URGES CANCELLATION INTER-ALLIED DEBTS

SPECIAL CORRESPONDENT TELLS OF ENCOURAGING LIBERAL PROSPECTS

Former Secretary for War Urges Cancellation of all The Inter-Allied War Debts

Newton D. Baker Declared England Has Always Protected U.ited States and Should Not be Allowed to Assume Burden

CLEVELAND, Aug. 30. — Expressing his belief that the United States policy in the matter of the inter-allied debts should be one of cancellation, Newton D. Baker, former secretary of war, criticized the Dawes plan as having worked too great a hardship on the German people and the British debt settlement as having resulted in magnificent disaster, the consequence of which was a long and tragic story of which none could foresee the end, either to Germany or the rest of the world. The British settlement, Baker said, established a precedent which it was impossible to follow with regard to any other country, because none were even remotely able to settle on such terms.

CONSERVATIVES AND THE WEST

Mayor Blatchford, of Edmonton, Declares Nothing Can Be Expected from That Party.

EDMONTON, Aug. 30. — Mayor Blatchford, in an address here, urged the utilization of the western market for Alberta coal and the bunkering of grain vessels and ocean liners on the Pacific with coal produced from Alberta mines.

The mayor stated that Premier Meighen had said the western grain rates were "wholly indefensible," therefore nothing could be expected in the west from Mr. Meighen. On the other hand the Mackenzie King Government had ordered a reduction of freight rates in the west which made possible the present grain export business.

Mr. Blatchford urged that the west could not look for justice from a party holding the views held by Conservative leaders.

FRED STORK NOMINATED

Papers Were Filed With Returning Officer at End of Week

The nomination papers of Alfred Stork, merchant, candidate for Skeena riding in the forthcoming federal election, were filed with John Flewin, returning officer, at the end of the week. Those signing Mr. Stork's nomination papers were L. W. Palmore, W. O. Fulton, Dr. W. T. Kergin, David Thomson, J. A. Lindsay, H. F. Glassey, H. P. Bradbury, Duncan Kennedy, S. P. McMordie, Gillis Royer, James Krikeyevsky, Fred Lanza, John Dybhavn, J. J. Judge, Ben Self and W. J. Greer. James McNulty is named official agent.

The nomination papers of J. C. Brady will be filed tomorrow before nominations close at 2 o'clock in the afternoon.

NOTICE TO LIBERALS OF SKEENA RIDING

The Liberal committee rooms, 303 Third Ave., next to the Electric Bakery, will be open every afternoon and evening until election day.

POLICE CHARGED IN MINERS' RIOT AT PONTYPOOL

LONDON, Aug. 30. — A Press Association despatch from Pontypool, Wales, states that many casualties resulted when the police charged several hundred people after a riot in which stones were thrown by the unemployed miners. Pontypool is in the Rhondda Valley in the centre of the South Wales coal fields.

OCEAN FALLS TEAM WINNER

Beats Winnipeg in Exciting Lacrosse Match on Saturday Afternoon

WINNIPEG, Aug. 30. — In one of the most thrilling games of lacrosse ever played in Winnipeg, Ocean Falls emerged victors Saturday afternoon from the contest with Winnipeg Tigers, the score being five to six for the westerners.

The Tigers outweighing their opponents by many pounds started off with a rush and at half time led by four goals to two. But the greater finishing power of the visitors and their more intricate tactics brought their reward and the bigger team began to show signs of breaking up as the game advanced. Toward the end the coast team was much superior.

The teams play again at Winnipeg this evening. Interest in the match is intense and a record attendance is looked for.

ARCTIC VESSEL RETURNS HOME

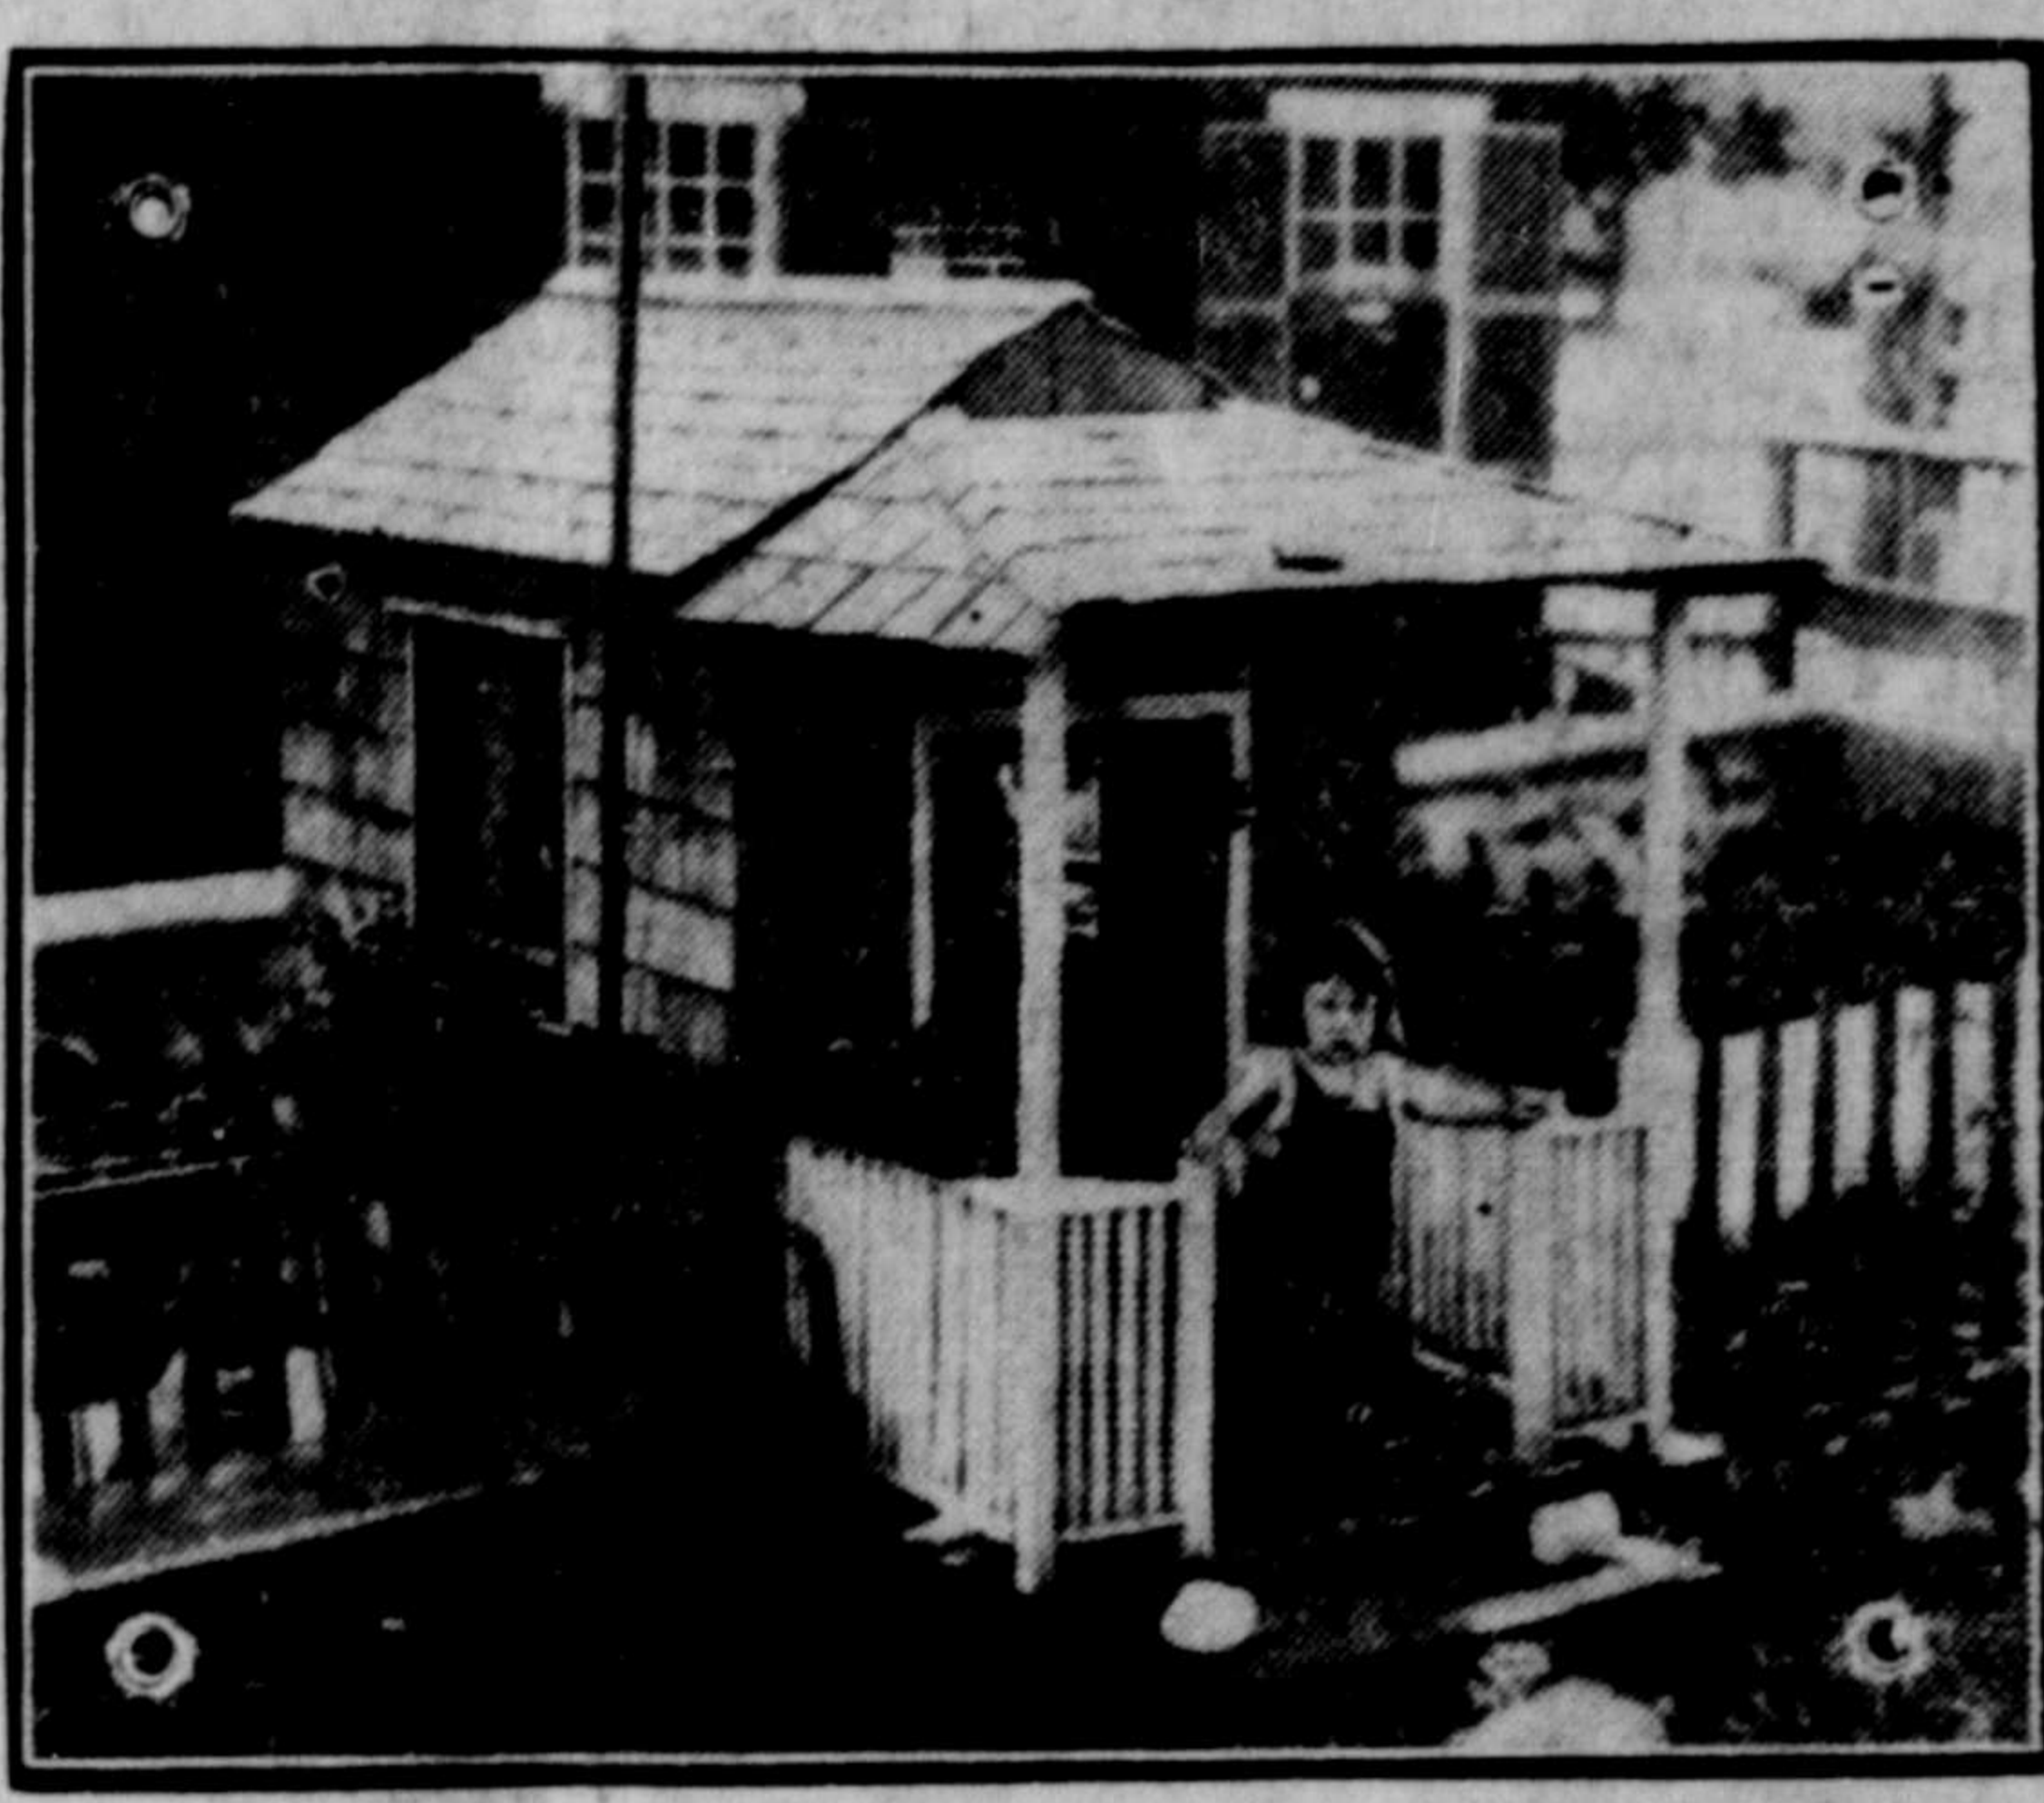

Beothic at North Sydney After Completing Work in Far North For Government

NORTH SYDNEY, N.S., Aug. 30. — With all objectives attained including the establishment of a Royal Canadian Mounted Police detachment at Pache peninsula, Ellsmore Island, in Latitude 79 degrees, 4 minutes north, the 1926 Canadian Arctic expedition under George P. Mackenzie of the Northwest Territories and the Yukon branch of the department of the interior arrived here yesterday on the steamer Beothic.

WHO IS RESPONSIBLE HUDSON BAY RAILWAY?

(Manitoba Free Press) — At Mr. Meighen's meeting in this city last year one of the banners displayed on the walls of the hall asserted that the Conservative party had started and the Conservative party would finish the Hudson Bay road.

Maritime Provinces Will Give Liberals Several More Members Than Last Election

A letter received by a Prince Rupert man from a friend in Montreal says: "I have just returned from the Maritime provinces and have discussed our (the Liberal) prospects with Walter Foster and Veniot and other leaders in New Brunswick, and the most conservative estimate that I can get of our chances in New Brunswick is that they are confident we will beat Fleming in Carleton county, Doucet in Kent, and probably win Madawaska and Restigouche, besides, of course, holding Gloucester county where Veniot is running. In the other counties the party is badly organized and apathetic.

"Dick O'Brien, the editor of the St. John Globe, the chief Liberal paper in New Brunswick, and in my judgment the shrewdest forecaster of political results, looks for a total gain of eight seats in Nova Scotia and New Brunswick. When I say gains, of course I mean holding the seats we have already and gaining the others."

This writer told of meeting a former Prince Rupert man who had just returned from a motor trip through Nova Scotia, including Cape Breton. He states that the general opinion is that the Liberals will carry Cape Breton, which they lost at the last election, and will also carry bigby county and that all through the province there is a much better feeling amongst the Liberals than existed last year.

A high official of the C. P. R. informed this man that among those best qualified to judge Mr. Meighen is making a very poor campaign and his method of appealing to the different provinces for the purpose of enlisting their purely local interests irrespective of national interests has lost him confidence throughout Canada and the politicians in Montreal are of the opinion that Mr. Mackenzie King is making a better campaign than Meighen. "It is openly admitted here in Montreal," he says, "that the Conservatives will lose three seats in Montreal which they already hold. The same C. P. R. official made the statement three days ago that Pate-naude would be beaten in Jacques Cartier.

Concluding the letter this man says he hopes things look as rosy in British Columbia as in the east. He says he knows Skeena is perfectly safe, but the Conservatives in the east are claiming that it and all other British Columbia seats will go Conservative, so he knows what reliance to put on such claims.

RUM RUNNER SURRENDERS

'Flying Dutchman' of California's Rum Row Given up to Mexican Authorities

SAN DIEGO, Aug. 30. — With but two men of the original crew of 20, her anchors gone and food and water supply almost exhausted and with her cargo and holds empty, the alleged rum runner Marion C. Douglas the "Flying Dutchman" of southern California's rum row surrendered to the Mexican authorities, according to word brought here by the coastguard cutter Tamaroa.

Baseball tonight at 6 o'clock. S.O.C. vs. Grand Terrinals.

MOTHER KNEW SON DROWNED

Screamed When She Saw Police Approach With News of Death and Became Hysterical.

VANCOUVER, Aug. 30. — In sight of several persons on the Gonaught bridge, Richard Vitfoe fell 30 feet from a lumber laden scow in bow of the tug Elta Mae in False Creek Saturday night and was drowned.

When the man's mother, with whom he was residing, saw the police officer approaching her home, she surmised he was bringing tragic news. Screaming, she knew her son was drowned, she became hysterical and it became necessary to remove her to the police station for treatment.

Japanese Freighter is Wrecked in Johnson Strait and Total Loss

VANCOUVER, Aug. 30. — Striking a rock at Ripple Reef, in Johnstone Straits, about 100 miles north of Vancouver early Sunday morning, the Japanese steamer Kaikyū Maru has stranded a total wreck on a shoal.

The crew took to the boats at 2 a.m., an hour after the crash and landed safely at Vere Bay on the mainland, west of Helmecken Island.

The steamer Salvage King from Victoria has been sent to pick up the crew and make an attempt to salvage the wreck.

The steamer Lakina went to the assistance of the wreck but the crew had reached shore and she proceeded.

The report states that when the engine room of the Kaikyū flooded, the boilers exploded and the vessel's back was broken.

The steamer sailed from Yokohama for Vancouver on August 3. She is registered 5845 tons and is 445 feet long.

NEW RECORD FOR CHANNEL

Man Beat Miss Ederle's Record By Nearly Two Hours Today.

DOVER, Aug. 30. — Vierkoten, a male swimmer, beat all previous records today in swimming the English Channel. He landed here at 2.15 this afternoon from Cape Griz Nez where he entered the water at 1.35 this morning. According to the official figures he was in the water 12 hours and 40 minutes, or nearly two hours better time than made by Gertrude Ederle. Conditions were very favorable.

BOAT FOUND; NO OARSMAN

Captain Whittaker Thought to Have Been Drowned in English Bay.

VANCOUVER, Aug. 30. — An empty rowboat found on the beach at Kitsilano containing a man's jacket and the finding of an oarsman's hat at another point on shore led the police to the belief that Captain C. Whittaker, of Nanaimo, B. C., prominent in Great War Veterans circles, lost his life at English Bay.

The papers found in the jacket indicate that the owner was Captain Whittaker, who Saturday night announced to his friends his intention to take a row. When he did not return the police were notified and early Sunday morning search resulted in the finding of the boat and articles of clothing.

TEN MILLION LOSS

NEW ORLEANS, Aug. 30. — Twenty-five persons are known to be dead and five others are missing and damage estimated as high as ten million dollars resulted from Wednesday's hurricane.

JAPANESE FLOODS

TOKIO, Aug. 30. — The latest despatches from Hokkaido Island say the floods there are subsiding and it is believed that property damage is not heavy. Only a few casualties resulted.

MEIGHEN SEES VICTORY AHEAD

KENORA, Aug. 30. — "There's no doubt Conservatives will have a substantial majority," said Premier Meighen yesterday on the completion of his western tour. "The party will have more seats in Western Canada than they won last year. I am absolutely confident we will gain in each of the four western provinces."

After an extremely busy day Saturday the Premier is en route to Ontario and Quebec, where he will wind up his campaign.

STONES ARRIVE FROM ENGLAND

Used in Abbey Church About A. D. 597 and Later in Gantterbury Cathedral.

LONDON, Aug. 30. — A letter of thanks has been received by the Canadian Government Merchant Marine, Limited, in London, for the safe conveyance of five ancient stones, forwarded by the authorities of Canterbury Cathedral and carried free of charge to the Bishop of British Columbia for incorporation in the new Christ Church Cathedral in Victoria. The stones were first used in building the Abbey Church of the Monastery of St. Augustine between A.D. 597 and A.D. 605. Later they were built into Canterbury Cathedral itself. The Cathedral of Christ Church, British Columbia, in which they will be incorporated will have two towers rising to a height of 135 feet and joined by an arch 185 feet high. A central tower will rise 185 feet above the level of the nave floor and will be visible all over the city and far out at sea. The cornerstone of the new cathedral will be laid next month by the Bishop of London.

A good crowd was present in the Moose Hall on Saturday evening when a dance was held with music by the Imperial Rain-bow Orchestra of Calgary.

Customs Scandals to be Deported.

Liberals and Conservatives alike deplore the customs scandals and it must be remembered that it was the Liberals who appointed the investigating committee and that it was the Liberals also who employed investigator Duncan and paid him his salary and expenses after it was shown that there was cause for complaint. The only difference between the Liberal attitude and Conservative was that the Liberals were not anxious to make campaign capital out of it whereas the Conservatives depend upon it to stampede the country into giving them another lease of life so that they may put into effect their protectionist policy for the benefit of the already rich manufacturers.

Both sides of the house were agreed that the matter should be investigated right to the limit and the investigation is now going on. The only difference of opinion is as to who is primarily responsible. Mr. Meighen says it is Mackenzie King or his party, while Liberals refuse to be saddled with it.

Conservatives like Mr. Bowser enjoy wading about in the dirty mess, but Liberals prefer to talk about pleasanter things.

Remember Mr. Bowser's Little Fiction Story.

Those who were present at the opening of the Bowser meeting Friday will remember that Mr. Bowser spun a pretty little fiction story in connection with the incorporation of the Stork Hardware in which he made the chief actors engage in a pretty little entertaining and amusing dialogue. Mr. Bowser is a past master at that kind of fiction. People were all aware that he was drawing on his imagination for it and it made them wonder how much of the rest of the story was fiction and how much fact. If he could weave such a pretty yarn out of a brief list of four names, in the office of the Joint Stock Company, how much fiction might he weave out of a customs scandal in which the Liberals were as eager as Conservatives for a cleanup.

That is the difficulty of dealing with a man of the Bowser stamp. It is difficult to tell when he is recounting fact and when he is resorting to flights of imagination where characters are created to fit the parts.

Mining Industry and Political Situation.

The political situation in regard to the miner is one that is seldom considered except by those who are particularly interested in securing the miners' votes, yet it is particularly important where the mining industry is one on which the whole community depends and in connection with the prosperity of which the future development of the whole district depends.

The Conservative policy is one of adequate protection for all industries by means of a tariff wall which tends to keep out opposition. That sounds well but the mining industry cannot be protected in that way in an exporting country any more than can the fishing industry or the agricultural industry. The basic industries are those which suffer while the manufacturers benefit under a protective policy.

Would Raise Price of Means of Production.

The Conservative policy, if carried into effect through the return of the Meighen Government to power, would tend to raise the prices on everything used in and around a mine, thus increasing the cost of production of the minerals and making it more difficult to compete with the mines in other countries. Keeping out minerals will not make those produced here improve in price. Such action cannot improve the local market, but keeping out American tools, machinery, and all other supplies will tend to raise the price of those articles to the miner and make mining more difficult. That seems to be a reasonable argument and one that cannot well be controverted.

Miners then should all be Liberals unless they are prepared to vote against their own interests, just as fishermen are mostly Liberals.

Less kitchen work with SHREDDED WHEAT

Ready-cooked and ready-to-eat
Delicious with milk or fruits

SAVE MONEY ON SHIPPING THIS ROUTE

Newspaper Points Out One Reason Why Business This Way Should be Encouraged

(Prince George Citizen)
Canadian National Railway officials have completed arrangements for the moving of 15,000,000 bushels of wheat which it is announced the prairie wheat pool will ship through the Prince Rupert elevator from this year's crop in Alberta. This will be a much greater shipment than marked the opening of Vancouver port to wheat shipments, but since then the shippers have learned a lot in favor of Pacific coast shipments. Vancouver has now six or seven elevators, and it is predicted 75,000,000 bushels of grain will go through them this season. There is no reason why wheat shipments through the port of Prince Rupert should not grow in same manner, and in a short time make the G.T.P. division of the Canadian National one of the most profitable in the system.

The plan made for the movement of the initial shipments to Prince Rupert call for the delivery of approximately 120,000 bushels per day, and if no increase is made in the volume of wheat diverted to Prince Rupert this season this will mean 125 working days of the railway in the movement of the grain, so that it will extend well into 1926. The daily load will be split into three trains. This will take up the slack all along the division and call for one or two additional train crews at each of the divisional points.

Shipping Facilities

The development of the trade out of Prince Rupert will turn largely upon the facility with which vessels can be secured to take cargo out of the northern port, but it is one which should enlist the co-operation of the federal government in that it involves not only an expeditious handling of a considerable portion of the Alberta wheat crop but the opening up of a large area of lands along the Canadian National between Hazelton and Fete Jaune Cache. From the railway company's viewpoint the Rupert grain export should be viewed with favor. The actual cost of the rail haul to Rupert will be about the same as that to Vancouver, but on the movement of the 15,000,000 bushels to Rupert the Canadian National will save \$195,000 which would have to pay the Great Northern Railway for the use of its tracks from Port Mann into Vancouver, as the United States road gets \$13 on every car of grain hauled over its tracks from the Canadian National terminus at Port Mann to the Vancouver elevators.

Ten Years Ago in Prince Rupert

August 30, 1926

Sockeye salmon are still running well on the Naas River according to latest reports. While they have been very short on all other parts of the coast, the Naas has had a very heavy run of this variety. On the Skeena the run of other varieties is good.

The Westholme Theatre was filled last night on the occasion of the lecture of Prof. Hering from the mother church of Christian Science in Boston. Ald. O. H. Nelson presided at the meeting.

According to newspaper writers, the reports on the war from German sources are becoming so increasingly unreliable that they can hardly be believed at all now.

SOUTHAM NEWSPAPERS SEEM MUCH DISTRESSED

(Edmonton Bulletin)

Southam newspapers in the prairie provinces are visibly distressed and equally displeased because Liberals and Progressives are joining forces to beat Conservative candidates.

That is about the last and final proof Liberals and Progressives could ask or expect that they are taking the right course in pitting their united strength against the combination of eastern political influence and financial interests, for which the Southam papers speak.

NATIVE SONS OBJECTING TO WAITING LIST

Say Those Who Have Made Application Under Quota Law Should be Disfranchised

DECLARATION OF INTENTION

Those Entering States Renounce Allegiance to British Sovereign and Dominions

TORONTO, Aug. 30.—Incensed because of the declared presence within Canada of large numbers of overseas European and English "transients" who through application to enter the United States under the quota law are making of this country a backdoor through which to gain entry into a foreign nation, Toronto Assembly, Native Sons of Canada, have forwarded to the Prime Minister of Canada a strong protest against these people being permitted to vote at the forthcoming or any subsequent election within Canada.

In a memorial to the Hon. Arthur Meighen and his government, the Native Sons assert that scattered throughout Canada at the present time are between 30,000 and 40,000 of what are called "transient tourists," mostly born in England, who have already made application to enter the United States and become American citizens, and whose names appear on the U.S. quota lists as evidence of their desire to get out of Canada as quickly as possible. At Toronto, it is declared, are some 8,000, temporarily resident within this city, whose applications for entry into a foreign country indicate their desire and intention to shake the dust of British soil from their feet. At Windsor, it is asserted, are another 8,000 to 7,000 with an additional 1,500 at Niagara Falls and varying numbers at border points all across Canada.

Makes Declaration

The Native Sons contend that, as every foreigner entering the United States, before being given entry, is required to make a declaration of intention to become a citizen of the American Republic—which involves a further oath of allegiance to Uncle Sam—the mere application for entry, involving such declaration, is sufficient reason for the disqualification within Canada of every British subject who thus knocks at the door of the United States. These Canadians aver that the British subject who makes such application has no right to further expect the privilege of franchise within Canada, since the declaration required before being permitted entrance into the U.S. clearly and unmistakably requires an absolute renunciation of all allegiance to Britain, the British sovereign, and to the Dominions beyond the seas. The declaration of intention to become a citizen of the United States, to which every British subject must subscribe before being admitted to that country, and which is quoted by the Native Sons for the information of the Prime Minister of Canada, is as follows:

The Declaration
"I (name of applicant) most solemnly swear that it is my bona fide intention to renounce forever all allegiance and fidelity to any foreign prince, potentate, sage or sovereignty, and particularly to His Majesty King George V, King of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Seas, of which I am now a subject. It is my intention and good faith to become a citizen of the United States of America and to permanently reside there. So help me God."

In view of the fact that specific reference within this declaration is direct to King George V of Great Britain, the Native Sons take the ground that the British subject or other person resident within Canada who would make application for entry into the United States, knowing that the fore-swearing of all previous allegiance is involved, is no longer entitled to any right or privilege within Canada. Therefore, the demand is made that Premier Meighen and his government should take prompt and immediate action, by order-in-council or other necessary enactment, to disqualify every British subject or other person whose name now appears on the U.S. quota lists as evidence of desire and application to leave Canada and cease to be

for Real Enjoyment—Smoke The Tobacco of Quality

OLD CHUM

15¢ — Per Packet

THE MAN IN THE MOON says:

If people would only wait for April 4 to make fools of themselves, this would be a much sadder world than it is today.

Breathes there the man with soul so dead
Who never to himself hath said
This is my own my native land,
Whose heart hath ne'er within
him stirred
As day by day on the street he
heard
"The sun is shinin', aint it grand!"

The fishermen have found a new friend. It is Brady. Queer they never know it until now!

What will there be to talk about, boys, when the election is over and Stork is again at Ottawa?

It's a great life with both elections and the fall fair in the offing.

Jake says Brady is an awfully good chap but that does not make him a member.

I wish I were Dugald Donaghy so I could have a chance of taking a fall out of Harry Stevens.

In spite of Dave Thomson's energy and push, people seem more excited over the election than over the coming fair.

Distillery Contributions

Toronto Globe
So far as the voter knows, the distilleries have assisted in financing the campaigns of both parties, which, obviously, as a result, are under obligation to them. Neither Mr. King nor Mr. Meighen denies it. The public may draw its own conclusions.

a British subject or Canadian citizen. Thus, the effect of the request of the Native Sons would, following necessary action by the government, be to prevent every one of these 30,000 or 40,000 "transient tourists," they are termed, from voting at the general election on September 14.

RUPERT FORGOTTEN IN B. C. NUMBER OF THE MANCHESTER GUARDIAN

The Manchester Guardian has just issued a British Columbia commercial number, well illustrated and dealing in a general way with the commercial life of the province. Prince Rupert is rather noticeable by its absence. The only place the name seems to appear is on a map on the front cover and there the red railway line which should have led to it is cut off just this side of Fort Fraser. Vancouver is prominently shown as the shipping port to China, Japan, Australia and New Zealand.

BUSINESS BLOCK AT SMITHERS COMPLETED

SMITHERS, Aug. 30.—While moving in of the tenants of the new Pioneer Block this week, a handsome addition was completed to the business section of the town. The new building, erected by the Hanson Tie & Timber Co. is at the corner of Broadway and Main St. It contains two large and roomy office apartments, is now occupied by the branch of the Royal Bank and the Hanson Tie & Timber Co. The building has been specially constructed for the purpose of banking's quarters and contains a large reinforced concrete

Crystal Firefighters, 48 for \$1.00. Hyde Transfer. Phone 580.

Smithers Fair starts Wednesday, September 1. It's worth taking in.

D. McD. Hunter returned on the Prince Rupert Saturday evening after a fortnight's business trip to the Stewart district.

Perry Baister sailed this morning on the Princess Louise for Juneau where he will join his family.

Edgar Sylvester, Indian, was fined \$25 and costs in the city police court this morning for having liquor in his possession.

Tommy Jones was fined \$50 in the city police court this morning for intoxication. It was his second offence.

W. L. Stamford, engineer of the marine department, Digby Island, sailed last night on the Cardena for Anyox on official duties.

Mr. and Mrs. James R. Mitchell, who have been visiting here for the past two months with their parents, will return to Anyox next Sunday.

Dan Jabour was a passenger on the Cardena last night for the Naas River where he will confer with the managements of the native bands which are to come to the city for Fair Week.

Tanker Mina Brea came in last evening at 6 o'clock from Anyox with fuel oil for the Imperial Oil Co.'s local tanks and, after discharging, will sail this afternoon on her return south.

The Liberal committee rooms will have a direct wire giving election returns on the night of September 14. Arrangements were made through the Canadian National Telegraph Co.

R. S. Sweeting, C.N.R. auditor, arrived from Vancouver by the Princess Beatrice Saturday afternoon and, after having spent the week-end here, proceeded this morning on the Princess Louise to Alaska.

W. W. Smith, C.P.R. district freight agent at San Francisco, and Mrs. Smith were passengers on the Princess Louise this morning making the round trip to Alaska.

Mrs. Gosse and Miss Gosse, mother and sister of Mrs. H. L. Alexander, 1805 Graham Avenue, arrived in the city from Victoria on the Princess Louise this morning.

Union steamer Cardena, Capt. A. E. Dickson, arrived at 7.15 last evening from Vancouver and wayports and sailed at 9.30 for Anyox, Alice Arm and Stewart. The vessel will be here tomorrow afternoon southbound.

J. Laursen and Archie Beatty were passengers for Northern British Columbia this morning with election ballot boxes. Mr. Laursen is going to Telegraph Creek and Mr. Beatty to Atlin and Engineer Mine.

John Flewin, returning officer for Skeena riding, returned on Saturday evening from Stewart where he had been on election business. Mr. Flewin has taken up his office in the Westenhaver Block on Second Ave. Miss Dorothy Creech has been appointed election clerk.

C.N.R. boats from north and south were both late today owing to last night's fog. The Prince George arrived at noon from Alaska and will sail at 4 o'clock this afternoon for Vancouver and wayports while the Prince Charles arrived at 2.30 this afternoon from Vancouver and will sail at 4 o'clock for Anyox, Stewart and Massett Inlet.

Football tomorrow night at 6.30. Moose vs. Grand Terminals.

Mrs. G. G. Bushby and family are sailing this afternoon on the Prince George for Victoria where, after having lived here for the past few years, they will resume their residence. Mr. Bushby will go south later.

C.P.R. steamer Princess Louise, Capt. Arthur Slater, arrived from Vancouver at 9 o'clock this morning and sailed at noon for Alaska ports. Although the tourist traffic is falling off, the Louise had a good list of round-trip passengers.

Mr. and Mrs. A. A. Holland arrived yesterday from New York and sailed this morning on the Princess Louise for Juneau where Mr. Holland, who is a brother-in-law of Mr. and Mrs. J. A. Hinton of this city, will examine mining properties in which he is interested. They were accompanied to Juneau by Lyman Hinton of this city.

PLAYING WITH FIRE DESTROYED HAIR ON BODY, SAYS PROFESSOR

Thyroid Gland Also Closely Connected With Growth of Hair.—Home of Man in Asia.

OXFORD, Aug. 30.—Man lost his ancestral growth of hair through playing with fire, is the theory advanced by Dr. R. T. Gunther, before the British Association here. Hairy man was a danger to himself when he learned to make a fire; therefore singeing became customary to remove the perilous pelt under controlled conditions. When the ladies of the tribe saw how much handsomer the males were without a growth of hair all over their bodies they began to prefer thin haired men for mates, thus weeding out the hairier ones by sexual selection.

Another explanation of the hairlessness of man was given by Professor H. J. Fleure in his address as president of the anthropological section. He claimed attention to the lengthening of the pre natal life, from 220 days for our relatives among the apes, to 280 days for man.

This lengthening gave time for the pre natal hair, still present on human fetuses to disappear, and to allow a bigger grain to develop. The secretion of the thyroid gland is associated with hair growth and when hairiness was largely suppressed this energy was diverted to the growth of the brain, thus contributing to man's evolution. Prof. Fleure contended that the Andamanese, Semang, Aeta and Tapiro peoples, who are Asiatic primitives, together with the Akka and other African pygmies the African Bushmen and the extinct Tasmanians, are possible survivals of early types of ancient man.

Dr. Henry Fairfield Osborn, who has been made the recipient of an honorary degree from Oxford University announced his theory that the high plateau region of Asia, rather than the traditional Asiatic lowlands, was the home of the vigorous line of the ancestors of dawn of man far back in the age of mammals. He declared that his colleague, Roy Chapman Andrews, found in the gobi desert relics of four persons of the old stone age, bolithic, acheulian, azilian and campignian.

Playing for Profit

Passing Show

Her Father—But you admit that you play often at Monte Carlo.

Her suitor—Yes, sir, and I make a good deal of money at it.

"I can hardly believe it. What do you play—roulette?"

"So, sir, the saxophone!"

LOCAL SISTER IS PROMOTED

Sister Superior Juliana of St. Joseph's Appointed to Important Post in Toronto.

Sister Superior Juliana of St. Joseph's convent here has been appointed sister superior of St. Michael's Hospital in Toronto and her place here will be taken by Sister St. Paul, of Truro, Ontario, who will arrive in the city to take charge this fall.

A highly respected and much loved woman, Sister Superior Juliana's removal from Prince Rupert will be greatly regretted not only by those of the Catholic faith but by the many who received training under her in the local convent. Sister Juliana has been here nine years, having been a member of the first staff of St. Joseph's. She was personally in charge of the commercial class here and also, being a nurse, is qualified for the important duties she is undertaking in the large Toronto institution.

Sister Juliana left here for the East during the summer.

TAXI DRIVER SOLD LIQUOR TO INDIANS

Marcil Viennet Pleads Guilty and is Fined \$300 by Magistrate McClymont.

Marcil Viennet, local taxi driver, was fined \$300 and costs by Magistrate McClymont for selling liquor to Indians. The arrest was made by provincial and Dominion police officers, marked money being used. Viennet pleaded guilty.

NAMES STRUCK AND ADDED TO VOTERS' LIST

About One Hundred Are Removed And As Many Put On By Returning Officer.

About 100 names have been struck off the voters' list for Skeena riding so far and a similar number have been added during the court of revision that has been held last week by Norman A. Watt, government agent, the revising officer.

The names struck off, Mr. Watt explains, were those of people non-resident or dead. The protests were entered by Conservative interests and were concurred in so as to clean up the list.

Those whose names were added to the list appeared personally before the revising officer. Protests against two persons, whose names are on the list and whom it is claimed are non-residents, have been entered by Liberal interests but have not yet been acted upon.

The court is having its last session today between the hours of 9 a.m. and 5 p.m.

ONE HUNDRED LOST AS SHIPS COLLIDED

LENINGRAD, Aug. 30.—One hundred persons, mostly Russians, perished when the Russian steamer Burevestnik collided with the German steamship Graine in Morskoi Canal last night.

DONCASTER IS NEXT BIG RACE

Cesarewitch and Cambridgeshire Important Classics With Large Entry Lists.

LONDON, Aug. 30.—Publication of the entries for the Cesarewitch and Cambridgeshire, the two great autumn handicaps staged at turf headquarters for more than 80 years, has started the turf world on its annual quest for "stayers." These races have achieved a remarkable place among the great events of the turf, and speculation on their outcome is as earnest as on any other race save perhaps the Derby.

A wealth of first class material is shown in the entries, which of course will be greatly reduced by post time. Despite the hardy annual complaint about the dearth of "stayers" the entry for the Cesarewitch is remarkably satisfactory. As the races are not run until the middle of October and the handicaps are yet to be allotted, first impressions of the entry list will probably undergo some revision.

Long Distance

The Cesarewitch is over a distance of 2 1/4 miles, and the Cambridgeshire a mile and a furlong. Both annually bring out large and first quality fields. For the Cesarewitch, the six-year-old Foresti, winner last year, and Confirmation, winner of the Queen's Prize at Kempton Park, are among the favored entrants. Kyra, winner of the Great Metropolitan, Dracos, who performed well at Goodwood; Hidennis, Chester Cup winner; Cloudbank, a former Queen's Prize winner; Sol Jell's Pons Asinorum and Vermilion Pencil, all merit consideration for their performance in the season's important handicaps.

Top Notch Horses

The Cambridgeshire entry of course includes many of the Cesarewitch aspirants. But outstanding would seem to be Masked Marvel, last year's winner. Three-year-olds are entered more freely in the Cambridgeshire, only half the Cesarewitch distance. Those nominated include such top-notchers as Sir Abe Bailey's Lex, who as a two-year-old defeated Coronach, the Derby winner. Comedy King and Harpagon, Craven Stakes winner. The older contingent is led by Rock Fire, Newbury Spring Cup victor, Lord Astor's Cross Bow, and such experienced campaigners as Purple Shade, Winalot and Brighter London. Competition seems, at this stage, to be unusually keen, and the races consequently even more interesting than usual. Nine or ten French horses have been nominated for both handicaps, which are favorites with horsemen across the channel.

Doncaster

The turf world is now entering on its final and perhaps finest phase commencing with the Doncaster meeting, during second week of September, when the season's fifth and last great three-year-old classic will be decided. During the same meeting are the Champagne Stakes, Princess Mary Stakes and Doncaster Cup. The Champagne Stakes, providing the race runs true to century-old tradition, will result in a serious contender for the 1927 Epsom Derby. Last year's winner, Coronach, won the Derby this season and is unrivaled among the three-year-olds, and indeed is the warm favorite for the St. Leger. The two-year-old fillies have their innings in the Princess Mary Stakes, while the Doncaster Cup, for an older class of thoroughbred, being over two miles and a quarter, will also be keenly contested.

DRESS UNIFORM FOR OFFICERS OF FRENCH NAVY EVENING WEAR

PARIS, Aug. 30.—French naval officers, through a decree for which M. Georges Leygues, minister of marine, is responsible, are to have a new dress uniform for evening wear which will be comparable in style and dignity with those of the naval officers of other nations.

The uniform will be an open coat, approximately the mess jacket of the British, with a white waistcoat and dark trousers with stripes of gold along the seams. This will be worn at any function which calls for either a dinner or full dress among civilians.

REG. DENNY IN ROLLING HOME

Story of Man Who Bluffs His Way Through and Eventually Wins Out.

Nat Alden, an ambitious, but unfortunate young financial promoter, loses all his money in bad investments, and in addition, incurs the enmity of a capitalist who had been persuaded to invest in a scheme which was legitimate but which fell through for reasons impossible to foresee.

Nat is cast out of the office, and outside, meets an old army friend, now the chauffeur of the capitalist. They are reminiscing when the capitalist comes out to inform his chauffeur that he is going away by train to a neighboring city for a short time.

Nat tells his plight to his friend. He is expected to return to his old home town, where everyone thinks he is a millionaire and he has not the heart to return and confess his failure. They decide to "bluff" it through, and, in the capitalist's car, make a triumphal entry in Lower Falls, with Dan, the friend, acting as Nat's secretary.

Complications quite naturally develop. The town is in bad financial straits itself, and is expecting Nat's money, and his business genius to put the village on a prosperous footing.

FRED STORK IS MUCH PLEASSED

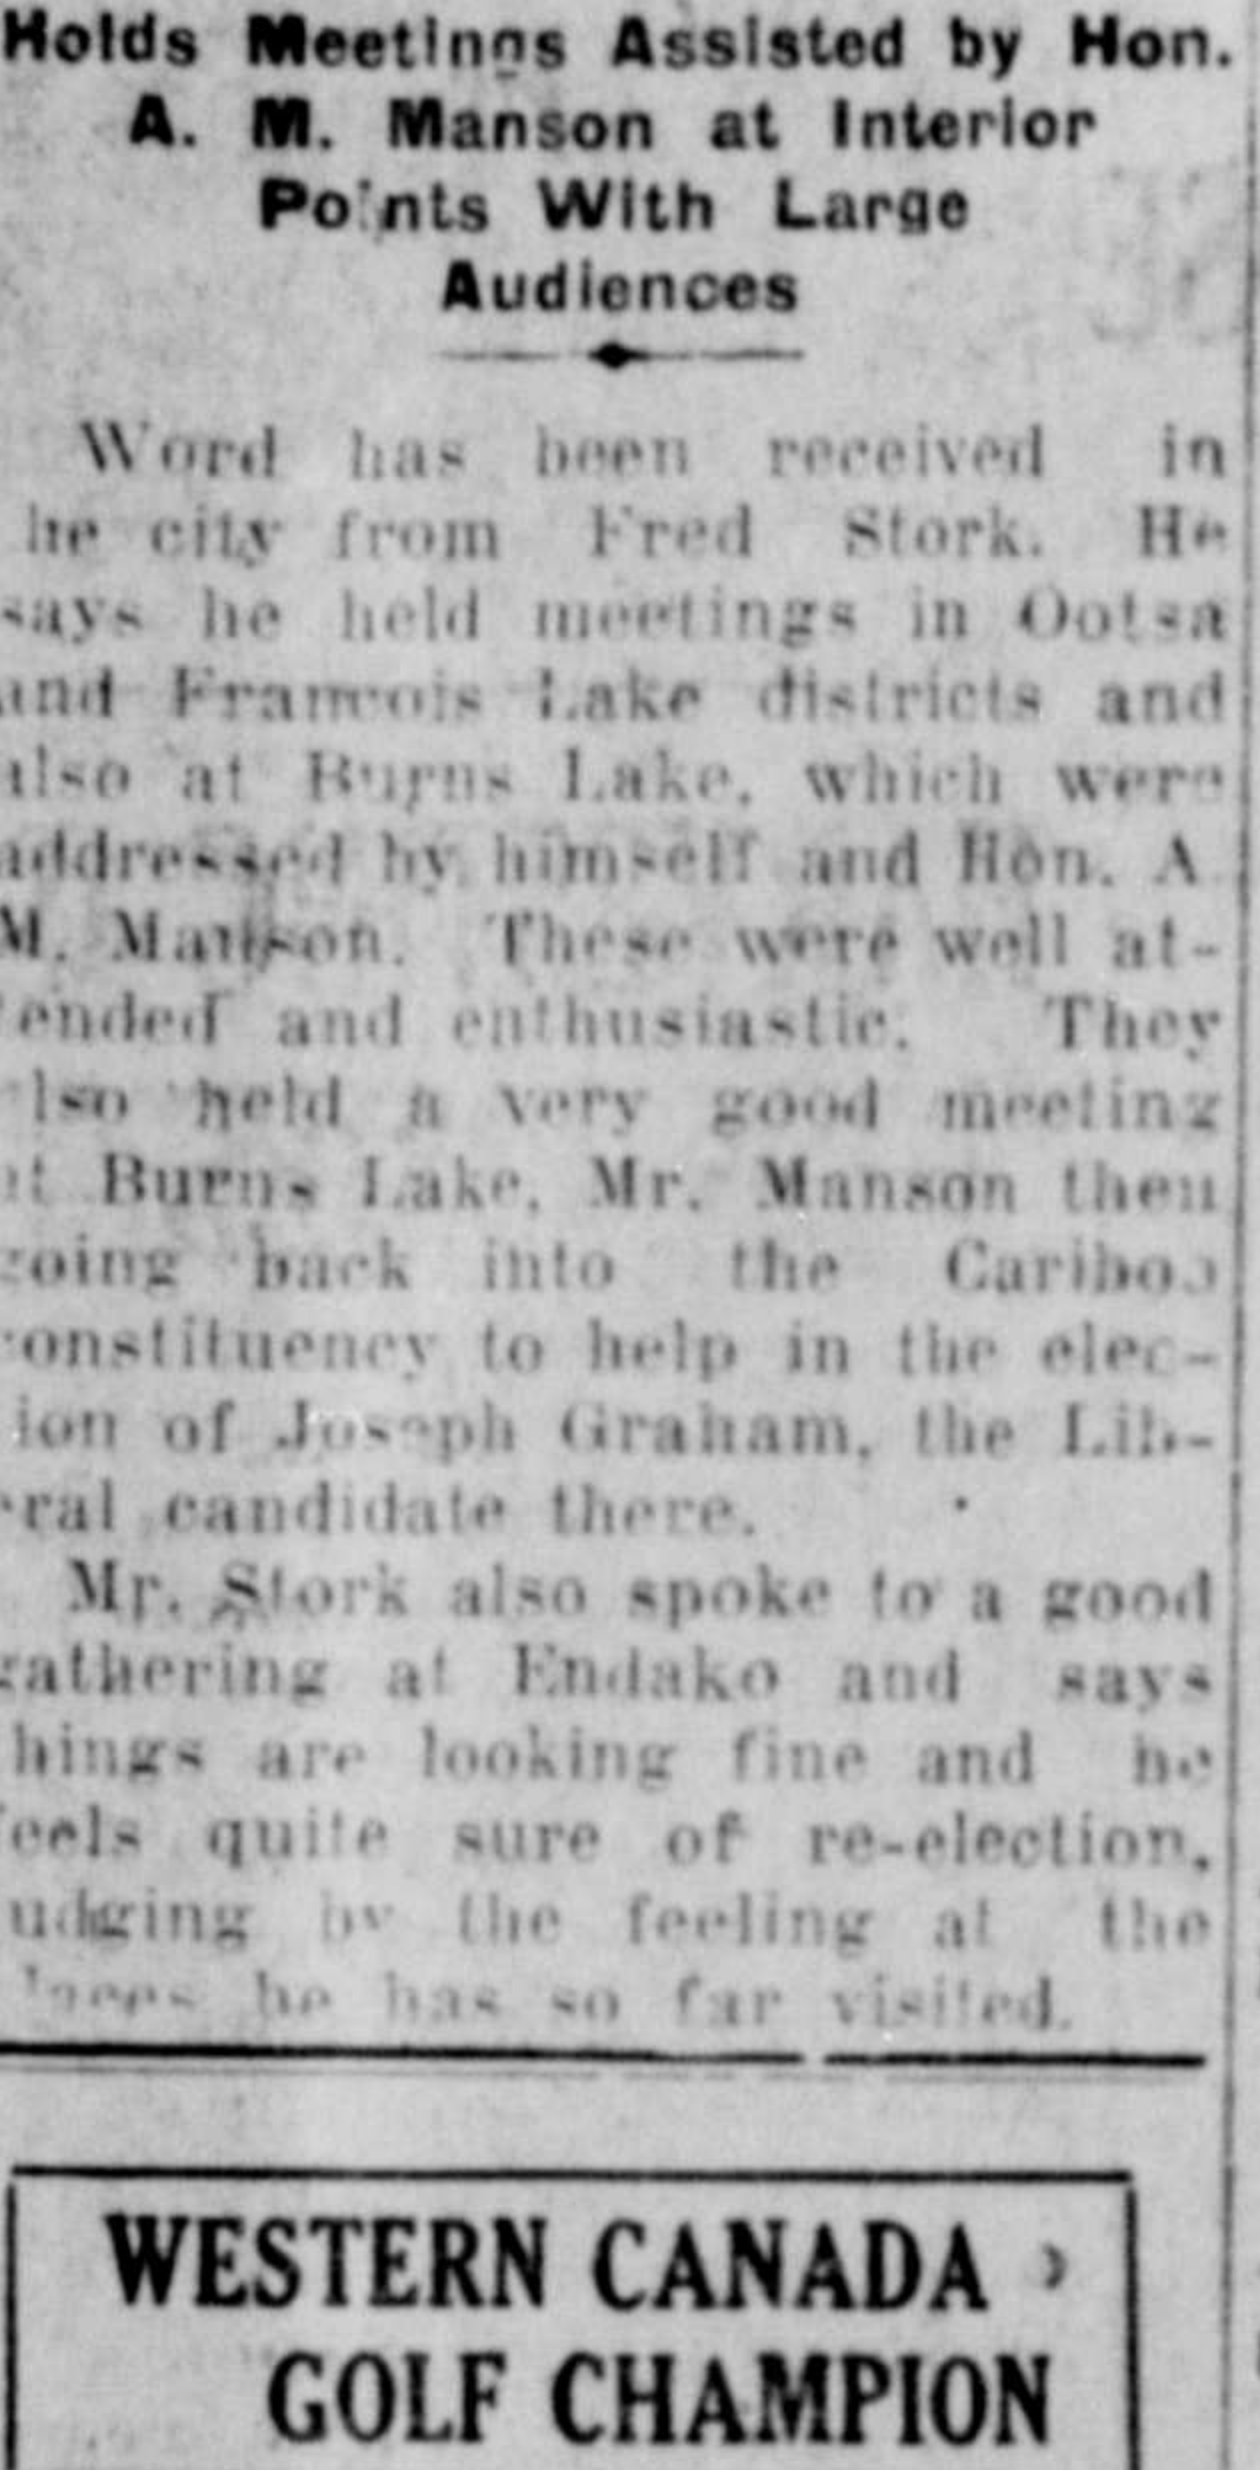

Holds Meetings Assisted by Hon. A. M. Manson at Interior Points With Large Audiences

Word has been received in the city from Fred Stork. He says he held meetings in Ootsa and Francois Lake districts and also at Burns Lake, which were addressed by himself and Hon. A. M. Manson. These were well attended and enthusiastic. They also held a very good meeting at Burns Lake, Mr. Manson then going back into the Cariboo constituency to help in the election of Joseph Graham, the Liberal candidate there.

Mr. Stork also spoke to a good gathering at Endako and says things are looking fine and he feels quite sure of re-election, judging by the feeling at the times he has so far visited.

"MISS NOBODY" STORY OF HOBO LIFE WITH ANNA Q. NILSSON STAR

Anna Q. Nilsson is seen in one of the most unusual roles of her career in "Miss Nobody," here tonight at the Westholme Theatre. The beautiful First National star takes the part of a hobo in "Miss Nobody." She wears mannish clothes throughout the major portion of the picture.

"Miss Nobody" is an adaptation of the celebrated Tiffany Well's novel, "Shebo," which achieved great success both in book and serial form. Shebo, as the heroine is called, disguises herself as a tramp in order to evade the unwelcome attentions of an admirer.

Lambert Hillyer, who directed "Miss Nobody," has made the episodes of tramp life quite authentic. Six genuine knights of the road were engaged by the director to act in the picture, as well as to give expert advice.

The four principal male actors in "Miss Nobody" grew long beards for their parts in the picture. Walter Pidgeon, who plays opposite Miss Nilsson, grew the longest crop of whiskers, with Arthur Stone, Mitchell Lewis and Clyde Cooke close runners-up, or runners-down.

GOOD SHOOTING AT THE RIFLE RANGES

FINE BOOKLET ON ALICE ARM MINES JUST PUBLISHED

The Alice Arm branch of the British Columbia Chamber of Mines has just published a very fine little booklet, "Metaliferous Mining in the Alice Arm District of British Columbia," which deals with the mining conditions and mines, is nicely illustrated and well compiled. One of the features of the booklet is a little article by G. A. Clothier, resident engineer for the district, which speaks highly of the prospects.

Copies of the booklet can be secured from the secretary at Alice Arm. Advertise in the Daily News.

When You Buy WATCH

There is one main advantage to you over getting it away from home. If the watch doesn't come up to your expectations, why you always know where to come and have it made right or exchanged. Our guarantee is binding. It means what it says. Watch prices are as low here as elsewhere for equal value.

NEW HAZELTON

The last big drive of logs of the season from up the Skeena River beyond Kispitox was made last week. During the winter it is expected that between one and two hundred men will be employed in the pole camps of this district.

Work on the American Boy mine on Nine-Mile Mountain was commenced last week under the direction of Hugh A. Harris.

Charles Ek came in last week from the Red Rose property on Rochem de Boule with a large chunk of tustgen ore which he says abounds on the property. He is sending a sample to the Prince Rupert Exhibition.

Hazelton Conservatives have formed a club to be known as the Brady Club for the purpose of furthering the interests of the Conservative candidate in Skeena riding. The officers are: President, W. J. Sanders; vice-president, Mrs. E. R. Cox; secretary, G. V. Storkey; executive committee, James Hodder, William Larmer and Mr. and Mrs. R. S. Sargent.

A pretty wedding took place last week at the home of Mr. and Mrs. Clyde Hunt when Nelson Burns Hunt of Decker Lake was married to Miss Margaret Ann MacDonald, a Vancouver nurse. The ceremony was performed by Rev. J. B. Young and the witnesses were Clyde Hunt and Miss Katherine MacDonald. A buffet luncheon followed the ceremony, among those present being Mrs. C. W. Homer and Mrs. Andrews of Prince Rupert. Mr. and Mrs. Hunt will reside at Decker Lake.

PRINCE GEORGE

Joseph Graham, the Liberal candidate for Cariboo riding, made a good impression when he appeared for the first time last week before a Prince George audience. A large and attentive gathering filled the Capitol Theatre to hear Mr. Graham who was assisted by H. G. Perry, M.L.A., and Hon. A. M. Manson. The meeting was presided over by Frank Clark, secretary of the local Liberal Association.

That the Fort Grahame galena-silver showing is the greatest one on the continent is the opinion of C. A. MacKay, representative of the Victoria syndicate which has secured a bond on the property, who returned to Prince George last week after having inspected the showing which he says is much bigger than was reported by the district engineer for the provincial department of mines.

Admitting that another effort was being made to put the pulp and paper plant project over here, F. I. Jones of Montreal and Angus McLean of Bathurst, New Brunswick, arrived in the city last week and went out to the Nechako River to examine the hydro-electric part of the undertaking. The party is accompanied by H. G. Gundy of the financial firm of Wood-Gundy & Co. of Toronto and C. R. Lindsay, a Montreal hydro-electric engineer. The party will also visit the pulp timber reserve along the Fraser River.

Hon. W. J. Bowser, K.C., former attorney general of the province, and T. S. Baxter, a former mayor of Vancouver, will address a meeting here on Wednesday in support of J. A. Fraser, the Conservative candidate in Cariboo riding.

The proposed visit of Right Rev. Wilmington-Ingram, Bishop of London, to Prince George has been cancelled as it has been found impossible for him to get here. His Lordship was to have consecrated the rebuilt church of St. John the Divine at Quessnel.

Mrs. P. J. Moran has returned to Prince George after an extended visit to the coast including Seattle, Tacoma, Victoria and other points.

As a result of a conference here last week between the Prince George city council and J. H. McMullin, superintendent of provincial police, the city detachment here will undertake the collection of the dog and poll tax and there is a possibility that the charge of \$1 per day for the keep of prisoners may be reduced.

BRIZZLY BEAR ATTACKS MOOSE

Terrific Struggle Took Place and Was Seen By Forest Ranger in North.

EDMONTON, Aug. 30.—Thought to have been driven desperate because it had been brought to the verge of starvation when a forest fire drove out all the game from the vicinity in which it had formerly ranged, a monster grizzly attacked a bull moose in an effort to get something to eat, according to a fire fighter from the Whitecourt district who has reached the city.

The rafter in question had camped by the banks of the Athabasca for the night, and his sleep was suddenly disturbed by the sound of terrific struggle among the timber. The ranger was unarmed, so he did not investigate, though for more than half an hour he could hear the crashing of timber and hoarse grunts and howls of pain and rage.

Going out in the morning to investigate, he discovered a great big moose lying in the middle of a patch of broken and twisted bushes and gashed up earth. Blood covered the ground in every direction. The moose had been disembowelled and its neck had also been broken by a swipe of the grizzly's mighty paw. Tufts of hair and a trail of blood showed the bear had not come out entirely scratchless, but his other duties prevented the ranger from following the trail of the wounded bear.

TOPLEY MINE VALUES BETTER

Price Asked For Newly Discovered Property Said To Be

Continued improvement of values marked the past two weeks of development on the Taylor mineral discovery at Topley, and the most encouraging feature is the high values being obtained in the cross-cut which has been in solid formation for about two weeks, says the Interior News. This tunnel was started to cross the vein, which is estimated to be between two and three hundred feet wide, and the men drove through the shattered rock for a distance of about forty feet. This broken rock carried strong values in gold and silver, but the opinion was expressed that values would end with the encountering of solid rock. The tunnel is now in about seventy feet and the values are still improving.

F. H. Taylor was in town last week to make arrangements for continuing the work and present plans are for shipment of forty tons of ore taken out in the development work in the tunnel. Mr. Taylor is confident the ore can be shipped without milling and show a good profit.

Ever since the property was located Taylor has consistently refused to talk deal, but it is understood that a price has been asked by a wealthy mining corporation and that the price has been set at \$200,000 with 10 per cent in cash following two weeks allowed for sampling. Pending the outcome of these negotiations, Taylor is going right ahead with his original plans in full confidence that he has the greatest mine in the country.

INDUSTRY IS FLOURISHING

That is Report of Bureau of Statistics and Proves King Polley Sound.

OTTAWA, Aug. 30.—That industry is flourishing is made clear by a report of the Bureau of Statistics here and proves that the Mackenzie King policy has been a sound one. Following is from the report:

"While every branch of industry in the Dominion shows a steady increase, without doubt the development of manufacturing affords the most striking example of the advancement of the Dominion. While it is true that Canada continues to export large quantities of raw materials, it is a notable fact that the increase in the quantities of raw materials used in the manufacturing industries in recent years has been much greater than the increase in the exports of these products. Many classes of goods which were formerly imported into Canada in large volume are now being manufactured in the Dominion in sufficient quantity not only to meet the requirements of the home market, but also for export."

HARVESTING IS WELL UNDER WAY

Delay Caused by Rain in Many Parts of Country But Cutting Well Advanced in Manitoba

Harvesting is again under way in the prairie provinces after being held up by wet weather and many districts anticipate a better yield than appeared probable a few weeks ago, says the Bank of Montreal crop report. Warm dry weather is now necessary. In Quebec cool weather during the week has retarded the ripening of grain and the growth of other crops. In Ontario harvesting has been delayed by rain and late oats have been damaged by rust in some sections, but root crops, with the exception of turnips, are doing well. In the Maritime Provinces crops generally have continued to make good progress though there has been another long dry spell. The weather has been excellent for hay and a fair yield of good quality is expected. In British Columbia heavy rains have been very beneficial to roots, pasturage and late variety of apples. Details follow:

Alberta
Western and Northeastern Areas.—Continuing general rains have caused no damage but have still further delayed harvesting. Warm, dry weather is required to hasten ripening in most parts. In the northeastern area very little cutting has been done. Southeastern Area.—Recent rains have improved feed situation. Threshing has started and yields generally are poor.

Saskatchewan
Northern Area.—Cutting is well under way again after recent rains. Many districts report the wheat yield as likely to be better than was anticipated three weeks ago. Coarse grain production will be below average.

Southern Area—Harvesting has been at a standstill for past week owing to rains but now general with about 40 per cent wheat cut. The wheat yield is poor in the southwest along the Alberta border, fair in Shaunavon area, with better than average crops expected in the balance of the south and southeast.

Manitoba
At least sixty per cent of the wheat has been cut. Threshing was commenced in places but was stopped by rain. Some districts report damage from sprouting and bleaching.

British Columbia
An average crop of grain is being threshed under favorable conditions. Potatoes are below average. Apples will be an average crop, the fruit is of good size and high quality. Peaches and plums are above average. Prunes are above average but may be reduced. Wealthy apples and Transcendent crabs are past the peak. Canteloupes are being shipped in car lots. A good crop of hops assured. Some damage has been done to tomatoes. Pasturage is improved.

Try Foothills Stove Coal, \$13.00 per ton. No soot.—Phillips, Evitt & Co. Ltd.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1925.

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,411,397; Lead, \$89,218,907; Copper, \$197,642,647; zinc, \$59,925,947; Miscellaneous Minerals, \$1,594,387; Coal and Coke, 273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its Mineral Production to the end of 1925 show an

Aggregate Value of \$920,919,628
Production for Year Ending Dec. 1925, \$61,492,242

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES

Victoria, British Columbia.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

THIS IS WEEK OF SMITHERS FAIR

Big Event of Bulkley Valley Praised to be the Best Yet in Interior History.

This is the week of the Smithers Fair, the big event of the year in the Bulkley Valley. Cheap fares are offered by the railway for the occasion, which affords an opportunity for the people of the coast district to see for themselves what the interior country affords. Those who have been to the Smithers Fair once will want to go again and those who have not yet been there yet have something worth while in store.

There will be two days of horse racing, field games and contests, with keen excitement and entertainment for all, and a great display of specimens of the interior products, both agricultural and mineral.

That, of course, is not all the attraction, for the Smithers people lay themselves out to entertain their visitors—and they know how. So if you want a really good time, buy a railway ticket and see the Bulkley Valley at its best.

EARLY WORK ON WIRELESS

Sir Oliver Lodge Says He Sent Messages 32 Years Ago at Oxford.

LONDON, Aug. 28.—Reminiscences of the beginnings of wireless are given by Sir Oliver Lodge in a special British Association number of "Discovery."

Thirty-two years ago, when the association last met in Oxford, Sir Oliver Lodge gave the first public demonstration of wireless telegraphy.

"Certainly the demonstration excited great interest," he writes, "and was made before a crowded audience in the large lecture theatre of the Oxford Museum. I emphasized the fundamental work of Clerk Maxwell and the brilliant experimental discoveries of the recently-deceased Heinrich Hertz, saying that the waves should be called Maxwellian waves."

Tube of Filings
For the wireless experiment, Sir Oliver used a tube of iron filings and a galvanometer as his receiving apparatus. He says: "Truly, it was a very infantile kind of radio-telegraphy; but we found that distance was comparatively immaterial, and at Liverpool, where I was then working, the dots and dashes were received with ease across the quadrangle, or from any reasonable distance. My often-quoted estimate of half-a-mile as a possible distance relates to the earlier and still more primitive experiments, when the waves were produced by sparking to a sphere only about six inches in diameter."

Sir Oliver recalls that the late Lord Rayleigh urged him to develop the new invention. "I did not follow his advice, being fully occupied in teaching and I had not the perceptive faculty shown about the same time by Sir William Crookes, who anticipated that such a method of tele-

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timberland, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 30 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 600 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers staked, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for the grazing of sheep and travellers, up to 100 head.

All Nerves!

All nerves! What a common expression! In this busy era with the problems of home management, club activities, and even political affairs crowding her day, how often the housewife complains of nervousness, headache, backache and general fatigue.

These symptoms of ill-feeling are often due to strained eye muscles and nerves which can be relieved by properly fitted glasses.

RATE QUOTED ON GRAIN CHARTER TO UNITED KINGDOM

Says the Vancouver Province: Definite rates to Prince Rupert for October-November loading of grain ships have been announced in the report of two recent charters, believed to have been made by the pool. These vessels are chartered for Vancouver loading, with Prince Rupert option. Vancouver is cheaper by nine pence.

Some time ago it was reported that the pool had chartered two British ships with the Prince Rupert option. It is thought these vessels are SS. Sithonia and SS. Callandia. The Sithonia was announced as Vancouver, 31s 3d. Now the Merchants Exchange reports SS. Callandia, British, 4,165, Vancouver to U. K.-Continent, October 15, November 15, option Prince Rupert, 32 shillings.

VANARSOL NATIVE GIRL IS MARRIED TO SIMPSON MAN

Miss Frances Wright Became Bride of Andrew Tait in United Church Yesterday

Before a gathering of relatives and friends of the contracting couple, the marriage took place in the First United Church yesterday afternoon at 4.30 o'clock. Rev. George G. Haeker officiating, daughter of Chief and Mrs. Walter Wright, of Vanarsdol, and Andrew Tait, son of Mr. and Mrs. Johnnie Tait of Port Simpson. The witnesses were William Jeffrey of Port Simpson and Mrs. George Oliver of Prince Rupert and Walter Wright, father of the bride and well known interior chief, was also present.

The couple left for the interior this morning to spend a honeymoon, after which they will return to Port Simpson where they will reside and where a wedding feast will be held about Christmas to celebrate the joining of the two tribes in marriage.

SEVEN WEEKS OF FASTING

Man in Edmonton Completes This Period, Taking Nothing But Water.

In Edmonton there is a man who on Saturday last completed a seven weeks' fast, says the Edmonton Bulletin. In all that period he taken nothing but water. The fast started on July 3 and terminated on August 22. During that time he lost over 40 pounds in weight.

The Bulletin has investigated the case. The fast was not begun with the idea of its lasting seven weeks, and neither was it undertaken in any spirit of performing a "stunt." When it started the idea was to have it last for ten days, or, at most, a fortnight.

It was undertaken for the twofold object of getting rid of cancer and asthma, and it has succeeded admirably in both cases as far as can be ascertained. Its authenticity is vouched for by the Bulletin.

Although the name and address of the man performing the fast is known to the Bulletin, and will be given to any reputable medical man requiring it who is interested, it is not being made public as the subject of the fast is not hunting notoriety. He is, however, a well known citizen, is thoroughly reliable, and owing to earlier medical training his observations and experiences are of more value than if the fast was performed by a layman.

EARTHQUAKE FELT IN STATE OF MAINE

PORTLAND, Aug. 30.—Although not so severe as the tremors experienced throughout New England last year, an earthquake of considerable intensity was felt in three counties of the state of Maine late Saturday.

FRANK ADAMS WINNER PACIFIC COAST ROWING

SAN DIEGO, Aug. 30.—Frank Adams of Vancouver Rowing Club won the senior single-championship yesterday in the Pacific Association of Amateur Oarsmen's regatta.

JUDGE WINN DIES AT LOS ANGELES

LOS ANGELES, Aug. 30.—Judge John I. Winn, 64 years of age, former head of the Alaska Bar Association and for 25 years judge at Juneau, died here Sunday of heart attack after a brief illness.

MURDER AND SUICIDE AT TORONTO TODAY

TORONTO, Aug. 30.—Edmo F. Aldo, 22 years of age, shot and killed Winifred C. Caldwell, 22 years of age, nurse at the sick in the children's hospital, in a room at his parent's home this morning and then committed suicide. The motive for the crime is not known.

FALL SCHEDULE OF STEAMERS

Week With Two Weekly Sailings

Effective next week the Canadian National Steamships will enter upon the fall schedule. The Prince George will arrive here from Vancouver, Powell River and Ocean Falls at 10.30 Wednesday mornings, will sail for Anyox at 10 o'clock that night and, returning here, will sail for the south at 11 p.m. Thursday. The Prince Rupert will arrive on Saturday mornings from the south and do the Stewart run, leaving here Sunday nights at 11 o'clock for the south. The Prince Charles will be continued on her present schedule until the middle of next month when she will drop the Stewart, Anyox and Ocean Falls calls and do the north end of the Islands sailing from here for the south on Wednesday afternoons at 4 o'clock until the first of October when the Prince Charles will go on the week-end run to Prince Rupert and Stewart temporarily relieving the Prince Rupert which will be withdrawn.

NEW METHODS OF SAVING LIFE ON AIRPLANE

NEW YORK, Aug. 30.—If René Fonck's trans-Atlantic aeroplane should be forced into the sea during its forthcoming New York to Paris flight, the crew will be able to keep dry outside and wet inside.

BINGAMON HAD 17 DEGREE LIST

Taken to Anchorage at Stephens Island and Will Come Here For Examination

Having developed a bad leak near Triple Island last night while being towed by the tug Lorne from Massett Inlet to Powell River, the log-carrying barge Binghamon, laden to capacity with logs, was taken to anchorage at Stephens Island where part of her deck load has been removed and where she was today reported to be on an even keel again after having experienced a list of 17 degrees.

The plight of the Binghamon having been reported to the local office of Hecate Straits Towing Co. last evening, arrangements were made to assist the vessel and the local gasoline tug W. R. Lord was sent out during the night to Stephens Island with pumping equipment, etc., to aid the barge. It is expected the Binghamon will be brought in here for examination and possible repairs.

TIMBER SALE X8109.

There will be offered for sale at Public Auction, on the 23rd day of August, 1936, in the office of the District Forester, Prince Rupert, B. C., the license X8109, to cut 2,365,000 feet of Spruce, Hemlock and Cedar, on an area situated on Logan Inlet, Queen Charlotte Islands.

CONFERENCE OF THIS EMPIRE

MANCHESTER, Aug. 30.—The Guardian says: The recent debate on Imperial affairs in the House of Commons yielded the suggestion from J. H. Thomas that future Imperial Conferences might come to more authoritative decisions if the opposition parties at home and in the Dominions were represented as well as the governments. But it is clear that without introducing a rather awkward principle and swelling the Conference to an uncomfortable size all shades of opinion will be fully represented in October by the delegates of the governments now in power. In Australia we find Mr. Bruce this week outlining his policy as one of close co-operation with Britain. In some quarters, he said significantly, the clamor for a reinterpretation of the status of the Dominions amounted to a demand for their recognition as separate international units; but Australia disagrees with that view. Canada, on the other hand, desires nothing so much as to be left as freely as possible to follow her own devices. Whatever government emerges at Ottawa after September's general election, it will have to take account of Canadian determination to assert the national status to the extreme limits possible within the framework of the Empire. The financiers was any worse than work of the Commonwealth and from General Hertzog and Mr. Havenga, who represent South Africa, a similar attitude is certain. Mr. Amery, like his predecessors, has asserted this country's willingness to accede to any measure for ensuring better communication on which the Dominion can agree. Big it seems improbable, in view of the divergencies of their outlook, that any common policy can be reached.

Your Eyes Hold No Secrets

from our methods of Examination for Defects

Application of scientific principles with the aid of instruments perfected for their use by men who have made a lifelong study of the needs of Optometry is what produces such perfect results for your eyes when you visit our optical parlor.

If in doubt concerning your glasses consult with our optician.

"MISS NOBODY"

Shimmering gowns, marble halls, satin walls. She left them for the open road. Groaning steel wheels whirling over steel rails at night, lashed to the brakebeams, a lurching coach for a restless woman, a magic carpet of adventure carrying her where?—what difference where?—just so long as it was away. Beautiful but broke, the Queen of the Hoboes. This gorgeous woman who had reigned over society had become a deity to the blanket-stiffs, the bozos, the rod-riders and grifters. "She" they called her. She thought she had fooled them in her man's clothes but there was one who knew she was a woman. Strong cast.

Anna Q. Nilsson, Walter Pidgeon, Mitchell Lewis, Clyde Cook, Anders Randolf, Louise Fazenda, Caroline Rankin and others.
