WESTERN FREIGHT RATES TO REMAIN LOW

HON. ARTHUR MEIGHEN MOVES SECOND VOTE OF WANT OF CONFIDENCE

Appeal Against Freight Rates to Board of Railway Commissioners Fails and Present Tariff Remains

Another victory sustains efforts of Oliver to give province low export grain rate on grain and flour

OTTAWA, Jan. 19.—British Columbia has won her case before the Board of Railway Commissioners. The order of the Board issued in September last reducing the rates on grain and flour to the Pacific coast for export stands. The rate is to be proportionally the same as the rates eastward.

The original order was issued by Chairman McKeown and Commissioner Frank Oliver and in refusing the appeal they were supported by Commissioner Vein, while commissioner McLean, Boyce and Lawrence favored the appeal.

The order which is now sustained by a tie, resulted from the application of British Columbia for equalization of westbound freight rates.

VICTORIA, Jan. 19.—There is great jubilation here over the failure of the appeal against the present westbound freight rates, which on export grain and flour were ordered to be made equal proportionately with those going eastward. This was brought about largely through the continued efforts of Premier Oliver and has already had good results. If the grain rates had been again increased, it would have seriously affected the grain shipments to the Pacific and would have interfered with the development of the ports of Vancouver and Prince Rupert.

Miss Russell of Archives Department Makes Very Interesting Discovery

VANCOUVER, B.C., January 19.—That a Chinese settlement existed approximately at the present location of Vancouver in the year 449 A.D. is the belief expressed here today by Miss Alma Russell of Victoria of the Provincial archives department in an address to the thirteenth annual conference of the B.C. Library Association on "Work of the international committee on intellectual co-operation" which met in Brussels last year. The international society is sponsored by the League of Nations. Miss Russell said she will attempt to secure copies of the journal kept 1500 years ago by Hoey Sing, a Buddhist priest, which she thought would verify the existence of such a colony.

VANCOUVER, Jan. 19.—John Noble, who returned here from Powell River, set at rest reports that it was his body which was found floating off Powell River recently. The identity of the remains still is a mystery.

SWEETS OF OFFICE NOT TO BE ENVIED

(Ottawa Citizen)
Premier King is accused from time to time by Conservative critics of thinking only of the "sweets of office." Mr. Meighen made several references to this alleged appetite for imaginary sweets in the opening debate on Parliament Hill yesterday. He made mention also of the "sweets of power, the salaries, indemnities, and fruits of office."

Now Mr. Meighen has held office. He had eight years of experience, beginning as solicitor general and rising to be prime minister. He must apparently have found office-holding sweet. Or did he? Recollections of the time when he toiled as solicitor general, putting through the \$10,000,000 bond guarantee for Mackenzie and Mann—sometimes being painfully attacked from behind while he did it—may be sweet to Mr. Meighen. But to the ordinary man without that political complex it is hard to figure out where the sweetness of office comes in.

UNIQUE CASE AT ASSIZES

Jury at Prince George Refuses to Accept Confession of Witness

PRINCE GEORGE, Jan. 19.—At the trial here in the Assize Court of Arthur Bellos on a charge of aggravated assault, an incident occurred which is probably unique in the history of Canadian criminal courts. A duly sworn witness, Sam Limeratos, went into the box and confessed himself guilty of the offense with which Bellos was charged, but the jury refused to believe the confession and found Bellos guilty.

HAZELTON

John Pearson of the Canada Products sawmill at Usk is a patient in the Hazelton Hospital suffering from a broken shoulder bone.

Master Wilfrid Young, son of Rev. and Mrs. J. H. Young of Terrace has passed the crisis and is now on the road to recovery at the Hazelton Hospital after a serious illness.

Mrs. James Turnbull was hostess on Wednesday evening last to the ladies of the Fellowship Club. Bridge prizes were won by Mrs. R. S. Sargent and Mrs. John Nowick.

Mrs. J. C. K. Sealy and Mrs. J. C. Hunt were point hostesses to a number of children at a party in the latter's residence in honor of Miss Helen Blackenden of Cherry Point.

A. D. Darlington, who has been under the doctor's care for some time, is now much improved.

Scores Government and Moves an Amendment to Address in Parliament

OTTAWA, Jan. 19.—The debate on the address opened yesterday in the House of Commons and Conservatives brought down the expected amendment. Hon. Arthur Meighen dealt with the speech from the throne in detail. He spoke of the "unsavory condition" of the Liberals in regard to Thursday's vote. Conservatives would welcome Progressive votes, he said, "but never have we suggested that the principles of our party were subject to valuation to secure their allegiance or the allegiance of anyone else."

Mr. Meighen closed with a reference to the Australian treaty, declaring that through Australian competition the Canadian farmer was being asked to pay in order that the paper manufacturer could enjoy the advantage in the Australian markets. The leader of the opposition then moved an amendment regarding that the speech from the throne gave no indication of a policy designed to enlarge the volume of employment in Canada and particularly to give to farm products, coal and primary products the advantage they are under present world conditions entitled to enjoy in the markets of the country.

Sir Henry Thornton Says Since Railway has been Paying Many Would Provide Remedies for Ills

MONTREAL, Jan. 19.—"Since the Canadian National Railways began to earn substantial sums annually, that is during the past three years, we have seen a spectacle which was absent when the property was producing operating deficits year after year," said Sir Henry Thornton, chairman and president of the National system when addressing the Young Men's Canadian Club here last night. "When the system earned nothing but deficits it was regarded with tranquility, even complacency, but once it began to make an effort to improve its service, to execute the enthusiasm of its workers and to bear fruit in the form of operating profits, people suddenly began to rush around with life preservers looking for means to save the wreck. Now that the people of Canada are faced with the staggering fact that the Canadian National Railways made an operating profit in excess of \$30,000,000 in 1925, as compared with \$3,000,000 in 1922, this frantic rushing about to save the ship wrecked has taken on new zest."

All Against Railway
"None of this alarm, mind you," continued Sir Henry, "became evident until the C.N.R. began to perform a useful service for the people of Canada. Remedy after remedy has been offered to bring about our salvation. All eventual in the same solution, the disappearance

Large Increase in Telephone and Light Consumers in 1925 Says Utilities Superintendent

According to a summary made by J. J. Little, superintendent of utilities, there has been a steady increase in electric light, telephone and water accounts during the past year. Electric light consumers at the end of the year 1925 totaled 1797 as compared with approximately 1620 at the end of 1924. The total number of telephones in use on December 31, 1925, were 1470 as compared with 1337 at the end of the preceding year.

Paid water services at the end of the year totalled 1070 but the actual number of consumers is considerably larger than this because some services carry as many as 2 or 3 consumers.

The total of 1797 light consumers includes 1206 residences and 375 places of business, the balance being accounted for in power and flat rates, some of which are very large consumers.

The total of 1470 instruments is represented by 1270 telephone subscribers. The phones in use on December 31 were classified as follows:

- Main business 322
- Main residence 130
- Party business 92
- Party residence 727
- Extension phones 499

During the year 1925, 344 new phones were installed, 244 were taken out and there were 244 removals.

A steady increase year by year from 1910 is to be noted in the utilities consumers. On December 31, 1910, there were 317 telephone subscribers as compared with 1470 today.

COMMITTED FOR TRIAL FOR OBTAINING MONEY ON WORTHLESS CHECKS

W. H. Bourne was committed for trial by Magistrate McLynn this morning on a charge of having obtained \$100 by false pretences through cashing a worthless cheque with U. Suga. It was alleged that accused had obtained \$50 from H. L. Landrey, \$20 from Joe Rowatt and \$50 from the Maple Leaf Cafe through similar methods but these charges were not pressed.

According to evidence given by City Police Sergeant McLinchy, who made the arrest, accused admitted having signed the name of Mark Smaby to the checks which were drawn on the Royal Bank, Bank of Montreal, and Bank of Commerce.

Witnesses in the case, besides the officer, were S. Suga, S. K. Campbell, D. C. Patterson and J. R. Stevens.

VANCOUVER, Jan. 19.—Failure to secure more than four jurors from the just list of 376 names caused postponement for a week of the trial of eleven individuals and 42 firms charged with being members of an alleged trial combine. The trial opened yesterday morning before Mr. Justice D. A. McDonald, who ordered another thousand talesmen summoned. It costs four dollars a day for each juror called.

PROPOSING BUNKERS AT VICTORIA DOCKS

VICTORIA, Jan. 19.—The announced intention of the Blue Funnel Line to transfer its coaling terminus on this coast from Union Bay to Seattle is but another strong argument in favor of the establishment of coal bunkers at this port, according to advocates of the bunker plan at Ozden Point. The establishment of coal bunkers at Victoria, it is pointed out, would obviate the necessity of Blue Funnel ships proceeding to Union Bay to replenish fuel supplies before setting out on the return voyage to the Far East.

Canadian Ports For Canadian Grain.

It is asserted by many who are in a position to know that the reason a great deal of Canadian grain is taken through American ports is because once it is out of the country it is outside the jurisdiction of the officials who require that it be kept pure and true to grade. It is mixed with inferior American grain and sold on the British market as Canadian. That, if it is true, is one good reason why Canadian ports should be used.

Halifax and St. John are out after the business and we admire them for doing so. We wish them success. They must fight their own battles. Here in the west things are different. The haul to Prince Rupert or Vancouver is not any longer than the haul to Fort William, for about half of the grain produced on the prairies. The cost of transporting the grain from Prince Rupert to Europe is not any more than for transporting it from the Great Lakes to Europe. In asking that the grain come this way instead of through Portland, Maine, or any other American port, we are not asking that more money be spent in transporting it. We are not asking the rest of the country to carry any of our burden. We are simply asking for a fair shake for the Pacific ports.

Much Speculation On Alberta's Action.

When the former Premier of Alberta resigned, it was said that he did so because he could not agree with his cabinet on the matter of the provincial railway policy. His successor, Premier Brownlee, has not yet made it quite clear what will be his policy but it is understood he favors a deal with the C.N.R. and he has promised to bring down his policy at the coming session of the Alberta Legislature.

Prince Rupert will be much interested in the Alberta policy and will follow developments closely. We all hope that we shall be able to co-operate with Alberta in getting the grain this way and that the neighboring province will inaugurate a policy of development which will bring about an early movement to tap the vast agricultural wealth of the Peace River country.

Rupert Hughes Being Advertised.

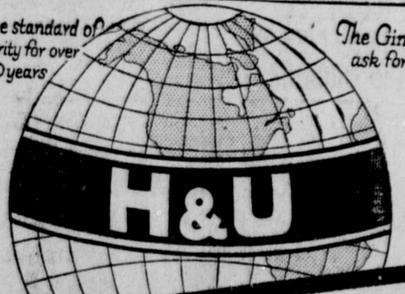

Rupert Hughes is getting in wrong and is getting a lot of advertising from the fact. He has been speaking truths which are best left unspoken. The father of the American republic is idealized just as Abraham Lincoln is idealized. People like to forget their little failings just as Scotsmen like to forget the little failings of their national poet. Why rake them up? The men were great in spite of them and the fact that they had these failings shows that they were very human. Without the failings they may not have appealed to their countrymen as they do today.

Better To Look On Best Side Of Life.

While a great many people enjoy a spicy bit of scandal, they prefer to tell and hear it at the expense of the living rather than the long dead. Washington is not here now to defend himself so why say anything about his swearing, his irreligion or his love of a gay life. Even today these little faults would not be dealt with very severely for many of our public men, leaders of big groups, may be accused similarly.

ANNUAL VESTRY OF ANGLICANS

Splendid Progress Reported by Archdeacon Rix and Heads of Departments.

25 PER CENT INCREASE

Sunday School Ministers to Two Hundred Children and Club is Active

The annual vestry meeting of St. Andrew's Cathedral congregation was held in the Cathedral Hall last night. Archdeacon Rix in the chair. The reports presented all showed progress. The average congregation had increased 25 per cent over 1924, and the treasurer, Mr. Orchard, reported that the finances showed a corresponding increase. The Sunday school under the superintendency of E. W. Tucker, reported the largest number on the roll in the history of the church, and satisfaction was expressed that between St. Andrew's and St. Peter's, Seal Cove, the Church of England ministered to over 200 children.

The choir of which W. F. Fisher is leader and Miss Elliott organist, was commended on the establishment of a boy's choir and the leader expressed the hope that in the near future this part of the choir would be much increased.

The Cathedral Club under Rev. Walter Allen, with the boy scouts, girl guides, sports, literary and social activities, had filled a need in a most excellent way, Mrs. Woodland being particularly commended for the manner in which she provided programs for the social meetings.

The Women's Auxiliary under the presidency of Mrs. Andrew had a most successful year and had proved their invaluable worth to the life and progress of the parish.

Special mention was made also of the work of John Carroll janitor of the church. He did not confine himself to the ordinary duties involved but was always doing things for the general improvement of the church. Of his own accord he built a complete cinder path from the street to both doors of the Church Hall.

Mrs. Rix was also given a vote of thanks for the care of the chancel and the providing of flowers throughout the year.

Appreciation was expressed for the work of Prof. Shortt during the summer, when he supplied the pulpit, for the inspiring visits of Archbishop DePencier and of the work of the Rev. Walter Allen, who has rendered splendid service during the winter.

Officers were chosen as follows:

- Clergyman's warden, H. T. Cross.
- People's Warden, A. E. Bazell-Jones.
- Sec.-treas., W. C. Orchard.
- Auditor, C. V. Evelt.
- Sidesmen: Alex. Rix, Sheriff Shirley, T. Andrew, E. W. Tucker, C. W. Homer, G. A. Woodland, W. Gilchrist and R. L. McIntosh.
- Delegates to Synod: T. Andrew, Mrs. McIntosh and W. Gilchrist.
- Welcome committee: Mrs. McIntosh, Mrs. Woodland, Mrs. Orchard, Mrs. Bazell-Jones and Messrs. Barnswell, Andrew and Evelt.
- Envelope committee: E. Unwin and Percy Tinker.

Ten Years Ago in Prince Rupert

January 19, 1916.

Walter Hume of the G.T.P. staff, sailed last night by the Prince John for a holiday trip south.

Word was reached the city that the mail car on the westbound train exploded and was burned at Edson yesterday. The two clerks were not injured and it is understood that little if any mail was damaged.

The fact that half a million pounds of halibut was landed and shipped East from Prince Rupert in two days has been given a great deal of prominence in Eastern papers.

"What Makes It So Wonderful?"

Naturally, the question follows the utter astonishment of hearing the new Orthophonic Victor for the first time.

COMPARED with the enchantment of actual performance,—explanation seems futile. Yet, humans are curious. The query persists: "What makes Orthophonic Victor music so captivating?" First, there is the revolutionary new acoustic principle. Second, there are the things it only,—of all reproducing instruments,—accomplishes. The Orthophonic Victor reproduces the base sounds as they should be heard. Harshness,—it does not know. Piano notes are maintained for their true duration.

Organ music has full organ resonance. Dance music rhythm is compellingly faithful to its original. Vocal harmony parts are clear and distinguishable from one another. Diction is natural as life. All tones have their true proportionate values. The result is beauty that matches the original, tone for tone.

There is yet a third reason for the wonder of this peer of instruments. It is a Victor Product! Your nearest "His Master's Voice" dealer can transform your interest into conviction today.

STUDENTS TRIED FOR OFFENCES

Boys Who Played Practical Joke on Edmonton Police Before University Court

EDMONTON, Jan. 18.—Robert Hill and Arthur Willis, Alberta University students, whose practical joking brought every available police officer to the campus early Sunday morning and resulted in a man-hunt for a hold-up man and his victim, neither of whom existed, were tried by the students' court at the university.

Decision was reserved for one week.

A feature of the trial in the Students' Court was that Neil Primrose, son of Col. Primrose, the magistrate trying the case in the police court, was prosecutor for the Students' Union. He pointed out that there had been too much practical joking going on in the residences and held that an example should be made of the present case.

Stand Well in Classes Clarence Campbell, defence counsel, brought out evidence as to the academic standing of both accused "students," which showed that they stood high in their classes. He also urged that the straightforward manner in which the two students had come forward when it was seen that the joke had gone too far, must be considered.

Interest Runs High Bruce Macdonald, giving evidence for the prosecution, told of the attitude of the police regarding the case and the serious view they took of the matter.

Interest in the case ran high at the University, and when the accused and their counsel appeared every seat in court was taken. The "fake murder" has been the talk of the campus since its occurrence, and opinion is divided as to any punishment that should be meted out to the practical jokers.

ANNUAL MEETING ST. PAUL CHURCH

Discussion of Plans for New Church was Main Item of Business Last Night

DRIVE FOR FUNDS

The annual congregational meeting of St. Paul's Lutheran Church was held last evening in the Metropole Hall, there being a large attendance on hand to participate in the business. Rev. P. E. Baister presided.

Various organizations of the church submitted their annual reports and these were found to be very encouraging.

One of the most important matters dealt with was of course, the building of the new church. Plans were placed before the meeting and John Dybhavn, congregational secretary, spoke at some length. It was decided to proceed at once with a drive for funds.

John Dybhavn and Thor Johnson were re-elected as deacons and Mr. Dybhavn was also elected delegate to synodical and conference meetings. C. G. R. Anderson, being named as alternate church committees will be appointed at the first meeting of the church council.

Rev. P. E. Baister spoke of the coming of the new minister, Rev. T. D. Rinde, and referred to the good work he has been doing at Laramie, Wyoming, from which place he is coming to Prince Rupert about March 1.

Reports showed that the registration of the church had increased.

Would Sit Up Most of Night

In bed nerves would twitch and jerk so he could not sleep

This letter gives you some idea of how distressing nervous ailments become. It also points to the best method of restoring exhausted nerves. Mr. E. P. Schoolcraft, Clarenceville, Que. writes:—"I suffered for three years with my nerves. I tried most everything, but without relief. I could not sleep at night, my nerves were so unstrung. I would twitch first one leg and then the other. Some nights I would sit up most of the night, unable to sleep. I became so bad that I could not sit still. I bought a box of Dr. Chase's Nerve Food, and felt slightly better by the time I had taken it. When I had used a full treatment I was an entirely different man—I felt better, slept better and worked better."

BAGPIPES MINGLE WITH SAXOPHONE TO MAKE JAZZ ORCHESTRA

(Victoria Times)

Startling, even sensational news from Great Britain. One jazz band has been improved by the addition of pipers to it. The drone and the wail of the bagpipes now mingle with the blare of the saxophone in the production of sweet and concordant sounds to excite the brains and fire the heels of dancers. That is had enough or good enough news, according to the point of view; but we fear the worst has yet to be told. The next thing we shall hear probably will be that the music of this sweet combination "is on the air" to assist the squealers and other abominations in creating complete pandemonium.

RUSSIA HAS MORE RELIGION TODAY THAN EVER BEFORE

TORONTO, Jan. 19.—"Never has Russia had more religion than now, for in persecution religion either dies or is born again," said Baroness De Hueck in an address before the Women's Art association.

"The official church has collapsed," she continued, "but many faithful souls are leading the country back to a spiritual religion that will never die." A new Russian orthodox church was coming into being through the instrumentality of a band of devoted and scholarly clergymen, and one day the country would emerge, the baroness believed, with its own pure, childlike faith purified and strengthened.

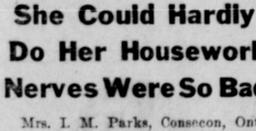

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. I. M. Parks, Concession, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me.

I Saw recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

\$100,000 ADDITION ST. JOSEPH'S HOSPITAL TO BEGIN OPERATIONS

VICTORIA, Jan. 19.—St. Joseph's Hospital authorities are now preparing to make a start on the construction of an addition to the present structure which will cost, it is estimated, a sum much in excess of \$100,000.

The new building will be of brick and concrete, and will include a maternity ward, quarters for pathological and radiological laboratories, and for a surgical

I realize that this is a stupendous task, the prices marked so low will be the trick, but, in order to induce you to come here in the morning, the genuine bargains will naturally jam the store to capacity—and the afternoons will be crowded—I make this great free offer. To the first fifty customers I will present, free, a silk knit tie, your choice of a value of \$1.25, and to every purchaser of a suit at my below cost prices, you will take your restricted choice of any cap in the store of values up to \$5.00.

\$20,000.00 Men's Clothing Stock Involved Goes on the Adjuster's Block Tomorrow

Leading Manufacturers of Men's Wear Represented

PRINCE RUPERT PEOPLE TO REAP BIG BENEFIT

As previously reported, Geo. A. Wood stepped in at the close of business Saturday last and took complete charge of Thor Johnson's men's wear shop at 720-2nd Ave., and yesterday decided to suspend the business and locked up the store.

Notice has been posted that the entire stock of merchandise in the store will be offered by him at a public sale starting tomorrow at 9 a.m.

Mr. Wood came here to settle this business and claims that no reasonable offer will be refused, just so that he realizes \$10,000.00 quickly. Small lots, individual sales and bulk sales to merchants will be taken care of.

Every article of merchandise in the store will be tagged and priced so that dealers and the

public alike can see just what they are saving and make rapid selection of any quantities wanted as this will be a quick store wide unloading.

It is understood that the terms of sale are:

Any merchant concern or individual may select any article, articles or bulk lots at prices quoted, for cash.

Suits, shirts, underwear or furnishings are appraised, regardless of wholesale or retail price, at what they will realize at a forced sale—one price to all.

Stock adjusters' public sale of the stock of Thor Johnson, officially opens tomorrow morning, Wednesday, January 20th, 1926, at the premises 720-2nd Ave., Prince Rupert, B.C., at 9 a.m.

EXTRA EDITION

CATALOGUE NUMBER AND NEWS

Sensational Window Display

They milled around the windows, and tried to force into the store all day—due to the almost unbelievable low prices shown for the clothing and furnishings to be sold at public sale tomorrow by the adjuster in charge of Thor Johnson's shop.

Business has been suspended here for the last two days and as the doors are locked, these insistent ones, trying to get in ahead of the other fellow, almost caused a riot around here.

Everybody wants to get in on the offer of free caps and ties of course, but no one will be admitted until the sale opens tomorrow at 9 a.m. at 720-2nd Ave.

PUBLIC NOTICE

Just cold, hard business demands that a topheavy stock must topple and so nothing short of a clean, to the bare walls if necessary, will satisfy me.

I came here and found things all messed up, the backward season had left Mr. Johnson with far too much merchandise, and he was—in a word—topheavy with merchandise for this time of the year.

I must have \$10,000.00 to meet my demands from this stock and there is something like \$20,000.00 in high grade merchandise here now. There is but one way to realize this sum, and quickly—that is to sell the merchandise at a price that will compel your immediate attention and action in buying.

Regardless of wholesale costs or any other considerations this entire stock will be offered at a public sale by me tomorrow at 9 a.m.

GEO. A. WOOD, Stock Adjuster.

PORTLAND ME. PROGRESSING

Much of Canadian Wheat Goes Out that Way Especially During Winter Months

PORTLAND, Maine, Jan. 19.—While a heated controversy is in progress in Canada over the failure of the Canadian National Railways to make a more extensive use of Halifax, N.S., as a winter port, Portland is reaping the benefit of immense shipments over the Canadian National lines for transfer to steamships here.

The beginning of the year finds the Portland elevators of the Canadian National rapidly filling with Canadian grain, and more routed through this port than for several years. This, coupled with large imports of European coal and china clay, is giving Portland its heaviest winter port business since the war.

Increased sailings to foreign ports from Portland have been scheduled by all the Trans-Atlantic lines which use this port in freezing of the St. Lawrence River has closed the ports of Montreal and Quebec. Every steamer which leaves for Europe has the maximum cargo permissible and in some instances the shipments of grain have been so heavy that part of the general

TWO SCHOONERS FOR TRADING IN ARCTIC BUILT AT EDMONTON

EDMONTON, Jan. 19.—Two schooners are being constructed in Edmonton for service in the far northern waters above Herschell island. The order for their building was received from London, England, by the Alberta Motor Boat company, who expect to have the vessels completed by April. They will then start on their long journey to the Arctic waters, being loaded on the spur line close to their place of construction, taken to Waterways on the railroad, whence they will proceed under their own power to Fort Fitzgerald. At this point they will leave the water to be taken over the portage to Fort Smith, entering again at this spot and continuing down the Mackenzie river and out into the polar seas.

They are each of the same type and dimensions, with a length of 45 feet 5 inches, a beam of 12 feet, and a depth of 9 feet. Their weight is eight, and their carrying capacity 10 tons. They are of the auxiliary schooner class with two masts, schooner rigged, and a heavy duty engine of 20 horse-power. Made throughout of oak they are firmly built to withstand the strength of the northern seas.

Four men will be taken on each vessel as a crew, there being sleeping and living accommodation for that number. Each vessel is also provided with a galley.

SHE RALLIED RALEIGH

Sir Walter spread his cloak down across the puddle, "Tread on this, your majesty," he said; "you are in danger of getting wet."

"So's your old mantle," retorted Elizabeth, who was not above using a bit of slang now and then.

SIR HENRY THORNTON SAYS SINCE RAILWAY HAS BEEN PAYING MANY WOULD PROVIDE REMEDY FOR ILLS.

(continued from page one)

best we can with what we have that we should get behind and back up what we own. All remedies have been destructive. Not one single constructive solution has been offered.

Not Pirating Business

Turning to the question of competition, Sir Henry said: "It is spread abroad in some sections of the land that the Canadian National Railways are becoming prosperous because they are taking away business from their competitors that is a statement which is refuted by the figures of the Canadian Pacific for the first eleven months of 1925 show that the net earnings of the company are greater than for the same period in any year since the war. They are justly proud of that fact. I rejoice with them. Canada too may rejoice in that it has evidence that both of its great railway systems are performing their service to the public and at the same time showing greater net earnings than for many years."

"It is often heard that the Canadian National Railways are costing the folks of Canada huge sums of money. In the last analysis the Canadian National Railways are not costing the people of Canada a penny, because the people of Canada are enjoying the lowest freight rates in the world. If the freight rates the National railways could command were as high as the average freight in the United States, the National system would be practically earning its fixed charges.

If it not for me to tell the people of Canada what will happen if certain things are done. If
