INDIAN DROWNS FRASER RIVER

THOMAS JOHNNY DISAPPEARED AFTER SINKING OF HIS DUGOUT CANOE

MISSION CITY, Oct. 19.—John Lewis, years of age, chief of the Nicomen Indians, perished in a stormy crossing of the Fraser River ten miles of here Saturday night. It is not known whether he was drowned or died alive in a cave on the river bank.

Sumas Johnny, as he is known to Fraser Valley Indians, left Sumas on the south shore in a dugout in his son-in-law, Henry Thompson, years of age. The two had barely reached Nicomen Island when the craft sank.

Thompson, after vain attempts to assist the older man to climb the bank, which was being crumbled away by the waves, left him and ran toward nearby ranch for assistance. Before he had gone far he heard a cry and returning found his father-in-law had disappeared.

INCREASE IN SPAWN FISH

ing and closing has resulted in five times more sockeye coming into McLaughlin Bay

There has been a great increase in the number of salmon returning to McLaughlin Bay near Bella Bella, a bay which was supposed to have been fished by Charles Taylor, special fisherman there, who has returned to the city for the winter. This area was seeded by the government four years ago and has since been closed to fishing. In 1924, 3,500 sockeye came up the streams to spawn. In 1925, 10,000 returned, and this year there was a great increase to 16,000. Mr. Taylor states that there has been a similar increase in cohoes and chums due to waters being closed, these varieties having not been seeded.

GRAIN COMING STEADILY NOW

SEVENTY-FOUR CARS ARRIVED LAST NIGHT AND THIRTY OR FORTY MORE ARE DUE TODAY

Seventy-four carloads of grain arrived at the elevator last night and some thirty or forty more will be in late tonight. It is probable that such shipments will be coming in steadily for some months now. There is nearly enough grain in the elevator now to take up the cargo of the freighter Aden Maru which will move down from the dry dock in a day or so to load for the United Kingdom.

Ontario Government Appeals to Country on Liquor Policy and Attorney General Resigns

TORONTO, October 19.—After holding office for three years and four months the Ferguson Government has decided to risk an appeal to the country on the policy of government control of the liquor traffic coupled with local option.

The Legislature was dissolved yesterday and the date of the election is set for December 1.

Attorney General Nickle declined to endorse the Government's liquor policy and tendered his resignation. Colonel W. H. Price becomes Attorney General in his place.

J. D. Monteith becomes provincial treasurer, succeeding Mr. Price in that position. The main planks of the Government's liquor policy are:

Doctors' prescriptions to be wiped out and a commission to be appointed to handle the sale of liquor by permit.

Bars are not to come back but a system of sale to be inaugurated based on that of other provinces handling the sale of liquor.

Under a system of local option any area not wishing to have liquor sales may vote against it.

The new bill will provide for jail sentences on those making or selling poisonous liquors.

The revenue received from the sale of liquor is to be used as a means of reducing taxation.

NO U.S. MINISTER FOR OTTAWA SAYS PRES. COOLIDGE

WASHINGTON, Oct. 19.—President Coolidge announced today that he could see no reason why the United States should send a minister to Ottawa when Canada sends a representative to Washington. Under present arrangements he felt any questions arising could be amicably settled through the present organization.

QUEEN MARIE'S CANADIAN TOUR

HER MAJESTY WILL VISIT VARIOUS PARTS OF CANADA

MONTREAL, Oct. 19.—Final arrangements for the tour of Her Majesty Queen Marie of Rumania through Canada were completed today with the C. N. Railways, over whose lines she will travel from Niagara Falls, Ontario, to Toronto and thence west to Winnipeg. The Royal party will arrive at Niagara Falls, Ontario, on the New York Central railroad on Tuesday next. The stay in Toronto will be only for the afternoon and evening, as the Royal train will leave the Queen City at a half hour after midnight and will arrive in Montreal the following morning. The entire day and evening will be spent in Montreal after which the party will leave for Ottawa. The trip through to Winnipeg will be without stop. The departure from Winnipeg according to present plans will be by the Great Northern Railway to St. Paul, Minn., the train leaving Winnipeg at 12:30 a.m. October 31.

GUEST OF HILL

The arrangements of the entire trip are in the hands of Colonel J. H. Carroll of Washington, D.C., who in this present instance is the personal representative of Samuel Hill, who is the host of Her Majesty Queen Marie during her visit to the U.S. and Canada. It is as the guest of Mr. Hill that Queen Marie is to visit Mary Hill, Washington, about one hundred miles east of Spokane, Washington, to attend the dedication of the Mary Hill museum of fine arts built in honor of Mary Hill, wife of James J. Hill.

Mr. Hill was for many years himself connected with his father "Jim" Hill in the Great Northern Railway, but latterly has attained a reputation in connection with highway building and will personally motor Queen Marie over some of these highways in the western states.

ENTERTAINMENTS

Arrangements have been made for official receptions and entertainment at the various places enroute. Mayor Martin of Montreal is in New York in consultation with Colonel Carroll in connection with the entertainment for Her Majesty. At Ottawa, Queen Marie will be the guest at Rideau Hall. While in Toronto she will be the guest of the Lieutenant-Governor and in Winnipeg entertainment will be provided by the Province of Manitoba. There will also be a civic reception on arrival of the Royal Party at Niagara Falls.

YEIFUKU MARU WILL ARRIVE THURSDAY TO TAKE FULL CARGO HERE

With the festivities in connection with the arrival of the Aden Maru hardly commenced, the "K" line freighter Yeifuku Maru, the second ship to load grain here, will arrive Thursday from Muroran, Japan. The Yeifuku Maru, like the Aden Maru, will be fumigated, lined and loaded with a full cargo of grain at the elevator for the United Kingdom or Orient. Before the Yeifuku Maru is gone a third grain ship, Tofuku Maru, will be here.

Capt. Larry Thomson of the Federal Pilots of British Columbia will go out Thursday to Triple Island to pilot the Yeifuku Maru in.

NOT A QUESTION FOR CONFERENCE

MACKENZIE KING SAYS PEOPLE OF CANADA SETTLED THE CONSTITUTIONAL MATTER

LONDON, Oct. 19.—Premier Mackenzie King emphatically declared that Canada had no intention of raising at the Imperial Conference any question respecting the Governor-General or his action. When questioned yesterday by a score or more reporters who sought interviews he said: "We haven't any question respecting the Governor-General. Any matters we had were domestic matters and we settled them ourselves. The Canadian people will deal with their own questions in their own way."

Capt. Larry Thomson of the Federal Pilots of British Columbia will go out Thursday to Triple Island to pilot the Yeifuku Maru in.

Hon. H. H. Stevens Reviews Last Election Campaign and Urges the Revamping of Conservative Policy

VANCOUVER, Oct. 19.—Addressing the Young Conservatives at a luncheon preceding the executive meeting yesterday, Hon. H. H. Stevens reviewed the recent election campaign and claimed the leadership of Hon. Arthur Meighen had nothing to do with the party's defeat.

In Manitoba, Mr. Stevens said, the Hudson Bay Railway had hurt because the Conservatives in contradistinction to the Liberals had been honest in their utterances on that question.

Mr. Stevens warned against a policy of drift, which might lead this country into financial control of the United States and declared: "We need more young men in the Conservative Party. Our policies must be revamped to make them appeal to younger men."

TRAPPER LYING ILL IN CABIN

WILL BE CARRIED OUT TO CIVILIZATION ON A STRETCHER COMRADES ANNOUNCE

GUEST OF HILL

PORT COQUITLAM, Oct. 19.—Found lying seriously ill in a log cabin 70 miles north of Pitt Lake, northeast of here. Robert "Doc" Brown, a prospector 70 years of age, is being tended by R. McMartin, a trapper, who went to the district with Provincial Constable George Elliott to seek him while the latter was making arrangements to have the old timer carried out of the mountain wilderness on a stretcher.

The rescue party of two left here a fortnight ago in search of Brown whom they had not heard from since August when he left a party of explorers of which he had been a member. Elliott said when he and McMartin found Brown, he lay in his cabin in an emaciated condition, his food supply being practically exhausted. A foot was frozen and he was without matches with which to light a fire.

COURTEOUS ACT OF FORMER GOVERNOR.

In view of the little disagreement between the Governor-General and Mackenzie King which started a constitutional controversy at the time of the recent election, it was a courteous thing for Baron Byng to meet Premier King on his arrival in England and show him the courtesy which was his due as head of the Canadian Government. He might easily have excused himself but he did his duty like a soldier and a gentleman. His action was the indication of a big man. It does away with the idea that there was anything personal about the action of the former Governor when carrying out his duties at Rideau Hall.

ALL EYES ARE TURNED THIS WAY.

Prince Rupert is surprising the people of Western Canada through the fact that she is really doing business and making a mark in the commercial world. All eyes are turned to her and the prospects are they will turn with even greater surprise before the season ends. Another grain ship is due here tomorrow and a third will follow in a few days. This grain is going to the United Kingdom and shows clearly that this port is to be a factor in the grain shipping business to any part of the world where the business happens to offer.

USEFUL SAFETY VALVE FOR THE GROWERS.

As long as Vancouver remained the only western port, there was danger of the rates being raised to such an extent that the prairie shippers would suffer a considerable embargo. By having the Prince Rupert competition, it insures that the Vancouverites will be kept at the lowest figure possible and the farmers on the prairies will benefit accordingly. In that way the Prince Rupert elevator will soon pay for itself in benefit to the grain growers.

When the Edmonton elevator was built there was a lot of criticism of the action of the government in spending so much money there, yet the first year it was the means of saving a lot of damp and tough grain and raising the grade and consequently the price so that it paid for itself almost the first year in benefit to the prairie grain growers.

The advantage of a new institution must not always be judged by direct financial results but by the benefit to the staple industries of the country. While it is a good thing for us to have the elevator at Prince Rupert it is an advantage to the people of the prairies also as it makes an outlet for their grain at a competitive point and it is useful as a place to dry the damp and tough grain of which there is some up on the prairies this season.

WHO IS TO BLAME FOR CONDITIONS?

According to an article in the Pacific Fisherman republished in this paper yesterday, the halibut boats have in some instances been able to discharge their catches at Ketchikan, ship the fish to Prince Rupert on a small freighter and beat the time it would take if the fishing boats had come to Prince Rupert direct. This may be a fairy tale but if it is true somebody is seriously at fault in the handling of the local business. The most rapid service that is possible should be given the halibut if it is to reach the market in the best possible condition and Prince Rupert on account of her position should be able to handle the business faster than any other port.

BURNS LAKE

The Silver Island Mining Co. Ltd. has made two excellent strikes—one of lead,

zinc and silver and the other of grey copper carrying heavy values in gold, silver, lead and other minerals—on the mainland shore of Babine Lake opposite Silver Island. R. C. Campbell-Johnson, Vancouver mining engineer who examined the property this summer, reports that a working capital of at least \$250,000 will be required to put the showings on a producing basis.

Mrs. Gordon B. Robb has returned home after an extended visit to the Pacific Coast.

Big game hunters are beginning to get results in this district. Last week a party guided by Barney Mulvaney obtained a big bull moose near the Natzukus. M. F. Nourse and William Reid shot a deer apiece on Burns Lake.

The local Indians brought in a bear which was bagged two miles out on the Burns Lake-Endako trail. Many big game hunters are now enthusiastically joining in the chase.

Jack Barth, who was apprehended near here on a charge of theft from C. N. R. trains, was sentenced by Magistrate Hoskins at Smithers to thirty months at New Westminster penitentiary.

USE OF CHURCH FOR PUBLIC SCHOOLS IS BEING DISCUSSED

A person called at the office this morning and pointed out that it was very unfortunate that certain critical remarks had been made at the recent School Board meeting regarding the housing of the public school class in the United Church building. People seemed to think that the School Board had rented some damp, dark, dismal dungeon of primeval days. Parents who have visited this room have found a ground floor room with high ceiling and splendidly lighted by four very large windows. To date there has never been a need for closing the electric lights. There is no sign of leakage or seepage in ceiling or walls. The heating is entirely adequate. A large gymnasium is always open to the class for play purposes. Indeed the School Board chairman, the secretary, the teacher, the scholars and the parents who have taken the trouble to investigate are enthusiastic over the room.

The will of the late Mrs. J. P. M. Hannah, who died in Prince Rupert a few weeks ago, has been filed for probate in Vancouver. The widower is the beneficiary of an estate of \$3,850.

Edward Smith, son of Constable and Mrs. J. H. Smith, sustained a broken nose in the Junior Football game on Saturday when hit in the face by the ball and hospital treatment is necessary for the injury which is proving very painful.

Will Edmunds, who left this city a few years ago and has since been engaged in the music store business in Vancouver, finds conditions there not quite as satisfactory in his line as he might have expected and there is a possibility that he may return to Prince Rupert.

Mr. and Mrs. Milton Gonzales returned to the city on yesterday afternoon's train after having spent a week at Francois Lake. They had expected to do some grouse shooting but they found weather conditions so unsatisfactory with snow and rain that it was impossible to do so.

"Unless someone tells her about her eyes—she'll need an extension on her arm"

The woman is far-sighted, but doesn't know it. How ridiculous she makes herself look, in her attempt to read the menu! Too many women, and men too, go through this same futile performance. Be sure that your own sight is normal.
