MONTREAL MAROONS HOCKEY CHAMPIONS

FIRE WAS DESTROYING THE BANFF HOT SPRINGS HOTEL THIS MORNING

Banff Springs Hotel Burning This Morning; Northwest Wing Gone

CALGARY, April 7.—The northwest wing of the huge Banff Springs Hotel operated by the Canadian Pacific Railway was destroyed by fire this morning and the rest of the structure appeared doomed at 11:30, less than an hour after the fire started. The Canadian Pacific Railway and town fire fighting forces were unable to cope with the blaze and help was rushed by special train from here. The hotel was to have opened on May 15.

FAMOUS PLAYHOUSE BURNED—Above photo shows the fire which recently destroyed the Shakespeare Memorial Theatre on the banks of the Avon, England. Most of the historic treasures it contained were fortunately salvaged.

Montreal Maroons Win World Championship Professional Hockey

Victoria beaten after hard fought game under Western rules at Montreal last night

MONTREAL, April 7.—The Montreal Maroons won the Stanley Cup and professional hockey championship of the world, defeating the Cougars two goals to nothing last night. They took the series from the coast sextette three games to one. The local national league champs had won the first two games, Victoria the third.

Last night's game which went to the Eastern team was played under Western rules. Superior defensive system, coupled with unceasing attack, gave the maroons the third victory and the title.

Victoria's brave lions, champions of the western league, went down fighting but unable to make any headway against the almost impregnable Montreal machine.

Montreal got full measure for their win. They outplayed the Cougars and the brilliant play of Holmes of Victoria was the only stumbling block to a larger score.

Battled bravely Victoria battled, too, fighting earnestly to prevent defeat. The onslaughts were led by Loughlin and Frederickson but their best was not enough. They were roundly cheered after the struggle, the spectators standing in their seats and loudly acclaiming the game and courageous spectacular hockey which the westerners had shown.

Stewart, the player who lallied the goals for Montreal, had lost his pet stick to souvenir hunters after the Maroons beat Ottawa for the National Hockey League title. Following Saturday's win by Victoria, the Maroon's star broadcast an S.O.S. for the pel scoring weapon and it was delivered just before the game and off it came the goals which decided the crowning victory.

ELECTROCUTED WHILE ATTEMPTING TO TAKE CAT OFF LIGHT POLE

FORT WILLIAM, April 7.—Alex. Tena, farmer, on the Arthur Road, is lying in the hospital suffering from severe burns on the feet and arms when he came in contact with a high-power transmission line carrying 22,000 volts when he tried on Saturday evening to rescue a cat which was marooned on a pole near the live wires. He received the electric jolt while trying to reach the cat with his hand. The shock threw him 30 feet to the ground, when he also sustained a deep cut in his head.

According to latest reports the cat is still on the pole.

PORT WARDEN OF MONTREAL IS HERE

Capt. R. C. Brown, port warden of Montreal, is a visitor in the city today. Arriving recently in Vancouver from Montreal by way of the Panama Canal, he came north on the Prince George this afternoon and will proceed East on tonight's train. He is on a vacation trip to the Pacific coast.

Capt. Brown is one of the best known of the Atlantic Ocean ship masters. For a quarter of a century, before becoming port warden of Montreal, he was with the Anchor Donaldson line.

NORMAN LANG DIED SUDDENLY

Was Prominent as Managing Director at Powell River and in Timber Interests

VANCOUVER, April 7.—Norman Russell Lang, managing director of the Powell River Pulp & Paper Company, one of the most prominent businessmen of British Columbia, died suddenly last night.

Mr. Lang was born at Barre, Vermont, in 1866, and came here in 1911. He was closely identified with the timber industries of this province ever since his arrival. He was director of the Brooks Seaman O'Brien Company and director of the Timber Industries Council.

TANK EXPLODES UNDERGROUND

Struck by Lightning and is Now Boiling Over a Field in California

SAN LUIS OBISPO, April 7.—The big underground storage tank two miles south of here belonging to the Union Oil Company was struck by lightning this morning followed by a terrific explosion which broke numerous windows. No casualties are reported.

The reservoir is constructed of concrete and is said to be the largest in the world. It contained a million and a quarter barrels of oil.

Efforts are being made to prevent the boiling oil spreading throughout the field and igniting the surface tanks.

MINERS KILLED GAS BLOWOUT

Suffocated Five Minutes After Workings had been Examined by Government Inspectors

NANAIMO, April 7.—Five minutes after the place where Bert Conil and Frank Subury were working in the Granby mine at Cassidy yesterday had been examined by Government inspectors, the men were killed when suffocated by a gas blowout. The miners were both dead when their bodies were recovered from beneath dislodged coal twelve minutes after the explosion.

AIRMAN LOST NEVADA DESERT

Franklin Rose Carrying Air Mail Being Sought Today After Being Overdue

BOISE, Idaho, April 7.—Franklin Rose, pilot of the first northbound airplane on the Elko Nevada-Pasco Washington contract air mail route, was lost last night somewhere in the wilderness of Nevada.

Rose left Elko late in the afternoon and was due here at six o'clock and so far as can be learned the plane had not been sighted after leaving Elko. An all night search discovered no trace of the intrepid airman and is being continued today.

FAMOUS IS ON SANDY BOTTOM

Capt. Berquist, Owner of Vessel, and Underwriters' Representative Arrive to Inspect Wreck

The coast freighter Famous, which struck Louise Rock near Balmoral Cannery in the Skeena River of Sunday, later sinking, is resting easy on the sandy bottom of a small bay behind Village Island according to word brought to the city today from the scene of the stranding. The after-decks are awash at high tide. Before any attempt is made to pump the vessel out and float her cargo of 100 tons of tinplate destined for Balmoral Cannery will be taken off. The extent of the damage has not yet been ascertained.

Capt. Berquist of Victoria, owner of the Famous, and Capt. Clarkson, of the San Francisco Board of Underwriters, arrived from the south on the Prince George this afternoon and will go out to the wreck with Hubert Ward, the local representative, on the gasboat Zanardi. Equipment for the lightering and pumping out of the vessel has already been taken to the scene of the accident.

Three Seaplanes Coming for Patrol of Fisheries During Summer says Maj. Motherwell

VANCOUVER, April 7.—Suggestions that as a result of decreased appropriations the fisheries department air patrol of waters in the north from Prince Rupert might be abandoned were vigorously scouted by Major J. A. Motherwell, chief inspector of fisheries. He said: "If necessary we will sacrifice other things to keep the patrol. In fact we plan to intensify our air work and I've completed arrangements with Squadron Leader J. H. Tudhope of the Vancouver station of the Royal Canadian Air Force to have three seaplanes operating from the Prince Rupert station this summer."

Great Britain's Industrial Efficiency.

A great deal has been said, especially by American writers, about the industrial supremacy of United States over all nations of the world. Here is what the Winnipeg Free Press says in defence of Great Britain on the subject:

The striving for greater efficiency in production has been a marked feature of British industrial life since the war. The employers were forced to study it by the intense competition in international commerce. And the workers have been interested, also, because they know that with a more efficient system of production they stand to receive a better return. The coal miners have demanded a reorganization of the coal mining industry and the adoption of improved methods of production because of the benefit which they themselves hoped to obtain. The great scheme which the British government has been considering for developing electric power for industrial purposes is just another instance of the movement for higher efficiency.

Price Of Production As Well As Quality.

In the past, Britain has depended on the quality and workmanship in its manufactured goods to make them saleable all over the world. With increasing competition, however, the question of prices becomes an essential factor. And this leads to an examination of methods of production and industrial management. Of late there has been a desire in Britain to learn from the United States in this regard. There is a belief among the workers that the higher wages and higher standard of living in the United States is due to greater industrial efficiency. Great interest is being shown just now in a book written by two young Englishmen, giving the results of their investigation of industrial methods in the United States. Among the reasons they give for the prosperity which they found in the United States were: the prevalence of the rule of promotion by merit; keenness in devising time-saving and trouble-saving appliances; exchange of ideas by American manufacturers; elimination of waste and conservation of energy and space; well planned welfare work; employment of the best men available anywhere for research work.

Britain Has Many Advantages.

Great Britain has many advantages, including geographical location, coal supply and shipping facilities, to help her to hold her place in the forefront of industrial nations of the world, and the determination to improve her industrial methods and increase and cheapen production will undoubtedly assist her in meeting the intense competition of the present day.

NEW ROYAL DEBUTANTE

Princess Juliana, Daughter of Queen Wilhelmina, is Seventeen This Month

THE HAGUE, April 7.—Princess Juliana has put up her hair. The only child of Queen Wilhelmina and her consort, Prince Henry, will be 17 this month, and thus enters the list of European royal debutantes.

Bobbing and shingling find no favor at the Dutch court, where this style of coiffure is still regarded as rather too daring for a princess.

Juliana has dark blond, rather straight hair, and looks remarkably like her mother when she was her daughter's age. The

princess will be a most eligible match, for the private wealth of the house of Orange is considerable.

She has been carefully brought up in the old Dutch tradition of quiet efficiency in all household arts. She has not been abroad much, and is happiest among girl friends of her own age.

Although both her father and grandmother were German, feeling in Holland is much against another German consort. A Scandinavian prince would be much preferred.

Next year, on her eighteenth birthday, she will assume the full title of Princess of Orange-Nassau, and a memorial will be unveiled by her at The Hague in honor of Juliana von Solberg, the saintly mother of William the Silent, after whom she was named, and who has always been held up before her as an example of piety and a model of all feminine virtues.

ELEVATOR EXEMPTION

Bylaw Given First Readings by Council and Will be Shortly Presented to Ratepayers

A bylaw providing for exemption from municipal taxation of the local elevator plant and the land on which it lies on its being leased by the government to the Canadian Wheat Producers Ltd. was given its initial readings at last night's council meeting and will be submitted to a vote of the ratepayers as soon as the necessary formalities have been complied with.

The bylaw provides that the elevator shall be exempt from taxation as long as the Canadian Wheat Producers Ltd. holds and operates the plant either by lease or ownership, there being, however, a ten year limit. Exemption of the elevator, it is explicitly provided, shall be contingent upon its operation.

Ald. Larsen asked if the council had received formal notice that an agreement for the lease of the elevator had been made between the government and the wheat pool. He was answered that there was Mr. Stork's wire which had been previously read and published. The city had been informed that the wheat pool had taken a lease on the elevator for two years with the option of purchase or extension of lease.

Beside the elevator bylaw, the ratepayers will vote at an early date on the question of borrowing \$28,000 for the tarvia surfacing and repairing of paved streets. This bylaw was also put through its first readings at last night's council meeting. It is proposed to float five per cent debentures to cover the work.

CITY COUNCIL ASKED FOR ASSISTANCE WITH WELCOME TO SHRINERS

The city council was requested last night by a delegation consisting of A. E. Bazett-Jones, T. McGlymont and R. V. G. Lepine to erect an arch of welcome at or near the corner of Third Ave. and Fifth Street near the City Hall on the occasion of the Shrine convention to be held in the city next month.

The delegation pointed out that the local shriners were planning a scheme of decoration for the occasion and would themselves erect an arch on Third Ave. It was proposed to have these arches of such a nature that they might subsequently be used for other similar purposes. It was stated that the holding of the Shrine ceremonial here would bring some 300 or 400 visitors to the city from as far distant points as Portland, Oregon, and Juneau, Alaska. It was also expected there would be some 40 or 50 candidates from this district. There would also be the Gizeh Temple Shrine Band from Victoria which would give public recitals.

In referring the matter to the board of works, Mayor Newton expressed the belief that the city would endeavor to meet the request.

CANADIAN GOLD IS SAID TO BE GOING TO STATES AGAIN

NEW YORK, April 7.—The movement of gold from Canada to the United States during the past two weeks has, according to reports in financial circles here, reached the \$30,000,000 mark. This is the largest movement of the yellow metal involving New York since the imports from Great Britain last fall.

The gold remittances are said to have been induced by the discount at which the Dominion's dollar has been selling recently. This discount, however, has been diminishing during the last few days and at present is less than one-third of one per cent.

According to the information going the rounds, \$18,000,000 worth of bullion was shipped down from Canada during the first week in March. The Dominion government was said to have been consignee for \$5,000,000 of the lot, while commercial interests were reported to have shipped the balance. For the \$12,000,000 gold cargo reported delivered during the second week of March, the commercial interests are given as the sole consignee.

FILM CENSORSHIP URGED IN GENEVA

GENEVA, April 7.—A movement to protect children throughout the world from undesirable moving pictures has been initiated by the League of Nations Advisory Commission on Child Welfare, which adopted a resolution for the creation of Central Censorship Boards in each country, composed of educationists and parents.

The resolution stipulates that these boards should prohibit the presentation of films demoralizing to the mentality and morality of children, and encourage films which develop the education of a child. It further recommends an international entente between the National Boards, with a view to international interdiction of undesirable pictures.

National legislation is favored to insure proper ventilation of moving-picture houses, with ample exits, and the prevention of the exhibition of inflammable films.

Why is Kraft Cheese So Deliciously Different?

People who never liked cheese before now relish Kraft Cheese daily. How is it, they ask, that we enjoy Kraft Cheese so much?
In the quality and flavor of Kraft Cheese lies the secret of its nation-wide favor.
Care in selection, scientific curing, proper ageing, experienced blending—the Kraft patented pasteurizing process—the facilities and experience to do these things properly ensure the high quality and delightful ever-present mellow flavor of Kraft Cheese.
Serve Kraft Cheese often. Make it the main dish of the meal for, in addition to being so appetizing, it contains the body-building vitamins essential to the properly-balanced meal.

CHILDREN IN DANCE FROLIC

Wonderful Exposition of Modern Expression Given by Pupils of Mrs. H. O. Crewe

The carnival of dancing at the Westholme Theatre last night given by pupils of Mrs. H. O. Crewe was a wonderful exposition of modern expression by means of the dance.

The event is an annual one and is looked forward to by a great many people as one of the entertainment features of the year. Last night the program was extremely entertaining, every number having its own individuality and attractiveness.

Aiding a good deal with her accompaniments was Mrs. J. A. Hinton, while the Westholme Orchestra well adjusted itself to the occasion.
