LIBERALS AND PROGRESSIVES ARE UNITING

COAL CONFERENCE BREAKS UP SOON AFTER OPENING THIS AFTERNOON

Progressive Leaders Speak on Same Platform as Mackenzie King Brandon and Portage la Prairie

Harry Leader says King is safer man than Meighen: Dissolution of Parliament was act of a Mussolini

WINNIPEG, Aug. 19.—Speaking from the same platform Mackenzie King last night at Brandon, Robert Forke declared Premier Meighen had endeavored to form a real ministry instead of a temporary one, the Progressives would have seen dissolution through to the end. He declared the closing of Parliament by Mr. Meighen was "the act of a Mussolini and was an insult to the people of Canada."

At Portage La Prairie in the afternoon, Harry Leader, former Progressive member for this riding, pledged support to the Liberal candidate. He said he would support Mackenzie King because he was a "safer man than Meighen."

Mackenzie King at both meetings dealt with the constitutional issue and old age pensions.

The former premier is spending today at Winnipeg, leaving tonight for Northern Ontario, where he will address several meetings and resting Sunday at Ottawa. From there he goes to the Maritime provinces.

ODY FOUND IN FURNACE

ICE THINK VANCOUVER YOUTH WAS ELECTROCUTED FROM EXTENSION WIRE.

VANCOUVER, Aug. 19.—David, 21 years of age, was found dead, lying inside the furnace at the Abbey Academy, private school on Nelson street, this morning. When the gates became alarmed at the absence of Keenan they instituted a search. Wednesday morning he went to the basement to the furnace and it was necessary to break down the front of the furnace in order to remove body.

Keenan forced himself through a narrow opening taking an electric extension and the police believe he was electrocuted.

HEAT CROP MOVING EAST

Early Demand is From Europe and This Supplied by Great Lakes Route.

WINNIPEG, Aug. 19.—The new crop is now beginning to roll westward to the lakehead to meet the demand for early wheat in the markets of Europe. Following usual custom, the first part of the crop goes in that direction, will be nearly October before a large amount of wheat goes east to Vancouver and Prince Rupert.

HILLIONS ROUNDS OF AMMUNITION EXPLODED

NORFOLK, Va., Aug. 19.—A magazine said to contain a billion rounds of small arms ammunition, exploded at the army ammunition depot at Big Point last night. Nobody was killed or injured, the chief damage being to a magazine which was destroyed. Lightning was believed to have been the cause.

NOTICE TO LIBERALS OF SKEENA RIDING

The Liberal committee rooms, 303 Third Ave., next to the Electric Bakery, will be open every afternoon and evening until election day.

NASTY SLUR UPON VOTERS OF PRINCE RUPERT BY MEIGHEN

Premier Meighen speaking on the Prince Rupert elevator, Hansard, Page 3659, says:

"That is to say, the government is putting in an elevator at Prince Rupert at more than twice the cost of the elevator at Halifax."

"And again?"

"The government estimate that it will cost \$1,531,000 to elect their candidate for Prince Rupert."

TEN INNING AFFAIR WAS PITCHER'S DUEL IN NATIONAL LEAGUE

NEW YORK, Aug. 19.—The only American League game played yesterday was featured by a home run by Jacobson, but Boston took the fourth straight from St. Louis.

Chicago and New York in the National League staged a ten-inning affair, a pitching duel between Barnes and Root being the feature.

National League
New York 0, Chicago 1.
Philadelphia 0, Cincinnati 3.
Boston 1-4, Pittsburgh 4-3.
Brooklyn 3, St. Louis 6.
American League
St. Louis 2, Boston 4.
Others postponed.

The arrivals were as follows:

FISH ARRIVALS

Four Boats Sold 88,500 Pounds of Halibut at Fish Exchange This Morning.

Four halibut schooners marketed 88,500 pounds of fish at the Exchange this morning. Three American vessels received from 14.3c and 8c to 15c and 9c for 72,500 pounds, while one Canadian boat got 15c and 9.5c for 16,000 pounds.

The arrivals were as follows:

American

Lituya, 30,000, to the Booth Fisheries.

Spray, 36,000, and Wabash, 6,500, to the Canadian Fish & Cold Storage Co.

Canadian

Scrub, 16,000, to the Atlin Fisheries.

SEPT. 23 FOR BIG FIGHT

Dempsey-Tunney Match for Heavyweight Championship To Be at Philadelphia.

NEW YORK, Aug. 19.—Dempsey and Tunney meet for the heavyweight championship of the world in Philadelphia on September 23, Tex Rickard announces. The decision was made after receiving assurances from the Pennsylvania Athletic Commission that there would be no interference with the match.

We are writing you, therefore, asking you put us in touch with the various reliable suppliers of fir, hemlock and spruce logs in the Prince Rupert district who understand, to some extent at least, the needs of the Japanese market. If these suppliers will correspond with us, we will be glad to tell them just what we have in mind and see if we cannot put the business over.

"It is our idea to put into Prince Rupert ships of about four million feet capacity to load their full cargoes there for direct shipment to Japan. We would also be pleased to have you send us about three copies of a complete report on the harbor facilities of Prince Rupert.

NATIONAL TRADING & LUMBER CO.

VANCOUVER, Aug. 19.—Canadian women, it is to be hoped, will, in the coming election, prove beyond all doubt that they do not merit the scathing rebuke given their American sisters by Mrs. Olive Joy Wright in her presidential address to the 3,000 delegates of the National Federation of Business and Professional Women's Clubs in convention in Des Moines, Ia. She said: "The indifference of the average woman to the privileges and responsibilities of citizenship is a matter of great concern. The women are needed, and could make a great contribution to the political life of our nation, just as they have proven so valuable an addition to the business and professional world."

WOMEN EXPECTED TO VOTE AT ELECTION

Mrs. James Carmichael of Los Angeles returned to the city on yesterday afternoon's train after having spent a couple of weeks at Pacific visiting with Mr. and Mrs. Thomas McCubbin.

INFORMATION ASKED REGARD EXPORT LOGS

Board of Trade Will Put Seattle Firm in Touch With Local Firms

The board of trade will put a Seattle shipping firm in touch with local firms likely to have logs for export. Here is the inquiry they have received and which is being answered:

"Our company is engaged exclusively in the exportation of Pacific Coast forest products to Japan. We are now in receipt of a letter from our Kobe office wherein they advise us that there is a possibility of sales in Japan of full cargoes of fir, hemlock and spruce logs and a small amount of lumber, for Japan, the same to be loaded at Prince Rupert.

"We are writing you, therefore, asking you put us in touch with the various reliable suppliers of fir, hemlock and spruce logs in the Prince Rupert district who understand, to some extent at least, the needs of the Japanese market. If these suppliers will correspond with us, we will be glad to tell them just what we have in mind and see if we cannot put the business over.

"It is our idea to put into Prince Rupert ships of about four million feet capacity to load their full cargoes there for direct shipment to Japan. We would also be pleased to have you send us about three copies of a complete report on the harbor facilities of Prince Rupert.

Coal Strike Negotiations at End Soon After Opening Today; Both Stand for Old Position

LONDON, Aug. 19.—Negotiations between the coal owners and miners, which were expected to bring about peace, collapsed shortly after the opening of the conference this afternoon. It is understood that both sides took up their old positions in the controversy, from which neither would recede.

The owners demanded an eight-hour day, the settling of wages according to the economic position of the industry and district settlements.

The miners insisted on a seven hour day, a national agreement and, in regard to wages, refused to move until there were definite guarantees in regard to the reorganization of the industry.

TWO YEARS IN JAIL FOR GIRL

Emma Lindblom, Teller of Bank of Toronto at Preeceville, Is Sentenced.

An inquest into the death of Martin Fotland of the American halibut schooner Lincoln, who lost his life in an explosion aboard that vessel on Tuesday afternoon, will be held on Saturday next it is expected. The date of the inquest is delayed on account of the illness of the coroner. After the inquest the body will be forwarded to Sealite for burial.

Hans Berg and L. Tweiten, other members of the crew who were injured in the explosion, were progressing favorably according to a report from the Prince Rupert General Hospital this morning.

The jury at the inquest will consist of Ben Self, Alex McRae, D. C. Stuart, Herbert Morgan, R. E. Benson and W. L. MacKenzie.

SEWARD, Aug. 19.—James Allen, a cod fisherman of the schooner Galilee, landed at the lighthouse at Cape Sarichef, the westernmost point of the Unalaska Aleutian group, after being adrift in a dory ten days without water with only raw codfish for food.

The keeper and machinist, who were the sole occupants of the isolated lighthouse, declared that each thought the other crazy when he heard Allen shout up or entering the lighthouse: "For God's sake give me assistance."

No one lives within miles of the lighthouse.

PRINCE RUPERT AND VANCOUVER BOTH BE BUSY

Chairman of Grain Board Says Alberta Crop Perhaps Better Than Last Year.

VANCOUVER, Aug. 19.—Although the Prince Rupert elevator will be operating in the season of 1926-27, the natural field of supply of the Vancouver elevators will not be affected, according to Leslie Boyd, chairman of the grain board of Canada, who is here for a public meeting to discuss elevator tariffs held here annually, which is on the program for today.

Mr. Boyd said Vancouver should handle at least 70,000,000 bushels of grain in the season as the Alberta crop was good, perhaps better than last year.

IS HARD TO DOWN POLICY

Meighen Again Protests That he Does Not Propose to Amalgamate Railway Systems

JASPER, Aug. 19.—"Our policy is stern fearless Canadian policy," said Premier Meighen at a brief meeting here last night. He urged his policy of moderate tariff on a protective basis, taking the ground that under a Canadian raw products would be manufactured at home and employment encouraged.

At Blue River in the afternoon, Mr. Meighen emphasized that he had no intention of amalgamating the Canadian National with the C.P.R. "I do not know," he said, "how it is but the malicious falsehood that I have murderous designs against the Canadian National is harder to down than any other. A viler falsehood," added Mr. Meighen, "was never circulated among honest people than to say I propose to amalgamate the two systems."

COD FISHERMAN ALMOST LOST

Managed to Reach Isolated Lighthouse After Being Out Ten Days

SEWARD, Aug. 19.—James Allen, a cod fisherman of the schooner Galilee, landed at the lighthouse at Cape Sarichef, the westernmost point of the Unalaska Aleutian group, after being adrift in a dory ten days without water with only raw codfish for food.

The keeper and machinist, who were the sole occupants of the isolated lighthouse, declared that each thought the other crazy when he heard Allen shout up or entering the lighthouse: "For God's sake give me assistance."

No one lives within miles of the lighthouse.

Terrible Accident on German Railway the Result of Some Persons Tampering with Rails

LEHRTE, Germany, Aug. 19.—Nineteen persons were killed and five seriously injured this morning when the Berlin-Cologne express, speeding at fifty miles an hour, was derailed near here. The tragedy is attributed to the deliberate loosening of the fish plates by unknown persons.

The police describe the wreck as the worst in years. The victims were so disfigured that only nine of the bodies, two of whom were of English people, were identified. The authorities fear others are dead in the wreckage. Witnesses of the accident state that the engine jumped the track and crashed into the embankment, dragging

four of the seven cars with it, the large reward is offered for their apprehension.

How Can They Expect Prince Rupert Support?

In view of the manner in which leaders of the Conservative party have consistently opposed anything in Prince Rupert, and particularly the elevator, it seems really wonderful that they can expect any residents of this district to support them. Today we publish a news item showing that while Prince Rupert has one elevator, Vancouver has six, yet they would not have given us that one had it not been for the persistence of Fred Stork, backed up by Fred Dawson, with the sympathetic support of the Liberal leaders. Now we have it and it would be wise to stay by the ship and see that it is put into operation. This is no time for a change, for we do not want another setback.

Mackenzie King Is Busy Man.

Mackenzie King is a busy man. It keeps him working all the time to prevent the Tories getting ahead of him, and he is succeeding. He was unable to come here because he considered he was not needed here as badly as at many other places. Prince Rupert people would have given him a royal welcome had he been able to get this far, but they realize the position and will elect their candidate anyway. He is probably the most active and hardest worked man in the whole Dominion today. It is great to have such a leader.

What Victoria Paper Says of His Visit There.

The Victoria Times, telling of his visit and address in that city, says:

"The Liberal leader began with a frank and lucid description of the situation which arose from the election last year, which was left to Parliament to clear according to historic usage, and which Parliament decided by giving the Liberals a sufficient working majority to enable them to proceed with the business of the session. Notwithstanding the difficulties with which the Government was beset, the session was exceptionally profitable to the country on account of the useful legislation which was passed."

"The Robb budget was one of the most notable budgets in the history of this Dominion. The reduction of the duties on motor cars, a sequel to the reduction of duties on agricultural, mining, sawmill and fishery machinery of two years ago, were of very great benefit to the Canadian people, while the factories where those products are manufactured never were so busy as they are now."

Tax Reductions Considered Important.

"Reductions in the income tax lifted burdens from thousands, particularly of the wage earning classes. The receipt tax was abolished and the penny postage restored. In a comparatively short time taxation reductions amounting to \$114,000,000 have been made, and that large sum is available for the ordinary channels of trade and industry. Notwithstanding this large reduction of taxation, the public debt is being decreased, whereas in Mr. Meighen's term of office taxes were extended and the public debt was increased. Our trade balance is now more than \$400,000,000, meaning that we sell much more to other countries than we buy from them. When Mr. Meighen left office we were buying \$30,000,000 more goods from other countries than we were selling to them."

"The old age pensions legislation, introduced by the Liberals, fought bitterly by the Conservatives but finally passed in the House of Commons, only to be contemptuously kicked out by the Senate also was referred to."

"The former premier devoted a large part of his address to the constitutional question, emphasizing the necessity of preserving in this country the usages and customs which have come to us from Great Britain, and showing how Mr. Meighen had disregarded them. Mr. King pointed out that British constitutional practice was a link of Empire, and that the men who held it lightly were undermining the whole imperial structure. The former premier was especially impressive in his recital of the insistence of Mr. Meighen on continuing with a "temporary government" in the face of the passage by Parliament of a resolution declaring that the Government was illegal and had no right to exist."

ELEVATORS ON PACIFIC COAST

Prince Rupert Prominently Men-
tioned in Harbor and Shipping,
Published at Vancouver.

For the first time Prince Rupert is listed as a port with an elevator in Harbor and Shipping, a Vancouver publication. The article in which this appears shows that Prince Rupert has one elevator with a capacity of 1,250,000 bushels, whereas Vancouver has six with a total capacity of 6,900,000 bushels. Yet Conservative leaders have objected strenuously and vigorously to Prince Rupert getting even that little.

The Vancouver elevators are as follows:

No. 1 Elevator, Vancouver Harbor Commissioners, 1,250,000 bushels.

No. 1 Elevator Annex, Vancouver Harbor Commissioners, 1,250,000 bushels.

No. 2 Elevator, Vancouver Harbor Commissioners, 800,000 bushels.

Vancouver Terminal Co., Ltd., 2,250,000 bushels.

Burrard Elevator, Burrard Ele-
vator Co., Ltd., 650,000 bushels.

Columbia Elevator, Columbia

Grain Elevator Co., Ltd., 125,000

bushels.

Vancouver Milling and Grain

Co., Ltd., 200,000 bushels.

Total, 6,900,000 bushels.

WILL REVIEW QUADRA CASE

Controversies Arising Out of
Enforcement of Liquor Act
in U.S.

WASHINGTON, Aug. 19—Controversies arising out of the enforcement of the Volstead Act and interpretation of rum treaties now constitute one of the most prolific sources of litigation reaching the Supreme Court.

While many important and highly interesting problems arising under the prohibition amendment have been decided, other crucial in enforcement remain to be solved.

Cover Wide Range

Some may be decided soon after the court reconvenes in October. Others will be presented in oral arguments early next term.

The cases pending cover a wide range, from attempts to nullify rum treaties which General Andrews regards as one of the most effective instruments in combating bootlegging, to technical questions in rather ordinary cases.

Seizure of the Canadian steamer "Quadra" off the Farallon Islands, liquor laden, on the ground that she was within one hour's sailing by her own power off the California coast, will be the basis for testing the jurisdiction of federal courts to try cases alleged to have originated outside the territorial limits of the United States.

THE MAN IN THE MOON says:

Did you ever hear about the tourist who got off the train at Sunnyside and got canned?

A woman recently lost \$900 to a fortune teller. That was the time the fortune teller got the fortune.

This is becoming a steady old globe. A French cabinet has been in office for two or three weeks.

I read that two Scotsmen got shot in a fight in a restaurant recently. One man got a beetle in his mush and the other man fought because he hadn't got one too.

Wouldn't it be a wonderful old world if all these politicians were telling the truth?

When you see a bunch of men in the Conservative committee rooms you can bet your life they have nowhere else to go.

Our house must be built with transparent bricks judging from the amount of our business the neighbors know.

How about a bit of salt on the tail of that sea serpent we heard.

PRICE \$90.

The Music Itself!

is what you hear in its true beauty
when the Orthophonic Victrola plays

"Where's the band?"

—And with that query a squad of railroad workers in a little Quebec village craned its necks to "see the parade". The music was coming from a new Orthophonic Victrola in a neighboring home.

In Winnipeg, the other day, a prominent organist stopped in the street to listen to the strains of pipe organ music floating from a window above. Mystified—led on by the touch of a master organist, he followed the music to its source, a new Orthophonic Victrola.

From the four corners of the Dominion—come these true stories of the "realness" of Orthophonic Victrola music.

These actual experiences prove again and again that you can make of your home a gay ball-room, a theatre, a concert hall, an opera house, a church, a salon or a quiet place for listening to pleasant music any time!

The Orthophonic Victrola is the music itself! A visit to any "His Master's Voice" dealer will tell you that!

H. F. McRae, a former editor of the Daily News and now residing in Seattle, is about to start the construction of a large apartment building in that city. Harrison Rogers, also formerly of this city, is the architect for the building.

J. G. Glossop, who has been superintendent of the elevator since its construction was completed until the time the plant was taken over by the Wheat Pool, returns on Saturday to Port Arthur, accompanied by Mrs. Glossop and family.

Jack Edwards, who left Prince Rupert about two years ago for Montreal, is now located in Vancouver where he is engaged in the insurance business. Mr. Edwards still has a warm spot in his heart for Prince Rupert and, after travelling across the Dominion, thinks this town is still one of the best bets.

ANSWERED WANT AD.
BOTHERED LADY BUT FURNITURE NOT SOLD

Yesterday a person who had some furniture to sell put an advertisement in the Daily News, but through an error on the part of someone, the telephone number was printed wrong. The result was that the home of some other lady was bombarded with inquiries, much to her disgust, while there were no applications to the proper address and the furniture was not sold.

The advertisement is printed correctly today and the telephone number is Blue 195.

An advertisement in the classified columns brings good results.

When The Babies Are Cutting Teeth THE MOTHER SHOULD USE

During baby's teething time, the bowels become loose and diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen, and cankers form in the mouth.

This is the time when the mother should use "Dr. Fowler's," and, perhaps, save the baby's life.

SHRINE CLUB FORMED HERE

New Organization Came into Being at Banquet in St. Regis Cafe Last Night.

The Prince Rupert Shrine Club came into being at a banquet meeting which was held in the St. Regis Cafe last night with Noble George Richmond in charge of the catering. Forty-two nobles of the 62 in the district who are eligible became members of the club, which is social in nature. The club, which is under the jurisdiction of the illustrious potentate of Gizeh Temple, Victoria, will meet on the second Wednesdays of each month and all visiting nobles will be welcome.

The officers of the club were chosen as follows:

President, J. A. Smith.

Vice-President, W. V. E. Spiller.

Secretary, R. V. G. Lepine.

Treasurer, Olof Hanson.

The executive will be chosen later.

It was mentioned at the meeting last night that it was proposed to hold another ceremonial of Gizeh Temple here in 1928, if enough candidates offer.

YOUTH SENTENCED TO FOUR YEARS IN PEN

Seventeen Theft Charges Against Nova Scotia Youth in Winnipeg.

WINNIPEG, Aug. 19.—Sentenced on 17 charges of theft, shop-breaking and outhouse breaking, George McDonald, 20-year-old Nova Scotia youth, was given four years penal servitude by Magistrate R. M. Noble in city police court this morning.

In sentencing the youth, the magistrate asked him whether he desired to spend his entire life in the penitentiary, or whether he wanted to be a free man. In order to help him make his choice, he said, he would sentence him to four years, in order to enable him to learn a trade and become a useful citizen.

Some months ago, McDonald appeared before Magistrate Noble, charged with seven thefts and was given suspended sentence at the instigation of a Salvation Army officer, who offered to give him transportation back to his home in Nova Scotia. It is alleged that the youth sold the ticket given him, and has been living an active life of crime since that time.

WOMAN JURORS ARE SEVERE ON PRISONER

LONDON, Aug. 19.—Women may be to "softer sex," but Sir Herbert Nield, member of parliament and recorder for York, does not think they have demonstrated it in their services as members of juries.

"I venture to think that a man is safer in the hands of the bench than he would be in the hands of a present-day jury. One finds the fair sex far more severe than the old-fashioned jury," Sir Herbert declared.

FUNERAL POSTPONED

The funeral of the late Mrs. A. O. Fratiks, which was to have been held today, has been postponed until Sunday afternoon owing to two of the brothers being out of town.

CONFIDENCE IN THIS PROVINCE

General Odium Gives Address of Most Optimistic Nature in Regard to Future.

GROWTH ELSEWHERE

Urge People to Get Out and See For Themselves What is Going on in B.C.

VANCOUVER, Aug. 19.—(By Mail).—Declaring that in every part of the world expressions of confidence in the future development of British Columbia were to be heard; that business men in London, in New York and other world centres were investigating opportunities here, and that everywhere save at home great optimism prevailed regarding the coast province, Brig.-Gen. V. W. Odium aroused enthusiasm at the closing session of the Associated Boards of Trade convention at North Vancouver.

Following the address, several members declared the doctrine of "Confidence in British Columbia and British Columbians," which was General Odium's subject, should be broadcast throughout the province.

Doctrine Vital

Confidence in British Columbia and British Columbians, said Gen. Odium, was a doctrine close to his heart. The thing most needful today was confidence in each other and in each other's ability and integrity. Apparently this was a blossom which for some unknown reason did not grow naturally; it had to be nurtured, and it should be made the basis of all commercial and political life.

To obtain confidence in British Columbia, the speaker asked his hearers to investigate. Are we healthy? Are we growing? Are there visible signs of progress in which we can have confidence?

Gen. Odium referred to the exodus to the south a few years ago. He felt heartsick at the groans of "blow ruin" heard on every hand. Thousands left British Columbia and went to California believing that only in that land was progress assured. But that exodus was stopped. Confidence was being restored and there was every reason for it.

Confidence Established

"When I first came to Vancouver," he said, "I saw a struggling young town on the shore of Burrard Inlet. A trip to Westminster was a journey through the wild. Inferior towns did not exist. True, Victoria was in existence, but the wealth of the island was almost unknown. British Columbia was unknown, unrecognized by the world. In that brief period all that we know as British Columbia has arrived. In every part of the world British Columbia has achieved a place on the map; in almost every part there is confidence in British Columbia. Apparently only at home are to be found doubters."

Referring to the growth of the shipping industry, the speaker told how, when his family left for Japan in 1886, it was necessary to sail from San Francisco. There was no nearer connection.

"Today," he asked, "what has British Columbia? Should not the question be, what is there British Columbia has not?"

The speaker urged his hearers not to read descriptions; not to study statistics, and not to take hearsay evidence, but to see things for themselves.

Vancouver, the nerve centre of this great and growing province, had grown to be a world commerce factor.

Vancouver existed because its roots were determined by the Creator that there should be upon that spot a great outlet for the growing commerce of British Columbia. He likened Vancouver to the head; the rest of the province to the members of the body, and said without sustenance from the other parts, the head would not continue in health and growth.

Resources Many

Confidence should reign among residents of this province if for no other reason than the immense possibilities of its natural resources.

Sometimes citizens are heard complaining of the \$19,000,000 in taxation required each year from 500,000 people. It was relieved to some extent by \$7,000,000 or \$8,000,000 relieved from other sources, so that actual taxation amounts to \$10,000,000 or \$11,000,000. "We must remember," he continued, "that we set the figure, and the total amount is not heavy as com-

BRINGING UP FATHER

pared with many other places." The growth of British Columbia's lumbering, mining, farming and fishing businesses gave further basis for confidence. He added that in a short time grain and shipping would be tremendous factors in the general prosperity.

Veterans Succeed

Examples abounded further of progress made in smaller industries. He cited the case of some returned soldiers who confronted by enormous difficulties started the cordage plant at New Westminster. They went heavily into debt, but they stuck to their task, and this year it was announced they would come out clear with a profit after operating charges and sinking fund and interest had been paid. The same motives actuated the men behind the Gregory Tire. And the reason for ultimate success, he explained, was that British Columbia is in a tactical location on a world route.

P.G.E. Railway

Referring briefly to the Pacific Great Eastern, General Odium said he had gone to some trouble to obtain expert opinion relative to this road. He asked an expert to state how he would go about providing B.C. with railway lines, providing the slate were wiped clean of all existing lines. He asked others the same question and every sketch provided that somewhere along the P.G.E. route a line of railway was provided.

Interests outside the province were keenly interested in the road, he said. Substantial men were in communication with the provincial government who had a real goal in view.

Reserves Untouched

Summarizing his remarks regarding resources, General Odium said the surface only was being touched as yet. There was known to be 74,000,000,000 metric tons of coal—a quantity hardly to be comprehended; water powers existed of immense potential value; only 1 per cent of the province's timber wealth was cut each year, more was burned, but experts stated the total was reproduced annually; the fisheries would never peter out; only 3 per cent of our agricultural lands are cultivated.

"We have tremendous reserves," he said. "We pay our bills as we go; our turnover increases annually; the number engaged in wealth producing

grows each year. All these are indications that British Columbia is on a sound basis. Isn't this sufficient to give us confidence in our province?"

FAT ENABLED GIRL TO WIN

Feat of Gertrude Ederle in Swimming Channel Analyzed by Another Swimmer

TORONTO, Aug. 19.—At last the fat girl has come into her own. Increased fat, almost as much as her great natural speed, enabled Miss Gertrude Ederle of New York to conquer the English Channel, according to George Heben Corsen Sr., himself a swimmer of international note, and one of Canada's foremost swimming instructors. He says: "There is no reason in the world why a woman should not swim the English Channel far more easily than a man because a woman can stand the cold water better. Miss Ederle is a very fast swimmer. She has a flutter leg drive that fairly hauls her through the water and she learned to swim in a bathtub just nine years ago. She has been constantly coached on the crawl stroke and is good on either speed or distance. Miss Ederle has flat broad feet that are almost as good as fins, has enormous broad shoulders, a flat back and large hands. Besides this she is fat. Father than she was last year, thus she has practically every natural advantage in her favor."

GIRL TENNIS PLAYER FIFTEEN YEARS OLD

Learned Game on Village Court and Now Beats all Comers in South

ST. GABRIEL, La., Aug. 19.—At fifteen years of age Doris LeBlanc is one of the promising tennis players of the women tennis players of the south.

Miss LeBlanc went to the southern tournament in New Orleans where she entered both the senior women's singles and the mixed doubles. In the former she went to the finals without losing a set, only to bow to Miss Irving Murphy, of New Orleans, who became southern women's tennis champion for the seventh consecutive time.

In mixed doubles Miss LeBlanc played with the veteran Mills Newton. With him she again went into the finals only to lose the championship in this class to Miss Murphy and Maurice Bayon, of New Orleans.

Having just completed her junior year in high school, Miss McBlane began playing tennis when she was eleven years old. She learned the game on the single court this village boasts.

WATER NOTICE

TAKE NOTICE that Standard Mines Corporation whose address is 626 Pender St., Vancouver, B.C., will apply for a license to take and use 2,000 cubic inches per day of water from the South Fork of McBride Creek, which runs eastward and drains into Dease River, about nine miles from Dease Lake.

The water will be diverted from the stream at a point about one mile up the South Fork from its mouth and used for mining purposes upon the hydroelectric power plant at McBride Creek.

This notice was posted on the 24th day of June, 1926.

A copy of this notice and an application thereto and to the "Water and Water Resources Board" Telegraph Creek.

Objectors to the application may file with the said Water Resources Board, the Comptroller of Water Rights, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is July 15, 1926.

STANDARD MINES CORPORATION, applying.

REGRET OVER S. K. CAMPBELL LEAVING CITY

**Harry Birch Appointed Delegate
to Convention in September**

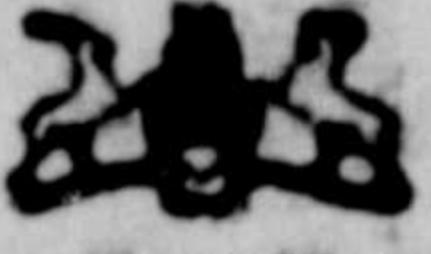

Expressions of genuine regret were voiced at the regular meeting of the hospital board last night when the resignation of S. K. Campbell, president of the board, was received. Mr. Campbell, who has been promoted to an inspectorship in the service of the Canadian Bank of Commerce, will leave for the south on Saturday of this week. J. H. Thompson, vice-president of the board, was in the chair at last night's meeting and those present included Directors G. P. Tinker, S. D. Johnstone, Mrs. Morrissey and Leo Waugh and Secretary Harry Birch.

Mr. Birch was appointed delegate to the convention of the B.C. Hospitals' Association which will be held in Vancouver in September. It was announced that it had been decided to pool the expenses of all delegates. This will lighten the cost of sending a delegation from Prince Rupert to this convention which it was originally intended to hold here.

On account of the overcrowding that has been experienced during the past few months in the present accommodation at the hospital, it was decided to kalsomine and equip with beds the ward in the basement so that it may be ready for use in case of emergency.

An expenditure not to exceed \$100 was authorized for the new walk to the Nurses' Home which will be built by the city.

Mrs. R. F. Perry left on Tuesday for Taft, California, to visit her daughter. She expects to be away about two months.

CANCELLATION OF RESERVE

Colonel Andrews Tells of Man-
ner in Which Arrangement
Was Brought About
With Britain

NEW YORK, Aug. 19.—Discussing the new anti-smuggling arrangement entered into between Great Britain and United States, Colonel Andrews, head of the prohibition enforcement division of the treasury department, said the machinery he would set up in Washington would be founded on "a matter of exchange of information and evidence." Each country, he said, would stand by "to see that its own laws are observed."

The meeting in England, he explained, was a meeting of the representatives of the executive departments of both governments getting together to discuss this smuggling with a view of arriving at a common understanding of the facts, and agreeing upon the administrative machinery which would tend to stop illegal shipping operations.

To Aid Enforcement

"That is what I went over to do, and that is what we did." The conference was "125 percent successful," he said, "and will have very marked effect for

THE BANKRUPTCY ACT.

IN THE ESTATE OF ANNIE RICHARDSON, Authorized Assignor.

NOTICE is hereby given that Annie Richardson, of Prince Rupert, B. C., did on the 15th day of August, 1926, make an authorized assignment of all her property for the benefit of her creditors, and that B. C. Creditors' Bankruptcy has appointed me to be custodian of the estate of the debtor until the creditors at their first meeting shall elect a trustee to administer the estate of the debtor.

NOTICE is further given that the first meeting of creditors in the above estate will be held at the office of the Official Receiver at the Court House, Prince Rupert, B. C., on the 24th day of August, 1926, at 10 a.m.

To entitle you to vote thereat proof of claim must be lodged with me before the meeting is held.

Proofs to be used at the meeting must be lodged with me prior thereto.

And further take notice that if you have any claim against the debtor for which you are entitled to rank, proof of same must be filed with me within thirty days from the date of the filing of the case. Creditors' Bankruptcy parties entitled thereto being regard only to the claims of which I have then notice.

DATED at Prince Rupert, B. C., this 17th day of August, 1926.

WILD ANIMALS ARE NUISANCE ON LINKS

Golf Seriously Interfered With in Africa By Lions, Elephants and Other Beasts.

BULUWAYO, British South Africa, Aug. 19.—Wild animals from the jungles have been hindering golf in Rhodesia. Sharp shooters have been posted on some of the links with the view of shooting away the pesky beasts.

At the Winkie course a rhinoceros has been appearing as a natural hazard/much to the discouragement of the players, while two lions have been seen frequently sauntering about the links at Beira. One of these was afterward shot by the men on out-post duty.

Between Beira and Dondo two grown elephants and a baby elephant tramped onto the main railway line and nearly wrecked a train. One of the animals was killed, and the "elephant" catcher of the locomotive was smashed.

CHINESE ATTACK AMERICAN CONSUL

HARBIN, Manchuria, Aug. 19. G. C. Hanson, American consul here, was the victim of an unprovoked insult at the hands of Chinese soldiers who barred him from the consulate, making Hanson a prisoner in his own quarters.

The situation developed while a mid-afternoon group of Chinese bandit suppression troops were drinking from the fountain in the consulate courtyard. Hanson was making his way from the consulate through an iron-gated gateway when he was thrust back and threatened with up-raised rifles. Noting their mood, the consul submitted to their offensiveness and waited until they departed. Mr. Hanson immediately demanded from the Chinese authorities punishment of the offenders, an apology of their superior officer, at the consulate, in uniform, and informed the United States legation at Pekin of his action.

The eight recommendations contained in the agreements will be acted upon at once, he said. The agreements have been approved by Sir Austen Chamberlain of the Foreign Office and by the United States Department of State, and there is no further need for correspondence.

WATER NOTICE

Diversion and Use

TAKEN NOTICE that Somerville Cannery Company Limited, whose address is Gore Avenue, Vancouver, B. C., has applied for a license to take, use 25 gallons per minute of water out of unnamed stream, which flows northerly and drains into Ferguson Bay. Masset Inlet, about 4 chains west of W. C. Dist. object to this application and demand that the Water Recorder, with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper, fix the date of hearing. Publication of this notice is July 20, 1926.

SOMERVILLE CANNERY COMPANY, LTD., Applicant.
