THREE THOUSAND LIVES LOST IN CHINA

MACKENZIE KING ATTACKS RAILWAY POLICY OF MEIGHEN GOVERNMENT

Three Thousand Lives Lost in China Result of Floods in Yangtze

HANKOW, China, Aug. 5.—The bursting of dykes on the Yangtze River in Hupoh province cause the loss of 3,000 lives and 2,000 miles of territory is flooded.

There has been an exodus of three quarters of a million farmers from the district to higher and safer land.

The city of Hankow, which was already inundated, was saved from what threatened to be one of the most disastrous floods in history by the breaking of the dykes.

Recent rains had swollen the river and reversing the current the sewers caused the water to overflow the city. The bursting dykes released the backing up water and the river front is being banked with sandbags. All available equipment was requisitioned for the strengthening of the banks and pumping out the streets.

Refugees are pouring into the larger centres.

The loss of crops, following upon the famine of last year, it is feared, forecasts disaster in the way of a food shortage during the coming autumn.

NEW SALMON GO UP THE FRASER

Reports That Low Water May Prevent Many Reaching Spawning Grounds This Year

NEW WESTMINSTER, Aug. 5.—Although a few sockeye salmon have already reached the spawning grounds, according to reports from Bridge River, Hell's Canyon, fears are expressed that the fish may experience great difficulty in going up the river in view of the possibility of the river falling to a lower level as a result of the unusually dry season.

There has been a decided improvement in the run this year over those of recent seasons and the officials of the fisheries department here.

Spring salmon are also reported to have had a good run.

CANOE UPSETS; LAD DROWNED

Bert Pitt, Britannia Beach Athlete, Meets Death in Small Lake.

VANCOUVER, Aug. 5.—News of the death by drowning in a small lake east of Britannia Beach of Bert Pitt, a prominent athlete of the Howe Sound settlement, was received last night when the body arrived here for burial.

Pitt was drowned on Tuesday, when the canoe in which he was paddling overturned, his companion making his way ashore.

GOLD FOUND IN ONTARIO

TORONTO, Aug. 5.—A spectacular discovery in the vicinity of Narro-wlake, 35 miles northeast of Red Lake in the Patricia district, is reported by Jack Lindsay, who has just come from that district showing samples of free gold.

The finds, if as reported, are the most important discovery in recent years. They have resulted in a rush from Hudson Bay Lake during the past few days.

HELD UP WOMAN MANAGER OF BANK

MONTREAL, Aug. 5.—Bandits held up Mrs. Dagenais, manager of the Provincial Bank of Canada at Mount Rolland, Quebec, about 45 miles from here and secured \$1,000, according to word received today.

SCALPS TAKEN IN BASEBALL

Indians Conquer in Big Fight With New York Yankees Yesterday

NEW YORK, Aug. 5.—Scalps were taken in the Indians' desperate stand against the most powerful of their American league foes, the New York Yankees. George Uhle, the big left-handed chief of the Cleveland tribe, wielded the bloodiest tomahawk in yesterday's conquest of the New Yorkers. The result is that today his warriors are only nine games away from the leaders.

While this crucial game was going on, Washington and Detroit looked in one of the most heated baseball discussions of the year, the Tigers capturing the first game in ten innings and the Senators the second in eleven. Joe Harris of Washington had two homers, the second settling the issue by scoring three runs in the final inning of the second game.

WESTONS WON CHAMPIONSHIP

Winnipeg Soccer Team Defeat Canadian Colliers in Fourth Game of Series

WINNIPEG, Aug. 5.—After playing their opponents to a tie three times previously during the past week, the United Westons of Winnipeg, yesterday won the Amateur soccer championship of Canada in a close game here, the score being one goal to nothing against the Canadian Colliers team of Cumberland, Vancouver Island, who held the western championship.

Seldom has there been a championship as closely contested as that which closed here yesterday. The United Westons defeated all the eastern aspirants in the semi-finals, and the Colliers boys after winning the championship of B.C. downed the colors of the Alberta and Saskatchewan champions.

Then the big tussle began here. Three consecutive games with overtime in the third ended in ties. Each team was confident and fought pluckily for the big honor. All over the country the results were being watched and yesterday's game was a fitting climax to a splendid series.

WILD ORGIES WERE UNTRUE

QUEBEC, Aug. 5.—Allegations of wild orgies and ministerial joy rides in the customs cruiser Margaret were branded as baseless, according to sworn testimony at the customs probe started by H. M. Stevens and the committee which opened before Sir Francois Lemieux today.

Former Minister of Justice Lapointe, former minister of customs bureau, Alfred Lacouve, master of the Margaret, all ridiculed the allegations. The sitting adjourned until Saturday morning for the production of the Margaret's log.

R. L. Calder, government counsel, announced that official documents of the cutter and examination of the members of the crew satisfied him that the statements attributed to A. D. Doucet, former Conservative member for Kent, N.B., and others were not based on fact but to meet the orders of the government and to satisfy public opinion he had called for the ministers and Lacouve, all of whom denied that Lapointe had once visited the boat, while Senator Doucet made three inspection trips.

Sir Francois refused to allow examination of Doucet, and announced that no interim report of the incident opened by the latter's speeches would be made at Ottawa.

CHARLOTTE IS IN COLLISION

VANCOUVER, Aug. 5.—While docking here from Nanaimo yesterday the Princess Patricia collided with the Princess Charlotte, denting one of the latter's stern plates above the water line and causing slight delay in her scheduled departure for Prince Rupert and Skagway.

Neither vessel suffered serious damage, the Charlotte sailing north at three o'clock this morning after an examination had been made by divers. The Patricia, however, proceeded to Esquimalt for further inspection.

Swiss Guide Carried Companion Over Two Miles Down Mountain Following Accident to Ankle

TONQUIN VALLEY, JASPER (By Courier).—A new name has been added to the roll of honor of the Alpine Club of the world, a roll already bright with many deeds of heroism and many examples of courage and fortitude. To this list is placed the name of Lawrence Grassi, of Canmore, Alberta, who this evening carried on his back over two miles of treacherous rock and glacier a companion who had been injured during descent from the top of Bastion Peak of the Rampart Range.

The accident, of which Dr. R. G. Williams of Calgary was the victim, was a simple one, a compound fracture of an ankle, caused by a slip from a loose rock near the peak of the mountain, but it occurred under conditions which might have been serious had there not been present some one of such resources, strength and agility as Mr. Grassi. The point where Dr. Williams was injured was one where rock slides are eminent at all hours and, and where to leave anyone unable to help himself was to court disaster. Realizing this, Mr. Grassi carried his unfortunate companion on his back down the steep slope across the drawbridge glacier and beyond it to the foot of the rocks into timber line where he was met by the rescue party sent out from the main camp.

Ascended Geikie

Mr. Grassi also figured in another event of importance over the week end when, in association with Andrew Drinnan, of Calgary, and Hans Fuhrer, Jasper Park Lodge Swiss guide, he made an ascent of Mount Geikie (10,854 feet) in the record time of 15 hours. It was his second ascent of this peak, the first having been made in 1924 with V. O. G. Wates, Edmonton, M. D. Geddes, Calgary, and Val Flynn, St. Louis, in 25 hours.

Redoubt Turret peaks still continue to baffle the climbers. J. W. A. Hickson, of Montreal, president of the Alpine Club of Canada, A. Howard Palmer, New London, Conn., president of the American Alpine Club, associated themselves with a reconnaissance of Redoubt yesterday but were un-

QUEBEC VILLAGE IS DESTROYED BY FIRE

High Wind Carries Flames, and Eighty Houses out of 92 Taken

QUEBEC, Aug. 5.—The village of St. Comede Kennebec, 7 miles from here, was practically destroyed by fire. Eighty houses out of a total of 92 were destroyed but there was no loss of life. Property damage it is estimated amounts to about half a million dollars.

The flames were fanned by a high wind and for two hours the village was ablaze, the flames sweeping through it like a trail of powder.

FLOODS IN JAPAN INUNDATE HOUSES AND A WHOLE CITY

TOKIO, Aug. 5.—Reports here of floods in Akita and Yamagata prefectures in northwestern Japan in which thousands of houses are inundated have been received here. The entire town of Honjo is under water and many casualties are feared. The Asahi River has risen 18 feet, doing heavy damage to farms and railways. Communications in that part of the country are interrupted.

HEAVY HAIL STORM IN REGINA DISTRICT

REGINA, Aug. 5.—Thousands of dollars' worth of damage was caused in the Regina district early today as the result of one of the heaviest hail storms in years. Large hail stones crashed through a thousand windows in the city, and sewers, streets and basements were flooded. The extent of damage done to the crops is not yet known.

LAVA INUNDATE ISLAND OF BALI

BATAVIA, Aug. 5.—The eruption of the volcano on the Island of Bali resulted in the inundation of the village of Batoer by a lava. The population of the village escaped.

NEWSPAPERMEN LEAVE FOR WEST COAST VANCOUVER ISLAND SEARCH FOR GOLD IN VALLEY OF SOMBRIO

VICTORIA, Aug. 5.—Planning to develop the gold deposits in the valley of the Sombrio on the West Coast of Vancouver Island, John Hickey and Jerome Eberts, British Columbia newspapermen, until recently employed in an editorial capacity on the Victoria Colonist, have left here for Port Renfrew.

The expectation of the two young scribes finding placer gold is confirmed by Rev. W. Ellison, Methodist missionary on the West Coast of Vancouver Island for 25 years, who told today of a friend who had been in the habit of going into the district each year and returning with a sack of gold.

"Gold is there," said Rev. Mr. Ellison. "I've seen it both up the river and down. Up the river it is coarse gold, while down at the mouth of the river it is flour-

Mackenzie King Attacks Meighen on His Railway Policy of Interference

REGINA, Aug. 5.—Right Hon. W. L. Mackenzie King last night made a sharp attack on Premier Meighen's attitude toward the Canadian National Railways. It had been said, declared Mr. King, that the appointment of W. A. Black, of Halifax, to the portfolio of railways was only temporary.

"Mr. Meighen had already begun to use the national railways as a pawn to secure political support from one section of the country. 'He is already making it wholly apparent that he intends to dictate part of the policy of the railway,' the speaker declared. 'Already it is clear,' said Mr. King, 'that the policy which the Liberal party laid down of no interference with the president and board of directors of the railways is one that he does not intend to carry out.' Under Liberal administration the national railway was becoming one of the great national assets.

PEACE RIVER RAILWAY NOW OWNED BY ALTA

Taken Over Officially on Payment of Amount Due to Royal Bank.

EDMONTON, Aug. 5.— Full ownership of the Edmonton Dunegon and B. C. Railway and the central Canada line now rests with the Alberta Government, which will proceed to deal with their interests for their future operation or possibly, as an alternative, operate them as a provincial public enterprise.

Ownership rights were secured a consideration of \$1,275,000 paid to the Royal Bank in final settlement of its claim of \$2,100,000 and accrued interest.

FOREST FIRES NEAR NELSON

Passenger Train Held and Tourists Turned Back. Ymir Is Threatened

NELSON, Aug. 5.— Tourists leaving Nelson for points south of Nelson on the Spokane highway were turned back yesterday at Porto Rico by raging bush fires which spread along the road from the apex to within three miles of Salmo, a distance of fifteen miles.

So hot was the fire that the incoming great Northern passenger train was forced to wait three hours at Salmo to allow the embers to cool down and give time to clear the tracks of fallen timber.

A fierce fire is burning this side of Ymir, the famous mining camp, but backfiring and trenches have so far proved barriers and as a result the settlement is so far safe.

B. C. LEADING IN CRICKET

Registers Third Victory By Defeating Alberta Yesterday in Close Game.

EDMONTON, Aug. 5.— British Columbia's cricket team continues victorious in the tournament here. Yesterday the western eleven marked up its third straight victory by defeating Alberta 141 runs to 137, this being the closest game of the series so far. Previously the B. C. men had beaten Manitoba and Saskatchewan on Monday and Tuesday.

Manitoba beat Saskatchewan yesterday by 104 to 104.

WEATHER REPORT

Smithers: Part cloudy, calm, temp. 63.
Burns Lake: Clear, calm, temp. 56.
Whitehorse: Clear, calm, south wind, temp. 60.
Dawson: Clear, calm, south wind, temp. 50.

BRITISH HOUSE ADJOURNED UNTIL NEXT NOVEMBER

LONDON, Aug. 5.—Parliament adjourned today until November, unless continuation of the coal dispute compels an earlier meeting.

Efforts of members of the Labor party to have the House re-assemble August 17 on account of the coal situation was voted down.

ALECK THE SWEDE IS KILLED IN VANCOUVER

VANCOUVER, Aug. 5.— All efforts have so far failed to ascertain the identity of "Aleck the Swede" who died in the hospital today as the result of injuries received last night when a car, alleged to be speeding across Georgia viaduct, suddenly overturned. Two companions, Frank Sullivan and Fred Clarke are in the hospital and have not yet recovered sufficiently to tell details of the accident.

FISH ARRIVALS

Halibut Arrivals Were Light This Morning When Two Boats Sold a Total of 23,000 Pounds

Halibut arrivals were light this morning when one American and one Canadian boat sold a total of 23,000 pounds of halibut on the Fish Exchange. Both American and Canadian caught fish averaged around 15c and 10c.

The arrivals were:

American	
Wabash, 10,000 pounds, to Pacific Fisheries.	
Canadian	
Scrub, 13,000 pounds, to Atlin Fisheries.

Boost your town and the town will boost you.
Knock your town and you'll get the knocks back.

Wheat Crop Not Very Small Either.

The official estimate of the wheat crop for the present year based on present conditions seems to indicate that even though the hot weather did considerable damage, there will still be a large amount of grain to ship out of the country. Alberta comes next to Manitoba in the percentage of yield likely, according to the prophets and especially that part of Alberta tributary to the Canadian National Railways. The result should be that Prince Rupert will be a busy port.

Cannery Re-opens and Another Industry Added.

Another industry was added to those here when the cannery at Seal Cove reopened this morning. It matters not to us why it opened. It is sufficient that it is doing business at the old stand and that the city will benefit.

It was with regret we heard in the spring that work at Seal Cove was not to proceed this year and the change proves a most welcome one.

Sookeey Season is Good One.

The sookeey season this year seems to have exceeded expectations insofar as the Skeena and Naas Rivers are concerned. Rivers Inlet, which is poorer than usual, does not affect Prince Rupert much.

It is always good news when we hear that fishing is good. If the fishermen do well, the cannerymen also do well and Prince Rupert merchants get part of the benefit. This fall should be a pretty good one, judging from present conditions and prospects.

Keep Hands Off the Railways.

The warning of Mackenzie King that the people of Canada wish the Government to keep its hands off the railways and not turn it into a political institution, is timely. There is a new Government in power, although some think only temporarily. They were the ones who brought the National Railways into being, and it was under the Mackenzie King Government it got on its feet. Now there must be no going back. We all want the railways to succeed and it is by giving Sir Henry Thornton a free hand that this can be brought about.

Immense Business of Wheat Pools.

The wheat pools are doing an immense business and there is danger that after a time the management may become careless and the huge structure come tottering to the ground. At present, however, they seem to be carrying on in a businesslike way and the farmers are benefiting.

As Prince Rupert is tied up to one branch of the pool, the residents here are particularly interested in the success of the organization. It is to be hoped that wise and honest administration will always prevail.

Australians Lead Old Country in Cricket.

Cricket is the national sport of England and it is from that country Australia got her start in the game. Now it seems that the youthful dominion has wrested the cricket honors from the motherland and is well in the lead. Her eleven seems almost invincible. It seems to be one of the methods of nature to make the children better than their parents.

Cut out heavy foods-Eat SHREDED WHEAT with berries-So refreshing and satisfying

MUCH LAND IS CULTIVATED BY NEW SETTLERS

Territory Being Developed Along Line of Canadian National, Says Dr. W. J. Black.

AFTER BRITISH SETTLERS

WINNIPEG, Aug. 5.—The very large areas of new prairie land broken by settlers brought out by the Canadian National Railway from Europe during the past two years was the outstanding feature of his recent tour of inspection through Western Canada to Dr. W. J. Black, director of colonization for the system who is spending a few days in Winnipeg on his way to Montreal.

During his journey through the West, meeting officials of his department and laying plans for next year's work, Dr. Black stated today that he found, especially in the northern portion of Alberta, large stretches of land that had been cleared and brought under cultivation by the new settlers. In fact, he said, there had been no one year since before the war when there had been as much land broken adjacent to our lines as this year.

100 Per Cent Increase

Speaking of colonization activities of the company generally, Dr. Black thought that business had this year been highly satisfactory, showing an increase of over one hundred per cent in the number of people handled, the gratifying feature of the movement being the number of immigrants who are actually settling on the land adjacent to the Canadian National lines. He stated that he had covered considerable territory in the western provinces, a good deal of it by motor, and he had found the condition of the new settlers eminently satisfactory.

Regarding plans for next year, the director stated that the Canadian National is planning to develop its facilities for settling families on the land and that the prospects are that the movement in this connection will be heavier than ever before.

After Britishers

Dr. Black had a conference with Lord Clarendon before the latter left here for the west in regard to land settlement and will meet him again in Montreal to discuss the development of plans for increased British immigration to Canada.

In The Letter Box

TARIFF QUESTIONAIRE

Editor, Daily News:

What is a tariff? A tariff is a tax levied against articles produced beyond the national boundaries which is collected when they are imported.

What is its effect? It increases the cost of imported articles, and the prices, when such articles are imported for re-sale. As an instance, a tariff on tea, shoes, cars, etc., adds to the prices when imported—hence a tax on imports increases the prices of imports.

Raises Prices

Does a tariff restrict importations and thus protect the markets? No, the ruling prices in a country with or without a tariff determine whether goods can be imported and sold at a profit or not, and are thus the real factors in market protection. As examples, the present price levels of the metals, fish, wheat, livestock, the forest products, etc., prevent importations of such things except at losses, consequently, when these prices are below those of such imported articles, they are the real barriers against imports. The only function a tariff performs is to raise the prices of imports, which does not of itself protect the markets, for to do this it is necessary to regulate the prices of the home products, and it has been often demonstrated that to acquire and control markets, the prices must be kept below those of competitors whether local or foreign. This is a fundamental principle of economics that a kindergarten class could understand, yet the protectionist politician is blind to this point. This fact can be clearly shown by means of an illustration, thus:

Illustration

Some tradesmen are making and selling a particular type of wagon for \$100. A foreign manufacturer enters the field with

an article of equal value (the price of which, like all imports, contains both profits and taxes) and sells it for \$100. The local manufacturers apply for a tariff of 25 per cent, which is placed on such wagons, thus raising the price of the imported wagon to \$125. By adding the duty to the competitive price. If the prices of the locally made implements were kept at \$100 by imposing an excise tax to be applied in case the prices were increased, the foreign made article with a market price of \$125 could not be imported on a commercial basis. This would mean "protection" secured by controlling local prices, and without such control, a tariff as a protective measure, is a subsidy only. If the price of the local products were increased, however, and there is nothing to prevent it, accordingly as the price was increased, restriction on imports would be reduced, and when the price reached \$125 (to that of the imported articles) the implement would be placed on a free trade basis. If the price were raised above this level, say to \$130, without any change in the tariff, the market would be lost to the foreign competitor. It is thus that a monopolist who controls an article of commerce upon which there is a tariff, may prohibit importations of that article for re-sale, place it on a free trade basis, or surrender the market to a foreign competitor by simply regulating the price of it.

How did the duty affect the manufacturers? They were virtually subsidized to the extent of the tariff (to \$25 on each article sold) which was collected from the purchasers.

Benefit of Competition

What protects the consumers against extortionate prices? Competition is the only protection in the absence of public control, and when price-control is exercised within the national boundaries, foreign competition is the only protection against excessive exploitation. In the case of the implement, how did the tariff affect consumers? When they could buy it for \$100 they were getting the benefit of competition without subsidizing the makers; when the tariff of 25 per cent was levied, increasing the price of the imported article to \$125, the purchaser paid \$25 in excess of the value which had been previously paid as a tax by the importer. When they bought the home-produced implement, they also paid \$25 above its value as a subsidy to the manufacturers, for the increase in the price which was due solely to the imposition of the tariff did not increase its usefulness. So, when the price of home products may be increased by reason of a tariff, it is simply a method of subsidizing producers through a system of price-raising and one that furnishes no protection to the markets.

Why do consumers subsidize the makers of implements, etc? Because the artificial prices placed on them which include the invisible tax (tariff) blind them.

Invisible Tax

What is an invisible tax? A private tax which is included in the price and passed on for the purchaser to pay.

How can this economic blindness be overcome? By enforcing collection of the tax separately from the actual price of the article. As an instance, when the price of the implement was increased because of the tariff from \$100 to \$125, had the seller been compelled to collect the subsidy or tax of \$25 as a condition, precedent to a sale, this practice might have opened the eyes of the buyer, whereas under present methods they would have remained closed.

Does a tariff function along other lines? It may have a psychological effect in frightening importers and exporters when it is increased, but when the local prices are increased accordingly, as is the rule under price-control, there can be no loss sustained and therefore no increase in restriction. As examples, the importers of liquors and tobaccos, with duties raised to the highest point on record,

were not frightened, nor were their importations affected by the greatly increased tariff rates. The tariff on shoes, for instance, could be increased to 50 per cent which would increase the subsidy to the manufacturers, but would not restrict importations unless the importers became frightened, for local prices of shoes would rise and the consumer would absorb the increased tax.

Revenue Production

Is a tariff a revenue producing tax? Only to the extent of that collected on imports. To illustrate, while not more than 15 per cent of shoes worn are imported, the consumers pay the tariff rates on all shoes bought by them, with the result that only about 15 per cent is government revenue.

How does the tariff function when the prices of home products cannot be controlled? The consumers escape, and therefore as a subsidy it cannot be collected, but is a sop and of no benefit to producers, for unless prices can be increased when a tariff has been imposed, it is a farce. As examples: A tariff of one dollar a bushel on wheat would not benefit producers unless an artificial export price were established, for the export price is virtually the world price and unless the exporter was rebated he could not pay above, when he had to sell at the world price. It would be use-

WATER NOTICE

Diversion and Use
TAKE NOTICE that Somerville Cannery Company Limited, whose address is 1000 Avenue Wharf, Vancouver, B. C., will apply for a license to take and use 50 gallons per minute of water out of an unnamed stream, which flows northerly and drains into Ferguson Bay, Massett Inlet, about 4 chains west of N. W. corner Lot 1571, Q. C. District, within thirty days after the first appearance of this notice in a local newspaper. The water will be used for industrial and domestic purposes upon the land described as Block A, Lot 1571, Queen Charlotte Island District. This notice is posted on the ground on the 14th day of July, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C., objections to the application may be filed with the controller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 29, 1926.

ALFRED SWANSON.
Applicant.
Dated April 27, 1926.

"GOVERNMENT LIQUOR ACT"

Notice of Application for Consent to Transfer Beer License
NOTICE IS HEREBY GIVEN that on the 28th day of August next the undersigned intend to apply to the Liquor Control Board for consent to transfer of Beer License numbered 476 and issued in respect of premises, being part of a building known as Port Clements Hotel, Port Clements, B. C., upon the lands described as Lot 7, Block 47, in Subdivision of Lot 746, Queen Charlotte Islands, Prince Rupert District, in the Province of British Columbia, from Frank Hicks to Herbert Hampton, Theodore Musconi and J. Ciccone, in the Province of British Columbia, the transferees, in the County of Prince Rupert, in the Province of British Columbia, the transferees, on the 28th day of August, 1926.
HERBERT HAMPTON,
THEODORE MUSCONI,
J. CICCONI.
Applicants and Transferees.

less as a protective measure, for the ruling price of an article in a country is the determining factor in regulating importations, and the present price of wheat would protect the wheat market with a very low tariff or none. With any change in the price through manipulation, etc., the degree of protection would at once become affected. It is thus with a tariff on livestock or anything the price of which is beyond the control of the producers, it is a non-collectable subsidy, which neither benefits the producers, penalizes the consumers, nor protects the markets.
D. J. SULLIVAN,
Advoc. B.C.

CANCELLATION OF RESERVE

NOTICE IS HEREBY GIVEN that the reserve existing over Lot 4657, Cassiar District, is cancelled.
Deputy Minister of Lands,

G. Johnston, of Lockeport, was an arrival in the city on the steamer Prince John yesterday afternoon.

Mrs. Karkle of Queen Charlotte City arrived in the city yesterday aboard the steamer Prince John.

Mrs. and Mrs. Jack Barnsley are leaving for the south at the end of the week and will reside there permanently.

G. Maxwell of Port Clements is booked to sail on the steamer Prince Charles this afternoon for Vancouver on a business trip.

The Wales Island seiner Supreme has been taken up on the dry dock pontoons to have a new tailshaft and propeller installed.

Mrs. L. H. Kenney and child were arrivals in the city by train yesterday afternoon from Terrace and are registered at the Prince Rupert Hotel.

C.P.R. steamer Princess Louise, Capt. A. Slater, was in port from 3 o'clock until 5 p.m. yesterday afternoon en route to Vancouver from Skagway, Alaska.

Little Miss Mary Lawlor arrived from Ketchikan on the Princess Louise yesterday afternoon to spend part of the summer vacation with Mrs. Joe Prince.

A Conservative Rally will be held in their Committee Rooms near the Empire Office at 8 o'clock tonight. J. C. Brady will give a short address. Ladies are cordially invited.

J. E. Tucker, timber cruiser for the J. D. Lacey Company, who has been cruising timber in the vicinity of Lagoon Bay Queen Charlotte Islands, passed through the city aboard the Prince John yesterday en route to Vancouver.

Mrs. H. B. Stiles and Miss Vera Armstrong sailed on the Princess Louise yesterday afternoon for Vancouver en route to Winnipeg. Mrs. Stiles will visit in the Winnipeg district and Miss Armstrong will remain in the east, and it is understood will be married soon.

C.N.R. steamer Prince John, Capt. E. Mabbs, docked at 3.30 o'clock yesterday afternoon from Queen Charlotte Island points and sailed for Vancouver at 7 p.m. Passengers debarking here included W. R. Cobb, G. Johnston, Mrs. Karkle, Miss L. Bucke, H. Korsak, F. Reads, A. Backlund, Mrs. Wyatt, Mrs. Stewart, Miss Wyatt, and Mrs. Splan.

The waterfront docks from the Ocean dock to the Provincial dock were fully occupied yesterday afternoon. The motorship Bellingham unloaded fresh fish at the Ocean dock, the Prince John and Prince Rupert occupied the C.N.R. dock, and the Princess Louise docked at the Provincial wharf. It was an ideal moment for a photograph of the waterfront from the harbor.

STEAMER SANK

RIO DE JANEIRO, Aug. 5.—Twenty-six people were drowned when the North Brazilian Ports sank after colliding with a pontoon near the Bay of Araras. The collision occurred during the darkness last night. Reports received from Para, where several of the survivors, including Captain Mato have arrived, say five of the drowned belonged to the crew and the remainder were passengers.

CHINAMAN BURIED

The funeral of Lee Quorek, Chinaman, who died suddenly on Sunday night, took place at 2.30 o'clock this afternoon from the B.C. Undertaker's Chapel. Interment was made in Fairview cemetery. Those sending floral tributes included Tom Lee Company, Kuo Ming Young, Ling Ba Shanz, Seid Hong and Traveller's Cafe.

T. A. Kelly and son sailed for Vancouver on the Princess Louise yesterday afternoon.

NOTICE

Street Surfacing. The Tarvia Distribution Equipment is expected to arrive on Thursday, August 5, and weather permitting, surfacing work will start immediately, commencing in the odd numbered avenues and streets. This will be completed as rapidly as possible and then the alternate avenues and streets will be done. Two coats will be applied at intervals of 24 hours and the delay to traffic should not be more than three days.

Citizens of Prince Rupert are therefore requested to kindly procure supplies beforehand and as the surface will be sticky, to refrain from walking or driving beyond the barricades or signs. 183 CITY ENGINEER

LAND ACT

NEW MEN'S STORE OPEN TOMORROW

Your Pick of \$20,000 Stock Offered at Cost Price to Introduce Montreal Importers

The Montreal Importers, under the management of A. Richmond and J. B. Miller, will open new premises tomorrow near St. Regis Cafe with a full stock of Men's Furnishings.

To introduce themselves to the public of Prince Rupert, they are offering your pick of their \$20,000 stock at cost price. They have a wonderful line in men's suits, the very newest in fabrics, such as Fair Isle serges, direct from British looms, made up in the latest and up-to-date models, both in young men's English double-breasted and the more conservative styles.

There are great values in Gabardine coats, raincoats, caps and a general full line of men's furnishings, in fact, anything that a man might need.

This opening introductory sale will start tomorrow morning, Friday, and the display in their windows is only a sample of the values offered.—Adv't.

There are great values in Gabardine coats, raincoats, caps and a general full line of men's furnishings, in fact, anything that a man might need.

THE MAN IN THE MOON says:

Three years seems about long enough for a school teacher or stenographer in one town. If she can't get a husband in that time it is well to try some other location.

There once was a jolly old man A baseball and other sports fan; But he bet all his cash And you bet he was rash, For he ended his course with a can.

It's all right for carpenters to knock. Other people can't afford to do it.

Jake wants to know who had a grudge against the school principal that he induced him to butt his head against the stone wall in Skeena constituency.

Brady is all right, but think of the company he would have to keep if anything should slip and he be sent to Ottawa.

The proofreader is about the only man who reads every line in the paper.

A little local girl upon hearing her mother say how seasick she had been coming up the coast said: "You weren't seasick mother 'cos you wasn't nearly dead."

It would seem that the lack of knowledge of some politicians is due to mental weakness. This would seem to apply particularly in the district of Edmonton Conservative circles.

Does anyone ever remember seeing a man named A. U. G. Bury in this district?

It is said that one swallow does not make a summer but it often makes a good drink.

A motorist was recently stung by a wasp and lost control of his car. He was evidently stung in the differential.

With the election campaign on why can't some genius invent auxiliary lungs for the speakers?

I have never heard of a one-armed driver making love in a hammock colliding with a circus wagon.

"Canadian Singers and Their Songs," by Caswell.
"Anthology of Modern Verse" by Methuen.
"London Book Window," by Milne.
"Oxford Book of English Prose," by Quiller-Couch.
"American and British Literature Since 1890," by Van Doren.
"Century of the English Novel," by Weygandt.

APPRECIATION VOICED OF LATE F. H. WORLOCK

(Victoria Colonist)

Deep sympathy will be expressed to the widow and children of the late F. H. Worlock, who has just passed away. Much of the latter half of his lifetime had been spent in Victoria and he had won here many friends and admiration for characteristics that were both substantial and endearing. Mr. Worlock had an innate faculty of courtesy. He would never willingly hurt the feelings of anyone, and, in the art of good fellowship he was to the manner born. His identification with the business life of the province was a prolonged one. Up to the time of his fatal illness he was a well-known figure in the community, one whom all who knew respected and he had earned the distinction of being numbered on the declining roll of old-timers.

BRADY REPORTS HAVING BEEN WELL RECEIVED

LEAGUE FOOTBALL GAME LAST NIGHT

Y-Macs Defeated Naval Volunteers Four Goals to Two Last Evening.

In an intermediate league football game last night the Y-Macs defeated the Royal Canadian Naval Volunteer Reserve by a score of 4 goals to 2 before a fair crowd of soccer fans. Generally speaking, it was a good game all the way through and exciting in spots. The naval boys were handicapped insofar as they were compelled to play three reserves in the team, three of the regular players being unable to attend for various reasons.

J. Bond and B. Strachan scored two goals each for the Y-Macs and Chenoski and Sims for the navy, the latter scoring from a corner kick.

C. P. O. Instructor Daves handled the whistle efficiently.

The teams took the field as follows:

Y-Macs: Backer, goal; Cameron and Reid, full backs; A. Strachan, Phillips and Heilbronner, half backs; Hunt, Bond, J. Strachan, Dickens and H. Gauthron, forwards.

R. C. N. V. R.—Richmond, goal; R. Moore and G. Shenton, full backs; Gamm, Peacock and Fitzgerald, half backs; G. Dyer, Byrne, Chenoski, Wyman and Sims, forwards.

GUN CLUB SHOOT

Following are the results of the shoot by the Prince Rupert Gun Club on the Park Avenue range last night.

J. Scott	19
Geo. Bryant	18
Dr. Tait	17

SPORT CHAT

A recent report of the secretary of the B.C. Fish and Game Protective Association states that the clubs at Cumberland, Nelson, Clinton and Revelstoke have affiliated with the provincial organization, and that several others have intimated their intention of doing so. This makes fourteen in all.

Relative to the Game Conservation Board's recent action in favor of a wide open season on black bear, all affiliated clubs have protested against any shortening of the close season, and many have asked for shorter seasons. They also wish protection of females when with cubs, and of the cubs themselves.

According to a statement made by Vice-Commodore Gerald Ford, preparations are already under way for another international race for the Fishermen's Gap, which brings together the crack schooners of the Gloucester, Mass., and Halifax fleets. The fishermen have not raced since October, 1924, when the contest was held off Halifax and wound up so satisfactorily.

Lord Derby introduced a new-comer among two-year-olds on the turf in England recently when

he sent Avalanche to the post in the Fulbourne Stakes at Newmarket. This filly was by no means one of the favorites. Her trainer, the Hon. George Lambton, was greatly surprised when she got home in front of D. Landale Wilson's Flashing Star by a neck. Avalanche is finely bred, her sire being Phalaris and her dam that highly successful mare, Glacier, the mother of Silurian, Cravasse, Glacier and other noted performers. Thus it can be said of Avalanche that she is bred in the purple, and it is curious that she had no shown a glimpse of her merit before the running of the Fulbourne Stakes.

Mrs. Gordon B. Robb of Burns Lake will sail on the Prince Charles this afternoon on a holiday trip to Vancouver.

WATER NOTICE

Diversion and Use.

TAKE NOTICE that Standard Mine Corporation whose address is 221 Water Street, Vancouver, B. C., will apply for license to take and use 2,000 gallons per day of water out of the Forks of McManus Creek, which flows into the Skeena River, about two miles north of Dease Lake, B.C.

The water will be diverted through a stream at a point about one mile south of the above mentioned place, and used for mining purposes upon the placer leases of the said Standard Mine Corporation on the 24th day of June, 1936.

A copy of this notice and an objection to the said water diversion, filed with the said Water Recorder at Telegraph Creek, B.C., will be filed in the office of the Water Recorder at Terrace, B.C., on the 24th day of June, 1936.

The date of the first publication of this notice in a local newspaper is the 24th day of June, 1936.

STEWART MAN IS OPTIMISTIC

J. Wakefield Much Pleased With Prospects of his Town Where There is Activity

That the Stewart district is prosperous and the prospects are good for still greater improvement, is the word brought from that place by W. J. Wakefield, former Prince Rupert man, who is visiting in the city for a few days. Mr. Wakefield says that between Hyder and Stewart and the mines of the neighborhood there are from a thousand to twelve hundred men employed and the development that is going on spells improvement. The U.S. government is spending a lot of money on the Salmon River valley road and the British Columbia government is also doing well. The mines are developing, the Dunwell especially looking like a winner. The tramway machinery is on the ground and nearly 100 men are employed there. Mr. Wakefield says there is general complaint against the lack of accommodation at the dock which is much too small. The B.C. Silver concern is shipping ore and very soon will be passing thirty tons a day over the dock. Taken all in all Mr. Wakefield pins his faith on Stewart as a place with a future.

HON. FRANK OLIVER GREATLY ENTHUSED OVER CENTRAL B. C.

Crops Are Excellent Says F. G. Dawson who Accompanied the Commissioner Through Interior

F. G. Dawson returned yesterday from a tour through the Bulkley and Nechaco valleys where he accompanied Hon. Frank Oliver of the railway commission who wanted to see the

condition of the railway and also to get an idea of the country through which it passed. Much of the country was covered in motor cars and the commissioner was delighted at the condition of the crops and the prospects for future development which he saw there. Speaking of the visit to the Daily News, Mr. Dawson said he never saw the country look better and he was particularly pleased at the increased acreage noticeable in wheat this year. The grain is headed out well and cutting, he believed, would commence within two weeks. Everywhere it looked well and the farmers he found were keen on the idea of shipping grain through Prince Rupert.

TERRACE NOTES

Miss Esther Moore left at the beginning of the week for Prince Rupert where she has taken a position. Mrs. Joe Marchildon and two sons, Joe and George, left on Monday for Prince Rupert where they expect to reside for a time. G. A. Clothier, district mining engineer, and Mrs. Clothier are spending a few days in the district having arrived from Prince Rupert on Monday evening. A. E. Goodenough of Smithers was a business visitor at the beginning of the week. W. H. Cavanagh was a visitor from Prince Rupert on Monday's late train. Billy Atwood of Lakelse Valley who has spent the past two weeks with his aunt Mrs. Jas. Norrington in Prince Rupert returned home on Monday. J. Morse Hatt returned home on Monday after having spent several weeks on a business trip to Vancouver and Victoria. His son, Gordon, who accompanied him remained in the south for a longer holiday. T. W. Brewer of the forestry department, Smithers, was a

business visitor at the beginning of the week. W. H. Shannon of Vanarsdol was in town on Monday. Mr. and Mrs. Simpson and daughter arrived from Anyox on Monday to spend a holiday here. Their daughter Dorothy is a guest at Hill Farm. Mrs. Christie and two children Dorothy and Billy, and Mrs. Finnie of Prince Rupert are holiday visitors at Hill Farm, having arrived on Monday. G. H. Outram is in town on a semi-annual inspection trip of the insurance company's agencies, represented in Terrace by C. R. Gilbert. Dave Wilson was in from Kalum Lake on Monday. W. A. Stevens was a business visitor from Prince Rupert on Monday's train. Cecil Hacker, son of Rev. G. G. Hacker of Prince Rupert, who has been a guest at the home of Rev. and Mrs. Wm. Allen left for his home on Wednesday. Arrangements are being made here to take the members of the senior Sunday school and the junior C.G.I.T. camping at Lakelse Lake. The boys will go into camp for the week commencing August 9 and the girls the week following. The camp will be in charge of Rev. and Mrs. Wm. Allen. Over fifteen boys and thirty girls have so far signified their intention of participating in the outing. A meeting of committees of the Terrace Fall Fair Board was held on Tuesday evening in the parlor of the Terrace Hotel, when reports of committees were received and general business in connection with the fair discussed. Carl Gustafson of Prince Rupert is spending a holiday with Mr. and Mrs. J. B. Agar. Misses Alberta Dobie and Au-

nie Walker of Copper City were in town on Tuesday. Rev. W. F. Barfoot went to Usk on Tuesday.

BURNS LAKE

Corporal Thomas C. Brice and Constable T. E. E. Greenfield of the R.C.M.P. are visiting the Lakes district and, while here, rendered valuable assistance at the Imeson fire. Mrs. V. Schjelderup and family have arrived here from Vernon. W. Lang Muir, assistant supervisor of sealers of the B.C. forest branch, was an official visitor here last week. Dr. and Mrs. R. G. Bamford and sons, Alfred and Douglas, of East Francois, were auto visitors to Burns Lake last Sunday. Mr. and Mrs. Frederick Oekieshaw of Smithers passed through here on Tuesday en route to Douglas Lodge. Miss Helena Foster of Endako is the guest of Mr. and Mrs. S. Godwin this week. R.C. Ashe and family and Mrs. I. Bush of Los Angeles, Cal., were recent guests at the Omnia Hotel. Mrs. A. Blaney of Grassy Plains was a recent visitor here. The following officers were recently elected by the Endako District Conservative Association: Honorary president, Billon; Arthur Meighen; hon. vice-pres., H. R. Pooley; president, Dr. George Guzner; vice-president, Mrs. A. F. Bamford; secretary, C. Roner; executive committee, Dr. R. G. Bamford and Rev. W. V. Sweetman. VANDERHOOF Mrs. Graham of Dewey had the misfortune to get severely hurt while travelling in a car near Clucolz Creek. The accident occurred when going over a rough

piece of ground Mrs. Graham got badly jolted and in consequence her back was injured. She returned to Prince George for an X-ray examination. Mr. and Mrs. Harry Taylor returned from their summer vacation spent at Stuart Lake and the north last Tuesday. Rev. Father C. Wolfe, who has been stationed at Stuart Lake Indian mission, left for Prince George on Wednesday afternoon to resume his pastoral work there. Miss Aleita Mitchell returned on Tuesday night from her visit to Giscome, where she was the guest of Mrs. Brain and Mrs. McKenney. A daughter was born to Mr. and Mrs. Francis Meeks at Mrs. Eva's nursing home on July 29. During the month of July 14, 531 pounds of butter was manufactured at the Nechaco creamery; a ton more than last month. Dr. and Mrs. Godfrey of Seattle have arrived here for a couple of weeks' visit with Mr. and Mrs. Abbot and Mrs. Lawson. William L. Foley has been engaged as principal of Vanderhoof Superior School. He has had ten years' experience school teaching. Last week the home of A. Trones, north of Webber Lake, was completely destroyed by fire. Assistance is being given them by people in the district and the town of Vanderhoof. Just Like Grass City Urchin (in the country for the first time): "That is just like grass, ain't it?" Little Friend: "Why, it is grass, Chinmie. Urchin: "No, 'cos yer don't have to keep off it."-- Boston Transcript. It is believed that Spain and Brazil have some idea of forming a League of Resignations.

IN READINESS FOR FISHING

Preparations Made at Queen Charlotte Islands But Salmon Were Rather Late

SKIDEGATE, Aug. 5. — The management of the B.C. Packers new cannery near here has adopted the policy of employing as many local girls as possible. Also local fishermen and help generally are taken on. This is very acceptable to the residents of the Islands who are pleased at the action of M. English, the manager. The seiners Nikko, Steveston and President spent a week on the west coast recently prospecting for salmon but returned to report that they had seen nothing of them. A new seiner has been launched at Queen Charlotte City yards and been fitted out with a 20 horsepower Vivian engine. Captain Nelse Pearson of Lockeport will be in charge and will fish for the Lockeport cannery. Great improvements have been made to the Lockeport cannery this year and a number of new buildings have been erected there. A pack of 55,000 cases can be put up this season if the fish come. Fisheries officers patrolling these waters this season will be G. Valley of the Omar K., G. Learey of the Isabel, and C. McIvor of the K.K. Lockeport has been a busy place this season. W. Morgan, who keeps a general store and is postmaster, has had his place fitted with electric light and says business has been good. Peter McLeod, proprietor of the Lockeport restaurant and rooms also says business is excellent. Miss Peggy Gillett of Sandspit and Miss D. Thomson have been the guests of Mrs. E. C. Stevens at Skidegate at the week end. HOTEL ARRIVALS Prince Rupert Mrs. A. G. Kelley, John S. Thit, F. Willan, E. G. Buthfuluf, Mrs.

Manning, Brighton, England; Miss Hazel I. Reid, Toronto; Miss Alberta Lewis, Miss Clara Mitchell, Ingersoll; V. C. Clouston, Juneau; T. Dalton, Edmonton. Motel Central R. Gouglas, F. C. Jones, Joe Gavin, V. S. Lawer, John Clark, W. Brennan, Vancouver dry dock; C. Johnson, Lockeport; F. M. Turner, Terrace; N. McGlashan, England.

FRENCH ATTITUDE TOWARD AMERICANS NOT VERY PLEASING

VICTORIA, Aug. 5.—Compared with the French standard of wages, the cost of living today in France is very high and the French masses are inclined to blame the tourists from this side of the Atlantic for this condition, reports Mrs. Robert Baird, who returned to Victoria after a six months' absence in Paris. This feeling on the part of the French toward Americans is enhanced by what they consider to be an unfair attitude in the United States' expectations in the matter of the payment of the war loan, and the consequence is that frequently the visitor from this continent is not invariably treated with the courtesy which he might be prepared to expect.

NARCOTICS ARE SEIZED

Trunk Containing Drug Consigned to Montreal Taken at New York.

NEW YORK, Aug. 5.—Federal agents today seized a trunk containing narcotics to the value of one hundred thousand dollars. It is believed to be part of a shipment of three million dollars' worth of contraband narcotics en route from Russia via Switzerland to Montreal. The large black steamer trunk was unloaded with other baggage from the Montreal express and a watch is being maintained at all railway terminals in the city for two similar trunks with contents estimated at a value, based on those seized, at one million dollars.

SCIENTISTS IN SESSION OXFORD

British Association Presided Over By Prince of Wales Hearing Speakers.

LONDON, Aug. 5. (Canadian Press)—An unusual amount of interest is being taken in this year's gathering at Oxford of the British Association for the Advancement of Science which opened yesterday. The Prince of Wales delivered the presidential address in the Sheldonian Theatre.

The address referred to the relations between science and the State and the community in its various aspects, and dealt with the manner in which scientific research has become more closely identified with various matters of state and administration.

One particularly interesting item in the program is a paper by Prof. H. F. Osborn, of Columbia University, U. S. A., on the problem of the origin of species as it appeared to Darwin in 1859 and as it appears today. Sir Josiah Stamp's presidential address to the Economics section was on "Inheritance as an Economic Factor," and in the same discussion on "Economic Aspects of the Labor Outlook."

A joint discussion by the Education and Agricultural Section will take place on the subject of educational training for overseas life. The debaters will include Sir T. Holland, W. Ormsby-Gore, Dame Muriel Talbot, Sir Alfred Yarrow, Sir John Russell and Sir Halford Mackinder.

It is not an uncommon practice to have many well known preachers on the Sunday during the term of the meeting. On this occasion, however, the members will be able to hear among others the Bishop of Oxford, the Master of the Temple, the Bishop of Winchester, the Dean of St. Paul's, and the Archbishop of Armagh. Sir Liver Lodge will speak in Gowley Road Congregational Church.

The Royal Air Force will give a demonstration on Port Meadow, and arrangements are being made for excursions to places of various scientific interest and to colleges, churches, the Bodleian Library, the Lewis Evans collection of scientific instruments and the University Press.

The last occasion upon which a member of the Royal Family was president of the Association was in 1859, when the Prince Consort occupied that position.

DISTILLERIES CHANGE HANDS

TORONTO, Aug. 5.—Announcement that a syndicate has taken an option on the distillery of Hiram Walker and Sons at Walkerville, Ontario, calls attention to the gradual change in ownership of all the larger Canadian distilleries. It is understood that it is a Scotch syndicate that is buying the Walker business.

A few years ago the Gooderham and Worts distillery in Toronto was sold by the Gooderhams to a new group, and the stock was put in trading on the Toronto curb to get wide distribution among the public.

About three years ago, the Canadian Industrial Alcohol Company, which controls the famous Corby distillery near Belleville, was listed in Montreal, the purpose being to get wide distribution for the stock which had been almost exclusively held by Sir Mortimer Davis, but which is now scattered among many hundred shareholders.

Rumor has it that negotiations are on in connection with the distillery of Joseph E. Seagram and Sons at Waterloo, Ontario. A new group is said to have made an offer for the property. This business was founded in 1883 by the late Joseph E. Seagram when he took over the Ross and Company at Waterloo. On his death in 1919, most of the stock went to his son, E. F. Seagram, two other sons, T. W. and N. W., also inheriting blocks of stock.

KEEN SPIRIT OF ALASKANS

Jarvis McLeod Returns From Ketchikan Enthused With Community Effort

Jarvis McLeod, collector of customs, returned from a business trip to Ketchikan, Alaska, on the Princess Louise yesterday afternoon filled with admiration for the community spirit displayed in the northern port. Mr. McLeod stated that Rupert's northern neighbors are certainly out after business every minute of the day, and what is more, they are getting it. He says, if he could afford it, he would take the entire citizenship of Prince Rupert up to Ketchikan for a week and show them what a real town Ketchikan is.

While in Ketchikan Mr. McLeod met the U.S. secretary of navy Wilbur, who, in company with Admirals Hughes and Leja, arrived there during his visit on the U.S. destroyers Decatur and Doyen en route to Wrangell where secretary Wilbur will look over the U.S. hydrographic aeroplane work now being carried on in that district. The naval officials were tendered a banquet on Monday and a big dance, and baseball games were given in their honor on Tuesday.

Speaking of the hydrographic survey work by aeroplanes the U.S. officials told Mr. McLeod that more work had been accomplished in three weeks by aeroplane than could have been accomplished otherwise in three years, and that many water-powers and timber limits had been discovered in northern Alaska never before known to be in existence.

A regular meeting of the Moose Lodge was held last night in Moose Hall when matters of a routine nature were dealt with.
