## Vagaries of Salmon Studied by Biological Board Nanaimo Station

**Dr. Clemens tells Rotary Club of interesting work being carried on in study of life and habits with view to conservation**

That sockeye salmon probably belong to a number of different races and that the way to increase the salmon run on the upper Fraser is to build up what is there rather than to import from the outside or from down the river fish was the opinion expressed by Dr. W. A. Clemens, director of the Biological station at Nanaimo in an address yesterday to the Rotary Club here. He also stated that many of the fish coming in around the north of Vancouver Island went to the Fraser River and if this route could be developed the difficulty of passing the Straits of Juan de Fuca and Puget Sound would be obviated.

Dr. Clemens said that the fish breeding in the upper waters of the Fraser River were high in fat and oil content, this being necessary to sustain them on long journeys. Fish from the lower Fraser had not enough fats and oils to sustain the journey so to plant them in the upper water proved ineffectual. Just now they were experimenting with the problems of building up. It was a slow process but progress was being made already.

Two Thousand Arrive at Winnipeg in One Day and One Train Brings None but Men

WINNIPEG, Mar. 19.—Nearly two thousand immigrants for western provinces have arrived at Winnipeg during the past two days, establishing a new record in Canada's colonization history. The newcomers include Britishers, Frenchmen, Scandinavians, Ukrainians and Poles. One train carrying nothing but men, the first since the war, brought Hungarian farmers towards positions previously obtained for them.

## Goes to Jail to Get Peace

Man Convicted of Assaulting His Wife Likes Cells Better than Home

NEW WESTMINSTER, Mar. 19.—"I've had peace and quiet for the two days I have been in the cells. They have been the happiest I have spent in my life, so I'll go to Okalla," said Matthew Lee, 71 years of age, who was sentenced to pay \$20 or serve a month in jail by the police magistrate yesterday for assaulting his wife.

## DRUSES SLAY SENEGALESE

Wounded are Massacred on the Field in Syria: Losses Number Fifty

BEIRUT, Syria, Mar. 19.—A detachment of Senegalese troops marching from Karakib to Raehia yesterday were ambushed by Druse tribesmen and most of the members were killed, the wounded being massacred on the field. A French relief column later despatched the Druses. The French estimated their loss at about 50.

## CANNERY TENDER IS PUNCTURED BY ICEBERG

GORDOVA, Mar. 19.—The cannery tender Catherine D. of the Pacific American Fisheries Company of Bellingham was punctured by a large piece of ice in Ley Strait, 50 miles west of Juneau, and is leaking slightly on the port side.

### BANK MANAGERS DIES.

WINNIPEG, Mar. 19.—W. R. Allan, former president of the Union Bank, one of the most prominent financiers of Western Canada, died last night. He was born at Montreal on March 9, 1864.

WOMAN SHOOTER MEETS DEATH

Killed on the Highway by Traffic Officer After Killing Six Others

SACRAMENTO, March 19.—John M. Goins, a Stockton businessman, who yesterday shot and killed six persons, five women and man, at Stockton and Galt, was slain on the state highway north of here last night by Captain Slatterback, state traffic officer and supervisor Biggs of Eldorado county. Goins shot three members of the Marango family near Galt after shooting three women in Stockton.

## FILTH INJURES RIVER SALMON

Those of Columbia now Sickly Pink Instead of Healthy Red, Says Canneryman

VANCOUVER, Mar. 19.—British Columbia and Alaska salmon are now the only good fish going through the canneries," said Arthur Wright, a Columbia River canneryman at a Rotary luncheon here. "Your own cities," he added, "eventually will find that free disposal of filth even in the tide water is detrimental, not only to fish life but to the health of the community." He said that the Columbia river salmon have a "sickly pink color instead of a healthy red."

## GRAIN SHIPPED AT VANCOUVER

VANCOUVER, Mar. 19.—Grain shipments from Vancouver during the week just concluded were as follows:

Philoctetes for Yokohama 25,842 bushels.

Yonan Maru for Shanghai 276,866 bushels.

Arabia Maru for Osaka 16,666 bushels, for Kobe 16,667 bushels.

Peru for Stockholm 72,365 bushels, for Hull, Gotzberg or Stockholm 78,690, for Hull 151,968 bushels.

London Importer for London 56,000 bushels, for Manchester with option of Liverpool 37,333 bushels.

L. A. Christensen for Vera Cruz 99,999 bushels.

India for Calcutta 74,666 bushels.

## CONSPIRACY TO STEAL PROPERTY

That is Charge of Unverzagt in Regard to Fraud Order Against Him

VANCOUVER, Mar. 19.—"It is all part of a gigantic conspiracy to steal my property," was the comment of Charles Unverzagt yesterday when shown a Washington dispatch reporting the issuance of a fraud order against him. He said the stock of the Lightning Creek holdings in Cariboo were not being offered to the public now.

## LACERATED HAND IN PLANER AT MILL IN TERRACE WEDNESDAY

TERRACE, March 19.—Peter Magnussen met with a very painful accident at the mill here on Wednesday. While running the planer one of the knives broke and a part of it struck his left hand lacerating his knuckles very badly.

Fortunately Dr. Large was in town and rendered first aid and Mr. Magnussen returned with him to the Hazelton hospital at night.

DAILY EDITION

Friday, March 19, 1926.

Why Worry About  
Being An Englishman?

Why worry about being an Englishman? It can't be helped. Perhaps it might have been better, but also it might have been worse. Suppose a person had been born a Zulu there might be some cause of complaint or even if he had been a Chimpanzee. The only thing to do in a case of that kind is to make the best of a bad job and sit tight. The world is not half bad even to an Englishman without any sense of humor.

Giving Publicity To  
Deeds Of Nation.

The afternoon of St. Patrick's Day a telephone message came to the editor from a lady, name unknown, asking why we did not sometimes write about our own country. It is presumed she meant England for the voice sounded rather English.

If the truth must be told the editor was mad. He was trying in vain to catch up on some work so he could help the Irish celebrate, but interruptions one after another came piling in and it seemed impossible to make any headway. Then this sweet voice from nowhere in particular came over the phone asking for information which it was beyond his power to give.

Why don't Englishmen talk about their own deeds, their own ancestors and their own destiny? The answer is "Why should they?" All these speak for themselves. How many Englishmen know anything about their patron saint, St. George? Do they even know that the country has a patron saint? They don't need one. They are sufficient unto themselves.

Curious Nation  
Of Silent Men.

Englishmen as a nation are silent as to the deeds about which others would glory. During the recent great war Canada played a very minor part, yet the deeds of the Canadians are known from one end of the world to the other because Canadians and others tell of them. They were glorious deeds but comparatively they were few as any soldier will tell you. Brave deeds and heroic actions were everywhere and with all armies, ally and foe. We heard then and we still hear about the splendid actions fought by the Irish regiments, the Welsh regiments and the Scottish forces, but did anybody ever hear that the English were in the war? Seldom, if ever. Yet the English did most of the fighting and we beg pardon of the silent Englishmen for saying so. Theirs was to do and to praise the brave deeds of the smaller sections of the Empire. They never thought of mentioning the fact that they, too, were in the fight. It was seldom that the English regiments were mentioned in the newspapers except when they were all cut to pieces or if something very unusual was done. The newspapers could not be mentioning regiments all the time and there was enough to tell about the others without clogging the telegraph wires with tales that were being duplicated a thousand times by other similar units. They did not need the inspiration of publicity.

All Are Proud But  
Not All Tell It.

All are proud of their respective nations. We as Canadians are proud of ours and it is necessary to tell about our wonderful record in order to inspire a sense of nationality in our children. Many people live on praise and expire if they do not get it. With the English it is different. They are so used to being abused that they need abuse and would scarcely feel comfortable if they did not get it. To receive praise is disconcerting. It is sufficient for them that they are English, that they come of wonderful ancestors, most of whom were pirates. Some of them know about these ancestors and others jolly well take them for granted. At any rate, if they know they do not care to say anything about them. Why should they?

Pour hot milk over

## DEALING WITH GRAIN EXPORT

Much Tough Wheat in Cars at  
Lakehead Has Yet to be  
Dried to Save it

## FISH SHIPMENTS ACTIVE

WINNIPEG, Mar. 19.—At the present time the Canadian National Railways have approximately 2,700 cars of grain at the head of the lakes waiting to be unloaded according to A. Wilcox, general superintendent of transportation for western lines.

The elevators are making every effort to take care of damp and tough grain in preference and railway are switching their cars out and placing at elevators as fast as they can be unloaded.

It is not expected that there will be much damage caused by grain heating in cars owing to the above arrangement, he states, and as soon as navigation opens about the last week in April, all grain now on hand will be taken care of without delay.

## Defends Permits

In reviewing the grain situation Mr. Wilcox went on to say that during the early part of the year the situation in Alberta was somewhat serious owing to so much bad weather preventing threshing and even after grain was threshed a large proportion in certain parts of the province was damp. This, however, was taken care of by treating in the Edmonton elevator and at Vancouver, so that the loss was small. The permit system of handling grain through the port of Vancouver has worked admirably and prevented congestion enroute. He states cars are only being loaded in accordance with ability to unload at Vancouver.

At the present time there are approximately 5,000,000 bushels of grain in store at Vancouver and about 700 cars in transit on Canadian National lines. There have been over 40,000,000 bushels shipped out by boat from Vancouver so far this season.

## Fish Movement

Commenting on the fish movement from here this season, Mr. Wilcox stated that since the opening of the halibut season in coast waters February 20, shipping has been quite active, at average of from five to ten cars of fish passing through Winnipeg daily from Prince Rupert, chiefly for United States points. In connection with the Mani toba fishing he pointed out that more fish had been shipped from this province this year than in any two previous years.

VAGARIES OF SALMON ARE  
STUDIED BY BIOLOGICAL  
BOARD NANAIMO STATION

Continued from Page 4.

To waste the resources meant disaster, while their intelligent exploitation meant prosperity. He quoted figures to show the importance of the fisheries of Canada about half of which were on the Pacific coast.

The usefulness of the biological board depended, he said, on the application of their scientific work to industry. Canada had lagged behind in the past but today was trying to meet the situation and the work was developing rapidly.

Their work was roughly divided into two sections. There was the conservation of the stock and the proper handling of the product.

Conservation was being studied at St. Andrews, New Brunswick and at the Nanaimo station, and the two stations at Halifax and Prince Rupert would take up the handling of the product.

Excellent work was being done at Halifax. Here freezing would be the first problem to come under observation.

## Study of Sockeye

The halibut situation was being studied by the international commission Dr. Clemens said. This left the salmon as the chief subject of study for the biological board. Of these the sockeye were the most important. They were a fish with uniform color, rich in oils and fat and well adapted to canning.

The principal sockeye rivers were the Fraser and the Skeena. At one time the Fraser was most important but today it had yielded first place to the Skeena. Most of the fish were four year fish. They returned to the river to spawn and die four years from the time they were hatched. A few returned in three years and some in five and even six. Usually they returned from the river

where they lived as fry.

## Re Stocking Fraser

Dr. Clemens told of the stopping of the run up the Fraser and Hell's Gate canyon and since that time the waters of the upper Fraser has produced few fish. However, steps were being taken to restock those waters. In order to be successful there had to be a large number of adults on the spawning grounds. Sometimes there were too many males and sometimes too many females with resulting lack of fertilization.

The speaker went into some detail in regard to methods of study being carried on. At Wales island, between British Columbia and Alaska it was found that most of the fish went to the Nass River but a few made their way to the Skeena and Alaskan waters.

Extensive studies of the scales of the fish were being carried on as by this means they could determine the age and other facts regarding them. Races were also distinguished in that way.

The thanks of the club were extended to Dr. Clemens through the president, Thomas McGlymont.

BABY BEAVERS  
IN LONDON ZOO

Two Reach There From Toronto  
and Quickly Settle Down In  
New Home

LONDON, March 19.—(Canadian Press Despatch)—A pair of pretty little baby Canadian beavers from Toronto have arrived at the Regent's Park Gardens. They have already settled down comfortably in the large beaver pond near the Parrots' house, where four other remarkable fine adult Canadian beavers have been living for some considerable time.

As it was feared that, possibly, the big beavers might resent the intrusion of these fat, podgy youngsters from overseas into their domain, at any rate, for a few weeks, a portion of the pond was as baffled off; and the new arrivals have been given the residence of honor, a rocky under-round abode popularly known as "Rock Villa," the roof of which protrudes well above the surface of the water.

Meanwhile, the older inhabitants are obliged to keep to the other side of the pond, where they all crowd into a hole in the wall, which, like many other desirable residences, has the electable name of "Cosy Nook."

They gaze somewhat suspiciously at the new arrivals on the other side of the partition. They have already begun tunnelling operations, with a view to closer acquaintanceship with the intruders. This being the case, when they get to them, they will probably accept them into the family circle—when the railing will be removed.

"OBEY" IS TAKEN FROM  
JEWISH MARRIAGE RITES

Modern Woman Is Filled With  
Ideal of the Age and Has  
Made Good Declares  
Rabbi Issermann

TORONTO, March 19.—"Liberal Judaism eliminated the word 'obey' from the matrimony rite," said Rabbi Issermann, commenting on the conservatism of religion and women's place today.

"The stylish dressed woman, the cigaret smoker, the bobbed hair flapper are not necessarily modern women. The modern woman is filled with the ideal of the age, the ideal of service and the desire to express her personality. She finds opportunities for these in her home, and in society. Neither a flapper's looks nor a matron's grey hair are criteria of judgment for the modern woman."

"There is too much fulmination against woman's natural desire to adorn herself and make her person attractive if not beautiful. The conventional ban on cosmetics is like most convictions not based on logic. The motive behind their use is the desire to appear more beautiful.

The same motive animates the woman who purchases a stun-

Richard Howe of the local Swift-Canadian Co., who has been south on a business trip, returned to the city on the Catala this morning.

Mrs. C. H. Elkins sailed for the south on the Prince George this morning. She will spend six weeks visiting with relatives in Vancouver and other points.

Mrs. Dr. Carson of Premier and her sister, Miss Taylor, were passengers aboard the Prince George this morning bound for Vancouver enroute to Winnipeg.

Mrs. R. E. Benson sailed on the Prince George this morning for the south on a two months holiday which will include visits at Vancouver, Victoria, Seattle, Tacoma and other points.

Members of the Ladies' Basketball teams will be the guests of the local Elks Lodge after the basketball game tonight.

Rev. P. E. Baisler sails aboard the Princess Mary this afternoon for Juneau where he will be engaged in some time on organization work in connection with the Lutheran Church.

Mrs. J. O'Donnell, who has been visiting at Massett with her parents Mr. and Mrs. James Martin, returned to the city on the Prince John this morning. Mr. O'Donnell, who is engaged in the marketing of Massett Inlet logs, is making this city his headquarters for a while.

William Mainwaring of Vancouver, manager of the Northern Electric Co., and J. T. Ormsby, manager for British Columbia and Alberta of the National Carbon Co., were passengers from Stewart to Ocean Falls on the Prince George this morning in the course of a tour of the northern coast on business.

After having spent since 8 o'clock last night in the Skeena River unloading cannery crews and supplies, Union steamer Galala, Capt. A. Johnstone, arrived in port from the south at 10 o'clock this morning and sailed at 11:30 for Anyox and the Nass River. The vessel is scheduled to sail from here on her return south at 10 o'clock tomorrow morning.

Henry Felsch, pioneer settler of the Queen Charlotte Islands, arrived in the city on the Prince John this morning from Skidegate for hospital treatment. It was Mr. Felsch who had rather a racking experience recently when his house burned down while he was ill and he was obliged to tramp and crawl two miles in his bare feet in cold weather for shelter.

C.N.R. steamer Prince Rupert, after arriving from Stewart and Anyox this morning, moved up to the dry dock at 7:30 and was almost immediately taken up on the pontoons for her annual overhaul which is to be done in a hurry as the vessel has a special trip to make south next Monday afternoon. The Prince George took the Rupert's place in the regular service, sailing for the south at 10 o'clock.

After having had quite a dusting with howling southeaster while crossing Heceta Straits from Massett Inlet during the night, C.N.R. steamer Prince John, Capt. E. Mabbs, arrived here from Vancouver via the Queen Charlotte Islands at 5:30 this morning with thirty passengers and a cargo including 200 tons of coal for the dry dock which is now being discharged. The John will return south by the same route, sailing from here at 8 o'clock tomorrow evening.

Tonight, Elks' Home, bridge and whist at 8:15 prompt. Dancing at 11 p.m. Refreshments. All for 50c.

Members of the Ladies' Basketball teams will be the guests of the local Elks Lodge after the basketball game tonight.

Rev. P. E. Baisler sails aboard the Princess Mary this afternoon for Juneau where he will be engaged in some time on organization work in connection with the Lutheran Church.

Mrs. J. O'Donnell, who has been visiting at Massett with her parents Mr. and Mrs. James Martin, returned to the city on the Prince John this morning. Mr. O'Donnell, who is engaged in the marketing of Massett Inlet logs, is making this city his headquarters for a while.

William Mainwaring of Vancouver, manager of the Northern Electric Co., and J. T. Ormsby, manager for British Columbia and Alberta of the National Carbon Co., were passengers from Stewart to Ocean Falls on the Prince George this morning in the course of a tour of the northern coast on business.

After having spent since 8 o'clock last night in the Skeena River unloading cannery crews and supplies, Union steamer Galala, Capt. A. Johnstone, arrived in port from the south at 10 o'clock this morning and sailed at 11:30 for Anyox and the Nass River. The vessel is scheduled to sail from here on her return south at 10 o'clock tomorrow morning.

Henry Felsch, pioneer settler of the Queen Charlotte Islands, arrived in the city on the Prince John this morning from Skidegate for hospital treatment. It was Mr. Felsch who had rather a racking experience recently when his house burned down while he was ill and he was obliged to tramp and crawl two miles in his bare feet in cold weather for shelter.

C.N.R. steamer Prince Rupert, after arriving from Stewart and Anyox this morning, moved up to the dry dock at 7:30 and was almost immediately taken up on the pontoons for her annual overhaul which is to be done in a hurry as the vessel has a special trip to make south next Monday afternoon. The Prince George took the Rupert's place in the regular service, sailing for the south at 10 o'clock.

After having had quite a dusting with howling southeaster while crossing Heceta Straits from Massett Inlet during the night, C.N.R. steamer Prince John, Capt. E. Mabbs, arrived here from Vancouver via the Queen Charlotte Islands at 5:30 this morning with thirty passengers and a cargo including 200 tons of coal for the dry dock which is now being discharged. The John will return south by the same route, sailing from here at 8 o'clock tomorrow evening.

Mrs. Dan Lidstone, who has been on a trip south, returned to the city on the Catala this morning.

Father Chartier of Terrace was a passenger sailing for Vancouver aboard the Prince George this morning.

Ernest Pearce arrived on the Catala this morning from Vancouver where he has been spending the winter.

Capt. Alfred Swanson sailed by the Prince George this morning for Vancouver on a business trip. He expects to be away ten days or two weeks.

G. L. Munroe, government agent at Atlin, who has been spending the past couple of days in the city, will sail for the north on the Princess Mary this afternoon.

Mrs. M. A. Greig, Mrs. T. Brooks and Mrs. Frank Lazelle of Terrace, daughters of Mrs. Little, Sr., who is seriously ill in the local hospital arrived in the city from the interior on this morning's train.

Mr. and Mrs. A. H. Craig arrived in the city from Vancouver on the Catala this morning and will proceed tomorrow night by the Prince John to Watson River where Mr. Craig is foreman of the Wallace Fisheries' cannery.

A. G. H. Gerhardi, head of the Homestake Mining Co., which plans extensive developments on the Tropic mine in the Alice Arm district this year, was a passenger going south to Vancouver aboard the Prince George this morning.

At 3:15 yesterday afternoon, the fire department responded to another false alarm from the hospital corner, the second that has been rung in from there during the past week or so. It is believed that a youngster playing with the alarm box was responsible for the sending in of the call.

Sid Elmer, representative of El Doro cigars, is a visitor in the city in the course of a regular trip over this territory. Mr. Elmer is prominent in Vancouver athletic circles and last year played in the outfield with the Fraser Cafe team which won the Western Canada senior amateur baseball championship.

Provincial Constable R. Gibson of Port Essington sailed on the Prince George this morning for Vancouver having in his custody Archie McLennan of Anyox, who will be placed in the mental hospital at Essondale, and George Lucas of this city, who was sentenced recently to nine months imprisonment at Okalla for theft of a watch.

C.P.R. steamer Princess Mary, Capt. C. C. Saintey, northbound from Vancouver to Alaska ports, arrived in port at 2 o'clock this afternoon and will sail at 4 o'clock continuing her voyage north. Passengers sailing from here on the vessel will include Rev. P. E. Baisler for Juneau; C. L. Munroe for Atlin, and E. W. Maxwell for Wrangell.

J. L. W. Wyles of the local Bank of Commerce staff has been moved to Vancouver and expects to leave here either Tuesday or Friday of next week. He will probably be located at the main office in Vancouver. He will be much missed in badminton and tennis circles and among the young people of the city with whom he is very popular.

## Solid 18K Gold

Some wedding rings are made by melting the gold into a mould. These are apt to have bubbles and be porous.

Some are made by bending a strip and joining the ends. We sell the seamless kind, hammered from one solid piece of gold. These are firmer and will wear much longer than the soft gold.

Sold by weight, \$6.50 to \$12.00.

Get a good ring!

can revenue department. Captain Bob was born in Victoria, his father being an old time sailing captain. Bob was an old timer at Prince Rupert and also on Queen Charlotte Islands. He has a number of friends at Skidegate Inlet.

Warning is given that it would not be wise for men to go to Queen Charlotte Islands looking for work unless hired before leaving.

Islanders are expressing the hope that so far as possible fishermen on Queen Charlotte Islands and Prince Rupert should be employed on the Islands this year.

Mrs. W. Rudge and daughter May of Sandspit have been visiting Mrs. E. G. Stevens at Skidegate.

Captain Mabbs of the Prince John was welcomed back to the Islands this trip, he being very popular on this run.

### THREE TEAMS TIED FOR LEADERSHIP IN MEN'S WHIST LEAGUE

The St. Andrew's Society lost to the Knights of Pythias in last night's men's whist game while the Moose were successful in winning their game from the Sons of Canada. This means that the St. Andrew's, Moose and Knights of Pythias teams are all tied in first place with eleven victories each and the Elks are only one game behind. All these four teams are thus still in the running for the season's honors.

The St. Andrew's and Elks have two more games to play and the Moose one more game, the Knights of Pythias having finished in salmon packing.

Games last night resulted as follows:

Sons of Canada, 4;	Moose, 5.
Oddfellows, 5;	Elks, 4.
Orange Lodge, 5;	Great War Veterans, 4.
St. Andrew's, 4;	Knights of Pythias, 5.

The league standing to date is as follows:

	W.	L.	Pts.
St. Andrew's	11	5	11
Moose	11	6	11
K. of P.	11	7	11
Elks	10	6	10
K. of C.	9	8	9
Oddfellows	9	8	9
S. of C.	7	11	7
S. of E.	6	11	6
L. O. L.	6	10	6
G. W. V. A.	4	12	4

### AMATEUR BOXING ALBERTA PROVINCE

MEDICINE HAT, Alta., March 17.—The Alberta branch of the Amateur Athletic Union of Canada, is holding elimination bouts at Edmonton, Calgary, Lethbridge and Medicine Hat, preliminary to the amateur boxing championships of the province. The finals will be decided in Edmonton on March 29. In former years the finals have been staged in Calgary.

The Sitka Spruce Mills of Queen Charlotte City has received the contract to supply 250,000 feet of lumber for the B.C. Packers for their wharf and buildings between South Bay and Allford Bay on Skidegate Inlet.

The Maritime Fisheries of Allford Bay Cannery are commencing to get the cannery in shape. T. Alexander of Vancouver is in charge of the pile driver and construction work. The company is building a large addition to the cannery and is repairing the wharf.

People on the Queen Charlotte Islands are interested in the trial at San Francisco of Captain Robert Pamphlet, skipper of the Canadian schooner Pescawha which was captured by the Amer-

## SPORT CHAT

The closing games of the scheduled season in the ladies' section of the Fraternal Whist League will be played this evening as follows: Moose Ladies vs Orange Ladies and Pythian Sisters vs. Daughters of England. It may be, however, that some kind of a play-off will be required after these games to decide the champions as three of the teams, Orange Ladies, Moose Ladies and Daughters of England, are now tied for the honor, each having six victories to their credit and five losses against them. Of course, the matter would be decided tonight if the Pythian Sisters should beat the Daughters of England. That would give the championship to the winner in the Orange Ladies vs. Moose Ladies encounter. The situation in the ladies' section this winter has equalled in interest that in the men's section where, at this late date, the championship also remains unsettled.

Honors have come to William (Billy) Vickers Smitheringale, nephew of Mr. and Mrs. W. B. George, who spent the summer of 1924 in Stewart and pitched baseball for the team representing that town. Having graduated in science from the University of British Columbia, Smitheringale has just received the distinction of having a scholarship conferred upon him at the Massachusetts Institute of Technology where he is studying for his doctor's degree. He is a native son of British Columbia and for a time was a carrier for the Vancouver Province, later joining the circulation department of that paper. He is twenty-four years of age.

### UNIVERSITY BOAT RACE SET FOR MARCH 27 AND OARSMEN ARE TRAINING

LONDON, March 19.—For the great aquatic event of the year, the Oxford and Cambridge boat race, to be rowed over the historic course Putney to Mortlake on March 27, the contesting eights are putting in some strenuous work.

So far as can be judged there is very little to choose between the two teams during their practice on still waters, Oxford on the Isis and Cambridge on the Cam.

The Oxford eight, with their heavier weight, however, are more evenly distributed in the shell. It will be one of the heaviest crews Oxford has put into the race. They are being coached by Campbell Douglas, while the light blues are in the hands of Captain Willis.

### AMERICAN SPORTS FOR SOVIET RUSSIAN PEOPLE

BAKU, March 18.—American baseball, football and other games will be introduced in Russia for the first time at the approaching International Sporting Congress in Baku, in which Russia, Persia, Turkey, Afghanistan and China will participate.

There also will be many games characteristic of the East, such as sword-throwing, dagger-dancing, etc. It is also planned to establish the first chess tournament of the Eastern nations patterned after the recent international tournament held in Moscow.

Mr. and Mrs. J. Field Strang returned to Sunnyside Cannery from Vancouver aboard the steamer Catala this morning.

## STREET PARADE OF BOYS' BAND

Free Open Air Concert to be Given Saturday Evening Before Rotary Concert

## CONDITION IN IRELAND VERY MUCH BETTER

Settlement of Boundary Dispute  
Ushers in Period of Friendliness on Both Sides  
UNION IS POSSIBLE

Cordial Relations Between Dublin and Belfast with London: Police Force Reduced

At the weekly luncheon of the Rotary Club yesterday afternoon Wallace Orchard reported that a concert was to be put on for the benefit of the boys' band on April 14 and that it was planned to have band parade the previous Saturday evening with a group of ticket sellers on the street to make as much money as possible for the worthy purpose. The band will give a concert on the streets at that time.

Colonel McMordie has offered several prizes to the boy selling most tickets for the concert.

It is expected to fill the theatre to overflowing partly on account of the excellence of the performance which it is proposed to give and partly because of the good cause for which it is put on.

## CHINESE INDUSTRY RUINED BY BOBBED HAIR LARGE NUMBERS

PEKIN, March 19.—As a result of the popularity of bobbed hair with western women, 16,700 out of 18,100 Chinese women formerly engaged in making of hair nets in Chefoo are dependent on charity. The figures were made known by John Lee, comptroller of a telegraph company in China.

**Cosgrave**

President William T. Cosgrave of the Free State Cabinet said: "I am well satisfied with the results of the London Agreement and with the friendly relations of both states, some of whom even spoke hopefully of the prospects of eventual union of all Ireland. The agreement has been in operation nearly three months."

**Gosgrave**

President William T. Cosgrave of the Free State Cabinet said:

"I am well satisfied with the results of the London Agreement and with the friendly relations between the governments which it has facilitated. The result has been beneficial all around."

In Belfast, Sir James Craig, Premier of the Ulster government, while carefully avoiding reference to the possibility of union, stressed the cooperative aspect of their new relations. He characterized them as "two neighbors who are friendly, who wish to oblige each other and thus effect economies."

**Neighbors**

"North and South Ireland must live together as neighbors," said the Ulster leader. "Both administrations must turn their minds from those matters which have divided them in the past and concentrate on affairs that really affect the welfare of Ireland, so that the whole of Ireland, and not one part alone, may be prosperous."

## CONDITION IN IRELAND VERY MUCH BETTER

The Blue Ribbon family comprises more than half of the entire population of Western Canada. It is an enthusiastic family and adds many to its membership every day.

in the North which hopes for the union of all Ireland, told his followers: "The proper way to bring about unity is not by fighting for it. Ulster cannot be coerced into unity with the rest of Ireland and are in danger of losing their positions because of the frequency of court hearings.

"The new bureau will do away with all that. The husbands will be ordered to pay their alimony to the officers appointed by the county. The bureau will send the money to the wives, paying them perhaps through banks in their neighborhoods.

"If the husbands fail to pay, they will be haled into court by the special assistant state's attorney and asked why they have fallen behind. Lack of satisfactory excuse will send them to jail seat. Then without difficulty the driver was able to start his engine and he passed the other cars which soon thereafter were able to move again. A little later the polite driver turned in his seat to speak to his passenger but the car was empty. Thus do the natives find corroborations for the reported first appearance of Pele.

**DESTROYING DOCTRINE WORK IS UNDIGNIFIED**

"The husbands fail to pay, they will be haled into court by the special assistant state's attorney and asked why they have fallen behind. Lack of satisfactory excuse will send them to jail."

**PRISON GATE GROUP FORMED**

**POLITICAL PRISONERS**

February, 1926, found normal and cordial relations between Dublin and Belfast, and with London. Sir James Craig's advice, that North and South should turn their minds from those matters which have divided them, is being followed. The North has reduced its costly police force. There has been a speedy release of political prisoners. The London Agreement, by abolishing the abortive Council of Ireland, which was most irksome to Ulster, has substituted friendly cooperation.

**Neighbors**

"North and South Ireland must live together as neighbors," said the Ulster leader. "Both administrations must turn their minds from those matters which have divided them in the past and concentrate on affairs that really affect the welfare of Ireland, so that the whole of Ireland, and not one part alone, may be prosperous."

**That Will be the New Order of Things in Chicago Under Revised System**

CHICAGO, Ill., March 19.—Pay or go to jail will be the rule of an alimony bureau planned here to aid divorcees collect \$5,000,000 due them annually. The bureau in Chicago, the first large city to enter the business, will be affiliated with the social service bureau and will provide a complete service to force payment dodging husbands to comply with court orders awarding alimony or to explain why they should not go to jail. Superior Judge Joseph Sabath has announced. The judge, who proposed the plan, stated the county board would be asked for an appropriation to meet the expenses of the new bureaus.

## BASKETBALL TEAM HERE

Series Starting Tonight Will be for Northern B.C. Ladies Championship—Not for Milburn Cup

The Anyox Mine Girls, champions of the Anyox Ladies' Basketball League, arrived in the city from the north this morning to play a series of two games with the Maples Leafs of Prince Rupert—the first this evening and the second tomorrow night. The visiting team, which is a smart aggregation which lost only one game during the past winter at the smelter town, consists of Victoria Deane, captain and centre; Julia Calderone and Annie Scott, forwards; Helen Calderone, Phyllis McMillan and Rose O'Neill, guards. Mrs. Chapman is acting as chaperon for

- surely you drink it?

KELLY, DOUGLAS & CO. LTD.

The trip and Fred Brown is in charge of the aggregation. Sid Elmer of Vancouver, representative of El Doro cigars, is stopping over in town while the team is here to assist in its management.

The players of the Maple Leafs, who have been practising assiduously throughout the winter under the management of Ralph Smith, are Margaret Graham, captain, Myra Harvey, Aileen Stephens, Lillian Lowe, Catherine Harvey, Helen Grant and May Thompson.

Both teams are confident of their abilities and it is expected that the games will be keenly contested. The Maple Leafs will return the visit by going to the smelter town on Sunday night for two games next week. The series will be for the ladies' basketball championship of Northern B.C. but E. A. Mann, who has the trophy in his possession stated this afternoon that it would not be for the Milburn Cup. No permission has yet been given by the donor to use the

trophy for such a purpose.

As a preliminary to the main game tonight, the Intermediate Grotto and Colts will meet.

### MYSTERY OF EGG WAS DISCUSSED BY SPEAKER

(London Times)

"Eggs" was the simple title of a lecture at the Royal Institution.

But the lecturer, Professor Barcroft, F.R.S., showed what a big puzzle it signified. The mystery of how eggs came into being, he said, was one of the most profound, if not the most profound, with which the biologist was concerned. It looked so simple. By the time a chick was hatched its ovary already contained all the eggs which it would ever lay.

These existed in a minute and rudimentary form. The greater part of the yolk was manufactured in the days immediately preceding the date on which the egg was laid. The remaining stages in the formation of the egg took place very rapidly.

### WOMEN SHOULD NOT APE SAYS LADY BALFOUR

BROMLEY, Eng., March 19.—Women have been called many things, but they are not apes and they are not obliged to imitate. Lady Frances Balfour declared in an address to the Bromley High School, where she was invited to present prizes,

"All decent people have been shocked by the idea of women prizefighters. The thought is loathsome and disgusting. Why should women debase themselves just because men do?"

### WOMEN ARE ALLOWED TO AGAIN ENTER PUBS

MIDDLESBOROUGH, England, March 19.—Women are again to be permitted to drink in Middlesborough pubs, after having been barred for ten years. The licensed victuallers asked the licensing magistrates to remove the regulation forbidding the sale of alcoholics to women.
