## Session Opening Now Expected to be Calm with Brief Debates

caught the tail of the Pacific Ocean Government hopes to get money voted by Christn.as giving members a month at home for Christmas holidays

OTTAWA, Dec. 10 .- After two of the stormiest years in its history the Dominion parliament opened Thursday for what is expected to be a comparatively calm and uneventful session. The Mackenzie King government, atter a temporary eclipse, is back in the saddle. With the co-operation of independents known to be friendly, the vince according to the Government Tele- Liberal party has every reason to feel certain of a safe majority on grains' 8 a.m. weather report, reading as almost any vote which can be brought on in the House of Commons. The session is expected to be brief, with ltttle contentious legislation. The opening of the sixteenth parliament since confederation,

was performed with all the usual poinp\* and circumstance by a new governor- leader, opposed on the ground that the general, Vinscount Willingdon, who, as British party politics in his earlier days. He was at one time a whip of the Liberal party at Westminster. The first day was occupied with the election of a Speaker. Hon. Rodolphe Lemieux, who has been Speaker for five years, speech from the throne, outlining the government's program for the session.

DEBATE TO BE BRIEF Debate on this speech and the legislation it foreshadows is expected to be brief this year. There is talk of finishing it, by the co-operation of all parties in the House, in one day. Much of the money required for the public services remains to be voted because of the defeat within a week of two governments at the end of last session and the consequent abrupt dissolution of parliament prior to a general election. The govern- VICTORIA DID NOT ment hopes to get this money all voted before the House adjourns for Christmas, clearing the decks for the current year's business.

At least a month's recess will be taken assembles it will probably consider a feated a plebiscite in favor of intronumber of bills which passed the Com- ducing the city manager form of munsubjects dealt with last year. The grain bill would affect the routing of grain Litchfield via the Atlantic seaboard and would Trustee George Jay, W. T. Straith and ports rather than by the shorter route through Maine. LINE-UP BY PARTIES

The line-up by parties in the Com-Conservatives ..... 91 Agrarians & Independents 36

Of the last-named about fifteen are said to be hostile to the government on most questions, making a potential combined opposition of 106 out of 245. This opposition might be considerably augissue. It is known that the Liberals yesterday hanging from a fire escape of Quebec do not see eye to eye with on the first floor of an east end roomthe Liberals of Western Canada on this ing house. ### SEWER BYLAW TO BE VOTED ON.

Discussions in the city council for and against the undertaking Johnson said, to attend a luncheon of advised that a party of some three of the \$35,000 trunk sewer project to serve parts of the city not now provided with sewer facilities have been amply enough reported in in attenndance. Rotarians were present here next August bound East after the press to put the matter fairly before the public.

On one hand it is pointed out, and rightly enough, too, that the Canada. The address on that occasion in Vancouver. sections of the city referred to need and should have sewer accommodation.

On the other hand, it has been stated, and probably advisedly, that the city's financial position does not warrant the expenditure at this time.

While the residents affected by the project would probably of a few humorous remarks and the in London, England. be in favor of paying for the laterals that would have to be installed speaker told of the original and enterunder the local improvement plan it is possible that owners vacant property would not be so willing even if the facility would provided novel entertainment during the Canadian National Railway Athletic have the tendency to enhance the values. It is a matter that should be canvassed with care before anything in the way of definite action is taken.

### WAS JUSTICE TOO SEVERE?

A letter appearing over the signature of "Another For Fair SALVATION ARMY Play" in a Vancouver paper criticizes a sentence recently imposed SALVATION ARMY by Mr. Justice W. A. Macdonald of prison term and lashes on two boys, one aged 21 and the other, 16, in New Westminster for assault on a girl. Such offences, the latter asserts, "will continue to happen as long as our girls pick on strangers for their joy rides." Such an assertion would, in a measure, seem to justify men doing as these CAPT. AND MRS. D. REA GOING TO boys did if girls take joyrides with them. That is, of course, as pidiculous as justifying a person for robbing a house if he should find the door open.

It seems that people sometimes forget that a girl or woman is | Capt. D. Rea, who has been comentitled to safety from molestation in all public places anywhere mandant of the local corps of the Saland at any time. If that were realized there would be no letters such vation Army for the past two years as that of "Another for Fair Play."

Such offences as that in question are becoming altogether too his transfer to Ketchikan where he common and, when it is remembered that capital punishment might be imposed on those guilty of them, it would seem that the sentence Mrs. Rea and family will leave on was altogether fitting, especially in view of the awful nature of the erime committed by the two youths.

Unlike some others, perhaps, Mr. Justice W. A. Macdonalds is recognized as being one of the fairest and most generous judges in this province and there are few, indeed, who would venture to and Mrs. Stobart from Cranbrook who question the wisdom of his decisions.

## the new PROCESS

In making Rubber Footwear

This new Kaufman process makes possible longer-wearing, better looking and more comfortable rubber footwear.

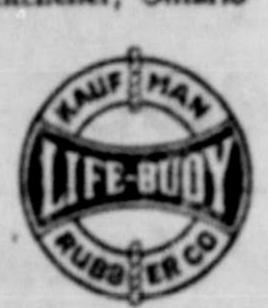

The Kaufman laboratories have found the way to cure rubber without the perishing heat used heretofore. The LIFE and elasticity are left in Life-Buoy Rubber Footwear.

A specially woven fabric is used, every fibre of which is permeated and impregnated with purest fluid rubber. This means a moistureproof, non-rotting base for the high-grade Kaufman-cured subber surface.

Life-Buoy Rubber Footwear has won a wonderful reputation for quality in Canada during the past twenty years. This new and exclusive process will serve to enhance that reputation.

It pays to insist on Life-Buoys. They're sold everywhere. They cost no more. The Kaufman Rubber Co. Ltd.

Kitchener, Ontario

It was moved by Stanley W. Taylor and seconded by Mayor S. M. Newcon that a hearty vote of thanks be tendered Prince Rupert Boys' Band Concert, to Capt. G. F. Morris for his very successful work in Prince Rupert. Captain Morris, in reply, expressed his thanks to Christmas the members of the committee for their co-operation and the citizens in general for their many kindnesses and th splendid response to his appeal for con tributions.

### TOO MUCH.

A Scotchman had signed the pledge and the news spreak quickly. One of his friends said to him:

"D'ye mean tae tell me. Jock, that ye're no' goin' tac have another drink as long as you live?" "Ay, that's so."

"D'ye mean tae say that if ye were standin' in a lake filled wit whiskey richt up tae yer knees ye wouldn't be caught bendin'?"

"Well, if it was richt up tae yer chin and it's real Scotch whisky I'm talkin' about-would ye no sip it?" Here Jock began to waver, the pros-

pect was too alluring. Then: "Well, I'm no' sayin' I would, mind ye, but I micht make a wee ripple wi

TEMPORARY TAX RELIEF SUGGESTED -THOUGH WOULD HELP FARMERS IS OPPOSED TO PRICE

FIXING

solution," if possible of the farm marketing problem were urged by President Coolidge this week in his annual message to Congress.

He left the specific methods to the legislators themselves, stipulating only that a prospective \$383,000,000 Treasury surplus should not be regarded as warranting a permanent tax revision, and that in approaching the farm relief problem Congress should shun anything savoring of price-fixing.

The President also suggested that steps should be taken "at an early day" to transfer the Philippines from the military to the civil branch of the Government; proposed that something be done to end the "great inconvenience and expense" caused by lowering the level of the Great Lakes; renewed his stand for the protective tariff and for complete observance of prohibition; again pledged his administration to economy; and laid down a long list of other suggestions, although conceding that in the short session no extensive program of general legislation would be possible.

The message contained no mention of the World Court, a subject which he said in his Kansas City speech he would not again submit to the Senate. Nor was there any direct reference to Mexico.

### HIS SUGGESTIONS

His suggestions on other questions included:

Broadening and strengthening of the Federal agricultural agencies. Revision of the livestock grazing reg-

ulations. Continuation of reclamation developments.

Development of Muscle Shoals with cheaper fertilizers in view. Development of the Mississippi and

bors generally. A Great Lakes-to-the-sea canal along

a route yet to be chosen.

road properties. Coal control legislation.

paredness.

may recommend. Branch banking legislation.

in the Federal reserve system.

of Commerce.

Adequate care of disabled veterans,

Return of alien property. "Fair salaries" for Federal judges.

One-man control of the Government merchant fleet. Anti-lynching legislation.

### THE ASSOCIATED PRESS

In the face of the estimated Treasury surplus ,the Chief Executive said there was "no reason why a balanced portion of surplus revenue should not be applied to a reduction of taxation, but he contended that any permanent reduction would not be warranted this time with the Government conducting a going business of nearly \$4,-000,000,000 annually.

"Meantime," he added; "it is possible to grant some real relief by a simple measure making reductions in the pay- ponsibility for making the plan effecments which accrue on the 15th of March and June, 1927. I am very strongly of the conviction that this is so much a purely business matter that it ought not to be dealt with in a partizan spirit.

### UP TO CONGRESS

"These are my convictions stated with full knowledge that it is for the Congress to decide whether they judge it best to make such a reduction or leave the surplus for the present year to be applied to retirement of the war i debt. That also is eventually tax reduction."

In working out the surplus farm crop problem to any sound conclusion. he advised that it was "necessary to avoid putting the Government into the business of production or marketing or attempting to enact legislation for the purpose of price fixing."

"It is unfortunate," he added, "that no general agreement has been reached by the various agricultural interests upon any of the proposed remedies. Out of the discussion of various proposals which can be held before the Committees of Agriculture some measure ought to be perfected which would be generally satisfactory."

Recounting the efforts of his special cotton committee to aid Southern producers, the President said:

"As a result of the co-operation sufficient funds have been pledged to the storage and carrying of 4,000,000 bales of cotton. Whether those who own the cotton are willing to put a part of their stock into this plan depends on themselves. The Federal Government has co-operated in providing ample facilities. No method of meeting the situation would be adequate which does not contemplate a reduction of about one-third in the acreage for the coming year. The res-

dite these projects. Engineering studies are being made for connecting the Great Lakes with the North Atlantic, either through an all-American canal or by way of the St. Lawrence River. These reports will undoubtedly be before the Congress during its present session. It is unnecessary to dwell upon the great importance of such a waterway not only to our mid-continental basin but to the commerce and development of practically the whole nation. Our river, and harbor improvement should be continued in accordance with the present policy. Expenditure of this character is compatible with economy; it is in the nature of capital investment. Work should proceed on the basic trunk lines if this work is to be a success. If the country will be content to be moderate and patient and permit improvements to be made where they will do the greatest | general good, rather than insisting on expenditures at this time on secondary projects, our internal waterways can be made a success. If proposed legislation results in a gross manifestation of local jealousies and selfishness, this program cannot be carried out. Ultimately we can take care of extensions, but our first effort should be confined to the main

"Our inland commerce has been put to great inconvenience and expense by reason of the lowering of the water level of the Great Lakes. This is an international problem on which competent engineers are making reports. Out of their study it is expected that a feasible method will be developed for raising the level to provide relief for our commerce and supply water for drainage. Whenever a practical plan is presented it ought to be speedily adopted."

### Ten Years Ago in Prince Rupert

Credenza

redenza 1 Now!

if you wish to be certain of securing for Christmas the delights of the world's newest and greatest musical discovery

THURSDAY DECEMBER 2nd marked the first anniversary of the Orthophonic Credenza. The reception which during the past year, has been accorded this remarkable invention exceeded even the most liberal calculations.

The demand for this remarkable new musical instrument, created on the Victor principle of "matched impedance" or "smooth flow of sound", has increased so enormously, we have as vet been unable to supply it fully.

This,—despite the fact that we have been working our manufactory overtime.

Those who read this announcement have a distinct advantage among music lovers. They will profit by the information it contains, to place their orders, now, for that Christmas Credenza. Any "His Master's Voice" Dealer will explain his plan of convenient payments, which applies to any of the Orthophonic Victrola models, . . . from \$115.00 to \$430.00.

Note: We made the same announcement about a year ago. Yet, many people suffered temporary disappointment.

The new Orthophonic True in Sound Trade Mark Reg'd

HEIRESS WEDS RUSSIAN NOBLEMAN BUT RETURNS HOME IN HURRY

NEW YORK, Dec. 9.—Baroness Florence Clendenin Tornow, heiress to the millions of Joseph Clendenin, vice-president of the American Smelting and Refining company, returned alone to her parental home, the New York French Ivory by the single | American says, within a few hours of her runaway marriage to the Russian

The bridegroom remained in the briday suite at the hotel where the couple registered soon after the hasty ceremony, according to the American, which quoted "those close to the family" as being advised that Mr. Clendenin hoped soon to take steps for a civil annulment. The ceremony took place at the Little Church Around the

Decision of the newly created baronss to return to her family is said to reached after a dramatic which her father invaded the bridal suite and interrupted the nuptial breakfast.

The baron checked out of the hotel that night.

TWO HUNDRED MILES WITH HORSES OVER ICE - TEMPERATURES RUNNING TO FIFTY

BELOW

EDMONTON, Alta., Dec. 9 .-- Traveling for twelve days over river ice with five horse-drawn sleighs, in temperatures ranging from twenty to fifty below, with horses crashing through thin ice at times, and at other times hewing a trail through ice piled fifteen to twenty feet high, a much bedraggled and weary party reached here today. concluding the 210-miles trip from Fort Fitzgerald to McMurray and then by rail. It was a highly exciting trip, according to Joe Lacombe, a pioneer of the northern trails, who headed the travelers and was greatly praised for the effective way in which he brough
