place for her as mannequin in the fashionable gown department.

It is here that she encounters Martin Innesbrook, a young reporter. She suggests to him a series of stories on "Sexless Justice," which prove a sensation.

She also meets at the establishment Terry Allen, a young man about town, whose reputation is none too good. She does not care for his attentions. One afternoon Innesbrook sees her at the establishment in a particularly lovely afternoon gown, and persuades the manager to let him take her to a garden party being given by the (now) Judge and Mrs. Herriek Warner Baxter and Alice Joyce.

Meets True Parents. It is here that she meets her true parents. Martin has to leave early, and Terry Allen, also present, manoeuvres himself in to a position of taking the girl home, really against her wishes.

He tries to gain entrance to her room, and on being repulsed climbs in through a window and secretes himself in her closet.

When he emerges and tries to force his attentions on her, a scuffle ensues, and he falls on her. This contains an ornamental dagger. This pierces his heart and he is killed.

The girl is arrested and charged with murder—just at a time when the "Sexless Justice" articles, written by her lover, are swaying the jury against her in a court presided over by her true father. The climax of the picture is smashing and dramatic in its tenderness.

Can a woman who longs for a career be happy when she has achieved success, accumulated money and gathered in everything her heart desires—except love?

That is the story of Maggie Keenan, as played by ZaSu Pitts in "Pretty Ladies," a Metro-Goldwyn-Mayer production being shown at the Westholme Theatre tonight.

Maggie was the star of the show. She brought down the house every time she appeared behind the footlights. Her name was in front of the theatre in electric lights. The papers were full of stories about her and her audience always greeted her with a loving warmth but that didn't make her happy.

She had everything she wanted—but a man.

After the night performance she saw the chorus girls met by the stage door Johnnies and their "millionaire friends" but the only man she ever had to take her home was her chauffeur.

Finally she managed to gain the attention of a drummer in the orchestra and from that moment on it was a struggle to keep him from a blonde vampire who didn't want him but wanted to show there wasn't a man on earth who could resist her charms.

The story is colorful and human and it will do much to brighten the lives of those who find themselves loveless yet longing for love.

"NEW COMMANDMENT" MIDWEEK PICTURE

Full of Thrills, Romance, Drama, Laughs and Pathos

"The New Commandment," a society melodrama, comes to the Westholme Theatre next Wednesday and Thursday. It is Robert T. Kane's initial production under his own banner for First National release.

"The New Commandment" is a screen adaptation of Colonel Frederick Palmer's great novel, "Invisible Wounds." Sada Cowan and Howard Higgin made the screen adaptation. Higgin also directed this screen masterpiece.

Blanche Sweet, Ben Lyon, Holbrook Blinn, Effie Shannon, Geo. Cooper, Pedro De Cordova, Diana Kane and many others are seen in the greatest roles of their careers in "The New Commandment."

It is full of thrills, romance, drama, laughs and pathos and offers the patrons of the Westholme Theatre one of the most unusual cinema treats of the year.

### DEATH DUE TO AN ACCIDENT

Circumstances of Drowning of Erling Berg Investigated Before Coroner on Saturday

That deceased came to his death through accidental drowning in falling from a wharf in the vicinity of the old Rupert Marine Ironworks plant was the verdict of the jury which sat before Deputy Coroner J. R. Tan-nock on Saturday afternoon to investigate the circumstances of the death Thursday night last of the late Erling Berg. The following rider was appended to the verdict: "The jury is of the opinion that, on account of the wharf being in a very bad state of repair, immediate action should be taken by the owners of same to put it in a good state of repair or close it altogether as, in its present condition, it is a danger and menace to the public at large."

Witnesses at the inquest were City Police Constable Alex MacDonald, Chris Johnson, Einar Tetli and Dr. H. E. Tremayne. In giving their evidence, Johnson and Tetli said that they heard deceased fall in the water but, being under the influence of liquor and confused, they failed to report the happening. The deputy coroner advised them that in failing to do this they might easily have become involved in serious difficulties themselves. It was the duty of all persons, under such circumstances, the deputy coroner stated, to report at

#### A FOND FAREWELL.

A minister in a certain town in Alabama took permanent leave of his congregation in the following manner: "Brothers and sisters, I come to say good-bye. I don't think God loves this church, because none of you ever die. I don't think you love each other, because I never marry any of you. I don't think you love me, because you have not paid my salary. Your donations are moldy fruit and wormy apples, and by their fruits ye shall know them." "Brethren, I am going away to a better place. I have been called to be chaplain of a penitentiary. Where I go ye cannot come, but I go to prepare a place for you, and may the Lord have mercy on your souls. Good-bye."

### EASTER MUSIC AND SERMONS

Season Appropriately Observed at all City Churches Yesterday

Easter Sunday was celebrated with special services in all the Prince Rupert churches. The various meeting places were beautifully adorned with seasonal decorations; congregations were large and there were appropriate and special musical programs and sermons.  
At the morning service in the First United Church, fourteen new members were received. In the afternoon there was an open session of the Sunday School at which Rev. Thomas D. Rinde of the Lutheran Church gave a fine address on the Easter subject. In the evening there was an augmented choir which sang two anthems. At both morning and evening services, Rev. G. G. Haeker preached Easter sermons.  
At Rupert East United Church, there were both morning and evening services with Rev. Evan Baker as pastor. There was also special music.  
A feature of the services at the First Presbyterian Church was the singing of the Junior choir in the morning. John E. Davey is doing a wonderful work with the children and, besides having reached a state where they are an enjoyment for any congregation, the members themselves are being given valuable vocal training. At the evening service, there were anthems by the choir and solos by Mrs. Jarvis McLeod, Mrs. H. C. Fraser, Mrs. R. A. Harlow, Miss Catherine Jones and a quartet by Mrs. Harlow, Mrs. Fraser, A. Clapperton and J. E. Davey, Rev. Dr. Charles J. Cameron preached eloquent sermons both morning and evening.  
At the Baptist Church there were appropriate sermons by Rev. E. G. Turner and special music.  
In the St. Paul's Lutheran Church there was communion service in the morning with the Sunday School and choir rendering the evening service. Rev. Thomas Rinde officiated.  
St. Andrew's Anglican Church also held communion in the morning with special music then as well as in the evening. Rev. Walter Allen officiated.  
The season was also appropriately observed by the Salvation Army and there was the usual Easter services at the Catholic Church with splendid choral efforts under the direction of Charles P. Balagno.

Mountain observation cars will be placed on service between Smithers and Prince Rupert on June 1, it is announced at the Canadian National Railway city ticket office.

Dr. F. P. Kenny, who has been in Victoria for the past few weeks recovering from the effects of a recent severe strain, return-

ed to the city on the Garden last evening.

R. G. Johnston, manager of Inverness Cannery, and Mrs. Johnston were arrivals from Victoria on the Gardena last night.
