FIRST SHIPMENT OF GRAIN FOR ELEVATOR

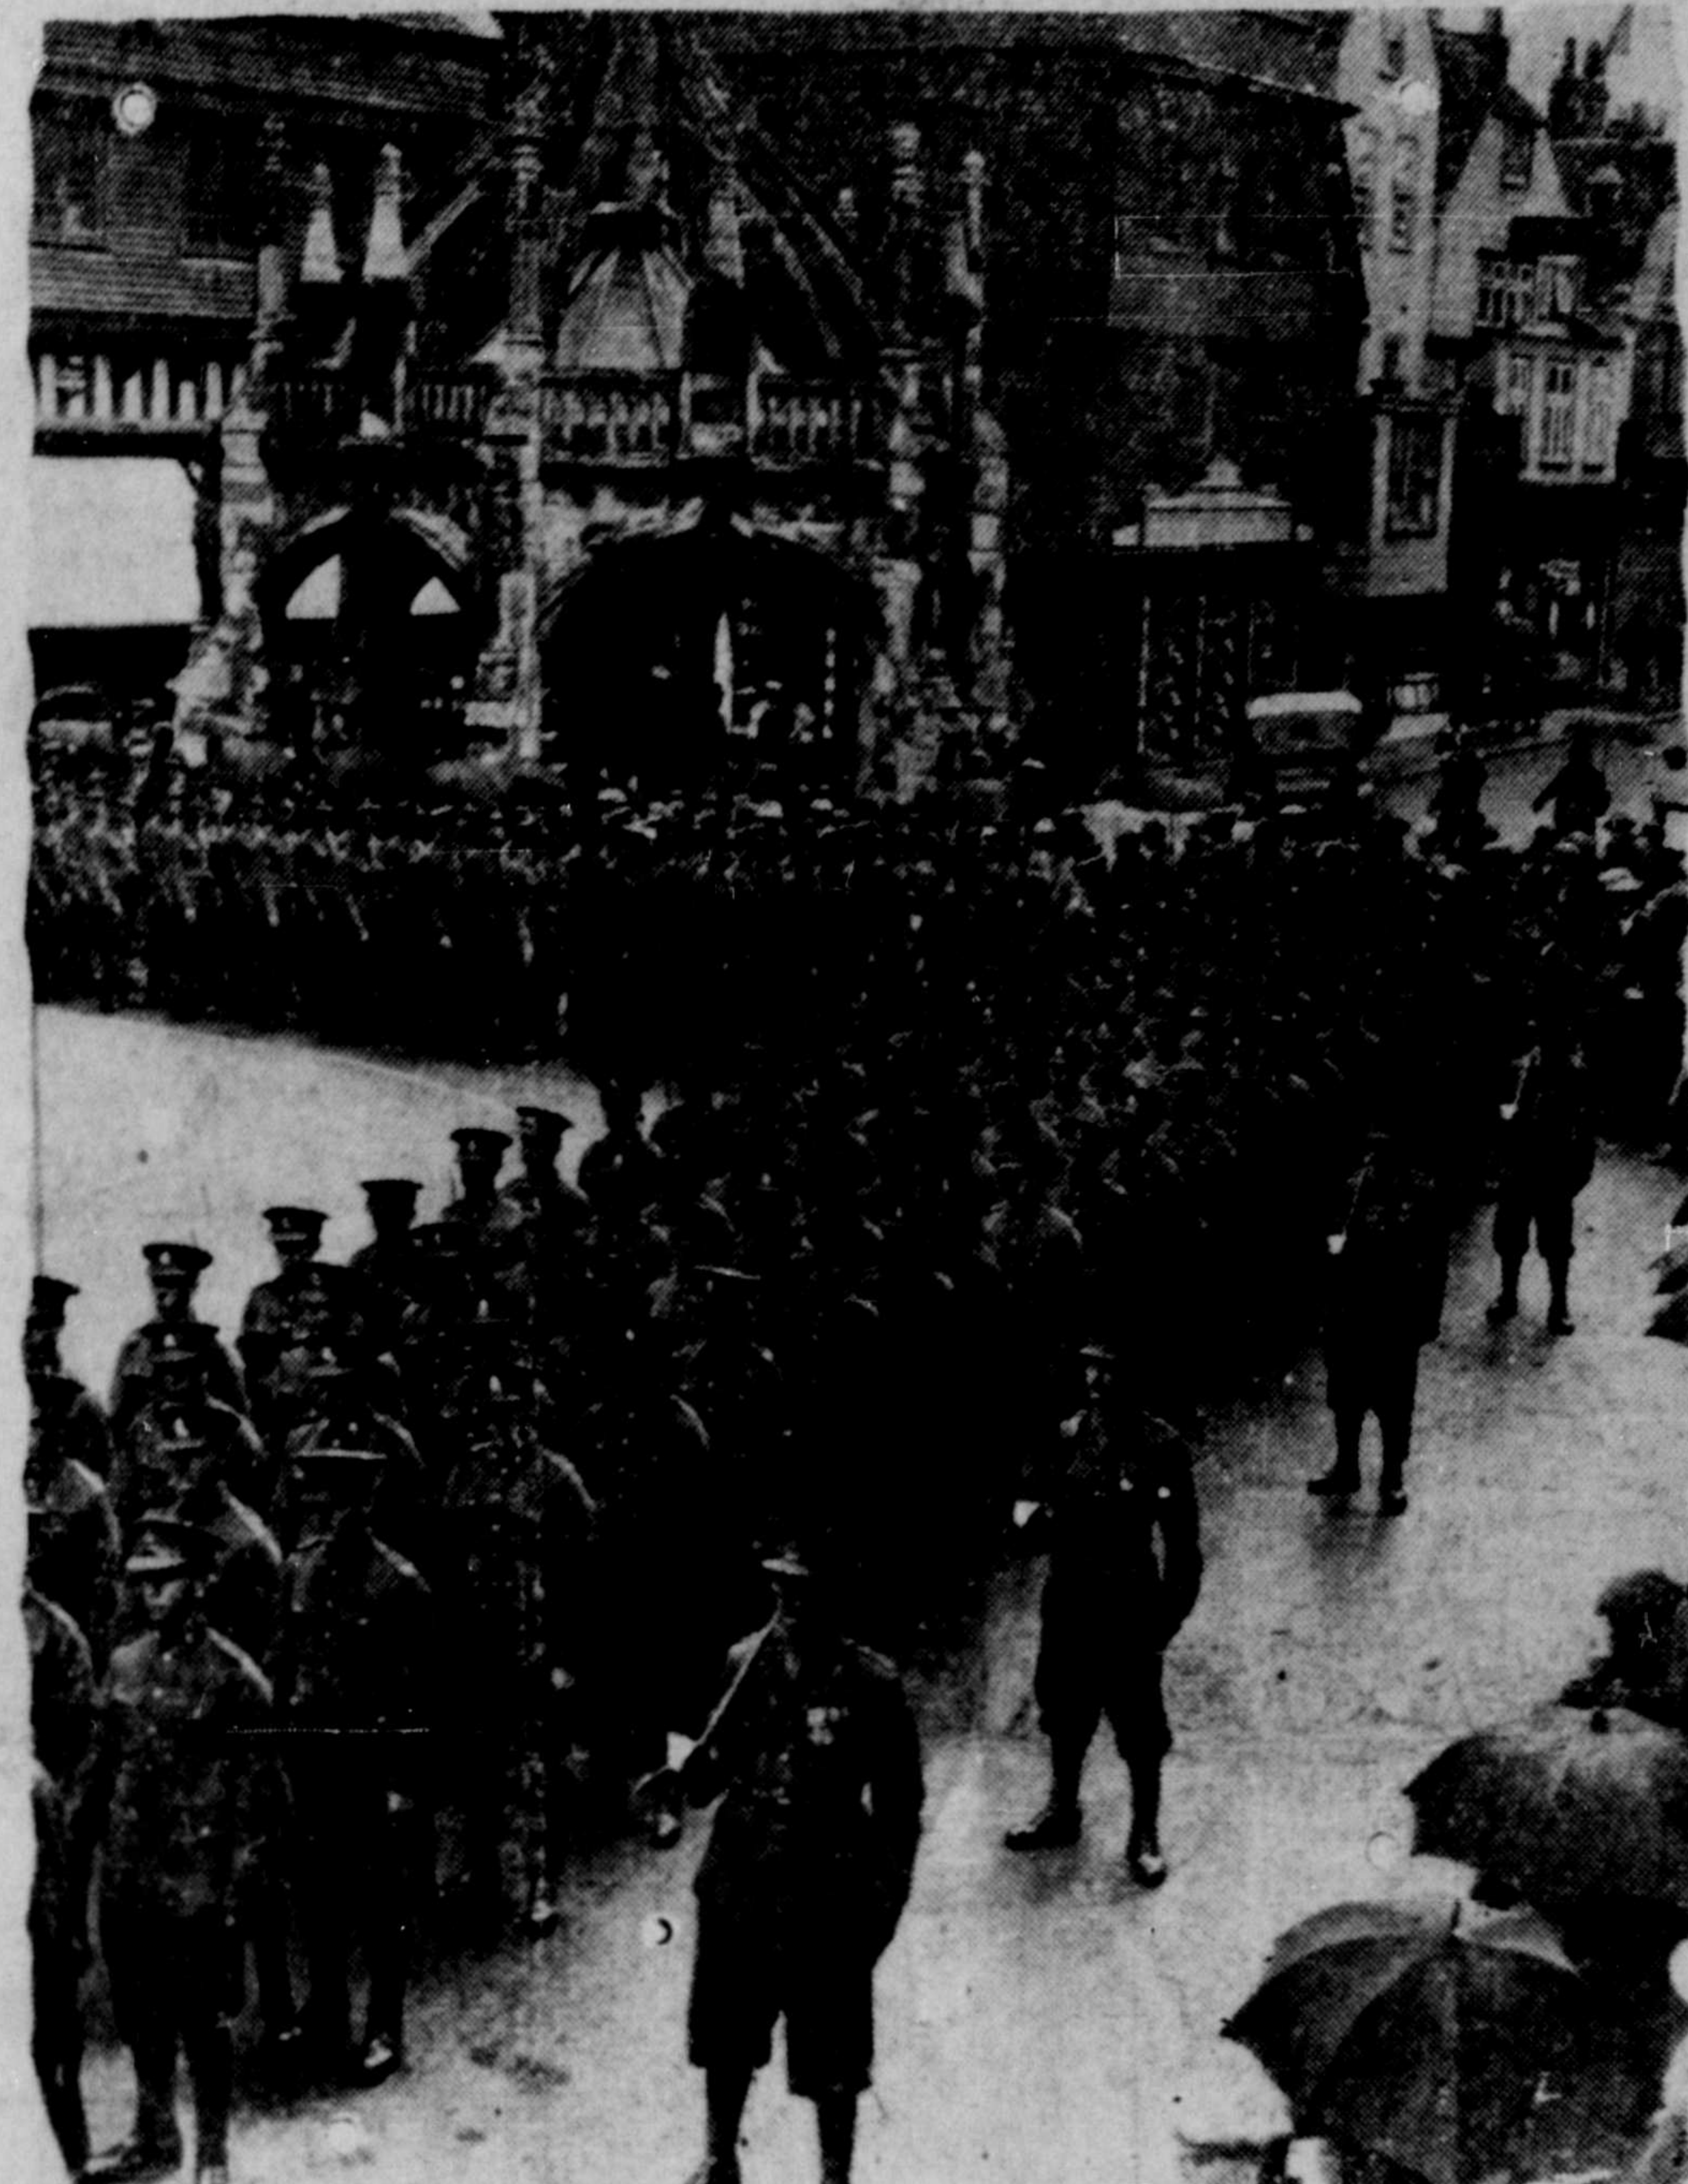

WHEAT LEFT EDMONTON YESTERDAY AND SHOULD ARRIVE HERE SUNDAY

First Grain Shipment Left Edmonton for the Prince Rupert Elevator

EDMONTON, September 23.—The first shipment of wheat for the Prince Rupert elevator was made from here yesterday by the Wheat Pool and should be there about Sunday next. It is not a large shipment but will be followed daily by others.

Shipments have been delayed considerably by the bad weather which has delayed the harvesting operations and it is likely the result will be that there will be a shortage of grain in the Prince Rupert elevator will be called upon to help condition a good crop of grain that will be damp.

The railway line to the coast is reported in excellent shape and no delays should occur in delivering the grain to the new port.

WILTS REGIMENT on their way through Salisbury to the Cathedral to deposit their colors, where they were received at the chancel steps by the dean and placed upon the altar.

Betty Coal Mine at Telkwa Is Increasing Output This Season and is Already Busy

TELKWA, September 23.—With expectations that this will be the best season since the Betty Coal Mine was opened, work is now in full swing at the property of the Telkwa Collieries and on Monday a car of 36 tons was loaded here at the siding in eight hours.

The mine is located on Goat Creek about six miles from Telkwa and the haul to the railway is being done with two ton-and-a-half trucks by the Telkwa Transfer Company. This record haul for one day is in a large measure due to the work that has been done on the road this summer by the Provincial Public Works Department in co-operation with John McNeil, manager of the mine.

Telkwa coal is establishing a reputation along the line from Prince George to Prince Rupert. It is a bituminous coal exceptionally free from clinkers and the demand is steadily on the increase. The past three winters about 1500 tons a season covered the output but this year the management expect to sell 2500 tons or better.

TUNNEL ON LEVEL
Since the road to the mine has been so greatly improved, residents of the surrounding district are motoring out to get first hand information on this new industry of the Bulkley Valley and those whose ideas of coal mines are associated with deep shafts and pits are indeed surprised when they walk into the tunnel at the Betty from the level ground. The vein which averages about six feet in thickness lies a few feet above the high water mark of the creek and dips slightly to the north, making it ideal for drainage, although there is very little water coming into the mine as an hour's pumping every two days is sufficient to keep the sump dry.

COAL IN SIGHT
The main tunnel is in a distance of some 900 feet and there are also several branch tunnels leading from it, all of which show a continuance of the coal seam. It is estimated that 15,000 tons have already been blocked out. The distance from the vein to the surface of the ground at present averages about 50 feet but the development work is now being extended in following the vein towards a hill, several hundred yards back from the creek and it is expected that the additional pressure will improve the quality of the coal when this is reached.

There are eight men working at the mine at present including the engineer and cook and the average output is fifteen tons a day. In the selection of the miners Jack McNeil has been able to secure from among the settlers of the surrounding communities, men who have served their apprenticeship in the coal mines of the old country and who are only too glad to be able to put in the winter months at this work and assist with their experience in opening up and developing another one of the natural resources of the district. Asa Robinson, the foreman, learned the game in the Northumberland coal mines as also did Dad Wicks and his sons.

The camp is made up of a group of substantial buildings consisting of bunk house, engine room and machine shop, cook house, stable and store houses, the bunk house being equipped with a radio receiving set.

LOCAL CAPITAL
To date the development work has been done entirely by local energy and local capital and great credit is due to Jack McNeil for promoting the industry. As the exploration work continues great promise is held for the future and the field being so easy of access should mean a big thing for the district.

STORM KILLED VICTORIA LADY

MRS. ROBERTS, FORMERLY OF BRITISH COLUMBIA CAPITAL THOUGHT TO HAVE LOST LIFE

NEW YORK, Sept. 23.—Among the list of unidentified Florida storm victims is "Mrs. Roberts of Victoria." No initials are given.

VICTORIA, Sept. 23.—Attracted to Florida from California during the recent boom in the Atlantic state through her interest in real estate speculation, Lucy Ann Roberts, 70 years of age, a widow, is believed to have been killed in the hurricane at Miami at the week end. Commenting on a New York despatch received yesterday afternoon, H. Roberts said he feared it referred to his mother who left Victoria several years ago for Santa Monica and he believed she recently went to Florida.

SPRING SESSION OF LEGISLATURE

HOUSE WILL PROBABLY MEET IN DECEMBER AND ADJOURN UNTIL AFTER HOLIDAYS

VICTORIA, Sept. 23.—After stating "the date of the opening of the provincial Legislature next session will be fixed by the Government shortly," the Times yesterday afternoon says: "It is expected the House will open early in December and adjourn almost immediately and get down to serious business almost immediately after the new year."

"Spring session," the newspaper continues, "has been definitely agreed upon by the government and members of the opposition to replace the fall sessions which have been the practice in recent years. It will likely be the middle of January before the business of the session actually gets under way."

Gobi Desert Party Lost

HEAD OF EXPEDITION RETURNS HAVING BEEN TURNED BACK AT PEKIN

SAN FRANCISCO, Sept. 23.—Roy Chapman Andrews, archeologist, arrived here after an ineffectual attempt to penetrate the Gobi desert. The head of a scientific expedition was halted at Pekin by the warring Chinese factions. He said he sent his camel train with supplies of a total value of \$25,000 into the desert to await his coming and he believed they had been annihilated by bandits as they had not been heard from when he left Shanghai.

CLOSE FINISH BOTH LEAGUES

ONLY FEW MORE GAMES BEFORE END WITH ST. LOUIS AND NEW YORK FAVORITES

NEW YORK, Sept. 23.—Taking advantage of Cincinnati's day of rest, the St. Louis Cardinals fell upon Brooklyn yesterday and pounded four pitchers to all corners of the field, securing two homers, five triples and two doubles and increased their lead to two and a half games. One more victory for the Cardinals leaves Cincinnati nothing better to strive for than a tie. St. Louis is idle today.

While the New York Yankees were dropping a game to Chicago, Cleveland gained ground by defeating Boston by 5 to 1. The Yanks now lead by two games but Cleveland must win all four remaining games while New York loses two in order to tie.

LOST HIS LIFE IN ACCIDENT

JOHN MCGUIRE, GRADUATE OF B.C. UNIVERSITY KILLED IN ACCIDENT IN MEXICO

VANCOUVER, Sept. 23.—While motoring in Mexico where he was employed as a mining engineer, John McGuire, 30 years of age, a former resident of Vancouver, was killed in an automobile accident. According to a despatch received here he was returning from a holiday in British Columbia when the accident happened.

Mr. McGuire was injured fatally and his wife not seriously when the car skidded and overturned.

Mr. McGuire entered the university of British Columbia after several years of practical experience in mining camps and graduated in 1923.

FOUND DEAD IN ROOM OF HOTEL

WILLIAM STACKS, LOGGER FROM QUEEN CHARLOTTE CITY, PASSED AWAY DURING NIGHT

William Stacks, a logger from Queen Charlotte City, who arrived in the city last week, was found dead in his room at the Knox Hotel at noon today, heart trouble apparently having been the cause of his demise. The discovery was made by a friend of deceased who went to his room after he had failed to rise in the morning. The door was open and the man's body was found cold in death.

The police were at once notified and Constable McKinlay proceeded to investigate. Dr. J. P. Cade was called and he declared that death had probably taken place some twelve hours previous during the night. The remains were turned over to the B.C. Undertakers.

Little is known of Stacks. He is believed to have been somewhere between 40 and 50 years of age.

Drizzling Rain This Morning Made Fight Prospects Rather Uncertain but Later Improved

PHILADELPHIA, September 23.—Dempsey and Tunney are girded today to fight for the championship and the richest prize in the sporting world. The champion is to receive \$450,000 win, lose or draw, and the challenger gets \$250,000.

The greatest throng that ever paid to view an athletic event is expected and the gate is expected to amount to a million and three quarter dollars.

Weather conditions were none too good early today, with a slight drizzle of rain falling but as the morning advanced prospects improved. Should rain intervene this evening, the fight will be held tomorrow.

It is estimated that 100,000 outsiders reached Philadelphia this afternoon, fifty thousand having arrived overnight.

Dempsey is the heavy favorite, odds of four to one being made that he will retain the title while many freak bets are made that Tunney will be knocked out in from two to six rounds.

PENTICTON, Sept. 23.—Three buildings in the business section of the city were damaged by fire here early yesterday and it is estimated the loss including merchandise destroyed will amount to \$30,000.

Weather on Prairies Delays Harvesting in Manitoba and Alberta

WINNIPEG, September 23.—The farmers of Western Canada already suffering heavy loss from snow and rain storms today watched for an early break in the weather but their hopes were dissipated in many districts in Manitoba and Alberta. Conditions are more favorable in Saskatchewan.

Last night many districts in Manitoba were visited by the heaviest rain storm of the season while in the northern section snow fell. Southeastern sections of Alberta were visited by snow this morning but the cold weather entirely checked the sprouting of stooked grain.

MEIGHEN WILL NOT RESIGN TODAY BUT ANOTHER MEETING

OTTAWA, Sept. 23.—It is officially announced that the Meighen government will not resign today. A further cabinet meeting will be held Friday morning.

BOOSTING PEACE RIVER COAL DEPOSITS.

The general manager of the Dominion Iron and Steel Company is boosting the Peace River coal deposits and doubtless this will be an added reason for proceeding soon with the Peace River Railway and especially with giving an outlet to the Pacific Coast. However, it must also be remembered that Telkwa has one of the finest coal deposits in British Columbia. This field has already been drilled and tested and has been found very valuable. It is not very far from the railway but it cannot be developed until rails are laid to it. This coal would be much more suitable for export or bunkering purposes as it is much nearer the coast than the Peace River coal. The reasonable thing seems to be to get those coal fields developed as soon as possible. The market which the Peace River coal would supply is already well taken care of by the Alberta mines now operating.

ARTHUR MEIGHEN AND CONSERVATIVE LEADERSHIP.

Discussing Arthur Meighen and the Conservative leadership the Vancouver Morning Star says:

"He has now lost three general elections in succession and for the second time has been rejected by his own constituents. This is not because of any lack of ability or of the slightest distrust of him as a statesman. It is safe to say that no public man of the day stands higher in the respect of the Canadian public for sheer integrity and honesty of purpose than Mr. Meighen. But the Conservative leader, as the Morning Star has noted on previous occasions, lacks a certain magnetism, a dash of the genius for handling men which distinguished Sir John A. Macdonald and Sir Wilfrid Laurier. Few Canadian public men have possessed it to the same degree as they—our own Sir Richard McBride might be mentioned as one who had it in large measure—but, on the other hand, few who have risen to the first rank have done so in spite of so notable a lack of it as has handicapped Mr. Meighen.

"In the circumstances the question of the Conservative leadership has been raised within the party itself. It is a matter entirely for the party to decide. It may be remarked, however, that it is one thing to believe that a better leader might be found, but quite another to lay hands on him."

EFFECT OF FUSION MAKES FOR STABILITY.

The number of straight Liberals returned on Tuesday is approximately the same as at the 1921 election, says the Edmonton Journal. If Mr. King could depend upon them only, he would not have an assured majority and would have to carry on under much the same conditions as in the parliament before last. During the lifetime of that body he could not tell when some question would arise that would put him in a minority, and when he dissolved it he stated that his object was to secure relief from this uncertainty.

In the next parliament his position will however, be very different. It will contain eleven or twelve members who were brought into the field by the fusion of Liberal and Progressive interests. They may be regarded as Liberals to all intents and purposes and with their support Mr. King will be able to defy any possible combination among the other elements. He has thus attained the object at which he was aiming when he appealed to the country in 1925. Provided that he does not sustain reverses at byelections or meet with defections in the campaign just closed, his tenure should be secure until another dissolution. This is not likely to come for another four years at least.

COLD IN INTERIOR: SNOW STOPS HARVEST

SMITHERS, Sept. 23.—Wintry weather continues in the Bulkley Valley and on Tuesday evening the first snow of the season fell on the lower levels. About half an inch stayed on the ground but Wednesday was a cold, raw day and the snow had not entirely disappeared the next night. The weather has caused a delay in harvesting operations throughout the valley, so a great part of the grain is in the shocks and in some sections there is still some to cut. It is hoped that the cold snap will not be prolonged as practically none of the potato crop has been harvested and a freeze up just now would be disastrous.

PRESENTATION SCHOOL PRIZES

GOVERNOR GENERAL'S MEDAL AND CERTIFICATES HANDED TO PUPILS AT PARENT-TEACHER MEETING

INTERESTING ADDRESS

K. A. Mann Gives Historical Educational Talk at Large Evening Gathering

The regular meeting of the Prince Rupert Parent-Teachers' Association took place in the Auditorium of the Booth School last evening. There was an unusually large turn-out of parents and pupils and it is hoped that the large attendance will be a feature of future meetings.

Mrs. Arnott was in the chair and after the singing of "O Canada" the business was proceeded with. Miss Mills acted as secretary till the election of W. W. C. O'Neill as secretary in place of H. O'Neill was recorded.

The question of a lecture on "Travels through the World" by Mrs. (Dr.) Bleeker was discussed and left in the hands of the executive.

H. B. Rochester, chairman of the School Board was then called on to make the presentations of the medal, entrance certificates and history prizes. Mr. Rochester expressed his pleasure at the honor conferred on him by the P.T.A. committee in asking him to make the presentations. He congratulated the prize-winners and wished them all success in their future studies and work.

The Governor-General's Gold Medal for the pupil making the highest total was presented to Helen Walker, of the Booth School. Entrance certificates were presented to the following:

Alton Akerberg, Brenda Allen, Ronald Allen, Annie Boddie, Ida Boddie, Winnie Bunn, Walter Bard, Cecil Batt, Marjorie Blance, James Currie, Harvey Crate, Frederic Dingwell, Rosalie Duggan, Kathleen Duncan, Billy Elkins, William Fisher, Elsie Finley, William Fidler, Tait Galland, Jack Gawthorn, Dolores Guelpa, Bronson Hunt, Ralph Johnson, Walter Johnson, Edward Kane, Tomie Katsuyama, Myra Kinslor, Mary Lawrence, Neil McLean, George Mians, Irene Mitchell, Leslie Murdoch, Connie Morgan, Kami Miwa, Jack Nelson, May Ness, Amelia Pillsbury, Doris Robinson, Oral Ross, Rena Scherk, Margaret Sievert, Eddie Smith, Ella Steen, Sheila Stuart, Yvonne Terrien, Victor Thomas, Winnie Tucker, Tada Watte, Yoshi Watte, Jack Wrathall, Charlie Wright, Helen Walker, Neva McInnes, Hilda Murray, Percy McIntosh.

The History Prizes awarded by the Queen Mary Chapter of the L.O.D.E. to the girl and boy of Borden St. School for proficiency in Canadian History were presented to Sheila Stuart and George Kane respectively.

Mrs. Arnott then introduced the speaker of the evening, E. Mann, who gave an interesting talk on Education. Having regard to the fact that refreshments were to be served after the speech Mr. Mann stated that he would not keep those interested in that part of the program from their main business by talking too long.

SYSTEMS OF EDUCATION
He referred to the different systems of education, which formed not a steady evolution but rather a series of evolutions of which the present is the highest type.

The Spartan system was directed towards developing of a military and physical fitness which enabled the Spartans to resist their more powerful enemies until such time as they followed the example of the Spartans and improved on it by adding flexibility of mind.

The Athenian was a much higher type, duty and virtue being considered of the greatest importance. Memory was developed to a surprising degree and music had a little less important position. Physical education was not neglected. At the age of 18 the Spartan youth took a most solemn oath that "I shall not disgrace my country nor my weapons," and went on to finish up "and shall hand on my country greater and better than I found it."

The Romans aimed at developing politicians, rulers, and orators.

The "dark ages" were dark educationally and no system of education was followed though there were many good individual teachers.

HIGH IDEALS
The present system tends to the developing of "a healthy mind in a healthy body," and is a system of high ideals with a due regard to the demands of modern civilization, from the practical point of view.

Mr. Mann closed by reminding his hearers that scholastic attainment of itself was not the only aim of education nor the only guarantee of success—in its fullest and richest sense—in life and made a plea that all should recognize that a clear conscience, the result of a clean life was vital. The speaker was thanked for his excellent address and after the singing of the National Anthem all adjourned to the Domestic Science rooms where refreshments were served.

MASSETT INDIANS FISHING FOR DOGS

MASSETT, Sept. 23.—The run of dog salmon in Massett Inlet is on. The majority of the Indians are away from the village, engaged in fishing for the canneries at Massett and Shannon Bay and the dry saltery at Ferguson Bay.

VILLAGE OF BLATTEN FINES LADY VISITORS IF NOT WELL COVERED

GENEVA, Sept. 23.—The Parish Council of the Alpine village of Blatten, in the Loetsenthal Valley has issued a ukase regarding women's dress, which should satisfy the most rabid puritan: "The entire population, whether foreign, tourists or natives, when using the roads and paths of the commune, must be dressed in such a manner as to comply with the dictates of common decency.

"The breast, the upper parts of the arms and legs must be covered with material that is not transparent. Skirts and trousers must be of sufficient length to cover, at least, the knees.

FRENCH GIRLS STUDY LAW IN SCHOOLS

PARIS, Sept. 23.—A high school girl in France dreams of how she can help her husband, says Mile Caron, the directress of the Fenelon School, where 1200 girls are educated, mostly daughters of state officials and of families of a good social position.

"Formerly teaching was the first and only thing they thought of, now they and their parents are ready to consider other careers," Mile Caron said.

They are encouraged to become chemists and lawyers. As law clerks they earn 12,000 to 13,000 francs a year (under 400 dollars) for 5 or 6 hours a day work, with a month a year holidays and three months when a baby is born.

BREAKS CASTE INDIA TODAY

MASS MOVEMENT OF PARIASHS TOWARD CHRISTIANITY HAVING UPLIFTING EFFECT

BOMBAY, India, Sept. 23.—India's unique phenomenon of mass conversions to Christianity from among the outcastes is receiving interpretations sufficiently varied to create an important controversy. The publication of a book on the subject by a native Indian, Puthenveetil O. Philip, one of the secretaries of the National Christian Council of India, has occasioned the excitement, which is doing much to clean up a vital issue.

The title and contents of his work, "The Depressed Classes and Christianity," both serve to join the battle. Mr. Philip's thesis is that the higher castes have a selfish interest in preventing the servant classes or "untouchables" from gaining religious and social liberty. He contends that the issue is economic as well as religious. At this point his critics do not make hold to assail him, but complain of "proselytizing" by Christian missionaries.

NOT RELIGIOUS PERSECUTION
The author gives instances of bitter persecutions which have been waged against the outcastes by high caste people, not because they cared whether the pariahs became Christian or not, but because they feared that, if they did become Christian, the high caste people would lose their hold on them. The persecutors would thus be deprived of the services of what were practically slaves.

In comment, the editor of "The Indian Social Reformer," an educated non-Christian says in part:

"From the Christian point of view, it is an excellent analysis of the wholesale conversions of the depressed classes, but the same cannot be said from the Hindu part of view. We have often pointed out the excellent work done by the Christian missionaries in social service, education and medical relief, but at the same time we have felt bound to protest strongly against their proselytization propaganda."

CANADIAN REJOINDER

The Hindu editor goes on to claim that "untouchability" has been the sole cause of the growth of the Christian Church in recent years. This the Central India Torch, organ of the United Church of Canada Mission, vigorously denies. "It is one of the chief causes but not the sole cause," says the Torch, speaking for a mission which at present is trying with difficulty to cope with one of these mass movements toward the Church.

The Bishop of Dornakal, himself of Indian blood, rejoices with Mr. Philip that the Christian forces are "teaching the outcaste self-respect and patriotism."

The Hindu writer, Mr. Natarajan, admits that there are now two and a half times as many Christians in India as thirty-five years ago. He calls on all India to renounce the doctrine and practice of "untouchability."

NEW OFFICERS OF BADMINTON CLUB ELECTED

F. E. ROBERTSON HEADS PREMIER ORGANIZATION AND SEASON TO OPEN ON OCTOBER 1

The annual meeting of the Prince Rupert Badminton Club took place last night with E. C. Gibbons, last year's president, in the chair. The financial report presented by Harold Thompson, treasurer, showed the company to be in good financial standing. It was reported that a number of last year's members had dropped out but a large crop of new applications were coming in and the club looks forward to a successful season. It was left with the executive to arrange for a hall and it is probable the club will play in the same place as last year. Any wishing to join are asked to send in their applications at once as the probability is the vacancies in the membership list will soon be filled. Officers were elected as follows:

President, F. E. Robertson.
Vice-president, Mrs. George Bryant.
Secretary, H. O. Crewe.
Treasurer, Harold Thompson.
Executive in addition to the officers, Miss Rivet and H. F. Pullen.
It is expected to commence the season's play on October 1.

REFUSED FIGHT IN NEW YORK

BIG EVENT BEING PULLED OFF TO-NIGHT WENT BEGGING FOR PLACE

PHILADELPHIA, Sept. 23.—The Dempsey-Tunney heavyweight title battle slated to be held in the great Sesqui-Centennial Stadium tonight was the orphan of the pugilistic world until Philadelphia welcomed it. Tex Rickard put it on the doorsteps of both Chicago and New York, but it was denied a home in either city for various reasons. After being blocked in New York at first, Rickard was in the midst of negotiations to stage the fight in Chicago when a sudden switch in sentiment by the New York State Athletic Commission brought the promoter hurrying back to Gotham.

PHILADELPHIA TO RESCUE
It seemed certain that the Yankee Stadium would have the spectacle but when a final show-down came the license powers refused to give Dempsey a permit for the bout, holding that he was first obliged to meet Harry Wills. With only a month to go, Rickard suddenly shifted the battleground to Philadelphia after deciding not to press the issue further in New York or attempt to utilize his Jersey City stadium, Boyle's Thirty Acres.

In the light of the months of bickering, uncertainty and obstacles that figured in the situation, it would be difficult to imagine Rickard having any more difficult time trying to stage a heavyweight title match than he says he did. The first one he ever staged, the famous Jefferies-Johnson tilt in 1910, gave him more trouble than any other fight he ever promoted.

SLATED FOR FRISCO
"That fight, you will recall originally was slated to be held in San Francisco," Rickard said. "They had a fight law there, everything seemed all set and I went ahead and invested something like \$40,000 in erecting a wooden stadium. Then, without the slightest warning and only thirty days before the match was to come off, Governor Gillett said we couldn't hold it. I swallowed the big money loss, pulled up stakes and took the fight to Reno, Nevada."

BLAMES POLITICS
"Politics usually have been at the root of most of my troubles," said Rickard. "Somebody always wanted to have a finger in the pie."

Reformers also have tried to block my plans on a number of occasions. I don't know why it is but they always pick on a heavyweight title fight as the one event in boxing to criticize and class as brutal. It must be because they're sure of receiving more publicity on such occasions than they would if they objected to a match attracting less public interest."

PROCESS SERVERS
"Process servers who wait in ambush until the last minute also can be annoying," the promoter continued. "Dempsey may think he has been harried with law-suits but he isn't in a class with Firpo."

"The big Argentine was always being subjected to some court action and a summons in one of them was served on him only an hour before he was to step into the ring with Harry Wills at Boyle's Thirty Acres in 1924. I had to put up a \$50,000 bond on the spot to keep him from being taken in jail and kept from going on with the fight."

Famous Battles for the Heavyweight Title
WILLARD VS. MORAN
There was no lack of composure in a ten-round no-decision bout between Jess Willard and Frank Moran at Madison Square Garden, New York, March 25, 1916. The popular verdict went to Willard with Moran recorded as voting "No."
After the hostilities had subsided Willard exhibited a sore finger without comment, leaving the battered digit to do his talking for him.
Moran was not so reserved. He made no secret of the satisfaction he felt at his own performance and declared that but for his own efforts there would have been no action.
Neither principal was injured seriously. Willard's thumb being restored to its normal state in due course.
There were no casualties among the spectators.

SMITHERS
Mr. and Mrs. John Gould and children of Houston were the guests of Mr. and Mrs. N. P. Moran over the week end.
Ernest Hann is now in charge at the local branch of the George Little lumber yard.
A jolly house dance was held at the home of Mr. and Mrs. Jas. Pea last Friday evening when a number of friends were invited to tender a farewell to Mr. D. F. Hatt who is leaving soon for Victoria.
Mr. and Mrs. Frank Manuels returned to town at the week end from a holiday trip to Edmonton.

SPORT CHAT
Winter sport activities are being organized earlier this year than usual, perhaps on account of the clear cool air in the air. The annual meeting of the billiard association was a most enthusiastic event and the badminton people got started last night. It is to be hoped the basketball leaders will be getting busy soon to sound out the possibilities in that popular sport. There should be some competition along that line to fill the gap that was so noticeable last winter. Indoor baseball might also have possibilities here again.
Keen interest is being taken locally in the Dempsey-Tunney match for the heavyweight boxing championship of the world which takes place this evening at the Sesqui-centennial stadium in Philadelphia. Tunney seems the favorite as far as hopes are concerned for, in boxing like politics, the people like a change and Dempsey has ruled quite long enough. As far as the betting is concerned, however, here like elsewhere, there is plenty of money on Dempsey but few takers who wish, even at odds, to venture their coin on Tunney. Though Tunney is reported to be in the best of shape, there is a feeling that his opponent is almost invincible. The Grand Terminal Club and Joe Brown's cigar store are taking a Canadian National service on the returns which are expected to start coming in about 5:15 this afternoon.

HAZELTON
James Hodder and Bill Larmer left early this week for the north country where they will try their luck on the trap-line. They do not expect to return until sometime next summer.
Among the delegates who attended the United Church Presbytery in Prince Rupert last week were R. J. Morrison and Mrs. William Grant. They took in the sights of the big fair as well.
Rev. Victor Sansum supplied the Union Church pulpit of the Hazelton, Sunday morning and evening last.
Word has been received that Dr. Winch is expected back from his vacation next week. Hazelton and the surrounding community will certainly welcome the Doctor's return.
The road-gang working on that portion of the Provincial highway towards Skeena Crossing are making splendid progress under the able piloting of "Captain" Carrigan. If the weatherman continues to send fine days, and the grant does not need to be replenished, they hope to reach the Crossing before the freeze-up.
A very pleasant social evening was tendered the Hospital staff Saturday evening by Dr. and Mrs. Large prior to their leaving shortly. Parlor games, intelligence tests, spelling match, etc. was the order of the evenings entertainment which was entered into by all with keen interest. Refreshments were served by the hostess at the close.
Another very pleasant evening took place at the home of Mr. and Mrs. Dungeat in honor of Rev. Mr. Daniels who leaves to resume his studies at

COMMONWEALTH SANK FISH BUYING BOAT IN SUMNER STRAIT, ALASKA
KETCHIKAN, Sept. 23.—On Friday, September 17, at 2 o'clock in the morning, the halibut schooner Commonwealth, Captain M. Bergman, owned by the Booth Fisheries Co., rammed from the rear and sank the power boat Annie, Captain Hans Danielson, off Point Colpoys, Sumner Straits. The Annie is 11 tons net, and was engaged in fish buying. The Commonwealth is 60 tons net. She has heavy ice-breaking bows and slipped over the Annie and sank her immediately.
No one was hurt. Captain Danielson of the Annie climbed aboard the Commonwealth, as the two boats met, and the man who accompanied Danielson on the Annie jumped overboard, but was picked up.
Masters of both boats have filed official reports with the United States customs office which will be forwarded to the United States.
Mrs. W. B. Morgan, Hays Cove Circle, has returned to the city after a trip to Jasper Park.

The Well-Managed Home

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy.

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient.

Every manager of a household--every member of the household who shares the responsibility for the family's welfare--should make a habit of reading the ads.

MILLION FEET LUMBER RAFT

CEDAR AND AIRPLANE SPRUCE LOGS ARRIVE FOR LOCAL MILL AT SEAL COVE

A Davis raft containing a million feet of cedar and some airplane spruce arrived here today from the T. A. Kelley Logging Co.'s camps on Queen Charlotte Islands in tow of the tug St. Faith for the Seal Cove Lumber Company.

The St. Faith is a new tug operated by the Powell River Paper Company and was brought here recently from Great Britain.

The vessel has one notable towing voyage to her credit. After the armistice she towed a 10,000-ton German steamer fully loaded with nitrate from Chili to Europe, via the Panama Canal. This steamer had been lying idle for several years, and her bottom was covered with sea growth, but nevertheless good speed was made throughout the 8,000-mile tow.

Since arriving in British Columbia, the St. Faith has been restored to Lloyd's 100 A1 class, for which she was designed and built, and has been fitted to burn fuel oil, the bunker capacity being arranged for twenty-five days continuous steaming. When fully loaded with fuel and stores the vessel will have an extreme draft of fifteen feet and a displacement of 1,000 tons.

OFFICIALS OF RAILWAY ARE DUE TOMORROW

J. E. DALRYMPLE, VICE-PRESIDENT IN CHARGE OF TRAFFIC, HEADS DISTINGUISHED PARTY

A large party of important Canadian National Railway officials, headed by J. E. Dalrymple of Montreal, vice-president in charge of traffic, will arrive in the city from Vancouver aboard the steamer Catala tomorrow and spend a day here on general inspection before proceeding East by train.

Beside Mr. Dalrymple, the party will include A. T. Weldon of Montreal, general traffic manager who, until recently, was traffic manager for the Atlantic region with headquarters in Moncton, N.B.; W. C. Moore of Montreal, manager of the C.N.R. express department; W. G. Manders, Winnipeg, freight traffic manager; R. Creelman, Winnipeg, passenger traffic manager; B. A. Latta, Edmonton, superintendent, Express department; J. M. Horn, Vancouver, general freight agent; G. A. McNeill, Vancouver, general passenger agent; B. C. Keeley, Pacific coast manager, Canadian Government Merchant Marine; W. Hart, secretary to Mr. Dalrymple, and G. Stiven, secretary to Mr. Weldon.

Certain of the officials will be met by a delegation of the Prince Rupert Board of Trade in connection with local matters.

EXPECT SUCCESS PORTLAND CANAL

SELUKWE GOLD MINING AND FINANCE COMPANY OPERATING AT STEWART HAS WIDE SCOPE

Word comes from Portland Canal that an ore discovery of major importance has been made on the B.C. Silver, says the Financial Post of Toronto. The location is given as a cross-cut from a shaft 75 feet below the lowest or N. 3 level. This is said to demonstrate that ore bodies persist to depths of 1000 feet or more.

London Mining World in a recent issue said regarding Selukwe and the B.C. Silver companies: "After wandering for years in the wilderness of disappointed hopes, this company seems at last on the threshold of a remarkable success, a success likely to be as conspicuous as that which attended its neighbor the Premier. If what we hear from Canada is true . . . we shall see some of the most important developments on the Salmon River this season."

CONTROLLED IN BRITAIN

The Selukwe Gold Mining and Finance Company, Limited, a British mining concern, controls the B.C. Silver holdings in the Portland Canal. Selukwe also recently purchased the Bush Mines, supposed to have the northern continuation of the famous Premier vein. This property is now held by a subsidiary of Selukwe, called Selukwe.

Selukwe owns 27 mining claims at Selukwe, Southern Rhodesia, Africa, and the holdings of the British Canadian Silver Corporation, Limited, with extensive holdings in the Portland Canal National management and the executive of the association.

NEW LEADER CONSERVATIVES

FINANCIAL POST SAYS MEIGHEN FAILED COMPLETELY OWING TO LACK OF POLICY

(Financial Post)

Mr. Meighen, brilliant, respected, sincere, has failed completely as a leader because he is incapable of understanding the voters, or listening to advice of experienced men and of building a constructive policy thereon. The Conservatives will now have to find a new leader and reorganize nationally.

Business men, Grit and Tory, feel much relieved. Even the disappointed ones know that the more stable conditions are what was needed, needed more than either a Liberal or a Conservative administration was needed.

Looking ahead, there is much prosperity in sight for Canada. The Liberals have a glorious opportunity to make that prosperity complete, generous, fulsome. They will do it if they are ready—as their majority enables them to be ready—to sink politics in business, and place in their cabinet the best executives they can find, and make further immediate reduction in taxations. They have the Washington experience to guide them.
