## McGEER TO CARRY LIBERAL BANNER AGAINST McRAE IN NORTH VANCOUVER

**Liberal Party is More United Than Ever, says W. L. Mackenzie King**

SASKATOON, Aug. 9.—W. L. Mackenzie King, in addressing a huge meeting here on Saturday evening, said it was a sort of birthday as it was seven years since he entered with great humility upon the leadership of the Liberal Party.

"I feel that at no time in the history of Canada has the liberal party been more united from the Atlantic to the Pacific," said the ex-premier. The unity of the country itself was demonstrated at the last session of Parliament by the working together of Liberals from Saskatchewan with those from Quebec.

Mr. King urged that the railways of the country be placed under the direction of Hon. Charles Dunning who "is as able an administrator as ever controlled the railway department of any government." This could be done by returning the Liberal party to power, as he believed would be done next month.

**FRESH SALMON KETCHIKAN TO NEW YORK CITY**

Car Loads Going Through Tomorrow From Power Boat Bellingham

Fresh salmon packed in ice is being shipped through Prince Rupert from Ketchikan to New York City. Last week a full car load of fresh salmon was caught here by the Bellingham and successfully despatched, and by two car loads of the same product is being trans-shipped through here also consigned to New York. It was sent by the Atlantic and Pacific Packing Co. and is consigned to the Universal Salmon Corporation, one of the largest companies in the United States. The Bellingham could have been here early this morning but was held up by fog outside.

It is understood that if these shipments arrive in good condition regular consignments will go through this port.

**CRIME AT OAK BAY, VICTORIA**

An and Woman Found in Dead Street Home Both Shot to Death.

VICTORIA, Aug. 9.—Shot to death, the bodies of Gerald P. Haddon, 42, and wife, 28, were found in their home, Deal Street, Oak Bay, on Sunday and the police believe it to be a case of murder and suicide.

The tragedy is thought to have occurred Saturday night. Haddon, who was secretary of the Dundee mines, had resided here for fifteen years, both he and his wife coming from England.

The motive of the crime has not been determined by the police officials, unless a sister of Haddon's may have affected his mind.

The eastbound train will not leave today until 6:30 p.m., having been held until the arrival of the steamer Prince Charles which is due in port from the south at 5 p.m.

**NOTICE TO LIBERALS OF SKEENA RIDING**

The Liberal committee rooms, 303 Third Ave., next to the Electric Bakery, will be open this afternoon and evening and every afternoon and evening thereafter until election day.

## GIRL TELLER BANK DENIES FORMER STORY

Fired Building to Cover Records and is Charged With Arson and Theft

REGINA, Aug. 9.—Emma Lindblom, former teller and accountant in the Bank of Toronto branch at Preeceville, was in the provincial court Saturday to answer to charges of arson and theft of \$120 from the bank and was remanded for eight days.

On May 29 she told of an alleged holdup at the bank to the effect that three masked men entered her room half a block away, drugged her and carried her to the bank where after beating her she opened the vault door. She made the statement here that the men had cruelly beaten her, poured oil over her head and threatened to set fire to her person if she did not do as commanded. She recited how she had put up a fight by finding herself faced with a gun, acquiesced to their demands. She recounted now she escaped from the burning building after she had been bound and gagged.

This occurred when she was found in the back yard of the bank next morning, but now Miss Lindblom, according to the police, says all this was a concocted story to cover up her action in firing the bank records.

## RAILROAD AND INDUSTRIALS ON THE JUMP

General Motors Go Up Five Points And Other Stocks Advance Less.

NEW YORK, Aug. 9.—Aggressive bidding for railway and industrial shares created a bullish enthusiasm in the stock market this morning. This was heightened by enormous buying in General Motors, which jumped five points. Numerous other issues advanced one to five points.

## WAR ON BEER PARLORS BY PROHIBITIONISTS

Rev. R. J. McIntyre Sets Forth Aims of Group at Meeting in Vancouver.

VANCOUVER, Aug. 9.—The Province today says action is likely to be advised by the city health committee at a meeting today against persons responsible for the cremation of Shaikh Singh, the East Indian killed at the level crossing accident at Marpole whose funeral pyre attracted the attention of many residents near the old Indian Reserve in the Kitsilano district at the week end.

## MOSCOW DENIES ALL INSURRECTION STORIES

MOSCOW, Aug. 9.—Reports emanating from Bucharest of the serious widespread insurrection in Russia is denied here as a "shameless fake." The same denial is made of reports that Trotsky had fled from Moscow and that there was an uprising in the Ukraine.

**BIG LEAGUE BASEBALL**

American League

Washington 4, Cleveland 7, Philadelphia 6, Chicago 5, New York 3, Detroit 8, Boston 4, St. Louis 2, Cincinnati 0, New York 6, St. Louis 3, Brooklyn 2.

## MANY DROWNINGS IN EAST OVER WEEK-END

NEW YORK, Aug. 9.—Thirty-five drownings, ten near Buffalo, where scores of bathers were suddenly swept into Lake Erie by an undertow from a huge swell Sunday evening, eleven in New England and 14 in the vicinity of New York, were reported over the weekend.

Statuette of the Prince of Wales on his thirty-second birthday by Charles Jagger for Lord Esher. He is represented in tennis flannels.

## G. G. McGeer Carries Fight Into North Vancouver Against General McRae Under the Liberal Banner

NORTH VANCOUVER, Aug. 9.—After Ian Mackenzie, M.L.A., and other nominees had withdrawn their names, G. G. McGeer defeated Rev. P. C. Parker of Gibson's Landing at the Liberal convention Saturday night for the right to oppose General A. D. McRae, Conservative candidate, at the federal election.

Outlining his platform in his pre-nomination speech, McGeer said his first plank was "removal of the discrimination in railway rates to British Columbia." He further said he favored the purchase by the Canadian National of the Pacific Great Eastern Railway and its completion into the Peace River country.

If elected, Mr. McGeer said he reorganized the harbor board would insist upon the completion of the board and construction of piers of the C.N.R. terminals on Burrard and elevators on the north end Inlet and declared he would shore of the inlet.

## Mackenzie King Defends the Character of Hon. Geo. Boivin Who Died in States on Saturday

PHILADELPHIA, Aug. 9.—Hon. George Boivin, minister of customs in the Government of W. L. Mackenzie King, died here Saturday following an operation for appendicitis.

SASKATOON, Aug. 9.—"I have only this to say for Mr. Boivin, that he died as he lived, placing his life as a sacrifice on the altar of his country," said Ex-Premier King, in the course of a campaign meeting here Saturday night.

The Liberal leader dealt with the charges made against the late minister of customs during the last Parliament, referring to them as "one of the most vicious attacks brought against the character of a public man." He quoted the words of Boivin's defense in the House of Commons in June and reminded the people of Canada of their debt to the men in public life.

A donation of \$25 toward the Boys' Band fund has been received from George Rorie.

## Premier Meighen When Nominated Defends His Policy Regard Railway

WINNIPEG, Aug. 9.—Denying the statements of his opponents in connection with freight rates, Hon. Arthur Meighen, premier of Canada, in accepting nomination again for Portage La Prairie, said he did not believe in statutory rates. He believed in rates fixed by the commission and regretted that the commission did not enjoy the confidence of the people it should enjoy. He proposed that every part of the country should be treated alike in railway matters. He did not propose that special assistance should be given by the whole of Canada to bear the burdensome railway weight which now rests upon people in the extremes of Canada.

Mr. Meighen discussed the events leading up to what he termed as the ignominious flight from office of the King Government in order to escape a vote of censure in regard to customs department revelations.

He also said that the suggestion he intended to create a great railway monopoly was the result of a malevolent imagination from beginning to end.

He wanted the two railway systems to continue and the Government proposed to be absolutely fair between them, only seeing that each fulfilled its function.

## STRUCK BY ROOT WHEN OUT WALKING

New Westminster Baker Killed Result of Blasting Operations in West Burnaby

VANCOUVER, Aug. 9.—When he was struck on the head by a tree root thrown with great force 500 feet in blasting operations Fred Pehlow, 24, a baker of New Westminster, was almost instantly killed on Saturday.

The victim was walking on Stride Ave. in West Burnaby when the accident occurred.

Harry Crowther, allegedly in charge of the blasting operations, was placed under arrest on a charge of manslaughter. He claimed to have a special permit for blasting on Sunday and declared warning had been given. He was released on \$5,000 bail.

## ANOTHER QUAKE IN CALIFORNIA TOWN

VENTURA, Calif., Aug. 9.—An earth tremor of three seconds duration was felt here last night and of sufficient force to shake the crockery from shelves and swing chandeliers. The tremor was accompanied by a rumbling sound. The shock was also felt in Santa Barbara but no damage resulted.

## TEN DROWNED IN LAKE WHEN BATHING

BUFFALO, Aug. 9.—Ten young people are believed to have been drowned when several parties of bathers, at beaches along the seashore of Lake Erie, were caught in a treacherous and overpowering undertow yesterday evening and carried out into deep water.

## DID NOT FIND BODY OF LORD KITCHENER

LONDON, Aug. 9.—Official denial of the reported finding of Lord Kitchener's body on the shores of Scandinavia and its interment there is given in a report of the loss of the Hampshire off the Orkneys in 1916.

## CONTRACT LET AT VANCOUVER FOR NEW HOTEL

OTTAWA, Aug. 9.—Arrangements have been completed with the Canadian National Railway for the erection of a 500 room hotel at Vancouver. The contract, which has been officially approved by the government, provides for redemption of the agreement between the Canadian Northern Railway and the Government.

Contract for the work has been let to the E. J. Ryan Contracting Co.

## ATTEMPT KILL GREEK PREMIER

Man Seized as He Flashed Revolver in Front of Pangolos in Hotel.

ATHENS, Aug. 9.—An attempt made to assassinate Premier Pangolos while he was luncheon at an hotel at Septsia was foiled by other guests. A merchant of Kilokastro named Antonopoulos was seized as he flashed a revolver before the Premier and before he could fire it.

The Premier was undisturbed and continued his meal. Perfect order prevails throughout the country.

## SIX VICTORIES B. C. CRICKET

Team From This Province Took Everything in Sight at Tournament

EDMONTON, Aug. 9.—British Columbia's team finished up in a blaze of glory at the conclusion of Western Canada's cricket tournament Saturday, registering the sixth win in as many starts, the victim in the last fixture being Alberta. The scores Saturday were B.C. 142 for five wickets; Alberta 131.

LADIES' MEETING

An organization meeting of all ladies who favor the candidate of J. G. Brady will be held at the Conservative Committee Rooms, opposite the Federal Building, on the evening of August 9. All those who are willing to assist in the election of the candidate are cordially invited. 185

### DAILY EDITION

Monday, August 9, 1926.

Boost your town and the town will boost you.  
Knock your town and you'll get the knocks back.

Gertrude Ederle  
Latest Heroine.

Gertrude Ederle, who has accomplished the marvellous feat of swimming the English Channel, a distance of approximately 21 miles, from Cape Griz Nez in France to Kingsdown in England and thus not only being the first woman to accomplish this great endurance feat, but also beating the time record of the five men who preceded her, is being acclaimed as somewhat of a heroine. She is only nineteen years of age yet was able to do what mature men failed to accomplish.

It has often been said that women are able to endure more than men and this seems to prove the case. At any rate it was a marvellous feat and the girl will find her way open to the movies and to a good many other walks of life if she wishes to accept.

Shipping Ore From Porcher Island.

Last week a shipment of eighty tons of high grade gold and copper ore was made from the Patterson mine at Surf Point, near Welcome Harbor, the second shipment to be sent out by the owners, Messrs. Patterson and Wright. If this brings the returns expected, it is probable it will be followed by regular shipments and that machinery will be installed which will make this a regular shipping mine.

This will be the nearest operating mine to Prince Rupert, being a little more than twenty miles away on Porcher Island, just across Chatham Strait. It is bringing mining close home to Prince Rupert and should arouse interest in future prospecting.

**Liberal Candidates Are Nominated.**

Although a little slow in getting under way, the Liberal party has now nominated candidates in all British Columbia constituencies with the exception of Victoria and Comox-Alberni. In Victoria it has been found difficult to find a suitable man to oppose Hon. S. F. Tolmie and in Comox they have endorsed the independent, A. W. Neill, who supported the Mackenzie King Government throughout the session.

The nomination of McGeer in North Vancouver will make two particularly interesting contests in the Vancouver area. There will be the battle royal between Hon. H. H. Stevens and Dugald Donaghy and this fight between A. D. McRae, former leader of the Progressives against G. G. McGeer, leader of the freight rates fight for British Columbia. Others will doubtless develop interest as they progress, but they will hardly be watched by people of this district as will these two.

**Prairie View of Election Situation.**

The Edmonton Bulletin in a leading editorial article says: One matter which the farmers of Alberta cannot afford to overlook on voting day is how the question of freight rates on prairie products to Pacific ports would fare at the hands of the Meighen Government.

That is not by any means an exclusively western question; witness the fact that Mr. Meighen and Senator Robertson made it an issue for a very plain declaration of policy in the eastern provinces during the election campaign last fall.

Speaking at Halifax last September, Senator Robertson led off on the freight rates question in this fashion: "The latest blow which the Government has struck at the rest of the country came with the recent judgment granting reduced rates on grain and flour to British Columbia. This meant a further tax of \$15,000,000 a year on Canadian railways. This was in addition to prior gift to the prairies which cost the railways \$26,000,000."

Mr. Meighen followed the Senator in this strain: "There had been a measure of relief in rates to the west which was utterly indefensible."

And again: "The Government by legislation had granted the Grow's Nest rates on grain and flour to the west and in this way riveted the high rates prevailing on to the Maritime provinces."

So refreshing and satisfying!

# SHREDDED WHEAT

with berries and cream

## HOOT GIBSON COW PUNCHER

In the big picture at the Westholme tonight Hoot Gibson takes the part of a cowpuncher on the Bar X Ranch in Wyoming. He is an ardent amateur photographer and endures with a grin the jibes of his companions on account of his fondness for the camera. His father is the owner of the Triangle T Ranch in Texas, the foreman of which is Don Barton who is involved in a plot to steal the sheep of Farlane Senior. Barton is discovered by the ranch owner and shoots the latter.

Jane Terrill, a summer visitor, sends Zack Peters, an old friend of the family, to seek Tom and inform him of his father's death. Zack finds the youth, who returns with him to Texas. Arriving there, Tom assumes the disguise and manners of a gentle city youth and lulls the suspicions of the desperados. He falls in love with Jane but she repulses him, questioning his character, on account of his masquerade.

Eventually, Tom accomplishes his mission and is materially aided through his love for his camera. How he completes his task and establishes himself in the good graces, is most originally and uniquely worked out in one of the best western stories ever told on the screen.

## "MEMORY LANE" IS ROMANTIC STORY OF EVERYDAY PEOPLE

"Memory Lane" is a romantic story of everyday people. There is as much romance in the family wash tub as in a king's castle—if you get it out.

This is the theory of John M. Stahl, film producer, who says that he would rather make pictures the characters of which are common everyday folk than those displaying millionaires and royalty.

"It is the everyday folk about us that makes the world go round," he explains. "All in all, they are vastly more important than the persons who stand on top of the earth and conclude that everyone else is hidden in their shadow."

"I believe that the romance and drama in the average American home eclipses anything that ever can happen within the gilded doors of kings or the socially elect."

## "HIS PEOPLE" STORY OF JEWISH LIFE IN NEW YORK GHETTO

As though the outside wall of a New York Ghetto tenement house had been removed and the life of one of the families studied without their knowledge, appears the tale of the Cominsky family, as unfolded in "His People," the newest Universal-Jewel, here at the week end.

It is a cross-section of life viewed from a perspective. There are in this picture, no improbable high society revels, no painted flappers, no Roman orgies—but a clean, wholesome story, the dramatic unfolding of events in a plain family.

"His People" is the long-awaited picture in which Rudolph Schildkraut, beloved stage star of millions on the continent, and master of four hundred roles, makes his American debut to the screen.

A sweet love theme runs through the picture. It is the fine embroidery on a linen table cover. And to add further interest to the two young players who enact the roles of the lovers, this is the first dramatic photoplay in which either of them have appeared to advantage. They are Blanche Mehaffey, former Folies beauty and Hal Roach, comedy player, and George Lewis, handsome young juvenile, who was an extra in "The Thief of Bagdad."

Rosa Rosanova, Russian dramatic star, who made such a sensational hit in "Hungry Hearts," once more plays a mother role, in her own inimitable way; and her tenderness and strength of appeal makes her one of the outstanding performances of the year.

Village Worker—We are having a raffle for poor old Widow Jones. Will you buy a ticket?

Owd Tim — No! Oi couldn't keep the owl lady if oi won'er! —London Opinion.

### THE MAN IN THE MOON

says:

The grindstone postpones the tombstone, therefore grind.

I heard a joke the other day. It was to the effect that Brady was going to be elected in Skeena riding.

What I like about elections is that it gives people something more than weather to talk about.

And then think of the kind of people who hobnob with each other at election times!

Who ever heard of a boy taking soap with him on a holiday?

It is said that Gertrude Ederle did not stop once to powder her nose in her successful swim across the English Channel on Friday.

The can opener was recently lost in our house so the family had to be content reading the description of the contents of the food containers from the labels.

A woman who began life as a stenographer has recently made \$4,000,000. I think I could make more than that on a typewriter but only in figures.

House cleaning time in Japan is supervised by the police. That might be a good idea in this country. Pa would then perhaps be able to find his extra collar button.

When we get that radio broadcasting station fixed up in the city, why not advertise ourselves by arranging for a half but to whistle over the air?

The man who gets away with a lot of puffing these days is Joe on the steam roller.

For real amusement try a little tarvia on the scalp.

The slogan at the city hall these days is "Are you tarvia-ing?"

Lots of youngsters believe in flying their kites.

When purchasing macaroni it's a good idea to blow down each piece and see that it is working right.

"Page me a horse" cried the motorist when his flivver broke down.

Cornelius Vanderbilt Jr. has lost a fortune in newspaper enterprises. That's what comes of starting at the top.

I hear of a man who recently quit horse racing for politics. He must have been tipped off on a sure thing.

The Conservatives boast of a piano in their committee room. They must be going to set some of J.C.'s speeches to music.

A hick town is where the "juice" plant has only one driving belt.

### WATER NOTICE

#### Diversion and Use

TAKE NOTICE that Somerville Cannery Company Limited, whose address is one Avenue West, Vancouver, B. C., will apply for a license to take and use water from streams or water out of unnamed streams, which flows northerly and drains into Pergola Bay, Masset Inlet, about 4 miles from the northern end of Lot 131, Queen Charlotte Island District. The water will be diverted from the stream at a point 5 chains in a south westerly direction from the W. corner of Lot 1571, Q. C. Dist. and will be used for the purpose of irrigating a farm of 100 acres.

TAKE NOTICE that Edwin Jules Eggert, of Aten, in the Province of British Columbia, occupation operating tourist launch, intends to apply for permission to pursue the following described lands:

Commencing at the northeast corner of Glacier Bay, in Aten Lake, situated as above; thence following the shore line west 20 chains; thence north 20 chains; thence east 20 chains; thence north 20 chains, to point of commencement.

DATED July 30th, 1926.

E. ROUSSEAU,  
Applicant.

It looks creamy  
It tastes creamy  
It is creamy

## We Appreciate the Compliment and the Challenge

TODAY, Carnation is the world's leading brand of evaporated milk. We appreciate the compliment—and the challenge.

For such preference is a challenge to make Carnation Milk a finer and finer product, ever improving its goodness whenever opportunity offers.

It is because we have assumed this obligation that users of Carnation today find it more delicious and satisfying than ever before.

Carnation's creamy richness and uniformity makes everything prepared with it taste better. Used as cream, undiluted, it cuts your cream bill in three.

Are you using Carnation? If not, include a few cans in your next grocery order and make the world's favorite milk your favorite.

**SCALLOPED POTATOES.**—Six medium-sized potatoes, 1½ tsp. salt, few grains pepper, 3 tbsp. butter, ¾ cup Carnation Milk diluted with ¼ cup water, 2 tbsp. flour. Place diluted milk in a double boiler to scald. Pare, soak and slice potatoes in ¼-inch slices. Place a layer in buttered baking dish, sprinkle with salt and pepper, dredge with flour, and dot over with bits of butter. Repeat and add the milk until it can be seen through the top layer. Bake in a 350°F. oven until the potatoes are soft. This serves six.

Send for free copy of Mary Blake's Cook Book. Address Carnation Milk Products Company, Limited, 134 Abbott St., Vancouver, B. C.

F. B. St. Amour is booked to  
sail on the Prince Rupert today  
on a holiday trip to Vancouver  
and southern cities.

For being intoxicated in a  
public place John Johnson was  
fined \$25 and costs in the city  
police court this morning.

W. Longwill is booked to sail  
on the Prince Rupert this after-  
noon on a combined business  
and pleasure trip to Vancouver.

Kelly Staff was fined \$25 and  
costs by Magistrate McClymont  
in the city police court this  
morning on a charge of intoxica-  
tion.

J. Alexee, Indian, was fined  
\$25 and costs in the city police  
court this morning on a charge  
of having intoxicating liquor in  
possession.

G. H. Arnott of the Rupert  
Table Supply is camping across  
the bay with his family and will  
leave this week for Vancouver  
to complete his holiday.

Victor Johnson appeared before  
Magistrate McClymont in the  
city police court this morning  
on a charge of intoxication  
and was fined \$25 and costs.

Jacob Govingbo was fined \$25  
and costs in the city police  
court this morning by Magis-  
trate McClymont on a charge of  
being intoxicated in a public  
place.

Commissioner and Mrs. Rich-  
ardson of the Salvation Army, who have  
been giving special services in  
the city, are booked to sail on  
the steamer Prince Rupert to-  
night for Vancouver.

A fire occurred yesterday af-  
ternoon at the Salt Lakes when  
the roof of Bruce Lowe's log  
shack, situated on Crab Alley,  
caught fire as the result of  
sparks from the chimney. A  
bucket brigade was quickly formed  
which succeeded in extinguishing  
the flames before any great  
amount of damage was done.

Mr. and Mrs. Dan Williams  
arrived from Hyder this morning  
on the Prince Rupert, having  
proceeded down the Portland  
canal to the neighboring Canadian  
city en route to Ketchikan. Mr. Williams  
looked over some mining properties while in  
the Hyder district and will spend  
some time in Ketchikan on a  
similar mission before returning to  
Juneau.—Ketchikan Chronicle.

## BRITISH COLUMBIA

### The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1925.

Has produced Minerals as follows: Placer Gold, \$77,663.045; Lode Gold, \$122,808,-  
459; Silver, \$74,111.397; Lead, \$89,218.907; Copper, \$197,632.647; zinc, \$39,925.947;  
Miscellaneous Minerals, \$1,594.387; Coal and Coke, 273,048.953; Building Stone,  
Brick, Cement, etc., \$44,905.886; making its Mineral Production to the end of 1925  
show an

### Aggregate Value of \$920,919,628 Production for Year Ending Dec. 1925, \$61,492,242

The Mining Laws of this Province are more liberal and the fees lower than  
those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which  
is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained  
gratis by addressing—

THE HON. THE MINISTER OF MINES  
Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which develop-  
ment work has been done are described in some one of the Annual Reports of the  
Minister of Mines. Those considering mining investments should refer to such re-  
ports. They are available without charge on application to the Department of Mines,  
Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published  
separately, and are available on application. Reports of the Geological Survey of Can-  
ada, Winch Building, Vancouver, are recommended as valuable sources of informa-  
tion.

## ALPINE CLUB ENDS MEETING

Camp Closed at Week-End After  
Turret Peak Scaled For First  
Time and Women Conquer Geikie.

JASPER, Aug. 9.—The Alpine Club of Canada closed the most successful camp in its history yesterday, the final hours being marked by two outstanding climbs. The first was the ascent of Turret Peak, of the Rampart Range, hitherto unclimbed, and the second the climbing of Mount Geikie by two women.

### Turret Peak

To A. W. Drinnan, of Calgary, and Lawrence Grassi, of Canmore, Alberta, goes the credit for the conquering of Turret Peak, recognized as the most difficult of all the peaks of the Rampart Range and a climb comparable to any rock climb offered by the Alps of Switzerland. These two Alpinists, probably the finest pair of rock climbers the club has seen, made the ascent and descent of Turret Peak in record breaking time and it is improbable that their feat will ever be equaled. They left the inkwells at the foot of the mountain at 4:30 a.m. and were on the summit at 9:30 a.m. and back at the base of the mountain again at 1:30 p.m. Both describe the mountain as an extremely dangerous climb. They found the entire top to be composed of huge boulders held together only by frost and ready to topple with the first long spell of warm weather. When they neared the top they came upon a face of rock which they describe as an absolute double of the famous sphinx of Egypt and for a time they thought its shape would prevent them from reaching the peak. They discovered a narrow ledge running around the north face of the mountain, however, and, by creeping along this they were able to locate a route to the peak. The ledge was so narrow that only one man could negotiate it at a time and it was necessary for both to discard their climbing boots and to put on rubber soled shoes to get across it.

### Woman Climber

Miss Esther Thomson, of Winnipeg, a member of the staff of the Manitoba Agricultural College, will be officially credited with being the first woman to ascend Mount Geikie, 10,800 feet. She, with Harold Graves, of Vancouver, H. F. Thomson of Regina, and Hans Fuhrer, of Jasper Park Lodge, composed the first rope, and they arrived at the top of the mountain about half an hour in advance of the second rope, which comprised Rev. R. Sharpe, Cleveland, Ohio, Mr. and Mrs. Don Munday, of Vancouver, Mrs. Munday was the first woman to reach the top of Mount Robson in 1924.

The ascent of Mount Geikie by these parties occupied twenty-one hours. They left camp at 3:30 Friday morning and did not arrive back until 12:30 the following morning. The top was reached about one o'clock noon Friday. Those who accompanied Miss Thompson give her great credit for her ability as climber, Hans Fuhrer, the Swiss guide, describing her as the best woman climber he has ever seen. The descent of the mountain was probably more difficult than the ascent as the most of it had to be done in the dark and more than three hours were occupied in laboriously cutting steps down some of the precipitous rock slopes.

## WHEAT YIELD IS AFFECTED

**Hot Weather Injured Prairie Crop But Not So Bad in Northern Districts**

The Bank of Montreal weekly crop report says:

Lack of rain and hot weather over almost the whole of the prairie provinces are causing wheat to ripen prematurely and are materially reducing yield, although scattered areas report that conditions are satisfactory.

In Manitoba cutting will be general within a week. In Quebec all crops continue to progress favorably but now need rain. In Ontario recent rains, followed by warm, bright weather, have improved crops and pastures and conditions are promising.

Another old world fashion has been revived to enliven the monotony of modern high and low waist lines.

This is the adoption of sashes for evening wear hung from the shoulder to waist and finished with fringes at the side.

Plaid sashes are very much in

## BRINGING UP FATHER

favorable, although rain will be beneficial in some localities. In British Columbia crops generally are doing well but rain is still badly needed. Details follow:

### Alberta

Western Area—Conditions generally continue satisfactory, with exception that lack of moisture has reduced estimated yields in limited areas. North Eastern Area—Crops on well-tilled lands are progressing fairly satisfactorily in spite of prolonged drought. Scattered showers and even good rains recently reported from different areas will benefit. Prospects remain unsatisfactory in Chipman and Vegreville and on eastern border of the province. South-eastern Area—Weather conditions continue unfavorable. Wheat yield on the best dry lands is estimated about 10 bushels per acre. Balance is poor to bad but irrigated crops are good.

### Saskatchewan

Northern Area—Crops continue to suffer from not dry weather and conditions are unsatisfactory in central and south, where yield will be light. Prospects are materially better in north. Southern Area—Excessive heat and lack of moisture have caused damages and yield will be generally light north of Canadian Pacific main line. Conditions are still fairly satisfactory in south.

### Manitoba

Extreme heat has continued with only local showers and deterioration has taken place. Crops are now far advanced and will not suffer serious damage from rust.

### British Columbia

There is an average yield of grain. Harvesting of oats and barley is well advanced. Potatoes and roots are doing well but would be better with more moisture. Apricots, peaches, plums and prunes are somewhat above average. Apples should be above average, but the intense dryness prevailing will reduce the yield of late varieties, unless shortly relieved. Hops are doing very well and a good yield is expected. Pastures need rain and dairy cattle are being fed in the interior.

## LONDON FASHIONS

**New Idea for Evening Wear Started by Royal Family: Paisley Shawl Used;**

### Sashes are Used

LONDON, Aug. 9.—One of the ladies of the Royal family has started a new fashion for women's evening wear.

She appeared in the Royal box at Covent Garden with a large rosette of rose-tinted tulle on her left shoulder instead of the ordinary posy of flowers.

Worn on the shoulder strap of her gown, the effect was striking and already many society women have ordered similar shoulder puffs for their evening gowns.

Recent revival of the Paisley or Spanish shawl for afternoon and evening wear has induced arbiters of women's fashion to look around for something fresh for the society dame.

They have gone back as far as Queen Anne's time for their ideas and devised a shawl very similar to those worn in Queen Anne's days. It is a small affair triangular in shape made of bright colored crepe de chine with fringes at the side.

Another old world fashion has been revived to enliven the monotony of modern high and low waist lines.

This is the adoption of sashes for evening wear hung from the shoulder to waist and finished with a big loose bow. Plaid sashes are very much in

vogue, and mostly hang from the left shoulder to the right side of the waist line. Plaids also are being used in material for evening gowns but usually the plaid sash is worn over a simple frock of white or light colored material.

Artificial silk experts will earn the thanks of the modern miss by putting a new shower-proof stocking on the market.

In this rainy climate city, girls either have to change their stockings after a journey to own or go the rest of the day with mud splashes showing on their flesh colored hose.

The new invention, it is claimed, prevents mud and water from adhering and can be dyed any color.

## PARIS FASHIONS

**Dinner Jacket for Women Suitable to Smokers; No Full Skirts; Transparent Heels for Shoes**

PARIS, Aug. 9.—Why have smart women taken to a sort of sliding step like a mannequin's walk? queries a writer in a fashion magazine. Is this apparent imitation of the sprightly maidens whose life is devoted to showing off new styles merely vanity?

Not at all. The reason is that the heels of evening shoes now are made of crystal, or colored galalithe, and other transparent substances. The heel matches the necklace and they either contrast or harmonize with the color of the dress, which of course matches the shoe. A crystal necklace and crystal heels look wonderfully "chic" with black satin, and ruby or emerald with lame.

When the dinner jacket for women was started over a year ago—it was the house of Anna that started it—it was met with more ridicule than admiration. Nobody realized the extent to which it would "catch on."

A great many of these costumes now are to be seen at the smart restaurants in the Bois de Boulogne. When worn by really elegant women, says a writer in "A.G.B.", one of the leading magazines of fashion, they lose their slightly doubtful significance and are quite as pretty as the prettiest decollete. It is generally admitted that they go very well with short hair and the habit of smoking now so general among the sex.

One of the most effective seen lately was made of a sort of green silk rep' with thread lame and was worn with a skirt of pleated gold in lace.

Attempts to make skirts and corsages fuller and move the waist upward have not been crowned with success.

The straight outline, with pleated skirt and jumper, has been in vogue for a very long time, and still has the preference over more complicated styles.

Influential leaders in the dressmaking world like Madeleine Vionnet and Paul Poiret, however are endeavoring to bring about a reaction.

## NOT SUPERSTICIOUS

Policeman—This is the twelfth time I've seen you outside this bank.

Tramp—"Sall right, I'll be here again tomorrow. I'm not superstitious."

FOR RENT.—Five room house, Seventh Avenue West. Phone 730.

MODERN HOUSE for rent—Five rooms and bath. Munro Bros.

probably next spring, when it is expected the population of the city will be increasing with the operation of the elevator, a committee could be formed from the different sports organizations in the city and ways and means drawn up of financing such a project. If such a scheme is seriously mooted it would be well to include the provision of an indoor swimming tank in such a building. During the winter such an indoor attraction should prove a drawing card and one from which considerable revenue would be derived.

Earl Barrie brought up the suggestion of a central gymnasium in the city, with a fully qualified instructor in charge, at last week's Rotary luncheon. The suggestion is a good one and all those interested in amateur sport in the city would doubtless like to see such a suggestion acted upon. While it may not be an auspicious time just now to get such a scheme under way

**Well Known Man**

He lives in Prince Rupert.  
He got a little older.  
He lost his reading glasses.  
They had never been quite  
comfortable.  
They had been the best he  
could get.  
We examined his eyes.  
He needed distance glasses  
as well as reading glasses.  
He said no.  
We fitted reading glasses  
only.  
He went to Vancouver.  
He came back with distance  
glasses.  
He wears them all the time.  
Now his reading glasses suit.  
He is convinced now.  
It's a great life!

## Prince Rupert's Elevator is Described in Trade Journal Published in Chicago July 15

From The American Elevator and Grade Trade, Chicago, July 15.

Forty miles south of the Alaskan boundary line is Prince Rupert, on the west coast of British Columbia. It is the Pacific terminus of the Canadian National Railway and is 500 miles nearer to the Orient than any other port on the Pacific Coast. In addition to this it is two days nearer the Yukon and Alaska than any other Pacific Coast city of prominence. The climate is favorable, since it is in approximately the same latitude of Liverpool, England, which gives in this instance a mean temperature similar to that of the Mersey. The influence of the Japanese current prevents zero weather and work may proceed in the open all winter. The summer average runs around 55 degrees.

Most important, however, from the standpoint of the grain trade, is the fact that Prince Rupert is the logical outlet for the grain and other products of the Peace River Valley in Alberta and British Columbia, as well as for the already developed portions of the prairie provinces. Northern British Columbia lands have been held back by lack of transportation facilities, despite the knowledge that the great interior valleys contained immense areas of good agricultural lands easy to bring under cultivation. When Sir Wilfrid Laurier visited Prince Rupert over 15 years ago, he told about the aims and objects of the Grand Trunk Pacific, and said in part: "One of the chief advantages which the new transcontinental line has is the fact that it rolled back the map of the country by at least 1,000 miles. Beyond the mountains on the Pacific Coast are lands which for agricultural wealth cannot be equalled by the best fields in the Northwest."

**Steel and Concrete**

The elevator is of steel and reinforced concrete construction, and includes an excellent appearing array of buildings. The unit comprising the storage tanks measures 277½ feet in length and over 68 feet in width; the workshop is 62 by 94 feet; and the car unloading shed is 101 feet by 58½ feet. The storage capacity of 1,250,000 bushels is divided among 130 tanks of varying sizes. The 36 largest of these can hold 25,000 bushels each; 24 can handle 6,000 bushels each; 22 are of 5,000 bushels' capacity; 45 of 3,000; and the remaining storage units are constructed to hold 1,200 bushels apiece.

The receiving capacity of the house is 18 carloads per hour, and the shipping capacity is 50,000 bushels per hour. There are 12 grain cleaners, which make it possible to clean 45,000 bushels per hour. These are Monitor Wheat Cleaners, made by the Huntley Manufacturing Company, of Silver Creek, N. Y. A drying capacity of 1,000 bushels per hour is afforded by a Morris Grain Drier, which was furnished by the Strong-Scott Manufacturing Company of Minneapolis.

**Equipment**

The regular elevator equipment includes, in addition to the machinery already mentioned, two 9A Monitor Scalers, two two-high Carter Disc machines and one single Carter Disc. Clarke Automatic shovels, furnished by the Webster Manufacturing Company, Chicago, are used for unloading. Five 2,000-bushel scales were provided by the Gurney Scale Co., of Hamilton, Ont.

Electricity is used for power and light in the new elevator. Forty-five electric motors take care of the power item, and they aggregate 1,327½ horsepower. A 100-foot Morse Silent Chain Drive is used in connection with the power installation, to insure efficiency of power transmission.

There are 26 belt conveyors in the house, representing a total length of 13,000 feet. They range in width from 16 inches to 40 inches. The principal grains handled include wheat, oats and barley.

**Facilities**

The water transportation and harbor facilities, of which the elevator at Prince Rupert gets the fullest advantage, are a good deal better than average ports have to offer. The harbor is classed as one of the best, having an easy approach from the ocean, which is well marked with lights and buoys. It is 14 miles long by one to one and a half miles wide, free of currents and having no dangerous obstruction to navigation.

The harbor is open all year round.

**CANCELLATION OF RESERVE**

NOTICE IS HEREBY GIVEN that the reserve existing over Lot 4607, Cassiar District, at a post planted at the mouth of South Redhead Island; thence around the island at high water mark, and containing 50 acres, more or less, is cancelled.

ALFRED SWANSON, Applicant
