WOMAN WAS ELECTED MAYOR OF SEATTLE

COURTS UPSET B.C. LAW PROVIDING FOR COLLECTION OF FUEL OIL TAX

Seattle Will Have City Manager and Lady for Mayor in Coming Year

Mrs. Landes elected head of city government but with rather empty honors as administrator will be appointed

SEATTLE, March 10.—Mrs. Bertha Landes was elected mayor of Seattle with a majority of 5,784 votes according to unofficial returns over Dr. Edwin J. Brown, the present incumbent of the office. The vote for Mrs. Landes was 38,705 and for Brown 32,921.

The city manager plan for government of the city carried a small majority of about 653.

Although Mrs. Landes was elected mayor, she will serve that capacity only as head of the city council and not in an administrative capacity for the voters in approving the city manager plan abolished the elective office of mayor as at present constituted.

WILL EXAMINE ALL FISHERMEN

Those Going to Alaska Must Get Clean Bill of Health from Doctor

SEATTLE, Mar. 10.—As a protection to prevent the spread of disease, the public health service announced that all fishermen and cannery workers going to Alaska during the summer of 1926 must be examined. Five hundred will be examined here. The order is the result of complaints made by an Alaskan grand jury that many of the cannery workers were affected by cerebral and other diseases and under the conditions obtaining they were a danger to their fellow workers and also should be allowed to take part in the preparation of the nation's food. A clean bill of health in every case will be required.

B.C. STUDENTS DOWN VISITORS

Defeat Imperial Debaters Last Night in Discussion of Interesting Subject

VANCOUVER, March 10.—The University of British Columbia debaters last night defeated the imperial debating team, the subject being "Resolved that western civilization has a degenerating influence."

The visitors upheld the affirmative.

MURDER CHARGE AGAINST HINDU

VANCOUVER, Mar. 10.—Bob Reid, an East Indian, was today charged with murder following the death of Billy Costa, another member of the same race who was injured, it was alleged, in a stabbing affray in South Vancouver last November.

STEEL MANUFACTURER IS MAYOR TACOMA

TACOMA, March 10.—M. G. Tennant, steel manufacturer, was elected mayor of this city by a majority of 5,000 votes over his 80 year old opponent, A. W. Fawcett, who has just completed his fourth term of office.

SIR MONTAGU ALLAN OF MONTREAL, former president of the Montreal Horse Show, director of the Olympia Show, London, and a judge at the United States Show, Los Angeles, meets a group of fair riders at the latter display. Left to right: Miss Jean Braddock, Mrs. Maurice DeMond, Miss Joan Burroughs, daughter of Edgar R. Burroughs, the novelist, Miss Eleanor Hook and Sir Montagu.

BOAT COMING TO DRY DOCK

Canadian Coaster due Tomorrow For Work Which Will Take Three Weeks' Time

C.G.M.M. freighter Canadian Coaster of the Ocean Falls-California paper carrying service, will arrive in port tomorrow from Nanaimo and will spend three weeks at the local dry dock having a fuel oil carrier installed, new winches put in and general overhaul. The vessel is in command of Capt. Gilbert and the chief engineer is Carlisle Brand, formerly a resident of Prince Rupert.

Richard Knox, assistant superintendent engineer for the G. G. M. M., arrived on the Prince Rupert this afternoon from Vancouver to supervise the work, bringing with him a party of ten men including pipe-fitters, etc., who will be employed on the Coaster job.

TO VISIT HIS OLD HOME IN ONTARIO

L. W. Patmore Leaves on this Evening's Train on Month's Business and Pleasure Trip

L. W. Patmore, local barrister, leaves by this evening's train on a combined business and pleasure trip to Eastern Canada. He will visit Ottawa, Montreal and his old home in Elora, Ontario, which he has not seen since he came west in 1896. Mr. Patmore expects to be away about a month.

TAKING HOME BODY OF DEAD HUSBAND

H. T. Vars Fell When Boarding Empress of Ireland at Shanghai and Died at Kobe

VICTORIA, March 10.—Among passengers arriving on the steamer Empress of Australia from the Orient yesterday was Mrs. H. T. Vars of Buffalo who was taking home the dead body of her husband.

Mr. Vars was a passenger on the round-the-world steamer Empress of Ireland. He fell when boarding the vessel at Shanghai and died ten days later at Kobe.

HORSES RESCUED FROM FIRE AT FARM OF PRINCE OF WALES

LONDON, March 10.—Much damage was done at the Prince of Wales' stables on the Royal Farm at Princetown, Devonshire, by a fire which took place there yesterday. All the prince's horses were rescued.

BRING FORTY JAP BRIDES

Girls Arrived From Japan Last Night on Empress of Australia

VICTORIA, March 10.—The C.P.R. liner Empress of Australia docked here last night with forty Japanese picture brides aboard bound for Canadian destinations. These girls are chosen by their future husbands before they leave Japan and will be married on arrival.

BRIAND HAS NEW CABINET

Raoul Peret is Minister of Finance in Latest French Government

PARIS, March 10.—Premier Briand completed his cabinet early this morning. The finance minister, whose department has wrecked a number of successive ministries, is Raoul Peret.

The report of the city auditor for the year 1925 was placed before the city council last night and was laid on the table for a week. Tenders for its printing will, in the meantime, be called.

M. Dahlquist of Cedarvale arrived in the city on this morning's train and is a guest at the Prince Rupert Hotel.

MANY LOGGERS IN THE CITY

Closing of Camps Near Prince George Results in Men Leaving That District

A large number of loggers and lumbermen are coming into town looking for work. Most of them arrive from the neighborhood of Prince George where the camps have had to close down owing to the ground being too soft to get out the logs.

This morning quite a large number came in on the train and a good many came in Monday.

Just at present there is not much demand for men of that class in the neighborhood until the summer camps open up.

M. Dahlquist of Cedarvale arrived in the city on this morning's train and is a guest at the Prince Rupert Hotel.

Mr. Justice Morrison Upsets Taxation Rights of Province and an Appeal Will be Taken

C.P.R. and Union Steamship Company Win Case Against Fuel Oil Tax and Gasoline Tax May Follow Same Fate

VANCOUVER, March 10.—The fuel oil tax which was passed in 1923 and was estimated to bring to the provincial treasury \$400,000 annually, was declared ultra vires of the Provincial Legislature in a decision handed down this morning by Mr. Justice Morrison.

The Canadian Pacific Railway and the Union Steamship Company opposed payment of the tax on the ground that it was an indirect tax and as such not within the rights of the province to impose. His Lordship agreed with this.

Although the gasoline tax was not directly involved in the statute it is analogous to the fuel oil tax and the reasoning directly against the validity of one would be equally applicable against the constitutionality of the other.

Attorney General Manson has announced that he will appeal against the decision of the court, taking his case to the Privy Council.

FOUND WHISKEY UNDER ARTICHOKE IN BURNING TRUCK

SAN FRANCISCO, Mar. 10.—After firemen had extinguished the flames which seemed to be burning a truck load of artichokes, which the driver ran off and left when it caught fire today, they found 54 cases of whiskey beneath the vegetables.

SCHOONER GRANT IS NEW VESSEL OF U.S. HALIBUT BOAT FLEET

Another new halibut schooner of the two-mast long-line type arrived in port this morning in the Grant which arrived with 25,000 pounds after her maiden voyage to the halibut banks. The Grant, which is about 65 feet long and diesel powered, is owned and skippered by Capt. G. W. Westerman. She is registered at Seattle where she was built. The vessel sold her catch to the Pacific Fisheries.

FIRST SPECIAL TOUR PARTY DUE MARCH 22

Special Train and Boat Arranged For Insurance Party Coming From East That Day

Friday morning, a week hence, C.N.R. steamer Prince Rupert, on her return from Stewart and Anyox, will be relieved in service by the Prince George which has been in dry dock here all winter. Some fast work will be done at the dry dock on the Prince Rupert which is to be ready by March 22 to make a special trip south with a large party of insurance men from Eastern Canada who will arrive by special train that day.

CONSPIRACY TRIAL ENDED YESTERDAY

VANCOUVER, Mar. 10.—The trial of 53 western Canadian produce dealers charged with conspiracy in restraint of trade ended yesterday with the completion of the evidence for the defence and the addresses to the jury.

LITTLE CHANGE IN GAME PLANS

Trapping Allowed in Southern British Columbia is Only Announcement

VICTORIA, Mar. 10.—The reopening of the area south of the Canadian Pacific main line for muskrat and beaver trapping is the only important departure in the new regulations announced yesterday following the Government's approval of the Game Conservation Board's recommendations that the board hereafter be kept in constant touch with the game administration authorities in future although not carrying on the actual administration work.

DOCTOR'S WIFE LOST HER LIFE

Former Belgian Girl and Crippled Child Perished in Fire Which Burned Home

PETERBORO, Ont., Mar. 10.—When fire destroyed the home of Dr. Stewart West near here early yesterday, Mrs. West, a Belgian girl whom he married while overseas and their crippled two year old son perished in the flames.

Dr. West, who rushed out of the house to seek assistance, has been delirious since the tragedy.

RECORD MADE GRAIN SHIPPING

Port of Vancouver Does More Export to United Kingdom and to Orient

WINNIPEG, Mar. 9.—All records for shipment of grain through the port of Vancouver have been smashed by the 1925 crop, according to official figures issued by the Canadian Pacific Railway Company.

The report states that a total of 39,022,000 bushels was moved out by boat to date.

Shipments to the United Kingdom showed an increase of 2,000,000 bushels and Oriental shipments 3,000,000 bushels over previous high records.

DIED AS RESULT OF SPLINTER IN HAND

NEW WESTMINSTER, Mar. 10.—Infection caused by a splinter in the hand picked up while working in the sawmill on February 18 resulted in the death of Y. Komatsu, 45 years of age in the hospital today.

There is No Substitute For "SALADA" TEA

It is the best tea value sold.

DAILY EDITION

Wednesday, Mar. 10, 1926.

Books About Russia Are in Demand.

Books about Russia are much in demand these days and especially interesting are those by Dr. Ossendowsky. When "Beasts, Men and Gods" appeared a little over a year ago it was much in demand and those who read it were looking for the next. It came in "The Shadow of the Gloomy East," a series of intimate sketches of life in Russia as it was at about the time of the revolution.

Dr. Ossendowsky, who spent many years in the country and studied the life of the people carefully, tells of the village life, court life, the witchcraft, superstition, queer religious ideas, heathenism as he found it. He recounts how he met on three occasions the monk Rasputin, the last time just when his body was taken out of the river whence it had been thrust by his murderers.

Sketches of the statesmen and their work, of the rescue for the spread of Bolshevism, of the helplessness of the socialists, these all give an insight into the cataclysm which followed. The gloomy picture he sums up in the following comprehensive sentence:

"Disregard and ill-treatment of their womenfolk, be it mothers or wives, decline of family morality, political avidity, lack of social cohesion, the gulf between the educated classes and the common people, extremes of democracy in the form of either spiritual idealism or meanest vulgarity, the overgrowth of class hatred, the lust of murder and spoliation, indifference in regard to religious principles or their utter unreality, superstitions, remnants of thirteenth or fourteenth century culture, servility and social immorality—these are the inverse aspects of the East which has outlived itself."

Religion And Sorcery Neighbors.

Telling of the curious habits of the people of the villages the writer of the book says:

"In close neighborhood with leaders of religion and education nearby in some similar room live the wizards, sorcerers and hags. They are the survival of primordial paganism. Their traditional school has been preserved and their prescriptions, having lived through centuries, are handed down from generation to generation.

"The sorcerers are generally old people who possess the secret science of curing men and animals of diseases, of appearing the house-demon whenever he gets into too great a fury, of stanching blood, freeing insect-infested houses of vermin, cleansing the vapor baths—standing outside the village—of devils, who chose them as their abode, haunting the people; of tracking horse thieves; of invoking the souls of the dead; of foretelling the future; of discovering treasures hidden underground and similar black arts. In reality the wizard or the witch has a good knowledge of botany, and through the dark pages of the history of the Russian village runs the sinister trail of the crimes of poisoning."

Lives Of Women In The Villages.

"In the villages the life of the peasant woman is one long round of cruel treatment at the hands of a drunken or savage husband, who uses infamous and disgraceful language and thrashes her almost to death. The children lose respect for their mother, they deny her all moral authority, and when they grow up they begin to insult and beat her, forgetting that all her life she was thrashed like a dog by the father, the head of the family, the lord and master."

The pictures the writer draws are often horrible yet they are so artistically drawn that they fascinate.

In a hurry? Eat SHREDDED WHEAT the man-sized meal

GAME CLUB TO BE ORGANIZED

Backers Feel That Much Good Work Could Be Done Here by Such an Institution

A movement is on foot for the establishment here of a sportsmen's association or rod and gun club and, with the organizers already having approached some seventy or eighty interested citizens who are heartily in sympathy with the proposal, it is likely that a meeting will be called in the near future to complete the organization.

Those interested in the project realize that with such an organization much could be accomplished, particularly in dealing with the government, where individual effort would fail. One of the main immediate objects of such a body would be to have re-adjustments made in the open season for game birds. It is felt that the season for the district as it stands at present opens and closes too soon. For six weeks after the opening, there are practically no birds and six weeks after it closes the hunting is good. Instead of the open season being as it is at present from September 15 to December 26, it is proposed to ask that it be changed to from October 15 to January 15.

Another matter which a local game club could take up would be that of restocking neighboring streams and lakes, which are now becoming depleted, with game fish. The government has the fry available and it is felt that all that is necessary for this district to get its share is pressure from some responsible local organization.

THE MAN IN THE MOON

says:

MONEY talks. When it talks to me it says "NO."

IN RUSSIA if a doctor fails to cure you, the correct thing is to kill him. That method saves expense.

WHAT I don't like about this winter has been that I could not change off into my thick underclothes. Never mind, better luck next year.

THE SKATES are still hanging on the nail and will be able to take on another coat of rust before next year.

THE SKATES are hanging on the wall.

THE SNOWSHOES stand beside, we looked in vain for snow and ice.

TO CLOTHE THE MOUNTAIN SIDE. Now we must wait another year. And dream most longingly, for snowflakes covering all the land Far as eye can see.

THE NEW HATS will make lying pretty difficult this year when the young man tells her she looks "perfectly darling" in the new creation.

EASY PAYMENTS are those monthly instalments that are so difficult to make.

Ten Years Ago in Prince Rupert

The Westholme theatre was packed to the doors last night on the occasion of the farewell concert to the men of the 102nd Regiment. Ald. O. H. Nelson presided in the absence of Mayor McCaffery and delivered a suitable address. There was a full program of musical numbers and a comic sketch. Other speakers were Capt. J. E. Brandt, Rev. H. Grant and G. W. Morrow.

For special treatment for shrapnel wounds in the spine, Don Yelf of this city has been admitted to the military hospital at Esquimalt where he expects to remain about three months before proceeding here.

Charles Vaughan, N. Scheinman and E. Hannan of this city and George Bruggy of Stewart are contemplating starting business at Alice Arm where a most active mining season is anticipated. Ole Evindsen has started on the construction of a hotel there.

LIBRARY BOARD PRESENTS CASE

Large Delegation Appears Before Council to Ask that Estimates be Passed in Full

A large delegation of members of the Library Board, Trades & Labor Council and various church, public service and fraternal organizations appeared before the city council last night to urge that the 1926 estimates of the Library Board be granted in full by the council in making its appropriations for the year. The spokesmen of the delegation were G. V. Wilkinson, secretary of the Library Board, and S. W. Taylor, president of the Gyro Club. Others who appeared in support of the cause were Mrs. James Clarke, Rev. Walter Allen, James Black, Mrs. R. L. McIntosh, James L. Brewster, Principal and Mrs. Brady, Miss Alice Cruikshank, B. J. Bacon, J. S. Irvine, A. J. Prudhomme, Mr. and Mrs. W. J. Kirkpatrick, J. J. Gillis, Mrs. Wallace, C. Orchard, Mrs. R. Blance, Mrs. S. Darton, Mrs. W. T. Keggan, J. H. Thompson, H. F. Pullen, Mrs. Atack, Miss Laxton, J. Featherstonehaugh and others.

In speaking on behalf of the library board, G. V. Wilkinson stated that the affairs of the library had reached a critical period. There was an insistent demand for new books and considerable repairs and replacements had become necessary. In view of this, the city was being asked to pass the estimates this year in full and discontinue the policy that had been followed in the past of consistently cutting the library's estimates. The policy of the library board had been to ask for the minimum appropriations and never had any extravagant requests been made.

Essential Factor
The library, Mr. Wilkinson said, had become an essential factor in the life of the community and its membership was steadily increasing. There had been 124 new members enrolled in a single month since the first of this year and the membership to date stood at 2,222, representing one third of the city's population. There were at present 4,500 books in the library and the large majority of these were in practically constant use. The board, which was asking this year for the passage of an appropriation of \$1,900, \$1,500 to be used in the purchase of new books and \$400 for rebinding after having utilized all other means to make the library a success, was now at the end of its resources and greater support from the city was absolutely necessary. The speaker asked the aldermen to take a greater interest in the affairs of the library and personally visit the premises so that they might see how badly the money was needed and to what a great extent the library was being used by the public. In one day, 390 books had been issued, meaning that on that day a book had been given out for every minute the library was open. Mr. Wilkinson closed his remarks by pointing out that foremost in public opinion was behind the request of the library board, the size of the delegation in attendance testifying to that.

S. W. Taylor
S. W. Taylor pointed out that the present 4,000 books was not a very large collection when it was realized that the library had over 2,000 subscribers. If books were not renewed and new ones

She Was Troubled With Chronic Constipation

Once your bowels become constipated you are in for a lot of trouble, as constipation is one of the most prolific sources of disease that the human race is subjected to, therefore a free motion of the bowels every day should be the aim of everyone who aspires to perfect health.

Mrs. O. W. Lawrence, Cloverdale, East, N.B., writes:—"I was troubled with chronic constipation, and became so bad I was almost afraid to eat anything."

One day I saw your advertisement of

**Milburn's
LAXA-LIVER
PILLS.**

so I got three vials, and after taking them I have never been troubled since with constipation!"

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Dated the 26th day of February, A.D. 1926.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER, 1924.

Aggregate Value of \$859,427,386

Production for Year Ending Dec. 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants. Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

A. W. Lipsin of the Acme Importers, who has been on an extended business trip east and south, returned to the city on the Prince Rupert this afternoon.

G. A. Woodland, local manager of the Imperial Oil Co., returned to the city on the Prince Rupert this afternoon following a business trip to Ocean Falls and other points down the coast.

Rev. and Mrs. E. G. Turner returned to the city of the Prince Rupert this afternoon. Mrs. Turner has been holidaying in California and Mr. Turner went south last week to meet her.

G. C. MacKay, district engineer for the provincial department of public works, returned to the city on this afternoon's steamer after a trip to Ocean Falls and Bella Coola on official duties.

A. G. H. Gerhardi, manager of the Homestake Mining Co. Ltd. which operates the Torie mine at Alice Arm, is a passenger aboard the Prince Rupert this afternoon on his way north.

W. G. Hamilton, formerly of Stork's Hardware staff here and now travelling for a Vancouver concern, arrived from the south on the Prince Rupert this afternoon enroute to Anyox on business.

Miss R. McNabb, R.N., graduate of the Vancouver General Hospital, arrived on the Prince Rupert this afternoon from the south to join the graduate nursing staff on the Prince Rupert General Hospital.

Dale Maher, United States vice consul here, who has been on a month's vacation trip to Washington, New York and other points in the Eastern States, returned to the city on the Prince Rupert this afternoon.

C. J. Fletcher, secretary of the B.C. Medical Association, arrived from Vancouver on the Prince Rupert this afternoon. He is making the round trip to Stewart and Anyox and will return south Friday morning.

William Silversides, auditor for the Pacific Mills at Ocean Falls, arrived from the paper town this afternoon and will remain here two or three days on business. He is a brother of Thomas and Arthur Silversides of this city.

J. W. Allen, marine engineer for the department of fisheries, arrived from Vancouver on the Prince Rupert this afternoon. He is here on official duties in connection with the getting ready of the department's boats here for the season's activities.

MAYOR RETURNS

After having attended the convention in Vancouver of the Western Canada Unity and Development League, Mayor Newton returned home on the Prince Rupert this afternoon.

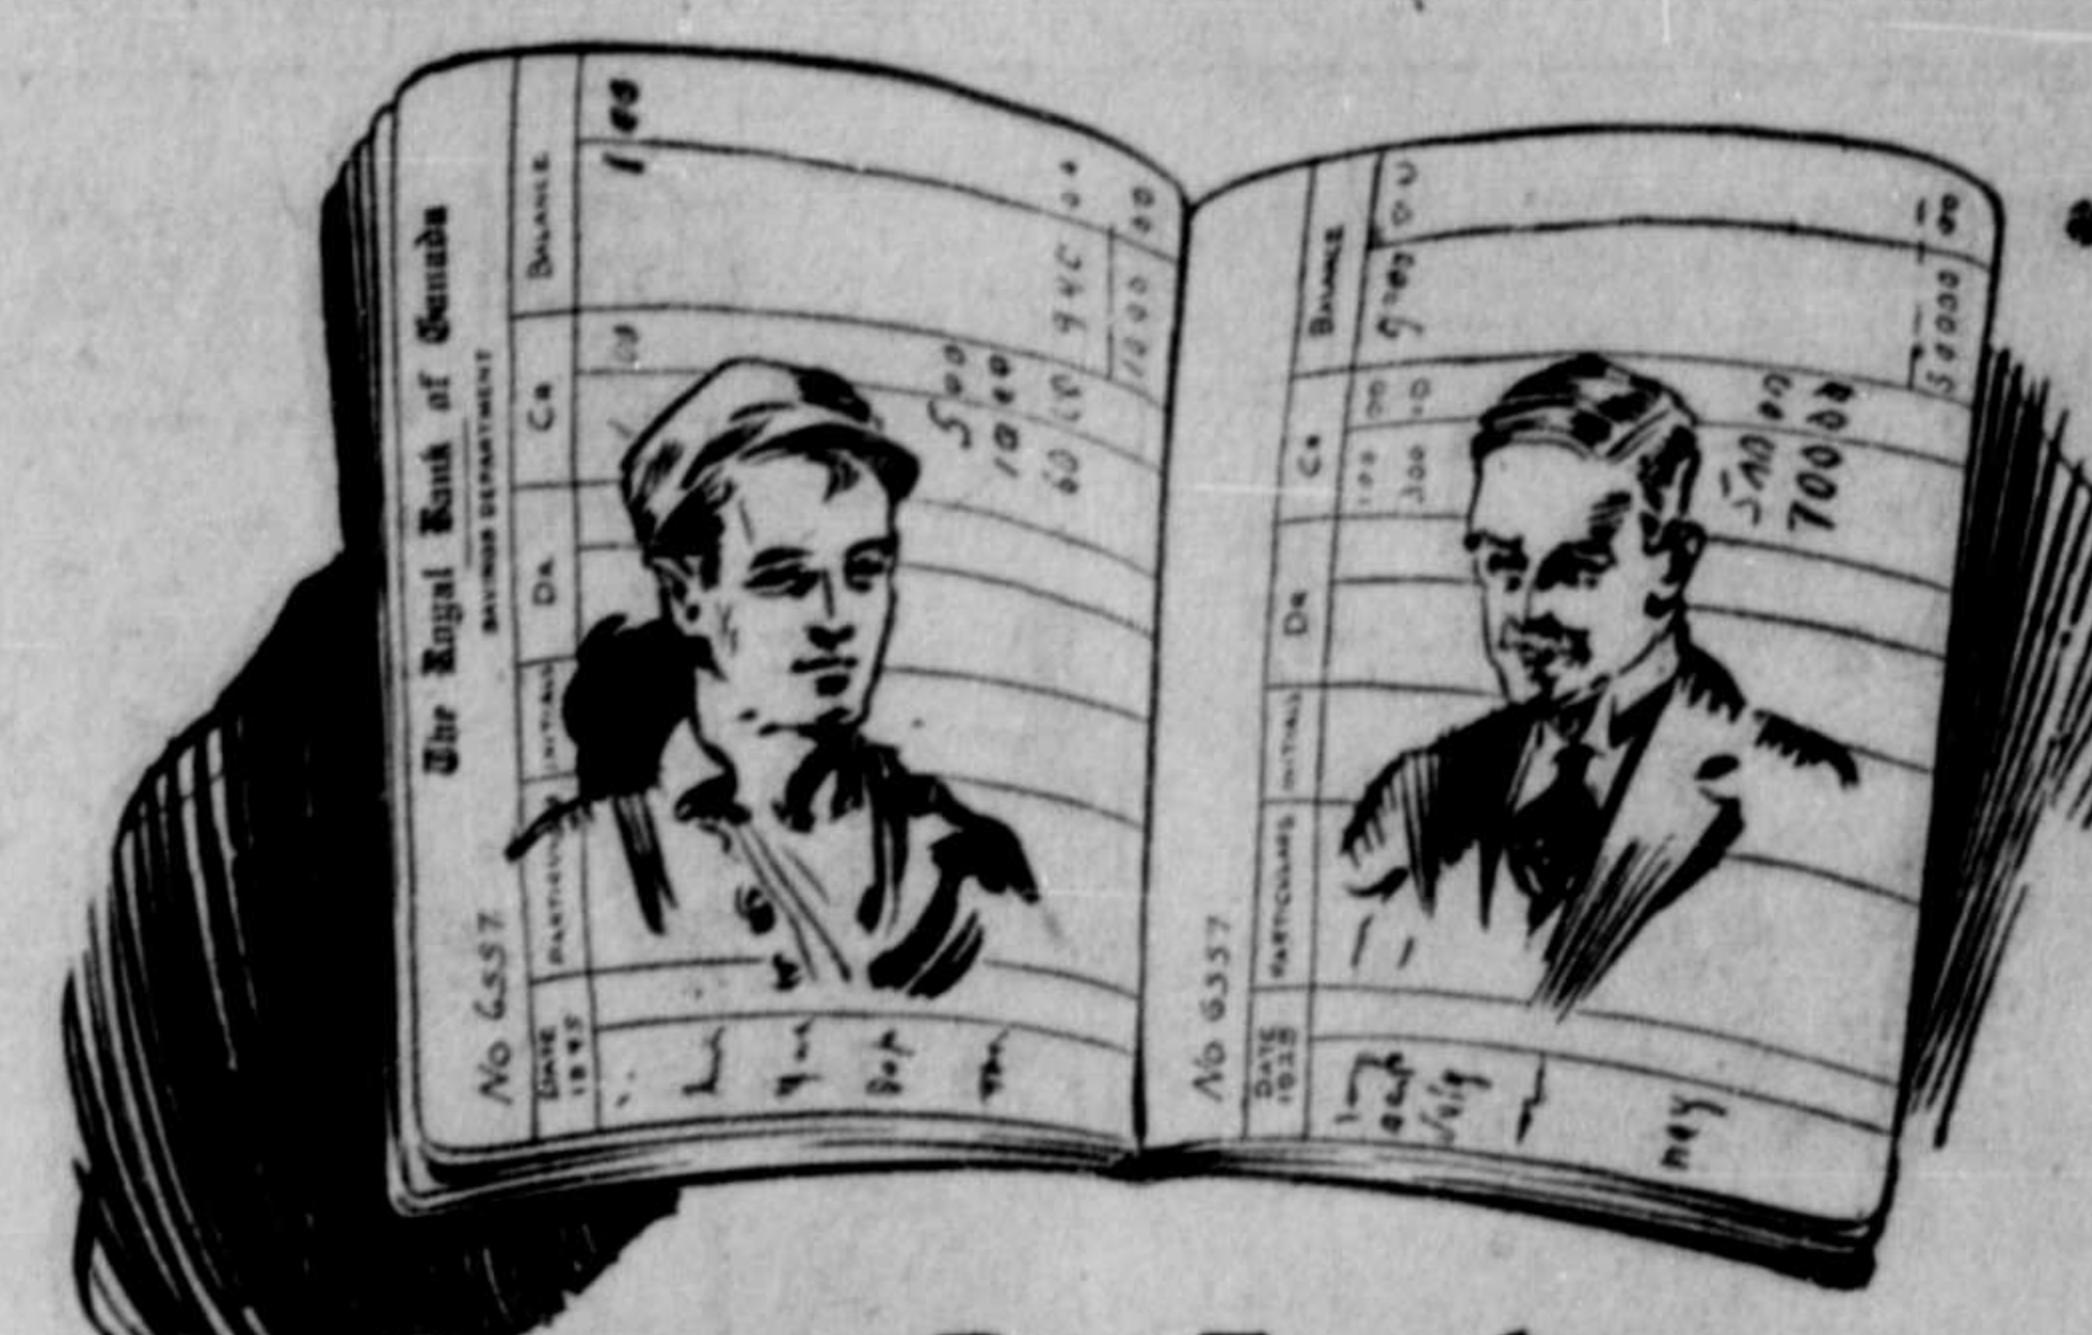

NEW PASTOR HERE

Rev. T. D. Rinde of Laramie, Wyoming, who is to take charge of St. Paul's Lutheran Church here, arrived in the city on this afternoon's steamer accompanied by Mrs. Rinde and daughter.

TOO LATE TO CLASSIFY

LOST—On Borden Street or school grounds, gold wrist watch, \$5.00 reward to anyone returning same to 855 Borden Street, Phone Black 148.

A petition signed by the United Church, F. W. Hart, Mrs. Eva Rowat and V. Reda asking that a sidewalk be built under the local improvement plan on Sixth Avenue between Fulton Street and Musgrave Place was received by the city council last night and referred to the Board of Works.

From Pay Envelope to Dividend Cheque

MONEY laid by in youth is worth double the savings of middle age. Many a rich man today bought the right to his dividends with the savings he made once out of his pay envelope. Anyone with determination can do the same.

The man who saves is the man with money.

BRINGING UP FATHER

COMMITTEE FINDS NO DISCRIMINATION

Duggan Matter, Brought up by Ald. Stephens, Reported Up-on to Council After Investigation

The special committee appointed recently by the city council, at the instigation of Ald. Stephens, to investigate the circumstances of the removal of John M. Duggan from the utilities staff last fall reported last night that it had been found there had been no discrimination in laying the man off. The investigation committee, which consisted of Ald. Perry, Ald. Jos. Greer and Ald. W. J. Greer, recommended, however, that the utilities department in future, during the slack season, divide employment evenly among unskilled laborers regularly employed during the busy season. The report was adopted without discussion.

RATEPAYERS PROTEST AT CITY'S METHOD OF SELLING TAX PROPERTY

The Ratepayers' Association had a letter before the city council last night protesting at the method now employed by the city in disposing of tax-sale lots. The latter stated that it was discouraging for property owners to have lots adjoining them sold by the city for less money than they themselves would have to pay in taxes in two or three years. With such a policy in vogue, the city was encouraging people to let their property go for taxes and, what little the city might gain in selling lots would be far more than offset by property reverting to the city. With the city already having a debt out of all proportion to its population, the letter stated that conditions should not be further aggravated. The policy, the letter predicted, would sooner or later engulf the city in financial disaster.

Acting Mayor Casey ordered that the communication be laid on the table for the week, there being disagreement in the finance committee on the matter.

WIRELESS REPORT.

8 a.m.

DIGBY ISLAND.—Part cloudy, fresh southeast wind; barometer, 30.12; temperature, 48; sea rough; 5 p.m. out steamer Camosun southbound.

DEAD TREE POINT.—Barometer, 30.08; temperature, 40.

BULL HARBOR.—Cleat, light southeast wind; barometer, 30.18; temperature, 44; sea moderate; 7.30 p.m. spoke steamer Prince John in Johnstone Straits southbound; 8 p.m. spoke tug Pacific Monarch in Tofino Channel bound for Squirrel Cove; 12.15 midnight spoke steamer Prince Rupert abeam; sunny Island northbound; 8 p.m. schooners Pauline J., Gilford, Bayview, Annie May, Molly May at Bull Harbor.

Noon

DIGBY ISLAND.—Part cloudy, southeast wind; barometer, 30.20; temperature, 38; sea moderate.

DEAD TREE POINT.—Barometer, 30.10; temperature, 43.

BULL HARBOR.—Showery, fresh west wind; barometer, 30.22; temperature, 47; sea moderate; 8 a.m. spoke tug Cape Scott towing barge Drumrock abeam Namu southbound.

Passengers sailing aboard the Camosun last night for Vancouver included Detective W. G. Grant and prisoner, G. M. Newton and J. B. Scott, the last mentioned for Swanson Bay.

GENE TUNNEY BOSS BOXER

Is Best Educated Fighting Man in World Today; Likely to be Champion

An article in Physical Culture for this month says that Gene Tunney will be the next world's heavyweight champion. The writer intimates that he expects him to beat Jack Dempsey.

According to the article Tunney is a 100 per cent man. He is 27 years of age and has never used alcoholic liquor or smoked and is the best educated fighting man in the world. He lives largely in the open, is careful of his diet and has never "run around" with the boys. He lives at home with his mother, goes to bed early and spends much of his spare time in reading. He devours history, scientific works and what is usually known as the best literature.

Physically Tunney is perfect. He tips the scales at 190 pounds when he is training down for a fight. He stands six feet one and a half inches in his stocking feet and has practically the same measurements as Dempsey. The odd thing about him is that the same hand which knocked out Tom Gibbons and sent many another to the mat also likes to touch the strings of a harp on which he is fairly proficient.

Tunney has no desire to stay in the fighting game. He wants to win the highest title and then go into business. He wants to enter the real estate field. However, he is willing to wait and will, if necessary, pit himself against the big Negro fighters in order to gain his end. He has challenged Dempsey and if they meet, the fight will be a great one and the backers of Gene say he is sure to win.

FRED PYLE DEFEATS W. LONG IN CITY BILLIARD SERIES

Fred Pyle defeated W. Long by a score of 500 to 452 in the second tournament of the city billiard championship series last night. It was a slow match, taking two hours and 38 minutes to play. Pyle's high break was 25, and Long's, 48; the former's average per time at the table being 3.35 and the latter's, 3.03. J. Beesley was referee; Charles Folsom, marker; G. S. Russell, scorer, and O. Young, door-keeper.

The third tournament will be tonight between Sgt. Jenson and George McIlroy and the fourth tomorrow night between George Waugh and Don Brown.

ROAD TO ATHLETIC GROUND IS TO BE GRADED BY CITY

An appropriation for the rough grading of the short piece of roadway leading from the Exhibition Hall to the Aeropolis Hill sports ground where a shaky and narrow plank roadway now exists will be included in the civic

board of works' estimates for this year. The committee had a recommendation before the council that the work be done but the council decided that it should be included in the regular estimates for the year. The estimated cost submitted to the council was \$1,000 but members of the board of works felt that it could be done for much less than that.

SPORT CHAT

Steve Donoghue, the famous English jockey, is too good for the movies. Steve went to Nice, France, to take one of the chief parts in a new film called "Riding for the King." His first work was to ride a horse in a race with an automobile, in which the car was supposed to win. But Steve got excited and won the race and a whole afternoon's work and many feet of film was ed.

Commercialism in sport in the United States is developing with longer strides than ever before. There has been more or less of a general turnover in the athletic perspective for the past few months, observers feel, have witnessed developments which show a marked increase in demand for professional competition in football, hockey, wrestling and swimming. Amateur sports have not lost any of their appeal but professional sports have attracted greater interest.

Toward the close of last year it was the trend from amateur to professional ranks of numerous star performers that focused attention. Harvey Snodgrass of the tennis "first ten" turned "prop." Gertrude Ederic and Aileen Riggin, famous swimmers, followed the example of Helen Wainwright in accepting offers to capitalize fame. Red Grange raced off his last field of college victory to don professional uniform and start a transcontinental tour. He was followed by two of his All-American backfield mates, Geo. Wilson, of Washington and Ernie Nevers, of Stanford.

Ice hockey perhaps has established itself with more startling rapidity in the United States than any other professional sport in years. Instead of going through an experimental season, the game has met with phenomenal and immediate financial success in New York, as well as to a lesser degree in Boston and Pittsburgh where franchises are held along with four Canadian teams, in the National League. This is the "big league" of professional hockey in the East. So optimistic are its backers that another season is expected to see a second club representing New York, with Detroit and Chicago also likely to obtain franchises.

HAZELTON LAND DISTRICT.**CITY COUNCIL IS SERENADED****WATER CHARGES COLD STORAGE**

Boys' Band Takes Novel Method of Supporting Request for Grant of \$500.

The Boys' Band in full strength under Bandmaster Wilson bravely stood out in the rain in front of the City Hall last night to serenade the city fathers and their efforts were fully appreciated by the aldermen who spoke highly of the excellence of the organization and informally stated that, if at all possible, they would meet the financial requirements of the band which had been presented to them by Col. J. W. Nicholls as a prelude to the serenade.

Col. Nicholls' request was that the city vote \$500 to the band this year so that it might be fully equipped with instruments. The band was ready to make return for the grant and would undertake to give ten public concerts during the year. Further, the city was invited to appoint one of the members of the council to the committee of the Rotary Club which was in charge of the band. Col. Nicholls referred to the fact that the band had already proven itself. It now had 35 active members and five on probation and many more boys were desirous of joining. The need for equipment was great, many of the instruments now in use being borrowed.

Ald. Jos. Greer moved that Col. Nicholls' request be placed before the finance committee in writing to be dealt with in connection with the estimates. The motion was seconded by Ald. Perry, who was desirous of seeing the grant made with the instruments being duly protected. It carried.

G. M. Newton, Winnipeg lumberman, who arrived in the city yesterday morning's train, sailed last night on the Camosun for Vancouver.

HAZELTON LAND DISTRICT.**WATER CHARGES COLD STORAGE**

Lower Rate to be Given and By-law Will be Amended to Provide for It.

SUGGESTION REFUSED

Another report from the utilities committee with respect to the readjustment of water charges to the Canadian Fish & Gold Storage Co. proved unsatisfactory to the city council last night and the matter was again referred back to the committee. The recommendation of the committee was that a branch water line be carried to the company's wharf and the water going through this line, being used for the washing down of fish boats, be remetered and the company credited for it on its regular account.

After considerable discussion, in which various members of the council expressed themselves as being opposed to a "free water" principle, the recommendation was withdrawn by the committee which was requested to make a general readjustment along the line of amending the bylaw providing for a lower rate to all consumers of water in such a volume as the Canadian Fish & Gold Storage Co. Ald. Brown, chairman of the utilities, spoke at first in favor of the committee's recommendation as the only apparent means of giving the desired encouragement to the fishing industry. After the discussion, however, he agreed with the wisdom of amending the bylaw to provide for the lower rate and, in order that steps might be taken in that direction, offered to withdraw the recommendation.

SURFACING OF MANY STREETS

Board of Works Would Put Present Roads in Shape Before Building New Ones

So that money and energy may be concentrated this season on the tarvia surfacing of various graded roadways already in existence, the Board of Works had a report before the city council last night recommending that the program of new grading for this year be limited to Fourth Avenue East, Seventh Avenue West, Dunsmuir Street, Border Street and Summit Avenue. The report was laid on the table for a week so that the program may be more fully gone into.

Speaking to the report, Ald. Perry stated that, if it was adopted, it was anticipated that the city would be able this year to tarvia surface all the existing graded roads with the exception of the island and cemetery roads.

Ald. W. J. Greer felt that, if necessary, the grading of Borden street could also be delayed for another year. The plank road there was not in bad condition and the residents involved were not very anxious that the work should be proceeded with this year. It was important, he felt, that the city should concentrate this year on putting graded roads already in existence in proper shape.

Ald. Casey thought that, before any definite decision along the line suggested be made, the taxpayers should be fully informed of the intention. There should be given time to get their requests for road work in before the door was closed. As an instance of where a roadway or sidewalk was necessary, he pointed to Alfred Street.

Ald. Stephens did not see where the project for tarvia surfacing should interfere with new work. According to the estimates submitted by the board of works, it would cost little if any more to tarvia surface the roads in question than would be involved in ordinary year's maintenance.

Ald. Larsen pointed out that if the roads were not tarvia surfaced, maintenance next year would be much greater.

After further discussion, the report was laid on the table for a week.

AMERICAN HALIBUT GETS BEST PRICES

Arrivals This Morning Totalled 161,500 Pounds—Prices Are From 6c to 16c

Halibut arrivals this morning totalled 161,500 pounds of which 104,500 pounds was from five American schooners and the balance from ten small Canadian vessels. There was a good two cents difference in the bidding between both first and second class American and Canadian fish, the former receiving on an average slightly under 16c and 8c and the latter under 14c and 6c.

The day's arrivals were as follows:

American
Eastern Point, 4,500 lbs., to the Atlin Fisheries.

Onah, 8,000 lbs., and Cedric, 24,000 lbs., to the Canadian Fish & Cold Storage Co.

Grant, 25,000 lbs., to the Pacific Fisheries.

Wizard, 16,000 lbs., to the Booth Fisheries.

Canadian

Selma, 6,000 lbs., Nuba, 3,000 lbs., and Kaien, 7,000 lbs., to the Canadian Fish & Cold Storage Co.

N. & S. 4,000 lbs., Margalice, 6,500 lbs., and Scrub, 8,000 lbs., to the Atlin Fisheries.

Verna, 4,500 lbs., Swing, 4,500 lbs., and Ringleader, 8,500 lbs., to the Royal Fish Co.

PEOPLE ARE TALKING

About Our Bargain Prices

SCIENTIFIC EXPEDITION FAR AS ETAH

Party Will Seek Specimens for American Museum of Natural History

NEW YORK, Mar. 9.—An expedition commanded by Capt. Robert Bartlett and to be carried out under the auspices of the American Museum of Natural History will be made to Greenland next summer to collect material for the museum's newly completed hall of ocean life.

The expedition will be organized and directed by George Palmer Putnam, publisher. It is expected it will start from New York late in June, proceeding through the Strait of Belle Isle up through Davis Strait and Baffin Bay along the westerly coast of Greenland. The most northerly objective will be Etah, on Smith's Sound, Ellesmereland, Devon Island, Baffin Island and adjacent waters, depending upon ice and weather conditions, will be visited and be the chief center of collecting activities.

Among the specimens the museum hopes to secure are the narwhal and the Greenland brown shark, basking shark, seal and walrus. It is expected to secure several groups for the museum's new hall.

It is possible that Knud Rasmussen, famous Danish explorer, will be included in the personnel of the expedition. The party will also include Robert Peary, twenty-year-old son of the late Adm. Peary. He is now completing a university engineering course at Lehigh. Ezra Winter, mural artist and Arthur Young, noted hunter and bow and arrow expert, are also expected to join in the expedition.

The earth is two thousand million years old. The average life of such a planet is a thousand and times a million times a million years or 1,000,000,000,000 (one quadrillion) years. So it will go on whirling on its orbit for another 500,000 times as long as it has already whirled.

And when that time comes, the sun will get too close to this planet and pout that will be all. Just like the snuffing out of a candle it will melt and be destroyed.

Discussing the universe before a group of students recently Professor Moulton pictured it as a vast space, 30,000 light years from top to bottom, and 200,000 light years from end to end—a watch-like disc. Light years are based on the travelling speed of light 186,000 miles a second.

The earth is two thousand million years old. The average life of such a planet is a thousand and times a million times a million years or 1,000,000,000,000 (one quadrillion) years. So it will go on whirling on its orbit for another 500,000 times as long as it has already whirled.
