## GOVERNMENT AT OTTAWA IS UNDER FIRE

### GERMANY IS DEVASTATED BY STORMS AND FLOODS; MUCH DAMAGE DONE

#### Parliament Adjourns Until Monday After Throwing Out Amendment of Labor Member

House rose at 5.30 this morning following most hectic session since naval debate in 1913

#### NO DIVISION YET ON TORY CENSURE VOTE

Rumor current that Premier Mackenzie King may ask for dissolution after supply is voted

OTTAWA, June 26.—At 5.30 this morning, the House of Commons adjourned until Monday afternoon following one of the most hectic sittings since the naval debate of 1913. The government only postpones until Monday the question of the government's fate on the customs report.

Shortly after 5 o'clock, following a fifteen-hour sitting, Premier King announced that he would accept the sub-amendment of W. R. Fansher, Progressive member for Lost Mountain, under the sub-amendment of J. S. Woodsworth, Labor member for Winnipeg, had been defeated by a vote of 117 to 115. The effect of the Fansher sub-amendment is to provide for the appointment of a judicial committee, adding this to the Conservative amendment but not striking out the censure on the government.

#### FROM M'KENZIE DIES IN SOUTH

Well Known Local Fisherman and Active Member of Great War Veterans' Association.

Mr. MacKenzie left for the south, and was about 58 years of age. A ship's caulker by trade, he left Scotland about 35 years ago and for the past 15 or 20 years followed halibut fishing.

#### WESTMINSTER TO HAVE BEER VOTE

Not Yet Selected, Says Premier in Announcing That Petition Has Been Received.

VICTORIA, June 26.—Referring to the report that a beer plebiscite would be taken in New Westminster on July 3, Premier Oliver announced: "It is not even decided at a vote will be taken in New Westminster although the probability is that it will be taken some time, seeing that it has been asked for by petition."

Frank H. Wall, brother of Mrs. Alex McRae and Mrs. G. A. Under of this city, arrived in this city from Vancouver on the Alala yesterday afternoon. Mr. Wall is a machinist and may reside to locate in the city or district.

#### FISH ARRIVALS TODAY TOTAL 173,500 POUNDS

Five American and Seven Canadian Vessels Sold Catches Here This Morning.

Halibut arrivals this morning totalled 173,500 pounds, five American boats landing 90,000 pounds and seven Canadians, 83,000 pounds. The bids for American fish ranged from 14.4c to 15.8c for first class and from 14c to 14.8c for Canadian. Eight cents was paid for second class fish in all cases.

The day's arrivals were as follows:

#### YOUNG LADIES VISIT EUROPE

Party Leaves Vancouver By C. N. R. on Saturday Night.

VANCOUVER, June 25.—Thirty young ladies, principally from Vancouver, are leaving tonight in a special car attached to the Continental Limited of the Canadian National Railways for Montreal, where on July 2 they will board the Cunarder Aurania for Europe to attend the educational conference of the League of Empire.

An extensive itinerary has been arranged for the party. Almost two weeks will be spent in England and Scotland, where many points of interest, including London. The lakes and Shakespearian country will be visited before the party leaves for the continent. In Paris the visitors will be guests at a number of outstanding social engagements, including a garden party at the British embassy, a gala performance at the opera house and a reception at the Paris University. They will also visit the battlefields and be given opportunities to see Brussels, Bruges and other interesting points.

Some of the party will complete their tour in Cherbourg early in August, but the remainder will continue into Switzerland and Italy and will not sail for Canada until September 18. Every member has been appointed a delegate to the congress in Paris. Miss Burris is representing the B. C. Teachers Federation and the University Women's Clubs, of Vancouver.

C.N.R. steamer Prince George, Capt. Harry Neddien, will arrive from Stewart and Anxox at 7 o'clock this evening and will sail for Vancouver, it is expected, at about 9 o'clock.

#### GLOOMY OUTLOOK GERMAN INDUSTRY

COLOGNE, June 26.—Speaking at the Assembly of Metal Workers at Hagen, Westphalia, the District President, Herr Konig, said the culminating point in the closing down of works in heavy industry had not yet been reached. He had received warnings from a large number of concerns contemplating closing down in the near future among them the great Phoenix works at Horde. Certain other works, in view of the high cost of transport, were considering migrating to Rhineland sites to avail themselves of water transport as being more economical. He considered that if no support was forthcoming for heavy industry, then the migration step was inevitable.

The Thyssen mines, Hamborn, have, however, re-engaged 500 miners, the output being increased, presumably for supplying orders resulting from the British strike. It is expected more unemployed miners will be re-engaged in the near future. In contrast, less time is being worked at the Thyssen smelting and rolling plant in the same town, some departments working only day shifts.

#### One Fifth of Army is Called Out to Give Relief in Areas Being Visited by High Water

BERLIN, June 26.—Fifteen are dead and damage estimated at thirty million dollars has been done to crops and property as a result of floods. One hundred thousand acres of land is under water, storms, cloudbursts and floods being general throughout Germany. The country is suffering the worst catastrophe of this nature in one hundred years.

Twenty thousand members, one-fifth of Germany's regular army, have been drafted into relief service along the Elbe and Oder rivers for hundreds of miles.

#### DEATH OF CARNARVON IS TRACED TO POISON

Coating on Casket of King Tutankhamen Proves Fatal to Many Explorers

SAN FRANCISCO, Cal., June 26.—The death of Lord Carnarvon, famed Egyptologist, long unsolved, has been traced directly to a poison coating on the casket of King Tutankhamen, Dr. Frederick Cowles, Fellow of the Royal Geographical Society of Great Britain, occurred upon his arrival here from the Far East.

The deaths of a number of other excavators of King Tutankhamen's tomb have been definitely traced to the same cause, Dr. Cowles said.

"What the poison was has not been determined," he said. "The poison coating of the casket crumbled into dust with the years, but apparently did not lose any of its strength. Inhalation of this dust was fatal to Lord Carnarvon and several laborers, and caused the acute illness of Howard Carter and others who conducted the excavations."

#### SHRINERS FROM FRISCO COMING

Big Party Left Vancouver Today for Jasper and Prince Rupert.

VANCOUVER, June 26.—The influx of tourists from California booked for trips through British Columbia and the Rocky Mountains section of Alberta this summer commenced in earnest today with the arrival in Vancouver of a special train carrying more than 400 members of the Islam Shrine of San Francisco, bound for Prince Rupert and Skagway.

The train, which consists of eight cars, arrived in Vancouver at 8 o'clock in the morning and left at 12:30 noon over the Canadian National Railways for Jasper, where the party will remain at Jasper Park Lodge for three days. They will leave Jasper on Tuesday, June 29, for Prince Rupert, where they will board the S.S. Prince George for Skagway, Alaska, returning on this steamship to Vancouver, from where they will continue to San Francisco by rail.

The movement is one of the largest individual parties to come to Canada from California and it is the first of several of a similar character which have been arranged for by the National Railways.

G. A. McNicholl, general passenger agent of the Canadian National system, will join the party at Jasper and accompany them throughout the remainder of their trip on Canadian territory.

#### CONGRESS ENDS UP WITH FIGHT

Drenched Eucharists Overwhelm Police and Railway Officials.—Hundreds Injured.

CHICAGO, June 26.—Surging crowds returning from the concluding session of the Eucharistic Congress at Mundelein overwhelmed police and railroad officials in a fight to secure transportation after a terrific rain and hail storm had swept down on the vast assemblage estimated at 750,000 people, drenching participants and onlookers of the ceremonies and ruining princely vestments valued at \$200,000. Hundreds were injured, one hundred being brought here on a special hospital train.

#### LETHBRIDGE YOUTH GETS 25 YEARS IN PEN FOR KILLING

LETHBRIDGE, June 26.—Karl Berdue, aged 23, was yesterday sentenced to twenty-five years in the penitentiary for manslaughter in connection with the shooting last February of his pal, Walter Vero.

WATERFRONT WHIFFS

Salmon fishing is improving--halibut men are doing well--activity in boat building

Encouraging news has been received this week from the Hippo Island trolling grounds to the effect that the salmon run in that district has greatly improved recently. Fishermen and fish packers have hurried over to the west coast to get in on the rush, and old timers predict this is a good sign for the commencement of the canner season proper.

News has come from Dundas Island that the run of fish is gradually improving in that district and the fishermen are quite optimistic as to the final outcome from a revenue hearing standpoint.

That the halibut fishermen, generally speaking, are making good this season is the consensus of opinion on the waterfront. The trips are good both from a quantity and price standpoint and everyone seems pretty well satisfied. Halibut has been coming in well during the past week and prices have remained pretty firm around 15c and 16c for American, and around 14c and 15c for Canadian catches.

Halibut arrivals for the past week (Saturday to Friday inclusive) totalled 679,000 pounds. American vessels landing 342,500 pounds and Canadians, 336,500 pounds. This brings the total landings for the year to 12,026,200 pounds of which 8,700,200 pounds has been brought in by American boats and 3,326,000 pounds by Canadian.

Boats landing catches here during the past week were as follows:

American — Talooch, 24,000; Prosperity, 22,000, Defence 12,000, Imperial 18,500, Wabash 9,500, Lendr 10,000, Betty 7,500, Flattery 7,000, Urania 30,000, President 27,500, Grant 31,000, Sherman 16,000, Onah 13,000, Jack 3,200, Alaska 65,000, Tacoma 12,000, Reliance 8,000, Baltic 13,000, Eastern Point 5,500, Mars 10,000.

LAND ACT

Notice of Intention to Apply to Lease Land

In Land Recording District of Prince Rupert, and situate on Moresby Island, Queen Charlotte District, an unimproved lot, three miles south of De La Roche Inlet.

TAKE NOTICE that The Canadian Fishery Company, Limited, of Vancouver, occupation Salmon Cannery, intends to apply for a lease of the following described lands: Commencing at a post planted at head of inlet about 1/2 mile north of unimproved Creek, thence west 20 chains, thence south 20 chains; thence east 20 chains, more or less, to shore line; thence north, only following shore line to P.O.C., and containing 40 acres, more or less.

forced to return to port on Thursday with a broken trip as the result of his clutch breaking. Cap had to resort to rope and other contrivances to enable him to make port under his own power. A new clutch will have to be ordered from Vancouver but, in the meantime, temporary repairs will be done locally to enable the Kobe to continue in business.

The Hector Mac

For a progressive man it would be hard for the average mortal to compete with Alex. Macdonald, of fire hall fame. It's one thing to take a holiday and enjoy it and another thing to make money into the bargain. With the summer holidays coming around Alex sat up nights thinking out a scheme to make money while at play and his fertile brain hit upon the idea of building a husky boat on which he could take a voyage and turn such voyage to good account. Yes, sir, the Hector Mac is sure a million dollar looking craft alright and, when her skipper is at the wheel with a big cigar in, one would think he had two full diesel engines aboard. Alex has been travelling between Dundas and the little old port with few fish aboard and it is said that he may forsake the fire extinguishing business for the compass and sextant.

Good progress is being made at the McLean yards on the building of the new seine and fish packing boat for Jim Field. The new boat is 50 foot long by a 12 foot 6 inch beam, with a depth of 6 feet, and will be powered with a 35 h.p. semi-diesel engine. It is expected that all the planking will be finished by tonight and that the boat will be ready for operation on July 2.

A Swell Window

After viewing the excellent window display at Ray Love's electrical emporium on the waterfront it makes one wonder, with all their wonderment, if Ray hasn't gone and missed his calling. Yes, probably Ray would have made a fortune dressing windows for a tomb-stone-maker or some such hilarious business. Joking apart, the beauty of the window in question must be seen to be appreciated and it is well worth a few moments of anybody's time to stroll along the front and see it. You can't miss it (the window) because its painted a wonderful red and contains everything necessary for a boat from a can opener to a 50 h.p. compass.

Capt. Jack Kendall is installing a new 12 horse power Enterprise gas engine in his halibut boat Iris. The work of installation is being carried out by Harry Love while Ray Love will do the necessary on the electrical end of the job.

WATER NOTICE

Diversion and Use. TAKE NOTICE that British Columbia Fishing & Packing Co., Ltd., whose address is Vancouver, B.C., will apply for a licence to take and use 3 cubic feet per second of water out of an unnamed stream which flows northwesterly and drains into South Bay, Skidegate Inlet about four miles northwesterly from mouth of Coeha River. The water will be diverted from the stream at a point about 20 chains southeast of subdivision of Lot 917, Moresby Island, and will be used for domestic and cannery purposes upon the lands stated as lease and being the forshore in front of Lot 141, Queen Charlotte District. This notice was posted on the ground on the 30th day of April, 1926. A copy of this notice and an application pursuant thereto are on file in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. Several members of the Gizeh Temple band accompanied by their wives. The party motored to Sidney from Victoria, a distance of about 22 miles. At Sidney they boarded Major Walt Martin's yacht McGaw on which they cruised from Sidney to Cowichan Bay, a distance of 30 miles. At the latter point they witnessed the boat races and had luncheon aboard, to which eighty-one people sat down. From Cowichan Bay to Maple Bay the party cruised, another 30 miles. After spending an hour at Maple Bay, the party left for home at 6 p.m., partaking of supper en route and reaching Sidney at 8 p.m. From Sidney they motored to Victoria via Patricia Bay arriving back at 10 p.m. in time to catch the boat for Victoria. Ralph says it was one of the swellest trips he ever took in his life.

A Grand Regatta

It's a case of hats off to the officers and members of the P.R. Yacht Club when it comes down to giving everyone a good time, and the regatta held on Thursday, which was full of thrills, will go down in local history as a humdinger. "Better than a circus" was one remark made by a visitor as the amateur nauticals cranked and twisted to get the gadgets singing in the right key. But say, boy, those engines had sure been tuned up some and very little trouble was experienced at the starting line. It is rumored that Joe Scott, the successful skipper in the open boat handicap with the Busy Bee, and she sure was a busy girl Thursday, is open to challenge anything that floats for a stick of gum. Don Greer, who won the Suga cup with his cruiser Inlander, is about to refuse a million dollars, more or less, for his craft. And when it comes down to leading a flotilla in a relay race you would travel many nautical miles to beat Dr. J. A. West and the speed eater, Wylo. The Swiss navy going into action would look small beside Dr. West's husky partners.

The M.T.S., Capt. R. Green, flagship of the Bushby fleet, left for Ketchikan on Thursday to bring down a scow of machinery from the old marine products plant in that district, which was purchased some time ago by the Rupert Marine Products Ltd. Tugboat P.R.T., Capt. Harris Kerr, left for the Naas river today to carry out work in connection with the fish hoppers at the canneries in that district in readiness for the fishing season. Fish offal will be towed from the north to the plant of the Rupert Marine Products Co., Tucks Inlet.

Tourists in Harbor

While the Princess Louise was in port on Wednesday afternoon a number of her tourist passengers availed themselves of the opportunity to take a cooler in the balmy waters of the harbor. A party of young men and young ladies took the great plunge from the floats of the P.R. Boat-house and, judging from the manner in which they slid over the water, they had evidently all been born at sea. That the water was real hot can be gleaned from the remark of one of the young ladies "Come on in, the creek is far warmer than in the water at home." Now, for a real cool swim we'll have to find out where that particular creek is located.

The pleasure yacht May Mae, under charter to the B.C. Packers, called into port on Thursday en route to the Queen Charlotte Islands and tied up at the P.R. Boat-house floats. The May Mae is 40 feet long and is powered with a 30 h.p. 4 cylinder Fairbank C.O. engine giving her a speed of 8 knots per hour. The yacht left for the islands yesterday.

The power yacht Winthrop of Tacoma, with a party of American tourists aboard who are making a cruise of the northern Pacific coast, called in port this week for supplies and left on Thursday for the southern trip.

Spanish Battleships

A species of jellyfish strange to these waters have put in an appearance this spring at the Dundas Island trolling grounds where the water is said to be literally teeming with them. They are bluish in color, of oval shape and about the size of a dollar bill but the strangest feature about them is the fin-like protusion which, when projected through the surface of the water, is said to actually have the effect of a sail in propelling them in their movements. Given the name "Spanish battleship," these strange protoplasmic creatures are believed to have come from tropical waters on account of the warmth in the north this year. It is said that the sea water in this district is 20 degrees warmer this summer than usual.
