LAPOINTE ACCUSES MEIGHEN OF COWARDICE IN HIDING BEHIND SLANDERER

EDITORIAL

BUILD UP BUSINESS OF CANADIAN PORTS

So far as it is possible to do without hurting ourselves it should be the general policy of Canada to build up Canadian ports and Canadian railways and employment for Canadian people.

At present by far the greater part of Canadian grain is shipped out of the country through American ports. This is made possible through discrimination in railway rates. The rates to American ports in the east are less, mile for mile, than those to Canadian ports in the west. The result is that American ports are built up at the expense of Canadian ports. American citizens are given employment at the expense of Canadian citizens. American machine shops are busy on work that might be done by Canadian shops, and the population of Canada is decreased while that of the United States is increased. We want friendly relations with the United States. We want to do business with the people to the south. We want to do nothing that will annoy our neighbors, but we certainly would not continue to penalize our own institutions just for the sake of catering to some eastern interests that have been making money at our expense for years. This is not a party question. It is a question for the whole of the people of Canada to deal with as a unit. Prince Rupert particularly should use every ounce of influence to bring about a change that will certainly benefit this national port.

POLERIC CASE DECIDED UPON

Ship Was Unseaworthy and Officers Are Held Responsible With Vancouver Port Warden.

OTTAWA, July 30.—The steamer Poleric, which was loaded with grain at Vancouver and which later returned to port in distress, was unseaworthy at the time of the accident and Capt. Pitt, Vancouver port warden, was partly to blame for her condition, according to a finding of Mr. Justice Morrison, Royal commissioner appointed to enquire into the charges in connection with the loading of the vessel.

"The evidence shows that not only was there slack towing, but also that there were serious structural defects and omissions in fitting out the vessel," the report states. The officers of the ship were held equally responsible with Capt. Pitt.

KOOTENAY WEST NOMINATES GALE

Former Mayor of Vancouver is Nominated at Nelson to Oppose W. K. Esling.

VANCOUVER, July 30.—R. H. Gale came up as a "dark horse" at Nelson last night when he was nominated to contest the riding of Kootenay West in the forthcoming federal election against W. K. Esling, the Conservative candidate. Mr. Gale was for three years mayor of Vancouver and, in the 1924 election, unsuccessfully contested Vancouver Centre against Hon. H. H. Stevens.

Bahamas Are Crippled by Storm That Swept Over Them This Week

Hundreds killed, damage runs into millions of dollars, seventy-five boats sunk and liquor traffic is out of business

NASSAU, July 30.—More than 150 people are believed to have been drowned, damage conservatively estimated at \$8,000,000 was caused and more than seventy-five boats were sunk or destroyed between Monday night and Tuesday midnight in the most destructive hurricane ever recorded in the Bahama Islands. At the Outer Islands, forty miles east of Miami, Florida, eight large rum runners, laden with an unestimated cargo of liquor, were hurled on the beaches and smashed to splinterwood. Officials say that it will be weeks before an accurate check of the death toll and property loss can be obtained. The islands are hit financially not only from the actual damage, but also because of the liquor trade, one of the chief sources of income, being dealt a severe blow.

SOLUTION OF LAKE MONSTER

Okanagan Writer Advances Theory That Creature May Be Sea Cow.

PENTICTON, July 30.—An Okanagan writer propounds the theory that the Okanagan Lake creature seen several times lately, is a landlocked manatee or sea cow, the species having perhaps once roamed the waters of this country when they were warmer and were part of the Mississippi. It is said no accounts given of the creature are inconsistent with the manatee theory.

It is said a prehistoric rock painting on the shore of Okanagan Lake represents a manatee upright in the water, holding its young under a flipper—a habit the species is known to have.

CONNAUGHT CUP MATCH DRAW

WINNIPEG, July 30.—Canadian Collieries of Cumberland and United Western battled to a scoreless draw in the first game to decide the Dominion amateur football championship of Canada here last evening.

Co-operation of Four Cities of West Urged by McGeer in Order to Get Better Rates

Urging that Vancouver, Prince Rupert, Edmonton and Calgary get together in the fight to secure some measure of the kind of deal given to other parts of Canada in the matter of freight rates, G. G. McGeer, freight rates counsel for British Columbia, addressed the Rotary Club at its weekly luncheon yesterday afternoon. He told of the pressure brought by the Maritime provinces in regard to the same matter with the result that they had secured a rate of one cent a hundred pounds for carrying grain a distance almost from Calgary to Vancouver where the charge was 21 cents. The people there threatened to secede if they did not get what they wanted. He said he knew of no provinces so neglected as Alberta and Saskatchewan. If they secured increased population it would benefit the Pacific Coast ports.

Interesting Comparisons
Mr. McGeer showed by reference to the fish business to what extent transportation affected the development of industries. It was a direct and impelling factor. During the war the Government had co-operated with the railways

UNPRECEDENTED RISE IN STOCKS

General Motors, U. S. Steel and Others Reach High Levels For All Time.

DURANT CLEANS UP

Auto Manufacturer Made Million and a Half in One Day.—Four Million in Three Weeks.

NEW YORK, July 30.—With rumors of substantial "melon cutting," some of the country's largest industrial corporations scored sensational advances on the stock exchange. The advance in General Motors and U. S. Steel continued today, the former reaching 194 1/2 and the latter 147 1/2, new high marks for all time in both cases. Other stocks advanced sharply, several gaining new high points with lesser gains scattered throughout the list.

W. C. Durant, the famous automobile manufacturer, who lost two fortunes made through dealing in General Motors stock, scored his third triumph during recent weeks in the same stock and is credited with clearing up \$20,000,000. Yesterday his paper profits were estimated at \$1,500,000.

YANKS ALMOST SURE CHAMPS

To Capture American League Pennant Only Need to Win Half of Remaining Games.

NEW YORK, July 30.—The Yankees yesterday won their eighth straight game by defeating St. Louis for the third successive time and they are now virtually assured of the American League pennant, having only to win half of the remaining fifty six games. The Yanks batted out thirteen singles and Gehrig hit a homer, as did also Rice for St. Louis.

STEVENS MAKES STRONG REPLY

Blames Liberal Administration For Distribution of Poisonous Alcohol.

OTTAWA, July 30.—In an open letter to Rt. Hon. W. L. Mackenzie King handed out last night, Hon. H. H. Stevens, minister of customs, describes as "dastardly in the extreme" certain remarks made by the Liberal leader at Sarnia in his speech in which he referred to the recent deaths in Ontario from alcoholic poisoning.

"If any of this poisonous alcohol is still to be obtained in the Dominion," says the letter, "it is the alcohol you and your colleagues released on the unsuspecting public and I may say, from the middle of September last up to your inglorious exit from office, your government distributed more than 475,000 gallons of this poisonous concoction for beverage purposes."

THREE HUNDRED DEAD IN JAPAN

And Much Damage Done as Result of Floods in Nigata Prefecture

TOKIO, July 30.—The prefectural authorities of Nigata Province estimate the dead and missing as a result of the recent floods at more than three hundred. Several thousand rice fields were destroyed. Communications from the district are meagre but it is reported that the rains which commenced on Wednesday are continuing, that numerous bodies were observed floating in the flood waters and that many inhabitants have fled to the hills.

TO SIT IN DECEMBER

Legislature Will Then Adjourn Until New Year.

VICTORIA, July 30.—The provincial legislature will meet early in December and then adjourn almost immediately until the New Year. This was stated by T. B. Booth, editor of the Nanaimo Free Press, before the Liberal nominating convention at Duncan on Wednesday. Mr. Booth stated that Premier Oliver had announced this plan at a recent private meeting of the British Columbia Liberal executive in Vancouver. The provincial Liberal convention will take place after the adjournment of the legislature.

Mining Development During 1925 in This District is Subject Resident Engineer

(By G. A. CLOTHIER, Resident Mining Engineer)
This development branch of the mining industry was greatly expanded last year. It can be safely stated that there was more widely spread development throughout this district than ever before. From 1917 to 1925, both inclusive, or a period of nine years, 115 companies were incorporated, with mining holdings in the district, of which 65 have been organized in the past three years—13 in 1923, 22 in 1924, and 30 in 1925. In 1924 there were 28 operating companies in the district; in 1925 there were 70, of which 28 continued operations through the winter. It seems only reasonable to predict there will be a number of profitable shipping properties out of this 70 under development. On only a very few properties was there sufficient evidence exposed to conclusively prove their worth. On a great many, however, work is giving important prospective merit to them, but until such time as actual underground work has developed ore of commercial grade and substantial tonnage all these stocks are purely speculative. The ultimate success of many of them will depend on the success

After August 15 Women Will Be Barred from Beer Parlors in Vancouver Owners Decide

VANCOUVER, July 30.—Effective August 15, proprietors of all licensed places in Vancouver for selling beer will ban women from the premises, it was decided at a meeting of the British Columbia Hotelmen's Association on Wednesday. Ever since licenses to sell beer were issued, the question of serving women has been a vexed issue both for the proprietors and the public, considerable criticism being expressed against patronage by young girls. In all of the sixty-two parlors in Vancouver, signs will be displayed barring women, and waiters will be instructed to refuse to serve them.

Former Minister of Justice Levels His Attack on Premier

QUEBEC, July 30.—"I ask the Canadian Press to send my message from here to the Pacific Coast as I declare blushing, that the Prime Minister of Canada is a coward," said Hon. Ernest Lapointe, former minister of justice, at a Liberal rally here last night. The declaration came at the end of a statement in which Lapointe denounced what he termed an "infamous story" concerning the alleged cruise of the customs steamer Margaret with which his name was connected by A. J. Doucet. "Meighen has just given the citizens of this country a despicable example," the ex-minister said. "First he hid behind the governor general instead of shouldering the responsibility for his violation of the constitutional charter of this country. Now he hides behind a slanderer to throw mud at an adversary who always met him in honorable combat."

MANAGER OF ELEVATOR HERE

Leonard Green, who will take over the management of the local elevator on behalf of the Canadian Co-operative Wheat Producers Ltd., arrived in the city on the steamer Prince Rupert this morning.

Mr. and Mrs. S. J. Winsby of Hazelton sailed on the Prince Charles yesterday afternoon on a holiday visit in Vancouver and southern cities. Mr. Winsby is manager of the Royal Bank at Hazelton and was formerly here.

B. C. LEADS IN FISHERIES

According to Report of Provincial Minister, Which Has Just Been Issued.

VICTORIA, July 30.—In his 1925 report on the British Columbia fisheries, Hon. William Sloan shows that the value of the fisheries in Canada for 1924, according to latest figures available when the report was compiled, totalled \$14,500,000, of which British Columbia produced approximately \$21,000,000, or forty-seven per cent.

British Columbia led Nova Scotia by \$12,500,000 and all the other provinces combined by \$6,750,000. The salmon fisheries of the province was valued at \$13,000,000; halibut, \$5,500,000, and herring, \$1,400,000.

DONAGHY MAY BE CANDIDATE

Former Member For North Vancouver Announces He is Willing to Oppose Stevens.

VANCOUVER, July 30.—Dugald Donaghy, member for North Vancouver in the last House of Commons, announced this morning that he would permit his name to go before the Vancouver Centre Liberal nominating convention tonight to oppose Hon. H. H. Stevens in the general election.

Bud Barrie returned to the city this morning on the Prince Rupert after spending a two week's holiday in Vancouver and Victoria.

Freight Rates Fight
in Prince Rupert.

With the sitting of the railway commission here today, the battle for equalization of freight rates to the Pacific Coast is being carried on in Prince Rupert. The commissioners, we know, have a hard problem to deal with in this freight rates question. There should be no difficulty for them to decide that right is on the side of British Columbia as facts and figures prove that. The difficulty is that Eastern Canada got its position of preference long ago and any move that would attract shipments of commodities from the eastern to the western route will be keenly fought against by the East. Prince Rupert and British Columbia is only expecting that the railway board, or any other body that deals with this question, will deal with the matter only on its merits. British Columbia is asking for no undue advantage, but only wants a fair shake with the East. The province has long been patient and grateful for each small improvement that has been effected in this matter. Politicians preach the desirability for unity in Canada. British Columbia can never be fully united with the East until this freight rates matter has been fairly adjusted.

An Optimist
is Visiting Town.

G. G. McGeer, K.C., counsel for British Columbia in the freight rates case, in his public addresses before various bodies in the city during his visit here this week, has painted some pretty word pictures depicting improved conditions for British Columbia and a larger volume of traffic through coast ports, particularly Prince Rupert and Vancouver, that will come as soon as British Columbia gets the equalization in freight rates to which she is entitled to. Mr. McGeer, we have often heard and results already obtained indicate, is a hard fighter. His speeches show that he is a born optimist as well. It is a good thing for Prince Rupert to have visits from men of his type and it is only too bad that his message of hope and faith and his words of pan-British Columbia-ism could not be heard by the populace at large. His words inspire renewed hope in the future whether people agree with him politically or not. He is doing a good work for British Columbia and it is hoped that the fight which he is leading may soon be brought to a successful conclusion.

Let All Customs
Affairs Come Out.

There seems to be a concerted effort among many politicians to keep the customs probe out of the election campaign, says the Financial Post (Conservative).

The customs investigation is an issue in this campaign just as far as good government is an issue. Neither party holds all virtues in monopoly and neither party comes out of the customs enquiry entirely clean. That makes it a little difficult for extensive party gains to be made either way on the customs probe, although there seems to be little doubt which party will reap any benefits that do accrue.

The effort to choke off discussion of the work of the inquiry committee and the revelations of that work is to be deplored. The more that the evidence of the inquiry is carried, via the public platform, to the man on the street and the concession line the better for good government. Those who have nothing to fear from the publicity need have no troublesome thoughts as to the effect upon their careers.

In these days there is distinct apathy towards crooked work in high places. The mild, resigned acceptance by the Americans of the Pennsylvania election bribery disclosures is evidence of a dangerous lack of public insistence upon political honesty. Canada wants to avoid anything so despoiling of virile nationhood as an acceptance of corruption as bad but inevitable.

Let them talk all they want to about the customs inquiry. It cannot do harm.

MINING DEVELOPMENT DURING 1925 IN THIS DISTRICT IS SUBJECT RESIDENT ENGINEER.

(Continued from Page One)

dustry and every effort should be made to standardize them by the suppression of those using questionable methods of stock-selling.

In the Atlin section the three properties, the Engineer, Gleaner, and Atlin Silver-Lead Mines, were steadily developed all year, with results justifying further work. In placer, upper Spruce Creek has been extensively explored and good "pay" proven, but productive work is prohibited by lack of drainage for the excess water. The Discovery Mining and Power Company has installed a pipe-line and all equipment for sluicing on Pine Creek.

Dease Lake

Several plants have been taken in to the Dease Lake section this year and it is predicted that production in the future will become important. Developments on Gold Pan Creek, while not sensational, have been fairly satisfactory. It was the best season this section has had for many years and the prospects are very encouraging.

In the Salmon River (Portland Canal) section seventeen companies have been working and there are several outstanding features for the past year. The intensive and thorough investigation of the ground of the Forty Nine Mining Company, Limited, by the Premier Gold Mining Company apparently did not prove encouraging, as all work was stopped and equipment removed. The development of the Big Missouri under the Standard Mining Corporation is reported as very gratifying. Sufficient work will have been done by spring to decide the future policy of the company. The Bush Mines property, under development by the National Silver Mines, Limited, by diamond-drilling, has been taken over on a working basis by the Selkirk Mines. The B.C. Silver Mines has opened up a very satisfactory ore-body and the future of the property is most promising. The Premier Gold Mining Company has had a very successful year and by the doubling of the concentrator and power plant gives every assurance for the future.

The B.C. Bonanza Mines, Limited (Spider and Web groups), has made small shipments in 1925 and is planning extensive development.

The Indian Mines Corporation made one shipment early in 1925. The property was then closed down for a time, but is again being operated and shipping ore now.

The Northland Mining Company sent out a small shipment for testing purposes. The Silver Crest has been developed all year and this work will be continued throughout the winter.

The Salmon River valley altogether gives every reason to expect operations on a large scale, very probably in 1926.

Bear River

The Bear River section (Portland Canal) has also had a very active year of development, twenty-five companies having been operating during the year. Several companies incorporated last winter did not get any work done and a number have had to curtail operations or close down entirely because of lack of capital. The non-operation of the Dunwell Mines seemed to have caused a feeling of doubt in the public mind and money was therefore hard to raise.

Some very encouraging results were obtained on a number of properties and it is being realized more and more that ample capital is required to put a property on a dividend-paying basis.

The important feature would seem to be the reorganization and resumption of work on the Dunwell. A new vein was discovered this spring on the northern portion of the property and sufficient work done on it during the summer to prove it of great importance to the property.

The Glacier Creek Mining Company will proceed with diamond-drilling again since power is available from the Dunwell. The Lakeview was closed for a time, but development has been resumed. On the Emperor the vein has been cut in the long crosscut tunnel and it looks as if a tonnage of milling-grade ore would be developed.

The L. & L. has been further developed and some ore been shipped therefrom. The Albany Mining Company, Limited, is going ahead with development work on the Albany. The Mimico Mining Company was organized to operate the Mimico, but no

work was done in 1925. The Phoenix Silver Mines Company had a few men on exploratory work during the summer of 1925. The discovery on the Dunwell has made the adjoining ground of the Victoria Mines, Limited, worth extensive exploration. The Ore Mountain Mining Company properties above Bitter Creek, the Ruby Silver, the Terminus, Rufus, Argenta, George Copper, and Red Top have all been explored more or less during the year. On the Independence a lot of work has been done, with results that warrant future exploration, while farther down the west side of the valley the United Empire and Bayview show up very well.

On the Marmot River three companies have been working. The Porter-Idaho Mining Company has been shipping and developing; the Marmot Metals Company has been exploring the Montana, and the Sterling Silver-Lead Mines, Limited, some claims up the North fork.

Owners of claims at the head of Bull Dog Creek and Georgia River have been working on them all summer.

Alice Arm

At Alice Arm only three companies operated to any extent last year. The Kitsault Mining and Development Company has done considerable work on the Matilda and other groups at the head of the Kitsault River. The Alice Arm-La Rose Mining Company has driven a crosscut tunnel. The Esperanza has shipped considerable ore and other properties have been developed by the owners.

The outstanding feature is the opening-up of the Toric by the Homestake Consolidated Mining and Development Company.

In the Kitsumgallum Lake section active development of the Bear, Black Wolf, and Glen have been carried on by the Hopper-Davis syndicate. The Klutze Lake Mines Company has been drifting on the vein from the bottom of the shaft.

On Thornhill mountain, across from Terrace, development work on several claims is being done by O. P. Brown.

Down the coast the Belmont-Surf Inlet Mines, Limited, has worked steadily all year. The Klutze River Mines, Limited, did some preliminary work on the Western Copper at the head of

LAND ACT.

Cassiar Land District. Land Recording District of Prince Rupert, and situate on Atlin Lake about 35 miles southwest of Atlin Township.

TAKE NOTICE that Edwin Jules Eggert, of Atlin, in the Province of British Columbia, occupation operating tourist launch, intends to apply for permission to purchase the following described lands:— Commencing at a post planted at the southeast corner of Glacier Bay, in Atlin Lake, situated as above; thence following the shore line west 20 chains; thence south 20 chains; thence east 20 chains; thence north 20 chains, to point of commencement.

EDWIN JULES EGGERT, Applicant. Dated May 10, 1926.

Klutze Inlet, the Paisley Point Mines, Limited, has taken over the old Drum Lummon property and commenced exploratory work.

Production

The following is a list of the shipping properties in District No. 1 and their outputs for 1925:

	Ore mined	Tons
Engineer	1,700	
Cherokee	10	
Esperanza	156	
Golskeish	5,264	
Hidden Creek and Out-		
sider	1,163,258	
Wolf	17	
Belmont	78,640	
Goldie	2	
Bayview	9	
Dandy	7	
Indian	30	
Porter-Idaho	177	
Premier	168,553	
Silverado	2	
Spider	7	
Silver Crest	1	
Terminus	6	
Total, 1925	1,117,843	
Total, 1924	1,297,268	
Increase	120,575	

The above table shows a number of new shipping properties, the majority of which have sent out a small shipment for test.

(continued on page five)

WATER NOTICE

Diversions and Use
TAKE NOTICE that Somerville Cannery Company Limited, whose address is Gore Point Wharf, Vancouver, B. C., will apply for a license to take and use 20 gallons per minute of water out of an unnamed stream, which flows northerly and drains into Ferguson Bay, Masset Inlet, about 30 chains west from S. E. corner lot 1571, Q. C. District. The water will be diverted from the stream at a point about 6 chains from mouth of stream and will be used for industrial and domestic purposes upon the land described as Block A, Lot 1571, Queen Charlotte District. This notice was posted at the front of S. W. corner lot 1571, Q. C. District, on the 14th day of July, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C., objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 29, 1926.

Don't forget the KLIM!

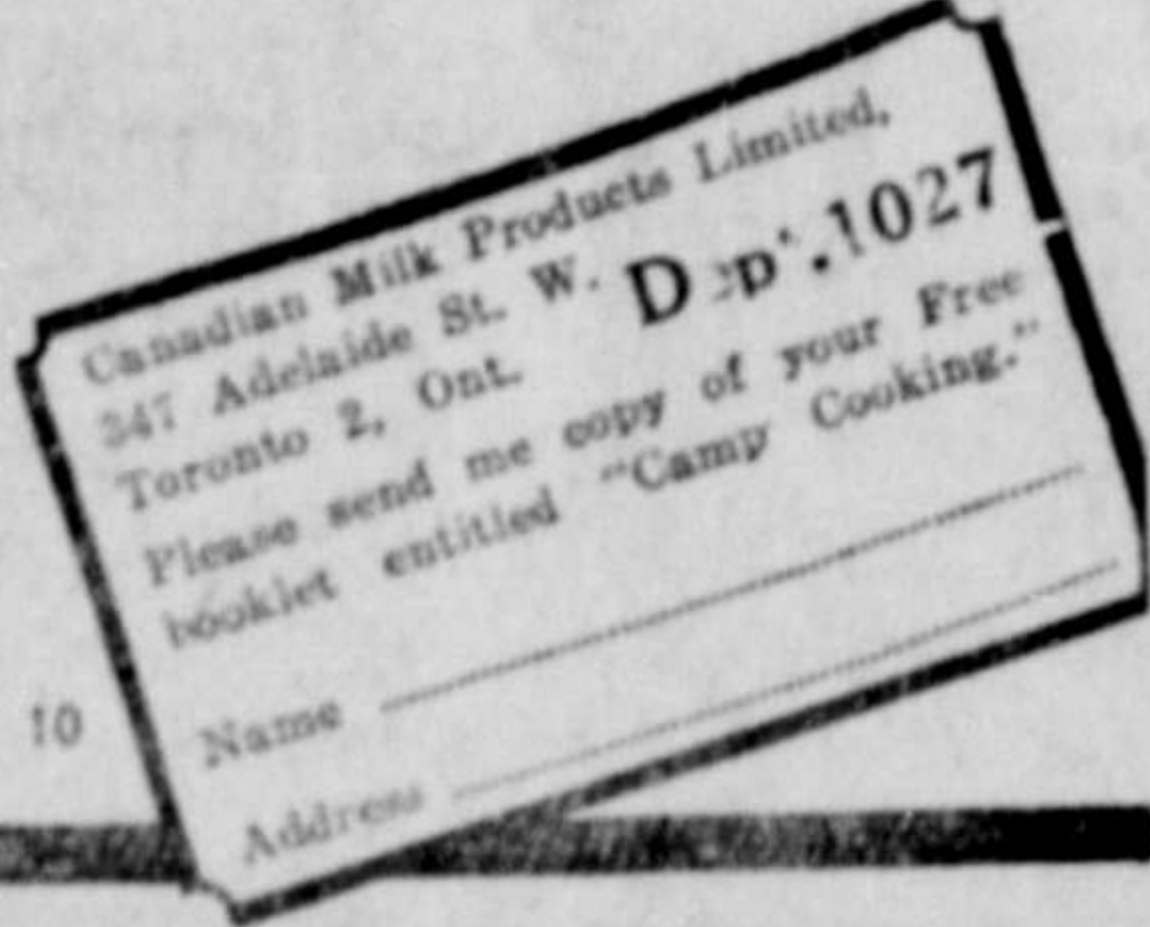

Do You Like Lemonade? "Lemade" is powdered fresh lemon juice made from fresh lemons in the same way as KLIM. It contains no artificial color, flavor or added acid. Already sweetened; just dissolve in water and you have cold refreshing lemonade. Send 25c for trial tin.

In the BACK when you leave, of course — but very much in FRONT when you reach the cottage!

Indispensable in these summer days, simply because there is no substitute for the New Klim, powdered full-cream milk. Add water to it, and what have you? Real milk, whole milk, milk that is as wholesome and satisfying as when Nature made it, milk that is appetizing — all these but, also, milk that is SAFE, because pasteurized, and milk that carries easily, any distance, and keeps in any weather.

Canadian Milk Products Limited 347 Adelaide St. West, TORONTO

Miss Madge Murphy is leaving for Los Angeles to spend the next few months. — Vancouver Star.

H. Creelman of Terrace sailed on a holiday trip to Vancouver on the Prince Charles yesterday afternoon.

O. B. Bush, prominent mining man of Stewart, is a passenger on the Prince Rupert today en route north.

Major Montague Furber has returned from Prince Rupert where he spent some time.—Vancouver Province.

J. K. Gordon arrived in the city on yesterday afternoon's train from Terrace in the course of a business trip.

The football game scheduled for last night between the Cold Storage and the Moose was postponed on account of rain.

Fred Stork returned to the city on the Prince Rupert today from Vancouver, having stopped off at Ocean Falls on the way up the coast.

Despatches from Ottawa confirm that the government has given permission to the Canadian Fishing Co. to operate its salmon traps in Portland Inlet.

Jack Lawrence and Kenney Road left for Anyox this morning aboard the former's power launch Argo to spend the week end. They will return to the city on Tuesday.

Word has been received in the city of the marriage of D. H. Morrison, formerly of Prince Rupert and now of Vancouver. Mr. Morrison returns to Vancouver this week from the East with his bride.

E. M. Haines, post office inspector, who has been in the north for the past two weeks in connection with departmental duties, will sail for the south on the Prince Rupert tomorrow evening.

C. P. R. steamer Princess Louise, Capt. A. Stater, docked at 8.45 o'clock this morning en route to Skagway, Alaska, for which point she sailed at 12 noon. The boat carried a heavy complement of round-trip tourists. Passengers debarking here included Mrs. Joe Hanson and Mr. Georgeff.

Frederick Nelson Eddy, chief officer of the C.G.M.M. steamer Canadian Prospector, which is due at the dry dock here, was married last week in Nanaimo to Miss Marjorie Allison Randie, R.N., daughter of Ald. and Mrs. Randle of Nanaimo. Mr. and Mrs. Eddy will spend their honeymoon in Northern British Columbia.

Henry Kvalnes was fined \$25 and costs in the city police court this morning by Magistrate McLeod on a charge of intoxication.

Mrs. Lawrence Moore and son arrived in the city from Bellingham on the steamer Prince Rupert this morning to visit with Mrs. Moore's parents, Consul and Mrs. E. A. Wakefield, Fourth Avenue West.

Dan Lindeborg, pioneer Stewart prospector, is a passenger on board the Prince Rupert today going through to Stewart. He is accompanied by members of the Tacoma Syndicate to visit the Big Missouri Mine was sold last year.

A party consisting of ten people, under the conductorship of the Wilkinson Tours, arrived from the eastern states on the Prince Rupert this morning en route to Stewart and Anyox. They will return south on the same vessel.

Col. William T. Perkins of Seattle, president of the Northern Securities Co., is a passenger on board the steamer Prince Rupert today going through to Stewart to inspect the Vancouver Mine on Bear River in which he is interested.

Mrs. G. T. Hibbard and daughter were passengers aboard the Prince Charles yesterday afternoon for the south on a holiday trip. Mrs. Hibbard will visit Jasper Park on her return north, and Miss Hibbard will visit in Paoli, Pennsylvania.

Mr. and Mrs. J. Ginnely were passengers aboard the Prince Charles yesterday afternoon en route to Vancouver after making the round-trip to Anyox, Stewart and Queen Charlotte Island points. Mr. Ginnely is assistant freight claims agent C.N.R. Vancouver.

R. Hetherington, general manager of government elevators, arrived here this morning from Fort William and will remain in the city a few days in connection with the turning over of the local grain plant to the Wheat Pool. Mr. Hetherington is accompanied by his wife and they are guests at the Prince Rupert Hotel.

CITY CUTTING DOWN STAFF

Road Work to be Curtailed and Utilities Force Cut

TAXES COMING IN WELL

The city council, having adopted a policy of retrenchment, no additional road work will be undertaken after the present work is finished, although maintenance work will still be continued. The tarvia work on surfacing the roads will be commenced next week. The tarvia material and spreading apparatus is due to arrive at any time now.

The overhaul of the electric light department will be curtailed in future and to this end one lineman and two laborers have been laid off and the consolidation of the clerical work in the city engineer's office and the utilities office is under consideration.

The last day of payment for city taxes is August 1, after which date a penalty will be enforced. City treasurer Matheson stated this morning that the taxes were being paid up well and the collections are equal to any previous year at this time.

QUESNEL BRIDGE CONTRACT IS LET

Firm of Watson & Kennedy Will Build Structure to Link Central B. C. With South.

VICTORIA, July 30.—The contract for the new highway bridge across the Quesnel River at Quesnel has been awarded to the firm of Watson & Kennedy, of Vancouver, at a cost of \$43,000. The fills needed in connection with the construction of the bridge will be handled by the public works department.

LINEAGE IS BLOTTED OUT BY MARRIAGE

Pure Blooded Hawaiians Disappearing Owing to Inter-racial Union

HONOLULU, July 29.—If inter-racial marriages in Hawaii continue at the present rate, it will be a wise child after a few generations who even knows to what race his ancestors belonged, in the brief of Dr. Romano Adams, head of the department of sociology at the University of Hawaii.

Thirty-five per cent of the marriages of white men in the islands are with women of other races, Dr. Adams said. More white men than women contract inter-racial marriage because there are more white men here owing to the presence of large numbers of soldiers.

The pure blooded Hawaiians and Portuguese are disappearing, he said, while the part-Hawaiian and the part-Portuguese groups are growing.

The result of this biological amalgamation is still in doubt, says the scientist.

NATIVE LIFE IS CHANGING

Northern Indian Turning Miner and Gardener, Says Veteran Fur Trader.

EDMONTON, July 29.—Indians in the northern trapping grounds enjoyed a "fat" season during the past winter, declared A. J. Laflair, prominent fur trader and trapper who has been "in" since 1921, whose post is at the mouth of the South Nahanni River and who trades into Fort Simpson into Fort Simpson upon his arrival from Waterways. He looks for another bountiful season next winter.

The Indians, said Mr. Laflair, are seeking to imitate the white man more and more and the old idea that they resented palefaces coming and taking the land that was theirs by possession he considers erroneous. What the Indian does resent is the white man "beating him to" anything. If there is a new discovery of any kind in the north the Indian wants to be the first one in on it.

Since the 1921 flu epidemic swept over the northern tribes, said Mr. Laflair, the Indians have enjoyed better health than for years. As proof of their advancing ideas Mr. Laflair mentioned that one breed had ordered a gasoline launch and another had installed a sewing machine.

The past winter, he said, had been mild and this had to some extent spoiled the quality of the foxes as the snowfall had been light leaving many branches uncovered and these scraped fur off the animals. Gold is known to exist along both sides of the Nahanni but so far only the mouth has been panned. The Indians are assisting in bringing in samples of rock for geological purposes and this spring brought in a quantity of white iron showing strongly of arsenic.

Gardens are now features of Indian encampments.

TRYING TO LOCATE NESTING PLACE OF FAMOUS BLUE GOOSE

HARRISBURG, Pa., July 29.—Along the shores of Hudson Bay, Dr. George M. Sutton, head of the educational bureau of the state game commission, in company with W. Clyde Todd, curator of birds of Carnegie Museum, and John B. Semple, of Sewickley, are trying to find the nesting place of the blue goose. The expedition will be gone for three months for which time Dr. Sutton was granted a leave of absence without pay.

The trip is financed by Mr. Semple and while other informa-

tion may be obtained and various rare specimens secured the men were lured into the northern country by the call of the blue goose. It is a migratory bird spending the winters in the south and going north for the summer. So far, Seth E. Gordon, of the state game commission, said scientists have been unable to find its nesting place.

PEGGY JOYCE CALLS OFF ENGAGEMENT

NEW YORK, July 29.—The engagement of Peggy Hopkins Joyce and Stanford Comstock, latest of her fiancés, is off. In a radio message from the Home on which she is sailing to Paris, Miss Joyce confirmed rumors of a break with the real estate operator. "Changed my mind—woman's privilege—not marrying anyone," she said.

DR TAIT LEAVING CITY NEXT WEEK

Popular Dentist Sells Business and Will Leave for South After Several Years Here.

Dr. E. S. Tait, who has been engaged in the practice of dentistry here for the past few years, is returning south and expects to leave the city with Mrs. Tait about the end of next week. He has disposed of his practice to Dr. Hay of Vancouver and Dr. Bryant of Vancouver Island, who have already arrived in the city. Dr. and Mrs. Tait have made a wide circle of friends during their residence in the city and their departure will be regretted by many friends.

In The Letter Box

GARBAGE SERVICE

Editor, Daily News:

In reply to criticisms of my action in support of the bylaw to collect fees for the garbage and nightsoil services will you permit me a brief explanation?

I do not consider the charge a tax as some would have us believe. I believe this to be a charge for a service just as fair as is any charge for water, light or telephone services. It is enjoyed by a minority of the taxpayers and not in like proportion to the sums paid in taxes. It takes approximately two mills on the taxable assessment to provide such a service and the following is a fair example of how it works out with two well known taxpayers of the city.

Lots 11 and 12, block 23, sec. 1, owned by Brother Moody,

ELKS' DANCE LAST NIGHT SUCCESSFUL

While the inclement weather prevented the Elks' Flag Day celebration yesterday insofar as the field sports and parade were concerned, it did not in any way mar the success of the dance held in the Moose Hall last night. A large crowd attended and enjoyed the many fox trots, one steps and waltzes played by Arthur's orchestra. The hall had been prettily decorated with flags and streamers. Delightful refreshments were served around midnight after which dancing was continued until the early hours.

MINING DEVELOPMENT DURING 1925 IN THIS DISTRICT IS SUBJECT RESIDENT ENGINEER.

(continued from page two)

There has been the rather substantial decrease of 603,720 oz. silver or about 20 per cent from last year. Of this, the Premier's decrease is 652,000 oz., the Granby's 34,000 oz., Porter-Idaho's 11,000 oz., and Esperanza's 9,000 oz. However, the Premier may with increased milling capacity make up the deficiency. The B.C. Silver and Dunsmuir will start shipping the first of 1926, which should materially add to the output. The Toric may come in with a substantial production in 1926, depending on the completion and operation of the concentrator, for which the foundation is laid. Porter-Idaho, L. & L., La Rose, and possibly the Esperanza and Bayview may contribute in a smaller way. It is not likely that the Atlin Silver-Lead Mines will ship to any extent in 1926, as all efforts will be confined to development work. Everything considered, the future for silver in this district looks distinctly rosy.

The old "stand-by," the Granby Consolidated, made a record copper production of 39,510,163 lb. last year, an increase of 3-

would pay on an assessment of \$22,000, or \$44.00 per year for a service enjoyed by others, this property being on a sewer paid for by the owner.

Lot 17, block 41, sec. 5, owned by Fred Wermig, would pay on an assessment of \$290, or 58 cents per year at a two mill rate. This property enjoys a service now costing at the rate of \$12.00 per year.

Why should Moody pay \$44.00 for a service he does not receive? Why should Wermig not pay for the service he does receive? Thank you, Mr. Editor. Yours very truly, M. M. STEPHENS, Alderman.

large crowd attended and enjoyed this year are very bright. A better yield can be expected from the Dease Lake country next year. The operating of the newly installed plant on Pine Creek, Atlin, gives every promise of a fair yield, at least for the first year, after which it will in all probability increase to a very substantial figure.

LEAD AND ZINC

The output of lead in the district has not been taken very seriously, yet this year it has almost reached 1,000,000 lb., due mainly to the increased lead content in the Premier ore. Its volume will increase as the smaller shippers increase, there being a small percentage of lead in all the gold-silver ores throughout the district.

There is, as a rule a higher percentage of zinc than lead and this metal will therefore become increasingly important as shippers are developed. The McGrath Mountain area at Alice Arnh has zinc showings, indicating important deposits, and is therefore worth investigation.

SHIPMENTS OF LUMBER FROM PORT CLEMENTS

Lillehorn Takes Lower Grade to Vancouver—Airplane Spruce Next Week.

"We shipped our first cargo of rough lumber south to Vancouver from the Port Clements mill this week on the motorship Lillehorn," stated F. L. Buckley, owner of the plant, who went south yesterday afternoon on the Prince Charles. "From this time on we expect to make regular shipments. Everything is going on nicely there."
Mr. Buckley further stated that he would be making the first shipment of airplane spruce to Vancouver next week for shipment to the Canadian Vickers at Montreal. This is the very highest grade of Sitka Spruce and every piece in the shipment has to be carefully inspected.

SEES RATTLER ON DOORSTEP

Goodly Sized Rattlesnake Killed at Close Quarters in Pentiction.

PENTICTON, July 30. — When she opened the front door, Miss Roselle James was startled to see a goodly sized rattlesnake peacefully sunning himself on the doorstep. Miss James fortunately had a hoe in her hands, and with admirable presence of mind and courage she killed the snake. It was later skinned and the skin treated. Miss James now has a souvenir of her adventure.

CANCELLATION OF RESERVE

BARGE SINKS IN STEWART RIVER BUT ORE IS SAVED

While making the treacherous bend at the Devils Elbow, in the Stewart River, the steamer Canadian had the misfortune during its last trip down-stream of swamping its large barge Me-Questen, laden with silver concentrates. The accident occurred during a high windstorm. By dint of the mighty efforts of the crew and the able bodied passengers on board the ore was salvaged and piled upon the bank pending the next trip of the ore boat to Stewart City. It will not be a difficult matter to salvage the barge as well as soon as the water in the Stewart goes down a little. Dawson News.

the crew proceeded to Victoria with the disabled fishing boat in tow.

NUNAN IS PRESIDENT OF COMMERCIAL CLUB IN KETCHIKAN, ALASKA

KETCHIKAN, July 30.—H. C. Nunan, manager at Ketchikan for the New England Fish Company, has been elected president of the Ketchikan Commercial Club, succeeding E. G. Morrissey, who has been president for two years and who refused re-election. F. H. Bold was elected vice-president and George W. Woodruff and W. A. Bates, were re-elected secretary and treasurer, respectively. Mr. Nunan served as vice-president during the incumbency of Mr. Morrissey as president.

DISABLED FISHING BOAT IS RESCUED

But for the timely arrival of the Consolidated Whaling Corporation's steamer Gray, which was en route to Victoria from Rose Harbor, the United States fishing boat Fairway and crew of five men might have been a total loss recently.

When crossing Hecate Strait the whaling ship sighted the fishing boat Fairway drifting helplessly and wallowing in the heavy seas that always run in Hecate Strait. Heaving to, the tender signalled to the vessel, and upon learning that she had broken her tailshaft put a line aboard, drew the nineteen-ton craft alongside, and transferring

IMMENSE AMOUNT IS BET ON RACE TRACKS

VICTORIA, July 30. — During the fifteen days of racing to date on British Columbia tracks, a total of \$1,700,000 has been wagered. With twenty-seven more days of racing it is expected the total will reach \$4,000,000.

Ten Years Ago in Prince Rupert

Miss Evelyn Lipssett, who has been the guest of Mr. and Mrs. Harry Lipssett for the last few weeks, returned south today.
Mrs. Alex. Smith and child of Dominion cannery are visiting Mrs. W. L. Howell, Second Street. They arrived in town last evening.
W. E. Burritt returned from Vancouver this morning. Mrs. Burritt and little daughter, Flora, will leave Vancouver today for Los Angeles.

PENTOWNA ENTERS OKANAGAN SERVICE

Motorship Which Was Fabricated Here Started Regular Schedule This Week.
PENTICTON, July 30. — The Pentowna, new Canadian National Railways boat which was fabricated at Prince Rupert and put together here, commenced her regular service this week between Kelowna and Pentiction. On her maiden trip the crew and council and a number of prominent citizens of Kelowna were aboard. The government wharf here is being rebuilt for the accommodation of the vessel.
