BRITISH GOVERNMENT IS WELL SUSTAINED

DOLLY VARDEN MINE AT ALICE ARM IS TO BE THOROUGHLY TESTED SOON

Baldwin Government of Britain Shows Strength

Secures majority of 189 over combined opposition approving Geneva policy under Sir Austen Chamberlain

LONDON, March 24.—Aided by strong support Premier Baldwin and Sir Austen Chamberlain came victoriously out of a strong attack on his Geneva policy led by former Premier Lloyd George. Chamberlain was sustained by a majority of 189.

In order to inaugurate a debate on the recent League of Nations proceedings at Geneva and Sir Austen Chamberlain's part therein, Lloyd George moved a reduction in foreign office estimates, a motion which was equivalent to a vote of censure on the government. At the end of a lengthy debate the motion was defeated by a vote of 325 to 136.

SENTENCED TO HANG IN JULY

Benito Pasquale Convicted by Jury Last Evening After 15 Minutes Deliberation

VANCOUVER, March 24.—Benito Pasquale, 50 years of age, a Porto Rican, last evening was found guilty of the murder of Nurse Anne Roedde in the Vancouver General Hospital on December 2. The assize court jury brought in the verdict after fifteen minutes deliberation and sentence was passed by Mr. Justice Murphy that Pasquale should be hanged on July 14.

A slight twitching of the face as the fateful words were uttered was the only emotion displayed by the prisoner, who immediately was taken to Okalla jail to await execution.

The defense plea was that the man was insane and was therefore unaccountable for his actions.

DAWSON TRIAL MURDER CHARGE

Harry Davis Sent up to Assizes Following Finding Body in His Cabin

DAWSON, March 24.—Harry Davis, whom it is alleged killed Charles H. Smith, a wood chopper on February 12, has been sent up for trial at the next sitting of the assize court here.

The body of Smith was found in the Davis cabin at Selkirk. Medical testimony indicated that death was caused by a bullet wound in the upper part of the body. Wounds in the head would also cause death but not immediately. The Royal Canadian Mounted Police discovered the body in a cellar in the Davis cabin.

U.S. CITIZEN IS STONED MEXICO

Government Asked to Apprehend Guilty Persons Following Brutal Crime

MEXICO CITY, March 24.—Joe Ball, a United States citizen employed by the Mexican National Railways, was "brutally stoned to death," the American embassy was notified today from Mazatlan. The Mexican government has been requested to apprehend the guilty persons.

HALIBUT PRICES WELL SUSTAINED

Several Large American Schooners Arrived Here With Catches This Morning

This morning saw the return to this port of six of the large American halibut schooners with catches that were sold over the fish exchange. Bad weather has been interfering with fishing during the past two weeks and, for this reason, some of the fares this morning were not as large as usual. The weather is now improving and a considerable amount of halibut is expected to arrive here during the next few days. There were 155,000 lbs. of fish sold by the American boats and prices were high and well sustained, averaging around 49c and 9c. The single small Canadian boat which landed 4,500 pounds was paid 17.6c and 7c.

Arrivals of the day were as follows:

American
Kanaga, 26,000 lbs., to the Albin Fisheries.

Scandinia, 32,000 lbs., and Panama, 15,000 lbs., to the Booth Fisheries.

Yakutaf, 32,000 lbs., and Trinity, 16,000 lbs., to the Canadian Fish & Cold Storage Co.

Chelsea, 24,000 lbs., to the Pacific Fisheries.

Canadian
White Lily, 1,500 lbs., to the Royal Fish Co.

Salmon
Narbetong, 1,270 reds and 460 whites, at 20c and 3c, to the Canadian Fish & Cold Storage Co.

TO DISCUSS LOCARNO PACT AFTER EASTER

Premier Mackenzie King Announces That Opportunity Will be Offered to Members

KING OF CLUBS WINS LINCOLN

Zionist Came Second and Vessington Star Third in Annual Classic

STEEPLECHASE FRIDAY

LINCOLN, March 24.—The flat racing season in England opened today with King of Clubs winner of the Lincolnshire Handicap. The second horse was Zionist and the third Vessington Star. The total number of starters was 26. This is the 73rd season for the running of this great sportsman's classic.

The Grand National steeple-chase will run Friday. Among well known horses taking part will be Old Tay Bridge and Silvo. Each of these horses has taken part in past events on the same course and has made a good showing.

FIRE DESTROYED A HOTEL MOUNT VERNON

MOUNT VERNON, Wn., March 24.—Fire, which destroyed the Windsor Hotel here today, is estimated to have caused a loss of \$150,000. It was fought for hours with the aid of equipment rushed from surrounding communities before it was subdued.

SPANISH PUGILIST BEAT ENGLISHMAN

PARIS, March 24.—Paulino Uzcudun, the Spanish heavyweight pugilist, knocked out Harry Drake of England last night after only one minute and 25 seconds of fighting.

MAY MOVE TO AMERICA.—George II, former king of Greece, and his wife, who are said to be contemplating building a home and settling down in Florida far from the hazards of Balkan politics. Prince Paul, the ex-king's brother, now in Chicago, is authority for the information.

ROAD WORK TO RESUME

Provincial Government Calling for Tenders on Kain Island Highway

Work on the Kain Island highway between the city limits and Galloway Rapids will be resumed by the provincial government within the next month. The department of public works is about to call for tenders for the completion of clearing and grubbing and for further construction from the city end. There is also some further surveying to be done.

UNEMPLOYED STILL HERE

Slight Improvement in Situation is Reported—No General Opening Up Yet

There are now about 50 or 60 men registered at the government labor bureau as being unemployed. Owing to the preparations for the canning season and some resumption in the timbering industry, there has been some improvement in the employment situation recently although as yet there has been no general reopening up of industries.

There is a steady movement of men to the city seeking work, especially from up country districts. They are a good type of men and the most of them are seeking work in mining or logging.

MANY LIVES LOST AT SEA

Brazilian Steamer Burns and 104 Persons Were Victims of Fire

LONDON, March 24.—A despatch to Lloyd's from Manaus, Brazil, reports 104 lives lost in the destruction of the Brazilian steamer Paes Drearyanso by fire at sea. The steamer carried a full cargo included in which was a quantity of inflammable goods.

Accounts up to March 19 totaling \$15,501 were passed for payment by the city council last night.

Victor Spencer and Associates Will Diamond Drill and Tunnel at Dolly Varden Mine Property

An energetic campaign of development work in the way of diamond drilling and tunnelling will be started in May on the Dolly Varden mine by Col. Victor Spencer and associates and, if the result of that work is satisfactory, a mill will be installed and the property put on a producing basis again stated E. A. Hagen, president of Mining & Engineering Record of Vancouver and well known consulting engineer, who was a visitor in the city yesterday afternoon following a week's visit to Alice Arm.

Col. Spencer and his associates who were formerly interested in the Dolly Varden, have again acquired the property under lease and it is their intention to prove once and for all if further development of the famous mine is warranted. Last year, on their behalf, the property was examined and it was recommended by J. F. Tenner, a consulting engineer, and it is understood work now to be undertaken is a result of his recommendations.

Mr. Hagen states that the Dolly Varden railway is now being put in shape by the government for use as a thoroughfare to the Kitsault River mining district.

It is Mr. Hagen's belief that the railway will not again be operated by any one single mining company but that it will fall into the hands of the government to maintain as a public highway.

Besides Alice Arm, Mr. Hagen

also visited the Portland Canal

district and he is of the opinion

that both regions are due for an

era of important mineral develop-

ment this season.

Stewart Developments

At Stewart, Mr. Hagen found

the Big Missouri mine to be

looking exceedingly well. There

is enough ore already blocked out

to repay its owners their invest-

ment of \$250,000 and there is

a huge body in sight. Dan Mc-

Viehle, consulting engineer from

Salt Lake City, is at present on

the property laying out plans for

its future operation particularly

with a view to settling questions

regarding ore treatment and

transportation. The establish-

ment of a one stack lead smelter

on the property it is expect-

ed will be his recommendation

P. E. Peterson is general super-

intendent at the Big Missouri

and Angus McLeod is foreman.

The latter will leave there, how-

ever, in May to take charge of

work on the Marmot Metals.

Last Tuesday, Mr. Hagen re-

ports, the new 200 ton unit,

doubling the concentrator capac-

ity there was put in operation.

The B.C. Silver and Dunwell

mines are steadily shipping ore,

W. J. Crawford having the trans-

portation contract for the for-

mer property, and Fred Young

for the latter.

Mr. Hagen will leave Vancouver

next week for Geneva, Switzer-

land, where he has been called

to attend a financial and invest-

ment conference. He will be

away from British Columbia for

about two months.

CHILDREN AND MAID BURNED

Three Lost Lives by Fire While Mother Was Away From the Home

SMITH, Alb., March 24.—Nellie Cory, a maid, and Richard and Farrall, the two young children of Mrs. Albert Vincent, were burned to death when the home was destroyed along with a country store in the absence of the mother with four other children. The maid evidently lost her life when trying to rescue the children.

KILLED SELF WITH SHOTGUN

Body of Joe Daly, Alaskan Sour-dough, Found Near La-touche

SEWARD, March 24.—Joe Daly, a sour-dough, is reported to have shot himself to death 37 miles from Latouche a month ago. A small boat of his was found washed ashore and Daly's body was found in a rough shelter nearby, where indications were that he had killed himself with a shotgun.

ELECTION CASES ARE PROCEEDING EDMONTON

EDMONTON, March 24.—The trial is proceeding here of four men, Jener, Robertson, Harris and Bellows, for contravention of the Elections Act in Athabasca. Something like thirty witnesses are here and a number have already been heard before Mr. Justice Ives in the criminal court.

The bylaw providing for the temporary borrowing by the city from the bank of \$125,000 was given its final readings at last night's council meeting.

DAILY EDITION

Wednesday, March 24, 1926.

Canada At War If If Britain Is At War.

The evolution of the British Commonwealth is a most interesting study. It has been brought about by a series of gradual changes and has led the way for democracies throughout the world. Each section of the Commonwealth that is ready for democratic self-government is given it and step by step more power has passed into the hands of the Dominions.

Only a few years ago the dominions were known as colonies. Today they are looked on as nations but with a difference. They are all parts of the British Empire.

Had the British Empire been humbled in the war against Germany and Austria and Turkey and the smaller nations arrayed against her, the Dominions would have had to bear the burden of defeat along with the mother land, even if they had not actively been engaged in the war. They might even have been confiscated as were the German colonies by the allies. If Germany had been victorious it is doubtful if Canada would today have been British. She would either have been a German dependency or would have been forced in self-defence to throw in her lot with the United States. Independence would have been impossible.

It is safe to say, then, that if the Empire is at war, Canada is at war, for, even if she does not fight she is liable to seizure by the enemy and to have to help pay the penalty in case of defeat.

Taking Part In Foreign Policy.

Already Canada is taking part in formulating the policy of the British Empire. She is consulted by the foreign office in all big questions in which she is particularly concerned. Her opinion is asked and given and in that way, while not represented in the British cabinet or war council, she is represented in fact.

Very soon another Imperial conference is to be held at which Canada will be represented. Matters of foreign policy and of the status of the Dominions and of such countries as India may be discussed and in that way Canada be party to the general policy of the Empire. Step by step she is winning greater recognition and as her population increases so will her influence increase.

Unfortunate Name For The Empire.

The word "Empire" is rather an unfortunate one as smacking somewhat of imperialism. "Commonwealth" is a much better word but it is difficult to change. Australia called her nation a commonwealth instead of a dominion, at the time when her constitution was revised. But Canada has no particular wish to make such a change. Yet as long as we speak of the Empire we imply rule by an Emperor and all the evils of imperialism are flashed before our minds. There is no such thing in connection with Canada, however. We are self-governing to the fullest possible extent and in every sense of the word a commonwealth. In some respects we are a nation but not independent in that if the British Empire is beaten in war, we, too, are beaten and must help pay the penalty or fight without anything to fight with. We have no navy.

Only Alternative Is Union With States.

In these days of big amalgamations Canada standing alone would be helpless. The only alternative to the British Empire would be amalgamation with the United States. While a union of Canada and the United States would be geographically the natural thing, tendency in that direction is not very strong. Some of the younger element, especially in the west, would favor such a move but as a general rule Canada is British and would not like to sink her individuality in the big country to the south.

Gradually the United States and Great Britain are drawing closer and the time may come when some closer union may be desirable. So Canada and the United States are very closely allied in everything that makes for union. The chief forces that keep them apart are customs tariffs.

You don't have to cook SHREDDED WHEAT

Saves coal, saves time, saves health

CHECK IS SENT TO GYRO CLUB

Players Club Winds up Wedding
Bells Affairs and Plans
Series of Meetings

At an executive meeting of the Prince Rupert Players' Club held last night, president Common in the chair, the secretary was instructed to forward to the Gyro Club a check for the sum of \$144.50, the proceeds of the recent performance of "Wedding Bells" in the Westholme Theatre. The first \$100 after paying expenses was retained by the club for the furtherance of its objects in cultivating his tronic taste in the city.

It was decided to hold a series of meetings of members of the club, the first to take the form of a club social about the middle of April for the purpose of getting in touch with prospective amateur actors who would be interested in the work of the organization.

RUPERT EAST LADIES' AID ELECTS OFFICERS

Mrs. W. Robinson Heads Organization—Women's Athletic Club to be Organized

At the annual meeting of the Rupert East United Church Ladies' Aid held yesterday afternoon the following officers were elected for the year:

President, Mrs. W. Robinson.

Vice-president, Mrs. Frank Vickers.

Secretary, Mrs. R. G. MacAuley.

Treasurer, Mrs. Squires. Press representative, Mrs. Ross Mackay.

Flowers and Visiting Committee, Mrs. Robert Wilson.

The Ladies are arranging for an Easter tea and sale of home cooking and candy for Thursday, April 8.

A committee composed of Mrs. Malcolm Lamb, Mrs. Squires and Mrs. Frank Vickers was appointed to make arrangements to start a Women's Athletic Club with the intention among other things of playing badminton.

PHINNEY ELECTS FOR JURY TRIAL

Makes Third Criminal Case to be Heard at Forthcoming Session of Assizes

The third criminal case for the next session of the Supreme Court Assizes to be held in this city developed this morning when Edgar Phinney, Loekeport logger, appeared before Judge Young in the County Court and elected for jury trial on a charge of wounding Albert Sandstrom, another logger. Milton Gonzales appeared on behalf of Phinney.

The two other cases already set down for hearing at the Assizes are murder trials. Three half breeds are charged with the murder of Matthew McLean, a Hazelton Indian, over a year ago and two Stewart women are charged with the killing of James Donald during the winter in a road house at the mining town. All of the prisoners with the exception of one of the women, who is out on bail, are at present incarcerated at Okalla Prison.

Ten Years Ago in Prince Rupert

March 24, 1916.

With a turnover in provincial political affairs expected this year, speculation as to who will comprise the new cabinet under H. C. Brewster is rife and it is said that T. D. Pattullo of this city is slated either for the portfolio of public works or lands.

Capt. E. Westerlund and Capt. Henry Prevost, the latter of Metlakatla, were successful in obtaining navigators' papers at the examinations held yesterday by Capt. A. M. Davies, examiner of masters and mates.

Percy R. Jardine, aged 62, and native of New Brunswick, one of Prince Rupert's real old timers, passed away yesterday afternoon at the Prince Rupert General Hospital.

She Coughed Night and Day Until She Used

Dr. Wood's
Norway
Pine
Syrup

Mrs. S. E. Little, 103 Inkerman St., London, Ont., writes: "I got a very severe cold which settled in my bronchial tubes."

I coughed night and day, and although I tried several different remedies I could get no relief until a friend advised me to take Dr. Wood's Norway Pine Syrup. This I did, and I must say that it gave me almost immediate relief as I got rid of my cough very quickly. I hope this testimonial will be the means of helping others."

"Dr. Wood's" is put up only by The T. Milburn Co., Limited, Toronto, Ont.

THE MAN IN THE MOON

says:

A CALIFORNIAN lost his home the other day. His car burned.

UNEASY lies the head that is attached by a neck to a second rate or overworked stomach.

I WAS resting one night on my mattress.

All a weary and ill at ease.

And thinking of all the worries From which I would get sure release.

I longed for a night of slumber.

That I might forget my woes,

But that stomach kept on a rumbling.

That stomach, the worst of my foes.

It was common in the days before the Civil War to have large stoves at the bottom of the slopes for the comfort of the men. The "bottom man" at old No. 4 slope when the fire started was one Daniel Boyle.

Among other things it was his duty to attend to the stove. One morning he was a little late in arriving and hurrying to get the stove burning gave it a severe raking, shaking down red hot coals with the ashes.

Ashes Into Car

An empty car was standing near and he shovelled the ashes and hot coals into it.

The car in those days were built entirely of wood, sheet iron bottoms not as yet being used.

By the time he finished, one of the drivers hitched his mule to the car and hauled it to one of the unused gangways.

He had been ordered to place a car there by the foreman the previous day in accordance with the foreman's intention to place several men in that section to do some repair work.

The foreman, however, changed his mind, and the car, as well as the repairing, was forgotten for a couple of weeks.

When they started to do it they found the fire well underway, the hot coals, mixed with the ashes, having ignited the wooden car and the fire having spread to the timbers.

As it was, the fire was of little use in combating it.

Water Useless

There was little, if any, experience then in fighting mine fires.

The only method employed was to flood the place.

This was done but on pumping out the water it was found that the fire had gained considerable headway and showed plainly that water was of little use in combating it.

There was such an abundance of coal, the vein here being fifty feet thick, and many of the workings being under-developed, it was felt the fire would burn itself out in time.

It was decided to abandon the old slope and

make a new slope (No. 2) farther west.

With the development of the new slope passed the glory of Summit Hill as a mining town.

Got Past Cut

In fighting the fire in the early

Sixties, an open cut was made

which seemed to isolate it for

many years. Eventually the fire

travelled past this cut into the

coal areas beyond.

The next method used was

sinking six-inch diameter bore

holes, spaced twenty-five feet in

each direction, across the basin

west of the fire to establish a

barrier 250 feet wide and extending

from the outerop on the

north to a point where a water

seal on the south would prevent

the spread of the fire.

Fine silt or coal dirt mixed with water

was run into the bore holes to

fill the crevices and openings in

the coal seam and the rock overlying it, thus creating a barrier

which, it was believed, would

MINE BURNING FOR 67 YEARS

Ignited in Workings in 1859
From Live Coals Shovelled

EFFORTS TO EXTINGUISH

Probably Now Under Control But
Heat and Vapor on Surface
Indicate Burning Yet

SUMMIT HILL, Pa., March 24.—Anthracite strikes may come and go but, like Tennyson's brook, the Summit Hill mine fire apparently goes on forever.

It has been burning for sixty-seven years, ever since February, 1859, and is the most destructive, expensive and famous mine fire in the history of mining in the United States.

The area involved is about one mile long and 1,500 feet wide. More than \$3,000,000 have been expended in fighting the fire. The tonnage of coal consumed by this "king" of mine fires can only be guessed, but estimates run as high as 14,000,000.

Summit Hill lies in the Panther Creek Valley in what is known as the Schuylkill or Lower coal field of the anthracite regions.

Its Beginning

In the years since the fire first was discovered, many stories have been told of its origin. But the true story, vouchsafed for by the company, is that it was started through hot coal being mixed with ashes, the cause of many a fire in the homes of coal consumers.

It was common in the days before the Civil War to have large stoves at the bottom of the slopes for the comfort of the men. The "bottom man" at old No. 4 slope when the fire started was one Daniel Boyle.

Among other things it was his duty to attend to the stove. One morning he was a little late in arriving and hurrying to get the stove burning gave it a severe raking, shaking down red hot coals with the ashes.

Lloyd Wilson sailed on the Princess Mary last evening for Seattle.

Moose Whist Drive and Dance, Wednesday, March 24 at 8.30 prompt in Metropole Hall. 79

Harry Platts, formerly a resident of the city, has been deported from Ketchikan to England after having been found guilty of a contravention of the United States narcotic laws.

Miss E. Weller and Miss M. Taylor, who have resigned from the graduate nursing staff of the Prince Rupert General Hospital, will sail on the Prince George Friday morning for Vancouver.

A deal was closed through the office of M. M. Stephens & Co. Ltd. yesterday afternoon whereby Mrs. Frank Fitch becomes the owner of A. C. Little's residence on Second Avenue near Eleventh Street.

Billie Brown and Myrtle McDonald of Gomox Avenue appeared in the city police court this morning on charges of being inmates of a disorderly house and, pleading guilty, were each fined \$25 and costs. Information was laid against the women on account of disorderly conduct.

The American government auxiliary schooner Boxer, having undergone repairs in the local dry dock after which she reloaded railway ties which were lightered from her when she went ashore on Whitecliffe Island a couple of weeks ago, sailed from here at 9.05 last night resuming her voyage to Seward.

Permission was granted last night by the city council to Adair Cars Chapter, I.O.D.E., to hold a tag day on April 24, Ypres Day. The proceeds will go, as usual, to the chapter's fund for the upkeep of the soldiers' plots in Fairview Cemetery. In making the request, Mrs. J. A. Teng, secretary of the chapter, pointed out that during the past year four headstones had been purchased in addition to which regular upkeep had been attended to.

Motorship Bellingham, Capt. Anderson, arrived at 11 o'clock this morning from Ketchikan with 99 boxes of frozen halibut which is being unloaded over the wharf of the Atlin Fisheries.

C.N.R. steamer Prince George, Capt. Harry Nedden, will arrive from the south at 4 o'clock this afternoon. The vessel has again been delayed on account of heavy freights for intermediate ports.

On recommendation of the finance committee, the contract for the printing of the auditor's report for the year 1925 was let to McRae Bros., whose tender of \$280.85 was the lowest, by the city council last night.

There were six fire calls during the month of February and the expenses of the fire department for that period were \$1997 according to the report of D. H. McDonald, fire chief, which was presented to the city council last night.

The only tender for printing the telephone directory on the basis of advertising privileges in the book was received last night by the city from Rose, Cowan & Latta who undertook to print the book free of charge to the city and make deliveries twice a year under the supervision of the superintendent of utilities. The offer was accepted.

J. W. Rundle and H. F. Bickford, young businessmen of The Pas, Manitoba, are visitors in the city in the course of a holiday trip to the Pacific Coast.

They arrived from the East on this morning's train and will proceed south aboard the Prince Rupert Friday morning to visit Vancouver and Seattle. Mr. Rundle was time-keeper of the big dog derby at The Pas this winter.

OUTDOOR RECREATION PART BASEBALL SCHEME OF TRAINING PLAYERS

LOS ANGELES, March 23.—Major league teams training in California, the Chicago Cubs at Catalina and the Pittsburgh Pirates at Paso Robles, are breaking stiff exhibition schedules with Pacific coast teams with varied forms of outdoor recreation.

Gold, surf bathing, mountain hiking and diverse sports are helping to put the ball players in trim and to keep them from becoming stale as might result from a too steady diet of ball playing.

The schedule of the Cubs is characteristic. Opening against Los Angeles March 5 they had a schedule that called for sixteen games in March and three games in April, when they leave for a series of five games with Kansas City. Then they hop to Cincinnati, against which they start play April 13.

Meanwhile, San Francisco, Hollywood (formerly Salt Lake) and the Mission Bears (San Francisco's second team in the coast league), are benefitting from their practice games with the major teams.

HEALTH DEPARTMENT ALBERTA IS COSTLY

Expenditures in That Department Advance 268 Per Cent Since 1920

EDMONTON, March 24.—Administration of the health department under Hon. George Headley cost the province \$990,190.88 in 1925, an increase since 1920 of more than 268 per cent, the government informed the House on Tuesday following questions by Donald Cameron, U.F.A. member for Innisfail.

This expenditure in one department alone has been borne by a population of a little over 600,000 people. It is in excess of \$1.50 per head of the population of Alberta.

The figures given by Hon. Mr. Headley for expenditures in his department since taking over its administration are as follows:

1920	\$373,744.24
1921	\$583,943.44
1922	\$832,509.72
1923	\$863,092.15
1924	\$869,187.34
1925	\$990,190.88

URGES RETURN TO SANER LIVING IS IRISHMAN'S ADVICE

BELFAST, March 24.—Tea drinking is ruining people and silk stockings are to blame for some present-day illnesses, Dr. Dennis O'Hagan, surgeon of Louth County Infirmary told a committee called together to discuss the treatment of tuberculosis.

"What is required," he said, "is a health campaign to get people to feed themselves properly. I advise people to drink less tea and to get back to the days of 'stirabout' and 'butter-milk.' There would be less tuberculosis if people took this advice."

Stirabout is a porridge of oatmeal or corn meal boiled in water and stirred.

A mild form of influenza seems to be prevalent in the city at the present time. No serious cases are reported although many people are compelled to remain in their homes for a few days.

CITY OF PRINCE RUPERT

Take Notice that Fourth Ave. East from Green Street to Fifth Avenue will be closed on Monday, March 29, until May 15. Residents are requested to get in their supply of coal, etc. before that date.

CITY FINANCES ARE DISCUSSED

Drastic Pruning of Estimates Forecasted at Council Meeting Last Night

Unless some drastic pruning of the estimates is effected, the city will be confronted this year with a mill rate of 57 or 60 if was announced to the city council last night by Ald. Casey, chairman of the finance committee. He moved that a special meeting of the city council be called for next Monday evening to go into the matter of finances with a view to making any reductions in the estimates that may be deemed possible. The motion was seconded by Ald. Jos. Green and carried.

The matter of the year's finances came up in connection with a report from the utilities committee recommending that the water bylaw be amended so the minimum rate for large industrial consumers be extended to 5¢ per hundred cubic feet in order to meet a protest that had been made by the Canadian Fish & Gold Storage Co. It was again referred to in connection with a report from the utilities committee recommending that J. J. Little be permanently appointed superintendent of utilities at a salary of \$250 per month. Apart from the general principle of avoiding salary raises where possible in order to conserve the city's finances, Ald. Casey questioned whether Mr. Little, after only a brief period of probation, was entitled to the permanent appointment. Ald. Stephens agreed with this view. Mayor Newton and Ald. Brown explained that the utilities committee had deemed Mr. Little was entitled to the permanent appointment for which he had now asked.

It was decided that both the matter of the amendment to the water bylaw and Mr. Little's permanent appointment will be dealt with at the special meeting to be held on the year's financial problems.

MR. AND MRS. FROST OF TERRACE HOSTS ANNIVERSARY PARTY

Declares No Excuse For Reading Erotic, Morbid and Perverted Sex Stories

The question of the class of magazines being imported into this country from the United States is being discussed at Edmonton. While a great many of the worst of these have been forbidden the mails, it is claimed that others almost as bad continue to come. A letter published in the Journal deals with the subject as follows:

The Letter

Sir.—Whenever a book dealer starts to write about literature and what people read and do not read, there is a lurking suspicion that he is actuated by a selfish motive, or at least has some business promotion at the back of his head. Well, I was a lover of books and good literature, long before I was a merchant, and have always been more of a student than a merchant.

One of the first bumps I got as a merchant was to learn that I was there to sell the public what they thought they wanted and not what I thought they ought to have, and that is what every merchant soon learns if he stays in business. So the retail merchant is not to blame for the flood of sex magazines that are being bought and read in Canada today. He, as a dealer, just the same as other dealers, is selling the people what they ask for and think they want.

Pickled in Sex

There is a growing sentiment to ban these magazines from Canada, and they no doubt should be banned and no thoughtful citizen who has the social welfare of Canada at heart will say otherwise. But this is only a palliative. The real trouble lies much deeper than anything that could be remedied by banning a few magazines. The real question is, why do people want to read that kind of bunk? These abnormal, lurid stories of people who are pickled in sex and think and talk of nothing else, and whose human salamanders go through tides of temptation and get a little scorched, but never get burned, I suppose they read them for the same reason they go to see the lurid and silly movie serials; to get a little vicarious romance and excitement that they do not get in the monotonous grind of everyday life.

The evil which is wrought by his literary garbage, especially among the young, who are its greatest purchasers, can hardly be exaggerated. No one can be in any doubt about this and it is surprising that the invasion has been allowed to attain such large proportions without a serious effort having been made to curb it.

The responsibility rests with the Dominion government, which alone is in a position to exercise effective control. Having acted in the case of two objectionable imports, it should deal in the same way with a score or so of others. All thoughtful citizens must approve of a concerted campaign all along the line against this menace. It has already been too long delayed.

Work for Parents

The government should do its part, but, regardless of any measures which it may adopt, the necessity will remain for the stimulating of an interest in good reading among the boys and girls by their parents and others, such as Mr. Diller so effectively urges. His letter, with the sincerity and good sense that pervades it, is a very timely one and there are few who are in a position to influence the minds of children who would not do well to lay what he says to heart.

Taste of Tennyson

Some of the happiest memories of my childhood are of those evenings in the home when we read a good book, each one reading part of the time and discussing the beauties of it: "Enoch Arden," by Tennyson, is the one I first remember, because it introduced me to the beauties of poetry. That one reading opened up to me the whole world of poetry, for better or for worse.

New Road Being BUILT ON ISLANDS

Better Means of Communication Between Queen Charlotte City and Skidegate to be Given

A new road between Queen Charlotte City and Skidegate, a distance of about two miles, is to be built by the provincial department of public works to replace the old means of communication which was little more than a trail. Surveys are being made by J. A. Miller for the department and actual work will start about the first of April.

She Was Troubled With Chronic Constipation

Once your bowels become constipated you are in for a lot of trouble, as constipation is one of the most prolific sources of disease that the human race is subject to, therefore a free motion of the bowels every day should be the aim of everyone who aspires to perfect health.

Mrs. O. W. Lawrence, Cloversdale East, N.B., writes: "I was troubled with chronic constipation, and became so bad I was almost afraid to eat anything."

One day I saw your advertisement of

Milburn's

LAXA-LIVER PILLS

so I got three vials, and after taking them I have never been troubled since with constipation."

BIG BOAT RACE ON SATURDAY

Oxford and Cambridge Will Compete in Historic Event for 78th Time

LONDON, March 24.—One of the big sport events of the year to Londoners and others, the Oxford-Cambridge University boat race on the Thames, which annually draws crowds of spectators estimated all the way from 500,000 to 1,000,000 will take place on Saturday. This will be the 78th race between the Dark Blue (Oxford) and the Light Blue (Cambridge) and as usual keen interest is being shown in the coming contest.

The race last year was disappointing in the fact that there was a cold wind which churned the water up to such an extent that the Oxford boat became water-logged and the Dark Blue was unable to remain in the contest to the end. The Thames was very rough, especially on the south or Surrey side, which the Oxford crew performance had to take because Cambridge won the toss and chose the Middlesex or north shore, which furnished some protection from the biting wind.

Cambridge finished the race alone, the time being 21 minutes and 51 seconds, slower than usual but regarded as creditable in view of the wind and water conditions.

The course, from Putney to Mortlake is 4 1/4 miles.

Cambridge's victory last year was the 36th win for the Light Blue, four less than that of Oxford. Cambridge was the general favorite before the 1925 race. The 1877 race resulted in a tie. Since the war Cambridge has won every race except one, Oxford being victorious in 1923. During the war the annual inter-university boat races were suspended.

Some Species in Danger

Particular mention was made by Dr. Rooney of the danger of killing out elk and some of the birds, such as ruffed grouse, in this province. Immediate steps should be taken, he thought, to save the remnant of elk in the brazeau country, and in the case of the ruffed grouse, which are now in a serious condition through both excessive shooting and disease, he recommended a close season this year.

It was the feeling of the Protective League that 25 per cent of all game license fees should be set aside for game protection and propagation and that for the enforcement of the Game Act there should be permanent salaried guardians, with also an increase in the fine for minor infringements to \$50.

Bears are Prized

Dr. Rooney told the committee that as a matter of courtesy exchange it is desirable that the fees for non-resident hunting licenses to hunters from other provinces should be on the same basis as charged in those provinces to non-residents. He also had a good word to say for the bears, which he thought have been unjustly penalized. Both black and grizzly bears are greatly prized game and are not nearly so injurious to other life as supposed. A close season from June to September was recommended.

Filings for the various offices will close March 31 at 5 p.m. Registration for the April 6 election will end at 4 p.m. April 3, according to an announcement by J. E. Johnson, city clerk.

Nominees and the offices for which they were named are as follows:

The Nominees

For mayor: Thomas Torry, J. R. Heckman, D. G. Cannon, M. R. Bucey, H. C. Nunan, W. K. Spaulding.
