EXTRA WORK PARLIAMENT SESSION

LOCAL COLLECTOR TAKES STAND BEFORE COMMISSION

Prince Rupert Fairly Free From Smuggling States Jarvis McLeod

Hon. H. H. Stevens tells how his efforts were frustrated—Grand Forks collector reveals warehouse there

VANCOUVER, December 6.—Jarvis H. McLeod, customs collector at Prince Rupert, stated before the Royal Commission in this city on Saturday afternoon that he did not think there was any smuggling on a large scale in his district. He urged that there should be a sea patrol at the northern port as it was impossible to patrol the coast from the land.

The first witness Saturday afternoon was Hon. H. H. Stevens, minister of customs for a brief period this fall under the Meighen regime, who testified that, while he was minister, he had given instructions that clearance to United States ports should be denied vessels carrying cargoes which were excluded from that country. Law officers of the crown, however, ruled that the instructions exceeded his authority and they were accordingly rescinded.

A bonded warehouse which, according to the collector at the port of Grand Forks, existed for the purpose of supplying liquor to bootleggers was revealed to the commission when Collector W. J. Cook, in reply to a question from Commissioner Wright as to whether the warehouse was of any use except for smuggling liquor into the United States, replied "No."

RUGBY PLAYER FATALLY HURT PLAYING GAME

FIRST MATCH IN VANCOUVER ON SATURDAY FOR McKECHNIE CUP COST LIFE OF PETER MURRAY, VICTORIA PLAYER

FROM OLD COUNTRY
CAME TO CANADA WITH ALL-STAR SCOTTISH AGGREGATION IN 1924; SURVIVED BY WIDOW AND CHILDREN

VANCOUVER, Dec. 6.—Overshadowing the defeat of a Victoria representative rugby team in the first McKechnie Cup encounter of the season on Saturday by the University of British Columbia squad 21 to nil, was the tragic death of Peter Murray, aged 32, one of the most prominent players in the capital, who was fatally injured during a scrimmage. Two operations failed to save the life of Murray who died in hospital just four hours after he had been carried off the field unconscious from injuries of the head received while he was lying on the ground beneath a struggling head of ruggers.

SUDDEN DEATHS IN VANCOUVER

Body of Woman Found in Gas-Filled Room While Dead Man Discovered Lying Against Fence

VANCOUVER, Dec. 6.—The body of Mrs. Nellie Gerard, aged 48, was found on Sunday in a gas-filled room on Powell Street. She was last seen alive on Saturday night.

The body of Robert Dickson, aged 40, was found lying against a fence in Prior Street. Apart from a slight wound on the face, there were no other signs of violence.

FIVE SHIPS BOOKED TO LOAD GRAIN HERE

Two Ships, So Far Unnamed, Will Take Wheat Besides Those Already Announced

Beside the Meighen Maru, which is now on berth at the elevator, and the Yseric and Ypres Maru, both of which will arrive about the middle of this week, two more ships, so far unnamed, are booked to load grain here during the present month according to a Vancouver announcement.

BONUS SYSTEM IS ABOLISHED

INSTEAD OF THIS C.N.R. WILL INCREASE PAY OF ITS SHOP EMPLOYEES 2c PER HOUR

MONTREAL, Dec. 6.—Abolition of the bonus or premium system in all shops of the Canadian National Railways with the payment from December 8 of an increase of two cents per hour to employees thus affected, is announced in a statement made public today by S. J. Hungerford, vice-president in charge of operation, Canadian National Railway. The statement follows:

"Following the amalgamation of the railways now constituting the Canadian National Railways system there were found, as would naturally be expected, many variations in practice and method. Obviously, uniformity was both necessary and desirable under the new conditions and the management has been progressively studying each of the questions involved with a view to selecting that method which was considered the best available for the particular purpose or, as an alternative, the development of an entirely new one, for adoption throughout the system.

"At the beginning of 1925, a plan of co-operation between the federated trades and the management of the Canadian National Railways was inaugurated which had, among other objectives, the more efficient operation of shop stabilization of employment as far as practicable and the study and development of these matters related to shop operations of mutual benefit to employees and employers.

"To this end committees of a substantially equal number of foremen or other local supervisory officers and representatives of the workmen were selected by the employees themselves in the respective shops, and have since held meetings at regular intervals at which all suggestions relating to the work and surrounding circumstances excepting wages and conditions relative thereto have been studied and discussed, with the result that substantial improvements of mutual interest to both parties to the plan have been secured. In addition to the various local mixed committees a similar committee has been established on each general manager's region and also one for the entire system, to deal with questions of a general rather than a local character.

"Among the various questions considered by the system committee was the premium plan of payment in comparison with the fixed hourly wage basis and, as a result of these studies, the conclusion has been that, while the premium plan is attractive theoretically and operates satisfactorily in factories where large numbers of new articles of similar design are being produced, it is very difficult to administer in railway shops where by far the greater proportion of the work consists of refitting worn parts rather than manufacturing new ones. Under these conditions it is not as generally satisfactory as the hourly wage basis and has certain inherent objectionable features insofar as railway repair work is concerned.

"The operation of the co-operative plan has now reached such a stage that the bonus system has ceased to be either advantageous or attractive. Therefore the management regards it as eminently just that the premium system should be abandoned and an appropriate bonus, in addition to the hourly rate, be paid, as a recognition of the hourly effort, to all employees of their co-operative effort, to all employees of the Canadian National Railways in the mechanical department. Therefore, in pursuance of this decision, the bonus or premium system is abolished in all shops of the Canadian National Railways. Effective December 8, 1926, all of the employees referred to will receive an increase over and above their present hourly rate of two cents per hour, in lieu of the premiums previously disbursed.

"Under the new method, the company will not pay the workers, in the aggregate, any more than has been paid hitherto, and, in addition, will secure certain other economies. Having regard of all of the factors involved, it is confidently believed that this change in practice will on the whole be of benefit to both the railway and the employees concerned."

Ohio State University's R.O.T.C. is among the largest in the nation. Thirty-six hundred and twenty-eight students are participating in the corps' activities.

BURMESE SACRED WHITE ELEPHANT arrived in New York a week ago with eleven native attendants. He will winter at Bridgeport, Conn., and tour the country next summer with a circus.

ONTARIO HAS REAL WINTER

SNOWSTORM SWEEPS SOUTHERN PART OF PROVINCE WITH ZERO TEMPERATURES

TORONTO, Dec. 6.—Ontario had its first real taste of winter over the week-end when a snow and windstorm driving in from Northern Michigan swept the province from Windsor to Ottawa leaving a blanket of snow nine inches deep in most places. It was the heaviest early December snowfall that southern Ontario had experienced in years. With it came zero and below temperatures in some parts with slightly above in others.

NEW YORK, Dec. 6.—The eastern states from Maine to Virginia are digging out today from one of the heaviest and earliest snow storms on record which caused a half dozen deaths and seriously impeded all traffic. In New York ten thousand men and almost 700 plows are working in 12 hour shifts to prevent a general tie up of traffic.

Great Britain will have a cooperative national theatre, said to be the first of the sort ever attempted in England. The first production will be launched about Christmas, in London.

BIG ROBBERY IN ST. PAUL

THREE BANDITS FORCE WATCHMAN TO ASSIST THEM IN ROBBING DEPARTMENT STORE OF \$50,000

ST. PAUL, Dec. 6.—More than \$50,000 in cash, stocks, bonds, and jewellery was obtained by three bandits who blew three safes in a department store in this city last night. The men entered the store from the roof of an adjoining building and seized two watchmen, forcing one to make hourly rounds of the building between eight o'clock and midnight and ring the signal boxes. The robbers set off six charges in blowing the safes but they covered up their work so well that the attention of hundreds of theatre-goers on the streets was not attracted.

FINE NEW CATHEDRAL MARKS SPOT WHERE WAS PIONEER CHURCH

WINNIPEG, Dec. 6.—The new St. John's Anglican Cathedral built upon the site of Western Canada's first church was officially opened yesterday. Rev. Canon Cody of Toronto preaching the dedicatory sermon. The first log church of St. John was erected on the site in 1823 by Rev. John West.

Many Important Bills, Already Delayed, Must Be Handled Separately

OTTAWA, December 6.—In addition to the work that will be presented at the session opening on Thursday, members of Canada's sixteenth parliament will find awaiting them about seventy bills left over from last session, of which forty-eight are divorce cases. The unexpected dissolution of the last Parliament left in the air a number of important measures and it now appears that they will have to be considered again one by one before the new Parliament can pass them.

The supply bill will be the first to demand attention. This was not even introduced at the last session because the estimates had not passed the committee stage. Several important bills had, however, passed both houses of which the Rural Credits Bill was considerably amended in the Senate although it is now ready for Royal Assent.

STEAMER STEWARD DIES IN HOSPITAL

Bert Hunter Taken Suddenly Ill and Expires on Saturday

The death occurred in the Prince Rupert General Hospital on Saturday afternoon of Bert Hunter who was stricken suddenly ill while coming north on the steamer Catala on Friday.

The deceased, who had been employed as a steward on a Yukon river boat during the summer season, had only recently entered the employ of the Union company. On Friday he complained of not feeling well and before the boat arrived in Prince Rupert, he became unconscious. He was immediately taken to the local hospital where his condition continued to give cause for anxiety and on Saturday afternoon he passed out without rallying.

The head office of the Union S.S. Co. was immediately advised by wire and it is expected that the remains will be shipped south on the Cardena tomorrow. Deceased was about 32 years of age and is believed to have been unmarried.

TABLEAUX SERMON DREW BIG CROWD

"The Guiding Star" Proved of Great Interest at Salvation Army Citadel Last Night

"The Guiding Star," a tableaux sermon on the influence of a good mother, drew a record attendance to the Salvation Army citadel last night. Seven scenes pictured the life of a lad from the cradle of innocence to the "great choice."

Those taking part were Elsie McQuatt, Willard Rea, John Pierce, Ed. Harmon and Ed. Kane. Contributing to a program of music and solos were Mrs. J. Mastin, Miss E. Faulkner, J. S. Wilson, Mrs. Cadwallader and Mrs. Rea.

The program was as follows:
Solo—"Mother, When I Think of Thee."
Solo—"Mother's Gift: 'Take my Child, my Lord, I Pray.'"
Solo—"Gentle Jesus, Meek and Mild."
Building—Proverbs, 3, 18
Solo—"Other Voices Call."
Duet—"The Way That Seems Right."
Solo—"Now the Old Home Vacant."
Solo—"Oh Cross that Lifted up my Head."

DELIVERIES OF GRAIN RESUMED

FORTY-FIVE OF 179 CARLOADS WHICH WERE HELD UP THE LINE ARRIVED LAST NIGHT

MEIGEN MARU LOADING

Ypres Maru and Yseric are Due About Middle of Week to Load Full

The Suzuki Co.'s freighter, Meigen Maru went on berth at the elevator and started loading wheat for the United Kingdom of continent yesterday morning and loaded 3956 bushels in seven hours, probably half of her cargo. The vessel should get away with her 250,000 or so bushels about the middle of the week.

The big freighter Ypres Maru, also of the Suzuki line, is expected to reach port from the Orient tomorrow morning and will go to the dry dock for lining. The Bank line freighter was to have left Vancouver yesterday via Union Bay for bunkering and will be here on Thursday. She will take her berth at the elevator direct as she is already lined. Both the Ypres Maru and the Yseric will load full for the United Kingdom or continent.

The C.N.R. motorship freighter, Lillehorn, Capt. Dan McKinnon, which is now loading coal at Union Bay for this port, will arrive this week and, after discharging, will take on some 100 tons of screenings at the elevator for Seattle delivery.

With grain going out of the elevator now, the movement of wheat to the port has been resumed. Of the 179 cars which were being held up the line, 45 arrived during the night and are now being unloaded at the elevator.

No advices as to loadings on the piers for this port had been received this morning.

NEW BOXING STAR RISES

EDDIE ROBERTS OF TACOMA HERALDED AS WELTERWEIGHT CONTENDER FOLLOWING UNEXPECTED VICTORY OVER JOE DUNDEE

SAN FRANCISCO, Dec. 6.—A new contender for the world's welterweight title looms up as a result of the victory here on Saturday of Eddie Roberts, Tacoma, who defeated Joe Dundee, Baltimore, in the first of a scheduled ten-round bout. It was one of the greatest upsets in Pacific Coast pugilism in years as Dundee was a three-to-one favorite when he entered the ring due to his knockouts over Mickey Walker, former welterweight and present middleweight champion, and other outstanding performances.

OTTAWA SENATORS WIN CHAMPIONSHIP

Defeated Toronto Varsity by 10 to 7 in Dominion Rugby Final on Saturday

TORONTO, Dec. 6.—Ottawa Senators won the Dominion rugby championship by defeating Toronto Varsity by 10 to 7 on Saturday afternoon.

Over One Hundred Boats with Cargoes Valued at Millions Tied Up for Winter in Lakes

SAULT STE. MARIE, December 6.—The gigantic ice breaker, Saint Marie, assisted by tugs and lighters charged again on Sunday with little effect against the ice formations on St. Mary's River which threaten to imprison for the winter the fleet of lake vessels bound for Canadian and United States ports. After working all Saturday night and Sunday, the Saint Marie succeeded in freeing three upward bound vessels—the C.P.R. liner Assiniboia loaded with passengers, and two freighters.

A total of 125 vessels with aggregate cargoes valued at more than \$25,000,000 are still tied up in the river.

IN ST. LAWRENCE
14 steamers, mostly outward bound, were caught in the ice on the St. Lawrence River during the week-end. This morning as far as the eye could see the river was covered with a coat of ice six inches thick.

DAILY EDITION. Monday, Dec. 6, 1926

TRUMP FOR CENTRAL B.C.

As Canadians we were generally pleased to see Herman Trelle, the Peace River rancher, carry off world's honors for excellence of wheat and oats production but there was, undoubtedly, a greater degree of interest and gratification when it was announced that two Francois Lake farmers, C. D. Haven and H. Braaten, had carried off the honors at the big show for timothy seed with Telkwa farms well up in the same class.

It goes as further proof of what we already know that the great Bulkley and Nechako valleys have potential agricultural possibilities not only in the way of stock raising but in growing the feed for horses and cattle. The farmers who sent their exhibits to Chicago are to be congratulated on their product and also for their enterprise in sending their exhibits to the show. The results may be far reaching and, in any case, will serve to put the country strongly in the public eye as the outcome of these competitions are watched closely by farmers in all sections of this continent and by many elsewhere.

With this demonstration of so notable a character of what good farming can accomplish in Central British Columbia, a powerful stimulus may be given to its development. It is greatly indebted to the farmers who entered the contest and won in the face of the very stiff competition that they had to meet.

SYMPATHIZE WITH QUEEN CHARLOTTE.

The people of Queen Charlotte City are to be sympathized with not so much on account of the disastrous fire that visited their town last week but more so because of the failure of the mill company which has caused them no little disappointment and inconvenience when they thought they were well on the way to prosperity. Some complaints have come from the Islands as to the way the bankrupt company treated its employees and the business people there. Probably the company had no other alternative but it is gratifying to know that its affairs are now in the custody of one of the province's foremost and most reliable lumber men whom they may be assured will do the best possible for them.

SOMETIMES IT'S BRAVER TO LIVE THAN DIE.

Sometimes it is braver to live than to die. Certainly such would have been the case with the man in Vancouver who poisoned himself last week because he did not believe he could provide for his destitute wife and five children. In fact suicide is never an admirable thing. In practically every case it is the act of a person who is either mentally deranged or afraid to face the future and, in the latter case, it is a cowardly thing.

ASSOCIATED BOARD SEEMS GOOD MOVE.

The movement to form an Associated Board of Trade for Central British Columbia looks like a wise one. It almost seems strange that it was not thought of before. The Prince Rupert Board used good judgment when it decided to become an active member. With such centres as Prince Rupert, Smithers, Vanderhoof, Prince George showing a united front, it will undoubtedly be easier for Northern B.C. to go after the things it needs and get them.

L.O.B.A. ELECTS OFFICERS FOR 1927

Mrs. M. Munro is Head of Ladies' Organization of Orange Lodge. The following officers have been elected for the coming year by the Ladies Orange Benevolent Association: Past Mistress—Mrs. M. A. Cox. Worthy Mistress—Mrs. M. Munro. Deputy Mistress—Mrs. J. Viereck. Recording Secretary—Mrs. M. Roles. Financial Secretary—Mrs. B. Anderson. Treasurer—Mrs. E. Brewerton. Chaplain—Mrs. M. McRobbie. Director of Ceremonies—Mrs. A. Cox and Mrs. M. Leek.

Houston. First Lecturer—Miss M. Viereck. Second Lecturer—Miss J. Martin. Inner Guard—Mrs. E. Murray. Outer Guard—Mrs. J. Munro. First Committee—Mrs. B. West. Second Committee—Mrs. M. Sim. Third Committee—Mrs. M. Guyan. Fourth Committee—Mrs. E. Moorehouse. Fifth Committee—Mrs. R. F. Anderson. Guardian—Mrs. M. Leek. Pianist—Mrs. E. Lemon. Captain of drill team—Mrs. M. Leek. Auditors—Mrs. J. Munro, Mrs. B. West and Mrs. F. Barber. Trustees—Mrs. E. Lemon, Mrs. M. A. Cox and Mrs. M. Leek.

United States Congress, Opening Session Today, Is Facing Big Problem

WASHINGTON, December 6.—The short session of Congress, better known as the "lame duck" session, opened today. The limping flock this year includes ten Senators and nearly half a hundred of the House.

Just who is author of the northeastern phrase is not a matter of official record, but it applies to those members who were defeated in the recent elections and who will not return to Capitol Hill when the Congress elected last November 2, convenes.

Besides those defeated at the polls, a number of Senators and House members who were not candidates for re-election are entering the concluding session of long terms of continuous service. Included in the group is Oscar W. Underwood of Alabama, for many years an outstanding figure in the Senate chamber, and Representatives Tinker of Kansas, and Voigt of Wisconsin, who have taken prominent parts in the affairs of the House.

James W. Wadsworth, Jr. of New York, chairman of the Senate Military Committee and George Wharton Pepper of Pennsylvania, are members of the "lame duck" flock in the Senate which also gathers under its brooding wing the following: Ralph H. Cameron of Arizona, Richard P. Ernst of Kentucky, John W. Harfield of Oklahoma, Irvine L. Lenroot of Wisconsin, William B. McKinley of Illinois, Rice W. Means of Colorado, Robert N. Stanford of Oregon, and O. E. Weller of Maryland. In the House both the wets and dry feel the effect of the last broadside of the voters as William D. Upshaw, of Georgia, one of the dry standard bearers for many terms, was sent to the "lame duck" group by a primary defeat, while John Phillip Hill, of Maryland, the leader of the wets, was unsuccessful in an attempt to capture the Republican Senatorial nomination in his state.

David W. Stewart of Iowa, although not a lame duck, will not return to the Senate after next March 4, being elected only to fill the unexpired term of the late Senator Albert B. Cummings, former Senator Smith W. Brookhart will take Stewart's place after that date.

Representative Frank D. Scott, of Michigan, chairman of the House Merchant Marine committee, also takes a place in the "lame duck" flock of the House after serving six continuous terms, while Francis P. Patterson, Jr. of New Jersey, and Nathan D. Perlman of New York, will depart from the House in March after serving four terms apiece.

Likely to be jam. Leaders will count themselves lucky this session if they can get through the temporary tax reduction bill, the rivers and harbors measure and the dozen annual appropriation bills necessary for the conduct of government affairs during the next fiscal year. Under its stringent rules, the House probably will have little difficulty in continuing its machine gun fire of legislation, but the jam will come under the more deliberate aim which the Senate takes.

Even the supply bills are likely to find the going slow in the Senate as they will be caught in the maw of filibusters now threatened on several subjects. Some of them no doubt will fall if proponents of farm legislation insist on a special session of the Seventieth Congress to consider that vexing problem.

With sentiment as to how the taxpayers shall be given the benefit of the Treasury surplus already sharply divided, the administration tax credit or reduction proposal will take up much time in both houses and may well be used as a vehicle to delay action on a number of other matters.

The recurring battle over prohibition will be fought on the Senate floor with the usual reverberations in the House. Their forces augmented by recent prohibition referenda, the wets have served notice that they will take advantage of every parliamentary situation, rule and procedure to block the administration measure designed to make the Volstead Act more drastic.

The administration bill for the leasing of Muscle Shoals will furnish the ammunition for determined fights in both branches of Congress with little prospect at present for final action before the last tap of the gavel at noon on March 4, ending the life of the Sixty-ninth Congress.

LAUSANNE TREATY. The Lausanne Treaty to re-establish diplomatic and commercial relations with Turkey is set down for Senate consideration on January 5 with a long and bitter contest in sight and with a two-thirds majority necessary to bring about ratification.

Since it will be taken up on December 14, under a special order, the rivers and harbors bill, passed by the House at the last session, should be put through the Senate before the Christmas holidays. However, opponents of certain provisions hope to so load the measure down with objectionable amendments that it will have scant prospect of final enactment by this Congress.

Besides these five major subjects, there is a raft of other important legislation, either on the calendars or in conference. It includes: Railroad legislation proposing consolidation of the carriers and the repeal of the surcharges on parlor and sleeping car accommodations.

The four billion dollar French debt settlement. Legislation for radio control.

The bill for construction of a great government dam on the Colorado River. Measures to carry out awards of the German-American Mixed Claims Commission and for the return of alien property.

The McPadden branch banking bill. The truth-in-fabric bill. A measure to establish foreign-trade zones at American ports of entry.

A bill to prevent the sale of cotton and grain in future markets. Legislation to promote the development, protection and utilization of grazing facilities on public lands.

An act creating separate bureaus of prohibition and customs in the Treasury and another to put prohibition field agents under the Civil Service. The French spoliation claims. Regulation of interstate and foreign commerce in coal with a view to bring about government supervision in cases of emergencies.

INVESTIGATION DEMANDED. So far as the Senate is concerned, there will be demands for a number of investigations some of which very likely will be authorized. Resolutions proposing six inquiries are pending and a number of others are being prepared by Senators.

The special committee appointed to investigate Senatorial primary and general election campaigns also may resume operations during the month. If not it will have its report ready within a few weeks and Senator Reed, Democrat, Missouri, the chairman will press for action upon it.

This will bring up the cases of Senators-elect William S. Vare, of Pennsylvania, and Frank L. Smith, of Illinois, Republicans, about whose rights to Senate seats has been raised because of heavy expenditures in their primary campaigns.

Ten tubes - count them!

Ready for Duty Every Night! Every Day! Just as a six cylinder car outperforms a four, and an eight excels a six, so does this Canadian-designed Canadian-built ten-tube set surpass in tonal quality, distance and selectivity any set you have ever heard. The unquestioned superiority of the MERCURY SUPER-TEN over all others was conclusively demonstrated in the recent Dominion wide reception test when it was awarded the Grand Silver Trophy for Highest Radio Efficiency. Yet the Mercury is not expensive to buy. It is still less expensive to own. The Ten Northern Electric Peanut Tubes which operate it consume less battery current than Two standard six volt tubes. Before you purchase a set at any price write for our free 24 page booklet, "The Story of the Mercury Super-Ten."

A WONDERFUL OPPORTUNITY FOR LIVE DEALERS. H. M. KIPP COMPANY, LIMITED, 447 Yonge St. Toronto.

POLISH LEADER M. PILSUDSKI

IS REORGANIZING ARMY AND HAS LARGE FOLLOWING IN COUNTRY

LONDON, Dec. 6.—The Times correspondent at Warsaw gives an interesting outline of the present situation in Poland and Marshal Pilsudski's probable future as follows: "The next session of the Sejm will, it is thought, mark the decisive point in the career of Marshal Pilsudski as the deliverer of Poland. The support he now enjoys is almost wholly personal. During the last four months he has been at work reorganizing the Higher Command in the army so as to make it his main source of strength. He has now around him a number—one hesitates to estimate it, but it must run into some thousands—of men, not only soldiers, who, under the spell of his personal magnetism, are prepared to lay down their lives for him without any regard for material reward. This, though a sufficiently striking phenomenon in the present age, hardly amounts to adequate support for the work which lies before him. He has also the affection of the common people, but that is probably not less fickle among the Poles than among other nations. Nor is it wholly disinterested, for there has been a marked cooling off in the enthusiasm of the Socialists for their one-time leader.

THE ONE HOPE. "Socialism in Poland is also at the parting of the ways, and these ways are the national and the international. Marshal Pilsudski joined the party (as did so many patriotic Poles) when it was a conspirator party opposing the one hope against Tsarist oppression. This Socialism had nothing in common with that of the international or the teaching of Karl Marx. He has remained the conspirator, and the more nationally-minded socialistic leaders, aristocrats by origin, like himself, show signs of cleaving to him. The doctrinaire Socialists will probably go their own way.

It is clear that, in the circumstances, Marshal Pilsudski must revise anew the basis of his power. There has recently been a good deal of talk about Polish Monarchism as the outcome of the incidents at Nieszewitz. It certainly gave some color to the rumor that Marshal Pilsudski contemplated alliance with the land-owning nobility on Royalist lines. But the whole Monarchist movement in Poland needs closer examination before that theory can be accepted.

DEMOCRACY NEW. The movement which is about four years old, began in the universities among the younger men, possibly as a reaction from the democracy which had become to them as much as absolutism or Bolshevism a symbol of suppression. The Polish peasantry regard democracy as a new thing; all of them have lived the greater part of their lives under Tsar or Kaiser, and their conceptions of leadership are monarchistic.

Hitherto Marshal Pilsudski has been immersed entirely in jealousies of internal politics, but the time is now arriving when he will face and attack the greater problems of state. He has shown little interest in the economic affairs of his country, and perhaps even regards them as a subject unworthy of the attention of a romantic soldier. Yet they dominate the fate of Poland.

It is now thought that the time has now come when Marshal Pilsudski will reveal whether he is the statesman or merely the romantic soldier-conspirator. As a conspirator he worked in secret and his methods can only be inferred. His aim seems to be to break up the existing classes to produce a combination that will support him on national lines, but seeks once more the man as opposed to the party. It is a program that will take time, and meanwhile Poland waits. Monarchism, Fascism, new groupings, are all symptoms of haste and nervousness on the part of a people that has now staked its whole fortune on the single throw."

Mrs. James Boyd returned on the Cardena yesterday from a trip to southern cities.

LAND ACT. NOTICE OF INTENTION TO APPLY TO LEASE FORESHORE. In Graham Island, Queen Charlotte Island Land Recording District of Prince Rupert, and situate at Ferguson Bay, Massett Inlet, Graham Island.

TAKE NOTICE that Powell River Company Limited of Vancouver, B.C., occupation Manufacturers, intend to apply for a lease of the following described lands:

Commencing at a post planted at the northeast corner of D.L. 1371; thence westerly, following northern boundary of said Lot to the northwest corner of said Lot; thence westerly, northerly and easterly, following the high tide mark of Ferguson Bay to the extreme easterly point of Echinus Point; thence southeasterly to the point of commencement, and containing 150 acres, more or less.

EVERY WOMAN SHOULD READ

HOW "FRUIT-A-TIVES" GAVE HER NEW LIFE

MRS. J. F. RUTKOWSKA.
 "For several years I suffered with severe constipation and was a nervous wreck. I had great pain in my limbs, and such terrible headaches I thought I would go crazy. I had no appetite, could scarcely eat anything without stomach distress. After reading about 'Fruit-a-tives' I decided to try them. Before I had taken three boxes, I was entirely well. I sincerely think 'Fruit-a-tives' saved my life."
 —Mrs. J. F. Rutkowska, Tolstoi, Manitoba.
 Indigestion, biliousness, headaches, nervousness, pains in the back and limbs are largely caused by allowing poisons to accumulate in the body. "Fruit-a-tives" is nature's remedy, made from intensified fresh fruit juices combined with tonics. "Fruit-a-tives" stimulates the bowels, liver and kidneys to normal action and brings about a condition of delightful health. Buy a box of "Fruit-a-tives", today. Enjoy life again. 25c and 50c, everywhere. 543

SPECIAL SAILINGS FOR VANCOUVER

In order to accommodate those desiring to go south after the schools close Friday, December 17, the Canadian National Steamships announce that on that day the SS. Prince Rupert will be held here until 8:00 p.m., arriving Vancouver on time Sunday morning, at 9:00 o'clock.
 The following week, on Wednesday, December 22, this steamer will sail for Anxox and Stewart at 4:00 p.m. instead of the usual sailing hour of 10 p.m., returning from the north, arriving here 6:00 p.m. Thursday and sailing for Vancouver 6:30 p.m. that day instead of 9:00 a.m. Friday. This boat will arrive Vancouver 9:00 o'clock Christmas morning.
 Accommodation on both these sailings is fast being taken up, and it is suggested those going south should make their reservations at early as possible. 294

TIMBER SALE X4302

Sealed Tenders will be received by the Minister of Lands at Victoria, B.C., not later than noon on the 23rd day of December, 1926, for the purchase of Licence X4302, to cut 6,841,500 F.B.M. of Spruce, Hemlock and Cedar, on an area situated on Maude Island adjoining Lots 460 and 461, Skidegate Inlet, Queen Charlotte Islands.
 Two (2) years will be allowed for removal of timber.
 Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.
 PULP TIMBER SALE X8440.
 Sealed Tenders marked, "Tender on X8440," will be received by the Honourable, the Minister of Lands, at Victoria, B.C., up to twelve o'clock noon on the 4th day of January, 1927, for the purchase of Pulp Licence X8440, to cut timber situated on Graham Island, Queen Charlotte Islands District. Thirty years will be allowed for the removal of the timber.
 All tenders must comply with Section 19 of the "Forest Act."
 The highest or any tender not necessarily accepted.
 Further particulars may be had from the Chief Forester, Victoria, B.C.

WATER NOTICE.

DIVERSION AND USE.

TAKE NOTICE that John Dybhavn, whose address is P.O. Box 1700, Prince Rupert, B.C., will apply for a licence to take and use 4,000 gallons per day of water out of an unnamed creek which flows northerly and drains into Nesto Inlet, about one mile from the head of the Inlet, on its south shore. The water will be diverted from the stream at the natural outlet of a small lake, about 650 feet from the mouth of the creek, and will be used for domestic and industrial purposes upon the 7 acres of land described as unsurveyed land for which lease is applied. This notice was posted on the ground on the 23rd day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is December 1, 1926.
 JOHN DYBHAVN, Applicant.

LOCAL AMATEURS TO STAGE FARCE

WESTHOLME THEATRE IS BEING BOOKED OUT FOR TUESDAY AND WEDNESDAY NIGHTS

There has been a large advance sale of tickets for the farce, "Mrs. Temple's Telegram," that is to be staged Tuesday and Wednesday evenings in the Westholme Theatre by the Prince Rupert Players' Club for the Gyro playground fund and all indications are that the theatre will be crowded both evenings.

The story of "Mrs. Temple's Telegram" is built around the prevarications of a fond "hubby" who got stuck in a Ferris wheel overnight with a fair friend and who, returning to "wife" the next morning in a rather disheveled appearance, had considerable explanations to make. The motif is clever and the play should prove a really pleasant diversion for local theatre-goers who are seldom given such a treat.

The cast, introducing several young people who are making their first bow on the local stage, will be as follows: Jack Temple, Syd Hunter, Frank Fuller, Jim Palmer, Captain Sharp, Dick Howe, Wigson, the butler, Harold Ponder, John Brown, George Pearson, Mrs. Temple, Miss Mackay, Dorothy, Miss Virginia Riel, Mrs. Fuller, Miss Louise Fisher, Mrs. Brown, Miss Nora Rivett, A. A. Connon, who has been unsparingly giving of time to have the play properly staged, will be director. Mrs. David Thomson and Miss Etanda Marsh will be costumieres and certain of the uniforms will be loaned by Mrs. Parker's Ready-to-Wear. Furniture will be loaned by George D. Tite.

ROPE AND HORSE PLAY FEATURES PICTURE IN WHICH TOM MIX STARS

Tom Mix, star of the Fox Films production "My Own Pal," has ample opportunity to display his daring horsemanship and his skill with the rope in this thrilling film which comes to the Westholme theatre tonight only.

In it, he is Tom O'Hara who comes to the city in search of thrills and joins the mounted police. In this character Tom puts Tony, his horse, through all his tricks for the benefit of his fellow police officers and shows how handy a rope can come in when crooks are to be apprehended and tied fast until further notice.

But he does not use his rope exclusively for the capture of thieves—he gains his way into the force because he has saved the niece of the chief from being injured in a runaway accident.

Vivacious little Olive Borden is selected to play opposite Mix in this production. Little Virginia Marshall is cast as his pal Jill. Others in the cast are Tom Senticl, Tom McGuire, Bardson 'Bard, Jacques Rolleps and Helen Lynch.

"MIDNIGHT FLYER" IS SPECTACULAR DRAMA

Roaring Romance of the Rails with Locale in Fend Infested West Virginia

A roaring romance of the rails, distinctive both in setting and characterization, comes to the Westholme on Thursday night when "The Midnight Flier," has its showing here. The locale is the feud-infested West Virginia mountains, and the antipathy of some of the tramping old mountaineers to "The railroaders" starts the action rolling "High, wide and handsome!" A series of great thrills and wonderful fights culminates in a daring jump between two locomotives on parallel tracks, travelling at seventy miles an hour. The boy engineer who has been called "yellow" by his comrades makes the intrepid leap from a freight engine to the cab of the runaway "Special," and in this rocking, swaying cab one of the most thrilling of battles takes place, with a burly, crazed mountaineer pitted against the hero. This whirlwind caps a phenomenal film with a prodigious punch, and provides the last word in glittering speed.

There is an excellent cast headed by such players as Cullen Landis, Dorothy Devore, Buddy Post, Charles Malls, Frankie Darro, Claire McDowell, Barbara Tennant, Elmo Billings and Alphonse Ethier.

The picture is based on two separate stories by Arthur Guy Empey, and this wealth of material has been combined into a cohesive, interest compelling whole.

SILLS SURPASSES SELF IN LATEST "HE-MAN" ROLE

Thrills of the sort you see once in a lifetime are promised for motion picture patrons in "Men of Steel," the big steel "special" which Earl Hudson just completed for First National, with Milton Sills in the starring role.

Sills has always been known as a "he-man." In past pictures he has been called upon to perform some hard feats, but in "Men of Steel" he surpasses anything in the "he-man" stuff

For Half a Century the Standard Successful Treatment

Dr. CHASE'S OINTMENT

PRINCE RUPERT AIDS CAMPAIGN

SUPPORTS MOVEMENT FOR HOME ECONOMICS CHAIR AT UNIVERSITY OF B.C.

Throughout the province and particularly where there are Parent Teacher Associations much thought is being exercised towards means of putting into action steps towards the early financing of the Chair of Home Economics in the Provincial University. The aim of the Provincial Association, backed by the local Parent Associations, is to raise sufficient funds to fund a chair of Home Economics in the University of British Columbia. The University authorities are in complete agreement with the project and the University buildings will provide ample accommodation. It is the payment of the salaries that the fund has in mind.

The Prince Rupert local is backing the project to the limit and the executive has been working on plans. It has set in the meantime, the rather modest objective of \$300. Prince Rupert has one of the finest and best equipped Home Economics schools in the province and excellent work is being done under Mrs. Darlington. Those who are conversant with the curriculum and the standard of work are the most enthusiastic supporters of the scheme to provide means of supplying Home Economics instructors from this province and not to have to obtain them from outside sources.

Other locals report most encouraging results from their efforts already. After three days' canvas Westminister had \$500, Kerrisdale \$300, Miss Lightfoot, ex-supervisor of Home Economics in Vancouver, made a personal donation of \$100. Girls in Prince Rupert, the Domestic Science class of the High

School have sent \$20.

An organized canvas, under the Prince Rupert Parent Teacher Association, is now under way and it is hoped that the efforts will be met with a response that will be a credit to Prince Rupert, and a real help to the funds of the committee in charge. The ladies who are giving their time toward the work are Mrs. Arnott, Mrs. Burt, Mrs. Christison, Mrs. Daigarno, Mrs. Galland, Mrs. J. P. MacMillan, Mrs. O'Neill, Mrs. D. C. Stuart, Mrs. Thurber, Mrs. Tucker, Mrs. B. West.

SPORT CHAT

Basketball games will be played this week on Monday and Thursday instead of Tuesday and Friday evenings. Tonight the games will be: Senior League—Elks vs. Terminals; Intermediate League—Grotto vs. Bankers; Ladies' League—Maple Leafs vs. Adanacs. On Thursday night the games will be as follows: Senior League—Native Sons vs. Elks; Intermediate—Native Sons vs. Bankers; Junior—Colts vs. Stars.

Having found that the evening programs recently have been dragging out to an hour that has been too late to suit the fans or allow the players to do their best, the Prince Rupert Basketball Association has decided that its games in future will be started earlier and more promptly. With three games on the schedule tonight, the first—the Intermediate—will start sharp at 7:15 followed by the Ladies' game and the Senior fixture which will start about nine o'clock. On nights when four games are to be played, the opening will be at 6:30 sharp.

With the closing of school next week for the Christmas holidays, a boys' basketball team representing the Anyox High School will arrive here on the morning of Friday, December 17, and will engage in a series of games with the Prince Rupert High School boys on that and the following night. This feature will be added to the regular basketball fixtures on the night of December 17 and arrangements will be made to supplement the inter High School games the next evening. The Anyox delegation will be led by Jimmie Mitchell, of the High School staff, who is coming with Mrs. Mitchell and the young heir for the Christmas holidays.

Other fixtures this week will be the St. Andrew vs. Grotto in the Billiard League tomorrow night and the Graind Terminals vs. Moose on Friday night. Tomorrow night the Ladies' Whist League games will be Orange Ladies vs. Pythian Sisters and St. George's Ladies vs. Moose Ladies. The first half of the men's whist schedule has been completed and tonight the Cribbage league will wind up until after Christmas with the following games: Grotto vs. Knights of Columbus; Canadian Legion vs. Dry Dock; Orange Lodge vs. C. N. Operators; Prince Rupert Hotel vs. St. Andrew; C. N. Mechanics vs. Moose; Sons of Canada vs. Cold Storage.

During Babe Ruth's visit in Vancouver last week, there was a competition to name the best collection of baseball players of all time in the Big League. Babe chose the winners as follows: Pitchers—Christy Mathewson, Cy Young, Walter Johnson, Alexander, Chief Bender. Catchers—Buck Ewing, Ray Schalk. First base—Cap Anson. Second base—Nap Lajoie. Third base—Jimmy Collins. Shortstop—Honus Wagner. Left field—Babe Ruth. Centre field—Tris Speaker. Right field—Ty Cobb. Utility infield—Eddie Collins. Utility outfielder—Willie Keeler. Manager—John McGraw.

MEN'S WHIST

In the last match of the first half of the season in the men's section of the Fraternal Whist League, the Moose beat the Native Sons of Canada by a score of 6 to 3 at the week-end. This makes the final standing of the first half of the season as follows:

W.	L.	Pts.
Moose	6	1 6
Elks	5	2 5
Oedfellows	4	3 4
St. George's (S. C.)	4	3 4
Knights of Pythias	3	4 3
St. George's (city)	2	5 2
St. Andrew's	2	5 2
Sons of Canada	2	5 2

GRUEN WATCHES

Interior Makes Progress in Mining and Outlook is Good Declares Resident Engineer

(By Douglas Lay, Resident Mining Engineer)

The present year has witnessed marked progress in both lode and placer mining and some advance in coal mining in the north-eastern mineral survey district. An optimistic outlook is engendered not merely because the production in all branches of mining for the current year is a marked improvement over that of last year, but also because of new discoveries. Two discoveries have been made, or have been brought to light, during the year which possess the earmarks of real importance—namely, a deposit of galena on the Onkenika River and a mineralization of essentially gold and silver values near Topley, on the Canadian National Railway. Both these are replacement deposits and will be more fully referred to in the body of this report.

Several companies, entering this district for the first time, have been carrying on somewhat active development. Among these may be mentioned British Canadian Silver Corporation and Marsh Mines, Consolidated, in the lode mining field and the Consolidated Mining and Smelting Company of Canada, Limited, in the placer mining field. A large number of small scale operations have been carried on at various points of the district. So far as actual lode mineral production is concerned, Duthie Mines, Limited, is in a class by itself, contributing about 90 per cent of the total.

Highly satisfactory results have been gained by the Kafue Copper Development Company's dredge on Antler Creek and by the Cedar Creek Mining Company operated under contract by B. Boe. Another very gratifying feature of this year's placer operations is the number of areas which have been or are being drilled to determine dredging possibilities. Keen interest has been evinced in the district by field engineers, especially in connection with the new discovery at Topley.

REDUCTION IN RATES

Of high importance to the district is the recent reduction in freight rates to the Trail smelter. The rate on ore valued at \$30 a ton is now \$6.50 a ton from Smithers to Trail. This rate rises to \$7.50 a ton in the case of \$50 ore and is \$10 a ton in the case of \$100 ore. This reduced rate was announced by the Canadian National Railways as being effective from August 2. Of interest also is the fact that the General Holding Company, Limited, of Edmonton, has a force of between ten and twelve men developing its mica properties on Mica Mountain, near Fort Graham, on the Finlay River.

The Peace Canyon Mining and Transportation Company is engaged in developing the Gething coal leases near Hudson Hope. In the investigation of the Tesla Mountain mineral area south of Eutsak Lake a new pass was discovered through the coast range, which apparently was only known previously to trappers.

Generally speaking, while the recent slump in silver is unfortunate, there are sound grounds for the belief that this district will witness important developments in the near future. The writer desires to express his thanks to the prospectors, operators, and mining men of the district for the many courtesies extended.

LODGE-MINING

Steady operations have been carried on by Duthie Mines, Limited, at the

WATER NOTICE

DIVERSION AND USE.

TAKE NOTICE that Gosse Packing Company, Limited, whose address is Vancouver, B.C., will apply for a licence to take and use 100,000 gallons per day of water out of Unnamed stream, which flows northwesterly and drains into Captain's Cove at head of Captain's Cove. The water will be diverted from the stream at a point about 700 feet from mouth and will be used for commercial and domestic purposes upon the land described as Lot 1253, Range 4, Coast District. This notice was posted on the ground on the 4th day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B.C., and the applicant may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 10, 1926.

GOSSE PACKING COMPANY LTD.

Applicant. By J. F. Strang, Agent.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND

In Oona River Land Recording District of Prince Rupert, B.C., and situate on an island in Oona River approximately opposite Block One and Two of Lot 2199, R. 5, Coast District, mostly tide flat surrounding small island.

TAKE NOTICE that John Bergman, of Oona River, B.C., occupation fisherman, intends to apply for a lease of the following described lands: Commencing at a post planted 300 feet north of northwest corner post of Lot 2199; thence 1,000 feet southeast; thence 200 feet westerly; thence 1,000 feet northwest; thence 100 feet to post planted, and containing ten acres, more or less.

JOHN BERGMAN, Applicant. Dated October 30, 1926.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND.

In Prince Rupert Land Recording District of Prince Rupert, and situate at Noto Inlet, Queen Charlotte Islands.

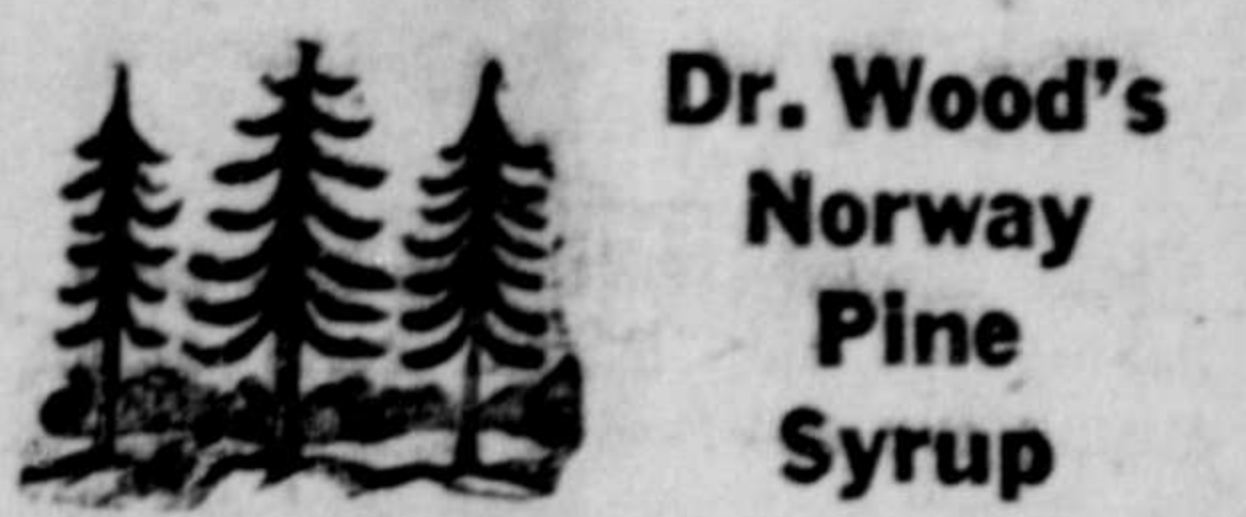

TAKE NOTICE that John Dybhavn, of Prince Rupert, B.C., occupation manager, intends to apply for a lease of the following described lands: Commencing at a post planted on the south side of Noto Inlet, about one mile from its head; thence south 6 miles from its head; thence south 6 chains; thence west 16 chains; thence north 6 chains to shore; thence east 16 chains, more or less, following the shore line to point of commencement, and containing 7 acres, more or less.

JOHN DYBHAVN, Applicant. Dated November 29, 1926.

The Children Will Catch Cold

Mothers should never neglect the first sign of a cold or cough where their children are concerned, for if they do some serious lung trouble is liable to follow.

Mrs. R. T. Hubby, 1022 Barrington St., Halifax, N.S., writes:—The children are continually getting colds, but I have no trouble with them, for just as soon as they begin to cough I give them a dose of

Dr. Wood's Norway Pine Syrup

which breaks up the cold within a day or so. I get great results out of it and would not be without it for anything. I can highly recommend it to any one.

Price 35c. a bottle; large family size 60c.; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Works in improving the trail. G. W. Otterson endeavored to get to Manson Creek from Vanderhoof with seven sleighs loaded with new placer-mining machinery hauled by a Fordson caterpillar tractor. Unfortunately, owing to the very mild winter and early melting snow, it was not possible to get farther than about 100 miles north of Vanderhoof. The machinery had to be left at that point, and it is understood that when fall snow permits the expedition will start again. Another attempt was made by J. Ogilvie during the summer to haul equipment in wagons over this route to Manson Creek. No word has been received as to what success was met with.

COAL MINING

Telkwa Collieries, Ltd.—With the aid of the Department of Mines a number of improvements were made during the year to the road between the Goat Creek Colliery and Telkwa, a distance of 5 1/2 miles. Shipments now take place by motor truck instead of sleighs as heretofore. A small force of men is employed at the colliery on development work which yields sufficient coal to supply the available market. It is anticipated that this year shipments will total 858 long tons.

PRODUCTION

Lode Mineral—The estimated total production of lode mineral is 2,032 tons, which is more than double that of last year. The following is a list of shipping properties and their outputs: Output Estimated to Oct. 31. Ttl. 1926

	Tons	Tons
Duthie Mines, Ltd.	1,547	1,847
Silver Cup	60	60
New Hazelton Gold-Cobalt Mines, Ltd.	25	25
Fiddler Group	30	100

Grand total 2,032 Placer.—The placer output of the district is estimated at \$285,000, as compared with \$210,098 in 1925.

NEW DISCOVERIES

Two discoveries of decided interest were made during the year, namely:—

(1) A deposit of galena—a replacement of Pre-Cambrian limestone—on the Ingenika River, 45 miles from Fort Graham. This is the Trout Lake group, owned by J. Ferguson. Fort Graham is situated approximately in the centre of a strip of Pre-Cambrian rocks, which extends a distance of approximately 125 miles north and south of Fort Graham, and some 15 to 25 miles east and west of the river systems, the Finlay and Parsnip Rivers, which have their courses in the Rocky Mountain trench. This region is of particular promise from a mineral standpoint, more especially because the Pre-Cambrian area in East Kootenay, occupying a precisely similar position in the Rocky Mountain trench has produced the famous Sullivan. The very great size of the ore bodies in the latter give grounds for the hope that something of the same kind of persistence will be manifested by the northern ore bodies. Very little development has been done on the Trout Lake group and the wisdom of a diamond drill campaign is apparent. Unfortunately this region suffers from geographic disability and an entire absence of roads. Ingress and egress is during the open season given by either the Peace River from Peace River (town) on the Edmonton, Dunvegan and British Columbia Railway, from which point the property is distant some 411 miles, or from Prince George via Crooked, Paek, Parsnip, and Finlay Rivers. The distance from Prince George is 322 miles.

(2) Red Top Group.—This is a replacement mineralization of iron pyrite, arsenopyrite, and galena, carrying values in gold and silver, occurring in a highly altered rock, which has not yet been definitely classified. This prospect

possesses many unique features, almost all critical exposures, whether of rock or mineral, being covered with glacial drift of considerable depth. It possesses the earmarks of developing into a milling proposition of magnitude, but even yet no real insight can be gained unless and until the property is thoroughly diamond-drilled. It is but 8 miles by motor road from the Canadian National Railway station at Topley, from which it lies in a north-easterly direction. Taking all features into consideration, it is no exaggeration to state that very rarely does such a prospect come to light. That it should have been found in the region where it occurs does F. H. Taylor, the locator, much credit.

Advice to Prospectors.—It is clearly advisable to prospect the region intensively, say within 10 miles of the Red Top group, in the hope of discovering a similar showing. While the region is heavily overlain with glacial drift in places, there are creeks and dry gullies which should be sought for exposures of the same kind of rock in which the Red Top mineralization occurs. It may be useful to remember that the trend of the mineralization is approximately N. 45deg. W. (mag.), but of course the width is quite unknown. Mackaboy Creek, about 1 mile east of Perow and perhaps 6 miles west of Topley, is a good starting place as rocks are well exposed on both sides.

Under the auspices of the Prince Rupert Municipal League, a public meeting will be held this evening in the Empress Theatre.

YUKON IS NOT LAND OF ICE

DOCTOR FROM MAYO DEFENDS TERRITORY FROM FALSE IMPRESSION GIVEN OF IT

WINNIPEG, Dec. 6.—Yukon territory, as the land of perpetual ice and snow, where men are men and barbers non-existent, exists only in the feverish brain of the obliging movie director, according to Dr. C. C. Ross, of Mayo, Y.T., who recently passed through Winnipeg en route to his old home in Minnedosa.

He says the Yukon climate is very much the same as that on the prairies, the residents of Mayo wearing similar clothes as prairie citizens and drive their cars all the year around. Of course, it does get somewhat chilly at times, admitted Dr. Ross. Two years ago they had ten days when the official temperature was 69 below zero but such cold snaps are exceptional. Mayo itself is a mining town, being the headquarters of the Treadwell Yukon Company which, last year, brought out ore to the value of nearly \$2,000,000 from their mines in the district.

Although it is 300 miles from the narrow gauge railway which connects Whitehorse city with Skagway, the town has a well equipped hospital, moving picture theatre and a good golf course. Those seeking a diversity of amusements can step from a bridge party to big game hunting in the woods around the town, where nothing lies between them and the Hudson Bay except untamed wilderness.

COST OF LIVING HIGH

The cost of living in Mayo is high, twenty-five cents is the smallest piece of money used, a hair cut costs a dollar and the price of butter the same price, but wages are in proportion. Radio is a great boom in keeping residents in touch with the events of the day in the outside world, as the newspapers are three weeks old by the time they reach Mayo. Swarms of tourists are visiting the Yukon every summer, according to Dr. Ross, and during the holiday season it is impossible to travel up or down the coast without making reservation weeks in advance.

The big handicap in the development of the territory is the lack of transportation facilities, especially in

WATER NOTICE.

DIVERSION AND USE.
TAKE NOTICE that Department of Public Works of Canada, whose address is Ottawa, will apply for a licence to take and use 3,000 gallons per day of water out of unnamed stream, which flows easterly and drains into Dodge Cove on the east side of Doggy Island, B.C. The water will be diverted from the stream at a point about 100 feet west of the northwest corner of Lot 35, subdivision of part of Lot 1993, Range V., and will be used for domestic purpose upon the land described as Doggy Island. This notice was posted on the ground on the 22nd day of November, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 24, 1926. DEPARTMENT OF PUBLIC WORKS, CANADA, Applicant.

Jack Sargent, who is attending King Edward High School in Vancouver, was at the head of his class in the mid-term examinations, thus maintaining the reputation of the youngsters of this district in their studies.

Dr. H. C. Wrinch, M.I.A. for Skeena, is visiting various points along the line of the railway preparatory to attending the forthcoming session of the legislature.

With weather good and the ground hard, pole men around here are taking full advantage of the conditions and this should be a record year for production.

George D. Paron, station agent, is on the job again after a holiday of two months.

Alfred Hall has returned from the prairies where he has been since summer.

MOTHERS TO JAIL

LONDON, Ont., Dec. 6.—Two women, both married, one a mother of seven, and the other a mother of two children, went to jail for a month for selling liquor. Each also was faced with an additional three months, unless they paid fines of \$200. The penalties are the minimum under the O.T.A. Both cases were tried in the city court.

NOTICE.

TO WHOM IT MAY CONCERN:
This is to certify that I have caused an investigation to be made by my Solicitors at the office of the Provincial Public Works Department, Prince Rupert, respecting the truth of certain slanderous reports that have been circulated concerning my personal integrity while acting in the capacity of Road Foreman for the Provincial Government on Graham Island. This is to notify the Public that such reports have been found to be absolutely without foundation, and to advise those who are responsible therefor that if the same are not discontinued forthwith, such persons will be prosecuted to the full extent of the law. Dated the 3rd day of December, 1926.
N. SCHAFER,
Lawn Hill, B.C.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made in printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.
