Amphibian Airplanes Called Here Today on Way to Alaskan Survey

Two United States navy amphibian airplanes which will be used this summer by the Alaskan aerial survey expedition stopped here for a little over an hour today on their way from Diego to Ketchikan. The stop here was in the nature of an emergency, one of the ships having run short of gas after developing a leaky carburetor. The planes came down across the harbor near the mouth of McNicholl Creek and, after repairs had been made with despatch, the one ship taxied to this and took on fuel at the Imperial Oil Co.'s plant. Having come here from Alert Bay in three and a half hours (260 miles), they arrived at 11 o'clock and took off again at 12:15 for Ketchikan.

York

LONDON, June 8.—The Daily Mirror understands that an anonymous letter has been received by the Duchess of York threatening to kidnap her when she goes to Sandwich with her baby. A similar letter threatening the King is said to have been received at Buckingham Palace some time ago. Both letters were in illiterate handwriting and are believed to have been sent by an insane person.

New Owner of Ladysmith Plant
Gone to Denver to Investi-
gate New Process

VICTORIA, June 8.—Herbert Carmichael, formerly provincial government assayer, under the Department of Mines of British Columbia, left this week for Denver, Col., where he will make a personal inspection of a plant specially designed for such work as they are to undertake in the north. Built of light duralium metal, they have a wingspread of 42 feet and are driven by 400 horse power Liberty engines inverted.

Lieut. Ben H. White, leader of the expedition, was pilot of one of the planes with Lieut. E. F. Burkett as second pilot and R. E. Bergsten, mechanic. Gunner G. G. Alexander was pilot of the second plane with G. F. Rocheville as second pilot. The latter ship was carrying the expedition's aerial radio outfit.

The mapping expedition, the equipment of which includes the tender Gannett now on her way to Ketchikan with a third plane on board as well as 42 officers and men in addition to her own crew of 60, will remain a month and a half at Ketchikan, later working out of Sitka and Petersburg.

The planes reached Ketchikan at 1:30 o'clock this afternoon according to advice by wireless.

PARLIAMENT TIRED OF TALKING MEMBERS ASKING THEM TO QUIT

(Edmonton Bulletin)

Members of parliament, of all political stripes, are said to be signing a round robin demanding that the long-winded minority curb their loquacity. Perhaps the appeal will get results. But the out-look would be more promising if the petition were sent to the constituents of the tireless talkers instead of to themselves. The voters have power to free Parliament and the country permanently of the nuisance, by making a slaughter of the time-wasters when polling day comes. And, human nature being what it is, there really isn't much chance that the vocal marathoners will voluntarily quit just when they have got their second wind.

Government Has No Present Intention of Leasing Grain Elevator Port of Vancouver

OTTAWA, June 8.—The Government has no intention at present of leasing or selling any public elevators in Vancouver or the wheat pool, it was stated in answer to a question in the House of Commons yesterday.

According to the Government statement, after verbal application had been made for the leasing of one of the Vancouver elevators, the chairman of the Vancouver Harbor Commission reported to the Government that the interests of the wheat pool were at present well served by the present system of operation without in any way impairing the service available to the general public.

If the board decides at any time to lease or sell any terminal facilities in Vancouver, the matter will receive the consideration of the government, the reply states.

Miss Florence Aitkenson of the stenographic staff of Williams, Manson & Gonzales is leaving at the week end for the south on holiday.

DICKERING FOR PEACE RAILWAY

C.P.R. Offer Not Much Better
Than One Made Earlier, It
is Said

GOVERNMENT OPERATION.

MONTREAL, June 8.—The Canadian Pacific Railway offer to the Alberta government in connection with the Edmonton, Dunvegan & British Columbia Railway, and the Central Canada Railway, which was received by Premier Brownlee some time ago, has not yet been accepted, and in railway circles here is not looked upon as being much in advance of the offer of the company which the Alberta government refused at the time the lease expired in July, 1925.

Continue Lease

Under the latest offer the C.P.R. is willing to continue the lease on the same terms and conditions as are in effect at the present time, with an additional condition that the C.P.R. is willing to pay \$60,000 per year towards the fixed charges of the road, and also to take care of the interest on the \$1,300,000 which is to be paid to the Royal Bank for a period of three years if the bank statement is cashed. The C.P.R. will pay the government an amount to cover interest under the terms of the agreement for three years.

The Canadian National offer, made at the time the agreement under which the road is now operating expired, is to take over and operate the road on a ten year lease, the Canadian National to take care of all maintenance charges and to split profits with the government on a fifty-fifty basis. Then when there is a guaranteed traffic of 10,000,000 tons annually from the Grande Prairie and Peace River districts the C.N.R. agrees to build an outlet to the Pacific coast.

Settlers Favor C.N.R.

In the country served by the road the C.N.R. offer is looked upon with favor as the coast outlet is the real solution of the northerners' transportation problem according to their own judgment. The C.N.R. has not made any change in this offer as far as can be learned here, although Premier Brownlee asked for a further offer some time ago when he was in Montreal.

Railroad circles believe that the calling of offers from the transcontinental roads is more or less a gesture, and that the policy advocated by Hon. Vernon W. Smith, of the government, taking over and operating the roads itself is the policy which has practically been decided upon by the provincial authorities.

LORD WILLINGDON STILL FAVORITE AS CANADIAN GOVERNOR

OTTAWA, June 8.—The impression persists here that Lord Willingdon is to be appointed Governor-General succeeding Lord Byng. He was formerly Mr. Freeman-Thomas, member of parliament for Hastings and later for a Cornwall constituency before going to India as Governor of Madras where he remained until 1924. He is said to have shown great skill in handling Indian problems.

MURDER CASE IS ADJOURNED

Preliminary Trial of Joe Sankey,
Charged With Loretta Chis-
holm Killing, to Proceed
Tomorrow

Preliminary trial of Joseph Sankey, charged with the murder of Miss Loretta Chisholm at Port Essington on May 23, at the request of A. M. Johnson, K.A.B., crown prosecutor, who stated that he was not yet ready to proceed, was yesterday afternoon adjourned until 9 o'clock Wednesday morning. L. W. Palmer, counsel for the defence, consenting. It is the intention to proceed with the case tomorrow so that it may be ready to be continued at the session of the Assizes provided the accused is committed for trial and it is decided to go on at this time.

After the adjournment yesterday afternoon, Mr. Johnson requested the witnesses to stay behind so that he might interview them. There are some thirty witnesses in the case.

The court room was filled with spectators who had expected that the case would be proceeded with yesterday.

Trap Licenses To Be Discussed.

Tonight there is to be a meeting in the city hall when those opposed the issuing of trap licenses will have an opportunity to voice their views. This is the time for those for or against to set themselves on record. It is useless to howl after the action has been taken.

There are arguments for and against these particular traps. The sympathy of any business person must go out to the company which put a lot of money into the traps on the assumption that they would secure the licenses only to be turned down when they had completed their end of the undertaking.

Opposes Taking Of Cases To Britain.

A King's Counsel of the Manitoba Bar gave an address recently in which he urged the desirability of Canada settling her own legal cases instead of taking them to the Privy Council in England. It is the view held by a great many Canadians.

The appeal to the Privy Council has in the past sometimes been used by corporations and rich people as a means of squeezing out poorer litigants who could not afford the cost of carrying their cases that far. Now by arrangement only very important cases are sent to the privy council so that the abuse of the privilege has been done away with.

It is very probable that the supreme court of Canada will soon be made the final court of adjudication.

First Tourists Here Yesterday.

The first large group of tourists arrived here yesterday and they spent some time in the city before continuing on to Alaska. They will also call on their southbound trip. A number of local merchants make an effort to cater to these people and the number who do so is increasing. Every dollar they leave here is a dollar found money.

In many cities the tourist business has assumed huge proportions and Prince Rupert should endeavor to get a share.

Small Policy Is Advocated.

The writer of a letter published in the Vancouver Province and reprinted in this paper today takes a very narrow attitude on provincial questions. He blames the newspaper for not taking the part of his own city against all others, especially on the grain elevator question, claiming that as the paper derived nearly per cent of its revenue from Vancouver it should urge the cause of that city and not do the boosting for the whole province.

There are a few people in Prince Rupert who think that a newspaper published here should be just as local as the writer of that letter would have the Province. They forget that the city is dependent on the surrounding towns and villages for its success. They also forget that if a newspaper is to be anything more than a little local sheet it must cater to the districts around. Prince Rupert people should be as interested in the success of Stewart, Anwoy, Alice Arm, Smithers, Telkwa and Burns Lake as they are in their own city.

The Vancouver Province sets out to be a newspaper for the whole Province of British Columbia and beyond. It is one of the national newspapers and as such cannot afford to be narrow or parochial in its attitude on public questions. It is the policy that will eventually make for the permanent upbuilding of Vancouver brought about through the development of the whole province.

Little Critics Do Not See Far.

There are always a lot of little critics in any town who see very little beyond the end of their noses. They lack vision. They have no imagination and would like to see everyone else equally restricted. Happily there are not many of them although now and then they are able to influence the rest of the community to some extent.

WHEAT POOL IS PLEASED

Morning Star Thinks Vancouver is to be Handled Over to Them

The Morning Star of Vancouver in an editorial article under the caption "Has the Pool Won?" has this to say:

According to an Ottawa despatch the conferences in progress over the proposal that the Wheat Pool lease Number One Elevator here have ended in a "settlement agreeable to both sides." If the terms of the settlement are those contained in the telegram, there need be no doubt that they are satisfactory to the Wheat Pool. "The elevator," it is stated, "will continue to be operated this summer by the Harbor Commissioners, but it is agreed that by the end of October the Commission will notify the pool whether or not the elevator will then be leased to it. If it is to be retained under the Harbor Commission, the pool will then be free to go ahead and provide such facilities of its own as are required."

Camouflage

This is simply so much camouflage. Beneath the smooth phraseology which implies that the disposition of the elevator is still an open question may be discerned the intention to hand it over to the Wheat Pool next fall. The Commissioners will continue to operate during the summer—when the elevator is doing little or no business—but before the end of October the pool is either to step in or be free to go ahead and provide such facilities of its own as are required." The pool, however, as everybody knows, is perfectly free to go ahead at once and provide its own facilities in Vancouver. Moreover, it cannot wait until October before it makes its arrangements for handling the new crop through this port. It follows that it would not delay beginning building operations a single day were it not very sure that the government would provide it with facilities by surrendering Number One Elevator through the Harbor Board.

Protest Futile

There can be no reasonable doubt, if the despatch is authoritative, that when Colonel Kirkpatrick returns to Vancouver he will have a very clear idea of the decision the Harbor Board is to render four months hence—when protest will be futile in the face of the accomplished fact.

THE MAN IN THE MOON says:

IN the good old days people were good to avoid going to hell; now they are good for nothing.

THERE are always a lot of people in town who want to run things. They might begin with the lawn mower.

MEN are always simple-minded. As boys they probably believed in Santa Claus and ghosts and possibly fairies and as they get older they get fat in hair restorer, colored water for medicine, or they think when they lend a five dollar bill they will get it back.

IF nobody left school early there would be nobody to hire the college graduates.

SEVERAL people have been looking for land in the Arctic. Possibly a lot of people here, who seem to be at sea all the time, might also go on a land search.

OBJECTION TO PRINCE RUPERT

Correspondent of Vancouver Province Objects to Stand of That Paper Favoring This Port

A man who signs himself James H. Stevenson of Haro Street, Vancouver, writes to the Vancouver Province objecting strongly to an editorial article published by them recently in which the leasing of the Prince Rupert elevator to the wheat pool was defended. The letter says:

The Letter

Not long ago The Province editorially rebuked Mayor Taylor for protesting against the leasing of the Prince Rupert elevator by the Alberta Wheat Pool at a nominal rental of \$100 per annum—this, in the opinion of the Mayor, and for that matter every loyal citizen who is interested in the progress of our city, being rank discrimination against Vancouver.

In the opinion of those who understand the grain shipping question, this will mean that practically the whole of the Northern Alberta crop will be shipped from Prince Rupert. That is bad enough, seeing that Vancouver would have got a fair share—fully 65 per cent—of this grain if the Rupert elevator had been on the same footing as regards fixed charges, etc., as the government-owned elevators are, but the announcement in a recent paper that the particular wheat pool which wishes to lease No. 2 elevator here will, if turned down, probably build at New Westminster rather than at Vancouver, is anything but a pleasant reading for Vancouver citizens. For this means that the bulk of the Southern Alberta pool grain will be shipped from the first-named port. What, then, will be left for Vancouver heaven only knows!

Boost for Province

As, in the past, The Province has always pulled for New Westminster, Prince Rupert and even Victoria—all keen competitors—as much as Vancouver, from which it derives 90 per cent of its revenue. There will, doubtless, in the near future go up in the form of an editorial a shout of joy that New Westminster is to have another elevator. In this connection it may not inappropriately be asked: Is Vancouver to do the boosting for the whole province? Not by any chance do either the press or the people of Victoria, Prince Rupert or New Westminster reciprocate and do any boosting for Vancouver. On the contrary, they knock us for all they are worth, and yet we have our leading and most influential newspaper all the time, in season and out of season, boosting for our competitors. Surely there could be nothing more unpatriotic and nonsensical than this.

I am an old-time resident and taxpayer in Vancouver and have been hoping that with the advent of better times, to which the development of Vancouver as a grain shipping port has contributed, real estate values, which as we all know have seriously depreciated of late years, would return to something like the figure at which they previously stood. But when I see the lack of public spirit on the part of our leading citizens, the inertia of our Board of Trade, and the disloyalty of our press, I simply despair and feel like pulling up stakes and getting out, concluding that Vancouver will never be a big city the same as, say, Seattle, Portland or San Francisco.

IT should be easy to write summer poetry. So many words rhyme with cold and wet.

THERE'S good everywhere—even in Hyder and Prince Rupert.

A KETCHIKAN party is coming here soon and the members have all taken the pledge that they will not taste a single drop of B.C. Liquor. They don't like it in single drops.

If Your Skin is Normal it is Without Blemish

A CLEAR, velvety-smooth skin from head to toe—that is the normal skin.

Any roughness or eruption is unnatural and unnecessary.

Most skin blemishes are caused by infection from the thousand and one things we touch during daily life—things that others have touched—by lack of towel friction after the bath, or the use of harsh, adulterated and so-called beauty soaps.

Mother, the Health Doctor, says:

Give your skin a chance. Use Lifebuoy regularly—exclusively—for casual cleansing and for the bath. Its rapidly vanishing cleanly odour is your assurance of its antiseptic value.

From babyhood to old age the purity and antiseptic qualities of Lifebuoy Soap will keep the skin normal and alive, and free from blemish.

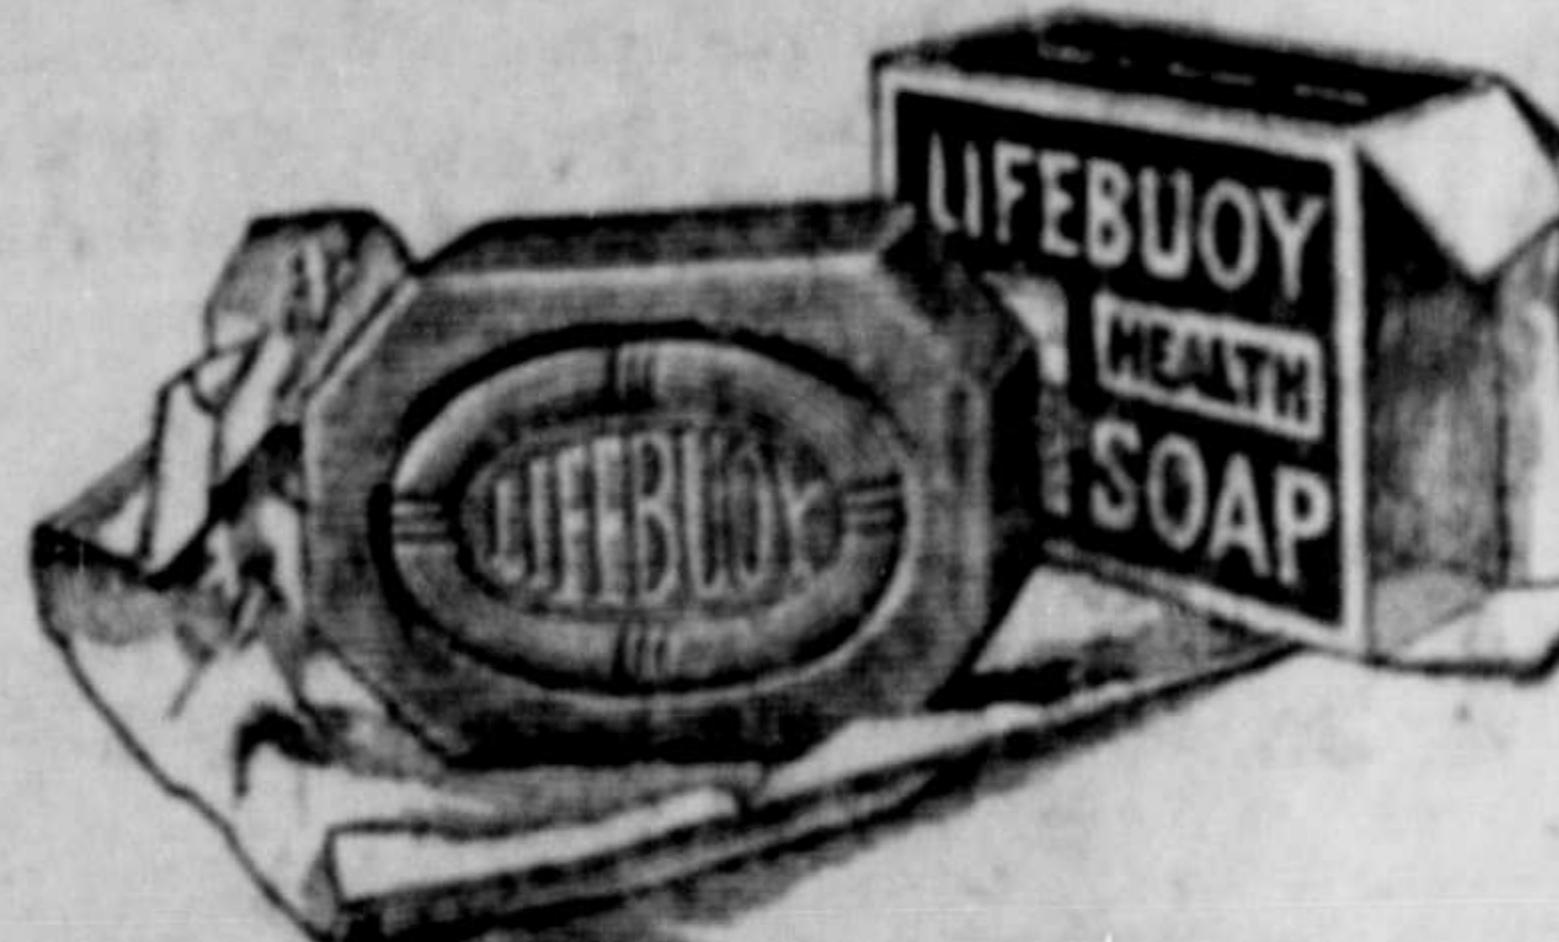

Lifebuoy's mild, creamy lather goes into the pores and keeps them open—alive—and protects against infection.

For a healthy, velvety-smooth skin, use Lifebuoy, the world's most widely used soap.

CHILDREN'S CONCERT FOR TERRACE HOSPITAL

Varied Program at Event and Performers Entertained at Supper Afterwards

TERRACE, June 8.—A number of the little girls around town, under the directorship of Mr. Mrs. R. W. Clayton, staged a concert in G.A.V.A. Hall on Friday evening and raised ten dollars to be used towards providing a children's cot for the new hospital. The scheme of decoration had been carried out entirely by the children themselves and showed considerable originality. O. T. Sundal presided and the program consisted of choruses, recitations, vocal solos, character songs and step dances. Mrs. O. Von Hees acted as accompanist for the evening.

Appreciation of the children's efforts was voiced by J. Morse Hatt on behalf of the hospital board and a vote of thanks was tendered to Mr. and Mrs. Clayton for their interest in the affair.

After the program Mr. and Mrs. Clayton served lunch to all those taking part in the program.

VANDERHOOF

George Hamilton has arrived here to relieve A. B. Laird, local manager of the Canadian Bank of Commerce, who has gone on his annual vacation.

The maximum temperature in Vanderhoof during the month of May was 82 on May 12 and the minimum, 19, on May 7. Rainfall amounted to 1.91 inch.

VALENTINO TO MARRY NEGRI

Affection of Stars is Mutual But Matrimonial Plans Not Made

HOLLYWOOD, Calif., June 8.—Rudolph Valentino yesterday admitted that he would not permit the forfeiture of a mere \$15,000 to interfere with his possible plans for matrimony.

He denied, however, that there is any basis for telegraphed reports from New York that he and Anna Negri would be married within ten days.

"It is entirely impossible," he said. "Nothing is farther from our thoughts. If we planned to be married even in the remote future we should certainly be only too happy to announce it."

Birthday Party

The New York dispatches declared Valentino and Miss Negri had telegraphed their intentions to friends in the East soon after the birthday party which Miss Negri gave in Valentino's honor last Saturday night and at which Hollywood's elite was plentifully represented.

"We made no such announcement," said Valentino, "nor did we discuss any such plans."

Asked point-blank about the general impression in some sections that Miss Negri's avowed affection was not reciprocated, Valentino became indignant.

Untrue Impression

"That is an unfortunate and entirely untrue impression," he said angrily. "It is the basest falsehood. My regard for Miss Negri is of the highest character. I wish to state once more that my affection is sincere, and that I consider Miss Negri one of the most charming and delightful women it has ever been my pleasure to meet."

"It is entirely true that our affection is mutual, but matrimonial plans are still a matter of the future."

"Reminded of his \$15,000 wager, recorded in Paris, that he would not marry before 1930, Valentino shrugged lightly.

"A mere matter of money would never interfere with the course of our romance," he said. "As a matter of fact, any conceivable amount of money would be infinitesimal compared to winning Miss Negri's affection."

Valentino has just begun a

CHOOSE LEADER CONSERVATIVES

Morning Star Mentions Possibility of Ladner, Maitland or Fulton Taking Position

The Morning Star, controlled by Victor Odum, M.P.P., at Vancouver, has a front page editorial article on the Conservative convention and the possibilities of leadership as follows:

Now that a Conservative provincial convention is definitely in sight, partly undercurrents are running with rumors of the moves being made in connection with the one big question the convention will have to decide—the leadership in British Columbia.

Will Harry Pooley, the popular locum tenens, maintain his position?

Will W. J. Bowser succeed in regaining his former ascendancy?

Will Leon Ladner leave the federal field and take a hand in provincial politics, as a compromise between the Bowser and Stevens wings?

Will youth be served, in the person of the provincial president, R. L. Maitland?

Or will the party turn away from all ambitious ones and induce the Hon. Fred J. Fulton to come out of his semi-seclusion and endeavor to restore complete harmony in the party?

Pooley in Possession

At this date it is impossible even for inside circles, to prophesy what will happen. The only certain thing is that there will be a contest and a lively one. Harry Pooley has the advantage of being in possession; and it is known that he wants to stay. It is equally well known that Mr. Bowser is biding his time with a compactly organized following and the control of the party funds. Leon Ladner has not made any formal announcement, but friends are working for him; and they claim to have the assurance that if sufficient support is forthcoming, he will be ready to make the change.

Time Favors Youth

About "Pat" Maitland there is a good deal of uncertainty. He has a very strong support, but it is possible that, in view of his youth, he will prefer to wait his turn. Time, it is conceded, is in his favor.

Mr. Fulton is probably quite unaware of the consideration that is being given him. It is not believed that he has any desire to get back into the hurly burly of politics. But he is very conscientious and his strong sense of duty might lead him to respond to the urgent call of his party.

OBJECTION IS TAKEN TO HANDBAG HAIRDRESSERS

Girls in Edmonton Visit Homes and Offices to do Work of Regular Beauty Parlors

EDMONTON, June 8.—"Handbag Hairdressers," operating out of a little suit case, and paying personal calls to hotels, apartment houses, and residences and even in some cases invading business offices to give their customers service in the noon hour are "cutting in" to the trade of the regular hairdressers and beauty parlors who operate in down-town premises and pay a business tax and heavy rentals.

DYBHAVN HOME VISIT TO EAST

Says Fred Stork Was Down With Flu; Weather Cold and Wet

John Dybhavn returned to the city yesterday afternoon's train following a trip East in the course of which he attended the annual meeting of the Biological Board and took up various matters pertaining to the fisheries after which he visited New York and Boston on business, returning home by way of Toronto and Chicago.

The principal business carried on at the meeting of the Biological Board has already been published in the Daily News. Mr. Dybhavn adds that it was decided to continue investigations into the salmon fisheries at the Cultus Lake hatchery near Chilliwack and, in addition, it was arranged that observations would be taken at Eagle River on Shuswap Lake to ascertain what numbers of fish if any return there following plantings that were made a few years ago.

Arrangements were also made to continue investigations as to the possibility of stocking the lakes in Jasper Park with sporting fish and it is expected that five men will be engaged in the work there this year. Preliminary work was started last summer.

Mr. Dybhavn found that there

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. L. M. Parks, Coneston, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw

recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

had been quite an epidemic of influenza in Ottawa. Fred Stork, M.P., had been down with the malady for a week but had resumed his desk at the House of Commons before Mr. Dybhavn left the capital.

Enormous Mackerel Run

Mr. Dybhavn visited New York just after there had been an enormous run of mackerel. In one day a million pounds was landed in New York. The fresh fish market was thrown out of gear as a result and western fresh halibut was down as low as 5c a pound wholesale while mackerel itself was selling at 2c. The market condition was becoming readjusted, however, as the mackerel run receded.

Mr. Dybhavn happened to be in New York on the morning of the arrival of the Crown Prince of Sweden who is on a trip of the world. The event was hailed with decorations in the city and was given great prominence in the newspapers of the metropolis. The Crown Prince of Sweden is a student of science being particularly interested in archaeology.

Rain in East

There was a good deal of rain in the East while he was there, Mr. Dybhavn reports. On the Atlantic coast, the weather was chilly and a week ago today in Winnipeg there was a bitterly cold wind. The rain was welcome on the prairies and put an end to soil drifting caused by previous severe winds. The prairies crop outlook is now very promising, particularly in Saskatchewan and Alberta.

On the way west, Mr. Dybhavn stopped off a day at Smithers and went out to his summer home at Lake Kathryn where Mrs. Dybhavn and family will be moving at the end of this month.

"Has your husband a prospering business?" a young bride was asked.

"Indeed he has," was the confident reply. "He must be taking lots of money, for he told me last night they had to appoint a receiver to assist him."
