SNOW MOTORS GO NORTH FOR ARCTIC DASH

MAYOR AND T. D. PATTULLO MAKE TENTATIVE ARRANGEMENT COW BAY

Snow Motors Leaving Seattle Today to be Used in Arctic Dash

Each will haul five sledges carrying 1500 tons of supplies for airplane that will fly from Point Barrow

SEATTLE, Jan. 16.—The three snow motors for the Wilkins' Arctic expedition are leaving here for Seward today in charge of Gordon Scott of Detroit, who came west to assemble the motors here. Accompanying also will be A. Malcolm Smith and Earl Rossman.

Scott said that the new snow motors would be put in operation at Nenana. One will be left to clear the field for the planes of the expedition and the other two will haul five sledges each carrying a total of 1,500 tons of provisions and supplies, chiefly oil and gasoline for the planes.

Smith is to act as guide. They will go from Nenana to Tanana and thence to Bettles, up the John river and follow the Anakavik to the Arctic ocean, thence to make 35 miles a day and will carry very little food outside of sugar, salt and flour. They expect to live mostly off caribou.

It will probably be February before the party leaves Nenana. Scott said, because the gasoline will not arrive in time to make it earlier. After the plane with Wilkins hops off from Point Barrow the caravan will wait a week and then fly the remaining plane to Nenana on the assumption that Wilkins has flown to Spitzbergen. If Wilkins finds land he will return to Point Barrow and then fly to explore the land.

FATHER OF LOCAL LADY PASSES AWAY
Mrs. S. D. Macdonald is Daughter of Late Joseph C. Moore of Victoria

The death occurred in the Royal Jubilee Hospital, Victoria, last week of Joseph C. Moore, father of Mrs. S. D. Macdonald of this city. Deceased, who was a native of Owen Sound, Ontario, was 80 years of age and had lived in Victoria for eighteen years.

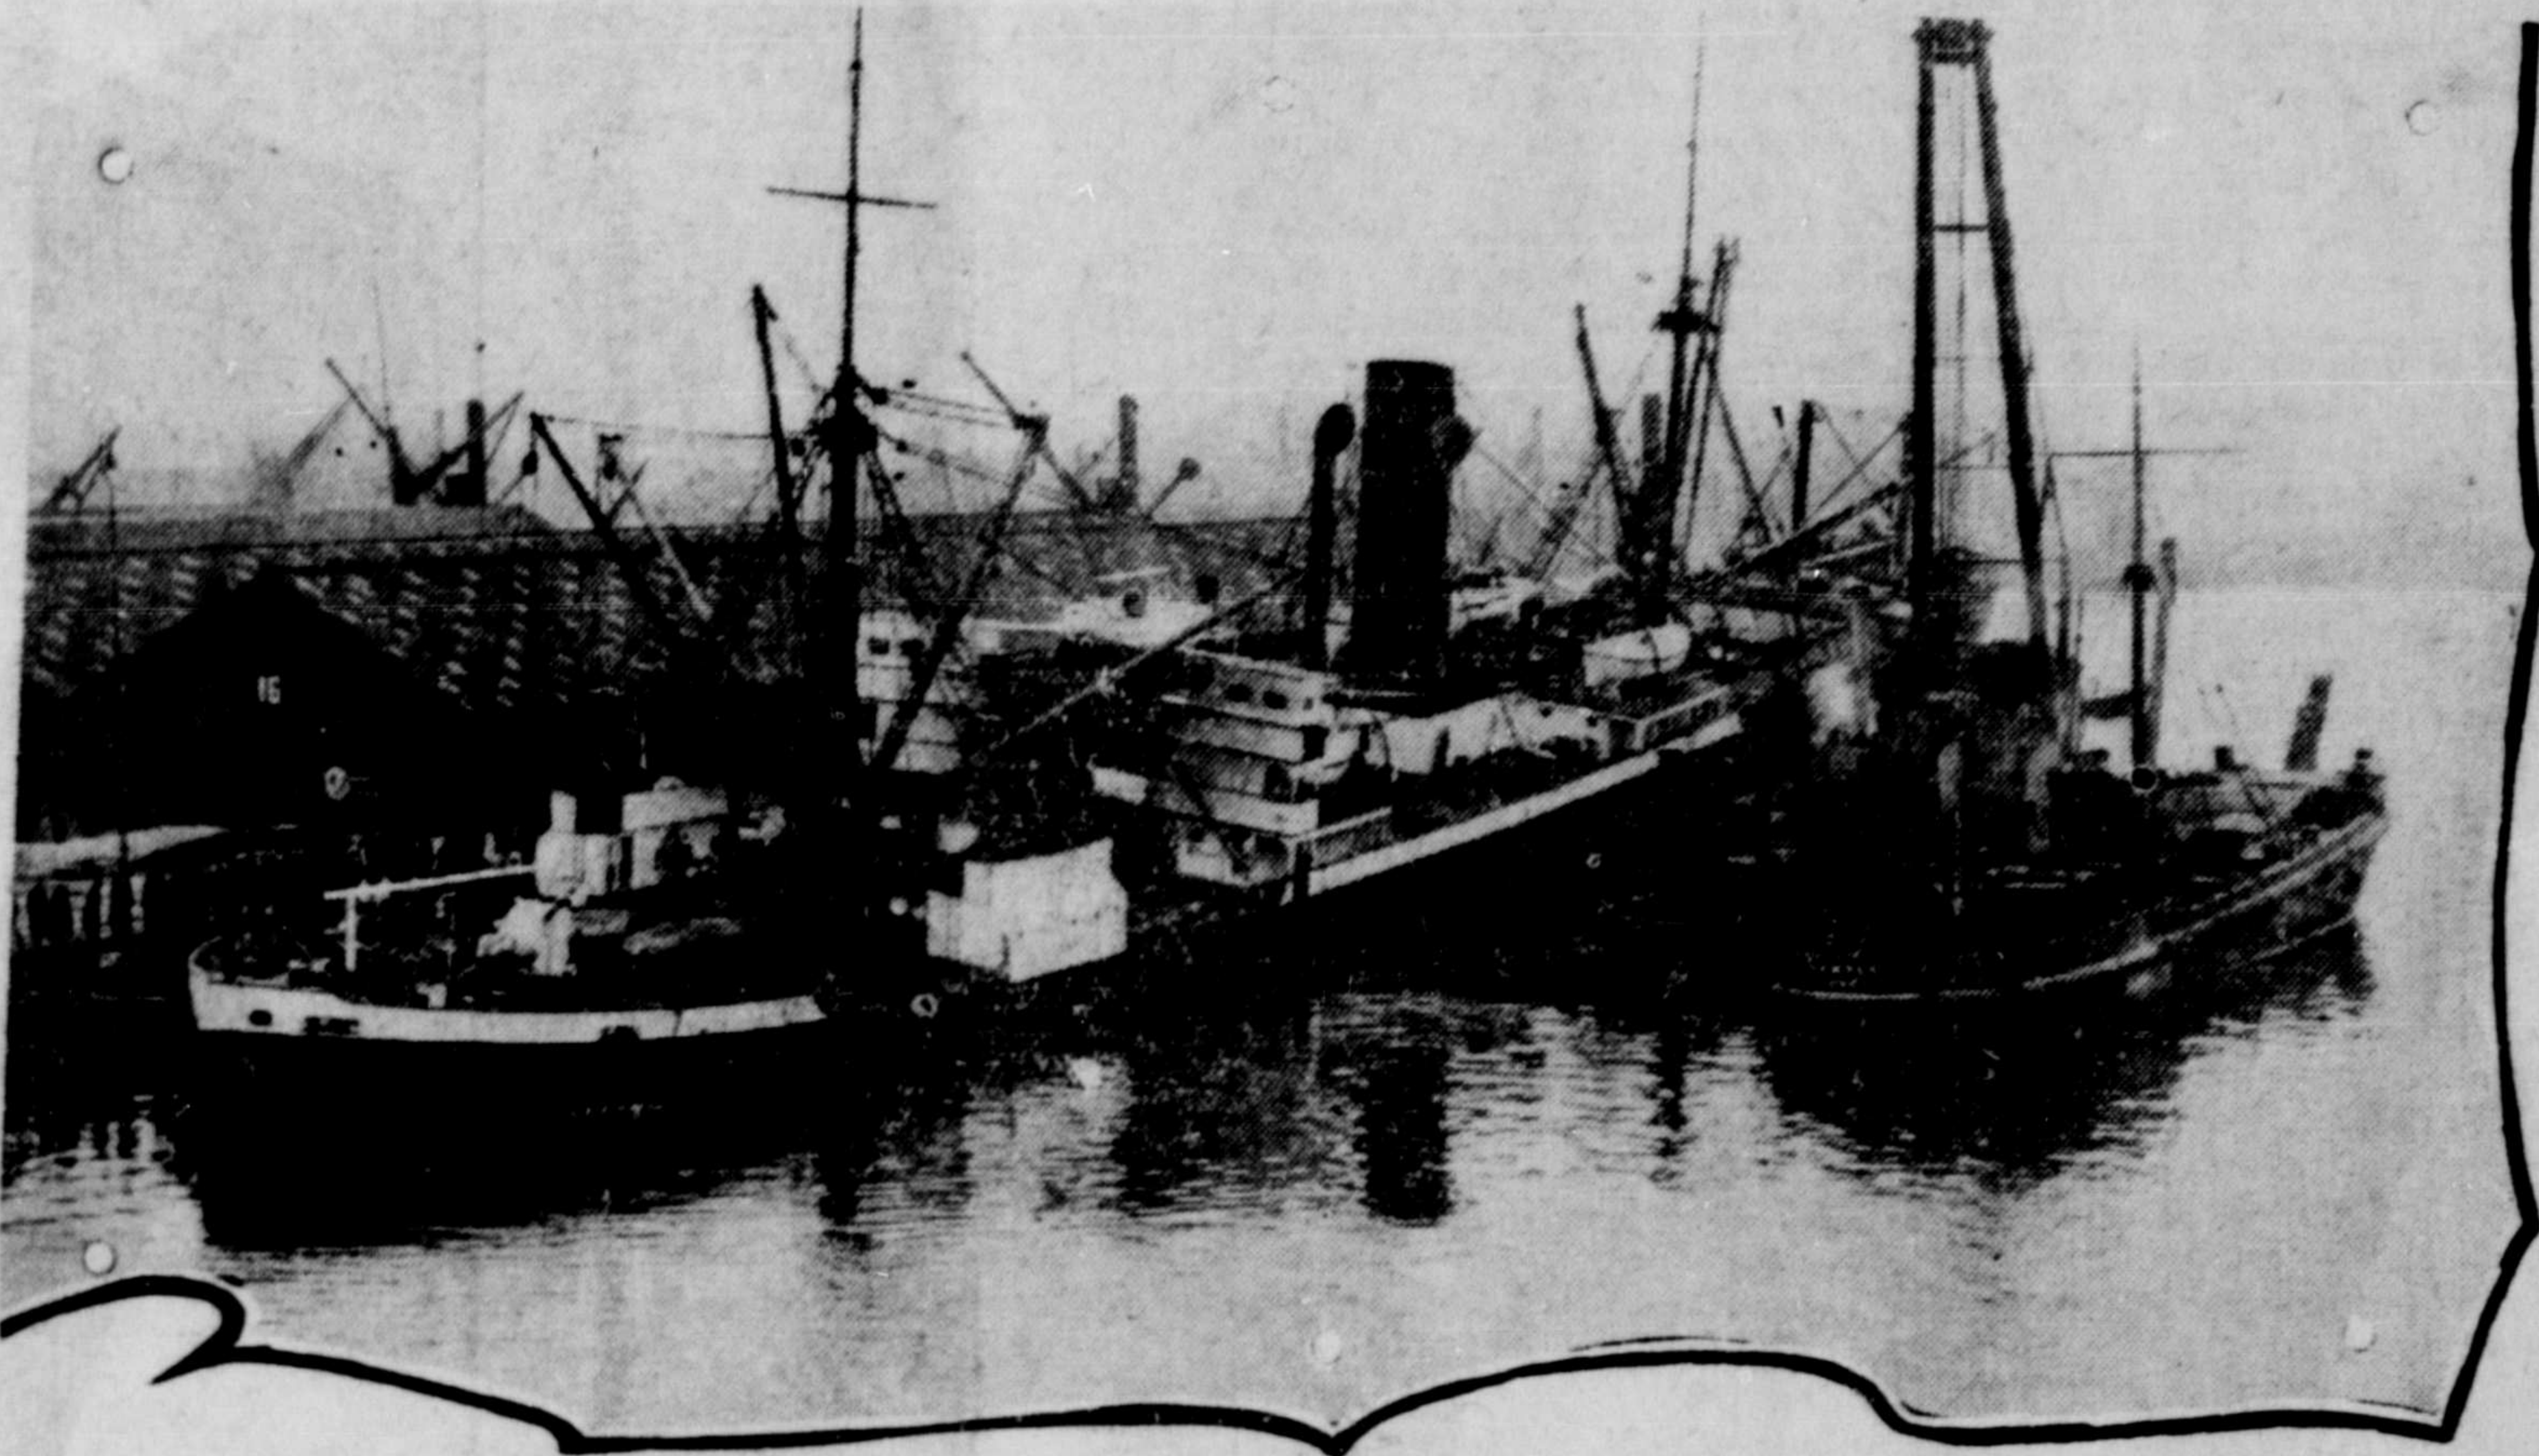

EIGHTEEN KILLED ON RAILWAY IN JAPAN
TOKYO, Jan. 16.—Eighteen persons were killed and twenty injured today near Miyanoshta when a train jumped the track and fell two hundred feet.

VEREGIN IS WIPED OUT BY BIG FIRE
VEREGIN, Sask., Jan. 16.—Fire yesterday wiped out practically the entire business section of this settlement with estimated loss of \$50,000.

MRS. DICKIE DIES.
VICTORIA, Jan. 16.—Mrs. C. H. Dickie, wife of the federal member for Nanaimo riding, died suddenly last night.

SUNK TO STOP FIRE—One of the most serious and difficult fires ever known at the Tilbury docks, England, broke out recently in the hold of the 5,000-ton liner, Clau MacKay. Not until the vessel seemed doomed for destruction was the desperate expedient of sinking the forward part resorted to. It succeeded in quenching the flames.

Premier King May be Returned Without Opposition at Prince Albert and House May Adjourn

OTTAWA, Jan. 16.—When Premier Mackenzie King submits his candidature for Parliament to Prince Albert on February 15, it is possible he will be returned unopposed. Gossip here has it that the opposition may simplify the situation by letting the Prime Minister return to the House of Commons at the earliest possible moment. It is probable that before polling day Parliament will be in recess, if the suggested notice of the Government for an adjournment for several weeks carries, after the address is adopted. The recess, if it takes place, will be for the purpose of clearing the way for cabinet reorganization and for the holding of the by-election necessary to provide the Premier with a seat in the House.

THIEVES BORED LIQUOR STORE

Got in and Took Booze and Money at Esquimalt Thursday Night

VICTORIA, Jan. 16.—Thieves who bored their way through the floor obtained about \$350 worth of liquor and a small amount of cash from the Esquimalt liquor store Thursday night.

TRYING TO IDENTIFY BODY DROWNED MAN

Was not that of Minneapolis Contractor but may be John Noble

VANCOUVER, Jan. 16.—The body found floating near Blubber Bay yesterday was not that of Peppard, according to word received from Powell River. The Minneapolis contractor, who disappeared from Vancouver on December 10, weighed about 150 pounds while the body found at Blubber Bay is that of a man of 225 pounds weight.

MRS. JOHN NOBLE OF VANCOUVER thinks the remains may be those of her husband who disappeared from here December 27. At the inquest, yesterday an open verdict was returned. The head and neck of the body had been completely severed from the trunk and there was no evidence to indicate how or when this had been done.

HOCKEY RESULTS.
Victoria 2, Portland 3.

Agreement Between Minister and Mayor is Reached Over Cow Bay Waterfront Question

Yesterday afternoon Hon. T. D. Pattullo, minister of lands, and Mayor Newton conferred on the Cow Bay question and the result was that an understanding was reached which will be submitted to the city council at an early meeting for its approval.

The basis of the agreement is that the provincial government will transfer to the city four hundred feet of waterfront at Cow Bay on condition that the city takes care of the requirements of the fishing fleet and the Prince Rupert Yacht Club, and also supports the application of the Canadian National Railway to the railway commission for authority to fill in Cow Bay in order that the agreement between the provincial government and the Canadian National Railway for exchange of inside property for waterfront may be completed.

SITE FOR FISH PLANT IS ASKED

Boat Owners Committee Assured by Minister of Lands That it will be Forthcoming

During his visit here this week, Hon. T. D. Pattullo, minister of lands, was waited upon by a committee from the Canadian Harbour Boat Owners' Association consisting of G. W. Nickerson, H. J. Bradbury, J. Morrison, and J. Christiansen. One of the matters taken up was that a site be granted on the government wharf, for a fish handling plant that may be put up for the purposes of the Co-Operative Association, recently formed. The committee was given assurance by Mr. Pattullo that such a site would be forthcoming when required.

ALASKA SUFFERS FROM LACK OF SNOW TO ALLOW GETTING OUT OF TIES

SEWARD, Alaska, Jan. 16.—Strawberry plants and grass crops growing in mild spring-like weather which is now prevailing. It is raining and there is almost no snow on the railroad this year, except on the high mountain passes. The lack of snow is stopping the contractors getting out ties, and forcing the railroad to secure its supplies from Seattle.

Charles Lemon left on the steamer Catala this morning for Nanaimo where he has become interested in business.

EDITORIAL

WHO DID IT?

In a letter published on another page, Mayor Newton today states in connection with his failure to appear at a public meet called by himself this week, "I had it put over me and good and hard at that."

If Mayor Newton was, in the language of the street, "doped," as his letter would suggest, if knockout drops or some opiate were given him, or if he were forced to drink liquor that made him intoxicated, so that he could not appear, it is up to him to say where he got it and who gave it to him. It would be the reasonable thing to think he knew where it was administered and by whom. We think he should have told this before the election, but he owes it to the public and especially to his opponents to make a clean breast of the whole matter now.

The Mayor says in his letter he is prepared to take a most solemn oath that he has reason to believe something of the sort happened. There could be no other meaning to his words, that we can see. He approached the meeting in such a condition that the report was spread abroad that he had been "doped" by his opponents. By whom? That is what the public wants to know.

BODY IS FOUND IN LONE CABIN

Partner of Dead Man Has Disappeared from Neighborhood of Fort Norman

EDMONTON, Jan. 16.—What may prove to be another insoluble mystery of the far north is revealed in a despatch from Fort Simpson telling of the finding of Herbert Hodgson, a trapper, in a lonely cabin in the Gravel River district north of Fort Norman, of the body of J. C. Nichols, said to be an old timer of the Yukon, and the disappearance of the partner, L. Beaman.

Nichol and Beaman left Fort Norman in 1923 on a prospecting and trapping venture but there is no trace of the latter in the cabin where Nichol apparently died of sickness.

Beaman is well known in the Northwest Territories.

GRAIN SHIPS WHICH SAILED

Vessels Mostly Bound for European Ports Which Left During Week

VANCOUVER, Jan. 16.—The following vessels cleared from this port with grain during the past week:
Canadian Planter for Antwerp, 15,696 bushels, for London 134,306 bushels.
A. L. Kent for Avonmouth, 37,333 bushels.
Vulcan City for Colon for orders 276,400 bushels.
City of Manila for London, 74,866 bushels, London 33,333 bushels, Hull 37,333 bushels.
Iowa for Havre for orders 175,466 bushels.
Hoyeisan Maru for Shanghai, 126,667 bushels.
Meiko Maru for Maji 93,500 bushels, for Yokohama 100,000 bushels.

Saturday, January 16, 1926.

Elections Over And Now For Business.

The elections are over and now it is most desirable that we try to forget everything and get down to business. One incident left an unpleasant remembrance with the supporters of both parties. The rumor was spread that the reason the mayor did not appear at a meeting which he had called was because he had been "doped" by some of the McMordie supporters. This may not have been done officially but it had a considerable result on the outcome. Whether the difference was sufficient to have changed the representation seems uncertain. At any rate Mr. Newton is elected and now the thing to do is to try to unite all our forces for the benefit of Prince Rupert.

Position At Ottawa Is Not Encouraging.

The present position at Ottawa is not encouraging. The government majority of three is less than might have been expected but it is thought that on general business votes practically all the Progressives will vote with the government. No one envies the legislators their jobs just now much less do we envy the members of the government.

The curious thing about the situation is that a change of government would not improve matters. The party in power would still be there through the support of the Progressives and that group would dictate the policy. As they are a low tariff group while the government is avowedly protectionist, it is difficult to see how they could possibly satisfy their constituents.

Sowash Document Has Much Human Interest.

The document left by the criminal Sowash before his execution has a great deal of human interest and coming from the pen of an intelligent man just on the eve of his death when he knew that his hours were numbered, gives it a note of sincerity that would not otherwise be obtained. That we do not treat the criminal properly is becoming an accepted opinion. We have set up a false standard of values, as he says, and we bow down and worship the god Mammon. Then when some person follows his natural bent to extremes, we incarcerate him or execute him.

Is It Revenge Or Reform We Seek?

When we punish a criminal is it with the purpose of re-vengeing society or is it with the idea of reforming the criminal? If it is revenge, it is time for a change of attitude. If it is reform we are seeking, we take a curious method of carrying it out.

The tendency of the day is toward a more sane method of treatment of prisoners. Time was when even suspected prisoners were severely punished. Now convicted prisoners are known to be largely the product of our unhealthy ideas and cramped ideas. If there are criminals, someone is responsible and least of all the poor wretch whom we punish. Children are born badly because their parents did not have a chance through poverty, or else they have frittered away their chances by indulgence in vice made possible by the desire for gain. In any case the false standards are at fault. The desire to make money to spend on ourselves is at the bottom of most of our debauchery. It is useless to say "The poor ye have always with you." The poor ought not to be with us. The day is rapidly approaching when there will be no poor, and consequently no commercialized vice.

Discussing Halifax Because They Howl.

Halifax and St. John, Canadian ports on the Atlantic seaboard, are raising a howl which is rapidly becoming a political issue, because grain is not being shipped that way but is instead going to American ports, which are nearer and more convenient. The real howl should be that grain does not go to Prince Rupert, which is nearer the market than the American ports, more accessible and the harbor is open all the year round.

It is difficult to force freight out of a natural course. All Prince Rupert asks is that the grain be allowed to take its natural course and not be diverted therefrom by those interested in terminal plants and transportation concerns in other places.

ANNUAL BALL OF BATTALION

Many Enjoyed Big Event in Auditorium Last Evening and Stayed Late

It was three o'clock this morning when the big dance given by the First Battalion Northern B.C. Regiment broke up and then those present seemed reluctant to leave. It was a most enjoyable event. The hall was brilliantly decorated with flags of all nations and hunting and that with the gay dresses of the ladies, the service uniforms of the sailors and the picturesque garb of the navy boys, together with an occasional red coat and a few killies gave a most charming effect. The music was provided by Rood's orchestra made up of Kenny Rood, Miss Morrison, and Messrs. Wilson, Beate, Horie, and Balagno. Mrs. Ponder played the extras and the boys band played the grand march. Charles Youngman made a very efficient master of ceremonies.

Supper was served upstairs by the ladies' auxiliary assisted by members of the regiment, three sittings being required to provide for something like 260 persons who were present. Committees in charge, under general supervision of Capt. Evitt, were as follows:

- Music—Lieut. Barnsley and Bandmaster Wilson.
- Invitations—Lieut. Rix, Sgt. A. Murray, Pte. Geo. Wilkinson.
- Finance—Lieut. Norris, Pringle and Sgt. E. Unwin.
- Refreshments—Capt. Tinker, Sgt. Lavery, Pte. Frank Russell, Ladies' Auxiliary, and Mrs. Tremayne.
- Decorations—Lieut. Floyd, Sgt. H. A. Ponder, and Sgt. Squire.
- Floor—C.S.M. C. Youngman.

GRAIN MOVING TO VANCOUVER

Going There as Fast as It Can be Absorbed Says Superintendent of Transportation

WINNIPEG, Jan. 16. — The movement of grain into Vancouver continues to break the record of all previous years and is going ahead as quickly as shipping facilities at the Pacific Coast port can absorb the offerings, said A. W. Wilcox, general superintendent of the Canadian National Railways, in discussing the weekly grain figures last night. To date the movement over Canadian National Railways to the Pacific port is more than five times as heavy as that of the same period of 1924-25 and deliveries are only limited by the ability of the port facilities to handle the grain consigned there.

From August 1, 1924 to midnight January 13, this year, a total of 10,280 cars had been delivered to Vancouver by C. N. Railways and with the majority of shipments now being loaded in Alberta, this total is being steadily increased. At January 13, last year, the total deliveries of Canadian grain by Canadian National to Vancouver were only 2,093 cars.

THE MAN IN THE MOON

BACKBONE is that part of the anatomy sadly wanting, even in adults.

An invertebrate animal is one without any backbone.

A CRAB is an invertebrate.

PRINCE Rupert people have been accused of being a gang of bootleggers selling to each other. That reminds us that in Florida today the people are mostly a gang of real estate dealers selling under water lots to each other.

WE all admire thrift but we hate the man who is thrifty.

LOVE is that quality which enables a young lady to believe the damndest lies told by young men of no moral calibre.

THE redeeming feature about Christmas toys is that they soon are broken and repose gracefully in a neglected corner of the back yard until the ash man comes.

THERE is a story about people being smitten by the jawbone of an ass, but today we get bored by a similar jawbone used in a different manner.

"TWO is company and three is none" is applicable only to unmarried people. After marriage two is often too many.

ADVICE to ambitious young men: If you want a raise, eat yeast.

OUR advice to Mackenzie King when dishing up legislation for the multitude is: "Take it with a Fork."

IT was announced yesterday that the Government would carry on. I thought there had been queer carryings on there for some time.

What they need in the Government party at Ottawa today is a safety first campaign among Government supporters. Three accidents and there might be a catastrophe.

OFFICERS ELECTED SECOND DEGREE OF MOOSE LAST NIGHT

Prince Rupert Legion No. 45, the second degree of the Royal Order of Moose, elected officers last night.

In The Letter Box

REPLY TO COL. McMORDIE'S QUERY.

Editor Daily News.
In the press, of yesterday, Col. McMordie stated that it would be a great satisfaction to himself personally, were I to make a statement as to whether I held him responsible for the incident of last Tuesday evening. In reply, let me publicly say, no. After our kindly relationship of last year, I couldn't believe such a thing. But nevertheless, I am prepared to take the most solemn oath that can be administered to me, that I have every reason for believing that I had it put over me, and good and hard at that.
Yours truthfully,
S. M. NEWTON.

GIRLS DO NOT SMOKE TORONTO UNIVERSITY

President Falconer Says There is no Rule Against it but it is Not Done

TORONTO, Jan. 15.—Women students of the University of Toronto and its affiliated college are not permitted to smoke on college property. There is at present no rule against it, but smoking by women students “simply isn't being done, and hasn't been done on university property, so the matter has never been officially discussed,” according to information from the office of President Sir Robert Falconer.
“We are not blind to the fact that some of our young women smoke at parties and in their clubrooms or societies; but this custom is recognized as unethical in the college buildings, and it is not done.” Such is the opinion of one leading university authority.

VERSATILE JANITOR MARRIED A COUPLE

SAN FRANCISCO, Jan. 16.—The fifth wedding of Mrs. Brandes who her last husband calls the exponent of experimental marriages was performed at Salinas, California, a year ago, but she was not married at all, Juan Brandes a mining engineer revealed today.

A versatile janitor in the office of the Salinas Justice of the peace was unwilling to see the office lose the fee so he “married” the couple, kissed the bride and wished them Godspeed. They didn't find out that it was the janitor that had married them until three days later when the justice himself called them up. They were then married legally. Brandes has since had the marriage annulled.

BRITISH COLUMBIA
The Mineral Province of Western Canada
TO END OF DECEMBER, 1924.
Has produced Minerals as follows:—Placer Gold, \$77,382,953; Lode Gold, \$118,473,190; Silver, \$68,824,579; Lead, \$70,548,578; Copper, \$187,489,378; Zinc, \$32,171,497; Miscellaneous Minerals, \$1,431,349; Coal and Coke, \$260,880,048; Building Stone, Brick, Cement, etc., \$42,225,814; making its Mineral Production to the end of 1924 show an

Aggregate Value of \$859,427,386
Production for Year Ending Dec. 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants. Full information together with Mining Reports and Maps, may be obtained gratis by THE HON. THE MINISTER OF MINES Victoria, British Columbia.

N.B. — Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

Church Notices

Baptist Church
Morning service at 11 o'clock. Subject: “The Atonement.” Sunday School at 12:15. Evening worship at 7:30. Subject: “Religion and the Intellect.” Must either be sacrificed? If possible, arrange to attend these services. Both will be found interesting.

Presbyterian Church
Morning service at 11 o'clock. Subject: “Wilderness Bread.” Sunday School and Bible Class at 12:30. Evening service at 7:30. Subject: “The Unaccountable Man.” Preacher, Rev. Dr. Chas. J. Cameron.

Salvation Army
Let the Army help you solve the great problem of spending life to the best advantage. Col. G. Phillips, in charge of Native Training School, will be the speaker at both services on Sunday, at 11 and 7:30. Native Envoys will take part. Saturday at 10:15 Praise meeting. Sunday at 12:30. Sunday school. New-comers invited. Tuesday and Friday, Scouts and Guards. Public Meetings on Monday and Thursday. Bible Class on Wednesday. A warm welcome awaits you at the Army.

United Church
The Church of Service, Rev. George G. Haecker, pastor. Miss Isabel Haddock, deaconess. Morning service at 11 o'clock. Sermon topic, “Christ's superiority over Rome.” Preacher, Rev. Geo. G. Haecker. Sunday School at 2:30. Evening service at 7:30. Sermon topic, “What is Christianity?” Preacher, Rev. Evan Baker. Visitors coming to church from the western part of the city will please use the basement entrance while the street is being repaired.

Lutheran Church
St. Paul's English Lutheran Church, Metropole Hall, Third Avenue. Rev. P. E. Baisler, B.D., pastor. Morning service at 11 o'clock. Sermon topic: “The Epiphany Light in Nathaniel's soul.” Sunday School at 12:15. Evening service at 7:30. Sermon topic, “A Call to Service.” Anthem by the choir.

SING SING PRISONER WINS NATIONAL PRIZE

CHICAGO, Jan. 16.—Prisoner Number 76180 of the Sing Sing penitentiary of New York won the national contest for suggestions in the poster safety campaign. He prepared a poster with the slogan, “Play Safe.”

M. Huntley, charged in the city police court this morning with attempting to assault Samuel J. Kissick, was dismissed.

WATERFRONT WHIFFS

Activity at Cow Bay---cannery tenders changing to deisel engines---co-operative marketing---trolling boats building

People along the waterfront say times are quiet and there is little doing but the casual passerby from uptown is impressed with the activity in evidence—especially at Cow Bay. If this is a quiet time, then it must be a humming time when things are going strong, says Mr. Landlubber. Because there is "nothing doing" at Cow Bay does not mean that nobody is to be found there and nobody is busy. Much the contrary is the case. To the casual observer even now there is a good deal going on. On boat building and boat repairing in the vicinity of Cow Bay, there must be a hundred or so people today engaged and it is not to be supposed that they are working solely for the good of their health. The trouble with the people down there, used as they are to hard work, is that, when like today they can stop a few minutes to chat and pass the time of day with a fellow, they think they are having a holiday. Some people would call it hard work and, depending on one's idea of work, they would be right.

After having spent several days in port, the Balmoral cannery tenders Klatawa and Kyac, the latter in tow of the former, left yesterday for Vancouver where they will have their present gas engines removed and replaced with deisel motors. When they return in about two months' time in readiness for the salmon season, the Klatawa will be powered with a 70 horse power Bolinder semi-deisel engine and the Kyac will be driven by a 45 horse-power Fairbanks-Morse motor, also semi-deisel. Some six or seven men are making the trip down the coast to the southern metropolis in the two boats.

The Canadian Halibut Fishing Vessel Owners' Association held its much deferred annual meeting this week and re-elected all the 1925 officers as follows:
President, Dan Larsen.
Vice-President, G. W. Nickerson.
Secretary, H. J. Bradbury.
Manager, H. M. Daggell.
Trustees—Dr. W. T. Kergin, George Fritz and M. F. Nickerson.

The Association passed a resolution protesting that the federal authorities should have granted a renewal of the privilege to United States fishing vessels to land their fish in Canadian ports without at first having obtained some counter-concessions more particularly as regards tariff amelioration. The feeling was that, in taking such action, the authorities had disregarded resolutions passed by the Association and other local interests last year. Copies of the resolution have been for-

LAND ACT.

Notice of Intention to Apply to Purchase Land.
In Land Recording District of Prince Rupert, and situate on the South Shore of Captain Cove, Pitt Island, Province of British Columbia.

TAKE NOTICE that William Joseph Jefferson of Prince Rupert, B.C., occupation cannery-man, intends to apply for permission to purchase the following described lands:
Commencing at a post planted on the south shore near the head of Captain Cove, Pitt Island, Range 1, Coast District, Province of British Columbia; thence south twenty chains; thence west twenty chains; thence north twenty chains, more or less, to high water mark; thence easterly along high water mark to point of commencement, and containing forty acres, more or less.
WILLIAM JOSEPH JEFFERSON, Applicant.
Per W. J. Thomas, Agent.
Dated December 11th, 1925.

LAND ACT.

Notice of Intention to Apply to Lease Land.
In Prince Rupert Land Recording District of Prince Rupert, and situate at Shannon Bay, Queen Charlotte Islands, B.C.

TAKE NOTICE that Gosse-Miller, Limited, of Vancouver, B.C., intends to apply for a lease of the following described lands:
Commencing at a post planted about 15 chains, north or less, west from north east corner of Lot 1548 (T.L. 2855P); thence north 325 feet; thence south 55deg, west 90 feet, more or less; thence south 400 feet to the high water mark, in a north-easterly direction 900 feet, more or less, to the point of commencement, and containing six (6) acres, more or less.
GOSSE-MILLER, LIMITED, Applicant.
Per Wm. G. Mitchell, Agent.
Dated November 12th, 1925.

LAND ACT.

Notice of Intention to Apply For Lease of Land.
In the Prince Rupert Land Recording District and situate on an unnamed islet forming one of the Narrows group of islets in Hudson Bay, Passage opposite Gore Laikton Point, Blue Print R.M. 14.

TAKE NOTICE that Harris Kerr of Prince Rupert, B.C., Master Mariner, intends to apply for a lease of the following described lands:
Commencing at a post on the shore on the East side of the above described islet, thence 3,000 feet northwest; thence 3,000 feet northeast; thence 3,000 feet south; thence 3,000 feet southwest to the point of commencement, containing 200 acres, more or less.
HARRIS KERR, Applicant.
By his Agent, Joseph S. Rogers
Dated December 6th, 1925.

Co-operative Association

The Co-operative Association that was formed in the city recently with the object of marketing halibut to better advantage for the producers is still actively working on the scheme which it is hoped may take definite shape before much time elapses. In furtherance of the scheme, the Association has just received from Seattle, where a similar organization is in process of formation, an outline of the co-operative marketing possibilities prepared by Sapiro, the American expert on such matters, and this is being given consideration. In the meantime, an effort is being made to sell stock in the Association. The Retail Merchants' Association will be approached with a view to its members investing.

After having undergone a thorough engine overhaul at the hands of her master, "Camera" Gamm, provincial police high dive expert, the patrol boat Adanae had a trial spin around the harbor on Thursday and, tribute to the prowess of Gamm as a mechanic, did not have to have a tow back to her berth at the Prince Rupert Boat House either.

Spring salmon are still reported in the harbor in some numbers and, occasionally, the cod fishermen pull one in. When a salmon is caught these days it means a night out along sane and sensible lines. The tale is told this week of the battle that Teddy, the crab man from across the bay, had with a spring salmon. He was fishing for the timid crab, when his line suddenly pulled taut in a manner that crabs don't generally pull. Teddy's boat simultaneously started a full speed astern movement and it looked like a rapid voyage to the other side of the world either around or through. However, when a strong fish and a good fisherman meet on opposite ends of the line, one generally has to give in and it is not usually the fisherman. So, after some preliminaries, Teddy's "whale" finally came to the surface and it proved to be one of the finest springs that 1926 had yielded, weighing, according to which story you believe, 14 or 16 pounds. That's that tale of a salmon, now you tell one.

J. A. Brown, the Eastall River sawmill magnate, was in port during the week with a load of lumber. He had some minor machine overhaul done at the Akerberg-Thomson establishment, before returning to the river yesterday.

Some Fireman

One of the very latest discoveries has been made by Bob Blance, the man who puts the pep in the engines at the Gold Storage, and that is to never put water on a fire because it spoils the water and puts the flames on the blink. At the big Seal Cove fire recently Bob got out of bed on the jump and, with his felt slippers slid nicely into his overcoat, strolled over to the big plant to borrow a few inches of fire hose with the express purpose of seeing that the flames did not take liberties with his abode and furnishings. After turning on the water and testing the hose, Bob, the fireman, clambered onto the roof of his house and taking a firm grip on the rain spouting with his toes—he having removed the slippers by this time—stood at the ready position to cope with any old flames that cared to come his way. In the excitement of watching the flames the nozzle of the hose somehow or other began to wander up and down

the roof finally creeping down the chimney. It was then the water pressure came on at its best and trickled all over the bloomin interior of Bob's dear little nest. A voice from inside softly said "Bob, I don't notice any flames inside here, and you've put the kitchen fire out O.K." It was then that Bob discovered the contents of the hose pipe were running through his front door and down the steps, resembling Niagara Falls after a cloud burst. However, it is comforting to think that Bob would not wilfully go and spoil a perfectly good blaze with a lot of stupid water.

Launch Joy Bird, Capt. J. T. Cook, has been busy this week doing general freighting between the city and Shawallans Lake for the corporation of the city of Prince Rupert. The Joy Bird was also used during the week to tow a scow and float, belonging to Ed, the Crab King, to the other side of the Island where Ed, and a crew of men will be engaged for the next few weeks cutting wood off the Galloway Rapids road right-of-way for sale locally.

Cannery Changing Hands?

A report is current along the waterfront this week that the Somerville Cannery, near the mouth of the Naas River, formerly owned and operated by the Francis Miller interests, is to be sold to the Wallace Fisheries. The launch Vinea, Capt. Jimmy Thomas, which has been away since the first of the week, is said to have a representative of the Wallace Fisheries aboard making an inspection of the Somerville plant.

The native boat Karta was in port during the week from Port Simpson for general supplies.

Here is one on no less a dignity than Dr. W. T. Kergin. It happened a couple of weeks ago but still it's worth telling. One evening about dusk, the worthy doctor was making a mad dash from his boat at the Yacht Club floats to his automobile awaiting on the road above. The doctor should by now know his way along those floats well enough to avoid any such accidents but, nevertheless, he apparently must have taken a corner too sharply because the next thing he knew he was sounding the depth of the harbor at that particular location, having neatly precipitated himself into the chilly salt water. However, he must have extricated himself all right and there were apparently no serious after effects although it gave his many friends in nautical circles a good laugh.

Those who have been watching the progress of Capt. Steve Sheen, who is putting a new pilot house and doing other work on his halibut schooner Eastern Point at Cow Bay, feel that, if the present rate of development is not speeded up, Cap will not have his boat ready before the close of the 1926 season although it was started before the 1925 season closed.

New Boats at Cow Bay

A fine new trolling boat, being built at Cow Bay by Y. Suyehiro for Ben Stevenson, is just about completed and will be launched in the course of the next few days. It is 30 feet long and has an 8 horse power Vivian engine. Yesterday a 28 foot trolling boat, built by K. Tsumira for George Johnson, was launched.

Mothers especially like it for children as it takes the place of internal medicines.

Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds.
When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat. These vapors, inhaled with each breath carry the medication directly to the affected air passages, loosening the phlegm and relieving the congestion. At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors inhaled to break up the inflammation. Colds are usually relieved over night.

An Infallible Guard

HEIMDAL, according to Celtic mythology, was the perfect sentinel. His hearing was so acute that he could hear the wool growing on a sheep's back. His eyesight was so keen he could see everything that happened even though it occurred while he slept.

Advertising, if you use it properly, is an infallible sentinel for you. It guards you against fraud and inferiority. It protects you against making unwise and unsatisfactory purchases.

Merchants and manufacturers who advertise must give full value because they have good names to protect. The makers of well-known products and the stores that sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair price.

So, you can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products.

Advertising is your guard

It has a 6 horse power Clay motor. Tsumira is now laying the keel at Cow Bay for another boat of similar design.
Another trolling boat that is now taking shape but which will not be ready for launching for at least another month is that being built by Charles O. Svodmark for Jacob Furness. It is 28 feet long and will have a 7 1/2 horse power Holiday engine.

Claude E. Lee has taken over the crab and shrimp end of Bacon Fisheries and has set up an establishment at Sourough Bay near Seal Cove. The equipment is now being operated on a float there, the output being shipped to Vancouver. Lee has three boats fishing for him—Chris Carlson, who left on Thursday with full paraphernalia for Dundas Island, Bill Goodland on the Swing and also Tom House.

The MT3, flagship of the Bushby fleet, towed John Currie's pile driver at the first of the week from Port Simpson to Prince Rupert and also brought in a scow of lumber from Georgetown. On Tuesday the vessel went to Lewis Island to take a boom of logs from Louis Lockers' camp to Georgetown and has now gone up to Wark Channel for a boom. The P.R.T. No. 1 also made two trips to Georgetown during the week for lumber and scows and on Tuesday took the C.N.R. car barge to the Rupert Marine Products plant for a tank car of oil which was shipped east. Capt. Jim Morrison has been busy, between the rain spells, painting the Tide Rip which during the week brought in from Port Essington a pile driver which has been used in connection with the installation of a retaining wall there.

Paddy is Dead
Paddy is dead. Suffering from a hopeless case of mange, this

well known Airedale dog, denizen of the government wharf and known by many mariners along the coast, was ordered shot on Thursday by his grieving master, Doc Clapperton. So Paddy by now is probably in that happy paradise of dogs where bones hang on the trees and are not like sour grapes and where flees don't bite unless a fellow feels like scratching himself once in a while. One of the outstanding events of Paddy's career of ten hectic years was a trip he made once to Vancouver on the Canadian Scottish, returning home on the steamer Prince Rupert.—R.I.P.

George Macdonald is at present on a trip to Vancouver. One of the purposes of the trip is to look up a boat to take the place of the N.M. & R. which has been sold by the N.M. & R. Fish Co. to Skeena River cannery interests. Still actively interested in the affairs of the N.M. & R. Co. are George and Ray Macdonald, Jimmy Neville, Major Jack-McGregor, V.C., and Pete Rovik.

LAND ACT.

Form of Notice.

GRANBY IS BIG PRODUCER NOW

Four Million Pounds of Copper Monthly From Both Mines Making Profit

NEW YORK, Jan. 15.—The Hidden Creek and Allenby properties of the Granby Consolidated are now producing close to 4,000,000 pounds of copper monthly, or at the annual rate of 48,000,000 pounds. In October, on a production of 3,500,000 pounds, costs averaged 9.46c a pound, and the net profit for the month was around \$175,000. Even on the basis of today's somewhat lower prices, Granby must be earning at the monthly rate of around \$152,000 before depreciation, or at the annual rate of approximately \$1,824,000. Bond interest now amounts to around \$260,740. In 1924 the company charged off for depreciation \$925,733. Presumably, current depreciation charges will not be proportionately as heavy, but even assuming they are, and including interest, Granby is earning at the annual rate of almost \$2 a share. If current depreciation charges are reduced to, say, \$600,000 annually, Granby must be earning close to \$3 a share annually. The company has not paid any dividends for some years but should begin to do so soon.

DR. GOGGIN ENTHUSES OVER PEACE RIVER WHEN VISITING TORONTO

TORONTO, Jan. 16.—The Peace River region in Alberta promises to become the outstanding grain growing area of the world at no very distant date, Dr. D. J. Goggin declared in addressing the York Pioneer Society here. Dr. Goggin was for several years superintendent of schools in Alberta and Saskatchewan, and

THE STORY OF JOSEPH MARTIN

FEELS LIKE A NEW MAN SINCE TAKING "FRUIT-A-TIVES"

The story of Mr. Joseph Martin of St. Ursule, P.Q. reads like a modern miracle. His was an unusually bad case of indigestion. In his own words he writes, "For about ten years I could not digest my food. For a year I could not work, I had no strength and I could hardly eat, I was like dead. Now I work and eat as much as I like and feel like a new man. Your "Fruit-a-tives have relieved me completely, and I would have died without your remedy. I was under the care of a doctor for a year without getting any relief. I am thankful to you, as you have saved a martyr of dyspepsia." (Signed) Joseph Martin.

se had much to do with laying the foundation for the public school system of the west. He stated that there was not to be found anywhere in the world a more suitable climate for the growing of wheat in large quantities, or a district with more magnificent opportunities, than the Peace River country.

In a comprehensive review of the growth of the Prairie Provinces, Dr. Goggin expressed the belief that the farmers of the west made a blunder when they discarded ranching for dry farming which should be going back into the ground for rancous purposes, a more profitable industry, in many ways to the progressive rancher.

From an Expert—

Under the microscope you can kiss a girl without asking—and experience proves that that is the better way to do it all times.

WEEK OF RADIO TESTS COMING

Special Efforts to Cross Atlantic to British Isles to be Made

N. S. CO-OPERATING

MONTREAL, Jan. 16.—Canadian night will be one of the features of the program prepared for the week of international radio tests which have been arranged for the period from Sunday, January 24 to Sunday, January 31 inclusive. On the night of Saturday, January 30, the test hour will be given over to broadcasting stations in the Dominion and of those CNRO, Canadian National Railways, Ottawa, will open the special transmission hour. Fifteen minutes will be allotted to each station participating.

Friday and Saturday, January 29 to 30, between 11 and 12 p.m., eastern standard time, will be devoted to special test broadcasts from stations on this side. On Friday night the U.S. stations will have the air, fifteen minutes being devoted to each of the four time zones, Eastern, Central, Mountain and Pacific. During that time, stations outside the allotted zone will remain silent.

TRADE BALANCE IN FAVOR OF AMERICA

WASHINGTON, D.C., Jan. 16.—Imports to the United States last year were valued at \$1,224,200,000 and the exports were \$684,518,000 less, or giving the nation that much favorable trade balance.

UNIFORMS FOR TEACHERS

Women teachers in St. Catharines, Ontario, schools are protesting against the suggestion made by the Board of Education of that city that they wear gowns to distinguish them from girl pupils. The point, as they say in the vestry meetings, is well taken. Why should women teachers be made to distinguish themselves from their own pupils—if they have the charms to be mistaken for them?

Some Are Superior to it

All men are born equal, but not equal to the job of selecting a Christmas present that will exactly suit a woman.

Most Important

Lawyer—I'll take hold of your case for \$50.
Client—And how much to let go, if you win it?

WARMER WEATHER IS REPORTED TODAY IN ALL NORTHERN B.C.

At eight o'clock this morning temperatures had shown that the whole northern coast and interior were warmer than yesterday. Several degrees higher was registered on most of the official thermometers. In the Yukon two degrees upward was shown at Dawson although the average temperature for the day at different points is said to be lower than yesterday. Rain was reported at Anxox and Stewart. The report follows:

- Terrace—Cloudy, calm, temp. 36.
- Anxox—Rain, calm, temp. 41.
- Stewart—Rain, calm, temp. 39.
- Hazelton—Part cloudy, calm, light frost.
- Telegraph Creek—Part cloudy, calm, temp. 29.
- Smithers—Cloudy, calm, temp. 28.
- Burns Lake—Clear, calm, temp. 19.
- White Horse—Cloudy, calm, temp. 12.
- Dawson—Cloudy, calm, temp. 7.
- Average for Yukon—Foggy, calm, temp. 6.

NOTICE TO CONTRACTORS.

Tenders for Prince Rupert Wharf Reconstruction
SEALED TENDERS, endorsed "Tender for part of Prince Rupert Wharf Reconstruction" will be received by the Honorable the Minister of Public Works up to noon on Sunday, the twenty-fifth day of January, 1926, for reconstruction of the westerly part of Provincial Government Wharf at Prince Rupert, B.C.

Each tender must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of eight hundred dollars (\$800.00), which shall be forfeited if the party tendering declines to enter into contract when called upon to do so. The cheque of the successful tenderer will be returned as security for the due and faithful performance of the work till satisfactory completion of the contract.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranked, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are issued for cattle, sheep, swine and travellers, up to ten head.

WESTHOLME THEATRE

Tonight Only, Saturday at 7 and 9

"A Son of His Father"

An adaptation of Harold Bell Wright's famous novel. Lightning riders, two-fisted fighters, majestic mountains, amazing adventures and a wonderful girl. A western thriller that sweeps along like the Twentieth Century Limited and just as luxurious. A son of his father, a daughter of Mother Machree and a whole generation of thrills. He had to fight to prove himself a son of his father for the sake of a girl and the family honor. Many big episodes. A great author, a great cast, a great story and a great picture. Magnificent scenery.

Warner Baxter, Bessie Love, Walter McGrail, James Farley, Charles Stevens, Raymond Hatton, Billy Eugene and others.

TUXEDO COMEDY, No. 2—"THE BONEHEAD"
PATHE REVIEW. 50c and 25c
