MINERS REFUSE ACCEPT PROPOSED TERMS GERMAN PROPOSALS TO RESTRICT USE OF DANGEROUS WEAPONS IN WAR

British Miners Refuse Accept Terms Proposed for Strike Settlement

LONDON, May 21.—The national conference of miners' delegates rejected the government's proposals for a settlement of the miners' strike yesterday. The resolution adopted stated: "We are unable to recommend that the miners accept Premier Baldwin's proposals for a reduction of wages which do not at the present time provide for a decent standard of living."

WELL KNOWN PERSONAGE

RAID GANG HAUNTS; NOT ALONE CHICAGO RENDEZVOUS for the gangs but also country towns of Cook county are being called in an endeavor by the police to stem the crime wave, the latest episode of which was the machine-gun murder of the "hanging prosecutor." Photo shows the scene outside a Cicero, Ill., hotel, where the round-up netted 15 gangsters and a quantity of ammunition.

GRAHAM FOR WASHINGTON

Possibility Yet That Chairman of Tariff Commission May Get Position

OTTAWA, May 21.—There is reason to believe that Right Hon. George P. Graham, chairman of the recently created Advisory Tariff Board, may yet accept the post of Canadian Minister to Washington.

Aimee McPherson is known to a great many people in Prince Rupert, some of whom have heard her preach. She is said to be a wonderful personality. Dr. Price, who caused a sensation at Vancouver and Victoria a few years ago with his faith healing meetings, was a pupil of hers, and a great many others have copied the methods of the Temple at Los Angeles.

OLD COIN WAS FOUND ON SITE OF H.B. FORT

Supposed to Have Been Secured from the Spanish by an Indian Who Took It to Kamloops

KAMLOOPS, May 21.—While digging a well on the north shore of the Thompson River opposite here, E. Emmerick found an excellently preserved Spanish coin dated 1450 A.D. at a depth of 17 feet. Dr. M. S. Wade, prominent British Columbia historian, expressed the opinion that the coin had been brought to the interior from the coast by an Indian. It was at a spot where once the Hudson's Bay fort stood.

AVIATOR WAS BILL McCLOY

Man Who Failed to Arrive at Ketchikan is Noted Rum Runner Three Times Arrested

SEATTLE, May 21.—Interest in the search for M. B. Favoy, the Seattle aviator who planned to fly direct to Ketchikan and who has not yet arrived there, increased today when federal officials learned that the man is known to them as Bill McCoy, three times arrested for smuggling liquor into the United States from Canada and now at liberty under bond following a plea of guilty here on May 3.

More Activity Than Ever Before Seen in West by Vice-President Hungerford, Canadian National

WINNIPEG, May 21.—"In all the years I have been travelling over the prairies I never saw so much activity on the land as I did on my way west this time," stated S. J. Hungerford, vice-president in charge of operation of the Canadian National Railways, who reached here this morning, after an extensive tour of inspection of the system's western lines.

Prospects throughout the entire territory are excellent, according to Mr. Hungerford, who states that business generally is bigger than since before the war and there is a disposition to

embark on new business ventures. Speaking of British Columbia, he said the indications were that there would be the largest fruit crop this season ever known there, also that a heavy volume of lumber business is being done via the Panama Canal to Europe and points on the eastern coast of North America.

C. P. Brown, chief engineer, and W. A. Kingsland, general manager of western lines, arrived with Mr. Hungerford who will remain in the city until Sunday, when he will leave for the east via Duluth and Chicago.

MANY HOMERS IN BASEBALL

Ruth Continues to Knock 'em Over the Fence and Other Sluggers Follow

Two Trips of Salmon Caught Hands at 130 and 30; Half-but 140 and 150

The fish sale on exchange today was small, there being only one American boat selling at 14.30c and 7c and two Canadians 14c and 15.20c, and 7c and 8c. Salmon sold at 13c for reds and 3c for whites. Arrivals were:

American

Chesapeake, 45,000, to Cold Storage.

Canadian

Mab, 18,000, to Allin Fisheries. Velma R., 2,550, to Allin Fisheries.

Salmon

Tekla, 1,500 reds and 300 whites, to Cold Storage. Hippo, 2,500 reds and 100 whites, to Allin Fisheries.

Africa Free as Great Britain Declares General Herzog, Head of Nationalist Party in Africa

Country Free to Secede if She Should be so Stupid as to do so, Declares Prime Minister of Union

CAPETOWN, May 21.—General Herzog, the Prime Minister, in a long statement on the international status of the Union in the House of Assembly, declared that he had always taken up the position that the Union had secured complete international status equal to that of any other dominion or any part of the British Empire.

"In that respect," he said, "I contend that we are as free and as independent as Great Britain herself. On that point there is no difference between us, but there is a difference between us as to what is meant by this free, complete, and independent status. My contention is and has always been that we are in a position of absolute equality even with Great Britain and even in regard to the question of secession, but we know that in practice we have a great deal to achieve and to acquire, and we know that General Smuts at all times has been busy trying to acquire these full rights and to exercise these full rights.

Would be Unwise

"We know," he continued, "there are some of these rights which we could and might exercise, whereas there are others—the right of secession, for instance—which it would be very unwise and ill-advised for us to exercise except by deviation through the agency and means of Great Britain herself."

General Herzog gave as an example the case of diplomatic representation. It would be foolish, he declared, for South Africa to appoint her own ambassadors, although, at the same time, it might be wise and politic where necessary to have her own ambassador or her own representative. He agreed that they should not try to undertake more than they could carry, but where today Great Britain carried many things on their behalf they should, where opportunity offered and their interests demanded it, be ready to take over their own duties and responsibilities. That was unquestionably, he declared, one of the first and weightiest problems to be dealt with by the Imperial Conference.

Perfectly Frank

"If we want to remain on a friendly footing" the Premier continued, "with each part of the British Empire, or whatever you call it, then it is essential that we should thoroughly and openly state what the position is. There is nothing to hide or to be afraid of, and that is where I differ from General Smuts. I say we are absolutely free and untrammeled, absolutely independent, just as free as Great Britain herself, and if we should be so stupid as to do so we are free to secede."

FERTILIZER PLANT BALTIMORE BURNED

BALTIMORE, May 21.—Fire-wrecked the fertilizer plant of Griffith and Boy and the Summers Company at Canton today. The loss is about half a million dollars.

ARMY OFFICER RELEASED

PEKIN, May 21.—Captain Thomas Betts of the United States army attached to the American legation here was released by bandits who made him captive in Urumi province on May 17.

Among the Terrace visitors to the city today is V. S. Moore, registered at the Prince Rupert hotel.

WAS HE BURIED AND YET ALIVE

Insurance Company Pays Amount of Policies on Supposed Death and Then Man Turns Up

SARNIA, May 21.—There is an interesting insurance case here in which after the burial of the husband, the wife collected the insurance money. Then, Enoch Arden-like, the husband again appeared and the company that paid over the money is taking steps to recover it.

Adelard Lebert is supposed to be resting in the Sarnia cemetery and his widow is now Mrs. Manley. Two policies of insurances were paid to her from the Mutual Benefit Life Insurance Company of Newark, New Jersey, who have recently learned that Lebert is alive and well and living at Stony Point, Ontario. They are preparing to sue the lady for the return of the money.

PETE LATZO IS FIGHT VICTOR

Beats Mickey Walker and Wins Welterweight Championship, Getting Unanimous Decision

SCRANTON, Pa., May 21.—Pete Latzo of Scranton, secured the world's welterweight championship last night when he won the judge's decision in a ten-round match with Mickey Walker, titleholder for the past four years.

Latzo received the unanimous decision of two judges after the battle which was bitterly fought all the way, the result of one of the most sensational upsets in ring history.

Walker had decisively beaten Latzo two years ago and was a two to one favorite when he entered the ring.

FISHERMAN CONVICTED

Leonard Tyree of Seattle Guilty of Manslaughter for Killing Partner

SEATTLE, May 21.—Leonard Tyree, a fisherman, was convicted of manslaughter by a jury here today in connection with the death of his partner, Thornewell Shellhorn, a former resident of Medicine Hat, aboard their gasboat "Ethel" on Lake Union here on February 8.

Tyree said he thought Shellhorn with a rifle threatened to abuse him and also threatened his life.

DAILY EDITION

Friday, May 21, 1926.

Time Prince Rupert Showed Her Teeth.

The Mayor of Vancouver is objecting to Prince Rupert getting some advantage from the leasing of the elevator and is protesting to Ottawa. He is the official head of the city and his action is bound to be taken as official.

Is it not about time Prince Rupert was having something to say! Vancouver lives off this little city. Almost all the business that is done here goes to Vancouver. Most of the money we earn goes there. Practically all the proceeds of the salmon fisheries goes there. Vancouver has preferential rates for almost everything because it is a big city, and then it tries to stifle all the small places.

Boycott On Goods Is Only Remedy.

The only way to bring Vancouver people to their senses is to place a boycott on Vancouver goods. Let us buy from Edmonton and Seattle if Vancouver cannot give us a square deal. Why this eternal nagging! Are we not always getting the worst end of it and then because we score once, the mayor of Vancouver has to make a public and formal protest against it.

It seems as if this would be a good chance for the Board of Trade to call a meeting and make a real protest. Also it might be wise to query the mayor if he is correctly reported so as to let him know we are on the job.

Once Prince Rupert used a trade boycott with good effect and it might easily be used again. We have to agree in regard to it and make it unanimous. Then it will be for the businessmen of Vancouver to call on their mayor and see that the smaller places get proper treatment.

Another Case Is Islands Service.

The service to the Queen Charlotte Islands is a case where Vancouver has scored very heavily. It seems to have been arranged by those in close touch with Vancouver needs. We get it in the neck every time and we take these things too quietly. The Board of Trade is to be congratulated on taking quick action in regard to the Islands service. The next thing is the protest of Mayor Taylor.

Value Of Rupert To Ketchikan.

The interests of Prince Rupert and Ketchikan ought to be closely allied. We ought to be able to make progress side by side without either trying to stick a knife into the other. Both places are at present fairly prosperous and there is no need to try to get ahead of the other except in fair and open rivalry which is just and lawful and honorable. The fishermen of Alaska find it a good thing to market their fish here but the businessmen try to keep them from coming here. As long as they use open and fair trade methods all is well, but when they try to place us at a disadvantage we naturally make a protest.

Just now we are under a disadvantage to the extent of two cents a pound duty and the Ketchikan interests would go further and shut the fishermen out altogether. Also there are some Canadians who would shut out the American boats. What we would like to see would be an open and fair market to all either at Ketchikan or Prince Rupert. Then the fishermen would get proper return for their efforts and nobody would be hurt.

Solidarity Of Government Forces.

The Dominion Government is showing considerable solidarity. As a matter of fact the government supporters are sticking together better than the opposition. There are forces at work trying to drive the Conservative leader from his position, although not with any great measure of success. Mr. Meighen will not be driven out. This inside rebellion is a weakening force, however, and does not make for good government. It dampens the enthusiasm of the opposition and encourages the non-Liberals to continue their support of the group in power.

Liberals naturally welcome anything which helps keep them together. We try to look at the matter from a public service point of view rather than from that of party. We believe that it is best for either group to be strong enough to control the House of Commons. We do not altogether like the present situation although we must admit that Prince Rupert could not have been better served than she has, even with a strong Liberal group in control. Happily, the interest of the prairie farmers and the western ports are similar in many respects.

LADY BYNG IS AFTER FLOWERS

Made Incursions Into the Wilds of Vancouver Island and Other Places on Visit

VICTORIA, May 21. — Lady Byng, who with the Governor-General has recently been visiting on Vancouver Island, has been taking advantage of various opportunities to search for new plants and has made quite a collection. The woods of Vancouver Island provided a number of specimens hitherto new to the distinguished English visitor. Telling of her rambles, Lady Byng says:

Tells About Rambles

Canadians, who are the kindest people in the world, and the most hospitable, realizing my craze, have wherever possible helped me to attain my dreams of grubbing in the wilds. Armed with spades, forks and other gardening impedimenta, off we go, my secretary, a luckless A.D.C., and I, into the woods across the prairies, to seek for treasures that will eventually be housed in wooden boxes filled with various kinds of soil, that form my "garden" in one of the baggage wagons, where they remain, either till they have dried down enough to send home, or till we reach Government House, where they are grown on. The windows of the observation car also play a useful part, and to the curiosity of station crowds are hung with muslin bags of ripening seeds, so that I sometimes wonder if the people who see these bags think them part of the gubernatorial laundry."

SPEAKERS AT ROTARY CLUB

At the Rotary Club luncheon yesterday Lyman Trumbull of the advisory committee of Rotary International was present and spoke briefly on the work in other places.

Walter Fisher, delegate to the district conference at Victoria, reviewed the work of that conference. He told the people there of the organization of the Boy's Band here and they were much pleased to hear of its success.

Thomas McClymont, past president, told of the progress during the past year, reviewing some of the activities of the club.

TOREADOR DANCE IS LATEST INVENTION

Said to be Already Popular in London and Paris and is Picnic After Charleston

A new dance, inspired from the movements of the toreador, has arrived.

It is already so popular in London as well as Paris, that it looks as though the fox trot may retire, disgruntled.

It is a new variation of the Paso Doble, slower in movement and easier to learn. It is claimed that anyone can dance it correctly after one lesson.

To demonstrate it the teacher holds a tablecloth in his hands as though it was the toreador's cloak. In any West End dancing academy, says The London Mirror, you may hear something like this coming from the teacher:

"I know it isn't frightfully complimentary to your partner, but please imagine you are confronted by an angry bull. The first movement is a kind of promenade two-step — that's the toreador entering the arena."

"Now a little delicate footwork from left to right, as though he was looking this way and that over his shoulder at the bull — and really that is all."

"It is one of the easiest and prettiest dances we have ever had," Mr. McKenzie, the dancing expert said. "People didn't like it before because it was a very quick-time dance, now it is much slower, graceful, and really fascinating. Besides, it is so easy — quite a picnic after the Charleston."

ADAPTATION.

Life is for most of us a continuous process of getting used to things we had not expected.

COLLEEN MOORE IN "IRENE" WONDERFUL IN LATEST FASHIONS

Dazzling Tableaux and Diversified Costumes in Picture Showing Tonight

Captivating Colleen Moore, who is the screen's grand exponent of the modern homespun heroine, blossoms forth as one of the most gorgeously attired beauties in the movies in her latest First National picture, "Irene," taken from the famous musical comedy and shown here tonight.

In this picture the gay little black-haired star sports a wardrobe that would make many princesses pale with envy, according to advance reports. Paris modistes who have gotten a sight of the costumes worn by Miss Moore in "Irene" are said to have conceded the fashion scepter to her.

All the magnificent gowns and frocks which adorn Miss Moore and a troupe of beautiful Hollywood mannequins, who appear in the climax of the picture, a fashion lawn fete screened in the natural colors, are all-American made. Cora Magieachy, who glorified the costumes of Flo Ziegfeld's "Follies," is responsible for the designing of the "Irene" gowns.

Dazzling Tableaux

Miss Moore appears in dazzling and dizzying diversified costumes against a series of tableaux representing the seasons and topped off with a farce. Twenty-four of the prettiest types of femininity Hollywood was able to supply were picked for this series of seasonal backgrounds, six appearing in each of the four transformations.

Incidental to these, as satellites around a sun, appeared groups and individuals ravishingly attired as the Pond Lillies, the Bandbox Girls and attendants, the Spirit of the Fashion, in glittering silver cloth and helmet, surmounted by a towering blood-red plume, with Blackamour attendants to manage the serpentine trail of the gown.

Beautiful Beyond Words

As to the star's costumes, they are reported to be beyond words. Her "motif" gown, quite in accordance with the entrancing score of the musical comedy on which the screen play is based, is an "Alice blue" gown — the first fine dress ever to gladden the heart of the heroine. It is fashioned of taffeta and soft silks, adorned with "rosebud" pockets, and buttons down the back.

At the whippet races, as shown in the picture, Colleen wears a severe black and white outfit — black satin and white velvet — and carries a parasol trimmed with black monkey fur.

THE MAN IN THE MOON says:

"I'll teach you to kiss my daughter," said Dad, but he was too late. Jack had already learned.

EVEN if the body is made of dirt, the mind should be clean.

THE BIBLE is the best selling book, but think how popular it would become if someone would only try to suppress it.

THE old folks are always talking about the decadence of the race and how different the young people are today, but how can they say anything. See what they came to.

WHEN giving a party the first thing to do is to borrow the neighbor's silverware.

AFTER a very long engagement most young couple decide it is hardly worth while to marry.

Advice to Speakers

MAKE it short
And keep it snappy
Then your audience
Will leave happy.

THORNTON BECOMING MUCH MORE CONFIDENT

(Edmonton Journal)

Sir Henry Thornton adopts a more confident tone every time he discusses the country's prospects and those of the enterprise of which he is the head. He told

For Combined Cleansing Power and Protection to Fabrics Choose Sunlight Soap

ALL over the world the Sunlight Soap trademark is known as an emblem of purity.

The \$5,000 Guarantee of Purity means that Sunlight Soap does better work as a cleanser and prolongs the life of fabrics.

When you remember that harsh, impure soaps ruin clothes and that Sunlight is all-pure soap, you will want to join the millions of users who choose Sunlight because it does its work quickly, thoroughly and, above all, safely.

"To me Sunlight Soap stands for beautifully laundered clothes, plus safety."

Victoria Day Celebration. See Miss Elizabeth McLeod dance Irish Jig in Exhibition Hall at 8:30.

W. O. Fulton left on the train last night for Terrace to spend the week end with his family at Lakeside.

Manager of Fair Board will be in his office in City Hall this afternoon from 4 to 5 and in the evening from 7 to 8 and tomorrow morning from 11 till 12 to receive entries for Foot and Bicycle races at Victoria Day celebration.

LLOYD GEORGE LAND SPEECH

**EST SOIL AND GOOD WORKMEN
HE SAYS BUT SYSTEM PREVENTS DEVELOPMENT**

LONDON, May 21.—Lloyd George addressed a crowded meeting in the Guildhouse, Eccleston Square, Westminster, on the subject of his land policy. Miss Maude Royden presided.

"The question of the land, he said, entered into all our social and economic problems. It concerned such questions as housing, the health of the people, employment, the security of our shores, it entered into the question of food, and even of trade and our financial balances. All these questions were involved in the problem of the land. Westminster, the richest city in the world, contained men so rich they would regard the Count of Monte Cristo as a sort of second-class millionaire who was trying to show off with an inadequate bank balance. (Laughter). Yet of the population of Westminster over 10 per cent were living in conditions which were officially recognised as overcrowded. The infantile mortality under those conditions was very high. This was not the fault of the council. They had either not got the land or the price was so prohibitive that it was quite impossible to build at a cost which would make it possible for any working family to pay a rent for a decent tenement. Westminster was not alone. In Birmingham, one of the greatest cities in the Empire, people lived in houses classified as unhealthy.

Another Side
We had the largest market in the world for food, and yet we only produced half of what we could produce if we used the soil

of this country. If the unemployed were engaged on the land there would be a ready market for their produce, the speaker said.

"We have capital with which to develop it," he added. "We have about the best soil in Europe, and as good workmen as in any land under the sun. All you want is a system which will enable you to develop the resources that Providence has placed at your disposal here. This is why I have always been interested in the land question, and why I am doing my best to call my countrymen's attention to it. And people are getting angry about it. They are getting fretful, some thoroughly disagreeable, and some very abusive.

What was wanted in dealing with the land was a little vision and foresight. Our present system was antiquated, and was not adapted to modern times. It was impossible to run a factory on the principles of the feudal system. Things were bad enough in the mines, but the worst thing was the remnant of the feudal system, which had been condemned by two or three commissions. Agriculture must be put upon a business footing.

EDUCATIONAL AND HISTORICAL TOUR

The Canadian National Railways will operate a forty-three day Personally Conducted Educational Tour to Europe this Summer, sailing via the S.S. "Athenia" from Montreal, July 9, direct to Glasgow. Proceeding from there, the party will visit different points of interest in Scotland, England, Holland, Belgium, Switzerland and France, also an opportunity to visit the Battlefields. Returning to England, will sail from Liverpool on S.S. "Aurania" August 13, for Montreal. Considering the number of points visited, the accommodation provided, and entertainment offered, this is one of the lowest priced Tours ever operated to Europe.

Full particulars, reservations, etc., from any Agent, C.N. Railways, or R. E. McNaughton, District Passenger Agent, Prince Rupert.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timbered, i.e., containing over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emptions must be occupied for five years and improvements made to a value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumps.

HOMESTEAD LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

MOOSE WINNERS FOOTBALL GAME

Cold Storage Had Best of Play in Second Half but Were Beaten by Rivals

MOOSE 4, COLD STORAGE 3

Last night's Stuart Benefit Shield football game between the Storage and Moose was rather spoiled by the inclement weather, quite a part of the game being played with rain falling heavily. Under the conditions good football could not be expected as the ball was exceptionally hard to control. The Storage had the advantage of the grade in the first half but the Moose were the first to secure a point, S. Currie converting a penalty kick. Hodgkinson added a second point shortly afterwards. Erskine got the only point for the Storage from a spot kick and the teams turned over with the score standing two to one in favor of the Moose.

The Storage had easily the best of exchanges in the second half and Macdonald put his side on even terms while a few minutes afterwards, the same player added number three for the Storage. After a spell of even play, Tinker, on a breakaway, put the teams even again and Russel, who had been extremely weak on the Moose right wing, took advantage of a defence mistake and gave his team the lead, which they held to the end. Although the Moose won by four goals to three, the Storage should, at least have secured a point, but if they are to achieve the results expected of them, a little more team spirit will have to be shown.

Team: Storage — Murray; Haig and Lambe; Harris, Kelsey and Doherty; Carlson, Macdonald, Erskine, Johnson and Norrington.

Moose — Gathorn; J. Currie and Mack; Mitchell, S. Currie and Skinner; Russell, White, Tinker, Hodgkinson and Black.

Referee—G. S. Russell; linesmen—H. Worsfold and A. Glaperton.

There was a good attendance of spectators.

KITKATLA CLUB IS COMING TONIGHT ON WAY TO PORT SIMPSON

Excelsior Football Team to Play at May 24 Celebration at Indian Village

The Excelsior Football Club of Kitkatla is expected to arrive here this evening on board the launch Dolphin and tomorrow morning will leave for Port Simpson to take part in the big May 24 celebration there. Hon. President John Nelson is already in the city and he is going over with them. The members of the club officials are Hon. Pres. John Nelson, first vice-president, James Lewis; second vice-president, Henry Brown; captain of football team, Kasper Gordon; assistant Captain Norman Lewis; Secretary, William Ridley.

The party will probably leave for home on Tuesday.

FOOTBALL LINEUP FOR JUNIORS TOMORROW

The lineup for the junior league game to be played at Acropolis Hall tomorrow afternoon follows:

Booth School — L. Pierce, J. Currie, F. Cameron, B. Thurber, T. Kelsey, R. Nelson, H. Crate, H. Dickens, F. Dingwall, T. Bussani and T. Shikatani. Spares, J. M. Clay and C. Wingham.

Borden Street School — T. Watte, A. Stigles, V. Watte, J. Rogers, K. Miwa, A. Macdonald, E. Smith (captain), R. Wicks, B. Hunt, J. Lee, F. Miller, Spares, N. Gurvich, G. Minns, E. Kane, W. Fisher and R. Allen.

Referee—George Cochrane.

SPORT CHAT

Comments on the big football match are coming through on the mail. Here is what the Manchester Guardian had to say of the cup finals:

Lancashire's footballers, whose struggle at Wembley made the excuse for the festival, played a game that has been highly and

BRINGING UP FATHER

deservedly praised. Cup Finals are not famous for quality of play, but the teams of Manchester City and Bolton Wanderers so far overcame the terrors of the big occasion as to give an exhibition of no little skill, and, above all, of brilliant sportsmanship.

The trophy went to Bolton, the heroes of the first Wembley final, but there was so little to choose between the merits of the sides—just the one decisive goal—that the Manchester men retired with little if any less honor than their victors. The Manchester team played with a great load of anxiety, for by one of the ironical freaks of this amazing football season, the club which, by the eliminating test of the knock-out competition, has proved itself the second best between the Channel and the Tweed did not know until the morrow whether a distinguished quest of the cup had not perhaps, caused them to suffer the ignominy of expulsion from the first class ranks. But Lancashire is a great football county; with so many warriors in the field occasional casualties are inevitable.

BANDIT KING IS AMBUSHED

Romanetti, the Picturesque Murderer of Corsica, Killed by Gendarmes

PARIS, May 21.—Romanetti, "The King of the Heather," Corsica's most popular bandit and national hero, has just died, riddled with the bullets of French gendarmes. Caught in an ambush, he had his horse shot under him and was picked off by marksmen hidden behind rocks. He died game, firing fawcette, though blind, with his revolver until his ammunition was exhausted. He disappears from the scene with the weight of 15 cruel murders at least on his soul, but amid the lamentations and the sincere grief of all true Corsicans.

Took to Hills

Romanetti took to the hills in 1910 after shooting in cold blood a neighbor with whom he was in dispute about a cow. Since then he has maintained an incessant and unequal war with the gendarmerie—unequal, that is, for the gendarmerie—for, as in the Ireland of the Playboy, the whole population in Corsica aids and abets a really romantic criminal. Certainly, Romanetti was romantic—a compound of Rob Roy, Dick Turpin, and no doubt also of Edmond About's *Roi des Montagnes*. He looked the part and photographed well, so that his picture-postcards must have brought in quite a

SLOAN REVIEWS MINING FIELD

Minister Tells of Some of Outstanding Developments of Last Year Based on Mining Report

EXPLORATION WORK

Many Properties Prepared For Shipment of Ore Although Not Yet Producers

VICTORIA, May 21.—The development of the mining industry of British Columbia in 1925 has been important, not only for a record production the value of which, \$61,492,212, was the largest on record, but also for the larger development exploration and prospecting that has been carried out," stated Hon. William Sloan, minister of mines and provincial secretary, in commenting on the results achieved by the industry during the past year, as set forth in the annual report of the department of mines, just issued.

"Production in any one year is largely the result of previous development, so that to have a healthy industry development and prospecting must keep pace with production. It may be conservatively said that in the year 1925 a greater amount of real development was done than in any previous year in the history of this province, and much of this development has been satisfactory in adding substantial new

MINERAL ACT.

Notice of Application for Certificate of Improvements.

Mineral Hill Group, consisting of Mineral Hill No. 1, Mineral Hill No. 2, Mineral Hill No. 3, and Summit Mineral claims, situated in the Skeena Mining Division of No. 1 District on the south-eastern part of the Mountan Climat Valley, Lawford holder, W. J. Johnson, Forest Miner's Certificate No. 92011, Charles E. Moore, Free Miner's certificate No. 21972.

SAFETY NOTICE Dated 1, Charles E. Moore, Free Miner's certificate No. 21972, agent for the owners, intend at the end of sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action under Section 81 of the Mineral Act must be taken before the issuance of such a certificate of improvements.

the summer by a Tacoma syndicate with satisfactory results. Thirty to forty properties in the Portland Canal division (part of District No. 1) have been more or less developed this year. It can only be expected that a relatively small percentage of this number will develop into profitable mines, but on the whole much progress has been made this year. In the Atlin division important work has been going on. The best known property there is the Engineer gold mine. This property made some production and it is expected that in the future it will be a considerable contributor to the gold output of the province.

Smithers Activity

In the northeastern district (No. 2) the most important event was the re-opening of the Henderson mine, at Smithers, by Duthie Mines Limited. This property is now shipping about three hundred tons a month of high-grade silver-lead ore. Several properties were re-opened in the Hazelton and Telkwa sections and small scale operations carried on, including the shipment of hand-sorted high-grade ore from several of them.

The operations of the Kafue Copper Development Company's gold dredge at Barkerville, in the Cariboo division, has been of unusual interest. The dredge is handling about 2,000 cubic yards a day at an operating cost of 10 cents a yard. The ground worked carries from 25 to 50 cents a yard and several year's supply has been proven.

Kamloops Mines

In the Central District (No. 3) the important developments of the year have been the re-opening of the Iron Mask mine, at Kamloops, where a development campaign is under way, including the sinking of a new shaft; the opening up of the Gypsum deposit at Falkland, on the new Kelowna-Kamloops branch of the Canadian National Railway by the B.C. Gypsum Company; the bonding of the Windpass property at Chu Chua by Eastern interests and the commencement of vigorous development by them; and a number of placer mining enterprises at different points throughout the district.

In the Southern District (No. 4) the re-opening of the Copper Mountain mine and mill in August, was of considerable importance. This, of course, is not new development, but is the result of development in the past years now expressed as production.

The old Beaverdell camp, which has been reviving steadily for the last three years, has been the centre of great activity. The revival of the camp started with the successful operation of the Bell mine by Duncan McIntosh; this was followed by the Sally, which was developed by a local Penticton syndicate. Many claims in the camp have now been bonded, bought or optioned and steady development is proceeding on many of them.

The ore reserves to the industry, the 30th day of April, 1926. A copy of this notice and an application pursuant thereto to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C., Other copies to be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after publication of this notice. The date of the first publication of this notice is May 12, 1926.

BRITISH COLUMBIA FISHING & PACKING CO., LTD., Applicant.

By H. Sherwood, Agent.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that British Columbia Fishing & Packing Co., Ltd., whose address is Vancouver, B.C., will apply for a license to take and use 1 cubic foot per second of water out of an unnamed stream, situated on the north-western side of South Bay, Skidegate, inlet, about four miles northerly from mouth of De Beaufort River. The water will be diverted from the stream at a point about 33 chains from the said river mouth, and will be used for domestic and cannery purposes upon the lands staked as lease and being the fore shore of Lot 144, Queen Charlotte Islands, the 30th day of April, 1926. A copy of this notice and an application pursuant thereto to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C., Other copies to be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after publication of this notice. The date of the first publication of this notice is May 12, 1926.

THE HORN SILVER mine near Similkameen is being operated by Vancouver interests and a small concentrator is being erected. A lot of work has been done this year in drilling, testing and working place deposits on the Similkameen and Tulameen rivers.

Sullivan Mine

The Eastern District (No. 5) comprises East and West Kootenay, and is the most important mining district of the province. It includes the famous Sullivan mine, at Kimberley, the Slocan district, and the large metallurgical plant of the Consolidated Mining and Smelting Company, at Trail. A vigorous policy of

expansion has been in progress by this company during recent years. The basis of this expansion is to be found in the enormous deposit of low-grade silver-lead-zinc ore at the Sullivan mine.

For years the efficient treatment of the complex ore was an unsolved problem and much research work in concentration of the ore and its metallurgical treatment were necessary before a solution was found.

This year the zinc plant at Trail was doubled giving it a capacity of 200 tons a day, and the lead plant increased to 350 tons a day.

Troll Refinery

The Copper Refinery at Trail is now in operation and with an assured supply of copper concentrates from Alixby a steady output of copper bars and rods will be made in the future. It manufactures for its own requirements sulphuric acid and hydrofluosilic acid from British Columbia raw materials. Besides

MOND ATTACKS LLOYD GEORGE

Says he Had to Drag Two Reluctant Leaders Almost by the Hair to Reconcile Them

LONDON, May 21.—Sir Alfred Mond, addressing a meeting under the auspices of the Durham County Unionist Association, of which he has been elected vice-president, made a spirited reply to Lloyd George's speech at Bridlington, when he referred to Sir Alfred's "conversion, the like of which has not been known since St. Paul saw the light."

Sandbagged Party

Sir Alfred said he did not want to say anything personal or unpleasant about Lloyd George, with whom he had worked for many years, and added, "I would say this: I remember the time when I had to drag together two reluctant leaders of the different Liberal wings almost by the hair of their heads in order to get them into my office to shake hands; and when I think of the endless week-ends I spent motorizing between Wharf and Churh to act as intermediary in those negotiations of reconciliation, it seems to me I am the last person who could now be accused of having dissociated myself of what is left of the Liberal party, or that I could be

accused of leaving the ship when it is still afloat, especially by the man who sandbagged that party in 1918 and has destroyed it in the Socialist land scheme now. Is he the one to throw stones at me? Gentlemen who live in glass houses ought to be very careful about brickbats."

"Jackanapes of Politics"

Sir Alfred proceeded to deal with the situation in the coal industry, and said that he had not changed his views with regard to the subsidy. He had never said, nor did he feel, that

the Government were unwise to endeavor to avoid a great national catastrophe. He had always thought, and still did, that the Socialistic land scheme now, if he was to buy more for their £23,000,000 in the way of a settlement, and he reminded them that it was Lloyd George himself who started the habit of paying subsidies in connection with coal strikes. "I would say this," added Sir Alfred: "It is disappointing, and I must confess I was disappointed, when I saw a man who was once the leading statesman in Europe, become a jackanapes of politics, and in a great moment of crisis, instead of bending his genius and intellect to endeavor to solve what is a national problem, go and make criticisms at a by-election for purely party votes and party gains."

ENGLISH BIRTHS STILL DECLINE

Last Year Was Lowest Ever Recorded, Except for War Years

LONDON, May 21.—Births in England and Wales last year were the lowest ever recorded, with the exception of those in the war years, 1917-19, and the deaths from cancer were the highest ever notified.

The birth rate for the year was 18.8 per 1,000 of the population. Since 1920 the rate has shown a continuous decrease, and last year's figure was 0.9 per 1,000 below that of the previous year.

These figures are taken from the Registrar-General's annual review, which also shows that the death rate, which reached its lowest point in 1923, rose last year by 0.6 per 1,000 to 12.2.

Death Rate Low

The increased death rate was due entirely to high mortality during the first quarter of the year, when the death rate was 16.6, against 13.2 in the corresponding period of 1923, the rate for the remainder of the year being low even the low record for the previous years.

Infant mortality also showed a slight increase over that in 1923, which was 69 per 1,000 births, and the lowest on record, the rate last year being 75.

Deaths from diphtheria and from all forms of tuberculosis were the lowest, and those from cancer and encephalitis lethargica (sleepy sickness) were the highest on record.

An Orthodox Beginning

She—I hear you are a great artist.

He—I hope to be. I have only just started.

She—What are you doing?

He—Well, I'm living in a studio and growing whiskers.

Colleen Moore in "Irene"

A captivating, scintillating festival of color and fashion. The screen's first style parade in natural colors. The same Irene who captured Broadway hearts for two years, all her wiles, all her guiles, all her smiles. Irene, who goes crashing in and out of jobs, setting fashions for the mob, dressed like a queen for the biggest comedy spree of her career. Sixty glorious, sun-kissed Hollywood beauties bring the sunshine and the gowns. Colleen's greatest achievement. Out of a shanty into a mansion—out of hens into your heart. Magnificent entertainment for those who wear gowns and for those who pay for them. Unrivalled cast.

Colleen Moore, Lloyd Hughes, George K. Arthur, Charles Murray, Lawrence Wheat, Eva Novak, Kate Price, Lydia Yeamans Titus and many others.

"Imaginary" Rheumatism Caused by Illfitting Shoes

MANY, many times physicians have diagnosed what appears to be rheumatism, as really being pains arising from the effects of Fallen Arches.

When the foot arches begin to break down, the pain is often ascribed to a sprain or rheumatism. Pain occurs along the inside of the foot, in the heel, also the calf of the leg, and is often located in the knee or hip joints.

This condition brings on general muscular weakness—the ligaments are strained, interfering with proper nourishment of the foot. The circulation becomes poor—attendant symptoms appear—numbness, cold, and at times, undue perspiration. To prevent and cure this condition the foot must be given support, combined with the utmost freedom of movement.

Arch Defender Shoes give support to the scaphoid bone where needed, while allowing full flexibility and freedom to the muscular structure of the foot.

If you value your health—join the thousands who have banished foot trouble. Get a pair today.
