LAKE VESSEL TO BE BUILT PRINCE RUPERT

SHARP WORDS OF PREMIER MUSSOLINI TO GERMANY REGARD PROPAGANDA

Contract is Signed for Building Power Vessel at the Local Shipyard

Power boat will be fabricated here and then sent by rail to Kilowna where work on her will be completed

On or about March 1 work will commence at the local dry-dock on the building of a large power vessel for use on Okanagan Lake, the construction of which will take two months here in addition to the time occupied in putting it together at Kilowna. Most of the particulars in regard to this were published in the Daily News Monday, the announcement coming from Penticton. At that time the contract was not finally signed and no local announcement could be made.

The vessel will be built in the shed adjoining the slips where the Canadian Scottish was launched. The steel work will all be fabricated here, bolted up and when complete will be knocked down, the parts crated and shipped by rail to Kilowna, where they will be put together again. The woodwork will be done at Kilowna but all the steel work here. The woodwork will be above the main deck.

The vessel is to be 127 feet over all with 22-foot beam and 6 feet extreme draft. She will be fitted with two six-cylinder Gardner engines of 200 horsepower each of the semi-diesel type. She will make 12 1/2 knots loaded, will have twin screws and will carry from 40 to 100 passengers and a cargo of three or four car loads.

The job will be a welcome addition to the work already laid out for the local yards.

ESPERANZA MINE MADE SHIPMENT OF HIGH GRADE ORE

ALICE ARM, Feb. 10.—The Esperanza Mine, which is one of the most regular shipping mines on the north coast, is again producing high grade silver ore and the prospects for increased shipments are bright. During the week seven tons of high grade and 43 of low grade have been shipped to the Anox smelter. Development work is proceeding to open up more ore and nine men are employed.

N. Fraser, G. Lee and T. Galif have a lease on one part of the mine and V. Stella, T. Mack and associates on another.

SOMERVILLE CANNERY IS BEING DISMANTLED

Plant at Mouth of Naas River was Recently Acquired by Wallace Fisheries

The Somerville cannery, near the mouth of the Naas River, which was recently acquired from Evans, Coleman & Evans by the Wallace Fisheries, is now being dismantled and the machinery will be removed to the Mill Bay cannery which was also recently purchased by the Wallace interests. Percy Mackenrot is in charge of the dismantling work and is now there with a crew of men. The site of the cannery will be continued as a camp.

BIRTH.

A daughter was born at the Prince Rupert General Hospital on February 9 to Mr. and Mrs. Louis Campagnola, Eighth Ave. East.

The vessel arrived yesterday from Shanghai flying the yellow flag. She was en route to Vancouver to load grain.

Sharp Disagreement Between Italy and Germany over the Anti-Italian Propaganda

LONDON, Feb. 10.—As a result of friction between Premier Mussolini of Italy and the German government unconfirmed reports state that the Italian Ambassador and counsellor of the embassy have left Berlin for Rome.

BERLIN, Feb. 10.—In an address yesterday Foreign Minister Stresemann of Germany denied allegations made by Premier Mussolini of Italy that Germany was carrying out Italian propaganda in the upper Adige valley of the Tyrol.

ROME, Feb. 10.—Replying in the Senate today to yesterday's address by Foreign Minister Stresemann of Germany denying allegations of Premier Mussolini that Germany was carrying out anti-Italian propaganda, Mussolini declared: "I confirm the letter and spirit of my previous speech, not excluding the accent upon my phrase referring to the possibility of the Italian flag going beyond the Brennero frontier, which Stresemann can interpret as he chooses."

Schooner Saved from Breakers by Thiepval off Vancouver Island

VICTORIA, Feb. 10.—Schooner Chalattepec was snatched from the breakers on the west coast of Vancouver Island by the Canadian government steamer Thiepval after a thrilling race against time yesterday afternoon.

The schooner was sighted in distress two miles off Lion Rocks near Carmanah Point. Word was at once sent to Bamfield life-saving station and the Thiepval hurried to her assistance and took the schooner in tow.

Later the Thiepval reported that the tow line had broken twice and she was standing by the Chalattepec, awaiting the arrival of the salvage tug Salvage King from Victoria.

The schooner was on her way from San Francisco to Puget Sound to load lumber.

After Wrangle in Council, Mayor Newton is Forced to Accept Unanimous Motion

Faced with a resolution that no other business of the council be proceeded with until he had declared carried a resolution that had been unanimously passed by the aldermen, Mayor Newton was forced to accede to the wishes of the council last night but not until after some rather acrid remarks had been directed against him, especially by Ald. Casey. The dispute, with the full aldermanic board on the one side and the mayor on the other, was over the removal of the rock crusher from its present location on Sixth Avenue near Fulton Street where its work is about completed.

The council approved of moving the crusher to the lots of J. Postulo lots 2, 3, 4 and 5, block 14, section 1, while the mayor wanted to delay such action until he had made investigations with regard to the advisability of moving it forthwith to the Seventh Avenue quarry.

Mr. Postulo had a letter before the council offering to pay the city \$750 to cover the cost of removing the crusher to his lots from which the rock is to be removed and used on street surfacing.

Ald. Casey moved the acceptance of the Postulo offer and Ald. Perry seconded. Ald. Casey spoke of the advantages of moving the crusher to the Postulo lots at this time, stating that some thousands of dollars would be saved the city by doing so instead of going to Seventh Avenue immediately. "It is positively 1,000 business for the city, which stands to benefit as well as Mr. Postulo," he declared.

Ald. W. J. Greer wanted to be assured that the taking of the crusher to the Postulo lots would not delay the grading of Seventh Avenue West. We was given such assurance by Ald. Perry who stated that it was the intention, in the meantime, to have work started on the grading of Seventh Avenue and also on the stripping of the Seventh Avenue quarry in readiness to later receive the crusher. The present plan was to give Seventh Avenue West an outlet by way of Dunsmuir Street. The moving of the crusher to Seventh Avenue, Ald. Casey added, would not hasten the grading of Seventh Avenue.

NEW GOVERNOR AT LUNCHEON

Randolph Bruce Deprecates Attacks Made on Canada by British Newspapers

LONDON, Feb. 10.—Robert Randolph Bruce, the new Lieutenant-Governor of British Columbia, at a luncheon given in his honor by the British Empire League yesterday, strongly deprecated the attacks on Canadians by some newspapers in Great Britain. "There are some who say this country has the climate of heaven," he said ironically, "but you will not find articles in the Canadian papers stressing this fact."

LUMBER EXPORT MADE RECORD

Waterborne Shipments Last Year Greater than Ever Before in History of Province

VICTORIA, Feb. 10.—All previous records in British Columbia lumber shipments were broken in 1925, according to figures announced by the provincial forestry service. The total waterborne shipments last year amounted to 577,569,288 board feet as compared with the former record of 531,262,319.

NEW SAWMILL BIG CAPACITY

North Vancouver to Have Million Dollar Plant for Cutting Shingles and Lumber

VANCOUVER, Feb. 10.—Construction of a new sawmill at North Vancouver to cost more than \$1,000,000 and having a capacity of 250,000 feet of lumber and 200,000 shingles daily will be commenced immediately, G. G. Johnson, general manager of the Capilano Timber Company announced today.

HORSES BURNED NEAR DAWSON

Sixteen Perish when Barn Caught Fire on Bear Creek Yesterday

DAWSON, Feb. 10.—Sixteen horses perished when a fire early yesterday destroyed a large barn at Bear Creek, eight miles from Dawson. With the aid of volunteers from Dawson the flames were subdued before spreading to adjacent buildings. The fire is believed to have been caused by defective wiring.

Mayor Newton was of the opinion that no great saving would be effected by moving the rock crusher to the Postulo lots. While he would be satisfied if the majority of the council was in favor of so placing the crusher, he wanted it to be definitely understood that Seventh Avenue West should be opened up at once. He was inclined to favor the immediate opening up of the Seventh Avenue quarry so that the rock might be used on the Seventh Avenue grading.

Ald. Larsen observed that it would be several months before it would be practicable to place the crusher in the Seventh Avenue quarry. The quarry would have to be first opened up and, moreover, a street would have to be prepared before the crusher could be transported there. He was in favor of accepting the Postulo offer.

Asks For Delay
Mayor Newton was of the opinion that it would not take so long as Ald. Ald. Larsen suggested to get the crusher in operation at the Seventh Avenue quarry. In view of the fact that the new city engineer would be here next week, he suggested that the acceptance of the Postulo offer be deferred until he arrived.

Ald. Casey was opposed to any such delay. He was ready to use (continued on page two)

Petty Politics Of Party People.

In connection with an editorial article yesterday dealing with the railway in politics, no reference was made there to petty political affairs such as political appointments, which are often spoken of as "politics." Happily the railways are to a large extent out of politics in that connection. So far as the management is concerned, when it does not conflict with any other governmental policy, the railway officials have the last say. They make the appointments and see that the work is done. They draw up schedules and manage the railway in every sense of the word. In that respect the railway is out of politics.

Any large corporation has a strong political influence in the country and a government railway even more than a private corporation. We have mentioned before that the G.P.R. has a great influence politically and much more so the C.N.R.

Jury System Is Criticized By Manson.

Hon. A. M. Manson criticizes the jury system of trial, and justly he may. The average jury is not fit to try a criminal case. Trial by judge is much more likely to result in justice being done by the offender. The average person is too easily swayed by emotion and too little by the facts as presented apart from the clever oratory of a counsel. Those who have attended court trials must be struck with the difference between trial before a county court judge and that before a jury. The county court judges as a rule are excellent men and are able to arrive at much better decisions than the average twelve men chosen for a jury. It is a curious fact that the men who sit in our county courts are often much better balanced and more capable men than those chosen for the Supreme Court and yet there seems to be no promotion from the county court to the Supreme Court. Our own Judge Young and Judge Lammiman of Victoria are examples of men who seldom make mistakes and who hold the respect of all classes of the community. When a man goes before either of them he knows he is going to get a square deal and that the judgment will be tempered with mercy.

Change In India Is Forecasted.

India is to have a navy and natives of that country are to be given commissions in it. This is the beginning of the breaking down of the barrier of race in that country. One of the strong objections to British rule in India is the race barrier. There is no such thing as race equality. Indian people themselves have their castes and no man can associate with any person of another caste. So the white population form a caste and when the white man forgets it and marries an Indian, he at once becomes a social outcast. It is to be presumed that the officers of the naval ships will be chosen only from the highest caste in the land and not, as many would imagine, from the people generally.

Coolie Classes In Orient Are Marked.

Those who look for such a thing as universal suffrage or the abolition of classes, usually get a rude awakening when they travel in the Orient and see the long way the race has to develop before it can be considered that the people of the world will rule. The most advanced democrat in China will not suggest that the Coolie should have a vote. The power of electing rulers would lie only with those who have some education and intelligence.

ASSESSMENT IN DISPUTE

Vancouver Man Objects to Price Placed on Corner of Fifth Street and Second Ave.

IN PRIVATE SESSION.

No Decision Reached Yesterday but will be made tomorrow Afternoon

The court of revision on the 1926 city assessment roll yesterday afternoon dealt with the appeal of M. W. McLeod of Vancouver through Milton Gonzales against an assessment of \$14,000 on the double corner at the southwest of Second Avenue and Fifth Street. After hearing Mr. Gonzales, the court, at the request of the city solicitor, went into private session but reached no decision, reserving its judgment until tomorrow afternoon.

Mr. Gonzales pointed out that the assessment on the lots in 1923 and 1924 had been \$2,300 and \$3,500 whereas the valuations were now \$6,000 and \$8,000. Though the city had removed the rock from the lots, there was no reason for such an increase in the assessment. Stating that three prominent real estate brokers had placed a maximum value of \$7,000 on the corner, Mr. Gonzales' main contention was that it was not legal for the city to assess lots at any higher figure than their actual value. Moreover, the lots had last year been valued by the assessor at \$14,000 but had been reduced by the court of revision to \$12,000. Mr. Gonzales asked that the valuation of the lots be reduced to \$7,000 or within reasonable reach of that figure.

Mayor Newton contended that all property owners were in the same position as Mr. McLeod. The city could do nothing more than see that the assessments were equitable even if they were high. In any case, it was as broad as it was long and if the assessments were reduced the tax rate would have to go up. As the lesser of two evils, the mayor was in favor of maintaining as low a tax rate as possible, even if it meant higher assessments.

Mr. Gonzales replied to this argument that there was a limit to the tax rate.

AFTER WRANGLE IN COUNCIL MAYOR NEWTON IS FORCED TO ACCEPT UNANIMOUS MOTION.

(continued from page 1)

his common business sense and settle the matter immediately. Any time that he was so thoroughly impressed with the economy of a project as he was with this, he did not feel called upon to seek the advice of a new man unfamiliar with the matter in hand. He added that the mayor had once already signed a report to the end now proposed but had "got cold feet and scratched his name off the report" when protest had been made against the program. Now those people that had protested were satisfied. "Let us exercise the judgment that the people who elected us feel that we possess," he urged. "Personally, I am ready to stand or fall with this project from the engineering standpoint alone."

Personal Allusion

Replying to what he felt was a personal allusion, Mayor Newton stated that he had never signed the report referred to, knowing that any such recommendation as this was to be carried out. He had been absent from the Board of Works meeting at which the matter had been discussed and how his name had got on the report he did not know.

"Oh now, Mr. Mayor," remarked Ald. Casey, "it was your own handwriting. The matter was discussed with you in the Board of Works and you were agreeable to it."

The mayor replied that he had not been agreeable, lie and Ald. Casey then started both talking at the same time until members of the council demanded order.

"Let's have the question," asked Ald. Brown. "We don't want to hear any more of this personal argument."

The mayor said that charges had been laid against him and he felt he was entitled to answer them. He then went on to further explain his position.

Ald. Jos. Greer felt that, if the Board of Works gave assurance that the project was economical and there was absolute assurance that the Seventh Avenue work would not be delayed, it would be in the best interests of all to support the motion. Ald. Perry pointed out that the Board of Works had already given that assurance.

The question was then put and the council was unanimously in favor of it.

"Before pronouncing the motion carried, I think I will sleep on it," declared His Worship.

Mayor or Council

"Mr. Mayor," declared Ald. Casey, apparently at the end of his patience, "we have come to a point where this council must assert itself and ascertain once and for all whether or not you are the czar. Here you have a unanimous council and you would be a unanimous czar. Who are you and who are we? That is what we want to know. Why are you worse than the czar and you know what he courted and what he got, I move that no further business of this council be proceeded with until this motion has been declared carried. You are coming to the end of your tether. Either this council is going to be nil or you are."

Ald. Perry seconded Ald. Casey's motion that no further business be proceeded with.

"And I might say some things," declared the mayor. "Start right in and say them," was Ald. Casey's rapid rejoinder.

"I want you to know that neither you nor anyone else can bulldoze me," asserted His Worship.

"And you can't bulldoze this council either, old man," replied Ald. Casey. "Why you never do anything unless there is a motive behind it—a political motive."

Mayor Newton felt that such criticism was very unfair.

City Solicitor Jones then cited the Municipal Act as to the mayor's power of intervention.

Ald. Casey asserted that the mayor's intervention at this time would only hold up the city's whole program at extravagant cost. The city could not afford to wait for the mayor's decision. He insisted that if the mayor chose to hold this up, the council could hold up all the rest of the business except matters of a financial nature requiring immediate attention. "We can be just as arbitrary as the mayor."

Couldn't See Why

Ald. Brown could not see why the mayor wanted to hold up this motion. On the other hand, he

could see nothing to be gained by holding up the rest of the business.

Ald. Joe Greer felt the matter might be laid over till the end of the agenda.

Mayor Newton said that he would like to go among the Seventh Avenue petitioners to ascertain their views.

"I have spoken to many of those people myself and they are agreeable, but I suppose the opinion of an alderman is null and void," stated Ald. Casey.

The mayor replied that he had spoken to some who were not in favor.

"We have been elected by the people and are responsible. Our decision is not good enough for you, however. You have got to go out on the street for a decision," countered Ald. Casey.

Ald. Perry insisted that the matter should be finally settled at once. There was no common sense in holding the matter up. The decision of the full council should be accepted by the mayor.

Ald. McKechnie pointed out that it was necessary to exercise economy if the Cemetery Road work was to be kept within the \$18,500 provided by the bylaw. A great saving was here offered and he thought the mayor would be well advised to accept the council's decision.

Mayor Newton suggested that a special meeting could be called in two days to receive his decision.

Mayor Surrenders

Ald. McKechnie and Ald. Perry insisted that the matter should be settled now, once and for all. When the council had been unanimously in favor of the motion, Ald. McKechnie failed to see why any one man could not fall in line.

"The mayor then surrendered and declared the motion carried."

Dr. Wood's Norway Pine Syrup

Mrs. S. E. Little, 103 Inkerman St., London, Ont., writes:—"I got a very severe cold which settled in my bronchial tubes.

I coughed night and day, and although I tried several different remedies I could get no relief until a friend advised me to take Dr. Wood's Norway Pine Syrup. This I did, and I must say that it gave me almost immediate relief as I got rid of my cough very quickly. I hope this testimonial will be the means of helping others."

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants. Full information together with Mining Reports and Maps, may be obtained gratis by addressing—
THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

N.B. — Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

THORNTON WILL STAY WITH JOB

Declares He Will Fight Through to Finish in Addressing Traffic Officers

MONTREAL, Feb. 10.—Confidence that the best years of the Canadian National Railways are in the future, that Canada is entering a period of solid prosperity, and a determination on his part to remain in the service of the company and see its fight through to a finish were expressed by Sir Henry Thornton, president of the system, when he addressed the traffic officers of the railway at the final meeting of their annual conference here last night.

The conference which has been in session for several days has been discussing the program for the coming months and providing means for meeting the additional requirements which will be necessary in view of the anticipated increase in freight and passenger traffic. Officers of the traffic department from all parts of the system in Canada and the U.S. have been in attendance at these meetings.

PRINCE RUPERT AS OUTLET FOR PEACE COUNTRY

Board of Trade Inquiry is Interesting as Showing Trend in Northern Alberta

The secretary of the Board of Trade has received a letter from the secretary of the Board of Trade of Beaverlodge, Alberta, asking for information in regard to Prince Rupert, which he is answering and which is very interesting as showing how information in regard to this port is spreading. The letter says:

As a question of a Pacific outlet for the Peace River district will be seriously considered in very near future I would be glad if you would forward all important features concerning the Port of Prince Rupert such as grain handling facilities, harbor frontage, facility in loading vessels, harbor dues, routes to the Orient and the United Kingdom, insurance rates on cargoes, depth of water or any features that would prove that the Port of Prince Rupert is a more attractive shipping point for the Peace River country than any other Pacific port. Also the opportunities awaiting the Peace River district for trade with coastal points where mining, lumbering and fishing constitute the chief industries and the principal source of supply of basic foodstuffs for these camps at the present time. This is asking for considerable detail but I assure you that this part of the Peace River district feels that Prince Rupert is the logical port to serve the country and it should prove of immense interest to your city.

Yours very truly,
S. R. SMITH,
Sec. Board of Trade.

JUDGE YOUNG FINDS WM. ORAM GUILTY

Sentence as Result of Theft at Swanson Bay will be Passed Next Monday

William Oram, charged with theft of logging equipment at Swanson Bay from the Whalen Pulp & Paper Co. and Otto Giersch was found guilty yesterday afternoon by Judge Young and sentence was reserved until next Monday. Hearing of the case occupied two full days of the court's time and there was a large amount of evidence presented both by the prosecution and the defence. The latter sought to establish that the theft had been actually committed by the prosecution's chief witness. The judge was inclined, however, to hold the defendant responsible. L. W. Patmore prosecuted while S. W. Taylor acted in the defence.

GYRO PLAYGROUND SPACE INCREASED

Site 50 by 100 Feet Will be Cleared at Seal Cove by the City

The city council, on recommendation of the Board of Works, decided last night to clear a space 50 by 100 feet at Seal Cove where the Gyro Club will erect playground equipment. It had been previously decided to clear a smaller space but the city was advised by the Gyro Club that it would be too small for the purpose. The cost to the city of clearing the ground, it is provided, shall not exceed \$450.

EMPLOY ONLY LOCAL LABOR

Formation of "Old Man's Gang" is also Contemplated by Civic Board of Works

That all city work be carried out by local citizens only and that strict instructions to this effect be given all departmental heads was the purport of a report from the Board of Works that was accepted by the city council last night.

A further report from the Board of Works recommending that local old and incapacitated men be placed to work at \$3.50 per day under a good straw boss removing the rock pile on the Aeropolis Hill athletic grounds was laid on the table for a week by the council.

In connection with the latter report, the most of the members of the council concurred with the principle of taking care of old and incapacitated men but the question arose as to whether Aeropolis Hill was the best place to put them. After some discussion, it was decided to lay the matter on the table for a week to permit of the finance committee and the Board of Works conferring on the matter.

The report as to the employment of local men, it was felt, would meet a complaint that was presented to the city council by a group of "old timers and taxpayers" that they were being discriminated against and that "strangers" were getting the preference in city employment.

HILL 60 CHAPTER ELECTS OFFICERS

Mrs. John Manson Re-elected as Regent of Young Women's Branch of I.O.D.E.

TO PROTECT WATER SUPPLY OF CITY

Second Six-Inch Main to be Put in From Ninth Avenue to Dam on Mountain Back of Town

The construction of a second six inch water main from Ninth Avenue to the dam on the mountain behind the city is to be proceeded with immediately it was decided by the council last night on recommendation of the Board of Works. The cost will be about \$8,500. This main, paralleling one that is already there, is intended to protect the city's water supply in case any breakdown should occur in the main between Woodworth Lake and the city.

NAAS INDIANS

Natives of That Territory Refuse to Register Fearing Damage to Land Title

Trap licenses are required from everyone who is out taking pelts and anyone not taking out a license and registering the trap line is likely to have someone else register for the territory. Indians as well as white trappers are required to get a license but while white folks pay for theirs the Indians get theirs free of cost.

All the Indians in this district have taken out trapping licenses with the exception of those in the Naas River. They object because they think it will injure their claims to the land. They reason that if they own the land, as they claim to do, they do not need a trapping license. If they take out a license they are admitting that the ownership of the land is in the province of British Columbia.

In the meantime the Naas Indians are liable to lose their trap lines through not having registered them.

An Infallible Guard

HEIMDAL, according to Celtic mythology, was the perfect sentinel. His hearing was so acute that he could hear the wool growing on a sheep's back. His eyesight was so keen he could see everything that happened even though it occurred while he slept.

Advertising, if you use it properly, is an infallible sentinel for you. It guards you against fraud and inferiority. It protects you against making unwise and unsatisfactory purchases.

Merchants and manufacturers who advertise must give full value because they have good names to protect. The makers of well-known products and the stores that sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair price.

So, you can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products.

Advertising is your guard

Interesting Session Expected to Develop in Police Court This Afternoon

Expected to prove one of the most spectacular sessions ever arising in a local police court, the trial of the Consolidated Exporters Corporation Ltd., on a third charge under the Government Liquor Act, reopened before Magistrate McClymont at 2.30 this afternoon. George Miller, Liquor Board inspector, who has been subpoenaed by the defence which expects to prove that he was aware of irregularities in connection with shipping of liquor from the local warehouse, arrived from Vancouver on the Prince Rupert this morning. There arrived on the same steamer J. J. Walsh, Liquor Board inspector resident here at the time, who will also be put on the stand by the defence.

She Was Troubled With Chronic Constipation

Once your bowels become constipated you are in for a lot of trouble, as constipation is one of the most prolific sources of disease that the human race is addicted to, therefore a free motion of the bowels every day should be the aim of everyone who aspires to perfect health.
Mrs. O. W. Lawrence, Cloverdale East, N.B., writes:—"I was troubled with chronic constipation, and became so bad I was almost afraid to eat anything.
One day I saw your advertisement of

so I got three vials, and after taking them I have never been troubled since with constipation."

Two Companies Financed in England for Goodly Sum Floated in Old Country

NELSON, Feb. 10.—"I am glad to be able to state that I can now announce that I have almost completed organizing two companies, one capitalized for £200,000 under the laws of Great Britain, with a subsidiary one to be incorporated under the laws of British Columbia and to be capitalized for \$225,000" writes Fred A. Starkey, commissioner of the Associated Boards of Trade of Eastern British Columbia, from London to a friend in Nelson. "The main object of both of these companies is to deal with the natural resources of our province."

Mr. Starkey, who represented the British Columbia department of mines at the Wembley exhibition, both in 1924 and 1925, "found it imperative," after the final close of that institution, "to stay in London," so that several matters under his care "should be brought to a successful issue."

Taps Mining Capital
Referring to his efforts to get British capital interested in British Columbia mines, Mr. Starkey further says:

"I am satisfied the connections I have formed are such as will assure the financing of many good propositions in this market in the future. In order to accomplish the above it has been necessary for me to devote all my time to it; in fact, I have not had my evenings free. The press have been very useful to me in giving publicity to my efforts in connection with British Columbia matters generally. This has brought me in direct touch with some of the leading firms, financial, manufacturing, etc., in Great Britain. One reason why I am so pleased with having made the above arrangements is that my efforts and work will not be wasted or lost on my return to Canada, for the above English company will carry on the business on the same lines."

LABOR HOLDS A CONFERENCE

Students at Universities Discuss Education and Other Subjects

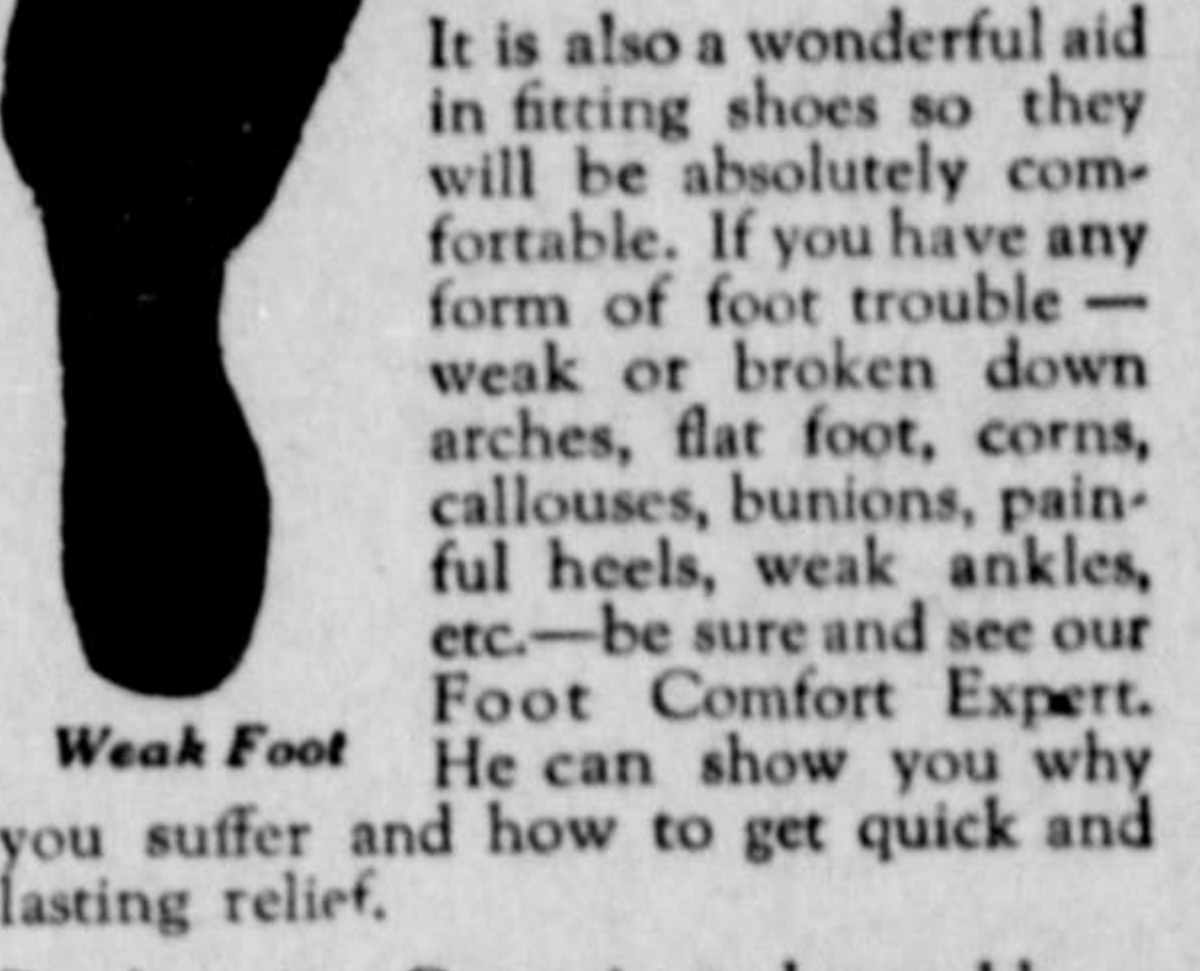

LONDON, Feb. 10.—Arthur Greenwood, M.P., presided at the fifth annual conference of the University Labor Federation, which opened at Leeds on Saturday. There are students attending from the Universities of Oxford, Cambridge, London, Leeds, Wales, Exeter, and Edinburgh.

The conference was welcomed to Leeds by Sir Henry Stesser, Solicitor General in the Labor Government, who said an immense amount of nonsense and misrepresentation had been uttered with regard to the objects of the Labor movement and there was no place where it was more important that a sane constructive view of Labor ideals should be accepted than in the universities. (Cheers). It was unnecessary for the Labor movement to have recourse to seditious and disintegrating views. It was enough that they should translate into political life the powers and ideas they had achieved in other channels.

Present Government Bad
Arthur Greenwood, M.P., in his presidential address, said that in regard to education the government was the worst within living memory. Circular 1,371 represented the greatest attack made in recent years upon the people of this country. He defied the government to prove that there was today any substantial wasteful expenditure on education. The policy of the government was in the interests of the well-to-do, and in justification of last year's reduction of income tax and super-tax. Did the government believe in education or did they not? If they did there was undoubted need for increased expenditure on education. If they did not believe in education, but believed (in the words of Mr. Birrell) that "muck is more advantageous to the community than mind," then let them say so. He charged Lord Eustace Percy with educational dishon-

He had no ground whatever for pressing educational authorities to restrict their expenditure. (Cheers). There had never been a more callous, irresponsible, or mercenary-minded government than we had now. Lord Eustace Percy had delivered a blow again the defenceless section of the community which was absolutely inexcusable in a man who had any regard for the public welfare.

CALLIES' FOOTBALL MEDALS PRESENTED

Event Took Place in Course of Social Evening in St. Andrew's Rooms

A social evening was held last night in the St. Andrew's Society rooms on Second Avenue by the Callies Football Club, the occasion being the presentation of football league medals to the members of the club.

George W. Abbott was in the chair and those taking part in the program included A. R. Hunter, J. Ross, A. Clapperon, J. Black, R. Wood, J. Harris, A. Mitchell, Ald. W. M. Brown and Tommy Black. W. Vaughan Davies was accompanist.

Brief remarks were made by J. Campbell, W. E. Williscroft, J. Wilson and S. D. Macdonald. The presentation of the medals was made by James Black, vice-president, in the unavoidable absence of George Hill, president of the Prince Rupert Football Association. Players receiving medals were: S. Currie, A. McLean, A. Mitchell, R. Wood, R. Macdonald, H. Hamilton, M. Andrews, W. E. Williscroft, J. Harris, W. Mitchell, D. Scott, J. Hamilton, J. Andrews and W. Hamilton.

SPORT CHAT

Skating is at last being enjoyed at points along the Canadian National Railway from Smithers East. Prince George is putting on a big ice carnival and masquerade tomorrow night. There will be half a dozen prizes offered for the best costumes. In connection with the carnival there will be a number of races, open to men and boys and ladies and girls, for each of which first and second prizes will be given. A special feature of the races will be a mile race in which a number of fast local skaters will appear. The skating rink at Prince George is proving its worth each season as offering a desirable form of recreation for the young people and is receiving the support of the residents.

At the end of last week, a Smithers hockey team journeyed to Burns Lake and scored a 9 to 4 victory over their hosts. The first goal was made by Burns Lake but the end of the first period saw Smithers ahead 3 to 1. Smithers annexed another three counters in the second and the count was 2 to 3 for Burns Lake in the final period. The

WESTHOLME THEATRE

TONIGHT ONLY at 7 and 9
CHARLIE "The Gold Rush" CHAPLIN in

A dramatic comedy written and directed by himself. The one and only with the big shoes, the trick derby, little cane, baggy trousers, and funny, shuffling walk turns the hardships of every day life into hilarious fun and uproarious laughter. Under the Chaplin genius man's greed for gold turns to comedy, hardships of the Klondyke seem funny, hunger pangs become the basis for comic antics, lovesickness rouses hilarity, blizzards cause shouts of glee, freezing cold brings the warmth of laughter, heartaches become rib-ticklers, and miseries bring mirth. Everyone should see Charlie's latest and best. Ten big reels.
Strong cast: Charlie Chaplin, Georgia Hale, Mack Swain, Tom Murray, Malcolm Waite, Henry Bergman, and many others.
