## BEER PARLOR PLEBISCITE IN VANCOUVER

### CAMPAIGN IN SOUTH IN FAVOR OF AIRPLANE PATROL OF FISHERIES HERE

#### Plebiscite Was Taken Vancouver Beer Parlors and Prohibition Asked

Large number of women patronized refreshment places many of them young says resolution asking for campaign

VANCOUVER, April 29.—Unknown to patrons of Vancouver beer parlors volunteer census takers working for the Vancouver East presbytery of the United Church were posted regularly outside and checked up parched searchers for the flowing foaming pint as they hastened to the oases, no fewer than 8 earnest workers being engaged in the task.

On the night of April 9 picketing parties of two men each took positions outside fifty beer parlors and reported that within an hour 2,396 men and 284 women decided it was time they hoisted a few foaming beakers.

Again on the night of April 17 church workers took up vigil outside five parlors and within one hour counted 766 men burning up the pavement in their haste to down a few long ones before closing time. In the same interval 143 members of the so-called weaker sex decided to wrestle with the malt product.

As a result of the report the Presbytery passed a resolution deploring the fact that a large number of women, many of them young, patronized the parlors and called on the church to lend assistance in a definite campaign to the end that "bone dry" legislation should be enacted and enforced.

**MRS. ANNA READMOND LAID TO REST TODAY**

Funeral took place this afternoon from B.C. Undertakers to Fairview Cemetery.

The funeral of the late Mrs. Anna Readmond, whose death occurred on Monday evening last, took place at 2.30 this afternoon from the chapel of the B.C. Undertakers to Fairview Cemetery. Rev. Thomas D. Rinde of St. Paul's Lutheran Church officiated and W. Vaughan Davies presided at the organ. Pallbearers were Sam Haudenschild, W. Rothwell Sr., W. Rothwell Jr., A. O. Franks, Percy Cameron and Fred Wesch.

There were a number of floral tributes including pieces from Mr. and Mrs. F. W. Wesch, Mr. and Mrs. J. J. Robertson, Mr. and Mrs. H. F. Robins, Mr. and Mrs. N. Mussallem, Mr. and Mrs. A. O. Franks, and Miss M. Cross.

**SIR RICHARD SQUIRES FINED \$300; FAILED TO MAKE TAX RETURNS**

ST. JOHN'S, Newfoundland, April 29.—Sir Richard Squires, former premier of Newfoundland, was found guilty today of failure to submit income tax returns for the year 1918 and was fined \$300. Last November, Sir Richard was fined \$4,000 on a similar charge and trial on six additional charges is to follow.

In answer to a communication from the secretary of the Hospital, the Rotary Club today concurred in the suggestion to name the new children's ward the "Bill 60 I.O.D.E. Ward."

C.N.R. steamer Prince John, Capt. E. Mabbs, from Vancouver via the Queen Charlotte Islands, is due in port tonight or tomorrow morning.

ON THE JERIGHO GREEN: "Chuck" Hunter, brilliant young Tacoma, Washington, player, putting during his final match with Jack Westland, of Washington University, during the fight for the amateur title in the recent British Columbia golf classics. He won the match. "Bob" Stein, the Seattle "siege-gun," previous holder of the title, fell by the wayside before F. C. Thompson, of Vancouver, in the eights.

#### URGING PATROL OF FISHERIES

Airplanes Only Effective Method is Opinion in South Says Vancouver Despatch

**MAYOR TAYLOR ACTIVE**

Provincial and Federal Authorities at Victoria Deplore Action of Department

VANCOUVER, April 29.—There is a campaign on both here and in Victoria for the purpose of securing an airplane fisheries patrol for northern British Columbia this year according to the original plans which were recently quashed.

Mayor Taylor decided yesterday to wire a protest to Ottawa against the proposal to reduce the aerial fish patrol and fire fighting services from Government bases in British Columbia. The opinions general expressed here are that the patrol of the fisheries from the air was the most effective ever installed in British Columbia waters and to revert to the old system would be a step in the wrong direction.

**Victoria Opinions**

VICTORIA, April 29.—The Victoria Times says "the withdrawal of the aeroplane patrols from coast waters of British Columbia will expose the province's most valuable fisheries to the depredations of Alaskan fishermen and irregularities on the part of Canadians, officials of the federal and provincial governments declared in statements issued today."

**SUTHERLAND WINS IN ALASKAN PRIMARIES**

Indications Are That he Will be Nominated as Result of Vote Taken Tuesday

JUNEAU, April 29.—Particulars of the primary elections in Alaska, which were held Tuesday indicate that Dan Sutherland of Ruby, the present delegate to the House of Representatives from the territory, will be nominated on the Republican ticket. Strong opposition had developed especially in Ketchikan and other southern centres but without changing the standing of the delegate.

#### Prince George Resident is Strongly in Favor of Police Control by Provincial Force

The following is an extract from a letter written by a prominent citizen of Prince George to a resident of Prince Rupert who thinks people here will be interested in the view held there in regard to the change of policing from the city authorities to the provincial:

"Frankly the policing of our town by the provincial police is not perfect but it is by far the best system yet tried in this place. I have been here just over two years but in that time I have seen many changes and the only police service approaching satisfaction has been that of our present system.

"I think perhaps the personnel of the force has much to do with the success of the system and we are very fortunate in that respect. I have no hesitation in recommending to any place, which desires proper police protection and the maintenance of law and order that they adopt the provincial police."

"What our city thinks was recorded at the plebiscite in January after seven months' trial when the citizens voted overwhelmingly in favor of retaining the present system."

**TRADE UNIONS WILL SUPPORT COAL MINERS**

Hope Yet Expressed That Agreement Will be Reached and Premier Working to That End

LONDON, April 29.—General support of the miners by all trades unions in the event there is no settlement of the coal dispute is promised in a resolution offered today by the executive council of the unions affiliated with the Trades Union Congress.

Some hope of an agreement being reached is held out and Premier Baldwin is still continuing his intensive conferences with both sides in order to prevent a strike.

**NO HALIBUT SALE ON FISH EXCHANGE TODAY**

There was no halibut sale today at the exchange. Two boats, the Dolphin with 6,000 and the M. M. Christopher with 11,000, offered their catches but the price offered was not large enough to suit them and they decided to wait until tomorrow's sale. They were bid 13.10c and 13.20c for first class, and 7c for seconds.

#### Did Not Worry About Losing Cash and Gold Watch but the Liquor Permit Was Different

VANCOUVER, April 29.—Giving evidence in the police court against George Ashman, whom he accused of robbing him of \$200 in cash and a gold watch, John Patterson admitted he worried but little over this loss but much resented the theft by Ashman of his liquor permit.

Patterson said that while drinking with Ashman on April 4 he was robbed, and detectives told of finding the liquor permit in possession of accused.

During his evidence Patterson said: "I was not going to worry about the watch and money but the permit. It's a valuable document," declared Magistrate Shaw, who remanded the case until Friday.

**NEW STEAMER AND RAIL SCHEDULES COMMENCE SOON**

Departure of Boats for South Next Week Will be Delayed Until After Train Arrives in Afternoon

With the new train service going into effect at the first of next week making the hour of arrival from the East 3.30 in the afternoon instead of 7 o'clock in the morning as at present, the steamers scheduled to sail for the south from here at 9 o'clock on the mornings of May 3, 7 and 10 will be delayed until the afternoon of those days in order to make connections with the trains.

In two weeks' time, the spring steamship service will be brought into effect giving sailings south from here on Thursday and Friday nights at 11 o'clock.

The first train to arrive here from the East at 3.30 o'clock in the afternoon under the new six-day a week schedule will come in on Monday next and the first train out will be on Monday morning at 11.30. In the meantime, the train will arrive as usual from the East at 7 o'clock tomorrow morning and the Saturday night train will go out at 8 o'clock. Under the new service, trains will go East daily except Sunday and will arrive from the East daily except Tuesday.

**WILKINS SAFE POINT BARROW**

Second Plane Unable to Carry Enough Fuel for Own Supply on Return Trip

**MAY CHARTER STEAMER**

Both Aviators and Plane in Good Condition at Northern Base of Supplies

NEW YORK, April 29.—The North American Newspaper Alliance announced today that Captain Wilkins, leader of the Detroit Arctic expedition with pilot Eilson landed in their airplane in good condition at Point Barrow. This is the first direct word heard from the aviators since they left Fairbanks thirteen days ago. Considerable anxiety had been expressed for them after their radio contact had been lost.

**DETROITER A FAILURE**

FAIRBANKS, April 29.—It is authoritatively stated that the three engine plane Detrioter of the Wilkins Arctic expedition has to date been unable to carry fuel loads sufficient to fly to and from Point Barrow from Fairbanks. The transportation of fuel by airplane to Point Barrow having proved impracticable, it is said shipping supplies by steamer through Bering Strait is suggested.

**PARTY OF RUSSIANS ARRIVE AT VICTORIA**

VICTORIA, April 29.—A party of 23 Russians reached here last night from Harbin on the steamer Shidzuoka Maru and will settle on the land in Alberta.

**VANCOUVER EXCHANGE**

#### STORM KILLED ARABS HIDDEN BENEATH COAL

Tried to Secure Illegal Entry into France but Pounded to Death by Tossing

MARSEILLES, April 29.—At least ten and possibly twenty of the forty-one Arab stowaways who hid in the coal holds of the steamer Sidi Ferruch met death during a rough crossing from Algiers to Marseilles when buried beneath coal, it became known today.

Ten bodies, bruised and blackened by the pounding of the coal as the ship tossed at sea were taken from the vessel's holds when she reached port this afternoon.

The ship's crew said the Arabs were smuggled aboard on payment of 200 francs each for illegal entry into France.

**TWO TEAMS WON NINTH INNING**

Brooklyn Defeated Boston and St. Louis Downed Cincinnati With Home Run

NEW YORK, April 29.—By scoring three runs in the ninth inning Brooklyn was able to defeat Boston yesterday while a home run by catcher O'Farrell in the ninth enabled St. Louis to down Cincinnati.

Pittsburg won the third straight game from Chicago. The recruit pitcher Jack Wisner of New York, held Philadelphia to five scattered hits while the Giants batted two Philadelphia twirlers. The scores for yesterday were:

**National League**

New York 5, Philadelphia 2.  
Brooklyn 5, Boston 1.  
Chicago 4, Pittsburg 5.  
St. Louis 5, Cincinnati 3.

**American League**

Chicago 9, Detroit 5.  
Philadelphia 9, New York 3.  
Boston 2, Washington 5.  
Cleveland 7, St. Louis 3.

**NEW OFFICERS ROTARY CLUB**

Cyril M. Orme Chosen President For Coming Year With Strong Committee

The Rotary Club at its luncheon today elected officers for the coming year as follows:  
President—Cyril M. Orme.  
Secretary—Sid Johnston.  
Treasurer—George Borie.  
Executive committee—Colonel J. W. Nicholls, Colonel McMorde and George Woodland.

DAILY EDITION Thursday, April 29, 1926.

### Canada's Chief Asset And Foremost Product.

(All-Canada Edition, Christian Science Monitor)  
Canada is justly proud of its immense resources of forest and fertile field, of mine, and water power. But of their greatest asset Canadians are characteristically voiceless. It is something drawn from the earth. It has sprung rather from an inherent consciousness in the people of the value of the "things that are unseen." The Dominion's greatest resource is character. Set down anywhere on the globe, a people of much integrity, courage, open mind and friendliness would have made a notable place for themselves; endowed with the unmeasured wealth of Canada, they will make their land one of earth's chosen places.

It has taken courage to open up Canada, as it did the United States. Today calls for fresh courage, and tomorrow will make its new demands. Every day the structure of nationhood visibly rises higher. This is but the sixtieth year since the divided provinces united in one Confederation. Since then the prairies have been carpeted with farm and city. It has been a period of seedtime. In the last few years the Panama Canal has aided in the Dominion's development. Newly settled cities, thrilled with their sudden greatness, are gazing past provincial boundaries, while older communities are broadening their interest in their continental neighbors. Every man who looks beyond his own fence, and works on today despite the doubts and discouragements that beset all construction, makes himself one of Canada's nation-builders.

### Not For Herself Alone She Builds.

Canada does not build for itself alone. It builds for the British Empire, for its great republican associate to the south, and for the peace of the world. The myriad of its sons and daughters who have settled in the United States are an anchor of Anglo-American friendship. The host of Americans who in their turn have sought fortune in Canada form another tie. The present Dominion Parliament has at least one member who did not quit the States till long after he was a grown man. In the United States Canadians have risen to the highest positions of moral leadership and responsibility. There is no public sentiment whatever within the United States for the annexation of its neighbor—it would be fruitless were it entertained—but there is a growing and already widespread appreciation of Canadians. This understanding cannot fail to include the mother country of Canada within its compass. If it should prove good public policy for Canada and the United States to unite in building the St. Lawrence waterway to the Great Lakes, the locks set athwart the river will tie not only the two great neighbors closer together but also Great Britain. Friendship at one corner of the British Empire cannot fail to extend to all.

### Promote Larger Understanding.

As a means of promoting a larger understanding of the Dominion, the Monitor with this issue presents some account of Canada and its resources, cultural as well as physical. Passing mention is given also to a few of its cities. No attempt has been made to make the record complete. That would be impossible within the confines of a single newspaper. The Monitor has sought merely to sketch some of the outstanding characteristics of a great country and a great people.  
Whatever its varied problems of geography, population, race, pioneering or the like—and every nation has its imposing questions—Canada faces them with sturdy boldness. Its resources of character and continent are such as to challenge difficulties. As the years roll on, Canada's chiefest product may well be recognized as neither gold, nor wood, nor wheat—but men.

## Indigestion and Bilious Spells

Mrs. Kempton Crocker, Hantsport, Bishopville, Kings Co., N.S. writes:—"My husband suffered from kidney and liver derangements and lame back for two years. Nothing seemed to help him. We read in Dr. Chase's Almanac of Dr. Chase's Kidney-Liver pills and he tried them. By the time he had taken two boxes he was quite well again."

PERHAPS it has never occurred to you that your troubles from indigestion are really caused by torpid liver action and consequent constipation of the bowels. Stomach tablets and lotions sometimes afford temporary relief but they do not get at the cause.  
Dr. Chase's Kidney-Liver Pills positively remove the cause of trouble by their direct and combined action on the liver, kidneys and bowels. A single box will convince you of their efficiency.

**Dr. Chase's Kidney-Liver Pills**  
35 cts. a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto 2, Canada

## SELF-DENIAL WEEK APPEAL

Salvation Army Appealed Very Strongly to Harold Begbie, the Journalist

Harold Begbie, distinguished London journalist, in giving the surprising results of his two years' investigation of Christian missionary work in India—tells a story of a highly educated Brahmin student. Describing his conversion to the Christian faith this student said:

What I wanted was Truth. With all my mind and soul, I sought Truth. To be sure of something as absolutely true—this was the hunger and thirst of my whole being. In this drifting condition, I saw the Salvationists in my neighborhood, living lives of extreme self-sacrifice, avoiding everything in the nature of ceremonial or formalism, preaching and living the religion of Jesus, with a devotion which was perhaps my first knowledge of earnestness.

### Relief From Burden

Here is the explanation of the unparalleled success of the Salvation Army's efforts wherever it has found a loophole of approach to men and women seeking relief from the burden of doubt and sin.

The Army has, by the consistent conduct and spirit of its workers, proved again that the religion of Jesus Christ is a life, not merely a liturgy. It has again shown that the religion of Jesus is the one effective antidote for human misery, and also the one all-powerful aid for the most desperate condition, that ever visits man or woman.

### Forty Year Custom

In order to spread throughout the entire world the knowledge and spirit of true religion, the Salvation Army adopted in 1886 a plan for the observance of a period of exceptional self-denial. It has continued this good custom for 40 years. It is now appealing to its officers, soldiers, converts, and friends in Western Canada for the money to carry out its plans and continue its beneficent humanitarian work.

The officers of the Army express the hope that the gifts this year in the period of self-denial, may be commensurate with the extensive work for unfortunate men and women and children in the western provinces of Canada.

## PROBLEM OF PEACE NEXT TO DEMOCRACY

Rev. G. O. Fallis Says Day Will Come When War Drums Will Throb no Longer

VICTORIA, April 29.—The much talked of Brotherhood of Man can only become a fact when men everywhere determine to live like brothers in their relations to all mankind," declared Rev. George O. Fallis, of Vancouver, B.C., in a masterly oration on "Rotary and the Wide World," at the conference of the First District of Rotary International, held in the Royal Victoria Theatre.

"I believe that the day will come, and what a day it will be, when to Jewish fervor, Greek passion, Roman thoroughness, French acuteness, German depth, British breadth, Scottish intensity and American keenness, are added Indian spirituality, Chinese sagacity, Japanese love of beauty—all baptized into one great humanity. Then will surely appear that day when the war drums throb no longer and the battle flags are furled, in the Parliament of Man, the Federation of the World," said Rev. Mr. Fallis, amid cheers.

### Problems of Peace

Rev. Mr. Fallis observed that the problem of peace was a great spiritual problem, the substitution of fellowships for prejudices and hates. Rotary throughout the wide world, with its men of splendid leadership, must face the problem of peace in no superficial way. They must see, he continued, that the problem of peace was almost as serious a problem as the problem of democracy, and that nothing short of years of education of two or three generations can bring about the accomplishment of this sixth object of Rotary.

## TOURING FOR BOY SCOUTS

Sir Alfred Pickford Says Communist Movement in England is Real Danger

FORD, Ont., April 29.—"The Communist movement in England is a very real menace," declared Sir Alfred Pickford, Deputy Commissioner of the Boy Scouts and well-known authority on social questions, in an interview here today. "Undoubtedly the worst feature is the Communist Sunday school. Not only are the children taught atheism, but they are instructed too in the Bolshevik doctrine of free love. We are countering their propaganda with the Boy Scout movement—for boys trained to be clean and upright are not good material for them to work upon."

At the present time Sir Alfred is making a tour of the Dominions in the interests of the Scout movement. He has already visited Australia and before returning to England he will inspect the scout patrols throughout Canada.

### Urges Higher Wages

"I am convinced," he said, "that the only real cure for our present economic distress will be higher wages and better working conditions. I have been tremendously impressed with the way you do things here in Canada and I think we could copy you to advantage. The speed and the marvellous precision with which a motor car is made, for example, strikes me as being truly amazing—but the wages, the hours and the working conditions would seem strange to an English manufacturer. A good many of them seem too conservative to adopt modern standards."

There is another difficulty we have to face in England. Workmen paid at a low rate deliberately adopt a policy of economy and as a result manufacturing costs are high. In my opinion, it is the manufacturer and not the worker in need of education.

### Tribute to Canada

In concluding the interview the distinguished visitor paid a tribute to Canadian workmen and to Canadian products. "Before I came to Canada," he said, "I was under the impression that mass production implied lack of quality. I was wrong for mass production spells quality as well as quantity."

## THE MAN IN THE MOON

THERE'S nothing intellectual about long hair if your wife picks it off your coat, especially if it happens to be red.

THE Government experts tell us that spraying destroys pests, but I know some that no chemical mixture yet invented can smother.

THE Man in the Moon has not had a kick for several days. What's the matter with the people anyway?

COME wake up people. Rouse yourselves a bit. Just tell us what you think of us. And don't forget to hit.

WOMEN can about everything except the lemons that come around.

I KNOW a little pippin. She and I get along just ripping. And every afternoon. And evenin'neath the moon. We listen to the waves lip lippin.

JAKE says if you can write a worse verse than that one, just go to it and he'll give you ten dollars for it.

DID you hear about that man whose wife married him to settle a bet, but it's still unsettled around their home.

THE dearest girl is naturally rather expensive. What are girls for anyway?

serious wounding of Major A. W. Agnew.

Small boys in the Seal Cove district have been committing serious depredations. Rev. W. F. Rushbrook's house has been broken into and the launches Vasa and Amie have been looted.

There was a large crowd of people at the wharf this morning to bid farewell to Howard Pringle, Harry Wellford and Don Grear who sailed on the steamer Prince Rupert for the south where they will enlist for active service.

## STEPPED ON BRAKE CLUTCH AND GAS AT ONCE DID AUTO MEN

(Edmonton Bulletin)  
A somewhat similar mental condition seems to have seized the automobile makers of Canada when the Robb tariff reductions cut into the business highway just ahead of them. The situation developed so suddenly they admit it left them "gasp-ing." Like the novice at the wheel, they found themselves filled with the urge to do something, and began stepping, without mature reflection, upon brake, clutch or gas button as chance and excitement ordained. One prominent firm immediately posted a notice that the plant was closed indefinitely; only to tear it down twenty-four hours later and post another saying that work would proceed as usual on Monday. Meantime another lacked up the "stop" sign just about the time its rival signalled "go ahead."

The automobile makers have not been used to this kind of interruption to the smooth tenor of their way. There is a new industry, and new industries are proverbially treated as "infants" when tariff schedules are being framed. But this particular one is now an infant neither in age nor in size. It has grown into the proportions of an industrial giant, and has reached economic maturity. It is time that it began to depend upon itself, not upon artificially favoring conditions. It should by this time be able to get along with less tariff help than it has hitherto enjoyed. A part of the flurry among the manufacturers may be taken as being only the fluster of a youth when he first finds himself thrust into the world and treated as a full grown man.

### MUCH LUMBER FROM VICTORIA

Two Million Feet Being Shipped This Week Mostly to Old Country

VICTORIA, April 29.—Nearly 2,000,000 feet of lumber will be cleared from Victoria during this week. Five different vessels are loading for Japan, California and United Kingdom ports.

The bulk of the lumber is bound for the United Kingdom through Canadian Government Merchant Marine freighters. The Canadian Seigneur is loading 175,000 feet from the Canadian Puget Sound Mill and 150,000 feet from Cameron's mill making a total of 325,000 feet. This cargo is destined to the Old Land.

The Canadian Transporter will take on 100,000 feet from the Canadian Puget Sound, which is also for the United Kingdom. This brings the total export to those ports to 725,000 feet.

For Japan the freighter Hallgryn will load 400,000 feet from the Canadian Puget Sound Company. This vessel will load her cargo at Rithel's Piers.

Another 425,000 feet, the largest lumber consignment of the week, will leave by the Canadian Prospector for Montreal and Eastern ports. She will receive this from the Canadian Puget Sound mills and began loading Monday.

Tomorrow, the Quinault, will berth at the C.P.S. wharf to take on a consignment of 300,000 feet for California ports.

These five shipments make a total of 1,850,000 feet of lumber to be exported from local mills.

The steamship Robin Hood cleared at the week end from Rithel's Wharves after loading 103,000 feet of lumber consigned to Baltimore. The vessel is now on her way to Everett to complete loading.

### HUMAN PILLARS JAPAN FOUND

Skeletons of Men in Upright Position in Foundations of Bridge at Tokyo

TOKYO, April 29.—Considerable interest is attached to the recent discovery beneath the corner stones of the Double-Bridge (main entrance to the Imperial Palace) of eight human skeletons. Most of the skeletons were found upright about twelve feet below the bed of the Palace Moat, which is undergoing repair work necessitated by the earthquake of 1923.

The theory of some Japanese scientists is that the skeletons are the remains of persons who, several centuries past, offered themselves as "Human Pillars" for the immortalization of the corner stones used in constructing Edo Castle. The tradition of the "Human Pillars" is an old one in Japan. In the past age it was believed that if human beings were buried alive beneath the corner-stones of great structures, the gods would accord permanent strength and solidity to the foundations and, in addition, those who thus sacrificed themselves, would become immortal. It was considered that those chosen as "Human Pillars" were greatly honored. They were buried alive in a standing position.

Ordered By

The first traditional instance of the "Human Pillars" recorded in Japan dates back to the reign of Emperor Nintoku, more than 1,000 years ago. The Yodo river at Osaka, where the emperor had his palace, used to overflow every year drowning many people and causing much damage. Every dike built by the best engineers was unable to withstand the floods. One night the emperor dreamed that the gods had advised him if he would use human bodies as pillars for the construction of the embankment, there would be no more flood troubles. The story has it that the emperor immediately caused human beings to be buried alive beneath the foundation stones of the dike and, since then, the embankment has withstood all floods.

Advertise in the Daily News.

"My dear, I thought this was your washday."

"Yes, but the laundress has been through for hours — we use Rinso at our house."

Rinso has fairly revolutionized wash-day. Rinso changes the hard work of washing to just rinsing.

No more hard bar soaps to cut up or rub on the clothes. No more rubbing.

Wash-day now means simply soaking the clothes for a couple of hours in Rinso suds, or overnight, then just rinsing.

Gloriously white, sweet-smelling clothes are the result—and you'll save time and temper.

### SWIMMING CLUB PROPOSE RECORD

Officers Elected Last Night and Will Undertake to Carry on Good Work

#### FACILITIES FOR CHILDREN

Efforts Will be Made to Improve Conditions at Lake Immediately

The swimming club hopes to make this a record year and will, with the support of the people of Prince Rupert, commence at once to put the lake in shape for swimming and particularly to cater to the boys and girls who wish to learn to swim.

President—Captain A. Swanson.

Sec.-Treas.—Alex. Saint.

Executive—C. H. Elkins, Sid Thomson, E. C. Gibbons, D. H. Macdonald, and J. W. Scott.

A letter from Hon. T. D. Pattullo was read in which he offered a prize of ten dollars to the boy or girl learning to swim this year and making the greatest improvement. Also the Prince Rupert Boathouse offered two prizes to the value of \$10 each, one to the best lady swimmer and the other to the best lady diver, to be competed for at the annual gala at a date to be set by the executive.

The new executive plans to improve the facilities for children at the lake to repair the floats and dam and do such other work of a permanent nature as may be required. They will visit the lakes within a few days and make an examination of the needs.

### SENIOR STUDENTS AT LADIES' MUSIC CLUB

Pleasant Afternoon Spent Yesterday at Home of Mrs. E. A. Wakefield

The Ladies' Music Club met yesterday afternoon at the home of Mrs. E. A. Wakefield, Fourth Avenue West, and enjoyed a delightful program given by the Senior students and arranged by Mrs. Wakefield and Mrs. Hubert Ward.

The numbers on the program were as follows: Piano solo—"Polonaise, Opus 26 No. 11" (Chopin) by Miss Molly Hayden.

Piano solo—"Dance Caprice" (H. Cadus) by Miss Constance Morgan.

Vocal solo—"The Cuckoo" (Liza Lehmann) by Miss Catherine Jones.

Piano solo—"Valse Brillante in F" (Homer Grunn) by Miss Margaret Gilchrist.

Violin solo—"Japanese Sunset" (Jessie L. Deppen) by Peter Black, Jr.

Piano duet—"The Antelope Hunt" by Misses Mary Ness and Molly Sperson.

Piano solo—"Minnuet 'L'Antique" (Paderewski) by Miss Audrey Bushby.

Vocal solo—"Sea Gypsy" (Michael Head) by Mrs. J. J. Muldoon.

### TRANSFERRED TO PRINCE ALBERT

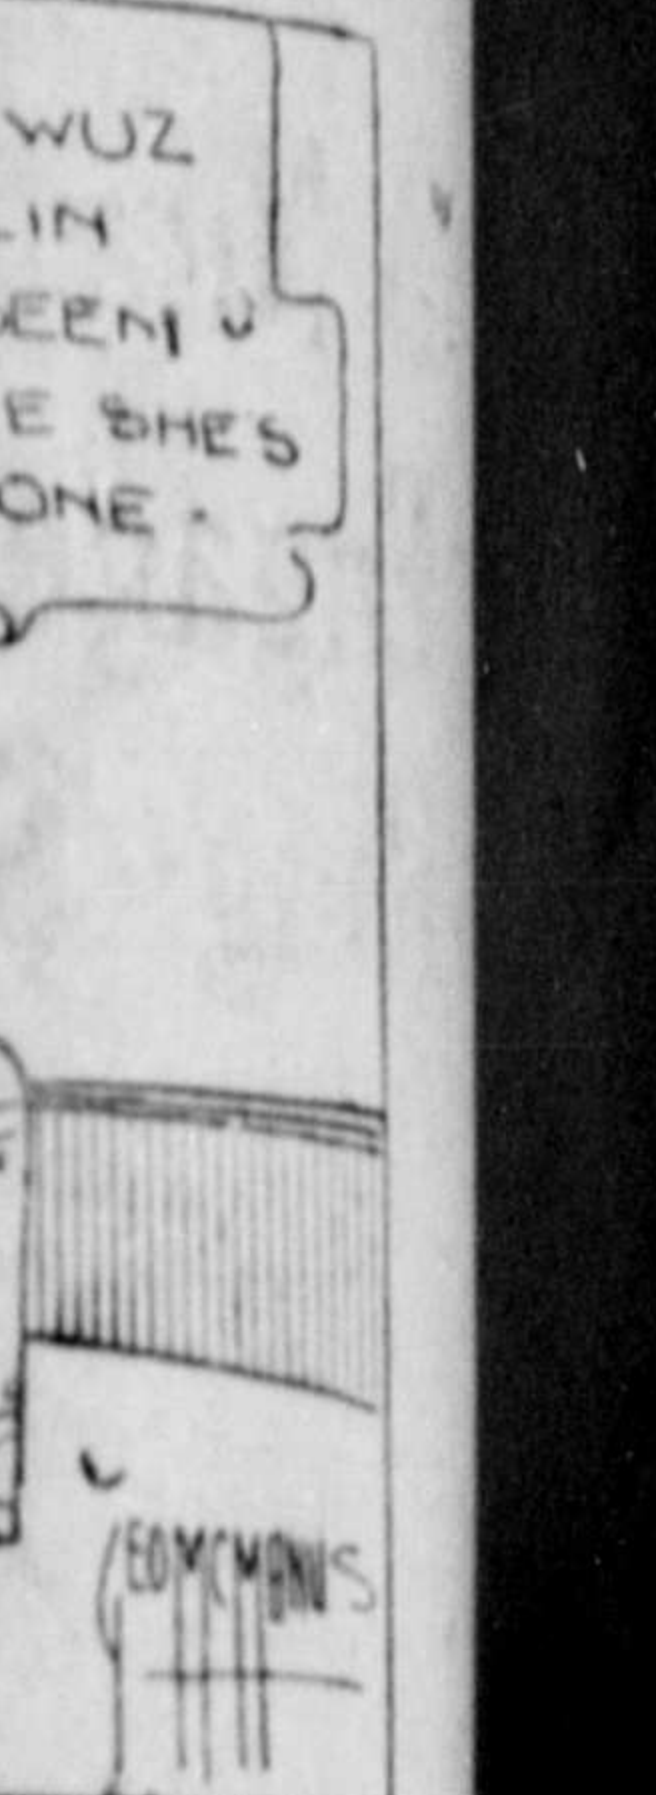

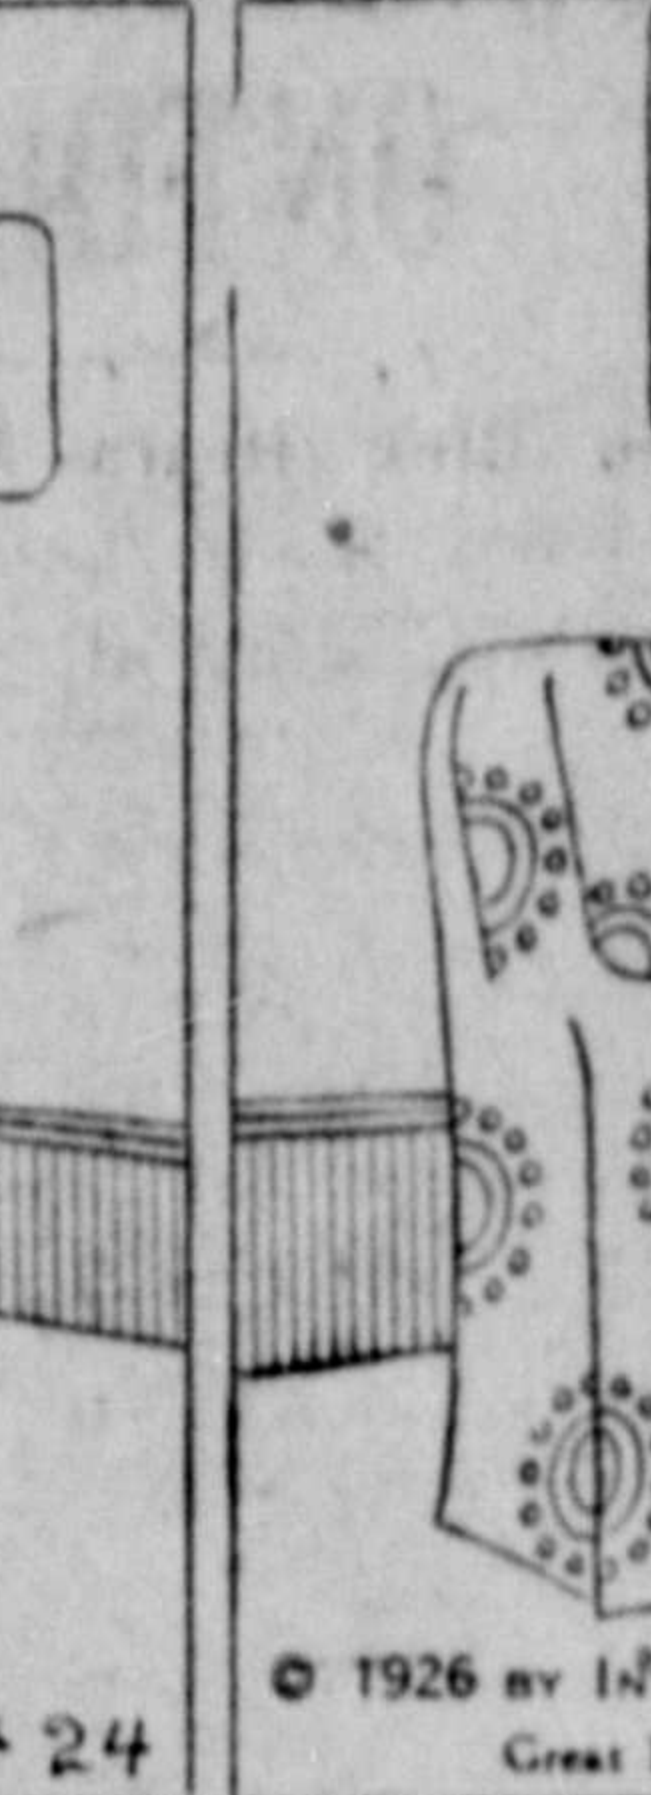

Inspector A. E. Acland R.C.M.P. Will be Succeeded Here by Inspector S. T. Wood

Inspector A. E. Acland, who has been in command of the Prince Rupert detachment of the Royal Canadian Mounted Police ever since it was established in May 1919, has been transferred to the post in Prince Albert, Saskatchewan, and expects to leave here about May 10 with Mrs. Acland and family to take up his new duties. He will be succeeded here by Inspector S. T. Wood from Regina.

Inspector Acland, who with Mrs. Acland has made numerous friends in the city and has been highly popular during his seven years' residence in Prince Rupert, came here from overseas where he served four years, having gone out of the Yukon in 1915 after many years service with the force there. His removal from the city will be generally regretted.

Inspector Wood, who will succeed Inspector Acland, has been practically based in the

### BRINGING UP FATHER

force and is the son of the late Assistant Commissioner Fred T. Wood, who served for many years in the Yukon. Inspector Wood, who is a married man, was for some time in command of the R.C.M.P. garrison at Herschell Island.

### MAKES STRONG PLEA FOR CITY MANAGER

F. B. Pemberton of Victoria Writes in Advocacy of Scheme and Urges it

F. B. Pemberton, head of the firm of Pemberton & Sons of Victoria and Vancouver writes to the press advocating the city manager plan of civic government. He says:

As far as I can see managing the city is like the management of any big business. In any other large business or company you have the board of directors, who in the city's case are the mayor and the aldermen. Then you would have a general manager or managing director, who in the city's case would be the city manager. I do not see that any big business could be run in any other way for real efficiency.

The city manager would be answerable to the mayor and council, and would have a big work and responsibility on his hands to see that every department was as efficient as possible. Absolute efficiency is what we need in managing the city, then we can keep on reducing our taxes and getting out of the heavy load of debt we are laboring under. Under the present regime the mayor and aldermen do altogether too much detail work. They should not have to do it. It should be left to the manager.

Obtaining a first class city manager is a difficult matter, but no more difficult than obtaining a manager for any other big concern. He knows it depends on himself whether he keeps his billet. In selecting a man you would want a manager of ability, integrity and experience, a first class, all-round man of business. Such a man can be obtained. He can save the city a great many times his salary, and also save the mayor and aldermen three-quarters of their present work.

### PARKS BOARD HELD MEETING

Gave Control of Salt Lakes to Swimming Club for Present Season

#### FORBIDS CUTTING TREES

Question of Summer Cottages Discussed no Objection Taken Unless Nuisance

The Prince Rupert Provincial Parks Board, which has charge of the Salt Lakes Park and also of the forty acre public park on Kaien Island, held a meeting last evening in the office of Colonel McMorde, Second Ave., Dr. W. T. Kergin presiding. The Colonel was appointed secretary. Others present were C. H. Orme and H. F. Pullen. The fifth member of the board, J. H. Thompson was out of town.

It was decided to give the swimming club control of the lakes for this year with power to make improvements and if necessary to levy any fee thought desirable.

It was made clear at the meeting that the board had no funds to spend and was not in a position to make expenditures of any kind at present. They have power, however, to make bylaws governing the use of the park and to see that its privileges are not abused.

#### Erection of Cottages

The question of the erection of cottages on park property was discussed and it was found that nothing in the Public Parks Act gave the board the right to lease or grant building privileges to private parties although they could do it to athletic clubs or similar public organizations.

The board takes in regard to the erection of cottages on park lands is that no objection will be taken at present as long as the cottages do not obtrude on the conveniences of the public there and as long as there is no nuisance created by sewerage or by the throwing out of cans or objectionable refuse.

#### Recommend Improvements

The board will be laying out a scheme of improvement which they will recommend to the authorities and it was suggested that no cottages should be built there without first consulting with members of the board to see that the building does not clash with those plans.

#### COULD NOT SLEEP ON LEFT SIDE

"I had pains through my stomach (due to gas) and could not sleep well, especially on left side. Thanks to Adlerika I am well again." (signed) Samuel S. Payne. Adlerika removes GAS in ten minutes and brings out old waste matter you never thought was in your system. It is such an excellent intestinal evacuant that it is wonderful for constipation and stomach trouble. Stops that full, bloated feeling and makes you happy and cheerful. No matter what you have tried, the REAL Adlerika action will surprise you. Ormes Limited, Druggists.

of the board. Occupants of cottages should content themselves with driftwood or deadfalls for fuel.

#### SPORT CHAT

The new playground in Westview, which will be opened next Saturday afternoon, is as complete and well arranged a playground as could be devised for that part of town and the members of the Gyro Club playground committee, Leo Waugh (chairman), W. H. Tobey, R. A. Harlow and Milton Gonzales, are to be congratulated on the effective work which has made the new park possible. Now that this playground is completed and ready for use, the Gyros are busy on their arrangements for the Seal Cove playground. The site is all ready for the equipment and the playground committee will hold a meeting within the next few days to make its final decision for equipment, most of the standard pieces of which have already been ordered from the dry dock.

#### SPORT CHAT

With football organizations for the season in Prince Rupert now well under way, the baseballers will soon be getting busy and it is likely that the annual meeting of the Association will be called in a few days now. Two teams are already being organized, Native Sons of Canada and the Gyro Club, and there will probably be a third to round out the league. How many teams will actually be in the running will, of course, not be definitely known until the annual meeting is held or after. The season will in all probability open in connection with the Elks and Fair Board celebration on May 24.

## FINAL LECTURE ON FORESTRY

Gyro Club Hears Able Address from R. M. Leighton on Importance of Protection

Stressing the necessity of the public becoming so educated that it may more fully assist the authorities in their work of protecting the forests, the natural resource on which depends British Columbia's most important single industry, R. M. Leighton, fire inspector of the local Forest Branch, delivered an impressive address before the Prince Rupert Gyro Club yesterday afternoon on the subject of "Forest Protection."

Mr. Leighton declared that in British Columbia was to be found seventy per cent of the Dominion's soft wood timber stand, the greatest supply of such timber in the British Empire. Illustrating his figures with suitable charts, he showed that the timber stand of the province today stood at 350 billion feet which, after all, was but a remnant after 600 billion feet had been destroyed by fire during the past seventy-five years. There was an investment of 190 million dollars in the timber industry of the province and it supported a payroll of twenty thousand people. The province's most important single industry, last year's timber production had been valued at \$1 million dollars.

**Impressive Figures**  
The great problem to be contended with, Mr. Leighton, stated was the protection of the merchantable timber stand that remained in the province as well as the young timber that was growing up. During 1925, the worst fire year on record in the province, there had been 2,524 forest fires which had burned over 1,024,000 acres of land, destroying 1,058,000,000 board feet of timber with a total estimated loss of \$3,500,000. Thus enough timber had been lost in the province during the single year to keep such a pulp mill as that at Ocean Falls operating continuously for sixteen years.

## SYNOPSIS OF LAND ACT AMENDMENTS

**VACANT, UNRESERVED, SURVEYED Crown lands may be pre-empted by British subjects over 25 years of age, and by aliens on declaring intention to become British subjects, conditional on residence, occupation, and improvement for agricultural purposes.**

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

**PURCHASE**  
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes, minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

**HOMESITE PAYMENT**  
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**  
Under the Grazing Act the Province is divided into grazing districts and the same administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners to be established owners. Stock-owners to be established owners. Stock-owners to be established owners.

## Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and, at times, I could not be left alone I was so nervous."

My trouble was caused from over-work and worry, having been left alone with a large family. I had tried everything, without any relief, but I know, today, that I would have been a nervous wreck but for your wonderful

These Pills are for sale at all drug stores and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Of the 2,524 fires, 1889 had been caused directly by the human hand either wilfully or carelessly. Mr. Leighton referred to the anti-forest complex which still seemed to exist with many people and which caused them to disregard the seriousness of forest fires. He cited the instance of a civil engineer in the Lakes district who had allowed a fire, which he might easily have put out in its incipient stages, to destroy one of the finest stands of timber in the interior country.

### Public Education

Public education was one of the most necessary factors in the conservation of the province's timber and the Forest Branch was concentrating on the school children in its campaign. The appointment of honorary fire wardens was another effective means of protection. That the work of the department along this line in Prince Rupert district was having good effect was indicated, Mr. Leighton said, through the enviable record of this district last year—the worst year for the province as a whole. It was necessary, however, that the work should be kept up but the full backing of the people was necessary. In the matter of pre-emptions, Mr. Leighton ventured the opinion that if the people fully realized the value of the forests and the loss that they would not be so loath to assist the department by giving evidence against those who might be careless with fire.

Mr. Leighton closed his address by appealing to the members of the Gyro Club to spread the gospel of forest protection and to govern their actions accordingly wherever necessary or possible.

President Stan Taylor thanked Mr. Leighton for his address and offered the assurance that members of the Gyro Club would at all times stand prepared to assist the department in its work. Guests of the club were J. H. Mills of Toronto and Ray Warlock, R. V. G. Le Pine and Dale Maher of Prince Rupert.

### GOVERNMENT LIQUOR ACT.

Notice of Application for Beer Licence. NOTICE IS HEREBY GIVEN that on the 5th day of May next the undersigned intends to apply to the Liquor Control Board for a licence in respect to premises known as G.W.V.A. Hotel, situated in the townsite of Port Clements, P.C., upon the lands described as south half of lots 8 and 9, block 14, District lot 746, Queen Charlotte Islands District, according to a registered map or plan deposited at the Land Registry Office in the City of Prince Rupert, B.C., and numbered 1079, for the sale of beer by the glass or by the open bottle for consumption on the premises.

Dated at Prince Rupert, B.C., this 5th day of April, 1926. FRANK PEARCE, Applicant.

### "PROVINCIAL ELECTIONS ACT."

Prince Rupert Electoral District. Mackenzie Electoral District. NOTICE is hereby given that I shall, on Monday, the 17th day of May, 1926, at the hour of 10 o'clock in the forenoon, at the Court House, Prince Rupert, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said electoral districts, and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Prince Rupert, B.C., this 5th day of April, 1926. NORMAN A. WATT, Registrar of Voters for the Prince Rupert and Mackenzie Electoral Districts.

### IN PROBATE.

In the Supreme Court of British Columbia. In the Matter of the Administration of the Estate of Albert Bowles, Deceased. Intestate. TAKE NOTICE that by order of His Honor, F. McR. Young, the 19th day of April, A.D. 1926, I was appointed Administrator of the estate of Albert Bowles, deceased, and all parties having claims against the said estate are hereby required to present same, properly verified, to me on or before the 20th day of May, A.D. 1926, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith. NORMAN A. WATT, Official Administrator. Prince Rupert, B.C. Dated the 20th day of April, A.D. 1926.

## MAN'S DEATH ENDS ROMANCE

Woman Came from England to Alberta to Marry But Found Dying Man

EDMONTON, April 28.—Tragedy and misfortune lagged in the wake of what promised to be a happy romance which commenced with correspondence between a farmer-livery man in a country district near to Edmonton and a young woman from Yorkshire, England. The romance terminated with the arrival of the prospective bride in Edmonton to find the one who was to have been her husband, dying, and herself in virtually destitute circumstances as a result.

It all started when the two gained touch with one another through a correspondence agency. After numerous letters, transportation was finally forwarded to the elated English woman who sailed for Canada, after selling her home and furniture.

### Stricken with Pneumonia

Reaching Edmonton on April 8, she discovered, instead of an eager lover to meet her, a man in the hospital stricken with pneumonia, who was near to death; and instead of the middle aged husband she had thought would be hers, the one with whom she had corresponded turned out to be an old, grey man of over 80.

Coming into the city to make preparations for the wedding, to buy clothes, and even to purchase the ring, he had been picked up by the police who had come upon him lying on the pavement in the downtown section. It was believed that he was intoxicated. Investigation showed, however, that he was seriously ill and he was at once taken to the hospital. He died on Saturday.

### Will was Altered

When first she glimpsed this old man, feeble and tottering on the grave, the woman who had come all the way from England to marry him, hesitated. She suggested that they wait until he should recover. As a consequence the will that had been made in her favor, bequeathing her everything that he would leave, was altered. Shortly before he passed away, though, he repented and was to have changed it once more, this time to make it out with his wife-to-be as beneficiary. He died before he put his wish into execution.

Despite the final conditions of the will the woman, had she followed the suggestion made that she should marry him in the hospital, would have received one half of his estate under the intestate successions act by which the will would have been declared inoperative. He left about \$3,000.

Although the opportunity has been offered her of remaining in Alberta, it is probable that she will return to England, a sadder, but certainly a wiser woman so far as correspondence agencies are concerned.

## CLEARINGS OF BANKS HIGHER

Great Increase Over Last Year in Business of Three Cities

VICTORIA, April 29.—Public men in this province and all over the country are declaring without reservation that business in the Dominion is definitely on the upgrade. This has been borne out by the annual reports of various banking institutions and related in public speeches by men who are in touch with economic conditions.

It has also been possible for the average individual to draw his own conclusions in this connection from the bank clearings of the twenty-nine centres which report to their respective clearing houses at the close of business each week. From the beginning of the present year there has been noted a substantial increase in more than twenty of these centres over the corresponding weeks of 1925. By those familiar with trading in general this is taken to mean that Canada is definitely on the high road to prosperity.

B.C. Cities In this connection the three

"A mild, Blended Cigarette"  
**Winchester CIGARETTES**

### IMMENSE SUMS

What this means in revived business in British Columbia, as far as these three cities alone is concerned, is shown in the combined clearings for the seventeen weeks of 1926, which total no less a sum than \$322,061,097 compared with \$283,378,200 for the same seventeen weeks in 1925—a gain of \$38,682,897. The individual totals are as follows: Victoria, 1926: \$35,202,733; 1925: \$29,951,144; Vancouver, 1926: \$275,695,726; 1925: \$244,433,950; New Westminster, 1926: \$11,162,638; 1925: \$8,993,106. These show an aggregate increase for Victoria of \$5,251,589; for Vancouver of \$31,261,776; and for New Westminster, of \$2,169,532 for the first seventeen weeks of 1926 over the corresponding period of 1925.

## MOSTLY BRITISH IN PARTY OF SETTLERS

Number Arriving This Week at Winnipeg and Being Distributed from there

WINNIPEG, April 29.—British predominate in the several parties of new settlers arriving over the Canadian National lines this week every train bringing a number of English, Irish and Scotch families to the west under the 3,000 family settlement scheme in addition to single men and women for farm and domestic work.

Passengers from the steamships Letitia and Asonia reached the city by regular and special C.N.R. trains yesterday, the former number 115 from the British Isles, 102 of whom were from Scotland. All but twelve of these left for points in the west going to British Columbia, Alberta and Saskatchewan.

Last night's immigrant special brought 350 from the Asonia, the crowd being evenly divided between British and central Europeans. Twelve families were met by government officials and booked to their new homes on the prairies, Herbert Worman from Somerset having the record for most children. He goes with his wife, six sons and two daughters to Prince Albert district to take up farming.

Settlers from the Doric to the number of 475 are due by special train at the Canadian National depot Thursday morning.

# LIGHT VOTE BEING TAKEN

Only Eighty Ballots Had Been Cast on Bylaws up to 1 O'clock This Afternoon

A light vote is being recorded on the elevator exemption and street surfacing bylaws today, only eighty ballots having been taken out between 8 o'clock this morning and 1 o'clock this afternoon. Though there are some 600 resident property holders entitled to vote, it is not expected that the vote will total any more than 300. The inclemency of the weather and the fact that there does not seem to be much opposition to either bylaw is making the voters disinterested. The poll will close at 8 o'clock this evening.

E. F. Jones, city solicitor, is acting as returning officer and E. S. Allistone and W. H. Wilson Murray as deputies.

# ALICE ARM IS COMING BACK

Pioneer Mining Man Goes North to Further Develop Tiger Group of Claims

ADJOINS THE TORIC Increased Activity Expected at Mining Camp this Summer, Visitor Says

Ed. Pickett, pioneer mining man of the Alice Arm district, was a passenger aboard the Prince George yesterday afternoon en route from California to Alice Arm where he will spend the summer further developing his promising Tiger mine across the Kitsault River from the Dolly Varden. Mrs. Pickett accompanied her husband.

In the course of his work on the Tiger last year, Mr. Pickett opened up a 15 foot ledge of rich silver ore which had not been known to previously exist. Assays showed the ore to run as high as 200 ounces of silver per ton. Work last year was on the 140 foot level. This year a tunnel will be driven at 240 feet and Mr. Pickett expects to employ five or six men during the season on the property.

The Tiger adjoins the Toric mine, now under development by the Homestake Mining Co., on the north and is nearby the Clinax, owned by Olier Besner of this city; the Last Chance, owned by Paddy Morley and Archie McPhail; the Silver Horde, owned by A. Davidson and John Strombeck et al; and the Muskateer, owned by Capt. Brown of Seattle. On all these properties development work will be proceeded with this summer and, with operations to be resumed on the Dolly Varden and North Star mines as well, Mr. Pickett is of the opinion that the Alice Arm district will come back into its own by the end of this year.

During the past winter there has been a change in ownership in one half of the Silver Horde mine which lies north of the Wolf. John Strombeck bought Al Miner's quarter interest and Gus Anderson and A. D. Yorke purchased Don Cameron's quarter interest. Al Miner, who was in Alice Arm last year, will remain in California this season and Don Cameron is now engaged in mining development work in Ontario north of Haliburton. It has been reported that he may go into the Red Lake district this season.

# BUENOS AIRES HAS CONGESTED STREETS

Traffic Problem Serious One For Population of Close to Two Millions

BUENOS AIRES, Apr. 29.—The city authorities of Buenos Aires, whose population is approaching the 2,000,000 mark, are faced with a transportation and traffic problem that is ever growing more serious. The city possesses over 520 miles of surface and subway lines, the former carrying 600,000,000 passengers annually and the subway 60,000,000, but these are insufficient to handle the daily passenger movement without over-crowding, delay and congestion.

Additional subways linking up distantly separated railway terminals with motorbus feeder lines are the necessary solution of the problem, transportation authorities say, but although the present subway presented a proposition to the city some three years ago to construct a new one, inability to agree on terms has so far prevented its being started.

Many motorbuses have been in operation during the last year, but have eased the transportation facilities of the city only to a slight extent. Indeed, traffic congestion is increased largely by their use, together with the increasing numbers of automobiles.

Streets in the business section of the city are restricted to one way traffic, but even so vehicles in them move at a snail's pace during the busy hours.

# BAN ON JOY RIDES

No Night Motoring for Students at Cambridge

LONDON, April 29.—Owing to complaints that the noise of motors disturbs lectures during the mornings, and that some students are using their cars at night for taking undesirable women into the country and others are using them to attend public dances at Bedford and Huntington, the Senate of Cambridge University adopted drastic regulations.

The grace relating to the prohibition of the use of motor vehicles by undergraduates in their first year of residence was carried by 180 votes to 66; that to prohibit the use of all motor vehicles before 12.30 p.m. by 143 votes to 38; and the prohibition of the use of motor vehicles after 8.30 p.m. in the winter months and 10 p.m. during the operation of summer time was carried without a division.

It was also decided by 136 votes to 103 to appoint a pro-rector for the regulation of motor vehicles, and to prevent undergraduates driving in hired vehicles without being insured against third party risks.

The new regulations come into force in October.

Miss Margaret Solloway will return to Vancouver on the Prince George tomorrow morning.

# ICE STILL HOLDING AT DAWSON TODAY BUT MOVING MANY POINTS

Daily Weather Report Says Wet Snow Fell During Night; Snow at Eighth Cabin

While ice is still holding at Dawson it moved for a few minutes at Eagle, Alaska, yesterday, says the daily weather report of the Government Telegraphs. The ice moved a little at Stewart River yesterday and is all jammed there now. On the Pelly River the ice is jammed at the mouth. Yukon ice is jammed 12 miles south of Carmacks. Some ice is running out of Lake Lebarge and wet snow fell during the night. Following is the report from various northern points:

- Terrace—Rain, calm; temperature, 45.
- Anxox—Rain, calm; temperature, 50.
- Stewart—Rain, calm; temperature, 46.
- Hazelton—Rain, calm; temperature, 50.
- Telegraph Creek—Cloudy, calm; temperature, 35.
- Smithers—Cloudy, calm; temperature, 52.
- Burns Lake—Cloudy, calm; temperature, 54.
- Eighth Cabin—Snowing, calm. Whitehorse—Cloudy, south wind; temperature, 40.
- Selkirk—Cloudy, calm; temperature, 45.
- Dawson—Cloudy, calm; temperature, 39.

# GUILTY.

Counsel—Now sir, tell me, are you well acquainted with the prisoner?

Witness—I've known him for twenty years.

Counsel—Have you ever heard him to be a disturber of the public peace?

Witness—Well—er—he used to belong to a band.

H. W. BIRCH, Secretary.

# "Imaginary" Rheumatism Caused by Illfitting Shoes

MANY, many times physicians have diagnosed what appears to be rheumatism, as really being pains arising from the effects of Fallen Arches.

When the foot arches begin to break down, the pain is often ascribed to a sprain or rheumatism. Pain occurs along the inside of the foot, in the heel, also the calf of the leg, and is often located in the knee or hip joints.

This condition brings on general muscular weakness—the ligaments are strained, interfering with proper nourishment of the foot. The circulation becomes poor—attendant symptoms appear—numbness, cold, and at times, undue perspiration. To prevent and cure this condition the foot must be given support, combined with the utmost freedom of movement.

Arch Defender Shoes give support to the scaphoid bone where needed, while allowing full flexibility and freedom to the muscular structure of the foot.

If you value your health—join the thousands who have banished foot trouble. Get a pair today.

ARCH DEFENDER SHOE Made in Canada by The Defender Shoe Company, Galt, Ont. SOLD BY Jabor Bros.

# UMBRELLAS

Many have expressed delight at being able to purchase an Umbrella knowing that they are getting as good value as they would in any other place in Canada; also in having an assortment to choose from equal to any in the large centres.

See our Window Display.

Max Heibroner 527-529 Third Avenue

# WESTHOLME THEATRE

TONIGHT ONLY at 7 and 9

# "The Pace That Thrills"

The big three-in-one show. An auto race, a bull fight and a big ring battle. He beat a fighting pig. He whipped a wild bull. With the odds at a thousand to one against him he rides an auto race and just as he is about to win love calls for the biggest sacrifice a man can make. See him tearing down that line—now a sudden turn—here a dangerous sweep, and they are cheering, yelling and praying—"Come on, Red." A fast-moving movie. Strong cast: Ben Lyon, Mary Astor, Tully Marshall, Warner Richmond, Paul Ellis, Fritz Brunette and others.

"OUR GANG COMEDY"—"FAST COMPANY." TUXEDO COMEDY—"DYNAMITE DOGGIE." Admission 35c and 10c
