RAILWAY FOR STEWART 300N

ANNOUNCEMENT EXPECTED TO BE MADE OF ESTABLISHMENT OF LOGGING AND MINING ROAD

There is a likelihood that the Bear River Railway will be operated at Stewart of the Stewart Land Company, wi left for the East this morning and will embark at Quebec for Glasgow.

Mr. Stewart said they were expecting every day to get definite word that the railway would be operated, at first in the valley and later in the development of the mines and possibly it may be extended to the interior. The main thing was getting it in operation. The line was built by the Donald

boom at Stewart years ago but was later allowed to go out of repair. It will have to be reconditioned before it can be operated. If this should happen Mr. Stewart thinks,

Sir Henry and Lady Thornton and Party Visiting the City and Are Being Entertained

Looking as hale and hearty as ever, Sir Henry Thornton, president and chairman of the board of directors of the Canadian National Railways, arrived this morning on the Prince George from Vancouver to pay a visit to Prince Rupert in the course of his annual tour of inspection of western lines. To meet Sir Henry and Lady Thornton as well as a large party of prominent officials contained in the presidential party, F. G. Dawson, local railway director, Olof Hanson, president of the Board of Trade, and other members of the board were present as the steamer pulled in. Before he left the boat a Board of Trade com- ger western lines; J. R. Cameron, as-

FAITH AS AN INFLUENCE THROUGHOUT LIFE.

Yesterday the despatches told of the burning of the statue to which are ascribed miraculous powers at Ste. Anne de Beaupre. Thousands of people have been cured at the famous shrine and other thousands have been benefited from visits made there. The results are said by some to be miraculous but as a matter of fact they are perfectly natural, although rather unusual, which is probably what is intended by the use of the word miraculous in this regard. The cures are faith cures. The devotee goes there intending to be cured and lo-the miracle. Nature asserts herself. The power of mind over matter has done the work. It matters not whether it be the human mind or, as is claimed by the religious, the divine mind, the cure is the same. The person who formerly was sick now is well.

Given the same amount of faith, the person who is cured at Ste. Anne de Beaupre of a sickness, never would have been ill. The same mind power which cures would have prevented, nipping in the bud the incipient disease. The difficulty with us all is that we have not sufficient faith to keep ourselves well.

Many doctors will admit that most sick people are ill because they allow themselves to get that way. With the proper attitude who hold the country back and still of mind they might be quite well. The spirit of cheerfulness helps less with those who carry it forward. a lot, refusing to give way to slight infirmities but resolutely setting the mind to think health, to act in a healthy manner and eventually to be healthy.

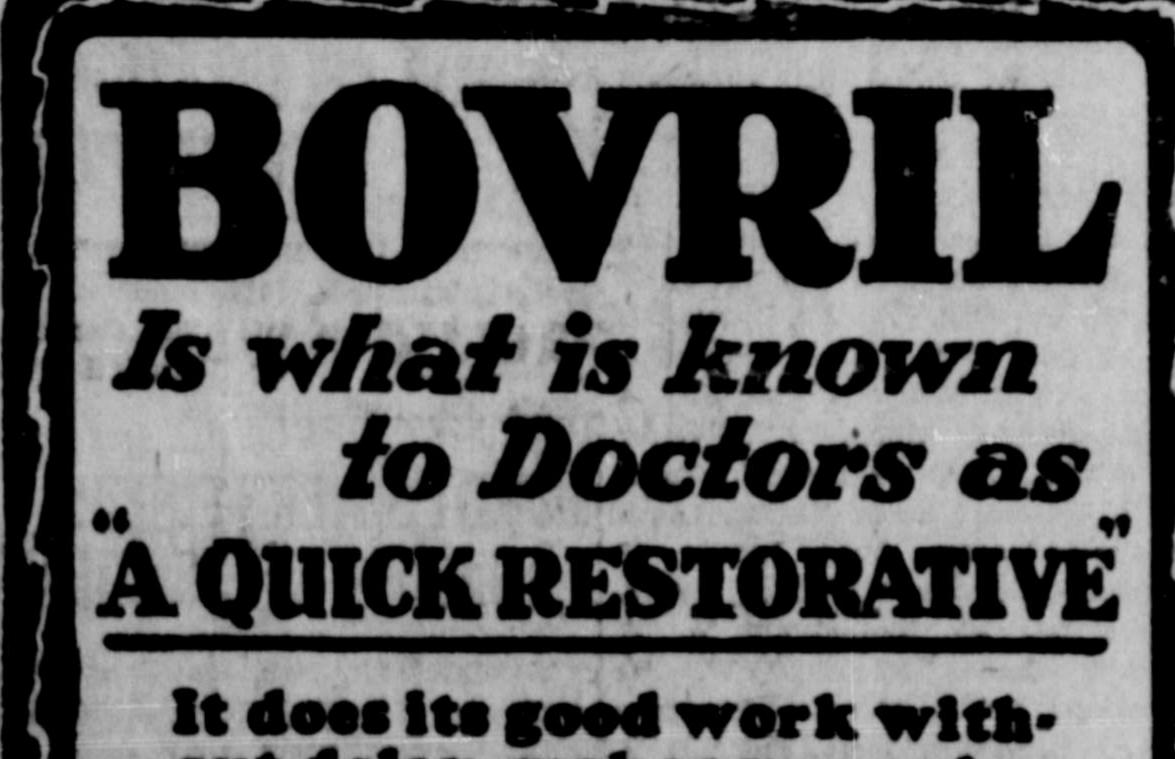

Health is the natural condition of the body and mind. Disease attacks a body that has a weak spot and that is not guarded by an active and healthful mind. As the mind is, so is the body.

CONVERSE ALSO IS TRUE SOMETIMES.

And the converse is also true at times. The mind is affected by the body. Given a healthy body and you are pretty sure to have a healthy mind. Keep the body bathed and exercised and sanely clad and avoid extremes of heat and cold and it is likelier to remain healthy. The difficulty is that too much attention to the body is apt to distract from the cultivation of the mind. Hence some religious people insist that the body is nothing and the mind everything. The physical culturist goes to the other extreme and says the body is everything and the mind depends wholly on the condition of the body. Probably neither are true. The mind is extremely powerful, but we have not heard of it replacing a leg that has been cut off. The body has to be cared for. Fresh air and plenty of it, regular exercise, food of the right kind and properly Canada will hold a smoker tonight in cooked, sufficient sleep, all these are inportant factors in life; but just as important are pleasant surroundings, cheerful companions, and a mind that is a directing force, that refuses to admit morbid in putting thoughts and that keeps the idea of health, strength, joy, peace and beauty always to the fore.

THEN THERE COMES

THE OUTSIDE MIND. We are all aware that the mind is affected by other minds. That is where religion comes in. The great, all-pervading outside mind, the mind that is not our own but that influences our own, or that may be said to work through our own, may affect all our actions. It does affect the actions of countless thousands and possi- in Prince Rupert took place in Self's much of the time as possible to show George C. Mackenzie, secretary of the bly of everyone. NOTED SINGER SAYS SHE LIKES TO MAKE PEOPLE HAPPY BY HER

EDMONTON, Nov. 10 .- (By Canadian Press) .- "Your Canadian audiences are wonderful; it is a delight to sing to them." said Madame Galli-Curci. "Not only do they applaud at-shall I saythe fireworks but they appreciate the really musical part of a simple song. And I am happy in singing, because I feel that they are happy. It is a singer's mission," she said, "to bring music to all, and not to the few. So often. Wifie drags Hubbie along to the concert, when he really does not want to come at all, and then I notice a look of boredom on his face after a course of Schumann and Schubert, and so I sing "Swaney River"-and I watchand he no longer looks unhappy. Here is something he knows, and understands. A smile creeps over his face. He is pleased, and so am I, for I must for many."

On the same ground Madame Galli-Curci defends the recording of indifferent songs by great singers. "We must lead these not-understanding people to love music by simple things. So they will want to go to other concerts, to all, not only mine." Jazz has its place the feet, rather than to the heart and brain, and is out of place on the con-

GREETING: CARDS

Our Christmas Greeting Cards are now on display. We have a wide selection of artistic cards in a variety of styles and greetings that will enable you to express exactly your wishes and gladden the hearts of your friends to whom they are sent. They are priced from 5c to \$1.00 each and we would recommend that you make your choice now as a number of our customers, last year, left making their selection until it was too late.

BE WISE AND BUY EARLY We also have Personal Greeting Cards and a book of sample cards may be examined in the store or we will, on request, send a book for you to examine the samples at

W. C. ORCHARD, General Agent. Corner of 4th Street and 3rd Avenue, Prince Rupert, B.C. CROWD OF 200 PERSONS SAW LAST NIGHT'S FIXTURES IN EXHIBI-TION HALL

Judging from the increasing size of the crowds, the efforts of local basketballers are winning favor. Last night there were some two hundred persons in attendance for the scheduled games in the Exhibition Hall. Play was fast in all the matches partisularly the Intermediate engagement in which the Grand Terminals defeated the Bankers 39 to 14. The Bankers should not be daunted by this or their former defeat. Their play last night showed they had the stuff in them.

In the Senior game, the Elks more than doubled the score of the Native Sons of Canada, the final count being 37 to 17.

In the Ladies' League, the Maple Leafs had an easy 16 to 2 victory over the Adanacs.

The closest game of the evening was the Junior League affair in which tha Colts ran out winners over the Tuxis Boys by the close score of 16 to 15. The particulars of the games were as fcllows:

SPORT CHAT

Football is the oldest of outdoor sports, says Lawrence White, of Claremont, Cal., Pomona college student search into the origins of the pastime. early as possible in the spring. Digging into the Bible for football lore White points out that Isaiah isted as early as 750 B.C. Leaping shot in this district. ahead a few centuries the student finds from the Greeks. Augustus contended shock and erverberation caused menaccustomed to slaughter their foes occurred.

played in American colleges as early as 1800. The first intercollegiate game was played in 1869 between Princeton and Rutgers.

Important changes in the rules governing harness racing will be considcred at the meeting of Grand Circuit stewards to be held at Lexington, Ky., in January.

One is a proposed rule that would classify horses on the basis of their winnings, instead of by time records, system long in vogue.

Some members consider it likely that Detroit and Grand Rapids will return to the circuit next year, in which event the big league of harness racing will be restored to its former scope. Cleveland, Toledo, Syracuse, Kalamazoo, Mich. Indianapolis and Lexington are the other members that are practically as-

HAZELTON

A dozen Scandinavians direct from the Old Country arrived here last week and were placed to work at once in pole and tie camps of the Hanson Lumber and Timber Co.

Miss Louise Wattie has arrived from her father, and is the guest of her sister. Miss Jessie Wattie.

A daughter was born at the Hazelton Hospital on November 1 to Mr and Mrs. L. F. Wilson.

The fall season has arrived and people are beginning to move into town Most of the houses in Hazelton and 2 New Hazelton are already occupied and 2 more people are still to come.

ALICE ARM

Having driven 465 feet of tunnels uilt an up-to-date camp, improved the trail and done other necessary work during the past summer, the Keystone Mining Co. has terminated its season's program of development work on the Keystone property on Roundy Creek. JAZZ IS GREAT FOR TIRED BUSINESSMEN DECLARES MUSICIAN

Johnson, planist and exponent of the negro spirituals.

"The great fault of those who are trythey are taking trivial things -music that appeals to the feet rather than to the soul," Johnson said.

"Jazz is a great institution for the tired business man and others needing relaxation, but there is little hope for its being developed into the poetry of symphony music, except to furnish jolly movements to more serious works."

Johnson says an understanding of the negro philosophy reflected in the spirituais the belief of the negro that a happy life awaited him in Heaven when his earthly troubles were ended is necessary for permanent adaptation of his songs in the music of today.

FLIES TO WORK

The Duchess of Bedford, one of the newest recruits to flying, threatens to become a rival of Mrs. Sophie Elliott

Lynn, Britain's pioneer air woman. The Duchess does not have her own aeroplane, as she prefers to hire one for occasions. She makes frequent trips to Manchester by air, and also always goes to her seat at Newton Stewart, Wigtonshire, by the same method.

The Duchess contends that to keep pace with the times, it is much cheaper, in a way, to hire machines and thus avoid the expense of upkeep.

WOMEN'S COSMETICS

since unveiling, for their expert use of premier of the South African Union, cosmetics, have opened war against the most prominent political adversary what a Turkish authoress calls "the of her late husband, that Mrs. Botha policy of paint."

Remarkable Profits In French Government 6% Bonds

Owing to the depreciation of French francs a French Government 6% Bond of 1,000 francs denomination can now be bought for \$25.00 With the bond at par and French exchange at normal this same bond would have a value of \$193.00.

International bankers believe that the French franc will selfabove 5 cents per franc before very long. Just think what this means to French Government securities when a rise of merely I cent in the franc means an immediate profit of 40% on the investment. When the French franc sells at 5 cents per franc or \$50.00 per 1,000 francs your profit will be \$25.00 on every bond of 1.000 francs, French Government 6% Loan or 100% for every \$25.00 invested to-day.

With the French franc at 10 cents per franc (a little over onehalf its par value) each bond of 1,000 france French Government 6% Loan would be worth \$100.00, representing a profit of \$75.00 or over 300% on the \$25.00 invested to-day

We made a lengthy and thorough investigation to determine the best way to buy French france for maximum profits. We believe that the French Government 6% Bonds afford the best and logical medium for they represent to French investors precisely what Canadian Government Victory Bonds represent to Canadian investors, being legal investments for every institution, trust fund and savings bank in France and constitute a strictly high-grade, gilt-edge government investment. They may be sold again instantly for spot cash at the prevailing rate not only in France (the bonds are listed on the Paris Bourse) but throughout the principal financial centres of the world. The interest coupons have always been paid promptly on the can be cashed in Montreal. New York,ondon, Rome, Amsterdam, Brussels, Madrid, Berne, Berlin, Vienna, Copenhagen, Stockholm, Bucharest, Rio de Janeiro, Buenos Aires and in fact throughout the world at the current rate for france.

French francs, we believe, will unquestionably and ultimately come back to their full gold value of \$193.00 per 1,000 francs. A little over a century ago the United States owed 32 millions of dollars-a gigantic sum at that time-to Europe, and being then purely an agricultural country with no developed resources, her situation was considered very bad at the time. Again, after the American Civil War gold sold at a premium of almost 200% in New York but British, French and Dutch investors, more accustomed to that sort of thing because of their international viewpoint, only saw in the depreciated currency an opportunity for very large profits by investment in gilt-edged but depreciated American securities. To-day the United States form one of the richest countries in the world.

Probably ten times as destructive by comparison with the ate World War (which resulted in the depreciation of the monetary unit of practically every country in the world) was the war of 1865-1870 between Brazil and Paraguay, which resulted in the virtual blotting out of all of Paraguayan manhood. practical bankruptcy, huge indemnities, and which, in the ountry, left twenty-five women for each surviving male, no manufactures and no highly-educated nationalism such as France enjoys to-day. Paraguay eventually recovered and those who had faith in the recovery of that nation earned tor-

England, too, once faced what seemed to be a financial lisaster. During the Napoleonic wars British securities sank next to nothing; but soon after the Victory of Waterloo British bonds soured returning vast fortunes to those who had purchased them when things looked blackest for England, and sold them after Wellington's victory became known.

France, bankrupt at the hands of Bismarck during the Franco-Prussian War of 1870, suffered an experience which is still within the memory of living man and which serves to set at rest any doubt as to the ability of the French people to completely restore their public finances; her Government bonds sold down to 7% of their normal value-they looked hopeless-but within a few years France had set her house again back to per. In fact, records show that French securities old over par-making fortunes for those who had possessed grit and enterprise to invest in the temporarily depreciated Government bonds of France.

Recent history has shown remarkable examples of the rehabilitation of nation's finances.

After the World War England saw the day that only \$3.35 uld be obtained for one pound sterling. English currency had lost about one-third of its international value. At this moment the situation has righted itself and the British pound is once more worth its full value in the international market

Every Canadian remembers that a few years ago, in 1920 and 1921, when exchanging Canadian money for American money he could obtain only \$82.00 American money for 100 Canadian dollars. There were predictions at that time that an even larger depreciation of Canadian money would take place but fortunately these did not materialize. Investors in the United States perceived that purchasing Canadan the situation is even reversed. Canadanis can obtain slightly elling considerably above par

The Swiss franc, after the war, was quoted at 15 cents per ranc or \$1,500.00 per 10,000 Swiss francs. To-day the Swiss ranc is quoted above par or at more than \$1,930.00 per 10,000 wiss france-showing a gain of \$430.00 on every 10.000 Swiss rancs purchased a few years ago. Shrewd investors earned a eatisfactory profit on their investment.

the war, depreciated to less than 30 cents per guilder or \$3,000.00 per 10,000 guilders. To-day 10,000 guilders are worth \$4,020.00 showing a net gain of \$1,020.00 on every 10,000

The Swedish krone after the World War sold down to \$1.76 per 10,000 Swedish krone. To-day the value of the same 10,000 Swedish krone is \$2,680.00 -a generous profit of \$915.00 has been reaped by investors on every 10,000 Swedish krone purchased a few years ago.

After the great havoc wrought by the earthquakes in Japan a few years ago, the yen, the monetary unit of the Japanese empire, rose from 37 1-2 cents per yen or \$3,750.00 per 10,000 yen to 48 cents per yen or \$4,800,00 per 10,000 yen-a sub stantial improvenment of \$1,050.00 for every 10,000 yen pur chased by far-sighted investors who were astute enough to see that it was only a question of time before the Japanese year would rise sufficiently as to yield them substantial profits.

The recent rapid rise of Danish exchange has been rather remarkable. In 1921-five years ago-the Danish krone sold as low as 13 cents per krone or \$1,300.00 per 10,000 krone. The quotation to-day on the Danish krone is 26.60 cents per krone of \$2,660.00 per 10,000 krone—a net gain in five years' time of \$1,360.00 or over 100% on every 10,000 Danish krone purchased. Many investors, five years ago, did not share our opinion that this exchange would be back to par before very

The remarkable advance of the Norwegian exchange clearly emphasizes the fact that history is repeating itself every day of our lives. From 11.7 cents per krone or \$1,170.00 per 10,000 Norwegian krone, the value has risen in a few short years to the present quotation of 24 cents per krone or \$2,-400.00 per 10,000 ksone -a profit of \$1,236,000 on every 10,000 Norwegian krone purchased. The Norwegian krone has not yet reached par but it is expected that in the comparatively near future the unit will touch 26.80 cents per krone or \$2,-680.00 per 10.000 krone. Our clients who are still interested in Norwegian exchange feel as we do-that it is only a question of time before the Norwegian krone will touch par.

A few years ago Spain's monetary unit, the peseta was quoted at 11.75 cents per peseta, or \$1,175.00 per 10,000 pesetas. Spanish exchange has now recovered to 15.84 cents per peseta or \$1,584.00 per 10,000 pesetas-an enhancement of \$409.00 on every 10,000 pesstas. This unit is also expected

to touch par shortly. South American exchanges are daily showing similar wide and substantial improvements in their value. The Argentine \$2,830.00 per 10,000 pesos. To-day the Argenine peso is quoted showing a profit of \$1,250,00 on every 10,000 Argenine pesos. These facts speak for themselves.

The history of the world convinces one forcibly that the most difficult thing to destroy is national existence. When millions of men and populations of nations lend their collective efforts nothing is impossible. The French franc will come back.

We believe that the greatest opportunity of the present generation to earn remarkable profits exists to-day for investors through the purchase of French Government 6% Bonds. These securities rank as the pre-eminent class of French Government bonds and are virtually a mortgage on the potential and vast resources of the Republic of France. These bonds are valid for thirty years after date of call and the interest compons payable June 16th and December 16th are valid for five years after their respective due dates, thus enabling the investor to are in his favor. The higher the rate of the franc the more coupons. Thus as the franc rises, not only will the value of the bonds increase but the interest-income will be some greater and greater.

It will be seen that at the present rate of the franc the holder of a 10.600-franc French Government 6% Bond will receive for his coupons which always aggregate 600 francs per annum a sum in Canadian money equivalent to a return of over 70% on his investement, that is, the cost of a 10,000-franc bond which is at present \$250.00. When the franc reaches 3 cents however, the value of the coupons will be much higher; 600 francs will be worth \$48.00 which, on an investment of \$250.00 is equal to a yield of 19%.

When the franc has reached 10 cents or \$1,000.00 per 10,000franc bond the return will be still higher. Every 600 francs in interest coupons will bring \$60.00 when cashed. Here the yield is 24%. At 15 cents per franc the coupons on a 10,000franc bond (which bond costs only \$250.00 to-day against a normal exchange value of \$1,930.00), will be worth \$90.00 representing a return of 36%. And lastly, with the franc at par the coupons for one year amounting to 600 francs will be worth \$115.80. This sum is equivalent to an interest yield of over 46% on the original investment of \$259.00.

French industries are thriving and working overtime-France is rapidly re-entering the export markets of the world, her shipping is crowding the world's ports, and the nation Reparations payments are enhancing the French treasury.

-And How Your Bonds Will Increase in Value With Bonds at Par and the French Franc Advancing to Table Showing Present Prices Par 19.3c per Franc per Franc \$ 193 1,000 French Government 6% Bond 2,600 French Government 6% Bond. 5,800 French Government 6% Bond. 10,000 French Government 6% Bond. 25,000 French Government 6% Bond. 60,000 French Government 6% Bond 100,000 French Government 6% Bond.

WE ARE selling a large number of these bonds at the above price which covers every expense. Upon receipt of accepted cheque for money order, we will at once confirm sale. Bonds are forwarded by registered and insured mail. Order with remittance to

over purchase, must be received by early mail to insure these price as quotations chan; frequently, For many years this Investment House has been one of North America's foremost exclusive foreign bond houses. THREE CHILDREN LOSE LIVES FROM GASOLINE EXPLOSION-ONE MAN IS DROWNED

Word is received in the city of fatal accidents from fire and drowning in the vicinity of Aiyansh on the Naas River. About two weeks ago at the house of Charles Morvens a half-breed boy, Perry Currie, attempted to light a fire with gasoline. The fluid exploded and young Currie, as well as two other small children, were fatally burned, dying at Kincolith where they had been taken for medical attention. Their funeral was conducted by Rev. Mr. Cooper of Greenville.

Another fatal accident took place at the Schoomal, some three miles below Aiyansh on the river. A canoe, containing three Indians, capsized and one of them, Stephen Occidan, a native of Kincolith, was drowned. This makes a total of four fatalities that have taken place at this particular point. The people of the Ngas River feel that something should be done to improve conditions there.

SUZANNE HAS NO IDEAL OF MAN

Tennis and Marry in About Three Years

MONTREAL, Nov. 10 .- (By Canadian Press).-Suzanne Lenglen, arriving with six trunks of clothes, told an interviewer that she thought "only women with shapely legs should wear short skirts." Many of her coats were trimmed with beaver. "You see I am very fond your national emblem," she said.

The tennis star is very fond of dancing, and is as graceful in the ballroom as on the tennis court. She abominates the Charleston, she declares, though her attitude has been moderated since she crossed the Atlantic. "I have seen young people dance it quite attractively since I came to America, but the way they dance it in France is atrocious, so ungainly and ugly! But I love the tango!"

She announced that she intended to give up tennis in about three years' time: "What will you do, then?" she was asked. "Oh, I shall marry and have a family," she said, laughing.

To "what is your ideal of a man? she replied. "I don't think it is wise have one. You know what happensperhaps you decide that your ideal is tall and dark-and then you get a little fat blonde one"-she indicated a barrel-like figure with her expressive hands.

"Applications have already run into seven figures," commented her manager. Suzanne laughed, but did not say whether she was contemplating any matrimonial offer.
